Asks Speed On Waterway Project

WASHINGTON (UP) — President Truman today recommended to congress speedy approval of an agreement between this country and Canada for the development of the long-discussed St. Lawrence waterway and power project.

BIG FIVE AGREEMENT MAY WORK

LONDON (UP) — Secretary of State James F. Byrnes left by plane for the United States today after revealing that he was attempting to salvage the wreckage of the big five conference with a compromise formula for drafting Balkan peace treaties.

Byrnes told a press conference that Soviet Foreign Commissar V. M. Molotov had agreed in principle to the compromise, but had to consult the Kremlin before giving his final word. Britain accepted the plan.

The American proposal calls for the United States, Russia and Britain to draft the European peace treaties and then submit them for consideration to peace conferences of all nations which contributed to the Allied victory.

Byrnes said he believed France and China — the other two participants in the foreign ministers conference — would accept the compromise. Russia had stymied the conference by adamantly demanding that the Big Three dictate the peace treaties without giving France or China even an eventual voice in the terms.

WTCC MEET HELD TUES. IN CISCO

The first in a series of referendum meetings sponsored by the West Texas Chamber of Commerce was held in Cisco at the Laguna Hotel Tuesday afternoon with representatives from 12 of the 20 towns in the district attending.

David D. Pickrell, Ranger director, represented the local body at the meeting and reported that a sound program has been outlined by the body for approval and support of the West Texas towns.

The eight point program included, first, the election of town directors; second, election of district directors; third, plans for future conventions; fourth, support of national industrial advertising campaign for West Texas; fifth, a movement to urge congress to speed demobilization; sixth, establishment of veteran's bureau for advising with veterans as to business ventures; seventh, a drive to secure freight rate parity in commodity and special rates for Texas; and eighth to urge towns to make suggestions for the West Texas Chamber of Commerce program.

Pickrell also reported that many of the towns in this district are cooperating with the University of Texas extension department in bringing to the towns itinerant teachers — who conduct schools on reconstruction plans. Several towns in Eastland county are already conducting these schools and the teacher, Mrs. S. Fulmer, will be in Ranger this week to consult with the Chamber of Commerce with reference to such a school here.

Electric Co-Op Hopes To Get Loan From REA

DALHART, Tex. (UP) — The Rita Blanca Electric Cooperative, now incorporated under state law, hopes soon to be able to apply for a loan to REA Headquarters, St. Louis.

Directors have received from Hollis Harris, independent electrical engineer of Amarillo, pre-allocation maps which must go with the co-op's loan application.

A spokesman said the first loan application will call for 200 miles of construction in Dallam, Hartley, Sherman and Moore counties, the four to be served by the cooperative. Subsequent loans will extend the mileage.

The spokesman said the loan application can be made as soon as easement along the proposed 200-mile route are secured.

Modest Hero Learn Of Honors On Discharge

ALTOONA, Pa. (UP) — Holder of the French Croix de Guerre and the Silver Star, Theodore Vinglass didn't even know he was a hero until the awards were discovered on his record.

Modest Vinglass, formerly private first class with the 315th Infantry, and now at home in Coupon, Pa., was discharged recently from Aberdeen General Hospital where his honors were discovered.

The Croix de Guerre, signed by General Charles de Gaulle, was awarded for "exceptional services rendered in the liberation of France." The ex-soldier also holds the Purple Heart and the Combat Infantryman's badge.

Although unaware that he was cited for his awards, Vinglass voluntarily exposed himself to point-blank enemy fire in order to fire a bazooka near Belfort, France, on October 5, 1944.

Posted alone at a road block in a heavily wooded area, Vinglass stepped out into the open at point blank range of a German tank. He fired three shots at it with his bazooka, two of them hitting their target. He was injured himself, but managed to get back to a company air station.

Hearing of his awards as he was mustered out, Vinglass commented: "The best award of all is my discharge."

FORMER JAP PRISONER TO SPEAK HERE

Members of the Ranger chapter of the Order of the Eastern Star announced today that they will present Mrs. Pearl Moyer, former resident who was held prisoner by the Japanese, in a lecture at the First Baptist church Tuesday evening at 7:45 o'clock.

At the lecture which is open to the public, Mrs. Moyer will tell the story of her imprisonment. She was held as a civilian prisoner for 38 months and was in three different camps.

Mrs. Moyer, who suffered to extent of losing 62 pounds of weight during her internment, will present the humorous side of the story as well as the gruesome details.

She recently arrived in Ranger from the Marine hospital in Galveston where she was treated and where she will return after her visit with friends here.

Robert E. Lee, Lt., Infantry Pride of Rebels

CAMP CAMPBELL, Ky. (UP) — Every war seems to have a "Robert E. Lee," and World War II was no exception.

The 5th Infantry Division here hosts of Lt. Robert E. Lee, a great-great-grandson of the illustrious general, and a "rebel" by choice.

The 22-year-old lieutenant, a native of California, served two years overseas with the 5th Division all through combat. He confessed that bearing such a glamorous name helped him in many ways.

He said during his basic training at Fort Bragg, N. C., Southern officers were extremely kind to him when they learned his name. And a wealthy Frenchman, educated in the U. S. wine and dined Lee at his spacious estate near Angers when he found he was talking to a Robert E. Lee.

On the other side of the ledger, Lee has taken much kidding because of his name. When he faced the O. C. S. examining board, his first question was "What was the name of Gen. Lee's horse?" Lee correctly answered "Traveler," which he said he learned from his schoolbook history.

Lee said in World War I his father, Robert F. Lee, stepped on tradition by serving in the Navy. He intends to settle in California, but said, "That won't make me a Yankee. I consider myself a Rebel."

The Oil Workers International Union, Local 487, held a meeting Monday night at 8:00 p. m. at the American Legion Hall.

The meeting was presided over by President, W. C. Garrett, and the Minutes were read by the Secretary, Gordon L. Downing.

During the course of the meeting, the following telegram stating Union policy, was read: "It is the desire of the Oil Workers International Union to conduct the presently existing fight against wage cuts in a manner which will not unnecessarily inconvenience the public or interfere with military operations or delay the return of war veterans. We therefore instruct each local union to arrange for a continued supply of petroleum products for essential users such as doctors, nurses, fire and police protection, military and naval operations and for the return home of war veterans."

After the meeting was adjourned refreshments were served.

COLD WAVE TAKES BIG GOAT TOLL

According to reports from goat raisers of Texas, including this section, losses from the recent cold wave will reach astounding proportions.

One man, closely associated with the business, stated that losses will range from as low as 10 per cent to as high as 85 per cent. One rancher was reported to have lost 200 out of about 250 registered stock and his total loss was estimated between 1,500 and 1,500 goats.

Some raisers were more fortunate with losses reported as very light. Where goats could be driven to shelter or find natural shelter, they were able to withstand the cold.

In one instance, it was reported, that the raiser personally sought to drive his goats to a shelter and within a few feet of the shelter they bolted and the result was the loss of the entire flock.

Farmer Gets Two Crops From One Peach Tree

HENDERSON, Tex. (UP) — Just a freak of nature — that's what Henderson farmers call this peach tree phenomenon.

O. W. Leopard is getting peaches from a tree that has bloomed for the second time this year. Of a fall variety, the peaches grew from trees which have been producing normally for about five years.

Leopard is now worried. He wonders if the second bloom is the ones which should blossom next spring, and if so, will his trees be bare?

Old timers have no explanation and aren't particularly worried. It's just a freak of nature, they say.

COMPANIES SAID TO BE WILLING TO ACCEPT TERMS

WASHINGTON (UP) — The executive board of the Oil Workers Union CIO has decided to accept the government's compromise for settling its wage dispute and call off strikes against companies which also agree to the proposal, a high CIO official disclosed today.

Employees of the Humble oil refinery, Refinery at Corpus Christi and the Sinclair plant at Fort Worth were on strike today as an additional 26,000 Gulf coast oil workers notified their international president that they would accept no compromise in their fight for a 30 per cent wage increase.

Oil Company representatives earlier were reported ready to accept the Government's formula conditionally.

AUSTIN (UP) — Lower Colorado River Authority officials announced complete return of electric service to all places on its system at 11 a. m. today after a midnight strike Monday had cut off current from 23 municipalities, 50 communities and a wide farm area in central Texas.

Both sides were expected to submit their answers to Secretary of Labor Lewis B. Schwellenbach when the conciliation conference striving to break a deadlock between the companies and the union reconvenes at 3 p. m.

FORT WORTH (UP) — A wildcat strike by union machinists, who promptly threw picket lines about the plant, halted production today at the sprawling Consolidated Vultee Aircraft plant.

That is the final deadline set by the labor secretary. Labor department sources said Schwellenbach is prepared to recommend seizure of properties of any companies which reject his proposal and whose operation is necessary for military and essential civilian supplies.

NEW YORK — A strike of approximately 30,000 longshoremen tied up virtually all shipping in New York harbor today despite efforts of leaders of the AFL longshoremen association to return the men to work pending further contract negotiations.

Another source close to Schwellenbach said the compromise wage formula submitted to end the oil workers strike would not be given to the automobile companies and the United Automobile Workers at this time as a solution to their dispute.

ing a two story bus into a home. With the aid of her father, Carl M. Burnette, the enterprising little Miss Brunette now is the owner of a year round beach home complete with sun deck.

Miss Brunette purchased the old double-decker from the Los Angeles Transit Lines some months ago. She sold the bus' leather seat for more than the \$50 she paid for her "home".

A carpenter by trade, her father ripped off the chassis, set the bus on a concrete foundation and built a bedroom, dressing room and bath as well as a fireplace where the hood used to be.

Now the Burnettes, relaxing leisurely on the sun deck, tell passers-by all about their home which they claim puts current FHA models to shame.

Women Cab Drivers Given Notice To Quit

CINCINNATI (UP) — The stouthearted straight-armed women of the war—the lady taxicab drivers—are done for, at least in Cincinnati.

President C. S. Warner of the Yellow Cab Co., said he had sent letters to all the women operators telling them "we hope you can find other employment within the next 30 days."

The Brotherhood of Taxicab Drivers of America agreed to women drivers during the war emergency on condition they would be replaced by men immediately after V-J Day.

Union leaders declared that the Taxicab Brotherhood "never took a nickel from the women drivers" because they were working on a temporary basis.
