

Questions And Answers Show How Income Tax Will Hit All Americans

WASHINGTON, D. C. Oct. 10. (UP)—Here is a question-and-answer summary of the main features of the New Victory Tax which the Senate adopted yesterday:

Q. Who is subject to the Victory tax?

A. Everyone earning more than \$624 next year—or \$12 a week—will pay a Victory Tax next year. It does not apply to 1942.

Q. How much is the tax?

A. Five per cent of everything you earn over and above your \$624 minimum exemption. If you earn \$2,624 next year, you will pay a Victory Tax of \$100 in addition to your regular income taxes. The tax is the same for married and single persons, and there is no additional exemption for dependents. But if husband and wife both work, both get the \$624 exemption.

Q. Does the government keep this money for good, or will some of it be returned?

A. A part of the tax is refundable. The refund amounts to 25 per cent of the tax paid for a single person, 40 per cent for the head of a family, and an additional two per cent for each dependent. If you are married, have one child, and pay a Victory Tax of \$100, you would be entitled to a \$42 refund.

Q. When and how could I get this refund?

A. If you are entitled to a \$42 refund, under certain conditions you could get it right away in the form of a credit against your Victory Tax. In other words, you would pay the government \$58 instead of the full \$100. These conditions are that during the year you must have spent at least \$42 for buying war bonds, paying off a mortgage or other debt outstanding on Sept. 1 of this year, or paying premiums on a life insurance policy which was in force on the same date. If you haven't done any of these things, you will have to pay the full \$100 and wait until after the war for your refund.

Q. How will the Victory Tax be collected?

A. If you are a wage earner—other than a farm or domestic worker or a member of the armed forces—your employer will deduct the tax from your paycheck and forward it to the government. All others will pay the tax on March 15 of each year—or by quarterly installments—together with the regular income tax. For example, if you earn \$24 a week your employer will take 60 cents out of each paycheck, which is 5 per cent of \$12.

Q. Suppose I earn \$24 a week, but work only 20 weeks out of the year?

A. Since your annual earnings are only \$480, which is less than the exemption, the government would pay you back all that had been withheld from your paychecks, or \$42, at the end of the year.

Q. If I earn more than \$624 a year, and pay my whole Victory Tax through paycheck deductions, how do I get my refund if I am entitled to take it right away?

A. If you had \$100 taken out

New Yank Paper In AEF Brings Back 'Dere Mable'

By LEO DISHER
United Press Staff Correspondent

LONDON (UP)—The American doughboy in London has found a new voice in "Tab," another soldier newspaper written in man-to-man language, with a few choice Army cusswords thrown in.

The new paper, "published in England by a unit of the U. S. Army for their enjoyment and for their friends back home," is mimeographed in tabloid size. It now ranks with the more formally printed "Stars and Stripes" as the organ of the U. S. Army in Europe.

"Tab" in many ways is a throwback to the days of 1917 and 1918, but most particularly in the letter on page seven of the latest edition, from Bill to "Dere Mable," which should cause some flip flops in the memories of the men of the 1917 AEF.

"Yore letter received and glad of it," Bill opens. "The fudge was good but I can't understand why Pop had to give up any sugar for it. Does he put sugar in his beer now, Mable? Or did he take up drinking tea and coffee? Pop ain't sick, is he, Mable?"

The letter ends: "Don't worry about the bombs either, 'cause they whistle when they drop, and every time I here a whistle I run so they won't ever catch 'r." Mable.

"I don't feel so good tonight so I'll have to stop now. Wishing you are the same, Love, Bill."

Tab's twelve pages carry news briefs from the United States and London, poems, and doughboys' gossip columns.

The cover carries a drawing of an open-mouthed U. S. soldier swishing his head around for an open-eyed stare at a passing well-bilt "babe" over the caption: "Army command—eyes right!"

"As much as Tab is also for the soldiers' "friends back home," however, "Tab hastens to explain in an entire column on an inside page:

"We look at this beautiful globe and wonder why we must be so far away from our sweethearts and wives. Then we think how wonderful it will be to get back again, and as we walk along, you are upmost in our thoughts."

Transportation Of Farm Products Is Most Vital Now

COLLEGE STATION, Tex. — Farm products must be kept moving to market and for that reason USDA War Boards likely will play a vital role in all future farm transportation activities.

B. F. Vance, chairman, Texas USDA War Board predicted this week.

At the present time, attention is focused on gasoline rationing, tires for farm trucks, tractors and implements, and Certificates of War Necessity for farm trucks and tractors and trailers.

Already underway are negotiations between the USDA, the Office of Defense Transportation, and the Office of Price Administration to define clearly the duties of USDA War Boards in current transportation problems.

Discussion includes the place of War Boards in: (1) assisting farmers in filling out Certificates of War Necessity which go into effect on farm trucks and trailers November 15; (2) certifying to local OPA War Price and Rationing Boards farmers' gasoline needs for tractors, engines and other non-highway usage, as well as farm passenger cars hauling farm products; (3) certifying farmers' participation in local pooling arrangements as one condition to get tires, tubes and rears for trucks and other vehicles; (4) certifying for tires, tubes and rears for tractors and other farm implements.

"Keeping a steady flow of farm products moving from the farm to market is one of the biggest jobs we have faced and it's one in which we cannot fail," Vance said. He urged county USDA War

Cotton Program Calls For Longer Staple In Future

J. D. Guy, E. E. Blackwell, L. F. Johnson of the Triple A office and County Agent Floyd Lynch of the Extension Service of A. & M. College, and his assistant E. M. Gossett attended a District Meeting at Abilene which was held for the purpose of starting a Cotton Improvement Program.

The War Production Board has issued a call from Washington urging farmers to grow larger amounts of the longer staple varieties of good grade in order that mills under government contract may have a full supply of such cotton needed in the manufacture of cotton war goods in which strength and durability are essential.

A recent survey shows that there is an over supply of cotton of the lower grades, below 15-16 inch in staple length, and a serious shortage of the higher grades, and staple lengths 15-16 inch and above. In order to cover this shortage of the desired types of longer staple cotton, those varieties must be grown that will insure an adequate and dependable supply of these types for war purposes, it is imperative that farmers give special attention to the selection of varieties for planting the 1943 crop.

For many years the state and federal government experiment stations have been conducting variety tests of cotton to determine the varieties and strains best suited to the different agricultural sections of Texas.

The varieties best adopted to this section (Eastland County) are Rogers Acala, D. P. & L. of Scott, Miss., California Acala, Care E. M. Cook, Cooperative Gin Association, Georgetown, Texas.

Considering the state as a whole, the Experiment Stations results show that longer staple varieties with good spinning performance can be grown profitably in all sections. These varieties mentioned above are better suited to meet the war needs than the short staple varieties and a more extensive planting of them is of great importance in these critical times.

It is quite probable that the government will in the future buy cotton on its merit instead of the "hog-round method" of buying that is common.

Any cotton farmer should make arrangements to get his planting seed now. For further information contact your county agent.

Survey Of Farm Workers Is Started

COLLEGE STATION—A spot check of farm labor problems in 57 counties is being completed this week, according to the Texas USDA War Board.

Requested by Secretary of Agriculture Wickard, member of the Manpower Commission, the survey is being conducted throughout the nation and is expected to complete in a few days.

Included in the farm survey which is being made by AAAA committeemen through county USDA war boards, are data pertaining to type and size of farms, number of cows milked, number of other livestock during 1941 and 1942 and expected production for 1943.

Other items include number, age and sex of persons working on the various Texas farms during the first week of September and resume of persons leaving farms between September 1, 1941 and September 1, 1942.

In checking reasons for persons leaving farms during the past year the following are listed: (1) drafted; (2) enlisted; (3) took non-farm job and moved away; (4) took nonfarm job but still live on the farm.

Predicts Millions Of Women To Aid In Plane Factories

LOS ANGELES, Cal. (UP)—Hugh R. Jackson, Washington chief of operations of the Civilian Defense mobilization branch, predicted that by the end of 1943 there will be 6,000,000 women workers in the industry. By the end of the present year, he stated there will be 4,500,000 as against 1,600,000 a year ago.

Tires Are Limited To Five To A Car

WASHINGTON, D. C.—Price Administrator Leon Henderson, announced today that owners of passenger vehicles will be limited to five tires.

A Perfect Blend

A U. S. Army engineer, cleverly camouflaged to blend with the Panama terrain, lights a demolition bomb fuse during maneuvers.

CONSTRUCTION OF LONE STAR PLANT HERE WILL LIKELY BE STARTED SOON

Plans have been completed for the addition of gasoline fractionating units to the Lone Star Gasoline Company's Plant No. 101 three miles southeast of Ranger and actual construction is scheduled to start upon final approval from the War Production Board in Washington.

4-H Club Girl Reads Essay On Part In The War

Thursday Oct. 8—The Young School 4-H Club had a program on "Our Part In National Defense." The program consisted of the following:

Dedication to the Flag.
Demonstration of folding the Flag.

Our Part In National Defense as 4-H Club Girls by Beth Garrison, which follows:

In this national emergency there is one question every man, woman, and child is asking. That question is, What Can I Do To Help Win The War? Long ago Boy and Girl Scouts started collecting aluminum to make into airplanes, ships, and other necessities of war but it is not only the boys and girls who do it, it is every true American's war. When thousands of young men are dying every day on distant battle fields to preserve democracy and make this a better world in which to live, the least we can do is help obtain materials with which to make the guns, tanks, ships, and ammunition which are essential if we are to be victorious.

"Hater has built the greater war machine the world has ever known, but if he is to be crushed we must build a greater one. Every one knows the American spirit is the bravest in the world, but although it will be of great help, it alone cannot win this war. It will take more and more guns, planes, ships, bullets, and ammunition.

"Our fathers are helping by volunteering as fire wardens, our mothers are saving their kitchen fats, and all are buying bonds and stamps. Our brothers and fathers are giving their lives on distant battle fields, so let's not be idle. We all can help by collecting scrap metal, paper, old rags, and above all it is such a small sacrifice to do without a few of our unnecessary pleasures and save to buy stamps when such a large thing as freedom of our great nation and the whole world is at stake."

Church Of Christ Meeting To Close

Tonight's service brings to a close the meeting at the Church of Christ which has been in progress since last Sunday week. A good interest has been manifested in all the services. Many Ranger people who are not members of the church have been attending besides a number of visitors from Cheasey, Strawn, Eastland and other neighboring communities.

Evangelist McCoy has announced that his subject for the evening service will be, "Make Your Calling and Election Sure." Everyone is invited to be present at 8 o'clock when the service begins.

War Workers Are Holding Outings In Double Shifts

YOUNGSTOWN, O. (UP)—Employees of the Youngstown Sheet and Tube Co., are accustomed to an annual outing, but this year the day's lay-off would mean a slow-up of the war program.

So rather than cheat Uncle Sam the outing was held in shifts. The afternoon-evening shift of workers attended in the morning, the morning shift came around in the afternoon and the night workers took their choice.

THE WEATHER
WEST TEXAS—Little temperature change this afternoon and tonight. Scattered showers in northwest portion tonight.

AMERICAN AIR AND SEA FORCES DEAL BLOWS TO JAPANESE IN PACIFIC

YOUTHS WILL SWELL ARMY BY NEXT YEAR

WASHINGTON, D. C. (UP)—The army's highest officials said today that a 7,500,000-man army is planned for next year and that the only way of making it a decisive striking force is to draft the nation's 18 and 19-year old youths.

The new estimates on the 1943 army strength—which with the Navy, Marine Corps and Coast Guard enlistments would raise the total men under arms to the vicinity of 9,000,000 to 10,000,000—were revealed to senate and house committees by secretary of war Hery L. Stimson and Gen. George C. Marshall, chief of staff.

They placed the present size of army at approximately 4,250,000.

Rising Star Man Has Success With Sweet Potatoes

Frank Hines of the Rising Star vicinity has been growing, harvesting, and storing sweet potatoes successfully for several years in Eastland county.

He judges the sweet potatoes for maturity as follows—cut several potatoes and if the cut surface of the potatoes turns white in a short time, they are mature. Immature potatoes turn a dark color. In digging potatoes, he handles them carefully for they are easily bruised and a bruised potato is hard to keep and is unfit for market, too.

After the potatoes are dug, he lets them lie for about 3 days. He makes his storage mound on a well drained spot—ordinarily with about a 6 inch slope, and builds a frame over the potatoes. He covers the frame with old sweet potato vines and places dirt over the vines about 10 inches thick.

He has an opening at the south end and at the opposite end he places a old stove pipe that serves as a ventilator.

Eighteen Called To Jury Service In County Court

The following named persons have been summoned to appear for jury service as per jurors in the County Court at Eastland at 10:00 a. m. Monday, October 19th, this being the first week of September term of 1942, court. The court room is in the second floor of the courthouse. W. S. Adams is county judge, R. V. Galloway is clerk of the court while W. V. (Virgil) Love is deputy clerk.

L. C. Gibson, Carbon; J. B. Llewellyn, Eastland; E. L. Copeland, Eastland; W. E. Reed, Ranger; A. N. MaBeth, Nimrod; A. V. Clark, Cisco; A. J. Rodgers, Ranger; Ned L. Morris, Carbon; L. Shirley, Pioneer; C. A. Driver, Carbon; Andrew F. Beck, Eastland; W. H. Cooper, Eastland; L. E. Wallace, Ranger; J. G. Hendrick, Olden; W. E. Clouff, Okma; W. L. Yeager, Cisco; J. C. McAtee, Cisco; F. D. Chambers, Rising Star.

Legion Post Will Meet On Thursday

The regular weekly meeting of the Carl Barnes Post of the American Legion will be held early Thursday evening, in order that members may attend the Brownwood-Ranger football game, it was announced here today by post officials.

All members have been urged to attend the meeting, which will start promptly at 7:00 o'clock, which will end in time for members to attend the football game.

Japanese Reported To Have Big Battle Fleet Out In Pacific, Apparently Seeking An Engagement With United States Naval Forces, Chinese Report

Harvest Hand

American air and sea power today was inflicting substantial and continuing losses upon the Japanese from the Solomons to the Aleutians.

There was no apparent sign of any immediate Japanese counter blows but an Australian report quoted Chinese military sources as asserting that a large Japanese battle fleet was at sea.

The Chinese did not indicate the source of this report but said the Japanese fleet included seven battle ships, four aircraft carriers and some cruisers. If the information was correct would indicate that the Japanese had sent a formidable battle force out presumably hunting for action against American naval forces.

A hint that the Japanese may be preparing some new move in the Pacific was given by the German radio which reported from Tokyo that war lord Premier Gen. Hideki Tojo is conferring with his military commanders for the south west.

Tojo was said to have summoned his chiefs from Java, Malaya, The Philippines, Burma, and Singapore for discussions said to relate to "future administration" of those regions. But it was apparent that the conference might also be dealing with military essentials.

Admiral Chester W. Nimitz, commander-in-chief of the U. S. Pacific fleet, expressed confidence that the American Marines in the Solomons would not only hold their present positions but would ultimately roll back the Japanese to the north.

He emphasized against undue optimism but said that he had no doubt about the certainty of ultimate Allied victory.

Nimitz's opinion was backed up by Washington communiques reporting a Japanese cruiser, four destroyers and a transport sunk, another destroyer probably sunk and three cruisers damaged by naval and air action in the Solomons.

Registration for the Red Cross Home Nursing classes will be held Thursday and Friday afternoons from 1 to 4 o'clock at the building located at 311 Main St.

The classes will be held in the afternoon on Tuesday and Friday at the high school building and will be taught by a registered nurse. The course will be 24 hours with each session lasting two hours and there can be as many as 30 in the classes. Text books will be 60c each, payable in advance.

The government is especially stressing this course and asking that at least one out of each family have the course. It is pointed out that in the case of epidemics and the shortage of nurses that the women trained in these classes, Ranger women are urged to take advantage of this opportunity.

Church Board To Hold A Meeting

Rev. H. B. Johnson, pastor of the First Christian Church, today announced a meeting of the new, official board of the church would be held tonight at 7:30.

Hal Hunter, chairman of the board will preside. All members have been requested to be present.

Another Luckman?
Paul Governali, Columbin's 1942 edition of Sid Luckman, completed 22 of 28 passes in his first two games for 411 yards and nine touchdowns.

Power to Endure

In the end, this war is going to be won by the United Nations because Adolf Hitler failed to note and understand something that was appearing in the newspapers almost every day. Great stress has been laid upon the efficiency with which the Nazi organization compiles and correlates current news from all over the world in order that Hitler may take advantage of every expedient.

Yet, like us lesser mortals, the Fuehrer did not comprehend the significance of China's resistance to Japanese invasion. If he had, in all possibility he never would have attacked Russia when he did. And the attack upon Russia probably was his fatal error.

Dr. K. C. Wu, mayor of Chungking, paid tribute to the fifth anniversary of Nippon's invasion, to the Chinese people's capacity to suffer and to recuperate.

China has withstood the assault made by the militaristic, well-armed Japanese because her people have demonstrated ability to keep working, keep fighting and keep smiling.

If Herr Hitler had pondered that fact, and then given thought to Russian economic and social history and racial characteristics, he might not have repeated Japan's fundamental error.

The Nipponese seeing China weak, defenseless, disunited, envisioned a three-month incident, at the end of which time they proposed to use China's vast resources in their preparation for the greater war against the Anglo-American peoples.

Hitler, supposing Russia to be weak, incompetent, relatively unprepared, thought to devote a single summer to conquering the Soviet.

But like the Chinese—and both Hitler and we might have known if we had permitted ourselves to realize—the Russians have an enormous power to endure.

The Japanese chased the Chinese from Canton to Peiping, and slaughtered them by the tens of thousands, and destroyed their property without let or hindrance. But wherever they turned, they found more Chinese fighting desperately.

The Germans pushed the Russians around as a strong man would a group of children. Huge areas of the Soviet lay in ruins. Still, wherever the Nazis turned, there were Russians, dying but taking Hitler's proud corps into neighboring graves.

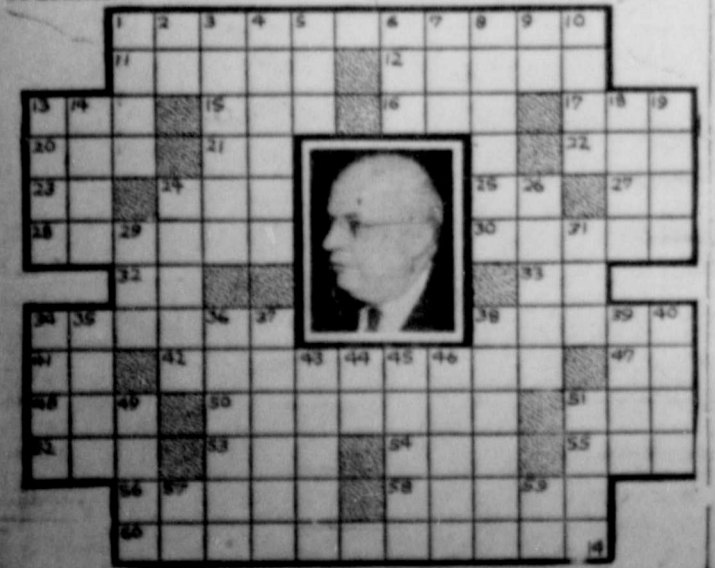

China and Russia have done what France demonstrably could not do, what Britain and the United States probably could not have done.

They did not do it for us. They did it for themselves. But we got the benefit, which we can share fully with the two nations who have saved modern civilization.

The grand old American flag sets a grand old example—it has colors that don't run. Stale air is said to be actually injurious. Yet the kid next door goes right on practicing it.

ritically saves to pay taxes and buy war bonds but complacently overlooks the diversion of some of these monies to nonwar, nonessential federal projects. He forgets that his contributions are not earmarked specifically for war but go into the Treasury's general fund, out of which all expenditures, war and nonwar, are made.

Announcing a survey of everyday sentiment throughout the United States, Kenneth L. Pray, Secretary of the Citizens Emergency Committee said: "During the past fiscal year citizens contributed \$13 billions in taxes and \$6 billions in war bond purchases. But they have been remiss in not insisting on the wise expenditure of these monies. Economy sentiment in Congress, which accurately reflects citizen opinion, is unwarrantably low. This, however, is not the fault of Congress. Until the citizens make their wishes known, wisely and vociferously, it will be easier for Congress to spend than to save."

How did you vote on such nonessential issues as the continuance of the Civilian Conservation Corps, authorization of the Florida Barge Canal, or continuance of the Farm Security Administration?
"Without fail we must contribute to the utmost of our resources, to the end that Axis aggression be stifled and American freedom be preserved. But this resolve must not blind us to the other half of our obligation which is to insure the proper and efficient use of our resources."

Show Man Sees Vaudeville In A Big Comeback

KANSAS CITY, Mo. (UP)—Vaudeville, which once flourished in almost every town and city in the country, is staging a comeback according to John Cotton, veteran show man here.
The day is not too far distant, Cotton believes, when half a dozen show houses here will offer vaudeville to packed houses as they did 20 years ago.

Society, Clubs and Church Notes

W. S. C. S. Meets
The Womens Society of Christian Service of the First Methodist church met at the church Monday afternoon at 1 o'clock with Mrs. L. H. Flowerliet presiding as leader for a Council program.

Following a short business meeting presided over by Mrs. A. J. Ruffin, the group joined in the singing of the hymn "Take Time To Be Holy." A discourse on how to help Latin American countries was given by Mrs. Flowerliet after which the hymn "More Love Is There" was played softly by Mrs. G. O. Strong. The traditions of South American women was discussed by Mrs. A. N. Larson and Mrs. C. E. May spoke on Great Britain editors.

Ranger Rebekahs Meet
The Ranger Rebekahs Lodge No. 244 met in regular session Tuesday evening at the I. O. O. F. hall with Noble Grand Viola Brink presiding.

Routine business was transacted and reports of sick were given. Fourteen members were present. The penny prize was furnished by Mrs. Gusie Tankersley and won by Mrs. Brink.

Members were urged to attend the county association meet to be at Gorman October 23 and members planning to attend this meeting were urged to be present for the next meeting of the lodge which will be held Tuesday, October 26.

Pfc. Neil Mitchell of Camp Barkley was the week-end guest of Mr. and Mrs. E. K. Britton.

Checking Tires Is A Necessity; Service Offered
In line with the recommendation of the Branch Committee, it will be necessary for every American motorist to have his tires inspected every 50 days by an authorized agency as a measure to conserve our critically deficient supply of rubber. The Firestone Tire and Rubber Company has inaugurated a special Tire Inspection and Extra Mileage Plan which provides tire protection that helps the car owner to utilize every available mile that his tires now possess.

The Firestone Inspection and Extra Mileage Plan incorporates a three-point program which provides every essential service plus two new tire protection features developed especially to prolong tire life during the wartime emergency.

The first point in the program is the removal of rocks, glass, and other foreign objects from the tire tread and body. After a thorough-going inspection of the general condition of the tires "and the wheels" they are then retated scientifically from wheel to wheel at regular mileage intervals to insure even wear and preclude the possibility of the car being forced out of service because of premature failure of any one tire that might have been subjected to more than its share of wear and tear.

At the second step in the program, the tread and sidewalls of each tire are thoroughly treated with Firestone Extra Mileage Preservative. This is a new liquid product that seals the cracks in the rubber and protects the tire from the checking effect of heat, light, and other similar causes of deterioration.

To safeguard against possibility of injury from being run flat should a tire be punctured, the third step in the Firestone Tire Inspection and Extra Mileage Plan is the injection of Firestone Puncture Seal in each inner tube. This newly developed fluid automatically seals leaks and punctures caused by nails, tacks and small pieces of glass. Almost equally important is the fact that this fluid air-proofs the inside of the tube, preventing air leakage through the porous rubber of older tubes. This is of major importance in helping to maintain correct air pressure.

Following this examination and important preventive tire maintenance program, an official Firestone Tire Inspection Certificate is given to the car owner and provision is made to notify him when his next inspection is due.

MANGUM NEWS

By Mrs. Odell Tucker
MANGUM, Oct. 12.—There was a nice crowd at Sunday school here Sunday. We invite more to come and be with us.

Please remember that Rev. Leo Fields of Cisco will preach for us on the fourth Sunday. The public is cordially invited.

Mr. and Mrs. C. E. Tucker and Mrs. D. L. Tucker were shopping in Eastland Thursday.

Mrs. R. L. Smith was given a surprise birthday party last Thursday night. A splendid crowd of friends was present.

Fancis Bond left today (Monday) for Dallas to visit his sons Robert and Dean, who are employed there.

Mrs. Amos Hartwick is still confined to her bed.

The people of this community are very busy at this time harvesting their crops. The peanut crop in this vicinity is not very good.

Mrs. Maggie Waters, Mrs. Irene Futtman of Carbon were guests of their sister, Mrs. Amos Hartwick, here Sunday afternoon.

Mr. and Mrs. Tomie Tucker of San Angelo were visiting his parents, Mr. and Mrs. Tom Tucker, Sunday.

D. L. Adair is proving he is a man by growing a mustache.

War Industry Is Making It Tough For Texas Sheriff
AUSTIN, Tex. (UP)—War or no war, human nature remains the same, Travis County Sheriff H. W. (Rip) Collins and his deputies will tell you. Even though the county jail has room for plenty of miscreants—running at about 50 per cent of normal—the law enforcement officers swear it isn't because the people themselves have taken it upon themselves to improve their behavior. To the contrary, they say, there are two or three times the normal number of warrants waiting to be served.

The officers say it isn't war service, but war industry that is making the defendants hard to find. Those who are not in the Army are holding down defense jobs somewhere.

There's no change in the type, either. Prisoners are usually 18 to 24—well within the draft age limits for many—and the male-to-female proportion is holding at about peacetime level.

U. S. Subs Sink Five Jap Vessels
WASHINGTON, D. C. (UP)—U. S. Submarines operating in far eastern waters have sunk five Jap ships, including a heavy cruiser, the Navy announced today.

A Three Days' Cough is Your Danger Signal
Creomulsion relieves promptly because it goes right to the seat of the trouble to help loosen and expel germs laden phlegm, and aid nature to soothe and heal raw, tender, inflamed bronchial mucous membranes. Tell your druggist to sell you a bottle of Creomulsion with the understanding you must like the way it quickly allays the cough or you are to have your money back.

CROWDED WITH THE CALLS OF WAR

It's true we usually can put through quickly your long distance telephone calls to towns near-by. But when you send your voice to far cities, it may travel on lines jammed to the limit with calls that help move troops, make planes, build tanks.

We can't put up more lines, because most of the metal has gone to war. So please help us in a vital job. Make as few calls as possible to war centers or cities far away, and please plan to keep such calls short. It will help clear the way for the calls of war.

"A NEW WORLD OF SMOKE-JOY" SAYS Theodore Sherman

MILDER TASTIER ALL THE WAY

70 fine roll-your-own cigarettes in every handy pocket package of Prince Albert

PRINCE ALBERT THE NATIONAL JOY SMOKE

CHOICE TOBACCO, THAT PRINCE ALBERT! KEEPS YOU SMILIN' THROUGH TO THE LAST RICH, RIPE-TASTIN' PUFF. EASY ON THE TONGUE—AND PRACTICALLY ROLLS ITSELF—WHAT A PIPE-SMOKE, TOO!

That Extra Something! ...You can spot it every time

YOUTH, in everything it does, goes for the people and things that are "right". That's why youth goes for ice-cold Coca-Cola. It is "right"... in quality... in taste... and in refreshment. It's the drink that belongs to youth's ritual of refreshment.

And there's reason for this. Ice-cold Coca-Cola has what it takes... a clean fresh taste... unmistakable refreshment. A special blend of flavor-essences merges all the wholesome ingredients of Coca-Cola into an original taste of its own. No one can duplicate it. The only thing like Coca-Cola is Coca-Cola itself.

Just ask for friendly Coca-Cola or, to use its abbreviation, Coke, and you're in for something special in delicious refreshment. Contentment comes when you connect with a Coke.

It's natural for popular names to acquire friendly abbreviations. That's why you hear Coca-Cola called Coke. Cokes-Cola and Coke mean the same thing... the real thing... "coming from a single source, and well known to the community".

The custom in every neighborhood... to enjoy delicious ice-cold Coca-Cola... though not as often in your time as before. And remember when you can't get Coca-Cola, it's because Coke, being first choice, sells out first.
