18 1-2 CENTS WORTH OF MAGIC

Now that the General Motors strike is settled, we don't hesitate to express our confident opinion that the sum of 18 1-2 cents is the magic formula which is to lead us from chaos to prosperity.

It must be. For in a variety of industries and under a variety of conditions, labor adversaries have discovered the sum after weeks of wrangling, and forthwith have clasped hands like brother Elks and departed in peace.

Whence came this monetary talisman? Nobody seems to know—unless perhaps it is Labor Secretary Schwelienbach, who told reporters in a later-repented burst of candor that he guessed it was "sort of like Topsy."

We seem to recall that Henry Kaiser was the first employer to perceive its magic power and pass it along to his workers. Then President Truman, sensing the magic allowed as how he thought 18 1-2 cents would be about the right wage increase for the whole steel industry.

But Mr. Truman, being a Missourian by birth and inclination, wasn't inclined to rush into things blindly. He put fact-finders to work on the auto industry problem, and they came up with the sum of 19 1-2 cents.

The magic would not be downed, however. While the auto fact-finders pursued their skeptical way, companies and unions all over the country were submitting their dissimilar problems to this economic alchemy and coming out with the same solution—18 1-2 cents.

We welcome the new magic, but we do think that its use could be simplified from now on. There is no need for elaborate ceremony. The ancients didn't build a fire on the altar and sacrifice a goat before pronouncing the word "abracadabra." They just said it.

The same practice should be adopted with the magic sum. Let's have no more long, costly spectacles like a 113-day strike which cost 175,000 workers an average of \$745 each, which stalled production, postponed prosperity, and caused uncalculated millions to be lost not only to the company but to our whole business economy.

Let's fix it so the magic sum can be prescribed for every wage earner's malady—be he truck driver, ribbon clerk, stevedore, or fiddler—just as swiftly and simply as an aspirin is prescribed for a headache.

Will it work? Well, nobody has tried it yet, of course. But everybody seems to think it's wonderful, so how can it miss?

WASHINGTON COLUMN

BY PETER EDSON

NEA Washington Correspondent

WASHINGTON, D. C.—(NEA)—Every 20 seconds last year, somebody in the United States committed a crime, and for that reason FBI's report on U. S. crime for 1945 makes some of the blackest reading on record.

The average day of crime in the United States adds up to 12 accidental killings, 18 murders, 31 rapes, and 163 aggravated assaults. These are the crimes against persons.

In crimes against property, the score card for an average day shows 149 robberies, 662 cars stolen, 881 places burglarized and 2371 other thefts.

The average of the year's 298,000 reported thefts yielded the criminal a \$54 haul. The 129,000 burglaries averaged \$118 worth of loot, the 22,000 robberies netted the stick-up man \$146. There were 241,491 cars stolen—662 a day, 27.6 an hour, right around the clock. But a little over two-thirds of the stolen property was recovered by the police.

In reports from nearly 300 cities of more than 25,000 population, the total value of property stolen is put at \$48,000,000. This is a 27 per cent increase over last year and a nice commentary on the nation's increased prosperity.

POINTING to some of the highlights of the annual crime statistics, FBI Director J. Edgar Hoover declares that the increase in crime last year is the greatest in the 15-year period that his organization has been tabulating figures. It makes a 12.4 per cent increase in cities and an 8.4 per cent increase in rural areas, for a total of 1,565,541 major offenses reported by the nation's police.

"A substantial portion of major crimes," says the report, "is attributable to persons under voting age. Age 17 stood out as the predominant age among arrested persons and age 18 was second. Over half of the arrests represented persons who already had fingerprint arrest records on file in the FBI."

J. Edgar Hoover has emphasized a few of the things that might be done. Hoover places blame for the rise of juvenile crime directly on the break-up of home life. "Parental responsibility," he says, bluntly, "is no longer in style."

At a recent police convention Hoover suggested that parents should be held responsible for the crimes of their children. Sending the parents to reform school instead of the child would be the punishment for juvenile delinquency under such a program.

Beyond that, Hoover says the need is for better local police and more of them. Return of the cop to his beat as the children's friend is fundamental. Removal of police from political control would be the next step, tightening of the parole and parole systems to keep the criminals in jail and let their victims live, then cleaning up the jails themselves, are other needed reforms in his program.

SPORTS

BY HARRY GRAYSON

NEA Sports Editor

LAKELAND, Fla.—(NEA)—The Detroit club's confusion around second base stresses the importance of a double-play combination. Now that things are normal again, no major league club is going to win a pennant without a skillful one.

Particularly fortunate in this department at the moment are the Yankees, with Rizzuto and Gordon; the Red Sox, with Pesky and Doerr; the Indians, with Boudreau and Mack; the Cardinals, with Marion and Klein; the Dodgers, with Reese and Stanley; the Braves, with Evers, Barry and Collins; the Giants, with Frisch, and Gilbert and Frisch.

These tired old eyes and others who have been around longer than their owners care to remember can't recall a niftier couple than Little Scouter and the Oregon Short Line.

This trip you will see the New York engineer, double-plays around the bases, with George Stirnweis, switched from second to first, and Eddie Mayo, a base-runner will be cut down at second when slow rollers are hit to Snuffy Stirnweis.

LOU BOUDREAU and Ray Mack, who broke into baseball together, are only a step, if that, behind Rizzuto and Gordon on the double-killing. It's extremely unfortunate that Boudreau has baseball feet and Mack isn't as formidable as he looks when he saunters to the plate.

Mack's being out of there is the reason Boudreau suffered the broken ankle that put the Cleveland club out of the American League race last summer, and probably prevented the boy manager from repeating as the batting champion.

With a runner on first, a grounder was hit to Boudreau. The Illinois alumnus saw that the slow Dutch Meyer couldn't get to the bag in time to make the double-play so he attempted to complete it himself. In trying to do so, he bumped into Meyer, spun, and was out for the remainder of the campaign. Ray Mack would have been in the right spot, and the double-play would have been completed without mishap.

EDDIE LAKE may do all right at shortstop for the Tigers. He has such a fine arm that he considered patching when the Red Sox were so woefully short in that key bureau a couple of years ago starting them from third.

The 33-year-old Eddie Mayo is Detroit's biggest question mark. During the war he played on the grass—farther back than any other second baseman. In this way he cut off his that otherwise would have gone over his head, and had more time to get to the ball, which in some measure made up for his lack of speed. He was still able to throw out wartime talent on slow rollers.

But big league baseball is a game of speed again, and no club is going to get very far with a gaping hole down the middle.

## Easter Customs THROUGH THE AGES

**FIRST** EASTER GREETINGS TOOK THE FORM OF PAINTED EGGS, EXCHANGED DURING AN ANCIENT FESTIVAL HELD IN HONOR OF THE PAGAN GODDESS OF SPRING, EOSTRA, FROM WHOSE NAME WE GET THE WORD "EASTER".

Pity the poor Easter Bunny in Old England: A PRIZE OF 100 EGGS WENT TO ANY BOY WHO CAPTURED AND DELIVERED A LIVE RABBIT TO THE PARISH HOUSE BEFORE 10 A.M. EASTER MORN.

THE CUSTOM OF EXCHANGING GREETING CARDS AT EASTER BEGAN IN THE 1800'S. THESE EARLY EASTER CARDS WERE ADORNED WITH SATIN FRINGES AND MANY FAMILIAR SYMBOLS OF TODAY'S CARDS, WITH RELIGIOUS DESIGNS MOST POPULAR.

Hopeful Yorkshire maids kept their eyes open on Easter Morn, for if the first animal they saw was a lamb, it was considered an omen of a lucky Marriage.

**Seek Geologists Who Know How To Conserve Oil**

AUSTIN, Tex. — Texas oil companies are looking for geologists who know how to conserve oil as well as find it.

This opinion was voiced by

Olin G. Bell, production geologist of the Humble Oil and Refining Company, Houston, who recently spent two days on the University of Texas campus interviewing geology seniors and graduate students for possible employment.

Pointing out that the up-to-date attitude on oil is one of increasing conservation and utilization, Bell called for more thorough grounding of geology students in the related natural sciences of physics and chemistry, and in mathematics.

"The actual practice of geology by an oil company is based on a firm foundation of all the natural sciences," he emphasized. "Only applicants who have this foundation will be prepared to participate in the development of the increasingly complex technological improvements that will achieve this major aim of conservation and better utilization."

Bell interviewed approximately 50 university seniors and graduate students, nearly all of who were returned veterans.

As to opportunities for employment by petroleum companies, Bell said he believed the situation is back to normal, even though service returnees resuming their old jobs have filled most of the immediate openings.

**Governor's Wit Puts Convention Into Stitches**

AUSTIN, Tex. (UP) — Gov. Cole R. Stevenson long has been noted for his witty statements, and he put his hearers in stitches when he spoke at a breakfast given by Texas Postmasters honoring Postmaster General Robert Hannegan.

There had been considerable discussion of the Hatch Act which limits political activity of federal employees.

"Apparently you are not in politics and I am not in politics," so we might as well have a good time," said the Governor.

Aside from business discussion and other activities the Texas postmasters took occasion to pay a tribute to their former president and veteran secretary—Fred Massengill of Terrell.

At an association banquet Massengill was given a watch and a wristband. A resolution was passed praising his services.

And the Postmaster General was the first to congratulate Massengill.

Acting under this impulse we register for new cars or an extra tire far in advance of the time we expect to get them. **YEARS** ago, Hot Cross Buns were served only on Good Friday. But in recent times, they have been featured as a daily Lenten special.

**Hot Cross Buns**  
(Made from refrigerator dough)  
(4 to 5 dozen buns)

Two cups milk, 1/2 cup honey or corn syrup, 1/2 cup raisins, 1/2 cup fortified margarine, 1 cake compressed yeast, 1 egg, well-beaten, approximately 7 cups sifted flour, 2 teaspoons salt.

Measure into a saucepan the milk, honey, raisins, and margarine. Heat slowly to boiling; remove from heat. Cool to lukewarm; crumble compressed yeast and add. When yeast pops to surface, stir and add 3 cups of flour, salt, and egg. Beat until batter is smooth. Gradually stir in remaining flour to make soft but not sticky dough. In using new 80% extraction flour, follow same procedure, experimenting to see whether or not you need a little less flour to get right consistency.

Turn out on floured board and knead until dough is softly elastic, adding flour as needed for handling (but no more than necessary). Use margarine to grease a bowl well and to grease the top of the dough after it is placed in the bowl. Cover with cloth; set in warm (not hot) place to rise to almost double its bulk.

When risen, cut down with a knife to permit some of gas to

**BREAKFAST:** Orange juice, scrambled eggs, Hot Cross Buns, butter or fortified margarine, coffee, milk.

**LUNCHEON:** Split pea soup with croutons, salted crackers, mixed cooked and raw vegetable salad, boiled dressing, oatmeal cookies, tea, milk.

**DINNER:** Cheese soufflé with tomato sauce, parsleyed boiled new potatoes, quick-frozen green beans, hard rolls, butter or fortified margarine, steamed marmalade pudding, lemon sauce, coffee, milk.

escape. Give the dough a few turns to re-shape into a ball. Store in the greased bowl; grease top of dough well. Cover bowl tightly. Store in refrigerator, removing portions of dough when needed. Shape into rolls; grease each well with a little additional margarine. Arrange in greased baking pan. Set to rise in warm (never hot) place to twice its bulk.

Just before baking, cut a cross in top of each. Brush with an egg or a little more margarine. Bake in quick oven (375 degrees F.) 30 to 40 minutes (depending upon number baked at one time). Remove from pan. Cool slightly. Mark cross with a water icing; 4 to 6 tablespoons confectioners' sugar, thinned with water to a paste.

Combine ingredients. Cook over very low heat. Stir until thickened—about 7 minutes. Cool. This sauce brings out the delicate flavor

**BREAKFAST:** Tomato and grapefruit juice, ready-to-eat cereal, fried link sausages, corn bread, butter or fortified margarine, coffee, milk.

of the fruit salad it dresses, and it is also excellent as a dressing sauce on deep dish pies, puddings, turnovers, and cottage pudding.

**Lemon Juice with Poached Eggs**

Squeeze the juice of half a lemon into the water in which eggs are to be poached. Lemon juice will help to prevent egg whites from separating and floating.

**Lemon Juice in Rice Water**

For snowy white rice, add 2 tablespoons of lemon juice to each quart of water.
