AS MACARTHUR'S FORCES PUT SQUEEZE ON RABAUL

MANEUVERING FOR A MOP-UP on New Britain and the capture of Rabaul, once mighty Jap air base on the island, U. S. forces under Gen. Douglas MacArthur have made a new landing on New Britain, placing the Yanks only 160 miles southwest of Rabaul. Marines landed on Wilsauze peninsula, near Talasea, 110 miles beyond Cape Gloucester. On the south coast MacArthur forces moved eastward from Arawa airdrome to take Amogating a strategic point 24 miles away. (International)

OSCAR SILENT ON JUMP

SATTLE, (UP)—Oscar Robcoe Brown, a parachute tester for a local firm has made a world's record parachute jump, but he won't talk about that. The jump was from a height greater than 40,000 feet and was a military secret, but Oscar turns away all questions about the leap with a permanent smile. Oscar is a 200-pound rubber dummy, and every jump he makes is a success because if the chute doesn't open Oscar will bounce right back.

ARMISTICE REJECTED
HELSINKI, (UP)—The Finnish Parliament was reported most reliably today to have approved a government proposal to reject the armistice terms which Russia offered Finland.

SCHOOL BOARD ELECTION TO BE APRIL 1

An election for the selection of three members of the school board will be held in Ranger Saturday April first and those whose terms expire and are to be replaced on the board are: W. A. Lewis, F. S. Pearsall and Lloyd L. Bruce.

All three stated today that they will not be up for re-election to another term of service on the board. Lewis stated simply that he would not run for the office. Pearsall stated that he felt that he had served his term and that some other citizen should be elected to the board. Bruce said that he felt that those chosen for the board should have children in school and as he will not have after this spring term, he was withdrawing in favor of someone who does have children in school.

Pearsall and Lewis are serving out the unexpired terms of B. A. Tunnell and Dr. C. L. Jackson, both resigned and Bruce is serving a three year term having been elected to the position in the last election.

Members now serving on the board whose terms do not expire at this time are L. E. Pearson, A. E. Crawley, T. J. Anderson and A. N. Larson.

Former Eastland Man Mentioned In Post News Story

In the story, "Up Where The Big Guns Speak," by Allen Raymond in a recent issue of the Saturday Evening Post, mention is made of Capt. Fred Scott, formerly of Eastland and a nephew of Mrs. Geo. Hipp of Eastland. He lived in Eastland about 10 years ago. He was an artillery instructor at Fort Sill, Oklahoma, before going overseas.

The writer said Scott had an instinct for combat and told how he salvaged a bath tub from an abandoned house, set it up in his camp house somewhere in Italy and with tin cans heated water on a fire-place for use in bathing and shaving.

Skull From Pacific Still A Mystery

MINNEAPOLIS, Minn. (UP)—"Whose skull?" is the question the University of Minnesota anthropology department is asking.

Not long ago a former student stationed somewhere in the Pacific sent the skull to the university, but until the War Department reveals where he was at the time the skull was sent it will remain a mysterious part of the museum collection.

Dr. Wilson D. Wallis, professor of anthropology, ventures a guess that it may be from the Melanesian Islands.

NAZI RAID NAPLES

NAPLES (UP)—German night bombers, striking back savagely after a series of Allied air blows that ripped up Nazi railroad lines from Pisa to Rome, swarmed in over Naples in the early morning hours today and gave this Allied headquarters its heaviest raid in months.

LAND AND AIR FORCES TAKE PART; CENTRAL GERMANY HIT

ALLIED HEADQUARTERS, Naples (UP)—Allied land and air forces launched a tremendous offensive against the German mountain stronghold of Cassino today and leveled the mile-square stone village with five hours of the heaviest aerial bombing ever concentrated in so small an area.

Mustering every plane in their Mediterranean arsenal from tiny Spitfires to giant Flying Fortress, and Liberators, the Allied airmen sent 1,400 tons of bombs crashing down on Cassino in a deluge unbroken from the first light of dawn until noon when the 5th Army's ground troops moved into the shattered enemy positions which had held their advance in central Italy toward Rome for weeks.

LONDON (UP)—American airmen flew back into central Germany today and bombed their target—Nazi broadcasts said it was the aircraft center of Brunswick—without serious challenge by the battle-wary German Air Force.

Formations of Flying Fortresses and Liberators described "officially as "medium-sized" again drove an aerial spearhead into the heart of Germany without luring up any appreciable section of the Nazi fighter force for a test of strength.

Preliminary tabulations indicated that about 35 German fighters were shot down and American losses of both bombers and fighters were low.

Pilots conceded that dirty weather probably contributed to the lack of opposition which made a "milk run" of a raid on a region once guarded by Reichsmarshal Hermann Goering's bold fighters where American air men have fought tremendous air battles.

The German fighters which did rise were pounced on by overwhelming numbers of Lightnings and Thunderbolts which escorted the bombers in great strength on the first penetration of Germany since Saturday.

Navy Seeks More Skilled Workers For The Pacific

Shortage of skilled workmen handicaps the efforts of our West Coast and Hawaiian Navy yards now when maintenance of the U. S. Navy at top fighting strength is of vital importance in shaping the course of the war in the Pacific. Lt. Comdr. N. N. Dahl, construction officer at Mare Island Navy Yard, pointed out today. The accelerated pace of war fare in South Pacific waters has brought additional demands for repair and overhaul of battle-damaged vessels which must be returned to the fighting fronts as rapidly as possible.

Navy Department and Civil Service representatives are conducting an intensive recruiting drive throughout the Southwest to enlist electricians, machinists, sheet metal workers, and other types of workers, both skilled and unskilled. Persons not engaged in essential industry are urged to apply for these positions.

All appointments are made in conformance with War Manpower Commission regulations.

CONDITION IMPROVES

Will Turner, employe of the Lone Star Gas company, suffered a slight stroke on March 7, while engaged in reading meters and has been confined to his home since. His condition is not critical and is improving. He hopes to be out again soon.

Ohio Town Opens Teen Tyme Club

ZANESVILLE, Ohio, (UP)—What to do with those week end date nights no longer is a problem to Zanesville, O., high school students—thanks to genial, white-thatched Perry Wilson and his "Teen Tyme" club.

Wilson, boys' secretary of the local YMCA was perturbed at the sight of high school age boys and girls meeting on street corners and in cafes. He determined to do something and the "Teen Tyme" club resulted.

Located in a wing of the local YMCA, the "Teen Tyme" club includes a lounge replete with grand piano, reading table and books, a "snack" room with food bar and soft drinks and a "juke room" with the familiar "juke box."

Students in the last three years of high school are eligible to become members upon payment of a \$1 fee to cover operating costs. The students set their own behavior patterns through a 23-member governing committee.

Zanesville youngsters have but one complaint: "it should be open week nights as well as week ends."

A Little Lesson In Abstracting - -

The abstract is a written history of the title chain. If carefully prepared it will (1) definitely locate the tract under search, (2) reveal, if possible, the true ownership, (3) show liens, if any, and (4) the defects in the deed or other written documents. It may or may not prove the title to be good. This is the reason for the abstract and why it is necessary in every real estate transaction.
