This one has been made the rounds before, but it just might be that some of our readers missed it. A reporter from a city newspaper stopped at the office of a little rural weekly. During the conversation he asked the aged editor, "How do you manage to keep a circulation in a town where the people know what everyone else is doing?"

The country editor grinned a title and replied, "The only reason they read the paper is to see what has been caught at it."

"I didn't write the above, we picked it."

The state Democratic executive committee is meeting today, Thursday, in Austin. According to the recently elected committee will devote most of the time to the study of two questions—whether or not to have primaries to select a Democratic candidate to run in the senatorial election, which to date has not been called; and also to plans to promote the candidacy of the national Democratic ticket for president and vice-president in 1956.

The business of holding special primaries to select a Democratic candidate to compete in the senatorial race, if and when one is held, is looked on with suspicion by many loyal Democrats. They remember that Governor-elect Price Daniel made the statement immediately after the September convention that some method would have to be worked out so that neither Ralph Yarborough, nor a Republican, could be elected. Then soon after that statement was made he proposed the idea of special primaries. So far as we know there is no precedent for this type of primary in Texas. The Democratic party machinery has never made arrangements for funds to hold special primaries.

The only logical conclusion is that this is a gimmick to make it difficult for a loyal Democrat to be elected. In using the name of Ralph Yarborough as the man to beat in the primaries, it is highly probable that Daniel is making the implication to cover any loyal Democrat who might be a candidate for the office.

—adace—

Daniel and the Shivercratic political machine knows full well that the loyal Democrats of the state have exhausted their financial resources in the effort to name a candidate for governor while at the same time contributing to the national Democratic campaign. They know that it would be all but impossible for Judge Yarborough or James P. Hart to wage three costly election campaigns at this time. They also know that whichever candidate that the Shivercratic machine decides to support will have unlimited financial backing with plenty left over to contribute to the Republican party to be used in its effort to re-elect President Eisenhower and VP Nixon. They also want the two opportunities of defeating a loyal Democrat. If they couldn't do it in the primaries then they could throw their support behind the Republican candidate in the special election. These are elementary deductions that are apparent to the most casual political observer.

—adace—

On the other hand we have the sorry spectacle of a United States Senator from Texas refusing to resign in time for the people of the state to make a free choice of a successor to the office. Despite the fact that he promised to resign in event of three eventualities, all of which occurred, he still persists in holding the office until he is inaugurated as governor.

We recall that Daniel said he would resign as Senator if he made the race for governor. Later he said he would resign if he was nominated. Still later he said he would resign if he was certified as the Democratic candidate by the September convention. He still hasn't resigned.

He came up recently with a bunch of gobblygook about resigning effective January 15, the day he is supposed to be inaugurated as governor. Even Governor Shivers expressed the opinion that a resignation to take effect at some future date doesn't create a present vacancy. However, all of this banter back and forth between the Senator, the Governor, and the hand-picked members of the state executive committee could just be the stalling action in a master plan that calls for the appointment of a junior Senator from Texas after it is too late to hold a special election to fill the seat at the next session of Congress. That is our prediction.

—adace—

The statement I am about to make here will seem harsh to many people, but it is my honest opinion that if the present Republican administration is continued for another four years it will signify the finish of what we have known as the family type farmer and of many small businesses and even fairly large businesses.

This opinion is based on the fact that the trend has been in that direction, and that a number of spokesmen for the Republican

## City Construction Spending Lagging Behind '55, But is Still Good

Construction in Dimmitt, while considerably off last year's comparable averages, is still moving along at a healthy clip.

During the first nine months of this year, a total of \$562,242 was spent on construction within the city limits. In addition to this figure, taken from carbon copies of building permits issued at the

city hall, one grain elevator was constructed this year just outside the city limits which would have swelled this figure to around \$800,000.

Last year Dimmitt, for the first time in its history, passed the \$1,000,000 mark in October. This year the end of October should see something like \$590,000 spent

or residential and business construction. This figure is about half last year's total at this time.

The biggest single chunk of Dimmitt's building this year has been the new Dimmitt Wheat Growers grain storage elevator, which cost about \$274,400. This permit was issued in May which put that month ahead of all others.

Lowest building month this year was February, during which only \$6,900 in permits were issued.

Average pending permits on building was \$62,473, while the mean (discounting the heavy month of May) was \$31,780. If this approximation holds for the remainder of the year, Dimmitt should reach a year-end total of \$657,582, or about 65 percent of last year.

There has been no great slowdown in business building this year. Fifteen permits have been issued so far for business construction, which compares favorably with last year. The big drop came in residential construction which seems to have reached a leveling

off place. Forty-two permits were issued for home building, improvement and additions. Homes constructed this year in Dimmitt were not expensive ones. One home, begun in March, cost \$16,500, but it was well ahead of all others. Four homes were in the \$10,000 bracket and the remainder of the 37 permits issued ranged downward from \$9,000 for complete units to \$250 for home improvements.

Broken down by months, construction spending was: January, \$27,250; February, \$6,900; March, \$32,100; April, \$22,700; May, \$308,000; June, \$33,992; July, \$40,850; August, \$42,950; and September, \$27,500.

## "The Moving Finger," by Mrs. Hunter Is First Book About Castro County

By BASCOM NELSON  
News Editor

"The Moving Finger," long-awaited book devoted strictly to the historical heritage of Castro County, goes on sale this weekend. It was written by Mrs. Lillie Mae Hunter of Dalhart, who spent most of her life in Dimmitt and Castro County.

Copies of the book will be on sale at Gladman Drug in Dimmitt and at the Castro

County Library in the Court House basement at \$4 each.

"The Moving Finger" writes; and having writ, Moves on; nor all your Piety nor Wit shall lure it back to cancel half a Line, Nor all your Tears wash out a Word of it."

Thus a quotation from the Rubaiyat of Omar Khayyam, famous Persian astronomer of the 11th century, provided Mrs. Hunter with the title words for her

new book, the first ever to be written about Castro County.

Khayyam's fatalistic black-and-white, white-is-white philosophy seems to end at the title so far as the book is concerned, since the pioneers who play the feature roles in "The Moving Finger" apparently would not care to wash away very many words of their history.

Mrs. Hunter turned out an excellent publication for her initial effort in the book-writing field. Each paragraph is written with vivid feeling for her characters and their participation in the history of Castro County which exploded in a few relatively short years from a sea of undulating grass to an agricultural empire.

Mrs. Hunter herself saw many of the rudimentary fragments of Castro County history fall into place. She and her parents, Mr. and Mrs. E. M. Allen, her two sisters and twin brothers moved from Wellington to Castro County in 1921—a time when this county was a youngster, just awakening to its coming agricultural age. More than a few pertinent events in this area have transpired since that time.

She taught school in Dimmitt after completing her studies at West Texas State Teachers College, as it was then called. She taught here before and after her marriage to Sam Hunter.

"... The most memorable event of my teaching career was piloting the class of 1947 through four years of (Dimmitt) high school," she said.

"I worked on the book for something over two years," Mrs. Hunter added, "gathering material and trying to persuade myself that I should undertake the task, as well as actual writing, though, of course, only intermittently."

Publisher of "The Moving Finger" was the Plains Printing Company of Borger. A member of the firm, Mr. Denver Cornelius, was a friend of Mrs. Hunter's son, William, at West Texas State. It was through Mr. Cornelius that arrangements for the publication were made.

"The Moving Finger" is illustrated by Mr. Bill Hacker, who came to Castro County as a small child with his family in the early 1900's.

The book begins with the first

surveying in 1876, and with the first ranch family to settle in the county, Mr. and Mrs. J. W. Carter. Mrs. Hunter carries her reader through the county's history as seen through the eyes of those who were there. It is told through a fresh style for this type of writing that leaves the book hard to classify. It is a history in the strict sense of the word, but it is told as tales are related in front

"If the contrast between then and now seems particularly marked, it should be remembered that the transformation was particularly swift. A change which, in other parts of the country, was spread over a period of 150 years, here took place in 60 years. Thus within the lifetime of men still active, the prairie has come from the sound of the war whoop to the boom of the jet plane, from the hap-hazard, word-of-mouth method of communication to the instantaneous knowledge of the radio and television.

"My heroes are the actual settlers of Castro County, and the stories here recounted are the things which made up the patterns of their daily lives. No attempt has been made to record the spectacular; more exciting events occurred which, for various reasons, cannot be told. But perhaps it is just as well; those were the out-of-the-ordinary, these are warp and woof of everyday living.

"Percy Estes, through whose memory the history is recorded, is like all of the other characters, real flesh and blood, and the stories told here are, in so far as

People are always inclined to believe that other people's jobs are easier than their own. This belief might even be fostered toward our teachers, whose working hours appear on the surface to be from 8:45 a.m. to 3:45 p.m.

It might, that is, if you overlook the time they spend working on their next day's lessons, attending night classes, grading papers, preparing tests, recording grades, handling class projects, working with civic organizations, and taking time to give your children individual training and assistance.

To paraphrase Marcus Cook Connelly ("The Green Pastures"), "Even bein' a teacher ain't a bed of roses."

This week we begin introducing you to the teachers of the Dimmitt elementary schools.

### MRS. MABEL NEWMAN

Social Studies

Mrs. Newman is the pleasant, likeable lady who teaches seventh and eighth grade social studies. Her husband, S. T. Newman, is high school principal and English teacher (the News, Sept. 6).

Originally from Gomez, near Brownfield, Mrs. Newman was a member of Texas Tech's first freshman class, and later received a master of education degree at West Texas State College.

She is an amateur artist; most of the oil paintings in the Newman home were done by Mrs. Newman. She also enjoys reading. But her favorite hobby is meeting people. Thanks to her summer-time occupation, she gets to meet people from all over the world; she and Mr. Newman go to Yellowstone National Park each summer, where she works "for the fun of it" in a giant general store.

"I can meet people from all over the country in the store," she said. "That's why I enjoy working there so much."

She has met everyone from Bob Hope to a princess from India in the store. Last summer she tried to fit Hollywood actor Rod Cameron ("TV's City Detective") with a pair of Indian moccasins, but the store's largest pair was still too small. "The only way I knew he was an actor was by the crowd of girls following him," she said. "Someone had to tell me later who he was."

Mrs. Newman is in her eighth year with the Dimmitt schools. She and Mr. Newman came here from Springlake.

### MISS BETH BRIDGERS

Grade School Music

If those pretty Arkansas girls keep showing up in other Texas cities the way they have in Dimmitt, the Ozark State may have to pass a law to keep them from leaving.

(Miss Bridgers is the fourteenth teacher the News has interviewed, and is the fourth one from Arkansas. All the Dimmitt teachers from Arkansas whom we have interviewed are not pretty, though, because one is George Muse and another is Bill Phillips.)

Miss Bridgers just received her bachelor of arts degree in music at Hendrix College in Conway, Ark. She majored in piano and minored in voice at Hendrix.

(See TEACHERS, Page 12)

### MRS. NEZEBETH BARNETT

Reading and Spelling

Mrs. Barnett is in her eighth year with the Dimmitt schools. She and Mr. Newman came here from Springlake.

### ROBERT WOLF

Mr. Wolf is in his eighth year with the Dimmitt schools. He and Mrs. Newman came here from Springlake.

### Hard-fought Game Expected

## Bobcats vs. Chiefs Here Friday

Dimmitt High School's Bobcats go into a game here Friday night against Friona with a new lease on life. Last week they upset the powerful and favored Antelopes at Abernathy for their first win of the season, 13-7.

Coach J. D. Covington said this week the Bobcats are improving right along but the team doesn't expect a Sunday picnic against Friona.

The teams have as yet had no common foe, but Friona proved a tough nut to crack for both White Deer and Stinet, proven powerhouses in their own district. Friona lost to both of these teams but defeated Hart overwhelmingly for their only victory so far this season.

Dimmitt has yet to be trampled upon by any team this season. They have won only one game in four starts but each time the scores proved the Bobcats to be formidable opponents. They lost to Lockney, 27-6, to Hale Center, 40-24, and to Silverton Owls, 25-24.

This game will be the second at-home game for the Bobcats and it will begin at 8 p.m. at Bobcat Stadium.

Friona is expected to throw a hard, wide-ranging attack against Dimmitt, led by their ace 145-pound fullback, Weldon Fairchild. He is a good, hard blocker and a good defensive linebacker.

Only one other member of the Friona team is causing Dimmitt

coaches to lose much sleep. He is big Don McMahan, 225-pound center who takes great delight in pushing people around in the center of the line on defense. He is also their kick-off man.

Other players slated to give Dimmitt a rougher time than most are Chief captain Don Reeve, 156-pound guard; ace pass receiver Joe McLellan, 158-pound end; Rodney Neff, 189-pound tackle; and Alan Weiss, 159-pound guard.

Most of the Chief defensive power is concentrated in the center of the line, which indicates Dimmitt's backs will have to try more pitch-outs and end-arounds than usual.

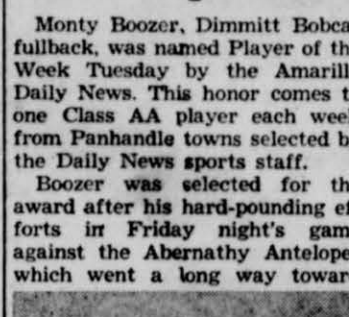

Friona favors an odd 9-2 defensive arrangement, which is open enough for a good passing attack to lap up many yard-markers—provided the heavy concentration of linemen can be held long enough to get the pass into the air. Linemen for Friona are expected to use the same defensive stance as the linebackers as they slide with the play and crash in when the opportunity affords itself.

Other starters for Friona will be Weldon Tatum, 162-pound tackle; O'Neil Greeson, 142-pound end; Charles Hough, 145-pound quarterback; Wesley Barnett, 155-pound halfback; and Leon Massey, 143-pound halfback. Dimmitt's starting lineup will remain essentially the same.

### MAKING A QUICK BUCK

for their senior trip fund this year are these Dimmitt High School seniors. The group of sixteen youngsters made about \$50 Saturday pulling bolls for Marvin Axe on the Delmond Neumayer place five miles west of Dimmitt. They pulled about two bales during the day. Left to right they are Edna Follis, Karen Bell, Leon Crum, Maxine McCormick, Della Dowdy, Jimmy Johnson, Ralph Smith (sponsor), Darrell Stins, Sue Bagwell, Gail Cooper, Cleo Adams, Nancy Neumayer, Edward DeLozier, Nelda Bagwell, Wilmer Studer, Shirley Stalcup, and Kay Killingsworth. This is only a portion of the senior class, since many of the boys were unable to get away from their own family farms due to the harvest season, according to Mr. Smith.

## Boozer Is Named "Player of Week"

FULLBACK MONTY BOOZER  
... player of the week

Monty Boozer, Dimmitt Bobcat fullback, was named Player of the Week Tuesday by the Amarillo Daily News. This honor comes to one Class AA player each week from Panhandle towns selected by the Daily News sports staff.

Boozer was selected for the award after his hard-pounding efforts in Friday night's game against the Abernathy Antelopes which went a long way toward

gaining Dimmitt its 13-7 victory. According to the Daily News, "Boozer, the Bobcats' co-captain, carried the brunt of the Dimmitt attack against Abernathy last week. The fullback carried the ball 29 times for 139.5 yards for an average of 4.81 yards per carry. "Not only was Boozer a thorn in the Antelopes' sides all night with his bruising smashes into the line, but he intercepted one pass and scored one touchdown.

"Boozer now has scored two touchdowns for the Bobcats this season but his ability to move the ball when needed the most, has set up several other touchdowns."

Denmothers Are Needed by Cubs

Dr. James E. Wohlgenuth, Dimmitt's Cub Scoutmaster, this week asked for at least two more women to serve as den mothers.

"We are expecting a maximum of 80 to 88 cub scouts to participate in this year's program," Dr. Wohlgenuth said, "and we just don't have enough den mothers to handle that many."

There are four existing dens at the time furnishing a meeting place for 51 cub scouts. It is recommended by the scout council that not more than 8 or 10 cubs be contained in each den. At present there is an average of about 13 in each den.

An additional den has already been arranged for and it will begin next Tuesday, Dr. Wohlgenuth said. New den mother for this group will be Mrs. Roy Starford. Negotiations for another den with Mrs. Carl Page as den mother, to begin in about two weeks, are being made.

Even with two new dens, still another is needed as a minimum, Dr. Wohlgenuth said. Any woman interested in working with young boys in the 8 to 10½ age group is eligible whether they have children belonging to the Cub Scouts or not.

"If any lady in Dimmitt could become a den mother, or even an assistant," Dr. Wohlgenuth said, "I would like to hear from her as soon as possible. A six-hour training course for den mothers will be held in Plainview during the latter part of October and anyone interested should sign up quickly if they want to take advantage of this training."

Present den mothers and their assistants are Mrs. Bud Leinen, assisted by Mrs. Marie Hutton; Mrs. R. C. Bailey, assisted by Mrs. George Davis; Mrs. Jack Flynn, assisted by Mrs. Fred Dunn; and Mrs. Bob McLean, assisted by Mrs. Winifred Fuller.

### Last Rites Held For Mrs. Huggins In Dimmitt Tuesday

Mrs. Nancy Ann Huggins, 92, of Dimmitt died at 3:45 p.m. Sunday in a convalescent home at Amherst. She was the wife of Judge T. Huggins of Dimmitt.

Mrs. Huggins was born October 4, 1863, in Tennessee.

Funeral services were held at 10 a.m. Tuesday in the First Methodist Church with the Rev. J. N. Minix Jr. officiating, assisted by Rev. Raymond Van Zandt.

Burial was in Plainview Memorial Park under direction of Dennis Funeral Home.

Survivors include her husband, four sons, Ennis of Dimmitt, Bruce of DeQueen, Ark., Carl of Hart, and Forrest of Littlefield; two daughters, Mrs. Nota Wells of Fort Worth and Mrs. Marjorie Crawford of Muleshoe; 18 grandchildren, and 22 great-grandchildren.

### County Pioneer Funeral Services Here Friday at 3

Funeral services for James Marvir McEntire, 74, a pioneer resident of Castro County, will be held at 3 p.m. Friday in the First Methodist Church in Dimmitt.

Mr. McEntire died Monday afternoon in Chatsworth, Calif., where he had lived since 1943. Rev. Raymond VanZandt will officiate at the funeral.

Mr. McEntire lived in Castro County for about 25 years, from 1917 to 1943. He was a brother-in-law of Mr. George Webb and Mrs. J. W. Hawkins of Dimmitt. Pallbearers will be his nephews, Allan Webb, Norville Birdwell, Harlan Dodd, Bill Birdwell, and Kent Birdwell of Dimmitt and Cavin Webb of Lila Lake, Jimmy Webb of El Paso, and Houston Hawkins of Lubbock.

Born in Hunt County, Texas, Mr. McEntire moved with his family as a small child to Young County near Olney. He moved to Castro County in 1917 and left here in 1943 for Chatsworth, Calif., where he died last Monday. Mr. McEntire was married to Eva Webb in 1901 and had been a member of the Methodist Church since childhood. At one time, in the 1920's, he owned Dimmitt's only drug store.

Funeral arrangements will be by Dennis Funeral Home of Dimmitt. Survivors in his immediate family are his wife, Eva, two sons, Hubert L. of Dumas and Ray S. of Perryton; two brothers, Fred and Ira, of Chatsworth, Calif.; three grandchildren and one great-grandchild.

(Continued From Page 1)  
 Party have made the statement that small farmers are not necessary to our present-day economy.

Small businesses are feeling the grind and pressure of the monopolistic heel which, coupled with the curtailed income of their farmer customers, is just cause for worry.

After saying he was going to support Ike for a second term in his column in the Tuesday Amarillo Daily News, Mr. West Izard brought up the subject of the "little man" as referred to by the Democratic national candidates.

Mr. Izard seemed to think that there was a group of citizens that could be classed as "little men" or "common citizens."

Regardless of how they are classified, or by what title they are known, the fellows that the Democratic candidates refer to as the "little men" are the fellows who operate farms, businesses, shops, and service in any one of the once-thriving towns and counties that comprise that area which the "Golden Spread" covers.

These are the people who are being hurt, Mr. Izard. They are the little men who are expendable in the eyes of the Republican Party.

There is a big group of these little men, Mr. Izard, who work for salaries and who became home-owners under a Democratic administration and who are finding it difficult to hold on to their cherished possessions even though their monthly payments are less than the monthly rental would be on the same homes.

Mr. Izard, the United States is full of little people, but when you put them all together you come up with a big, fine-looking chap who will give you the right answer at the polls on election day.

These little people, Mr. Izard, will work out their own destiny without the assistance of an Alaskan Shivers or an administration for Sunday School class on a picnic Sunday. They went to Elwood Park in Amarillo for the outing.

Mrs. Mobley accompanied the George Fishers to Amarillo on a shopping trip one day last week.

# Hart Farmer Uses Mung Beans to Increase Grain Yield

F. A. Smith, who farms eight miles southwest of Hart, last spring started an experiment on his farm that has apparently paid off in big dividends.

He planted 30 acres of Martin mung and mung beans, alternating the crops by planting two rows of mung and one of beans. Mung beans are a legume and add nitrogen and organic matter to the soil.

Mr. Smith made 3,000 pounds of mung per acre which, with the same relative yield, would have made 4,500 of beans per acre. He also made about 167 pounds of mung per acre. Aside from growing two cash crops, Mr. Smith enriched his soil for both this year and next. He had planted mung beans before and found the land increased in grain production.

Without Good Vision They're Not Ready To Go Back To School

A thorough examination of your child's eyesight is the best assurance you can have that he's really ready to go back to school. Without good vision he doesn't have a fair chance to learn or to compete on the level with children of his own age.

Demand thorough, competent eye care for your child. Give him the benefits of the professional skill and service that his priceless eyesight demands. And don't confuse the price of glasses with the cost of eye care; and don't head the bargain lure of "Free Examinations" and glasses at a price.

Invest in eye care; invest in your child's future.

THERE'S MORE TO GOOD VISION THAN GLASSES AT A PRICE
