## Surrender Documents Examined By President

The original Japanese surrender documents, which were brought to Washington by Col. Bernard Thielens of the War Department General Staff, are shown being examined by President Truman. Left to right are: Gen. George C. Marshall; President Truman; and Fleet Admiral Ernest J. King. The President is pointing to the signature of Emperor Hirohito. (NEA Telephoto.)

## MASS MEETING TO BE HELD HERE TUESDAY EVENING AT CITY PARK

Tuesday evening at 8:30 o'clock at the city park a meeting for the people of Ranger and surrounding territory will be held for the purpose of discussing the possibility of starting the growing of silk worms in this section. Should the weather prove unfavorable the meeting will be held in the Recreation building.

W. S. Roberts who is connected with the industry now in full swing in and near Mineral Wells will speak at the meeting, explaining the methods used in growing silk worms and outlining the requirements for getting the industry started in this section.

Every effort has been made to contact farmers and ranchers of this area in order to inform them of the meeting and it is anticipated that a large crowd will attend the meeting.

In connection with the project, Hall Walker, president of the Ranger Chamber of Commerce, which body is sponsoring the meeting, issued the following statement:

"There was a time when, if someone had suggested the growing of silk worms in Texas as a profitable business, you and I would have laughed, and rightly so, because at that time, it was an impossibility. The extreme competition of Japan and China with their cheap labor would have made it a fool's jester, but time has thrown an entirely different light on the situation.

Right now, silk worms are being grown within twelve miles of Ranger as a hobby, and within 50 miles as a profitable business. As before stated, the cheap labor of China and Japan put all thought of a silk industry in America in the farthest corner of the dreamer's mind, but being an enterprising people, and resourceful, a machine has been invented that can do in an hour what it required fifteen laborers a day to do. A reeling machine, to remove the silken threads from the cocoon upon which they are grown was invented by W. T. Roberts, of New York, who is well informed on the silk business.

Mr. Roberts made a trip to Mineral Wells where silk worms were being grown as a hobby, and discovered that the climate here is very suitable to the growth of silk worms.

The citizens of Mineral Wells saw in this discovery the possibility of a new industry for their city, and the business men, farmers and ranchers got together and planted 30,000 mulberry trees, and in the spring of 1945 these citizens reaped the first crop of silk. Since the establishment of this growing process, various factories have called on Mineral Wells including fourteen hosiery mills, each with a plea that the first crop of silk be shipped to them. It was understood that if they wanted the silk they could come to Mineral Wells. One silk factory has definite plans to put a plant into operation."

Chief George Murphy issued a warning Saturday to school age boys who are inclined to play hookey and stated that Ranger police will be on the look out for such boys.

He asked the cooperation of parents in such cases and said that every opportunity will be given the boys to do the right thing but the law will be enforced if they do not.

The chief said it is not only a matter of enforcing the law but boys who slip away from school usually get themselves into trouble and this he is trying to avoid.

The chief said it is not only a matter of enforcing the law but boys who slip away from school usually get themselves into trouble and this he is trying to avoid.

# Troops Roll Into Tokyo As MacArthur Raises Old Glory

## BULLDOGS TO OPEN SEASON ON SATURDAY

Ranger high school's Bulldogs will open the season Saturday night when they meet the Polytechnic team at Farrington Field in Ft. Worth.

For the past week the Bulldogs have been put through their paces by Coach Jimmie Marshall who is rather mum about the outlook for the year. Coach Marshall stated Saturday that his team will definitely go into the game handicapped with five men, most of them veterans, carrying injuries.

About 28 boys have been going out for practice but the coach said that it is too early in the season to determine just how good a team will develop out of the squad.

If Don Ford, Howard Frasier, Frankie Ford, Junior Arturburn and Jackie Parrish can recover from injuries they have they will be included in the starting lineup at Saturday's game. Otherwise Coach Marshall will have to do some head scratching to figure out a first string.

At present the line-up for the first game is scheduled to be Don Ford, center; Wayne Terry and Andrew Jackson, guards; Worth Gajjar, and Bob Hatch, tackles; Pete Dawn and Howard Frasier, ends; Frankie Ford, Junior Arturburn and Jackie Parrish, backs. One back position has not yet been filled.

## James Ferris On New Coast Guard Cutter

SAN PEDRO, California — James F. Ferris, 31, of Ranger, Texas, has been assigned to duty aboard the recently commissioned Coast Guard cutter, USS Chautauque, the Navy announced today.

The Chautauque, which is almost as large as a modern destroyer is equipped with many new innovations in electric controls, and carries twin five-inch guns, numerous anti-aircraft guns and depth charge equipment.

Ferris' mother resides at 2705 Matthews Ave., Redondo Beach, California, and is a former Ranger resident.

## Science Teacher Appointed For Ranger Schools

Dr. G. C. Boswell Saturday announced the appointment of Teyman Cruce of Clarksville as science teacher for Ranger high school and Ranger Junior College.

Cruce holds the B. S. and M. S. degrees from East Texas State Teachers College at Commerce with a major in chemistry and minors in physics and biology. For a time after graduation he served as a United States food and drug inspector and until recently was employed as a chemist at the Lone Star Ordnance plant at Texasiana. He has two years teaching experience.

## No Registration Of High School Students Mon.

It was announced Saturday that no high school students will be registered Monday morning but those who are yet to register for high school classes may do so Monday afternoon beginning at 1:30 o'clock.

Students who have already registered will report Monday morning to receive books and complete details in connection with their work.

Pvt. Arturburn Says He Worked On Atomic Bomb

## Pvt. Arturburn Says He Worked On Atomic Bomb

Pvt. Ernest Arturburn has written his parents, Mr. and Mrs. E. F. Arterburn, that he has been working on the atomic bomb and now that the secret of the bomb is out, he can tell what he has been doing.

Stationed at Los Alamo, New Mexico, Pvt. Arturburn who is with the Army, worked with the firm assembly of the bomb that was tested in New Mexico before being used against the Japanese. For the work his group has received the Meritorious Service unit plaque.

In his letter to his family he stated that it made him happy to think that he had even a small part in bringing the war to an end.

Pvt. Arturburn has been in the service of the Army since August 1944 and is serving with a company of engineers. He is a graduate of Ranger high school and was employed by the Eureka Tool Company before entering service.

His wife the former Miss Marquette Stephens is making her home in Ranger while her husband is in service.

## Dean Z. T. Huff To Preach At Sunday Services

It was announced today that Z. T. Huff, dean of Howard Payne College at Brownwood will fill the pulpit of the First Baptist church at both the morning and evening services, Sunday.

Dean Huff will preach at the church in the absence of Dr. W. H. Clark, pastor, who was called to Missouri this week because of the very serious illness of his mother.

## Don Burger Made Vice-President Of Hilton Hotels

Don Burger, former manager of the Gholson Hotel, has been appointed vice-president of the Hilton Hotels, according to word received Saturday.

The announcement was made by C. N. Hilton, president of the company, who stated that Burger's headquarters will be at the Town House in Los Angeles, California.

The announcement was made by C. N. Hilton, president of the company, who stated that Burger's headquarters will be at the Town House in Los Angeles, California.

The announcement was made by C. N. Hilton, president of the company, who stated that Burger's headquarters will be at the Town House in Los Angeles, California.

## PROGRAM FOR SERVICE IS ANNOUNCED

Final plans for the formal opening of Ranger Junior College and Ranger high school have been completed and the public is invited to attend the program which will be held Thursday morning at 10:30 o'clock in the Recreation building.

The program will be in the form of a Memorial service for former school and college students who have their lives during World War II.

Memorial certificates will be presented to families of the Gold Star men by Dr. G. C. Boswell, following a memorial address by Major John M. Walters of Camp Weikers, who will be introduced by L. R. Pearson, president of the board of trustees.

Miss Ruth Hightower, dean of fine arts, will give a piano prelude and the invocation will be by Dr. W. H. Clarke. Following the assembly singing of America, a scripture reading will be given by Rev. Wallace N. Dunson. The Lord's Prayer will be sung by Mrs. Homer Heasley followed by a piano solo by Miss Hightower. Rev. H. B. Johnson will pronounce the benediction.

A number of out-of-town guests are expected at the program.

## Agency Charged With Blocking Surplus Sales

DALLAS, Tex. (UP)—A charge that two government agencies are blocking sale of surplus war goods to veterans and small business establishments was voiced today by Morton R. Harrison, regional director of the Smaller War Plants Corporation.

"The veterans and small business simply are not getting the goods," Harrison said. "It is the fault of the Department of Commerce and the Reconstruction Finance Corporation."

The controversy over the sale of surplus goods to veterans came to light after vigorous protests were voiced by veterans organizations that the Department of Commerce was selling trucks to dealers without giving ex-soldiers a chance.

## Old Glory Raised Over Wake Island

Old Glory is raised over Wake Island as a Marine bugler plays. The Japs line up, left, and salute the flag. (Marine Corps Radiotelephoto from NEA Telephoto.)

## Slaughtering, Shipment Control Lifted on Meat

WASHINGTON (UP)—The Office of Price Administration announced today that controls on slaughtering of livestock and the shipment of meat have been removed, effective at once.

Price Chief Chester Bowles said the action was taken on recommendation of Secretary of Agriculture Clinton F. Anderson. Meat rationing is not affected by the action.

Bowles said that while there has been no marked improvement in the supply of meat available to civilians in the last few months, particularly since the fighting stopped, the supply is not yet sufficient to assure good distribution without help of rationing.

Despite that, reports were current today that meat rationing may end in October.

## War Time Due To Be Changed By September 30

WASHINGTON (UP)—Rep. Lyle Boren, D., Okla., said today the House will pass legislation abolishing war time and returning the nation to standard time next week.

Boren, chairman of a House interstate commerce subcommittee, which is drafting the legislation, said the country would return to standard time Sunday, Sept. 30.

Leaders of a block of farm state members in the standard time movement predicted that the measure would be passed without opposition.

More than 50 bills to repeal war time have been introduced in both houses — most of them by farm state members.

## Says Einstein Started Country On Atomic Bomb

WASHINGTON (UP)—Albert Einstein, famed mathematician and originator of the theory of relativity, was credited today with having written President Roosevelt a letter on August 2, 1939, that led this country's development of the atomic bomb.

Radio Commentator Raymond Swing in a broadcast said the letter stated Einstein's belief that uranium "may be turned into a new and important source of energy in the immediate future."

## Says Bees' Work Necessarily Keeps Them Busy

COLLEGE STATION, Tex. — (UP)—A mathematical-minded scientist of the U. S. Department of Agriculture has figured out that a hive of bees must visit 8,000,000 flowers to gather one pound of pollen for honey.

The average colony of bees, says Entomologist Paul Gregg of Texas A & M College Extension Service, gathers about 65 pounds of pollen per year.

Texas ranks high among the states in beekeeping, says Gregg, and the little winged insects are a major factor in Texas fruit and seed crop production. Gregg says honeybees are responsible for about 60 per cent of all pollination. Gregg says honeybees are responsible for about 80 per cent of all pollination.

## STUDY JOBS FOR VETS

NEW ORLEANS (UP)—The New Orleans Social-Religious Society for the Deaf is studying civil service categories which can be handled by returning veterans with impaired hearing.

## Youngster Confesses Slaying

Lloyd James Edwards, 9 year old self confessed slayer of 3 year old Phyllis Jean Epperson, is returned to the Cambria County Jail by Pennsylvania State policeman John T. Daugherty to await the outcome of formal murder charges. The youngster said he killed his victim by striking her with a heavy stone. (NEA Telephoto.)

### Awaits Good News

Eagerly awaiting release of his father, Lt. Gen. Jonathan M. Wainwright, heroic defender of Bataan and Corregidor, from a Jap prison camp, is Comdr. Jonathan M. Wainwright, V. above. He commands the Lakeland Victory, a cargo vessel.

### New Orleans Minister Friend To Norse Seaman

NEW ORLEANS (UP)—A Norwegian seaman's church is maintained in New Orleans and its pastor serves as banker, interpreter, mailman and agent for Scandinavian sailors.

The Rev. Johan Iversen came here nine years ago and he can count on the fingers of one hand the Norwegian vessels he has not visited while they were in port here. It's his daily task to see the men aboard the ships, eat with them and talk with them.

He once went aboard a vessel and baptized a sailor's infant daughter when the seaman was not allowed to come ashore. In the drawing room of the church are a stuffed monkey, a stuffed turtle, a whale's tooth, a wing tip from a Kamikaze plane and a German rifle. The Norwegian sailors are at home when they visit their church in New Orleans.

### WORKER RECRUITERS COLLECT BONUSES

FORT WORTH (UP)—The American Manufacturing Company has a new idea for getting and keeping workers.

Working on navy contracts, the company has a time schedule to meet in production. As an inducement to its steady workers to bring more help to the plant, each

new employe signed up for a job is worth \$5 to the signer-upper. The \$5 is paid out after the new hand works 30 days. If he stays 60 days the recruiter gets \$10.

The plan is working pretty well a company official said, except that a lot of potential employes are not qualified. Hundreds are brought to the plant weekly by bounty-seekers. An average of 300 employes are hired and released monthly at the war plant.

**Highlights Of Growing of Silk Worms Listed**

(Editor's Note: The following article written by Mrs. Ethel Gilmore was contributed to the Times because of the current interest in silk worm growing.)

By Ethel B. Gilmore  
The growing of silk worms in Texas is a new industry, but it is a very old industry.

Silk worm growing originated in China. Empress, Ce-ling-she, wife of the famous emperor Hawng-te (2640 B. C.) took personal interest in the growing of silk worms, reeling of silk and the care of mulberry trees.

Silk worms are more hardy than generally supposed. They can stand temperatures ranging from 62 to 78° F.

The rearing house should be well lighted and well ventilated. Silk worm eggs are placed in an incubator or tray in any place that can be kept at 78 degrees for about ten days, then the eggs hatch into small worms. After that the worms eat mulberry leaves for 26 days, then they are ready

to start spinning their cocoons which takes four days. Within ten days the cocoon has to be stifled by steaming or freezing to prevent the worm from cutting through, which would ruin the silk.

A farmer can produce a crop of cocoons every forty-five to fifty days.

Mulberry trees grown on elevated, dry, well drained soil produce the best leaves for feeding silk worms.

A by-product of the silk worm industry is silk worm gut used for casting lines in rod-fishing and for other purposes where lightness, flexibility and strength are essential.

PONY MAGS FOR NAVY SAN FRANCISCO (UP)—Nearly 50,000 pony edition copies of the nation's leading magazine were shipped to overseas naval personnel by the Pacific Fleet service forces during July in a move to cut down individual subscriptions to standard sized magazines. It was announced by the 12th Naval District. Shortage of shipping space prompted the move.

THE baboon is an ugly guy  
With pointed head and shifty eye  
Because he never went to school  
He's also somewhat of a fool  
The moral to this verse is clear  
He can't control his looks, we fear  
But when it comes to getting knowledge  
You can attend a school or college

### SOCIETY

#### MISS LAWSON, MR. COGBURN MARRIED

In a double ring ceremony performed Friday afternoon at 5:00 o'clock Miss Florence Marie Lawson, daughter of Mr. and Mrs. J. W. Lawson became the bride of Mr. Jack Cogburn, seaman first class with the United States Navy, and son of Mr. and Mrs. Cecil Cogburn.

The ceremony was performed at the home of Rev. Wallace N. Dunson who officiated at the wedding.

The bride who was attended by Mrs. Walter Arterburn wore a white gabardine suit with aqua blouse and black accessories. Her shoulder corsage was of pink carnations. Mrs. Arterburn wore a white linen suit with black accessories and a corsage of pink gladiolus.

The groom was attended by Mr. Bobby Ray Eakin as best man.

The wedding was attended by members of the bride's and groom's families and immediately after the ceremony the couple left for a short trip. Seaman Cogburn will report for duty with the

#### EXECUTIVE COMMITTEE OF COUNCIL MEETS

The executive committee of the City Council of Parents and Teachers met Wednesday afternoon at 3:00 o'clock in the home of Mrs. Roy McCleskey.

Plans for the year were outlined and the following committees appointed: program, Mrs. O. G. Lanier, Mrs. J. D. Johnson, Mr. A. Earnest Latham; and Mrs. Gaston Dixon; hospitality, Mrs. M. S. Wade, Mrs. Chester Rogers, Mrs. Edwin George, Mrs. L. O. Wyatt, and Mrs. Ed. Harper; social, Mrs. J. D. Johnson, Mrs. M. E. Lee, Mrs. Glen Simon, Mrs. Arthur DeFebach, and Mrs. A. W. Brazda; finance, Mrs. Saule Perstein, Mrs. Gordon Downing, Mrs. Olga Littlefield and Mrs. O. C. Southers.

At the close of the meeting refreshments were served to Mrs. Lanier, Mrs. M. L. Gray, Mrs. Latham, Mrs. Pashelin, Mrs. Leslie Kincaid, Mrs. Downing, and Mrs. McCleskey.

#### DORCAS CLASS MEETING HELD ON THURSDAY

The Dorcas Class of the First Baptist church met Thursday night at the home of Mrs. B. R. Judy for a business meeting and social.

At the close of the business meeting at which officers for the year were elected a social hour was held on the lawn. A Bible quiz was conducted by Mrs. Lee Mitchell after which iced watermelon was served to those attending.

## Cuts Everything FROM BLUE GRASS TO A 30" OAK

—says Missouri Lumberman

and that's a typical enthusiastic report on the Lowther C-Saw! Large timber operators say—"It enables one man to do the work of 3". Single independent loggers say—"It triples my former production". Whether the job is felling or clearing—whether hardwood or pulp—the Lowther C-Saw is producing for timber operators in these days of scarce labor and pressing war production. Find out what it can do for you.

Field demonstration week of Sept. 10 to 15, 1-mile south of Dothan. Follow the arrows. Agent N. H. Perry, 4528 Potomac, Dallas, Texas.

#### CHILD STUDY ASS'N TO MEET THURSDAY
