Endless Line Of Planes Raids Enemy

MAJURO ATOLL NOW TYPICAL AMERICAN CITY

MAJURO ATOLL, Marshall Islands (UP)—U. S. forces have transformed this once-placid, tropical atoll into a replica of a well-defended American city.

Marines and soldiers have constructed military defenses, road and water systems, communications, electric lights, stores, and gasoline stations.

Giant bulldozers are bowing over trees with their 12-foot blades to carve an airfield from this coconut-tree studded land.

Trucks, jeeps and other rolling stock are operating on the newly-constructed highway system. The traffic problem caused authorities to decree one-way streets and issue licenses for truck drivers.

Three daily newspapers published by the Marines, Seabees, and Navy "hit the street" every morning at 6:30 a. m. A library issues books for the fighters to read in their rare hours of leisure.

A general store operated by the Navy is doing a land-office business. Gasoline stations dot several islands.

Portable condensers, which distill thousands of gallons of salt water into fresh water supply mess halls and provide water for drinking and washing. Portable showers are now being erected.

Turner Collie Enters Race For The Legislature

Turner Collie, Eastland attorney has entered the race for Representative in the State Legislature from the 186 district comprised only of Eastland county and has announced his candidacy in the following statement:

To the voters of Eastland County: Some of my friends have suggested that I might be useful in the legislature and I have decided to offer my services for 1946 Dist. Eastland County only. I shall greatly appreciate your support.

I shall not be under obligations to any person or organization, but will be free at all times to vote for the best interests of the people of this county and State.

1. No new taxes.
2. Strictest economy in all matters, not connected with the war.
3. The State getting on and staying on a cash basis.
4. Support of our schools and universities, especially the junior colleges.
5. Post war planning to aid our returning soldiers.

It will be impossible for me to see many of you personally, and I shall have to depend on my friends to speak a good word in my behalf. With the lives of so many of our relatives and friends depending on the use of gasoline and rubber, I should feel that I would not be keeping faith with them should I use more of these essential commodities than absolutely necessary. While they are offering their lives on the altar of their country, however, it is necessary that we keep and preserve the institutions and traditions they love and cherish. If I can be of any assistance in this matter, I shall be greatly repaid for my time and trouble.

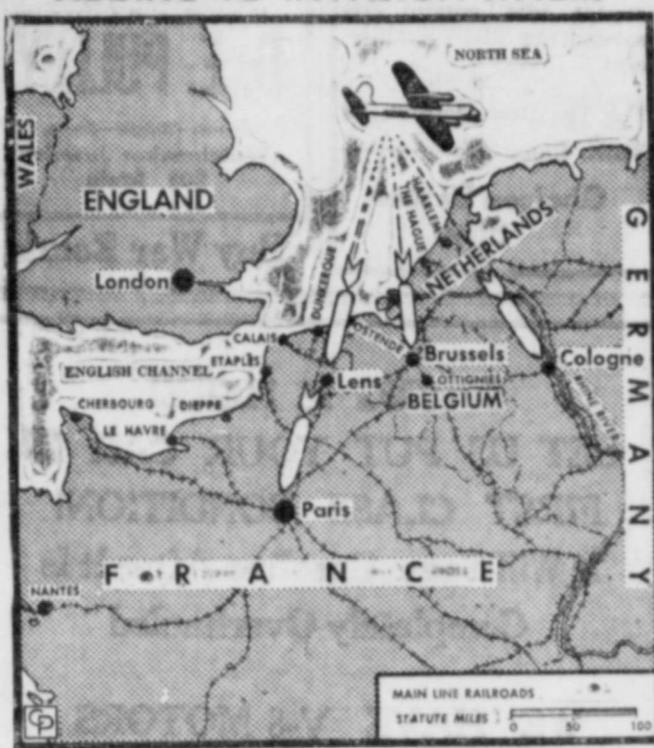

Sincerely,
Turner Collie.

Pfc. E. J. Noth Has Arrived Safely At English Base

Mrs. E. J. Noth has received word from her husband that he is now stationed somewhere in England.

Pfc. Everette J. Noth was trained at Camp Barkley, Desert Training Center in California, and Fort Dix, New Jersey. He has received several medals among which are: Rifle Expert Medal, Marksman Bayonet Medal, good Conduct Medal, Sharpshooters Medal and Expert Sniper's Medal. Noth is with the 358th Infantry of the 90th Division.

ADDING TO INVASION JITTERS

INCASSANT ALLIED BOMBING ATTACKS on key communication centers in Nazi Europe adds to the invasion jitters of the Axis. Four major rail centers have been the targets. Cologne, the Ottignies railroad yard near Brussels; Lens, in the Pas de Calais area, and Le Chapelle, an outskirts of Paris, were among the centers struck. (International)

M. U. TO EXPAND PROGRAM FOR MEN OVERSEAS

By Marion Ford
United Press Staff Correspondent
ANN ARBOR, Mich. (UP)—The man in the foxhole is anxious to keep up his education, according to reports from the University of Michigan's extension service.

Belegged by requests from more than 2,000 servicemen, in letters frequently written during air raids and between major engagements, officials of the 127 year old institution have decided to expand its already extensive courses.

Fred G. Stevenson, director of the overseas correspondence at the University, said more than 400 inquiries pour in weekly—from foxholes in the Pacific ships in the Atlantic and from men weary of the monotony of outpost duty in Iceland.

Most of the requests, he said, are from youths eager to get a "head start" on their post-war education. Others want to prepare themselves for advancement in the service or for jobs when they come back.

"And a lot of them are just anxious to while away the lonely hours away from home," he added. Mathematics is the most popular single subject, Stevenson reported, "and in the case of almost 200 men, who have been able to prepare themselves sufficiently in mathematics to enter naval officer's training school."

English is a close second on the list he continued, followed by photography. Of the languages, Spanish leads with German and French next in that order. Many of the inquiries are from high school students who wish to prepare for college entrance after the war. Often they come from students just short of a degree who want to finish by mail so they will be able to look for a job as soon as they return.

Maintaining that correspondence courses represent a public service the University cannot side step, President Alexander Ruthven pointed out their worth as profitable expenditure of enforced leisure such as may result from a transitional unemployment period following the armistice.

"The University must be prepared," he said "—as it certainly was not at the start of the depression period—to assist in the profitable expenditure of enforced leisure, pending re-employment." The University is a member of the National University Extension Assn. and one of the 76 co-operating with the Armed Forces Institute. At the present time courses from engineering, architecture, public health, education and forestry schools are available, and literary school courses are being expanded.

Home From Pacific

Pictured above is Sgt. J. B. Houghton, Jr., son of Mr. and Mrs. J. B. Houghton, who arrived Wednesday for a thirty day furlough after spending the past 22 months in the South Pacific theater of war.

Sgt. Houghton is with the United States Marine Corps and has been attached to a defense unit of the Marine Air Corps. Like most men returned from fields of action he is reticent about what he has been doing though he did state that he had been on Midway Island.

In his travels over the South Pacific he encountered only one person from Ranger and that was E. A. Norris, slipfitter with the Navy. Sgt. Houghton stated that Norris read in an issue of the Ranger Times that the sergeant was in his area and looked him up.

Sgt. Houghton enlisted in the service of the Marine Corps on May 9, 1942, and received training in San Diego before being sent to foreign service. He is a graduate of Ranger High school and attended Ranger Junior College.

Ranger Soldier Back From Italy, Hospital Patient

MCCLOSKEY GENERAL HOSPITAL, Temple, Texas, April 27.—Pfc. Wesley Matthews, Ranger, Texas, recently arrived for medical attention at McCloskey General Hospital, Temple Texas, an Army Service Forces installation. He has been overseas for 21 months with a tank battalion.

"We were knocking out pillboxes at Cassino, supporting the infantry. Shells were falling all around us and I had to jump into the tank to dodge one. The fall chipped the bone in my knee but continued fighting for about a month before my leg began to bother me."

Pfc. Matthews has two sisters, Mrs. Kermit Davis and Mrs. L. M. Deats, both of Ralls. His aunt and uncle, Mr. and Mrs. W. M. Summers recently moved from Ranger to Dallas.

DR. MOHLER IS GUEST SPEAKER FOR ROTARIANS

Members of the Ranger Rotary Club had as their guest speaker at the Wednesday luncheon, Dr. Robert E. Mohler of McPherson, Kansas, a former district governor of Rotary International, who spoke to the club and its guests on their heritage as Rotarians. Dr. Mohler emphasized the value of fellowship through Rotary, their opportunities for unselfish service and the good name of clubs.

Dr. Mohler was making a weeks tour of clubs over the country for the International organization and from Ranger was going to Abilene. L. R. Pearson presided at the luncheon in the absence of the president, O. G. Lanier, and introduced G. C. Boswell who in turn introduced Dr. Mohler. A letter to the club from Major A. W. Brazda, a former member now in England, was read by Pearson.

Guests at the luncheon included the following members of the Eastland Rotary Club, C. W. Geise, president-elect, I. C. Inzer, Ben Hamner, Dr. J. H. Cator, Earl Bender, Curtis Hertig, R. N. Wilson, president, and Charles Mills, of Los Angeles, Carl Cooper, of Ingleside, Texas, Rev. A. B. English, and Floyd Killingsworth.

More From Ranger Contribute To Red Cross Bank

Red Cross workers from Ranger who are assisting with the blood bank stated today that at closing time last night 220 from Ranger had contributed to the blood bank and that others were going today and Friday to make their donations.

A number of Ranger people could not be taken Wednesday due to the fact that the 160 pints, the limit for each day, had been secured and these may contribute to the bank on Friday. Working hours for the unit on Friday will be from 9:45 a. m. to 1 p. m.

Grand Jury Due To Complete Its Work This Week

The 88th district court grand jury for the March term, which was convened this week for the first time during the term, was due to complete its work and make a final report to Judge B. W. Patterson not later than this afternoon, District Attorney Earl Conner, Jr. stated Thursday.

Among the matters before the grand jury for investigation was a case in which a Cisco woman was charged by complaint filed in Justice Court at Cisco, with an assault upon a Cisco High school girl.

Santa Anna Has Promise Of Big Glass Factory

SANTA ANNA, Tex. (UP)—Great quantities of white siliceous sand and the abundance of cheap gas found in this area is expected to bring to this Coleman County town a mammoth glass manufacturing plant.

Name of the company to exploit the estimated 100,000,000 tons of silica underlying the surface of the Santa Anna mountains nearby still is being withheld.

However, it is reported to be one of the largest and best established glass manufacturing concerns in the country.

Some machinery has already arrived for preliminary work.

John F. Honey Dies Today At Ranger Hospital

John F. Honey, father of Mrs. Nell Griffice of Ranger, died this morning at the City-County Hospital. He was 79 years of age. Funeral services will be held Friday afternoon at 3 o'clock in the chapel of the Morris Funeral Home and interment will be in the Ranger Pioneer cemetery.

"BOSS," ROCHESTER NOW SALES MAN

JACK BENNY and his ever-present "valet," Rochester, eye each other between trains in Seattle as they begin their trip to Vancouver, B. C., to open a War Bond drive. Rochester has the dice, Benny the train tickets, so they are keeping an eye on each other. (International)

SAFE AFTER SNOW ORDEAL

LIEUT. HELEN DURFEE, Denver, Colo., WAIVE recruiting officer, one of 32 persons marooned for three days by a snowslide atop 12,000-foot Berthoud Pass, finally is brought to an Army hospital in Denver after being rescued by Army Arctic troops from Echo Lake, Colo. Lieutenant Durfee's car was hurled from the road by the avalanche. She suffered a serious back injury. (International)

Dulin-Daniel Post No. 70 Of American Legion Will Observe Organization's Silver Anniversary, Saturday April 29

On the completion of 25 years of loyal service to the Community State and Nation, Dulin-Daniel Post No. 70 of the American Legion of Eastland, will celebrate with a Silver Jubilee program Saturday, April 29 (tomorrow). Invitations have been extended all legionaries, their wives and friends, of the 17th district to attend the Eastland meeting as guests of Dulin-Daniel Post. The general public is invited to see and hear the program.

Hon. Miss McGee of Ft. Worth will be the principal speaker. Other prominent persons invited and expected to be present include Major General Magruder, commander officer at Camp Wolters; Col. Bonnie, command at Camp Bowie and 10 returned and wounded soldiers from overseas, and others. Judge Virgil T. Seaberry of Eastland will be the master of ceremonies.

Promptly at 7:00 p. m. at the Eastland City Park supper will be served (Out doors, weather permitting) to legionaries, their wives and friends.

There will be a dance with special music at the Legion Hall for those who care to dance.

The general jubilee committee in charge of arrangements for the meeting Saturday is composed of H. J. Tanner, Henry Pullman and Earnest Jones while Mrs. Maurine Johnson and Mrs. A. J. Treadwell of the Legion Auxiliary will have charge of serving the supper.

In becoming a court reporter, he followed the work of his father, who also was a court reporter. His grandfather was a clerk of courts. Fullwood learned shorthand from his father.

Fullwood has observed that in the non-technical cases, the average witness uses a vocabulary of only about 1,500 words. His only difficulties in taking down testimony and court proceedings involve Alabama Negro and English cackney accents. "It takes a minute to understand just what they are saying," he explained.

PLANT WEIGHS FORTRESS TO GUARD BALANCE

SEATTLE (UP)—Every 100th Flying Fortress which rolls off the assembly line at Boeing aircraft plant is weighed with meticulous care before it is towed to the flight apron for its test hop.

Boeing engineers check the weight of the big bombers with great care, not because they fear it will be under-weight or over-weight, but to make sure that the weight falls in the right places.

"When engineers design a plane, they decide where the center of gravity must fall in order to insure stability of flight," Berger Anderson, Boeing weighing unit chief, explained. "In the complicated airplane, that point must be where it was intended to be. The weighing is a double check to make certain that no change has occurred."

Anderson said the center of gravity of the Fortress falls approximately one-third back from the leading edge of the wings. When a plane is loaded for flight, this point may shift forward or backward a prescribed distance without interfering with flight stability. These limits are determined when the airplane is designed and loading arrangements are planned which will not throw the center of gravity past these limits in either direction.

Pvt. Pennell Now At Keesler Field

KEESLER FIELD, Miss., Miss. (UP)—Pvt. Carl Burns Pennell, son of Mrs. Ota F. Pennell, Ranger, Texas, has reported here and is now undergoing Army processing to determine his qualifications as a pre-aviation cadet.

While at Keesler Field, a station of the Army Air Forces Training Command, he will be given training, classification, and medical and psychological tests. If he successfully completes this phase he will be sent to a college or university for five months (further study or depending upon his academic background, directly to a pre-flight center for cadet training.

Wanted, Picture Of Colored Girl

DALLAS, Tex. (UP)—The identity of the girl a colored serviceman left at home apparently is unknown, according to a letter received by the Times-Herald from the executive officer of a ship.

The officer, while censoring mail, discovered the plea for identity in a letter from one of his "most chocolate mess attendants."

The letter was addressed to Lizzie, and the sailor appealed: "Please send me a picture of yourself. It was so dark the night I met you in Norfolk, I couldn't tell what you looked like."

Regular Legion Dance To Be Held

It was announced today that the regular American Legion dance will be held at the Legion hall Saturday night at 9 o'clock.

Original plans called for the postponement of the dance on this Saturday night, but popular demand forced the change in plans and the dance will be held as usual.

Late Bulletin

WASHINGTON.—The original 26 army officer candidate schools in the country will be cut down to not more than 11 by this fall because of decreasing demand for officers as the army levels off in size, the War Department announced today.

SAN FRANCISCO.—Military considerations preclude use of Japanese-American members of the U. S. armed forces for combat duty in the Pacific War zone, the army advised the War Relocation authority.

INSTALLATIONS ON INVASION COAST GIVEN BIG POUNDING

The American air force threw its crushing weight against the so-called Nazi Atlantic wall defenses along the invasion coast today.

More than 750 four-engined American bombers, escorted by 500 fighters, hurled the big blow of the morning against military installations in northern France along the Pas de Calais strip. They met no German fighter opposition, but ran into heavy anti-aircraft fire.

Many hundreds of other planes—medium and light bombers as well as fighters, both American and British—shuttled back and forth across the Channel in an almost endless stream. Medium bombers attacked unidentified military targets in northern France, and fighter groups carried out offensive sweeps against German airdromes scattered across the French country side.

Meanwhile, Allied land and air forces have begun a new joint attack against the Jap supply lines in India's Manipur State.

The assault was directed at enemy roads leading to the towns of Imphal and Kohima.

Official reports indicated a major counter drive to push the Japs back across the Burma frontier was imminent.

Woman Farming Alone, Does Job

SWEETWATER, Tex. (UP)—Mrs. Ivy Dennis is a determined woman and she knows how to get things done.

She farms alone in the Divide Community, while her son, L. S. Dennis is serving with the Navy in the Pacific.

She hasn't any help at the farm and raising chickens is a big problem. Recently after skunks and hawks had taken toll in her flocks, she sat down and wrote President Roosevelt, asking for ammunition for her only weapon, a shotgun.

The President referred her letter to the War Department Board which expressed Mrs. Dennis four boxes of shells from the Dallas office.

Avery Forcibly Removed Today

CHICAGO—Two husky soldiers picked up Sewell Avery, 69-year-old head of Montgomery Ward & Company, today and carried him, kicking and squirming, from the executive offices of the Nation's second largest Mail Order House to enforce the government's seizure of the firm's Chicago plants.

Resistance Less Damage Greater

WASHINGTON—German resistance to air raids is steadily decreasing and the damage inflicted by Allied bombers is steadily increasing as the Allies press their aerial warfare against Germany and occupied Europe, Secretary of War Henry L. Stimson said today.

SIGNAL FOR INVASION

LONDON—Invasion orders to the peoples of occupied Europe will be broadcast over the first American owned and operated radio station in England, The London bureau of the United States Office of War Information disclosed today.

THE WEATHER

WEST TEXAS—Partly cloudy north, generally fair south. Not quite so warm this afternoon. Increasing cloudiness, slightly cooler in northeast and extreme northeast portions tonight. Friday mostly cloudy with scattered light showers in west and south portions.

BACK THE ATTACK

The first men to visit the site of San Francisco were Indians, who braved the tides in frail canoes to obtain salt from the marshes.

Have a Coca-Cola = You're invited to our house

... or how to make sailors feel at home

Homes, these days, are often playing host to our fighting men and their friendly allies. There's one sure greeting that will put them all at ease. It's *Have a "Coke"*. To an old friend, Coca-Cola from your own refrigerator says *Welcome back*. To a newcomer, it says *Stranger, you belong*. At home, in camp, and overseas, Coca-Cola stands for the pause that refreshes,—has become the symbol of American friendliness the world over.

HERE'S ONE YOU COULD KICK YOURSELF FOR NOT KNOWING

Coffee is Ideal for FRAZZLED NERVES

Relax when you are nervous and jittery. Relax with a cup of delicious, wholesome Admiration Coffee. Coffee soothes the nerves and increases physical strength and output. Nervous tension is frequently induced not by physical ailments but by sheer fatigue alone. Here coffee is a great aid, for it assists the muscles in eliminating the poisons of fatigue. It makes you feel better immediately. And you actually are better too! This in itself is enough to earn for a fine coffee

like Admiration its widespread popularity. But for us, its roasters, it isn't enough. We insist on buying only the choicest, most expensive coffees for the Admiration brand. These then must be so blended and roasted that the richness, flavor, and room-filling aroma of Admiration never vary from package to package. Your first and your fiftieth pound taste alike. They taste like no other coffee money can buy. Why not get a pound and see?
