SCHOOL

School is a place where boys and girls should want to go instead of a place where they have to go. If they went to go it will have to be a place that is desirable so they will look forward to it. For this reason a special effort has been made all along to improve conditions at the grade building. Teachers and students are lending their hearty support to a theatre campaign that they may raise funds to improve the looks of their building. One thing of special interest is to remove the old marker "High School" and replace it with, "Dimmitt Grade School". painted to match the frame work on the epterior of the building. The frame work of the outside of the building is to be finished in a cream or buff and the window screen frames will be a dark green. NOTICE

To Young Voters Of Castro County

Inasmuch as there have been very few poll tax exemptions issued to date, we again urge you to secure these in the next thirty days, as we will be unable to issue these exemptions after January 31, 1936. Persons who have become twentyone years of age since the 1st day of January, 1935, or who will become twenty-one years of age before any elections of 1936 are entitled to these certificates and the therefore qualified voters if they obtain these certificates before February 1st, 1936. These are issued with no cost to the tax payer.

Exemption-certificate holders moving from one precinct to another must present their certificate to the Tax Collector for endorsement showing the new residence.

Such a certificate-holder moving into another county must present the certificate to the Tax Collector of that county for reissue or registration and endorsement at least twenty days before any election at which he expects to vote.

Exempt voters living outside a city of 10,000 inhabitants who are permanently exempt from the payment of poll tax need not obtain exemption certificates, but may continue to vote as they have in the past.

It is a lamp that was created by the Illuminating Engineering Society (a nonprofit organization) for the sole purpose of giving you the abundant, glareless light that your eyes need when you read the evening newspaper.

It gives you more useful light than a light bulb by itself.

It gives a comfortable, well-diffused light.

It provides a general illumination throughout the rest of the room.

It gives you light where you need it.

It gives you beguty that will blend admirably into any room.

It will NOT correct faulty eyesight but WILL prevent defective vision.

Our over night trial . . at no obligation whatever. will prove to you that "Seeing is believing."
