We are citizens concerned about the coming School Bond Election of \$1,200,000.00 at $3\frac{1}{2}\%$ interest, maturing in 21 years.

We presently owe \$900,000.00 at interest bearing approximately

This \$1,200,000.00 bond issue is for building a High School approximately one-half mile from the City Limits south of the Presbyterian Manse, purchase of site, equipment, etc., and complete remodeling of present High School.

We submit the following statements for your consideration:

. We think the bond issue is excessive from the standpoint of overloading the financial resources of the school district.

2. If the past five year growth is duplicated, we will be faced with a building situation again in five years and our bonded indebtedness will not permit us to take care of that need.

3. Consideration should be given to the problem and expense in getting the students to and from the proposed new High School

4. Consideration should be given to the potential growth of the school in relation to irrigation water resources and consequent effect on our scholastic enrollment and ability to pay taxes.

5. We know that adequate facilities are being built for considerably less. We believe this can be done here by building in vicinity of present school location and making necessary repairs to the present high school building.

6. We are for adequate school facilities and we urge you to carefully consider all the factors involved; and BY ALL MEANS GO VOTE ON SATURDAY, OCTOBER 7th.

Dear Mr. Farm Owner,

Here are a few good reasons for borrowing money. Do you want to build a new home? Perhaps you need underground irrigation tile to conserve water and increase your yield. Or maybe you would like to buy more property.

These are major projects and few of us have the capital to finance them without borrowing money. We would like the opportunity to discuss a long term
