The Dimmitt Junior Chamber of Commerce is presently planning a clean-up campaign for Dimmitt in the near future.

Whether this campaign fizzles or the past will be up to the merits of this fair village. The Chamber will expend plenty of effort and they'll push other organizations and people to see they do their part.

The best chance for a successful campaign in Dimmitt will come from the plain, ole common, yard, run-of-the-mill, garden variety citizen who comes in from about six o'clock, grabs a broom and starts cleaning up the yard around his place.

A successful clean-up campaign means a lot less mosquitoes before. All these weeds that grow on our vacant lots and back yards are perfect habitats for mosquitoes and to get rid of the weeds means that we can sit in our yards at night and enjoy the long weeks of summer still left.

It would like to see the people of Dimmitt get a little vinegar in their systems and turn a little bit-eyed and bushy-tailed and after the mess of weeds around with a vengeance. The heavy work of this summer helped once more that this is the weed growing country in the

only weeds should be eliminated the general junk and of civilized living as well around your house. We'll unless you've really worked in the past—that you can up a bushel basket of paper cigarettes, paper wrappers, ties, wire, tin cans, sticks and a hundred other items. And didn't take long, either.

Generally, citizens are lucky. They can live in a bed of refuse except for a possible occasional call from the state health department, can let their yards get by as they like without anything a thing to them.

Ask any former GI how the state of all organizations—the army—handled their clean-up campaigns. It didn't start out with a lot of Jaycees pleading for laziness to please pick up trash and chop the weeds. See! The routine consisted of a scathing invective from the first sergeant toward the side of an area, take off helmets, bend over at the waist and start picking up the mess of articles as they cross the area.

You can't run a civilian campaign like that, thank you. So when a date for the clean-up is announced, we hope you will decide that date is a time for their own personal and vacant lot cleanup and arrangements to do it then.

are happy to see that the Dimmitt Association has seen change their annual Reunion Homecoming and Picnic. In the area have been for some time and it is out well as general county get-together. ### Officers Solve Nazareth and Hart Burglaries

A series of burglaries at Hart and Nazareth over the week end resulted in a lot of work for the Castro County Sheriff's Department and nothing for the thieves.

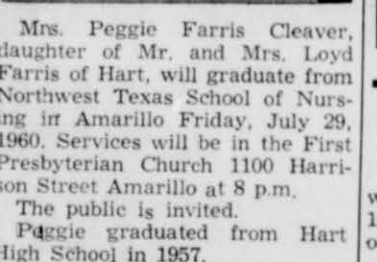

Myrl Bradley's Phillips 66 Service Station at Hart was entered by burglars who broke the glass out of the front door and took several jacks, wheels, tires and money from the coke machine Thursday night.

Wait Hansen Grocery at Hart lost cigarettes, meat, socks, gloves and other miscellaneous items the same night.

Ringwald Liquor Store at Nazareth had stolen several cases of beer, whiskey, wine and vodka.

But the thieves were out of luck. The sheriff's department sent out a shortwave notice of the burglaries to other departments in the area and the Plainview Police Department reported finding a car in a caliche pit near there containing the stolen items. The Plainview Police used a stake-out to watch the car and stolen items. Friday afternoon a Latin-American youth returned to the car and was apprehended. He later named his accomplices and warrants have been issued for their arrests.

### Jody Compton Is Fireman of Year

Jody Compton of Dimmitt was named city "Fireman of the Year" at the annual Firemen's Banquet Wednesday night at the Grade School Cafeteria.

"Compton has been an outstanding fireman," Fire Chief Willie John Word said. "He attended 47 of 48 drills, and was at 48 of 58 fires during the past year. He is a hard worker and has shown his willingness to undergo personal sacrifice for the good of the department."

Compton has been with the fire department for two years. He is presently operator of the Cosden Station in East Dimmitt but at the time of joining the department he farmed northwest of town. He was one of two farmers in the department.

There were forty-nine firemen, their wives and guests at the banquet. They heard Cap. A. C. Black and Lt. Joe Lewis, both of the Lubbock Fire Department. The two men also showed pictures of controlled butane fires taken at Lubbock and the recent elevator explosion at Brownfield.

Other men who have received the Fireman award in the past are John Hardy Wood, '56; J. B. Moore, '57; Harlan Dodd, '58; and Bill Dowdy, '59.

Word was emcee of the program. The meal was prepared and served by Rebecca Lodge ladies.

AFTER THE RAINS—Minnesota's "Thousand Lakes" region has nothing on Castro County following the rains of the past several weeks. Some 8 to 9 inches of rain deluged the area and sent hundreds of small playa lakes to their highest level in years. In this photo, taken from the west and looking east towards Dimmitt, can be seen many of the small lakes. This is a typical area of the county and from a high altitude the lakes compose a checkerboard pattern extending as far as the eye can see. These lakes are the result of a lack of natural drainage in this country and are unique to the Great Plains area.

#### REFLECTION AND VISION

With Congress in recess until next month, national attention has shifted from legislative activity to the Democratic and Republican National Conventions being held this month in Los Angeles and Chicago. Nevertheless, when the Senate convenes on August 8 and the House follows it into session one week later, some of the most important bills of the session will demand a decision.

The leadership has indicated that among these measures will be the controversial proposals to increase and extend the minimum wage, to provide some medical care plan for the aged, to offer federal aid for school construction, and to encourage housing assistance and urban renewal. Several appropriation bills, including foreign aid and public works, also remain to be dealt with and it is likely that another farm bill will be introduced.

The Helium Bill, which is of particular importance to the people of the Panhandle, has been reported from committee in the Senate, and will presumably come before that body during the coming deliberations. The bill was of course passed in the House of Representatives last May. It will prevent much of the present waste of a most vital resource.

Although the number of bills is quite large, I am glad that the Congress did not make an effort to rush them through in a frenzied attempt to dispose of all legislation and adjourn before the Conventions. The last minute push has

our purposes seem clear. We must place a man in our highest office who will find traditionally American solutions to some very unsatisfactory problems. He must be one who does not feel awkward when speaking of vision, determination, or imagination. He must understand that much of our economic life is being wrecked by the loss of our oil and gas, and that too often our diplomacy lives in the faded dream of an atomic monopoly we no longer possess.

occurred before, and doubtless will occur again, but almost always as a liability to the taxpayer and an asset to the advocates of big government.

Still, Congress will not have unlimited time to pass the judgment of the American people on these various legislative measures. For even as we must all begin the compelling task of choosing the next President of the United States, and as so many convention speeches indicate, it will certainly be one of the most important events in our history. The fact that this importance has been recognized countless times by party leaders does not make it any less true.

### ARNEY NEWS

The Soviet Union can be expected to step up its propaganda while the campaigns run their course and a new President is preparing to assume the responsibilities of office. Already the heavy hand of international communism is very much in evidence. With apparently no other purpose than to further world class and fear, the Russians shot down an American airplane over international waters of the E. C. Hudsons in Earth recently and when they drove to Lamesa to spend the day with Mr. and Mrs. Olin Holsen and sister, Mrs. Mattie Middleton.

Mr. and Mrs. Raymond Copelin and Raymond, Jr. and Dale of Denton, Texas are visiting this week in the home of his parents Mr. L. C. Copelin, Sr. and Mrs. Robert Copelin and Johnny of Borger came to spend the day Sunday. Johnny remained for a visit and he will return home Thursday when the Raymond Copelin go to Borger and Sunday to visit his brothers.

The Foster families all got together the past week when Mr. James Foster and Mr. and Mrs. John Hales were here from California and Mrs. and Mrs. Olin Holsen from Lamesa, Colorado. They visited with the Ben Fosters in the community. The several Foster families were guests of Mr. and Mrs. Rose Campbell and Mrs. A. V. Frazier in Canyon on Saturday.

Mr. and Mrs. J. H. Stricker of Dimmitt visited Mrs. Maud McFarland on a visit and she will return home Thursday when the Raymond Copelin go to Borger and Sunday to visit his brothers.

The condition of Mrs. Maud McFarland remains about the same. X-ray pictures will be made this week to try to locate the cause of her illness.

Surgey was done to remove glass from the right eye of L. V. Ollie at Northwest Texas Hospital Monday morning. It will be several days before they will know whether the sight is destroyed. Twenty two stitches were taken to close the cuts around the eyes.

L. V. was injured when the car he was driving collided with another car on N.E. Eighth Street in Amarillo early Sunday evening. Shelly Robinson, cousin of L. V. and three of his friends were riding in the car. One of the young people remains in a critical condition.
