### HEAVY VOTE IS CAST AT POLLS ON SATURDAY

#### Stevenson and Smith Lead In Races for Governor Lieutenant Governor

Texas Democrats went to the polls Saturday to cast votes in one of the quietest political campaigns in many years but the heavy vote indicated that there was more interest than was shown by the weeks preceding the election, and in most races those seeking reelection were taking the lead.

Coke Stevenson was leading the governor's race with a wide margin, and John Lee Smith was leading in the contest for lieutenant governor. Grover Sellers had a small margin in the Attorney General's race and Richard Critz was leading for associate justice of the supreme court. Hawkins showed a slight edge for judge of the court of Criminal Appeals and George Sheppard was taking the lead for comptroller. L. A. Woods had a big lead for the office of superintendent of public instruction, and J. E. McDonald was ahead in the race for commissioner of agriculture.

Eastland county polled a heavy vote with some boxes reporting close to the maximum vote cast. Some boxes were not reported in time to be included in the Times but the largest boxes had reported and following is the tabulation of the total vote reported:

For Governor: .....  
 Stevenson 2295, Jones 56,  
 Minton 53, Ferguson 79, Fisher 161, Porter 70, Carey 22 Mills

### PEARSON AND BURKETT RUN CLOSE RACE

Although returns of the election in Eastland county were not complete at press time indications were that there would be a runoff in the race for representative for the 107th Legislative District with L. R. Pearson and Omar Burkett in the lead, and W. B. Starr in third place.

Pearson was leading Burkett in Eastland county by a slight margin, but Burkett piled up a considerable lead in Callahan county, giving him, of the votes secured in the two counties, a margin of about 200 votes. Starr was running close to Pearson but it appeared that he would be nose-out of the race.

### Cisco Marine Saves Life Of Buddy On Saipan

By Sergeant Gilbert P. Bailey, a Marine Corps Combat Correspondent.

SAIPAN, MARIANAS ISLANDS, (Delayed)—Fast trigger work by Marine Platoon Sergeant Thomas Morrison, of Cisco, Texas, saved the life of a comrade during a patrol skirmish here before Saipan fell to American hands.

It was one of the many brief encounters with small Japanese groups who hide away in caves to ambush advancing Marine units.

The 23-year old Texan led a small party of men assigned to hunt down three snipers. On their way forward, several Japs with hand grenades and rifles staged a surprise attack from concealed positions. A Marine was wounded, trading shots with them. A Jap saw him go down and drew a bead on him, but Morrison shot him before he could pull the trigger.

Platoon Sergeant Morrison is the son of Mr. and Mrs. Roy Morrison, of Cisco.

"During an attack against a firmly entrenched enemy occupying a hill position on December 3, 1943, in Italy, his infantry squad became pinned down by heavy enemy machine gun fire. Realizing the danger confronting his squad he skillfully moved forward with little cover to the concealed enemy machine gun nest and single-handedly destroyed the emplacement with hand grenades.

### Loot Proves Too Strong For Thief

SHARYLAND, Tex., (UP)—A burglar's weakness for "just a week one" proved his undoing here this week.

Twenty-two-year-old Juan Vasquez of Montemorelos, Mexico entered the home of a former employer, C. L. Schmid, and removed about \$400 in loot, including two pistols, a rifle, watches, and a clock. Just to make the entire adventure thoroughly enjoyable he consumed the greater portion of a bottle of pre-war Scotch, handily cached in the dining room.

In his anxiety to give the spirits a thorough tryout, he overestimated his capacity to say the least.

When the owner returned home hours later, Juan was peacefully sleeping under an orange tree in Schmid's orchard. There Deputies Grover Navarro and Ray Brooks of Edinburg found him, together with the loot neatly stacked at his side.

On Monday and Tuesday, July 24 and 25, the first sheep and goat show and sale to be staged by the West Cross Timbers Sheep and Goat Raisers Association will be held at Mineral Wells, grounds of the Palo Pinto County Livestock Association west of the city limits.

According to reports there has been a fine response to the show, which is drawing sheep and goats raisers from the 26 county area. It is expected that over 250 entries will be made in the show and will come from the finest breeder stock in this area.

The program for the event calls for a big barbecue on one day and a fiddle band dance at the Convention hall one evening. On the last afternoon there will be coronation ceremonies in which the sweetheart who has sold the most memberships will be crowned queen of the Association to reign for one year. Eastland county is represented in this contest by Miss Frances Ruth Hagaman, daughter of Mr. and Mrs. Leslie Hagaman.

In speaking of the event sheep and goat raisers are very enthusiastic over having a sale and show in their own section of the state which enables them to purchase their breeder stock without making long and tiresome trips to other sections.

Judges in the show will be Wallace Dameron and Joe Brown Ross of Sonora. Dameron head the experiment station at Sonora. Helise Johnson of San Angelo will be in charge of the sales. He is well known in sheep and goat raisers circles and is auctioneer for the Texas Sheep and Goat Raisers Association.

### RUSSIANS TAKE CHELM; RAF SINKS 40-SHIP NAZI CONVOY

LONDON—The Red Army has captured Chelm, an important railroad junction on the main line to Warsaw. Marshal Stalin announced in an order of the day.

LONDON—British planes sank or damaged every vessel of a 40-ship German convoy off Heligoland last night. It was one of the largest convoys ever attacked by the RAF Coastal Command.

Allied armies knocked out 14 German tanks yesterday in repulsing two futile counter-attacks south of Caen and along the Perriers-to-St. Lo highway. However, heavy rain today stalled the British push across the Caen plains. Radio Berlin says the British in Normandy are missing 10 divisions east of the Orne river and moving additional men into the area for another offensive.

About 750 Flying Fortresses and Liberators struck from Italy today at the Romanian oil center of Ploesti for the 11th time in the war. The German radio says RAF planes are over the Reich again tonight.

The Fifth and Eighth Allied armies in Italy are driving northward all along the front. The latest series of gains is highlighted by an American thrust to within four miles of Pisa, the west coast anchor of the Nazi Gothic line defenses.

The Russians have made new gains in Poland. A German spokesman admits that the Russians have achieved a deep penetration northwest of Lodz, striking out in the direction of Jaroslav, 62 miles northwest of Lodz.

American reinforcements are landing steadily on Guam Island, while the Yanks are fighting inland from the north and south on the west coast. Meanwhile, the Navy revealed today the loss of two more U. S. Submarines in the Pacific, the Trout and Tullibee, each carrying about 65 men.

INSIDE WASHINGTON

Some Light Thoughts For Very Heavy Days

By HELEN ESSARY Central Press Columnist

WASHINGTON—Some light thoughts for very heavy days: Those three smart Republican boys—National Chairman Brownell, Committeeman J. Russel Sprague and Edwin Jaekle, who dwell on the 25th floor of the Stevens hotel during the Chicago convention and tell everybody what to do—are being pleasantly referred to as the political duplicates of Wynken, Blynken and Nod.

The drinking fountains in the war department's Pentagon are so arranged that it is impossible to get a sprinkle of water therefrom unless you take off your hat. It is extremely inconvenient for a woman passerby to remove that which is currently known as a hat, it invisible hair pins, the rubber band which keeps that which is known as a hat on that which is currently known as a head of hair, and then having done all these things, to twist the swan-like throat into an ostrich neck while stooping and bending—merely to get a drink of water—bubbling away two inches from your mouth.

Uniformed men have the same trouble quenching their thirst in the Pentagon. They can't touch the fountain's cooling spurt unless they take off their caps. The fountain is hooded, like a jack-in-the-box. Or is it a chambered Nautilus? Anyway, you have to go thirty in the Pentagon—if you have a hat on.

Speaking of hats—a mean man pleased me the other morning, before breakfast, and said something like this: "That was an outrageous column you wrote the other day about Governor Dewey's mustache being a campaign liability."

"It just proves to me that women have no right to be in politics or to vote, either. You ought to be ashamed of exposing your ignorance that way. What's a mustache got to do with the election, anyhow? Besides, some of the finest men in our history have had mustaches. Even beards. Didn't Henry Wadsworth Longfellow have a beard? And Buffalo Bill? And Abraham Lincoln? Most of our poets had beards. How about that?"

"I still don't think they looked well in smooth," I answered. "I'd have liked to meet poets when they were smooth shaven with faces uncovered, and so discover what sort of fellows they were when they came out in the open. Keats was unshaven and Byron. Maybe that's why we thought they were so beautiful."

"Listen, lady," said the Mean Man. And a perfect stranger he was to me. "Any woman who wears the kind of a thimble holder you do and calls it a hat, has a lot of nerve to make remarks about any man's mustache. Think that one over."

I have thought it over and I still say a little blob of black mustache is kinda funny. And I like my hat even if the humidity is taking the starch out of its up-sip.

Overheard on a capital bus: "One of the things that worries me about this war is that good potatoes are so hard to get. Mine have worm holes and things in them. And it almost kills me to pay 60 cents for a cantaloup. Cantaloups are plainer than ever this year."

"I guess it's the Japanese beetles that make them that way. Our whole yard has been eaten up by Japanese beetles. They're even walking into the house. I found some sticking to my verbenas plants. They ought not to be hard to catch. They're sort of sluggish. I understand the reason the Japanese beetles came over here is that they got tired of the food in their own country. What do you suppose we could do to catch Japanese beetles for good and always? Maybe we ought to sick American beetles on them."

"Well, I don't know about beetles and the bad luck they bring. But I do know about the sweetest piece of good luck Lattie has had with her new baby. Her practical nurse is an intimate friend of the lady whose husband runs the dices wash. So the practical nurse asked her friend, who asked her husband to move Lattie up on the waiting list. She was down to 732, Lattie said. And now she's second! Isn't that a wonderful break?"

"Well, good bye, dear, I'll be seeing you. This war certainly has taught me one thing. It doesn't pay to cultivate congressmen and diplomats and people like that when you live in Washington. I only wish I'd had sense enough to make real friends with butchers and laundrymen and that dice wash man's wife!"

LAFF-A-DAY

"Not tonight, Sam. The wife's out and I gotta stick around and make sure the new maid doesn't run out on me."

## The Claims and Nature of the Bible

By Joe W. Crumley  
The world is convulsed in the agonies of war; and while our boys are enduring the repulsive nature of the throes of such carnage our ambitions should be to preserve the love and knowledge of the Bible for which our loved ones are dying daily. It is with this point in view that we deal with the claims and nature of the Bible.

To him who seeks for "glory, honor, immortality, eternal life", the Bible is his only text book. Bound up in that book are revelations which act as a "lamp unto feet and a light unto our pathway."

Hardly can one walk out under the canopy of heaven without recalling the language of God's sweet singer, "The heavens declare the glory of God; and the firmament showeth his handiwork." (Psa. 19:1.) With simple words God brought it all into existence yet we, in all our ingenuity cannot tell of what they consist. We can through much toil and patience produce what seems to be the exact replica of a grain of wheat, a germ cell or an egg but it is entirely without power of reproduction. Well said the loved poet, "Only God can make a tree." Darwin boasted of his ability to trace man to a simple celled animal. But when asked the question, "from whence came the life of that cell?" the answer echoed back, "Whence?" The nature of God is not only revealed in his "handiwork" but in his goodness to man. "For when we were yet without strength, in

free. God gave his only son that we might be saved from the awfulness of our offenses. Of Jesus and his treatment of man Isaiah said, "He is despised and rejected of man; a man of sorrows, and acquainted with grief; and we hid as it were our faces from him; he was despised, and we esteemed him not. Surely he hath borne our griefs, and carried our sorrows; yet we did esteem him stricken, smitten of God and afflicted. But he was wounded for our transgressions, he was bruised for our iniquities; the chastisement of our peace was upon him; and with his stripes we are healed." (Isa. 53:3-5).

It is no wonder that upon the occasion of His crucifixion that the sun hid its face from the awful scene which was transpiring and the whole earth convulsed it-

self at the horrors of Golgotha. It was the culmination of the greatest drama ever enacted. It started with paradise lost in the Garden of Eden and ended with paradise regained through Jesus Christ and his death. "To them who look for him will he appear the second time without sin unto salvation."

**To Send Money Safely And Economically . . . . . Use Bank Money Orders**

Money is important. Don't take chances with it! Send it in the safest way possible . . . in the form of bank money orders.

Yes bank money orders are safe . . . Convenient and economical, too. The cost is even less than you would ordinarily pay for a Post Office money order. That's something to remember. And of course bank money orders can be cashed anywhere. They're as "good as gold."

The next time you send money—to pay out-of-town bills, income tax installments, insurance premiums, or for any purpose—do it in the form of bank money orders. No long, difficult forms to fill out. Just a few strokes of the pen and the job's done. Better still, you're given a large retainable receipt for your files. That means that when income tax time comes around you'll have positive proof of your expenditures . . . actual records. And these days, records are really important!

So hereinafter, when you send money—use a bank money order. Safe—economical—convenient.
