When You Buy Real Estate -

. . you not only buy the land and all that's attached to it above and below, but some kind of a title, good or bad. The abstract is a written history of the title and is the evidence of your security or insecurity. Since security is the basis and measure of all values the abstract becomes the most important factor in every real estate transaction. Always demand an abstract!

Dometimes when you've a long distance call to a war-busy place, the operator will say-

"Please limit your call to five minutes. Others are waiting."

This doesn't happen all the time, because many long distance calls go through about as usual. But whenever we have had to ask that calls be kept to five minutes, there has been a fine spirit of co-operation from the public.

We want to say thanks for that. Your help and understanding count double these days.

Defrost Your Electric Refrigerator Regularly

When the layer of frost that collects on the freezing unit of your electric refrigerator gets about as thick as a pencil, it is time to defrost. This frost actually acts like a blanket, for it keeps the cold from reaching the food that you want to keep fresh and wholesome. It also lowers the operating efficiency of your refrigerator and adds to the operating cost.

To save money and to get more satisfactory service from your electric refrigerator, defrost it regularly. Consult your refrigerator instruction book for a recommended method of defrosting, and for other tips that will prolong the life of your electric refrigerator.
