The USS Enterprise, largest of the US Navy craft to be in New York for Navy Day celebration, pulls into dock in downtown Manhattan. For the men aboard many have been at sea for several months, the Big City looked slightly hazy in the early morning. But even with the haze many of the lads would always remember their first sight of New York. (NE A Telephoto.)

82 University Faculty Members Aid In War II

AUSTIN, Texas — Whether they were behind the guns, or "behind the men behind the guns," 82 University of Texas faculty members did their share in helping win World War II.

When the story can be told completely, the work of 70 faculty members now on leave of absence for military duty, and 12 on leave for important government work, will be a record of achievements and heroic duty.

Ranging in position from instructor to full professors, and business office officials, 61 continue to be in military service, for to date only nine of this group have returned to the faculty or will return by the beginning of the winter term Nov. 1.

Eight faculty members are now doing government research, or government work; two are doing highly important war research one is teaching Japanese in a Navy school, and one is teaching in a War College. (Five members of the faculty are teaching in W. T. College, but four expect to return before the end of the 1945-46 academic session.)

All branches of armed services were represented by the University men, as well as the American Red Cross.

URGES BOYS TO ENROLL IN GUARD

From the standpoint of the educator, Dr. G. C. Boswell today issued an appeal to young men of high school and college age to enroll in Company B of the Texas State Guard to aid in keeping the unit in Ranger and to gain for themselves credit in physical education.

He explained that one half credit in physical education will be given for a year's training with the guard if as much as two hours a week are spent in the training. He explained that even though the Guard, which will likely be converted to the National Guard, is not designated as an agency for compulsory military training in peace time, the credit will be given and will be acceptable as college or university entrance credit.

In speaking of the move, Dr. Boswell said, "I have no political axe to grind, I am simply interested in the work from the school and educational standpoint." He further stated that it was an asset to the Ranger Junior College to be able to offer the training, and that compulsory military training is a subject that is discussed at every educational meeting which he has attended.

It has been pointed out before that a greater enrollment in the unit will have to be secured if it is to be kept here, and in this connection Dr. Boswell, stated that the loss of Company B would be a vital loss.

Funeral Services For L. D. Bellah Held Thursday

Bellah of Hium Texas and 20 grandchildren and nine great grandchildren.

Bellahers were Roy Kitchens, Thomas Hickman, C. W. Blakney, Grover Baker, T. J. Tilley, and W. A. Gray.

Visiting Band Gets Wet, Host Supplies Clothes

LIMA, O. (UP) — High school students and officials saved a desperate situation and showed a new type of sportsmanship at a football game here.

Bandmen from the visiting Cincinnati Walnut Hills school were parading before the game. They went through their snappy maneuvers, dressed in brilliant uniforms—then it rained.

But the band was back at half time in dry clothing, supplied by Lima citizens — and wearing old but ddy uniforms proudly sporting the letter "L".

Senate Finance Committee Votes Tax Reduction

WASHINGTON (UP) — The Senate finance committee voted today to relieve 12,000,000 low-paid individuals from federal income taxes next year.

The House of Representatives last week passed a bill which would accomplish the same end.

The Senate committee made some changes. But the net effect would be the same for the low-income group.

The Senate committee also voted to repeal effective Jan. 1 the excess profits tax on corporations. The House had voted to cut the excess profits tax from 95 to 60 per cent for 1946.

Lt. Guerry Here For Visit With Ranger Friends

Lt. Hazel Guerry formerly of the nurses staff of the West Texas hospital was in Ranger today for a visit with friends.

With the Army Nurses Corps, Lt. Guerry is stationed at El Paso and is enroute there after having taken a course in neuro-psychiatry at the McCloskey General hospital at Temple. She has been in service since March of this year.

WERE READY FOR PEACE. TOKYO (UP) — The consensus among high-ranking Japanese army and navy airmen is that the United States, primarily through air power, had Japan ready to sue for peace before the atomic bomb was dropped.

PEP RALLY TO BE HELD IN GHOLSON

Even though the Ranger Bulldogs go to Brownwood badly handicapped through injuries to first string men, they will not be lacking in support from fans and in preparation for the game a pep rally will be held tonight at 7:30 in the lobby of the Gholson hotel.

Pep leaders who will be in charge of the rally are: Misses Betty Jean Jones, Dorothy Ann Imholz, Patsy Wheat and Patsy Wallace.

The leaders announced today that they will feature a new kick-off song at the rally tonight and have urged fans to try to learn the song and have asked that at game-time the crowd observe the custom of standing when the song is sung at the kick-off of each game.

Words to the song are as follows: "Hail to the Bulldogs, hats off to you! Ever you'll find us loyal and true. Firm and undaunted, ever we'll be. Here's to the school we love— Here's a toast to you."

Gen. Marshall Urges Merger Of Armed Forces

WASHINGTON (UP) — Gen. George C. Marshall, army chief of staff, urged Congress today that unless the armed forces are merged "there can be little hope for a lasting peace."

Marshall testified before the Senate military affairs committee. He said modern weapons make it "able to do in weeks, certainly months, what we previously took years to accomplish."

The unprecedentedly swift air forces of the future will be able to "obliterate the life" of an attacked nation, Arnold predicted.

85 Pointers Due Out of Army By Early November

WASHINGTON (UP) — All army men with 85 discharge points should be out of uniform by "very early November" and the discharge score will probably be reduced to 50 by December 1.

That's the outlook as presented to Congress by military spokesmen.

7 Organizations 24 Nazis Are Charged with war

BERLIN (UP) — An international indictment presented to the Allies four-power tribunal today formally charged seven German organizations and 24 top Nazis with the principal war crimes of the European war.

The 25,000 - word indictment was presented at an hour-long open session of the court. Its contents were ordered withheld from publication until 2 P. M. CST.

Copies of the indictment were ordered served on the defendants "immediately" — probably this evening — in the German language with instructions to be ready for trial within 30 days.

Adolf Hitler's name was not included in the indictment, presumably since all circumstantial evidence indicates he is dead. This would not preclude his trial later if found alive, however.

Charges Against Mrs. Stevens Are Dropped

Bridgeport, Conn. (UP) — The state dropped today a manslaughter charge against Mrs. Imogene Stevens, the "Texas bombblast" accused of killing seaman Albert Kovacs at the home of a New Canadian neighbor last June.

State's attorney Lorin W. Willis told the court that "I am convinced that the state could not convict her in the face of the established facts."

Says Emperor's Fate Should Be Left To Japanese

WASHINGTON (UP) — President Truman today described as a good plan the position taken by Chinese Generalissimo Chiang Kai Shek that the fate of the Emperor of Japan should be decided by all of the Japanese people.

Chiang's stand was disclosed in an exclusive interview with the Chinese leader by Hugh Ballie, president of the United Press.

WOULD OUST SPAIN

WASHINGTON (UP) — Russia, it was revealed today, tried without success, at a recent conference in Africa to exclude Spain from the International Administration of Tangier until the Franco regime was replaced by a democratic government.

WASHINGTON COLUMN

BY PETER EDSON
NEA Washington Correspondent

WASHINGTON, D. C.—A great race between Sen. Bob Taft of Ohio and Sen. Bob Wagner of New York came down the stretch on the last day Congress was in session. It ended in a photo finish, or maybe Wagner by a nose. It was a race to develop a postwar housing policy.

Edson

Senator Wagner is, of course, the author of nearly all the New Deal legislation on housing. And, as chairman of the Senate Banking and Currency Committee, he presides over the early destiny of any new housing legislation that comes up. Taft is a minority member of the Banking and Currency Committee, but he is also chairman of a Senate Postwar Subcommittee on Housing. That has made him top man in the long series of hearings on postwar housing policy. They began in June, 1944, and ran until February, 1945. They enabled Taft to steal the housing spotlight from Wagner. A natural rivalry as well as a traditional political jealousy developed.

Twice during the Taft Committee hearings Wagner rose to announce that this was only an advisory subcommittee.

Taft went ahead, however, and took five months to prepare a report which he filed on the last day the Senate was in session.

He has been the Republicans' number one critic of many Democratic proposals. Knowing these facts, any Washington observer will pick up the Taft report and read with amazement what the Senator from Ohio proposes for a long-range government housing program. A single agency with a single head to promote all government housing activities. Tax reductions to corporations owning housing developments. Downward revaluation of property for new housing. Development of more rural housing. More assistance to cities in rebuilding slum areas. Disapproval of the rent certificate subsidy for low-income families. Review of the anti-trust laws to eliminate monopoly and racketeering practices.

It would be too much to expect the Democrats would allow Taft to steal this dream-house right out of their own back yard. While Taft was writing his report, Senator Wagner, in collaboration with Sen. Allen J. Ellender of Louisiana, representing the Senate Committee on Education and Labor, were busy preparing a new housing bill. The two Democratic senators also filed their bill on the last day the Senate was in session, providing the aforementioned photo finish.

The Wagner-Ellender bill gets the play because it is a step further along—a definite proposal for legislation. But it is 85 pages long and it takes a lawyer to figure it out. The Taft report, on the other hand, is only 23 pages long and extremely readable.

Both are recommended reading for anyone interested in public housing and postwar private housing, too.

SPORTS

BY HARRY GRAYSON
NEA Sports Editor

WITH the seasons overlapping to a greater extent every fall, you hear as much football as baseball talk at the World Series. Ever the baseball owner permits football to steal its thunder. Didn't big-hearted Clark Griffith shorten the Washington club's season by a week to clear the stadium bearing his name for the professional Redskins? A rent-gouging stunt, by the way, that easily could have cost the Senators the pennant and a crack at the World Series. The baseball people had best get next to themselves. Something should be done about things like that. It was a self-admission that Old Fox Griffith suspected he would fare better financially with football than the business that "made" him. It was one time that the erstwhile pitcher outguessed himself. He didn't figure that his upside down champions of 1944 would roar to the wire so close to the entire pot. And when they did, the condensed schedule cost their owner and visiting clubs considerable coin.

But, as I was saying, you hear a list of football chatter at the World Series, and there is always plenty of space in the press box on Saturdays and Sundays, when the fall baseball show has rival attractions in football.

Many of the writers had made reservations at Champaign for the Iowa-Illinois skirmish before Hal Newhouse pitched the first ball at Briggs Stadium.

The Cleveland writers told about their city's Municipal Stadium, which has been a spacious, sparsely populated locality this summer while the Indians were scalping themselves, not being big enough for the football business it will do Nov. 2 and 3. That will be a reassuring week-end to Cleveland businessmen and other citizens who have grown accustomed to row upon row of empty seats in the huge lakefront edifice.

ON Saturday afternoon, Nov. 3 Navy and Notre Dame will play to upwards of 80,000 spectators. Tickets are scarier than Cleveland pennant-winners. The night before two fine high school teams will attract some 50,000 spectators. Cleveland's powerful Cathedral Latin will tangle with the famous Massillon, O., aggregation, which normally loses a couple of games every decade. Massillon prides itself on the quality of its football and the half-time production afforded by its band, which marches, jitters, swings and does some of the most remarkable calisthenics ever seen outside of a Turnover.

The Ohio State coach, Lt. Paul Brown, now of Great Lakes and headed for the Cleveland club in the new All-American Conference, and Carroll Widdoes, developed as such at Massillon High. It's nice to hear so much of football at the World Series. It's something in the way of evidence that there is room for both.

WE FLEW Without GUNS

This is a true story of the men who fly the "Kump"—carry-ing passengers and cargo over the high Himalayas between India and China. Pilots call it the toughest airline route in the world.

THROUGH TO NEW YORK

WE knew that the customs inspection at Durbin, Union of South Africa, was going to be tough, so before we docked Gings and Tony and I worked out a program. We would bring the two remaining cats, Suzy Q and Spitfire, up to our stateroom, locking them in there when we left the ship. After we had gone through the customs, one of us would re-member leaving a laundry bag on board and he would hustle back to get it. Meanwhile we would have been very liberal with tips for the customs men, and when the one who had gone back for the laundry would reappear we would be such good friends with the inspectors that in such a very great hurry to be on our way that they wouldn't even glance at the bag. In it, of course, would be the two cats, along with a couple of dirty shirts.

The plan worked perfectly. When we were a safe distance from the customs house, we hailed a cab, and rehearsed our act for getting them into the hotel. On the way we stopped at an apothecary shop to get a supply of barley water to ward off the indigestion that had killed Margot. Suzy Q was already showing signs of sickness. Before we reached Cape Town, three days after our arrival at Durbin, she was unable to hold food in her stomach.

On the train we met an American soldier named Stanley who was stationed at Capt. Town. When we arrived there he offered to let us keep the cats in the yard back of his house. We accepted.

WE FLEW Without GUNS

This is a true story of the men who fly the "Kump"—carry-ing passengers and cargo over the high Himalayas between India and China. Pilots call it the toughest airline route in the world.

A NEW LIFE

IT had been six months since I wrote that letter to Gerry. Ewing, the beautiful blonde who danced in the show at Billy Rose's Diamond Horseshoe. I had yet to receive an answer. So the night after we arrived in New York Gings and I decided to look up Gerry Ewing and demand an explanation.

"But Captain Genovese, you're so short!" Gerry said, "I'm first thing when we met her at the St. Moritz. 'I thought you said in your letter that you were—what was it? Six feet?'"

"I don't remember," I said, embarrassed, because I had been a little liberal in estimating my height. "But flying takes a lot out of a man. Makes you lose a lot of weight sometimes—probably affects your height, too. . ."

The picture of Gerry in the magazine was very good, but it didn't do her justice. In the flesh she was twice as beautiful, with silky blonde hair and wide blue eyes and soft red lips and a smile that crinkled around the eyes. Just hearing the soft melody of her laugh made me all wobbly inside. After she had dressed and come from her room and slipped her arm through mine, we went out and got a cab and drove over to the Stork Club, and I asked the headwaiter for a table for two.

THE BRIDGROOM'S ARGUMENT

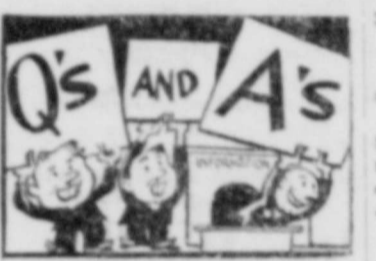

ME out of Randolph Field back in 1939 was nothing compared to the complete daze that engulfed me in the three weeks following my first evening with Gerry Ewing. At the end of that time I was still walking around with my head in the clouds and there was nothing to do but lay my cards on the table.

"I love you, Gerry," I told her one night, and she smiled and said, "That's nice, because I love you, too."

MUCH as one hates to concede the fact, honeymoons cannot go on forever. Ours ran on blissfully from the end of August until early October with never once a thought of the turmoil in which the rest of the world found itself, but then reality returned in the form of a telegram from Gings, who had gone back home to Chicago a few weeks before.

"Have nice airline job lined up in South America," he wired. "Room for you, too. Good pay and dangerous. What more could you ask?"

Q'S AND A'S

Q—What new "enemy" of speeders may appear soon?
A—A newly patented "range finder"—similar to the artilleryman's—for determining speed. It can be mounted on a motorcycle or behind a patrol car windshield.

Q—Where was our vaudeville industry born?
A—In Boston, Mass., when B. F. Keith opened his "Gaiety Museum" in a vacant storeroom in 1883.

Q—What two regal brothers met recently for the first time since World War II began?
A—King Haakon of Norway and King Christian of Denmark.

Q—How can a mother translate a baby's cries?
A—A harsh, persistent cry means hunger; a sharp, pathetic cry means pain; a whimper or wail means discomfort. Newborn babies average 113 minutes of crying every 24 hours, say Mayo Clinic figures.

Q—What three principal gains given Italy after World War I is she in danger of losing now?
A—Trieste, Brenner Pass, and the Dodecanese Islands.

Q—Can a patent granted by the U. S. Patent Office be extended?
A—Only by Act of Congress. Otherwise the invention passes into the public domain after the regular 17-year patent period.

United States Steel Employees 13,000 Veterans

DALLAS, Tex.—Nearly 13,000 veterans of World War II, a number just short of a full army division, already have been employed by subsidiary companies of United States Steel Corporation and the veterans re-employment figure is increasing daily, Corporation officials announced today.
Of the number employed 8,907 were former employees and 3,963 were veterans not previously employed by the companies. More than 110,000 employees of United States Steel subsidiaries left their jobs during the war to enter the armed services.
Many of the veterans given post war jobs are wearers of the Purple Heart award, and returned with physical handicaps which rendered them incapable of performing their former work. Corporation officials said. Subsidiary companies of United States Steel were prepared for this situation, however.

Questioned In Michigan Axe Slaying

Mrs. Helen Budnik, ex-secretary of Louis Thompson, enters the sheriff's office in Pontiac, Michigan with Thompson. Both were questioned in connection with the axe slaying of Thompson's wife, Lydia. Both submitted to the lie detector tests. Mrs. Budnik was freed and Thompson was held, pending a check on the details of his story. (NEA Telephoto.)

As a result of a comprehensive job survey made in the plants, each of the thousands of jobs in the numerous plants had been classified for quick determination of whether a job could be performed by a handicapped veteran. In this manner many returning servicemen are fitted into new jobs which they are capable of handling despite handicaps resulting from war injuries.

A. E. Klemmedson Heads Dallas Ford Branch

DEARBORN, Mich.—A. E. Klemmedson, onetime assistant manager of the Ford Motor Company's branch at Dallas, Texas, and recently manager of its branch at Oklahoma City, today assumed the management of the Dallas branch.
His appointment as head of one of the largest branch systems in the far flung Ford system was announced by Ira B. Groves, new Southwestern regional manager of the company, at his headquarters in Kansas City, Mo.
A Ford veteran of more than 22 years, Klemmedson has served five branches since joining the company in the sales division of the Los Angeles branch in June 1923. He was sales manager and assistant manager there before his transfer to the assistant management of the Chicago branch in December 1934.
He first went to Dallas in July

But it happened when a blaze started in a carload of baled hay at Kirby, O. Firemen were asked to "meet" the blaze at the Pennsylvania sidetrack. Meanwhile, a locomotive snaked the burning car onto the main track and made a swift run into Upper Sandusky, where local firemen made short work of the blaze.

Packed Taxicabs Soon Will Be Thing Of Past

FORT WORTH, Tex. (UP)—Packing passengers into taxicabs here sardine fashion is on the way out.

Nope, the experienced packers, alias taxi drivers, haven't been hired away by sardine canning companies nor have the sardine companies revealed that doubling up is practiced only when a group of waiting passengers are all going in the same direction. Otherwise, with a little luck, a passenger will now experience the odd situation of riding without another citizen perched on top of him.

Local taxicab operators praised passengers' patience in putting up with crowded conditions, shortage of cabs and drivers.

Conditions will still be tight, though, the cab operators warned, until new cars, tires and equipment become available.

SOCIETY

DISTRICT DELEGATES NAMED BY AUXILIARY

At the regular meeting of the American Legion Auxiliary held Tuesday night at the Legion hall, delegates to the coming district convention were named. Those chosen to represent the group at the meeting to be held in Eastland November 3 and 4 were Mrs. Roney Jones, Mrs. R. W. Gordon,

and Mrs. E. C. Ward. Alternates selected are Mrs. Con Hazard, Mrs. Howard Elwood and Mrs. Bob Hansford, the latter a charter member who has just returned to Ranger after two and one half years absence.

Mrs. Jones, president, presided at the meeting in which plans for a Christmas party were made. The party will be for the benefit of veterans and their families and those attending will be asked to give gifts that will be sent to veterans in hospitals and to their families. The date of the party will be set later, but will be in the home of Mrs. R. W. Gordon.

A large group attended the meeting and a check of the membership revealed that many wives of World War II veterans are already in the organization.

HIGH SCHOOL SPANISH CLUB IS ORGANIZED

At a meeting of the Spanish Club of Ranger High school held Wednesday at the school, officers for the year were elected.

Jimmy Heinlen was named president and vice-president is Barbara Stewart. Jo Ann Deaton was selected as secretary treasurer and Sara Frances Whatley was chosen reporter. Mrs. Mamie Ruth Hamrick is sponsor of the club.

A committee composed of Beulah Edna Smith, Georganna Rogers, Tony Lewis, Robert Whitehead, and Helen Kirkpatrick was named to draw up a constitution and select a name for the club.

Veterans Advised On How To Buy Surplus Property

Camp Wolters, October 18 — Are you a Veteran of World War II?

Are you anxious to purchase surplus war property to go in business or for that farm of yours?

Well, keep reading cause here are the why and wherefore of the veteran's priority in buying surplus goods.

Discharged servicemen and women being released under honorable conditions may make application to their nearest Smaller War Plants Corporation's District Office. Proof must be given that such property wanted is for business use before the SWPC can certify a priority.

Before making such application discharges should acquaint themselves with this information:

1. The SWPC is not in the business of selling surplus. It merely sets as the buying agent to purchase property from such owning agencies as the Department of Commerce, RFC, and other disposal agencies.
2. Both men and women having honorable service need apply.
3. A veteran may not apply before a discharge is given.
4. Along farming lines, purchases are authorized for fruit growing, livestock and poultry raising, grazing and fishing enterprises.
5. Jeeps, automobiles, trucks, or any other surplus property cannot be bought for personal use.
6. Capital investment must not

exceed \$25,000. Prices will be fixed by the disposal agency, but no price will ever be greater than the original cost to the government, less allowances for depreciation and obsolescence.

8. Veterans may pay cash, or may secure loans from SWPC up to 85 per cent of the purchase price. In event of a loan or credit extension, a minimum down payment must be made of 15 per cent by certified check or cashier's check. Interest on loans is at the rate of 4 per cent.

9. Veterans already established in business may take advantage of the procedure set up by SWPC to make surplus property available for purchase by small businessmen. The \$15,000 limitation does not apply for purchases made under these procedures, and the goods may be bought for resale (subject to the rules and regulations of the disposal agency). However, these goods may not be bought under priority accorded veterans, though special consideration may be given to veterans who apply as small businessmen.

10. From here, your nearest SWPC District Office address is: Mr. Russell Smith, District Manager, 505 Mercantile Bank Building, Dallas, Texas. Be sure to bring your Honorable Discharge or a photostatic copy for purposes of identification.

Champ Flame Blower Tests Match Heads

OSWEGO, N. Y. (UP)—Meet the champion match blower-outer of the world!

He's John M. Doyle, 69 year old Diamond Match Company technician, who has been lighting and blowing out 3,000 matches a day ever since 1909 when the company established a testing laboratory in its factory here. Doyle's unusual job is to see that match heads light readily and that, once burning,

Diamond has tried machines for the testing job, but found that they are not as reliable as technicians like Doyle.

How to prepare your GAS HEATERS

...for more efficient winter service

The first chill Northerners of fall are forerunners of severe winter weather to come. Better check over your gas heaters and put them in tip-top shape now. Follow these suggestions to get maximum efficiency from your heating equipment:

1. REMOVE RADIANTS and blow dust from radiants and back wall. Use a bicycle or tire pump or any strong puff of air. Handle radiants carefully as they are very fragile.
2. BLOW DUST from mixing chamber and burner ports by attaching bicycle or tire pump to gas intake. Or take heater to filling station and use air hose.
3. REPLACE RADIANTS being careful to seat them properly above burner ports. Replace broken radiants as radiants are essential to efficient operation.
4. ATTACH TUBING or rubber hose connection and check for leaks. Escaping gas can be detected by smell or, better yet, by brushing suspected leaks with soapy water which will bubble if gas is escaping. Do not use matches to locate leaks.
5. ADJUST AIR MIXTURE so that gas burns with a clear purple-blue flame. This is done by gradually opening or closing air mixer shutter or valve while heater is burning. A yellow flame indicates insufficient air; a blue flame that dances away from burner tip shows too much air.

If you need help in adjusting your heaters, please feel free to call upon us. We are extra busy at this time of the year, but will fill requests as quickly as possible in the order received.

Texas Botanist On Leave To Do Research

AUSTIN, TEXAS — Dr. Fred A. Barkley, University of Texas botanist, is on leave of absence while he is connected with the Phanerogam Herbarium at the Chicago Museum of Natural History.

A recent publication of Dr. Barkley, who is instructor in botany and assistant in the University of Texas Herbarium, and Dr. B. C. Tharp, professor of botany and director of the Herbarium, appeared in Madrono on "Noteworthy Plants of Texas."

In this article three hitherto undescribed species were named for three students of the Texas flora, Harris B. Parks, chief of the division of agriculture, Miss Lula C. Cough of Ft. Worth, collector of Texas plants, and Victor L. Cory of Sonora, collector and author of Texas flora papers.
