NO. 98

## Frank S. Roberts Of Breckenridge Candidate For The State Senate

Frank S. Roberts of Breckenridge today announced his candidacy for the Texas Senate from the 24th District to succeed John Lee Smith of Throckmorton, Democratic Nominee for Lieutenant-Governor, after Smith takes office in January.

Roberts, a member of the law firm of Roberts & O'Connor of Breckenridge is the son of a country doctor, worked his way through high school and college and taught school for a while. He said he is offering his services to the people as their senator based upon public service experience. This dates back to the Spanish-American War, in which he served as a Rough Rider under Teddy Roosevelt.

As an appointee of Gov. W. Lee O'Daniel as a member of the State Board of Public Welfare, District Judge of the 22nd District while residing at Lockhart, director of the West Texas Chamber of Commerce, and delegate to the National conventions in 1936 and 1940, of which nominated President Franklin D. Roosevelt, Judge Roberts is known to many throughout the material district.

He won the distinction of being one of the youngest in service in the Spanish-American War, the oldest man in the Officer's Training Camp at Leon Springs, during World War I, where Buford Jester, railroad commissioner nominee was the youngest, and offered his services in the present war but could not be assigned because he was past 60. He served two and one-half years in World War I, part of which was overseas.

He moved to Breckenridge following his discharge from service and there has served as President of the Breckenridge Chamber of Commerce, Commander of the American Legion Post and President of the Breckenridge Rotary Club.

In an interview at Breckenridge he said he felt he could serve effectively in the Senate during the war and in the after-war reconstruction for business and the returning soldier, in which he emphasized he feels the preservation of States' Rights will be of vital importance.

He added: "I have never supported any man whose honesty and loyalty to the common good was questioned. I am 100 per cent for President Roosevelt and his program for winning the war, and the best source of our energy, the last penny of our wealth, and the full men power of the Nation should be drafted to defeat the enemy and hasten our victory. I would give a 24-hour service of supply to our boys who are now fighting and dying on the battlefields of the World for our liberty."

## TEXAS AIDS IN BUILDING CARGO SHIPS

Texas labor materials and manufacturing facilities are playing an important part in the nation's record breaking construction of cargo vessels, according to reports from the United States Maritime Commission.

Five Texas shipyards now have Maritime Commission shipbuilding contracts and were referenced in the June, 1942, production report through which the commission announced that the nation's goal of "two completed ships a day" has been reached. Soon the ships will be going into service at the rate of three a day, and when the peak is reached under the present program, the rate will be stepped up to four a day.

In addition to the five shipyards, 28 Texas industrial concerns are turning out portions of items required for ship construction, the commission announced. Types of manufacture include fittings and manifold valves, coming from plants that formerly made oil field equipment and various kinds of civilian goods.

From the 28 plants, the finished articles and materials are going to many of the 63 shipyards strategically located in 24 states on all coasts and the Great Lakes in addition to the five yards in Texas. In the shipbuilding program are 10 other Gulf Coast yards, 22 on the Atlantic Coast, 19 on the Pacific Coast and 12 in the Great Lakes region.

The nation's factories supplying the yards are scattered even more, according to the commission's "spread the work" policy, with 800 firms in 36 states at work on contracts.

Through the use of modern methods, the Maritime Commission has been enabled to augment its original long range program of 500 ships in 10 years, to meet President Roosevelt's directive of last February to produce 8,000,000 deadweight tons in 1942 and 16,000,000 tons in 1943.

## Legion Post Will Meet On Thursday

The regular meeting of the Carl Barnes Post of the American Legion will be held Thursday evening, at the usual hour, it was announced today.

## Olden And Clyde To Play Thursday

The Olden Hornets and the Clyde Bulldogs will play Thursday afternoon at the Eastland Maverick's football field, in Eastland.

## Jap Smasher

Member of crew of a U. S. Marine Corps .75-mm. howitzer swing into action to shell Japanese positions on Matankou River, Guadalcanal. U. S. Forces later drove the foe out of this area. (Passed by Navy censor)

## They'll be All Right at Fighting

Poll call at Marine Corps' Parris Island, S. C. boot camp sound like Who's Who of boxing with three former topnotchers training training there. Here, left to right, Pvt. Tommy Loughran, retired undefeated light-heavyweight leader; Samuel Tearence Pane, who was Young Terry of Trenton, middleweight champion; and Al Ettore, former Philadelphia heavyweight, learn new kind of job.

## Horse And Mule Auctions To Be Held Saturday

Slig Faircloth, operator of the Faircloth Sales Barn, Highway 80, East, has announced that beginning Saturday, Nov. 7, a special horse and mule sale will be conducted at the barn, as one of a series of such sales.

In the past the barn has conducted weekly auctions of cattle, with gross sales averaging nearly \$10,000 a week.

"There will be at least 400 head of horses and mules for sale the opening day of the new auction," Faircloth said today, "and there will be some of every kind to be had. Shippers from Mexico and all over Texas will be on hand and buyers are being invited to attend."

The cattle auctions, now conducted each Thursday, have been drawing buyers from all the principal Texas markets, and sellers have been present each week from all the surrounding towns, particularly from Breckenridge, Graham, Strawn, Santo, Desdemona, Gordon, Cisco and from as far away as Kent County.

The regular Thursday cattle auction will be continued, in addition to the regular horse and mule auction held each Saturday, with Vick King as auctioneer.

## Some Drivers In Ranger Are Still Driving Too Fast

Chief of Police Lee Ames reported today that the general public seemed to be obeying the new 35-mile speed regulations, and was cooperating in the new method of preserving tires.

"There are still a few, particularly boys and girls of school age," Chief Ames stated today, "who are still driving too fast and recklessly. We know that some are still playing the dangerous and wasteful game of 'ditch 'em', and these are being watched in an effort to cut down the practice."

The comparison of the public in reporting any flaunting of the federal speed laws, or who drives in such a manner as to waste rubber, has been urged.

Seriousness of the offense of speeding was pointed out today when it was said that on second offense—even where only a warning was issued on first offense—their driving privileges may be revoked.

Copies of all tickets given to motorists go to the ration board of their country, and these people thereby become ineligible to secure new tires, repairs or special privileges under gasoline rationing, so a little careless driving may seriously curtail ones chances of continued driving, it was said here today.

## Wickard Praises 4-H Members Of Entire Nation

The following communication from Claude R. Wickard, Secretary of Agriculture, has been sent out to 4-H Club boys and girls of Eastland County.

"I want to congratulate you one million five hundred thousand 4-H Club members on your contributions during 1942 to the farm and home front and to the nation's war effort. In a time of stress, you have helped substantially in enlarging the Nation's food and fiber supply, and in storing and preserving food. You have gathered thousands of tons of scrap metal, rubber, paper, aluminum and turned them over to the Nation. You have aided in rural fire control programs and helped to spread throughout the rural areas the national nutritional program for the use of right foods and development of better health. Moreover, your work has helped make up for the loss of those who have left farms for the Army and Navy, or for war industries in cities.

"All these contributions lead us to expect still larger things from you in 1943, not only in the production of food and fiber, but especially in helping to replace the manpower on the farms. I know that you are inspired by patriotism and have deep faith in our nation. I know that this nation can depend on you to redouble your war efforts. You can do your part by producing and preserving food; taking part in savings campaigns; helping on the farm and in the home; keeping well and strong; continuing your education; studying the meaning and significance of democracy; and purchasing war stamps and bonds. In all this work, we want you to know that you are a definite part of your government's organization for helping to win and establishing a lasting peace.

Sincerely,  
"Claude R. Wickard,  
Secretary"

## Constable Goes To Barksdale As An Army Witness

H. M. Carleton, constable of the Eastland Precinct, has gone to Barksdale Field, La., where he is to appear as a witness in the case of a soldier, who, Carleton said today, had been charged with desertion.

The soldier to be tried was apprehended in Eastland recently. At the same time Chief of Police Lee Ames of Ranger reported that another deserter—a two-time Ranger and had been transferred offender, had been picked up in to Camp Bargey, Abilene, where he was turned over to army officials.

## Colony H. D. Club Holds A Meeting; Plans A Project

The newly organized Colony Home Demonstration Club had its second meeting of the year Friday, October 3 in the home of Mrs. Lee Anderson, Miss Gladys Morton, Home Demonstration Agent, met with the group and gave a demonstration on making peanut butter and hominy.

At noon the guest enjoyed a delicious covered dish luncheon. During the business meeting after lunch the club voted to demonstrate the use of peanuts as a food on its achievement day program. This display will be in Killingsworth's window Saturday, Nov. 7.

Officers of the club are Mrs. Dee Anderson, president; Mrs. E. L. Boney, vice-president; Mrs. C. E. Beck, secretary; Mrs. K. F. Kirk, council delegate and Mrs. Otis Anderson, reporter.

## Stores Will Open At 9 In Mornings Starting Nov. 1

A number of Ranger retail stores were represented at a meeting held Monday, at which it was voted that all dry goods stores in the city, and a number of other retail stores, would begin opening at 9 a. m. instead of 8:30, which has been the opening hour in the past.

Stores which were not represented at the meeting, but whose managers approve of the new opening hour, have been invited to join the movement, which begins on Nov. 1.

## Music Building To Be Dedicated

AUSTIN, Tex. (UP)—A week-long music festival has been arranged to signalize the dedication of the University of Texas' new \$500,000 music building.

## BATTLE OF SOLOMONS STILL IS IN DOUBT AS JAPS CONTINUE ATTACK

### SIXTEEN DIE WHEN TRAIN, BUS COLLIDE

DETROIT, Mich., Oct. 28, (UP)—Sixteen persons were killed and at least 24 were injured sufficiently to receive hospital treatment today when the Grand Trunk passenger train demolished a heavily-loaded street railway bus.

### Colony School To Have Annual Carnival Oct. 29.

The annual Halloween carnival for the Colony School will be held at the school Thursday evening at 8 o'clock. There will be entertainment for all with games of bingo, a cake walk, pitching tennis and a spook house. Confections will be sold.

### Horses 'Scared' Of Buggies Not Autos

KILGORE, Tex. (UP)—Parker Hodge, farmer near Kilgore, believes that returning horse-and-buggy days won't be as easy as some might believe.

### Women Urged To Help Red Cross By Doing Sewing

An urgent appeal for workers for the Red Cross sewing room has been issued and women of Ranger are urged to make their plans to spend at least one afternoon a week in this work.

### Some Ford Plants Closed By Strike

DETROIT, Mich., Oct. 28, (UP)—Four departments of the Ford Motor Company's River Rouge plant were closed today after disagreement between employees and the management over "sawing shifts."

### It Is Apparent Both Land and Sea Forces Are Outnumbered, But Americans Still Have Superiority In The Air, With Fate Of Henderson Field Still Being In Doubt

Pipe This

### Scholastic Press Meeting Cancelled

LUBBOCK, Tex. (UP)—The annual meeting of the West Texas Scholastic Press Clinic held on the campus of Texas Tech in November has been cancelled this year.

### Farm Workers Despense With An Annual Meeting

COLLEGE STATION, Tex. (UP)—The directors of the Texas Agricultural Workers' Association have voted to dispense with the annual meeting scheduled for January 8 and 9 at Abilene, Fort Worth, president of the group.

### Prisoners Keep Water Flowing During Strike

CINCINNATI, Ohio, Oct. 28.—(UP)—City manager C. O. Sherrill sent Cincinnati work house prisoners to the waterworks pumping station today when a strike of municipal employes endangered the water supply of a half million people.

### Tonsorial Tommy Gun

The Tommy gun across Marine Pvt. Sam Scianguid's lap is not for use on his barbering buddy, Pvt. Joseph Ajmo, but is kept handy in case marauding Japs should show up. They have a way of doing that on Guadalcanal. (Passed by Navy censor.)

### Third Of Doctors To Go Into Armed Service In Year

AUSTIN, Texas—It has been reliably estimated that within a year approximately one-third of the total number of 180,000 physicians in the United States will have left their practice to serve with the Army, Navy or Marine Corps. This deficiency in medical attention available to the general population will be even greater than it appears on the surface inasmuch as a large number of those remaining are not in active practice due to old age, teaching or public health activities, or full time employment with industry. Plainly, this situation develops a problem for the physicians who will remain at home, the solution of which to some degree will be in the hands of the general public, according to Dr. Geo. W. Coy, State Health Officer.

"There is no desire to imply that the family physician, now or later, must not be summoned except in dire need. In fact there is a greater reason than ever before to seek his advice on living habits, to have him give a thorough periodic check-up, and to have him treat conditions promptly, which if disregarded, are apt to cause more serious trouble later on. The only point being emphasized is that one should not attempt thoughtlessly to consume the doctor's valuable time and energy by insisting that he make a call at your home when an office visit or suggestions over the telephone might suffice.

"While in cities, lack of medical service has not yet reached an acute stage, there are already rural sections feeling the pinch. It follows that everyone, both for his own and his country's sake should live sensibly to the end that maximum health may be attained and avoidable home medical service be eliminated.

"In this connection, the following rules, among others, may be suggested: Eat nutritious foods. Obtain sufficient rest at night. Shun debilitating and exhausting habits. Keep the use of stimulants of all kinds within sensible bounds. Exercise daily. Detour worry as much as possible."

### Important Part Of Season For Poultry Here

This is a very important season on the poultry calendar. It is the last call to get everything ready for the "flock to deliver the goods" and much depends on your selection of the pullets and when and how you transfer them to the laying house.

What are the points one should consider in grading pullets? The problem consists of two jobs: Culling the poor and doubtful ones and selecting the good and promising ones. Taking a flock of the same age approaching production or already laying an egg or two, the outright culls are readily recognized: There are, first of all, the physically unfit. Into this class fall, aside from the out and out fleshcuts, the birds which are weak, sick, crippled, low in vitality, underweight, underdeveloped, thin in flesh, and "out of condition," birds straggling behind in body development, as compared with the flock as a whole and not likely to come into production un-

til long after the majority have started to lay; birds with grey eyes (so-called "pearl," fish or "glass-eyes") especially when the pupils are reduced in size and its outline ragged, are conditions for the discard coop because these symptoms are almost sure signs of fowl paralysis, eventually leading to blindness. Weak, down-out, narrow heads, anemic appearance, dull sunken eyes and drawn-in pinched faces are features which do not speak well for the productive future. The "crow-headed" or snakey appearance of such birds is usually accentuated by a long relative thin beak. Bluish color, bluish colored combs suggests a lack of poor circulation, if not disease. Pale shanks and beaks yellow breeds should be looked upon with suspicion. Sluggish, inactive temperament is often a tell-tale sign of being a cull or near cull.

The promising pullet, in contrast, shows every sign of good health, vitality and condition. She has a good well developed body frame; is of good size and weight; has some surplus fat without being overly fat or running toward "beef". Her length, depth and width is good in all dimensions de-

### Four Beer Raids Net Single Case

State Liquor Control Board agents staged another raid in Ranger Saturday night, it was reported today by Chief of Police Lee Ames of Ranger.

The state agents raided four places in Ranger, securing a total of one case of beer, they reported after the raids.

A night fighter needs 5,000 units of Vitamin A per day to aid night vision.

All America Knows Budweiser... but Few Know This

## THE STORY OF BREAD may well be called The Story of Civilization

Bread, the most venerable of prepared foods, has helped man, and man in turn has bettered the quality of his staff of life.

YEAST is the life of bread . . . and the story of yeast is the story of scientific research, uniform quality, mammoth production, modern refrigeration . . . and daily delivery to bakers in every city, town and village throughout the land . . . even by boat, by sled and by plane when other transportation is interrupted by floods and blizzards.

Anheuser-Busch is one of America's biggest sources of baker's yeast.

Year after year, we have striven with research and resources to better the methods and facilities for brewing Budweiser. To do this, a laboratory specializing in fermentation and nutrition was necessary. Discoveries made in the laboratory and in the plant have led to the development of products contributing to human necessity and progress. Some of these products would appear to have only a remote relationship to brewing, yet, they are the result of scientific research into many allied fields.

### Endless research in making the world's leading beer has led to other products

**VITAMINS, B COMPLEX**—For manufacturers of pharmaceutical and food products. Our plant is one of the world's largest sources.

**VITAMIN D**—Anheuser-Busch produces enough of the basic material for Vitamin D to supply the entire American market.

**CORN SYRUP**—many millions of pounds annually for America's candy industry.

**SYRUPS**—for food, table and confectionery uses and special syrups for medicinal purposes.

**STARCH**—for food, textile, paper and other industries—millions of pounds annually.

**VITAMINS FOR LIVESTOCK**—We are America's biggest supplier of yeast vitamins used to fortify animal feeds.

**REFRIGERATING EQUIPMENT**—for retailers of frozen foods and ice cream the country over. This division is now working all-out on glider wing and fuselage assemblies for our Armed Forces.

**DIESEL ENGINES**—Adolphus Busch, founder of Anheuser-Busch, acquired the first rights to manufacture this revolutionary engine in America and thus started our great Diesel industry on its way.

Check Ordered On Anti-Freeze In Dealers Stocks

officials announced today that a spot check had been ordered immediately in many cities in the Dallas OPA region to impress on dealers and consumers that specific maximum prices have been set on anti-freeze.

With cold weather just around the corner in the Southwest, OPA spokesmen advised the public to investigate ceiling prices before they buy and urged merchants who are not familiar with the regulations to write to OPA offices for information.

With issuance of Maximum Price Regulation No. 170 on June 25, the OPA made it possible for American motorists to obtain anti-freeze at reasonable levels, well under speculative quotations prevalent at the end of last winter.

The regulation, which sets ceiling prices on anti-freeze at all levels, establishes a separate series of maximum prices for anti-freeze manufactured from ethylene glycol, the permanent type, and for the so-called non-permanent types produced from methyl or methyl alcohol.

In general the maximum retail price for the more expensive permanent anti-freeze are established at the same level which has prevailed during the past three years. The ceiling prices for the less costly non-permanent type which will account for 85 per cent of the total anti-freeze production are somewhat higher than the average of the past few years.

The maximum price for permanent anti-freeze is the price which prevailed in the month during the six month period ending March 31, 1942, in which the individual seller sold the greatest amount of anti-freeze. In no event, however, may the retail price be higher than \$2.65 per gallon or 70 cents per quart.

Last year's toll of industrial accidents was 250,000,000 man days ten times the number lost in strikes.

### PERSONALS

Mr. and Mrs. Joe H. Holt and James Morris spent Monday in Dallas.

Miss Mary Todd has returned from Dallas where she visited her sister, Miss Lena Mae Wells, who is leaving a Dallas hospital to join the army nurses corps.

C. C. Cross has returned to Houston after a visit with his family. Mrs. Cross and Charis and Bobby.

Mr. and Mrs. O. R. Cooper have returned to Tyler after a visit in the home of Mr. Cooper's father, V. V. Cooper, Sr.

Alvin Langley is confined to his home because of illness.

Avis Merrill B. Wilson who is stationed at Coleman for primary training was the week-end guest of his parents, Mr. and Mrs. M. Wilson.

### DESDEMONA

By Mrs. C. W. Maltby  
 Mr. and Mrs. Odys Goforth left Thursday for their home in Amarillo after a few days visit with friends and relatives.

Mrs. R. J. Kraft, from Midland was greeting old friends here Tuesday. She was enroute to Fort Worth to visit her sons Richard and Urban and families. Her daughter, Mrs. Dalton Sharp and little son accompanied her to Fort Worth.

Aunt Lizzie Askew, W. E. Askew and Mrs. Hardy Tidwell were shopping in Gorman and DeLeon Thursday.

Mr. and Mrs. W. B. May drove to Ranger Friday to see their nephew, C. E. May, Jr., who was moving for New York to enter the U. S. Naval Reserve Midshipman School at Columbia University.

Mr. and Mrs. Elbert Wall and an. Phil from San Antonio are visiting here this week. Elbert will return home Wednesday but Mrs. Wall and Phil will remain a few days.

Wiley H. Powers passed away at Big Springs, after a long illness. Wiley Powers was born Aug. 11, 1884. He numbered his friends by his acquaintances. He is survived by his wife, Mrs. Willie Ervin Powers, a son Jack Five brothers, Sam Powers of Hobbs, New Mexico, Dan W. Powers, of Austin Peyton Powers, of Crowley, Texas, O. C. Powers, Sacramento, Calif., M. H. Powers; six sisters, Mrs. Cora Anderson, Harlingen, Mrs. Pearl Duncan, DeLeon, Mrs. Janey Terry, Dallas, Mrs. Xenia Watson, Fort Worth, Mrs. Sallie Quinn, Amarillo and Mrs. A. A. McMillan. All were present for funeral services held Sunday at 2:30 at the Baptist Church, conducted by the Rev. Baldery, assisted by Rev. Martin Gray interment in the Howard cemetery.

Jodie Wall and J. C. Skiles, who are working in Abilene are spending a few days with home folks. They expect to return to Abilene Tuesday.

Mrs. Scotty Lemaster and baby left for their home in Amarillo Thursday.

College students spending the week-end with home folks were Misses Joy Houser and Lois Moore of Fort Worth, Tummy and Eldon Ervin and Calvin Williams of Stephensville.

Mr. and Mrs. Kollie Anderson, of Gorman visited the Jodie Wall home Saturday.

Mrs. Hank Chambers, of Quanah, Texas stopped at the Howard Williams Service Station Monday and although Howard had not seen her in 28 years, he remembered her as Miss Mary Keith, a friend of his boyhood days.

Our boys in service who were home for the week-end were Leslie Williams, from the Flying School at Waco, Bob Revels, of Camp Barkley, and Truly Shelton, of Fort Bliss, Okla.

Mr. and Mrs. T. Stover of DeLeon received an announcement that their son, Sherwood and wife are the proud parents of twins, a boy and a girl. Sherwood and wife are Baptist Missionaries in North Brazil.

Born to Sgt. and Mrs. Charlie Jackson Oct. 20th a son. Mrs. Jackson is at the home of her parents, Mr. and Mrs. L. E. Clark. The Methodist Missionary Society.

Mrs. C. J. Newman is in Amarillo for a visit with her daughter, Mrs. R. B. Pitchford and Mr. Pitchford.

Mr. and Mrs. Lionel Croom of Dallas were the guests of Mr. and Mrs. H. C. Croom, Tuesday.

### Russian Sharpshooter Visits U. S.

**WASHINGTON, D. C.**—Liudmila Pavlichenko, 25-year-old Soviet girl sniper, veteran of the Odessa and Sevastopol sieges, is pictured with Ambassador Maxim Litvinov as she was welcomed at the Soviet Embassy in Washington recently. Liudmila is credited with having knocked off 309 Nazis with her trusty rifle. Your War Bond money, via lend-lease, may have bought the bullets she used. Help shoot down more Nazis with at least 10% of your income!

Liudmila observed the week of prayer with an all day program at the church Monday Oct. 26th. Periods of prayer, directed meditations, scripture readings and hymns complimented the morning service. A covered dish luncheon was served at the noon hour. Mrs. Carl Lee, program leader ad prepared beautiful posters for this service of worship.

Mr. and Mrs. S. G. Tarpley, Mrs. Ola Dishman and Mrs. I. N. Williams left Monday for Houston to attend Grand Chapter of the O. E. S. Mrs. McDavid and Patricia accompanied them as far as Bastrop.

Chairman Ernest O. Thompson assured such speakers that the commission intended "to do nothing except what you want to help get over a difficult period.

### NOTICE

Beginning November 1, I will give Art Lessons, at my studio, 617 South Oak Street. Both private and class lessons.

THREE YEARS TEACHING EXPERIENCE  
 \$5.00 For 8 Two-Hour Lessons

## HOW TO PREPARE YOUR GAS HEATERS

*..for Winter Service*

Before the next severe cold spell hits, check over your radiant gas heaters, clean them, adjust them and get them in first-class condition for winter service. You'll save gas and make your heaters last longer and operate more efficiently if you follow these suggestions:

1. REMOVE RADIANTS and blow dust from radiants and back wall with hand pump, bellows or any strong puff of air. Handle radiants with care as they are very fragile.
2. BLOW DUST from mixing chamber and burner parts by attaching bicycle pump or bellows to gas intake. Or take heater to filling station and use air hose.
3. REPLACE RADIANTS being careful to seat them properly above the burner ports. Replace broken radiants (if new ones can be obtained) as radiants are essential to efficient operation.
4. ATTACH HOSE OR PIPE CONNECTIONS and check for cracks and leaks. Escaping gas can be detected by smell (local gas is strongly odorized for this very purpose) or by brushing suspicious places with soapy water, which will bubble if there is a leak.
5. ADJUST AIR MIXTURE so that gas burns with a clear blue flame. This is done by opening or closing air mixing shutter while heater is burning. A yellow flame indicates insufficient air; a blue flame that dances away from the burner tip shows too much air.

We will gladly help adjust your heaters if you have difficulty in doing so yourself, but shortage of trained help and the need for conserving truck mileage makes it impossible for us to answer calls as quickly as in the past. Requests for service will be filed in order received and taken care of as rapidly as present operating conditions will permit.

### Father And Son In Same Camp

ARMY AIR FORCES GLIDER SCHOOL, DALHART, Tex. (UP) —Nineteen-year-old William B. Boney, left home at Stratford, Texas, last September to join the army air corps. His father approved, and told his son, "he'd like to go along," young Boney said.

On Oct. 5, when William reached his 20th birthday, his father paid him a visit—in uniform. His father, William O. Boney, had enlisted too. Both father and son are stationed here in the glider school camp. They don't live together, but "It's almost like home."

### Students Approve Blood Donations

LUBBOCK, Tex. (UP) — A campaign for blood donation on the Texas Tech College campus has been approved by the Student Council.

A mobile Red Cross unit will visit the campus to type students who are willing to donate blood which will be processed and shipped to base hospitals over seas in non-perishable form.

### Beware Coughs Following Flu

After the flu is over and gone, the cough that follows may develop into chronic bronchitis if neglected. Creomulsion relieves promptly because it gets right to the seat of the trouble to help loosen and expel germ laden phlegm, and aid nature to soothe and heal raw, tender, inflamed bronchial mucous membranes. No matter how many medicines you have tried, tell your druggist to sell you a bottle of Creomulsion with the understanding you must like the way it quickly allays the cough or you are to have your money back.

*That Extra Something!*

...You can spot it every time

IT TAKES "know how" to do a job right. The makers of Coca-Cola have specialized in knowing how to produce refreshment.

Coca-Cola is a quality drink carefully made... with years of experience behind it. A finished art in its making, unknown to others, gives Coca-Cola an unmatched taste-appeal with an unmistakable after-sense of refreshment. A blend of special essences adds to the goodness of Coca-Cola an extra something that everybody welcomes.

More than just thirst-quenching, ice-cold Coca-Cola is the drink that goes into refreshing energy. Its refreshment pleasantly lingers, reminding you that contentment comes when you connect with a Coke.

Wartime limits the supply of Coca-Cola. Those times when you cannot get it, remember: Coke, being first choice, sells out first. Ask for it each time. No matter how short the supply, the quality of Coca-Cola carries on.

When the whistle blows for lunch, workers make a bee-line for the red cooler that holds ice-cold Coca-Cola. Coke is the perfect partner of good things to eat.

The best is always the better buy!
