

County ASC Office Receives First Soil Bank Announcement

First indications of what the soil bank program will mean to farmers in this area came into the ASC office from the Department of Agriculture Wednesday.

Under provisions listed by the state Agricultural Stabilization and Conservation office, Castro County has a chance of receiving some \$500,000 for participating in the soil bank program.

To inaugurate the program calls for detailed planning by the county ASC office, but some provisions indicate that an average \$45 per acre might be paid for cotton land taken out of cultivation and about \$24 per wheat acre not harvested. These figures are approximate and based on 300-lb. per acre production of cotton and 20 bushels of wheat per acre as average yields.

It is expected a five-year average will be the consideration for payments. What this all means is that payment will be made on cotton at a rate of 15 cents times the number of pounds each acre would normally be expected to produce. Thus, if a farm produced

an average of 300 pounds of cotton per acre over a period of time, then it would be multiplied by 15 cents to arrive at the \$45 per acre figure for land taken out of cultivation. The same holds basically true for wheat where \$1.20 per bushel is paid for the average production per acre per year.

Farms will be appraised by community committees for average yield and these figures will be adjusted with the total funds allocated for the county.

The announcement came barely in time since wheat harvesting is getting under way over the county. According to the ASC statement of Wednesday a payment will be made this year on wheat acreage planted but not harvested, but no applications can be taken until detailed instructions and forms have been received.

Any farmer who has not harvested his wheat may keep his combines out of the fields and apply to put half his acreage, or 50 acres, whichever is the largest,

into the soil bank program. He will be paid \$1.20 per bushel of average annual yield of the land taken out of production or not less than \$6.00 per acre.

One example was given by ASC manager Doyle Thomas. If a farmer has two separate tracts of wheat where one will produce enough to make a profit and the other will lose money, the farmer may put the poorer acreage into the soil bank and receive payment for not harvesting it. This is a hypothetical case to illustrate that a farmer may take out his less productive acreage and harvest his best wheat.

All of these figures are tentative. A definite program is yet to be announced according to the ASC office, but the announcement was positive enough to give farmers in this area some idea about what to do in relation to their cotton and wheat crops.

In more detail the announcement pointed out that under the 1956 Acreage Reserve, Castro County farmers who are eligible to take part in the program may

earn payments in connection with wheat or cotton by reducing their acreage of the crop below the farm's established allotment.

Under the basic rules of eligibility established in keeping with the law, acreage designated for the Acreage Reserve must: (1) be representative of the land used for harvesting of an acreage of the basic crop less than the farm allotment, and (2) not be grazed, cut for hay, or cropped for the entire 1956 calendar year. Noxious weeds must also be controlled on the "reserved" acreage.

In order to participate in the Acreage Reserve, a farmer must comply with all acreage allotments established for the farm.

The 1956 program, as provided by the law, contains special provisions and payments which enable farmers to participate this year. Any farmer who otherwise complies with the provisions of the Acreage Reserve will be eligible for payment if:

1. He has underplanted his Soil Bank allotment for cotton and he certifies that he underplanted

(a) in anticipation of complying with the 1956 Acreage Reserve the farm, but will not be less or (b) because of adverse weather conditions; or

2. He has underplanted his 1956 allotment for winter wheat and certifies that this was done because of adverse weather conditions; or

3. He has complied with his Soil Bank farm allotment for a particular crop, but an acreage of the crop was not harvested because of destruction by natural causes.

Maximum and minimum acreages of the basic crops which may be placed in the Acreage Reserve have been established as follows (except that where the allotment is less than the specified acreage minimum or maximum, the total allotment shall be considered as the minimum or the maximum):

For wheat, the maximum is the larger of either half the wheat allotment or 50 acres. The minimum is the larger of either 10 per cent of the allotment or five

acres. For cotton, the maximum is the larger of either half the allotment or 10 acres. The minimum is the larger of either 10 per cent of the allotment or two acres.

The payment which a farmer may earn for participating in the Acreage Reserve will be determined by multiplying a base unit rate by the yield factor. The national average rates for 1956 crops are: Cotton, 15 cents per pound; wheat, \$1.20 per bushel.

The payments will be determined as follows: for underplanting the allotment for cotton, the payment rate will be based on the normal yield for the designated acreage.

For underplanting 1956 winter wheat, because of adverse weather, the payment will be \$4 per acre.

For destruction due to natural causes or for plowing or otherwise physically incorporating the crop into the soil, or for clipping, mowing, or cutting the crop, the payment will be based on the smaller of an appraised yield for the field or the normal yield for

that \$6 per acre.

Provisions of the Conservation Reserve part of the Soil Bank will be announced as soon as practical. Under this part of the program, a farmer will be able to earn two types of payment—an annual payment to help compensate for income which he would have received if the "reserved" land had been in crop, and a payment representing a percentage of the cost of establishing conservation practices on such land.

The same acreage on a farm may not be included under both the Acreage Reserve and the Conservation Reserve parts of the Soil Bank.

In addition to this, County ASC manager Thomas said the division of payments between landlords and tenants will be made on the same basis as rent for the crop is divided.

"We will be glad to discuss what we know about the Soil Bank with the farmers of this area; however, we cannot take applications from anyone until detailed forms and instructions

have been received," he said.

"From the Department of Agriculture in Washington came these words from Secretary Ezra Benson:

"We have proceeded with all possible haste since enactment of the Soil Bank legislation to present a sound 1956 program to farmers. It is true, however, that the program for this year is in a sense a special program designated to meet the time limitations and the requirements of the legislation for 1956.

"For that reason, 1956 will not present a fair trial of what the program can accomplish. The rates set are for the 1956 program only. Before next year's crops are planted, however—including fall seeding of wheat this year—we will have an opportunity to plan and develop a more comprehensive program.

"The Soil Bank makes available beginning especially in 1957 a way to reduce our farm surplus, to safeguard our soil and water resources, and give a lift to farm prices."

Bethel Mission To Hold Revival Beginning June 18

The Bethel Mission of the Baptist Church will hold a revival from Monday, June 18, to Sunday, June 24 inclusive. Evangelist will be the Rev. Tony Fynn; the Mission pastor, Rev. Wayne Day, will be revival song leader.

The Bethel Mission is located in a new church building at SW 2nd and Lee Streets. It was established three months ago under the sponsorship of the First Baptist Church of Dimmitt, and has had an increasing membership since.

The public is invited to attend this revival meeting.

Robert Duke New Sunnyside Progress Club President

Sunnyside Rural Neighborhood Progress Club June 1 elected Robert Duke president and made plans to enter next year's rural community contests.

The community organization will be presented a \$50 award at Jumbo Tuesday for their accomplishments in the joint Extension Service-Progressive Farmer sponsored contests of last year. The Sunnyside club will furnish a portion of the program at the awards presentations.

Other officers elected to head the club which has won numerous awards for community achievement are Hubert Lilley as vice-president; E. R. Sadler, secretary-treasurer; Mrs. Howard Bridges, recreation; and Mrs. Noble Howard, yearbook. Several committee chairmen were also appointed.

During the summer months, the club winds up its business and recreational programs with volleyball games.

Johnny Miller Receives Vet Doctorate

John W. Miller, former Castro County farmer until he entered Ohio State University in Columbus, Ohio in 1950, graduated June 8 with a Doctor of Veterinary Medicine degree.

He will be employed by the government in Huntington, West Virginia during next year. Following that, he plans to establish his own practice.

His wife, the former Novelle Simmons, received an honorary Ph.D. degree ("Put Bobby Through" college, according to her parents, Mr. and Mrs. Vernon Simmons) at a tea sponsored by the University. Dr. and Mrs. Miller have two children, John, 7, and Carol, 6.

CROP Film At Rawlings Hotel On Wednesday

'I Saw the Need' is Title of Movie To Help Raise Funds

What happens to commodities and cash gifts collected in Castro County's Christian Rural Overseas Program appeal is shown in a new film, "I Saw the Need," to be presented June 20 at 12 noon in the Rawlings Hotel.

The public is invited to the showing, after which the county CROP board will meet to discuss the forthcoming CROP campaign in Castro County. Rev. Ellis A. Todd of Plainview, area director, will lead the program.

Gifts collected by CROP in its nationwide campaign are shipped overseas by Church World Service. The difference these gifts make in the destitute lives of resettled refugees in Greece, and the hopeless future of Arab children who are not entitled to official ration in the refugee camps of the Holy Land, can be seen as they are photographed receiving food from churches.

The film shows actual scenes taken overseas in eight countries. Narration is by the associate national director of CROP, Wilson O. Radway, of Elkhart, Indiana, who visits the refugee camps and famine areas shown. Mr. Radway explains the great tragedy of 45 million people whose crops and existence were wiped out in last year's floods in India and Pakistan. In Hongkong, Mr. Radway surveyed the refugee situation. He calls Hongkong the most miserable spot on earth. He explains that over 1,500,000 refugees from communist China have tripled the population of the British port.

The filmed report on Korea shows Mr. Radway visiting amputee centers established with the help of CROP food gifts. There amputees are taught trades, while they wait for their stumps to heal so they may be fitted with artificial limbs. Many of the amputees are children, innocent victims of the hostilities. The widows of Korean pastors are helped to learn spinning and needlecraft to support themselves and their children, orphanages receive flour from CROP and milk, and clinics are enabled to minister to the poorest of the poor with gifts from CROP.

The greatest scourge in Korea today is TB. Church groups and hospitals for the poor will use CROP gifts to supplement their own meagre rations to the sick. The anti-TB program of the churches in Korea this year, Mr. Radway states, will receive major support from CROP.

The film is highly recommended. It is hoped that all those interested in the CROP campaign will see it and learn how far our support of CROP can go toward a better life for the neediest of the needy in other lands.

Lowell Joins Navy

Tracy Lowell, son of Mr. and Mrs. H. M. Cowell of Dimmitt, has left Lubbock June 5 for Albuquerque, N. M. He will be in basic training at Great Lakes for ten weeks.

Official Publication of Castro County, Texas

VOLUME XXIX CASTRO COUNTY NEWS, DIMMITT, TEXAS, THURSDAY, JUNE 14, 1956 10 PAGES—NO. 33

52-Block Paving Program For Dimmitt Is Underway

Dimmitt residents Friday night endorsed 52 blocks of new city paving at a public hearing in the City Hall.

Total cost of the approximate three miles of pavement will be

\$194,893. Of this, property owners will pay \$168,899 and the city will pay \$25,994.

Only one objection was raised at the meeting; this involved a question of location rather than desire for pavement. No protest was made against the over-all project.

The Page-Killingsworth Construction Company, a joint firm, is the contractor. Tom Anderlitch of a San Antonio bonding company is acting as attorney-in-fact for the firm and will be coordinator of the project.

The project will be operated by the assessment method; a property owner must sign a voluntary contract before any street adjoining his property can be paved. The resident section to be paved is divided into units; all property owners of a unit must have signed the paving contracts before operations can begin for that unit.

Anderlitch said Monday that the entire project depends on property owners signing the paving contracts as soon as possible. If everyone signs on time and there are no weather delays, he said, the project could be completed in 60 days.

Anderlitch's office is in the Page Construction Company office building four blocks south of the Castro County Courthouse on Highway 51. He asked that any paving program feel free to come by his office or call him at 491.

All contracts must be notarized; a notary public will be on duty from 8 a.m. to 5 p.m. weekdays and from 8 a.m. to noon on Saturdays, until June 29, in the Page office.

Paving will be by the "triple-penetration" method, the most widely used type of pavement. It will consist of three courses of asphalt with alternate layers of crushed rock, applied on a compacted caliche base. Curbs and gutters will be of standard 24-inch concrete which will meet rigid strength requirements.

The Hatfield Engineering Company, employed as the city's engineers, will supervise the paving project. Final acceptance of work will be approved by the City Commission.

Property owners may pay for their pavement by any one of three methods: cash, escrow, or contract. These methods are explained in the Page-Killingsworth open letter to property owners as follows:

1. "You may pay cash.
2. "You may deposit the total escrow with the local bank, which will be released to us when the work has been completed and accepted by the City Commission.
3. "You may execute a paving contract whereby you agree to pay one-fourth of the total cost when the work is completed, and one-fourth each year for the following three years. You have the privilege to pay this contract on or before its due date. The contract bears 6 per cent interest."

Glenn Youts New Vice-President of Hi-Way 51 Assn.

Four Dimmitt men last week attended the International Parks Highway Association meeting in Lamar, Colo.

Purpose of the association is to work toward the federal designation of Texas State Highway 51 as a national highway. By doing this the highway, which runs through six states, would receive federal maintenance and a one-member designation. This is expected to result in increased use of the road and more money allocated for its maintenance and improvement.

Glenn Youts, Castro County Chamber of Commerce manager, was elected vice-president of the organization and T. A. Singer was named honorary secretary. Harley Rhodes of Burlington, Colo., was elected new president and Ray Brown of Lamar, Colo., was named secretary.

Attending from Dimmitt other than Mr. Youts and Mr. Singer were Jimmy Singer and Bill Hochstein.

"We will still have to do a lot of work before we receive federal designation for the highway," said Mr. Youts. "We will need full cooperation of all of the six states involved."

The highway runs between Big Bend National Park and Regina, Saskatchewan, Canada, and passes through Dimmitt. The Dimmitt group left for Colorado Friday and returned Saturday night. The next meeting of the association will be at Alliance, Neb.

Mr. and Mrs. Earl Harrison are in Washington, D. C., for a visit with their son, Dr. Joe Harrison, and family.

Mrs. Raymond Wilson and Patricia are at Houston this week attending a state meeting of the Rainbow Girls.

American Legion Is \$445 Closer To New Hall

Dimmitt American Legionnaires this week came closer to their goal of a central meeting point which would serve both the local legion and the city.

A total of \$445.00 was collected during the week bringing the total to \$5,410 in their building fund. This figure is roughly half what is needed to complete the new building.

Of concrete tile and a Wunderkonec-type building, the new structure is designed to serve both as a community center and Legion meeting place when completed. It will be located one block east of Highway 51 behind Dimmitt Drive-1st.

Their old building, located near the local city park, was given this spring to the Boy Scouts who will assume full ownership in about a year. At present the Legion meetings are being held there.

Last week \$935 was collected towards the building fund. It is estimated the new structure will cost between \$10,000 and \$11,000 to build with most labor being donated and materials furnished at near cost.

Local men and businesses donating toward the building this week included Thomas Bice, Castro County Cleaners, Jack Coswert, Claude Milsap, Brown's Texico Service Station, Gene Gray, Dimmitt Implement Company, Bob's Service Station, Roy Smith, Shorty Trimble, Harman's Department Store, Cooper Implement Company, Dale Carmichael, Southwestern Public Service Co., and West Texas Telephone Company.

Eileen Schulte Is City Official At Girls State

Eileen Schulte of Nazareth, a citizen of Bluebonnet Girls State now in progress in Austin at the Texas School for the Blind, Friday was elected City Councilwoman of her city.

Eileen is assigned to the Federalists party and is residing and voting in the city of "Oh How" of "Niece" county.

She is the daughter of Mr. and Mrs. Albert W. Schulte of Nazareth and was sponsored to Girls State by Unit 528, the local unit of the American Legion Auxiliary.

Girls State is a mythical 49th State of the United States, sponsored by the American Legion Auxiliary. The prime purpose is in teaching city, county and state government and practical application. The girls who are the 1956 citizens have set up and are operating miniature city, county, and state governments.

Citizens attending the sessions are selected on a basis of character and leadership from students who have completed their junior year in high school this year.

At the conclusion of the session, two citizens of Bluebonnet Girls State will be selected to attend the American Legion Auxiliary Girls Nation, to be held in Washington, D. C. in July.

Regene Reynolds Receives Nurse Cap At Ceremony June 1

Miss Regene Reynolds, daughter of Mr. and Mrs. Floyd Reynolds, has completed her first year at Methodist Hospital School of Nursing in Lubbock.

She received her cap in a capping ceremony held in the First Methodist Church in Lubbock June 1. Miss Reynolds will continue with practical nursing at the Methodist Hospital for the next two years.

Eileen Schulte Is City Official At Girls State

Eileen Schulte of Nazareth, a citizen of Bluebonnet Girls State now in progress in Austin at the Texas School for the Blind, Friday was elected City Councilwoman of her city.

Eileen is assigned to the Federalists party and is residing and voting in the city of "Oh How" of "Niece" county.

Tony Smitherman On USS Boyd

FAR EAST (Sp.)—Tony R. Smitherman, interior communications electrician third class, USN, son of Mr. and Mrs. Milford M. Smitherman of Hart, is serving aboard the Pacific Fleet destroyer USS Boyd in the Far East.

The Boyd departed from San Diego, Calif., April 28 for the two-month cruise.

Mrs. Lyman Newman and children of Plainview were here Monday for a visit in the home of Mr. and Mrs. Joe Cowen.

Mr. and Mrs. Melton Richardson left Tuesday for Orange, Texas, where he has employment.

Mrs. Gene Rutledge and children left this week for Orange, Texas, where he has employment there as a car salesman.

Win and Loss Marks Opening Summer Baseball

200 Spectators See Double-Header Split With Olton Boys

Dimmitt's Little League Tuesday night dropped a hot baseball game to Olton 8-6 to lose the season's opener, while the Pony League won their half of the double header 11-6.

The Little League team, hustling behind the pitching of Mack Thompson, led the Olton team 6-4 until the final inning when the visiting team staged a rally that sent four men across home plate. The hot pitching of Jimmie Curtis and Eddie Montgomery set the pace for the Pony League and they were never behind.

These two games were the first to be played during the current season. It also heralded the first year of their sponsorship by the Dimmitt Junior Chamber of Commerce.

An estimated 200 people saw the game that was hurried by occasional thunderstorms and sprinkling rain. All work on the park was not completed by game time. Additional bleachers are scheduled to be installed in the field as soon as possible. The night lights were repaired and placed in operation Monday and final work on the backstop was completed.

"We've got a good group of boys out this year," said coach Bill Reisdorff, "and we've got several pitchers who are showing a lot of promise. I believe we will have some good teams this year."

A total of 96 boys have signed up for small fry, Little League, and Pony League teams. Mr. Reisdorff said Wednesday he is trying to find sponsors for the small fry teams (8-10 years of age) so individual teams can be maintained. At present it is on a choose-up basis for the youngsters.

Dimmitt will again be host when the Little and Pony League teams take on Nazareth Friday night at the local park beginning at 8 p.m. Admission will be 25 and 50 cents. The baseball field is located just north of Dimmitt Gin on Highway 51 in Southeast Dimmitt.

Strange New Bug Causes Plant Damage Here

Edd C. McLeroy, farm representative of the First State Bank in Dimmitt, Wednesday issued a warning to all farmers and gardeners to be particularly aware of insects similar to squash bugs during the summer months.

"They are literally covering trees, shrubs, and lambs quarters over the county," he said. The small insects have yet to be positively identified by leading entomologists of this area according to Mr. McLeroy. They have been noticed in Dimmitt during the past several years and have caused the destruction of trees on some properties.

"The insects are very closely kin to the squash bug and will do the same damage if permitted to go uncontrolled," he said. "Two tablespoons of 50 per cent malathion per gallon of water sprayed on the infected plant will kill these bugs in it, but will not keep others from migrating from yard to yard and reinfesting the sprayed plants."

The trees that seem to make the best host for these bugs are weeping willow, mimosa, ash, and fruit trees.

McLeroy encourages everyone in town to check their plants and try to control these damaging insects. "If they are left uncontrolled, they no doubt will keep building up from year to year and in due time could become a very serious pest."

Chief concern regarding the bugs at this time is their effect on crops should they become more plentiful.

Mrs. Myrtle Wright, Mrs. R. B. Boren and Mrs. J. M. Gilliland of Hereford spent last week-end at Buchanan Lake on a fishing trip. They had a fine catch of bass and crappie, and brought fifteen pounds home.

Last Rites For Mrs. Alldredge Held Tuesday

Funeral services were conducted Tuesday for Mrs. John Alldredge, 46, at the First Baptist Church in Dimmitt.

Mrs. Alldredge died Monday at 4 a.m. in Castro County Hospital. She had been in poor health for some time.

Mary Ruth Alldredge was born July 26, 1910, in Grand Saline, Tex., and moved to Dimmitt in 1943. She taught in Dimmitt High School for several years before her lengthy period of illness began. Mr. and Mrs. Alldredge and their children lived on their farm about two miles west of Dimmitt.

She is survived by her husband, John; one son, Gerald; and a daughter, Johrdyn, all of Dimmitt. She is also survived by three sisters and two brothers and her mother, Mrs. Palmer of Albreed, Tex.

Funeral services were conducted by Rev. George Ray, pastor of the Dimmitt First Baptist Church, and Rev. Earl Landtrog of Clovis, N.M. Active pallbearers were Jim Hays, Lester Dowell, E. L. Carpenter, Ivor Bagwell, Morgan Dennis, and J. O. Ayers Jr.

Burial was in Castro Memorial Gardens.

Notice...

Although the publication date will officially remain as Thursday, the Castro County News will begin publishing on Wednesdays next week.

The earlier publication has been a long felt need since subscribers in some rural areas in the county did not receive their newspapers until Monday while others did not have delivery until Saturday.

To publish a day earlier and maintain the schedule is always difficult for a weekly newspaper until a routine is established.

For this reason, the News staff urges all advertisers to submit their copy prior to Monday at 5 p. m. Any contributed news items, rural correspondents excluded, should be in our office not later than Tuesday noon. The News staff cannot guarantee publication of any copy brought in later than the times specified.

Next week's newspaper will probably be somewhat smaller than usual, but after the first week it is believed a more efficient, all-round service can be rendered. The Wednesday press day has already been adopted by the state's large weekly newspapers. According to this plan subscribers in Dimmitt will receive their copies on Thursday morning instead of Friday morning.

LIVESTOCK MARKET REPORT
 Published by Federal-State Market News Service, Amarillo, Texas.
 June 12, 1956
 Sale of 310 head of cattle and calves cleared the supply for the week at Amarillo Livestock Auction Company sale on Monday. Bulk of receipts was stecker and feeder cattle with considerably reduced percentage of slaughter classes. Trading opened slow on all classes, the many lots. Slaughter cows sold fully steady, some Utility stecker and feeders opening at weak to 25 cents lower, later turning fully steady with last week's late options. Cow and calf pairs were fully steady, instances \$10.00 higher.

One of the most important factors contributing to the welfare of this area is the emphasis its citizens place on things spiritual. What finer tribute could be paid a growing and progressive community? With many churches to serve the various faiths in our community, spiritual needs are amply and efficiently cared for. Look about you for definite and convincing proof of the religious aspect of our community life.

All churches in our city, large or small, have ministers of the finest caliber to lead the various congregations. These men are devoted to their cause and to their faith... they are truly interested in the serving of their Lord. It is evident their primary purpose is to serve mankind in the manner in which He would have them serve. The excellent leadership of the ministers serving this city reflects the high spiritual plane so greatly in evidence throughout our community.

THINGS SPIRITUAL

The fine work which every church is doing for the youth of the community merits the continued support of everyone. In no other city of comparable size is there more emphasis placed on youth... no other town can point with more pride to the high Christian character of its young people.

The officers of our churches are of the highest standard and the congregations are loyal and willing to share their part of the work and responsibility. Attendance in our churches further manifests the genuine convictions and beliefs of the church people of this city. Without exception, our churches are sound financially as well as spiritually.

It is no wonder our citizens raise their heads high when asked about the spiritual growth of this city... we have a right to be proud. Without a sound religious background... without good substantial churches... without a sincere Christian attitude... no community can long survive. From this viewpoint we will survive forever. We are grateful for these blessings.

To our churches, their ministers and leaders, to the entire spiritual phase of our city, we humbly pay tribute. Proudly we say "This is a God-fearing community. May it always be so."

Attend the Church of Your Choice Sunday.

STEPS OF PROGRESS

This is one of a series of messages designed to point out why this community is truly a wonderful place in which to live. Reflecting the steps of progress in our area, these advertisements are sponsored by local business and professional men who are appreciative of the loyalty, cooperation, and patronage of the loyal citizens whom they serve. Each message is a tribute to a group or organization having complete faith and confidence in the future progress of this community.

REDDY'S Farm Report

FROM THE AGRICULTURAL DEVELOPMENT DEPARTMENT SOUTHWESTERN PUBLIC SERVICE COMPANY

Egg raising has come of age. From the time when grandpa "kept a few chickens," to the present day, egg raising has gone "scientific." Producers today carefully manage their chickens determining correctly balanced rations, taking proper sanitary precautions, all with an eye to a better price per dozen.

However, all the precautions are to no avail if freshly laid eggs are not cooled from their 106 degree temperature to the 55 degree necessary to grade "A" quality. It has been proven that eggs kept for a week at 55 degrees and 85% relative humidity are superior in quality as compared to eggs not cooled and kept only one day under similar conditions.

What kind of cooling equipment will do both the cooling and humidifying job needed to maintain quality? Tests at the Texas Agricultural Extension Service found that refrigerative equipment must be used, and that in general, a twelve case cooler will handle the production from 1,000 laying hens by marketing twice weekly. The cost, expressed in terms of kilowatt hours used, is only 1.5 kilowatt hours of electricity per case of eggs cooled. This is indeed a cheap insurance for keeping your market eggs at top quality. Incidentally, those who have tried evaporative egg coolers found that in high temperatures the method failed to bring egg temperatures down to 55 degrees and that humidity control was lacking. Too much relative humidity may cause mold to develop on the eggs, while too little may cause weight shrinkage, as much as 35% in five to seven days.

Most farm store dealers have a line of moderately-priced refrigerative egg coolers and will be glad to give you information on their particular brand.

"For better eggs and better prices, the eggs should be gathered often and cooled immediately," says Herbert Hunt, "because eggs, like milk, are a perishable product." Mr. Hunt coats the production from a flock of 600 hens on his Claude, Texas farm. He uses a twelve case cooler. In the picture Mr. Hunt, left, and Jack Swales, Universal Mills feed representative, examine cooled eggs.

Mr. and Mrs. Donald Wright spent Thursday with her sister, Mrs. Arthur Wilcox.

Mrs. George Gabel was a Saturday morning visitor of Mrs. James Bradford.

Mr. and Mrs. Rex Easterwood visited Mr. and Mrs. Carl Easterwood and Paul Sunday afternoon.

Mr. and Mrs. Earl Lust visited Mr. and Mrs. James Bradford and boys Saturday night.

Mr. and Mrs. Bob Hill of Hart were Sunday night visitors of Mr. and Mrs. Jesse Woods.

Mr. and Mrs. Arthur Wilcox and boys went to Buffalo Lake Sunday afternoon.

average Texas summer temperatures. Eggs deteriorate even more rapidly in hotter weather.

What does egg cooling mean to the egg producer? It has several advantages: 1. He gets a higher price for his eggs because the ultimate consumer is willing to pay more for eggs that he knows are quality. 2. He is assured of a constant market because cooled eggs are a better edible food product. 3. He needs to make fewer trips to market, thereby saving on hauling costs and time. 4. Obviously the investment in egg cooling equipment will more than pay off.

What kind of cooling equipment will do both the cooling and humidifying job needed to maintain quality? Tests at the Texas Agricultural Extension Service found that refrigerative equipment must be used, and that in general, a twelve case cooler will handle the production from 1,000 laying hens by marketing twice weekly. The cost, expressed in terms of kilowatt hours used, is only 1.5 kilowatt hours of electricity per case of eggs cooled. This is indeed a cheap insurance for keeping your market eggs at top quality. Incidentally, those who have tried evaporative egg coolers found that in high temperatures the method failed to bring egg temperatures down to 55 degrees and that humidity control was lacking. Too much relative humidity may cause mold to develop on the eggs, while too little may cause weight shrinkage, as much as 35% in five to seven days.

Most farm store dealers have a line of moderately-priced refrigerative egg coolers and will be glad to give you information on their particular brand.

It's POWERFUL Good News!

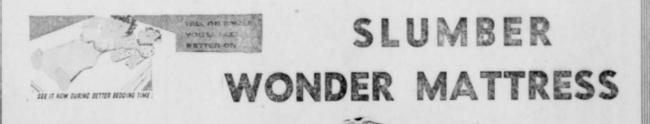

WANT a real performance thrill? Just get your hands on the wheel of a new John Deere "420". John Deere Tractors have always amazed owners with their "over-saddle" lagging power, but you'll agree you never saw any other tractor pull so much, pound for pound.

The new "420" Tractor—10 models in all—feature 20 per cent more built-in power than the "30" Series, which they replace. That means better performance in the higher gears, ample power to use bigger-capacity tools—even 3-laboration plows and 4-row planters and cultivators. It means more acres covered per day, more jobs done on time.

There are many other advancements we invite you to see. As for modern John Deere comfort and operating features, you'll find them all—deep cushion seat... standard 3-point hitch with Load-and-Depth Control... "live" Touchomatic hydraulic control... self-engaging disk-type brakes, swinging drawbar... and many others. Come in and get all the facts; arrange for your free demonstration. No obligation to you.

Running Water Soil Conservation District News

With the passing of each year, the result of proper management of the soil is being seen on our cultivated acres, as it tends to keep the soil in as good or better condition than it was, and at the same time protects it from erosion. The Creator through nature provided for the building of top soil by the process of vegetative growth with the aid of countless bacteria, etc. This process which creates, living in and on the soil, in the form of bugs, worms, beetles, etc., is a natural process that has not been improved upon by man taken approximately four hundred years to build one inch of top soil.

A vegetative cover growing dormant or dead afterwards, protects the soil against wind or water erosion, while this process is going on. In this country we have an average of from four to six inches of this precious top soil. Only a few short years ago when a farm became unproductive the farmer would merely move to a new farm and again produce good crops, but things have changed and there are no longer new farms to move to. On the other hand, erosion—both wind and water—have been taking their toll, and each year thousands of acres are becoming unfit for cultivation, and many more thousands are not capable of producing as they should. Only one-quarter inch removed by erosion each year would in a short 20-year period make our land unfit for cultivation. With proper management much of this damage is being stopped.

Now is the time for each farmer to ask himself whether or not he is using proper management on the land for which he is responsible, and make what changes are necessary, to cooperate with nature to preserve our heritage for generations to come.

Mr. and Mrs. Ester Noble spent the weekend of June 4 with their son, Don Loy, a student of the University of Texas at Austin. They also visited with Mrs. Noble's brother and sister-in-law, Mr. and Mrs. Dixon Turner at Mineral Wells. Mrs. Turner is recovering from a throat operation.

Punch and angel food cake were served to Mrs. J. G. Davis, Mrs. M. D. Neumann, Mrs. Louis Rothwell, Mrs. Levey Veach, Mrs. Roy Haberer, Mrs. George Webb, Mrs. Ethel Womack, Mrs. Corina Reddick, and Miss Carol Cowsett.

Sunnyside News

Twenty-seven more registered in Vacation Bible School Monday. Hubert and Freddie Lilly left Monday for Baird to help Mr. & Mrs. Lilly with wheat harvest. Thirty hundreds inch of rain fell on parts of the community Monday night. Valley ball was enjoyed Tuesday night by eighteen adults. The total enrollment in Vacation Bible School was eighty-seven. Commencement services were held Friday night with most of the enrollment taking part.

Forty hundreds inch to one and two hundreds inch more rain was received Saturday afternoon. Mrs. Eunice Power and her granddaughter, Mary Penitria, from Pasadena, California, and Mr. and Mrs. R. K. Carr from New London, Texas, are visiting Mrs. and Mrs. Marlin Power. Mr. and Mrs. Carl Schartz of Abilene visited with their nephews, Mr. Embury Ray and Earl Sudder, and their families Monday night.

Wheat harvest began in a mild way in the community this week. The Sunnyside elevator has four bins ready for wheat. Norma's brother, Nels Miller, and his family visited with her and her family over the week end. One hundred and twelve attended Sunday School with forty-six in Training Union Sunday.

Mrs. Ora Mandel of San Antonio recently visited her brother Beal Alley and family. Mrs. Mandel is a retired seamstress. Gary Wyatt is spending the summer in Jacksonville, Florida visiting his father, Ralph Wyatt. Mr. and Mrs. Manuel Albrecht of Colorado Springs, Colo., visited his mother, Mrs. Ida Albrecht on Memorial Day and stayed until Saturday.

Mr. and Mrs. E. C. Caudle attended the wedding of Noretta James and Don Briggs at the First Methodist Church of Lantford on June 10. Miss James is a former student of Mrs. Caudle's in the Dimmitt Schools.

Mr. and Mrs. Bill Baker and family returned home last Thursday from a vacation visit with relatives at Dallas. Fort Worth, Weatherford, and Waxahatchie.

Mr. G. H. James and daughter, Mrs. Lillie Pearl Humlter, of Seminole, were here Tuesday for a visit with their daughter and granddaughter. Mrs. Howard Cook and family, and other relatives and friends.

Mrs. Zeta Dunn and grandson, of Corpus Christi and Winnie Cox of Crowell are spending the week in the home of W. M. Howell.

Mrs. Frances Meador, cousin of Mrs. J. G. Davis, Sr., has returned to her home in Dallas after a two week visit with Mrs. Davis. Meador joined Mrs. Davis in Big Springs where they visited Mrs. Davis' daughters and their families before returning to Dimmitt.

NOTICE

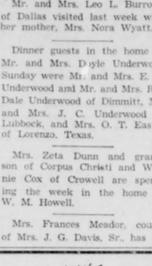

Brumley Hog and Cattle Company will discontinue buying hogs in Dimmitt. The land on which the pens were located has been sold and will be used for other purposes. Any hogs you have for sale may be taken to our Hereford or Tulsa locations. Our representative in Dimmitt has been Mr. Sid Sheffy. He has enjoyed doing business with the farmers and stockmen in this area.

ATTEND REUNION
Mr. and Mrs. Ester Noble attended the golden wedding anniversary of Mr. and Mrs. W. J. Thompson Sr. in Bellevue Saturday and remained for Sunday lunch. They were friends when both families lived in Friona. The annual Thompson family reunion was also held at the Thompson home Saturday, with about 200 people registering for the anniversary and reunion.

Mr. and Mrs. Bill Bradford and daughter Barbara and a niece of Nashville, Tenn., are house guests of the George Bradford's this week.
Mr. and Mrs. Posey Cunningham have just returned from Monette, Mo., where they spent a week visiting their daughter and son-in-law, Mr. and Mrs. Lee Welch.

JAMES COKE BUYS PUEBLED ANGUS BULL
James L. Coke of Dimmitt recently purchased a purebred Aberdeen-Angus bull from D. O. Robinson Jr. of Siloam Springs, Ark.

Death Claims
Marvin Nash of Plainview June 7
Marvin V. Nash, 70, retired farmer, died at 4 p.m. June 7 in the Medical Center here. He had been ill for seven weeks.
Funeral services were conducted at 2 p.m. Friday in the Loomis Chapel in Plainview. Interment was in the Plainview Cemetery.

Mr. Nash moved to Plainview 20 years ago from Hart where he lived for 10 years. He came to the Plains from Childress and farmed until his retirement a few years ago.
Survivors are his wife; three daughters, Mrs. R. H. Norris of Dallas, Mrs. Kenneth Greer of Plainview, and Mrs. Paul Hayes Kress; one son, J. M. Nash, Dallas; two brothers, C. C. Nash of Dallas and Lyle Nash, Louisville.

EDITORIAL COMMENT

There is a reason...
The News began a series of page advertisements last week sponsored by local business men to help promote Dimmitt and Castro County.

The little steps backwards...
Secretary of Agriculture Benson dropped a big paper sack full of water on the farming industry last week. He said the Republican Administration had been carefully screening all reclamation projects which would increase agricultural production and had discarded all those which would be of immediate benefit to the farm industry.

Suppose we were running out of water, death to see such a large portion of agricultural land, the high plains, taken out of production. There are several reclamation projects being considered to put high plains irrigation on a permanent basis through use of surface water, but apparently this will be a pipe dream for a while.
All the good farm land in this country is already under such a large portion of agricultural land, the high plains, taken out of production. There are several reclamation projects being considered to put high plains irrigation on a permanent basis through use of surface water, but apparently this will be a pipe dream for a while.

Castro County was such a development project. Before irrigating almost none of the great potential of this area had been exploited. The primary difference was that this reclamation program was carried on by individual farmers and not the government. The revenue required, however, to harness entire rivers for agricultural use makes it imperative that the government do such things. Private capital is not enough.
Some day we will reach a limit. It may be fifty years from now, but it will come. Our population is increasing faster than we are bringing new lands into cultivation.

Nazareth News

Open house was held at the new Nazareth High School and Gym June 10. The building is made up of rooms for science, home economics, library and assembly, mathematics, teachers' lounge, superintendent's office, bathroom, and rest rooms.

A bridal shower honoring Miss Della Mae Pohmeier on June 10, was held in the home of Mrs. Ed Brozman with Norma Venhaus, Dot by Venhaus, Emily Ann Periman, and Martella Frischie as hostesses.

On June 3, the Nazareth ball team lost to Friona, but they won the game they played June 10, with Vega being the losing team.

Very Rev. Father Peter Morsch went to Amarillo Monday, June 4, to attend Father Hartigan's funeral and the priest retreat. Father Morsch assisted Bishop Fitzsimon as chaplain at the funeral. Father Hartigan, pastor of the St. Joseph Catholic Church in Amarillo, will be missed on the television program, "Religious Questions." Father Morsch came home Friday at the close of the retreat.

On Thursday, June 7, a group

of tired but happy seniors, along with their sponsors and drivers, Sister Victoria, Sister Florence, Mr. and Mrs. Sunny Ball, Mrs. Emil Huseman, Buddy Durbin, and Danny Koelzer returned from their senior trip. The group left on June 1, and spent the first night in Dallas. They went to Shreveport on Saturday to attend the Louisiana Hayride. They spent the rest of the time in Houston, Galveston, and Austin.

Mr. and Mrs. Robert Sparks from Yakton, Neb., recently visited with Hochstein relatives here. Mrs. Sparks is Mr. Bill Hochstein's niece.

On Wednesday, June 6, Eileen Schulte left for Austin. She will spend ten days there at Girls State. Danny Schumaker left June 9 to attend Boys State. He will be in Austin a week.

Three Nazareth boys have recently left to serve duty in the US Army. They are Fred Ball, Jack Acker, and Joe Drerup. Fred left June 2 for two weeks of training at Fort Hood. Jack left June 8 for two years. He reported to Camp Chaffie. Joe left June 9 for six months of training at Fort Bliss.

On June 3, Miss Mona Tucker, bride-elect of Luke Acker, was honored with a shower in the home of Mrs. Denis Acker. Hostesses for the shower were Mrs. Denis Acker, Mrs. David Acker, and Mrs. Andy Schumaker.

Mrs. Fred Annen was honored with a bridal shower on Tuesday, June 5, in the home of Mrs. Phillip Acker. Hostesses for the shower were Mrs. Phillip Acker, Mrs. Ray Annen, Mrs. Tom Annen, Mrs. August Huseman, Mrs. Leo Witkowski, Mrs. Evert Braddock, Mrs. John Stork, and Mrs. Hank Wilhelm. The centerpiece was a blue and white bouquet. Cake and punch were served to 28 guests present.

Visiting relatives here are Mr. and Mrs. Bill Heiman, Mr. and Mrs. Perino of California and Danny and Matt Dieterich from Nebraska.

Father Cecil Lang OSB is spending part of his vacation visiting with relatives here.

BETHEL NEWS

Mrs. Ivor Bagwell was in Amarillo Wednesday for a medical checkup.

Mr. and Mrs. Clarence Underwood and Mr. and Mrs. O. T. Easter of Lubbock, Mr. and Mrs. E. G. Underwood and Mr. and Mrs. Roy Dale Underwood of Dimmitt were Sunday dinner guests of Mr. and Mrs. Doyle Underwood and girls. The occasion was Mrs. E. G. Underwood's birthday.

J. A. Bagwell of Amistad, N.M., is here with his combines and trucks for wheat harvest.

Mrs. Doyle Underwood was a business visitor in Hereford Saturday.

Miss Mary Elizabeth Givan, who has spent the past year in New York, is home for a vacation. She will continue her work in Texas.

Lloyd Warren of Hereford and Lynice Warren of Dallas spent Thursday night with their brother and uncle, Bobby Warren and family.

Mr. and Mrs. Vern Lust accompanied Mrs. Lust's sister, Lois Branson, to Amarillo Tuesday where she left by plane for her

home in Alhambra, Calif.

Latrell Bagwell of Amistad, N.M., is here visiting her cousins, Nelda and Sue Bagwell, and other relatives.

Mrs. George Bagwell and Carolyn were business visitors in Amarillo Tuesday.

Mr. and Mrs. Glenn Stiles of Big Square, Miss Lois Branson, and Mr. and Mrs. Vern Lust and Glenn, Loyd Lust of Littlefield, and Mr. and Mrs. J. C. Williams were Sunday dinner guests of Mr. and Mrs. Earl Lust.

Mr. and Mrs. Milton Bagwell and son spent Sunday in the Morgan Demis home.

Mr. and Mrs. J. A. Bagwell Jr. of Amistad, N.M., are the parents of a baby daughter, born June 13. Mrs. Bagwell taught school in Dimmitt during the 1954-55 school term.

Mr. and Mrs. Ivor Bagwell attended the Dimmitt Dinner Club supper and social hour in the E. L. Carpenter home Saturday

night.

Zella Vee Smith, who is attending school at Wayland, spent the weekend with her parents, Mr. and Mrs. Leland Smith.

Mrs. Bobby Warren called on Mrs. Roy Dale Underwood Monday morning.

Harry Rothwell made a business trip to Muleshoe Monday afternoon.

Mr. and Mrs. Earl Lust and

Lois Branson had supper with Mr. and Mrs. Glenn Stiles of Big Square Friday night. They also

enjoyed barbecue steaks with Mr. and Mrs. James Bradford Saturday evening.

Designed to make your life easier
Naturally... It's GAS
SAFE...DEPENDABLE...ECONOMICAL

The National Fire Protection Association has compiled documented proof that shows Natural Gas as the safest fuel. Safety is just one of many reasons why homeowners prefer automatic Gas water heaters. Two other good reasons for this preference are dependable performance and economy of operation.

Be sure that your next water heater is safe, dependable and economical to operate... naturally, it's Gas.

The chart illustrated below was designed by the American Gas Association to help you select the automatic Gas water heater best sized to serve the hot water needs of your family. Check this chart, call your plumber and have him install an automatic Gas water heater... sized to the needs of your family.

Illustrated above is a Bryant automatic Gas water heater. This water heater features a glass lined tank.

MINIMUM RECOMMENDATIONS FOR NORMAL HOT WATER REQUIREMENTS		
Number Bathrooms	Number Bedrooms	Storage Cap., Gallons
1	1 or 2	30
1	3 or 4	40
2	2 or 3	40
2	4 or 5	50
3	3	50
3 or 4	4 or 5	75

NOTE: Use next larger size with automatic clothes washer or automatic dishwasher.
