West Texas Body To Fight Against Legislative Bills

ABILENE, Feb. 16 -West Texas Chamber of Commerce, in a news letter signed by President M. C. Ulmer and Manager D. A. Bandeen, is askunited front in opposition to two measures pending before the 48th Texas Legistlature.

These are house hills Nos. 125 and 126, hy Ren. Gilmer of Rocksprings. The first provides that no lease of oil or gas on school ands previously sold or to b, sold shall be valid until approved by the State Land Commissioner; while the companion bill vests the ewned lands for oil and gas

development. Of house bill No. 125, the WTCC said: "At the present time under the old Relinquishment Act and in conformity with Supreme Court decision, the land owner receives one-half of the bonus and one-half of the royalty for executing oil and gas leases. The owner's title to the land is largely based upon his acting agent matters. Should this right now be given to the Land Commiss ioner as prescribed in H. B. 125 the manner in which you handle your farm, home or ranch, if in schools lands, is subject to the approval of some man elected e-tory two years, and the title to some that's not lifted from the control of the Russian Front the Red

Today you and every other American have one thought uppermost in mind - Winning of the War! War today is a war of machines, a war requiring mass production. However well trained and courageous our fighting forces may be, they will be powerless unless supported by engines of war which must be produced in unprecedented numbers by our factories. Vital to this high speed industrial production is ELECTRIC POWER - more power - to move the wheels of industry faster - EVER FASTER! But, electric power, in itself, is not enough. It must be available wherever it is needed. The interconnected power grid, of which this company's transmission system is an important part, has made this possible. We are dedicating our all to this cause.
