The Hotter the Weather The Harder

Hot days and nights mean more work for Reddy Kilowatt, your electrical servant. He's busier than ever, keeping food fresh and wholesome, making more ice cubes in electric refrigerators, and doing other jobs to conserve time and energy for the added work many are doing as a result of the war.

So, if your electric service bill seems a little more than usual, remember the many times on those 100-degree days that Reddy Kilowatt worked extra hours for you.

And while Reddy is working harder to refrigerate your food, and to save your time and energy, he also is doing some mighty important work in war plants in this part of Texas. Electric power is essential to the war effort, and in addition to serving you, Reddy is meeting every war demand.

Twin American drives on Munda have brought our forces within yards of that key Jap airbase in the central Solomons. One group lahded at Rice Ancherage, drove south to take the enemy positions at Enogai Inlet and Dragons Peninsula. The other U. S. force landed at Zanana, drove west to Lambeti. Both Munda and the Jap supply base at Bairoko have been pounded by American bombers.

Don't Lose Your Abstract-

The owner is selling the place and can't find his abstract. The one he had was loaned out or burned up when the house caught on fire, or he has otherwise lost or misplaced it. The buyer rushes the seller, the seller rushes the abstracter and the abstrater rushes his employees and with everybody rushing the deal is finally closed. Moral: keep the abstract in a safe place. If you do , not have an abstract, place your order with us today.
