They Plan For Mexican Baseball League

Here's the scene in the dugout at the Mexico City baseball park as the local team takes its turn at bat. The gold-plated Pasquel brothers, who operate the league, have lured several American players south of the border but some of the stars, notably Vern Stephens of the St. Louis Browns and Mickey Owen of the Brooklyn Dodgers, have made a return trip to U. S. Baseball. (NEA Photo).

\$400 Pay Increase Ditched; Committee Suggest New Plan

DOCTOR WORKS MIRACLE WITH HELPLESS VET

ATLANTIC CITY, N. J. (UP) — Wounded soldiers who a year ago were doomed to spend the rest of their lives helpless in bed today are walking, driving cars, and propelling wheelchairs at the Army's Thomas M. England General Hospital.

WORLD'S FAIR BUILDING TO BE USED BY UN

NEW YORK (UP) — The City of New York turned over to the United Nations today the site of the 1939 World's Fair in the Flushing meadows of Long Island for use as interim headquarters of the organization's general assembly.

55 Boys Out For First Spring Football Workout

Spring football practice got under way in Ranger Wednesday and both Coach Jimmie Marshall and Coach R. E. Warren were very enthusiastic over the prospects for the 1946 team.

MORE FARMERS PUTTING IN FISHING PONDS

AUBURN, Ala. (UP) — Fish farming is growing more and more popular in Alabama and it's giving a new slant to the fisherman's tale.

DESIGNED TO MAKE CAREER ARMY SERVICE ATTRACTIVE

WASHINGTON (UP) — A House military affairs subcommittee today ditched its previous proposal for a flat \$400 annual pay raise for officers and men in the armed forces.

CHINESE ATTEND POLICE COURSE AT U. S. COLLEGE

By Lois Jean Mhyre United Press Staff Correspondent FULLMAN, Wash. (UP) — Some of the best international co-operation ever to be achieved is being carried out between China and Japan, England, France, Germany, Russia and the U. S. in the field of police science.

expert in police organization and administration and another expert in police communications and engineering for the central police academy in Chungking. The men are needed to assist in the re-training program. The Chinese government will pay their expenses to and from China and their living expenses during their six months' stay in the country, in addition to a substantial fee for their services.

Workers On Concert Series Are To Meet

Workers for the Community Concerts Series Membership Drive will meet at the Community Clubhouse in Eastland Monday night at 8:00 o'clock for an ice cream supper. At this time instructions and material for the drive will be distributed.

Dr. Jackson Made Head Of Rotary Club

At the regular meeting of the Rotary Club held Wednesday at noon at the Gholson Hotel, Dr. C. L. Jackson was elected president and R. A. Tunnell was named vice president.

Easter Program To Be Presented Sunday At 3.30

Ranger public schools will present the annual Easter program at 3:30 o'clock Sunday afternoon at the Recreation building.

Today's Traffic Tip

There's wet blood behind those dry statistics! An accident doesn't always happen to the other fellow, so remember what safe driving means to you. Carelessness may wreck your safety—or a family. — National Safety Council.

Cupid Gets The Drop Often On Women Finest

NEW YORK (UP) — Everybody loves the policeman—or maybe somebody loves every policeman.

Another Benefit Dance To Be At Elks Club Tonite

Another benefit dance will be given by the Elks Lodge this evening beginning at 9:30 o'clock and it is believed that the \$2,175 quota assessed the lodge for the crippled children's hospital will be reached tonight.

Say Communists Troops Pouring Into Manchuria

CHUNGKING (UP) — Government quarters charged today that "tens of thousands" of Communist troops are streaming into Manchuria and efforts to break the National-Communist deadlock over Manchuria again failed.

Pleads Innocent To Arson Charge

BOSTON (UP) — Wilfred Henry Baetz, 35, of Boston, a self-styled radio script writer, pleaded innocent today to an arson charge when arraigned in municipal court in connection with one of three incendiary fires that took eight lives in the Back Bay district.

Linda's Beauty Shop Team Wins Bowling Contest

Linda's Beauty Shop Bowling team walked off with the honors in the first of a series of contests staged by women bowlers at A. C.'s Bowlines Wednesday night.

County Singers To Meet Sunday At Ranger Church

A. E. LeClaire, president of the Eastland County Singers association, announced today that a singing convention will be held at the First Christian Church in Ranger Sunday afternoon beginning at 1:00 o'clock.

Seismographs Register Another Big Earthquake

WELTON, Mass. (UP) — An earthquake as strong as the one one April 1 off the Aleutians that resulted in disastrous tidal waves was reported today by the Weston College Seismological station.

Seismographs Register Another Big Earthquake

Consumption of nitrogen fertilizers jumped from a prewar average of about 300,000 tons annually in the U. S. to about 626,000 tons a year in 1942-45.

LANGUAGE AND MEANING

One of the fundamental difficulties in the troubled sphere of international relations is, of course, the lack of a common interpretation of the same words by different nations and governments. It is, perhaps, even more troublesome than is the lack of a common language.

The example of this difficulty that comes most readily to mind is the varying conceptions of the word "democracy." The American and British definition is best and most famously expressed in the last sentence of Lincoln's Gettysburg Address. To the Russians, however, "democracy" is government of, by, and for the party—with secret police, controlled press, one-party elections, and so on.

But there are other differences. Take, for example, the matter of "equality among nations." From the evidence at hand it would seem that among the great powers America and Britain, in particular, construe the phrase to mean that small nations have a right to be heard, to resent, being pushed around, to choose their own form of government in free elections, and, having chosen that form of government, to be granted equality of sovereign standing among the United Nations.

It would also seem from recent evidence that Russia considers "equality among nations" to mean an equally free hand among the powerful nations to do about as they please.

At least, "equality among nations" has been invoked in unofficial complaints from Moscow in protest against the fact that, in effect, Britain maintains armed forces in the Near, Middle, and Far East and the United States keeps troops in China, Iceland, and elsewhere yet Russia is not considered justified in doing the same thing in Iran.

Perhaps the western democracies have not lived up to the letter or spirit of their ideal of equality among nations. Surely, the world will be a happier and more peaceful place when all foreign troops are withdrawn from every country.

Meanwhile, it can be pointed out that, in some instances American and British forces are present on foreign soil at the request of that foreign nation's duly constituted and recognized government's protest of their presence to the United Nations.

But protests and excuses can lead to no solution in an international organization without real legal power, and thanks to weakening compromises, without any real strength to act against the Big Five.

Lacking legal teeth, the United Nations can depend only on good will for its good work. And good will seems to be an awfully scarce commodity in the international market these days.

WASHINGTON COLUMN

WALTER EDSON

NEA Washington Correspondent

WASHINGTON, D. C.—(NEA)—A big puzzle for Sam Rayburn, Speaker of the House, is whom to designate for the atomic bomb test junket. The Navy has reserved space for 60 Senators and Congressmen on the task force going to Bikini. The party will be gone two months.

If Rayburn names loyal and deserving Democrats, he will weaken his working majority. On the other hand, if he could appoint some of the Democrats who are blocking the administration program, it would help him considerably in the period when Congress will be trying to clean up unfinished business in order to get home for a summer of campaigning.

High-ranking Army officers are becoming more and more outspoken on the subject of unification of the armed services. They now say flatly that unification means virtual abolition of the Navy. Their argument is that there is no longer any need for a Navy. The German, Japanese and Italian navies have been destroyed. Russia never had a navy. The French navy is terribly weak, and the British navy is being cut down even more than is the U. S. Navy by demobilization. Therefore, who is there to fight at sea?

THE U. S. intelligence services are frankly stymied as to what is going on in large areas of China and Manchuria. Lack of transportation and communication facilities makes it impossible to get observers in or get their reports back out. There are areas bigger than Pennsylvania that have no railroads, no telephones or telegraph, and practically no automobiles.

Plenty of surplus airplanes are sitting around China, but there are no crews to fly them and to maintain them. Reports of Japanese "booty" lifted out of Manchuria by the Russians are now numerous, but fragmentary. None of them has yet touched on the two biggest industries in Mukden—the railroad shops which built everything from rails to locomotives, and the Jap arsenal, biggest in the world, which made everything up to 14-inch naval guns. Incidentally, both of these plants were wartime targets for China-based B-29 bombers.

AN examination of any good map of the Middle East, with concentration on the frontier between Russia and Iran, will show the reasons why the Soviet government is so interested in Iran's five northern provinces.

These states border on the Caspian Sea to the north, while their southern boundary is the crest of a range of mountains. Considered in the light of the known Soviet aim to make Russian boundaries secure against invasion, this mountain range assumes importance as a natural geographic frontier. Acquisition of northern Iran would close off the Caspian Sea, too, making it an all-Russian lake instead of an international body of water.

VICTORY SCHOLARSHIPS

ALBERT N. Y. RUPP—A third year scholarship, to become available in the fall of 1946, will be awarded to a high school graduate who has served in the armed forces during World War II. It has been established by the American Legion and the American Veterans of Foreign Wars in New York and Potter counties in Pennsylvania. John F. Herwick of Olean, Pa., is the administrator.

News Of An Old Friend

SPORTS

BY HARRY GRAYSON
NEA Sports Editor

ST. PETERSBURG, Fla.—(NEA)—Editors clamor for more fishing and boating stuff on sports pages. What they need is outdoor writers with imagination, like Rube Allyn of St. Petersburg. A perfect head for the column written by Allyn, a reformed linotype operator, would be "Hook, Lure, and Sink."

Allyn makes the constituents' hair stand on end, and he keeps it in that position. Here are excerpts from his more recent gems: "The shark looked us over, first out of one eye, then the other, opened the biggest mouth I've ever seen, displayed the most teeth I've ever looked at, took a bite of the bait."

"The Negro was turning white. I was turning blue, but he swung the mighty 25-pound sledge hammer. The stroke was off center. It was a sickening sound to hear the sledge crash through the stern of the boat instead of the shark's head. And just below the waterline. He knocked out a whole plank with that swipe."

"I exactly tied the line to a station. The shark was towing us but to pass. The boat steadily filled with water, but the shark gave us a break. He returned to take another bite out of the boat, and we got the line loose on that snapper."

"Somehow we got the engine started, water flying everywhere from the revolving couplings. We made for the beach, got there just as the stern settled."

ANOTHER "The lead whale attacked the boat, thrashing the occupants with his great broad tail, killing one man outright, wounding the other. The engine, still running took the boat ashore."

Round 3: "The tarpon rose to the surface with such a rush that it splashed the stern into the water."

Planting 5 Acres Of Rice In 2 Minutes

Rice planters in the Beaumont, Texas, area watched this plane plant 800 pounds of rice over 5 acres in 2 minutes. Pilot K. W. Shane piloted the plane over the flooded rice farm of the Dishman brothers near Amelia, Texas. The average tractor and drill does this job in five hours. Observers believed this test may presage rice sowing from planes throughout the rice belt totaling several hundred thousand acres. (NEA Photo).

over," Dr. Porter explained, "the oldest plant in the Rocky Mountain Herbarium was collected more than 100 years ago. It was a European specimen obtained in exchange with Harvard University.

Much of the ground work for the fine herbarium of today was conducted by the curator emeritus, Dr. Aven Nelson, who headed, in 1899 a party of plant researchers and collectors in Yellowstone Park—gathering the first and biggest collection of Rocky Mountain flora.

During the past few years, the Porter family has constituted the entire summer research group. Mrs. Porter, who has an M.A. degree in botany, and their two high school-age sons, are very capable assistants, too. Dr. Porter reports.

Navy Cuts Red Tape In Sales To Veterans

PHILADELPHIA (UP) — A "cash and carry" store is open for business at the Philadelphia Naval base in an experiment to offer servicemen a swift, red-tapeless method of purchasing small Navy salvage items.

The store was opened by the Philadelphia veterans' preference section of the Reconstruction Finance Corp., as the result of thousands of requests from veterans for tools and materials needed to start garages, plumbing shops, restaurants or house repairs.

Among the items for sale are galley pots, cots, laundry presses, galoshes, leather flying jackets, towels, silverware, searchlights, sheets and pillow cases.

JAP LUGGERS FOR SALE

NEW ORLEANS (UP) — Two from the Yokohama, Fuji and Tokyo from which they are named, three Japanese fishing luggers are being sold here by Uncle Sam.

The boats belonged to Japanese fishermen, now deported to their native country as undesirable aliens. No one knows whether the boats actually were used for fishing, or whether they served as a submarine "tipster service" at the start of the war.

But they're for sale now.

URGE WATCHFUL WAITING

LINCOLN, Neb. (UP) — Nebraska county agriculture agents are advising a "watchful waiting program" for farmers who want to improve or build their homes.

Materials, they agree, probably will be scarce this year as last. Farmers should plan carefully now for improvements they can make later at substantially lower cost, they said.

POSSUM STAYS TO DINNER
PASADENA, Cal. (UP)—Sunday dinner walked into Carson G. Bell's backyard recently when an

eight-pound opossum came in to sample the grape vines.
Bell rounded up sweet potatoes and called in Van Williams, famed Negro chef, and invited friends to the feast.
The possum was presumably a descendant of some brought to California in 1900 by Tennesseans who wanted their favorite eating imported.

Weasels are found throughout the United States.

NAVY MEN URGE USE OF SURPLUSES ON GUAM IN BUILDING UP BASES

(Third in a series on the care and disposal of vast stores of war materials gathered at Pacific bases for the invasion of Japan.)

By DON DILLON
United Press Staff Correspondent
GUAM (UP)—America's armed forces had no sooner whipped Japan than they began planning how to defend the United States against any future attack from the Pacific-Asia area. This island of Guam, already piled high with war materials left over from the Japanese struggle, is to be the center of a new defense line 4,500 miles west of the prewar Aleutian-Hawaii-Panama line.

How the new defense will shape up, and how soon, depends on Congress and the armed force planners in Washington. By the way U. S. Navy supply experts on the scene look at it, taxpayers can save 90 cents each on many millions of dollars if the Navy is permitted to start immediately and work continuously on making Guam a powerful base. As a "new Pearl Harbor," Guam is to be chiefly a Naval station, but Army men also are anxious to get started on Guam, Saipan and Tinian, the main islands in the Marianas.

The stuff is here and ready for

use if Washington gives the go-ahead. Guam is piled high with bulldozers, cranes, trucks, rock-crushers, cement, steel and thousands of other items usable for the job. Almost all the material came here for the Japanese invasion, before the atomic bomb. However, much more labor would be needed than is available here.

Naval supply and construction men think they can save a lot of money by using the supplies here before they and the tropical elements reduce their value. They figure it this way:

A single shipload of 5,000 tons of material originally cost about \$1,000,000. The load might bring \$250,000—one fourth of its net cost—if shipped home and sold. It would cost an estimated \$150,000 to transport each shipload. That would net \$100,000 return or 10 per cent of the original investment.

"Why send this stuff home for 10 cents on the dollar," asked one veteran Naval supply officer, "and then have to buy new equipment of the same kind again a few years from now to build a base?" There is a lot of junk out here too—wrecked tanks and airplanes and worn-out machinery. Army

officers showed touring correspondents one of the five junk heaps on Guam—four acres of twisted, rusting scrap. Government men hope eventually to find a market for it, but say present prices would not even pay for hauling it to Detroit or Pittsburgh.

Some stuff stored here is in a middle category—in good condition but sure to spoil unless it is consumed quickly. An example is 12,000,000 bottles and tins of 3.2 beer for which there is no refrigeration and meager shelter. Heat and light will ruin it in a few months in this climate. The Army explains there are no customers or shipping-space in sight to get rid of it. Had the war continued as anticipated until the summer of 1946, the armed forces would have consumed all this beer and more.

Some enlisted men feel bitter about the huge surpluses out here. Other like Cpl. Paul Williams of Detroit, who said: "Thank God we do have these surpluses. If we'd had to invade Japan, none of this stuff would have been left over. The only surplus we would have had would be the graves of heroes."

150TH BIRTHDAY TO BE MARKED BY TENNESSEE

NASHVILLE, Tenn. (UP)—Tennessee—"pioneer in centennial expositions"—is planning her sequential anniversary celebration this year. But officials admit the 1946 celebration will not begin to compare with the lavish exposition of 1897.

Observance of the state's 150th anniversary lies mostly in the hands of her school children and is a strictly non-commercial affair. Approximately 5,000 will depict the history of Tennessee in a pageant which the children chose to call "Tennessee Through the Years."

President Truman and Cordell Hull, former Secretary of State, have already accepted invitations to attend. The program of events, designed by the children, is to be dedicated to Hull—"greatest living Tennessean."

Other features include the unveiling of markers for various historical spots in the state and the presentation of the Cordell Hull award to the county which prepares the best county history.

Tennessee has the distinction of being the first state to celebrate her entrance into the United States with a centennial exposition, and at that time, she was a Southern state with secession just a generation or so past.

The ideal for the exposition was born during a period of economic panic, a Presidential election and the beginning of the electric age. The exposition was formally opened on May 1, 1887, when President McKinley gave the signal from the White House by pushing

RESEARCHERS STUDY MUD AS GUIDE TO OIL

BATON ROUGE, La. (UP)—Louisiana State University petroleum engineers have been playing around in the mud for 10 years and no one—not even their wives—object.

It's because their mud research has saved many thousands of dollars, and may lead to the discovery of new oil fields yet unknown.

Louisiana always ranks among the top five oil-producing states in the nation. But Louisiana, unfortunately, also has the deepest oil sand in the world.

That's what led to the mud studies which began a decade ago. Petroleum engineers figured that if they studied the chemical reactions of oil to mud, they might be able to tell from a mud analysis the possibilities of a proposed well site.

Then, too, drillers long have used mud as a lubricant and flushing agent. And sometimes it fails. Sometimes the lubricating qualities just aren't there.

That's what the LSU engineers are studying. They are analyzing mud to determine its qualities as a lubricant, and to determine if signs of oil show.

The petroleum men hope that some day they won't have to drill for oil and hope it's there. They hope that they will be able to analyze the mud, and decide whether or not to drill.

The Los Angeles chamber of commerce estimates that 2,500 different products are manufactured in Los Angeles county.

Wyoming bond sales from 1941 through 1945 totaled \$245,991,886.

Killingworth's

a button. More than 1,786,714 visitors from all over the world came to it before it was closed by President McKinley on Oct. 30.

The exposition was first scheduled for 1896, the actual 100th year of Tennessee's statehood, but also the year of the Bryan-McKinley Presidential race. The exposition management decided they would be faced with financial ruin if they attempted the project while interest was centered on the outcome of the race, and it was postponed until 1897.

The exposition featured a midway with all sorts of attractions, a woman's building filled with latest books and inventions by women, a children's building known as the "little gem," an education building which catered to the trend of the wonders of science, a Negro building showing the progress of the Negro from plantation days and numerous others. Fide of the exposition was the Parthenon, only exact replica of the original Greek structure existing today.

Every day was a "special day" at the exposition and various persons, groups and states were honored. And memories of the famed centennial are special for Tennesseans—for it really was the "Wonder of the Gay Nineties."

FRESH strawberries—or strawberry and rhubarb pie—for Easter dinner. These are two traditional favorites.

And here's a new one that'semony and delicate.

Jelly Roll-A-Round (Serves 10-12)

Jelly Roll (Homemade): Four eggs, 1/4 cup sugar, 1/4 cup flour, 1/2 teaspoon baking powder, 1/4 teaspoon salt, 1 teaspoon vanilla, 1 cup currant, grape, raspberry, loganberry, blackberry, or elderberry jelly.

Place eggs in a bowl and set it over hot water in the bottom of the double boiler. Beat eggs until thick and lemon colored, adding sugar gradually. Remove bowl from hot water.

Sift remaining dry ingredients together and fold into egg mixture. Add vanilla.

Line a greased pan (about 8" x 12" x 1") with greased paper and turn jelly roll batter into it. Bake at 400 degrees F. for 10 minutes.

Turn onto cloth dusted with powdered sugar, trim crisp edges, spread with jelly and roll up. Let stand for 2 hours before using in jelly roll-a-round.

Lemon Cream Filling: One jelly roll, 2 tablespoons gelatin, 1/2 cup cold water, 1 1/2 cups evaporated milk, 4 eggs, 1 cup sugar, 1/2 cup lemon juice, grated rind of 1 lemon, 1/2 cup orange juice, 1/2 cup sliced jelly roll in 1/2-inch slices

(In Accord With F&C Program)

BREAKFAST: Stewed prunes, cornflakes, hot cross buns, coffee, milk.

LUNCHEON: Creamed eggs and chives on 80% toast, broiled tomato halves, oatmeal cookies, tea, milk.

DINNER: Tomato juice, codfish, family style (with hard-cooked eggs and potatoes), green beans, corn bread, butter or fortified margarine, green salad, stewed rhubarb, sweet crackers, coffee, milk.

and place around the sides of a spring form pan or an angel food cake pan. Soak gelatin in water. Scald milk.

Beat egg yolks, salt, and 1/4 cup of sugar together. Add milk mixture, then return to stove and cook, stirring constantly, until mixture coats the spoon.

Add gelatin and stir until dissolved. Add fruit juices and lemon rind. Place in refrigerator.

Beat egg whites slightly, add sugar gradually, and continue beating until stiff. Fold into thickened custard mixture.

Pour half of the custard filling into the mold, then place a layer of jelly roll slices over it. Add rest of custard, chill, and unmold. Garnish with whipped cream topped with bits of jelly.

NEA Staff Writer

EASTER without lots of eggs would be like Christmas without Santa Claus. Here are two specialties which combine yellow and golden citrus fruits with the fresh protein of spring eggs.

Lemon Easter Eggs

Four hard-cooked Easter eggs, 4 teaspoons lemon juice, 1/2 teaspoon garlic salt, 1/2 teaspoon salt, 1/4 teaspoon celery seed or 1 tablespoon finely-chopped celery, 1 1/2 teaspoons prepared mustard, 2 teaspoons chopped parsley, 1 teaspoon clove-pimento or green olive.

Crack and remove shell from hard-cooked eggs. Slice eggs in half and place yolks in mixing bowl. Blend yolks with ingredients into smooth paste. Fill center of whites with mixture. Garnish with tiny lemon wedges.

Use these lemon Easter eggs as a dinner appetizer.

For a crunchy snack, use them to stuff celery. Simply blend yolks as suggested in recipe and chop whites of hard-cooked eggs. Mix well and mound in hollow of crisp, well-chilled celery stalks.

Or use them for a hot dish by putting them, in a casserole and pouring a white or curry sauce over. Heat in moderate oven (350 degrees F.) for 20 minutes.

California Easter Breakfast Omelet
Three eggs, 1/2 teaspoon salt, 1 teaspoon lemon juice, 1/2 tablespoon butter, 2 tablespoons powdered sugar, 2 1/2 tablespoons orange juice, 2 oranges.

(In Accord With F&C Program)

BREAKFAST: Grapefruit juice, California Easter breakfast omelet, 80% bread, toasted, butter or fortified margarine, coffee, milk.

LUNCHEON: Lemon Easter eggs in casserole, rye bread, butter or fortified margarine, stewed rhubarb, oatmeal cookies, tea, milk.

DINNER: Tomato bouillon, soya crackers, ham steak with mustard cream gravy, new potatoes, buttered cauliflower greens, scalloons and radishes, Apple Brown Betty, cream, coffee, milk.

Remove skin from firm navel oranges and cut in sections. Fold in about a third of the orange sections, well sprinkled with powdered sugar.

Heat omelet pan, and butter sides and bottom. Turn in mixture, spread evenly. Cook slowly. Garnish omelet with remaining orange sections.

Heat whites until stiff, cutting and folding them into first mixture.

DELICATE flavor, novelty, and eye appeal are what the Easter dinner dessert needs. From "Thoughts For Food" come these two delicious suggestions.

Pineapple Mousse

One cup sugar, 1/4 cup water, 6 egg yolks, 1/2 teaspoon salt, 2 tablespoons lemon juice, 2 cups crushed pineapple, 1 pint whipping cream.

Cook sugar and water 5 minutes. Add gradually to beaten egg yolks, salt, and lemon juice and cook in double boiler until creamy. Cool; add pineapple and whipped cream, and pour into a mold.

Pack in ice and salt for about 4 hours.

Sherry Almond Cream

One tablespoon gelatin, 1/4 cup cold water, 1 cup boiling water, 1 1/2 cups sugar, 6 egg whites, 1/2 teaspoon almond extract, 1/2 cup sherry or sherry flavoring, 1 cup blanched, chopped almonds.

Soak gelatin in cold water; add boiling water and sugar, and stir until dissolved. Chill the mixture until it begins to stiffen, then beat until frothy.

Beat the egg whites stiff and add to the beaten gelatin mixture; beat again until completely blended. Add the almond extract and the sherry or sherry flavoring.

Pour into a mold, alternating layers of the mixture and of the chopped almonds. Chill in refrigerator for 2 hours.

Serve with sherry custard sauce.

(In Accord With F&C Program)

BREAKFAST: Orange juice, scrambled eggs, breakfast sausages, corn bread, apple jelly, butter or fortified margarine, coffee, milk.

EASTER DINNER: Grapefruit and avocado cup, baked ham, beasted with gingerale, sliced orange garnish, mashed sweet potatoes, fresh asparagus, with drawn butter, oatmeal bread, butter or fortified margarine, scalloons and radishes, pineapple mousse, coffee, milk.

EASTER SUPPER PARTY: Sliced cold ham, creamed potatoes with grated cheese, buckwheat muffins, butter or fortified margarine, jelly, spring salad, open-face strawberry and rhubarb pie, tea, milk.

Sherry Custard Sauce
One pint milk, 6 egg yolks, 1/4 cup sugar, 1/2 teaspoon salt, 1/2 teaspoon vanilla, 1/2 pint whipping cream, 3 tablespoons sherry or sherry flavoring.

Scald milk in double boiler. Beat the egg yolks lightly and add the sugar and salt.

Pour milk slowly into the egg mixture, then return to the double boiler and cook until the mixture is at a spoon.

When cool, add the vanilla, whipped cream, and sherry or sherry flavoring.

FISH and sea food recipes that require a minimum of oil or fat fit perfectly into the Holy Week requirements of many readers. Also, they are in accordance with the Famine Emergency Committee program.

Oysters en Brochette (Serves 4-6)

One pint (about 3 dozen) Blue-point oysters, 1/2 cup chili sauce, 1 1/2 teaspoons horseradish, 1 tablespoon lemon juice, 1/4 teaspoon Worcestershire sauce, 1 drop tabasco, 1/2 teaspoon salt, 1/2 pound (15) fresh mushrooms, halved, or 30 canned button mushrooms.

Drain oysters. Combine chili sauce, horseradish, lemon juice, Worcestershire sauce, tabasco, and salt. Dip oysters in chili sauce mixture.

Place oysters and mushrooms alternately on skewers. Season with additional salt and pepper and cover with remaining sauce.

Broil about 3 minutes; then turn and broil 3 minutes longer, or until mushrooms are tender.

(Note: If desired, cut 7 slices of bacon in quarters and alternate with oysters and mushrooms on skewers.)

Fish Hash in Green Pepper Cups (Serves 4-6)
One package (1/2 pound) frozen fish fillets, 2 tablespoons minced onion, 2 tablespoons fat, 1 1/2 cups chopped, cooked potatoes, 2 table-

(In Accord With F&C Program)

BREAKFAST: Grapefruit juice, oatmeal, 80% fortified toast, butter or fortified margarine, coffee, milk.

LUNCHEON: Meatless vegetable soup, tuna fish salad, sliced tomatoes, oat bread, butter or fortified margarine, canned fruit, tea, milk.

DINNER: Tomato juice, fish hash in green pepper cups, corn bread, butter or fortified margarine, bowl of mixed spring greens, sliced scalloons, radishes and tomatoes, tart boiled dressing, fruit bowl, nut cookies, coffee, milk.

spoons chopped parsley, 1 1/2 teaspoons salt, 1/2 teaspoon pepper, 1/4 teaspoon Worcestershire sauce, 3 large or 4 medium green peppers, cut in halves and parboiled.

Cook fillets (frozen or thawed) gently in small amount of boiling salted water 10 minutes. Drain and flake. Brown onion in fat. Add potatoes, parsley, seasonings, and flaked fish.

Fill green pepper halves with mixture. Place in greased baking dish and add water to depth of 1/4 inch.

Bake in moderate oven (350 degrees F.) 30 minutes. Serve with an egg sauce.

Scientist 29 Uncovered Nazi Chemical Secret

CHAMPAIGN, Ill. (UP)—Closely guarded secrets of German chemists will be placed in the hands of American scientists soon, due to the efforts of a youthful University of Illinois research worker.

He is Nelson J. Leonard, former Rhodes scholar and member of the U. of I. staff since 1942. Although only 29 years old, he was called to Europe last October as scientific consultant for the Technical Industrial Intelligence Branch of the Allied Military Government.

During an investigation of German chemical research and processes, he led a staff of 25 persons, who studied 20,000 documents. The more important papers were microfilmed.

Leonard said more than 100,000 pages of scientific papers were microfilmed, indexed, and then brought to this country for reproduction. The material will be made available to universities and industries as soon as copies are processed.

RADIO SETS RETURNED

SPOKANE, Wash., (UP)—The U. S. Marshal's office has returned to rightful owners about 75 per cent of the radio sets, firearms and other items taken from Japanese, Germans and Italians early in the war.

The remaining 25 per cent are awaiting claimants. About 90 per cent of the items were surrendered voluntarily and the remainder was seized by government officials.

The military reservation, Fort D. A. Russell (now Fort Francis E. Warren, Wyoming), formally received its name on Sept. 8, 1867.

Rebekah Lodge Meetings Held

The members of the Ranger Rebekah Lodge No. 244 have had several interesting meetings lately.

On Saturday evening a call meeting was held for the purpose of train practice and at that time Mrs. M. S. Harper and Mrs. S. B. Smith were elected to the order.

On Monday evening the members met for a visit with the Brownwood Rebekah Lodge No. 102. The manager team consisted of Mrs. James A. Craig and Mrs. James A. Craig. The hall was decorated with various bouquets and the alters, refreshments of ice cream and cookies were served to about 20 members of the Brownwood lodge and the following from Ranger: Misses Louise Lee, Laura Lou, Lonie Caldwell, Lena McDonough, Ellen Jones, Ruby Greer, Martha Weaver, Edith Hickens, Freda Rainwater, Josephine Rogers, Mildred Hickens, Anna Mae Robinson, Eva Stallings, Colie Hall, Eula Blackwell, Mattie Cox, Bertie Shipman, Oleta Kelly, Ruth Moore, a n d Messrs. J. A. Robinson, C. M. Parnell and A. H. Blackwell.

The regular meeting was held Tuesday evening at 8:00 o'clock in the I.O.O.F. hall with Noble Grand, Freda Rainwater presiding. Routine business was transacted and Mrs. Hardwick of Eastland was elected to membership. Mrs. Laura Smith who had been in waiting, was introduced and signed the member's Register.

Plans were made for raising the money to purchase robes for the degree team. Mr. A. H. Williams will be initiated into the order at the next meeting.

Interesting talks were made for the good of the order and the penny prize, which was furnished by Cora Arrendale, was won by Lena McDonough. Cake and ice cream was served to the 41 members present after the meeting closed.

PERSONALS

Mr. and Mrs. J. B. Rayfield, Jr., have returned to their home in Marshall after spending the past week with their parents, Mr. and Mrs. J. E. Rayfield, of Ranger and Mr. and Mrs. B. A. Jeter of Gorman.

Homer Smith of Eastland transacted business in Ranger today.

Reception Given For Bride, Groom

Mr. and Mrs. F. P. Brashier entertained at their home Saturday evening from 8:00 to 10:00 o'clock with a reception honoring the bride and groom. Mr. and Mrs. F. P. Brashier, Jr.

Receiving the guests with Mr. and Mrs. Brashier and the bride and groom were Mrs. A. G. Hudgins, mother of the bride, and Mrs. Don Hudgins, both of Wharton. Members of the house party were Mrs. Hal Hunter, Mrs. F. S. Pear-sall, Mrs. Harry Wallace, Mrs. A. N. Larson, Mrs. W. M. Brown, Mrs. Joe B. Scott, Mrs. Twymann Hale, Mrs. Eugene Kelly, Mrs. Colonel Brashier and Mrs. Hugh Smith. All wore corsages of white carnations.

In the dining room the tea table was laid with an Italian cut-work cloth and at one end was an arrangement of pink and white carnations with a silver mounted reflector. Two branch crystal candelabra held white candles which lighted the table. At the opposite end of the table was the cutglass punch bowl. The color scheme was further carried out in the pink and white mints in cutglass compotes, and in the individually iced white cakes topped with a pink rose bud. An iced orchid from the top of the wedding cake which was served at the reception following the recent wedding of the Brashiers was used in the center of the cake.

Pink and white snapdragons decorated the buffet and pink roses were used on the piano. Miss Lida Jane Smith played piano numbers during the evening, and about 100 guests called during the reception.

Colored School Pupils Give Program

Mrs. Graves and her pupils from the colored schools entertained the Young School Parent Teacher Association Tuesday afternoon at 3:30 in the school auditorium. The program was very entertaining and enjoyed by all.

Mrs. Leslie Hagaman gave a very inspiring talk on "Let's Get Rid of Prejudice."

Mrs. M. L. Gray presided over a short business meeting. It was decided to have the last meeting and installation of officers April 23. Twenty-four mothers were present for the business meeting. Refreshments were served to the children on the program by Mrs. John Bates, Mrs. A. B. Gilbert and Mrs. Evis Landers.

Hospital News

Mr. and Mrs. L. G. White are the parents of a baby girl, born Wednesday at the West Texas Hospital.

Mrs. Harold Everett of Eastland is a medical patient in the West Texas Hospital.

Mrs. Shirley Brown of Olden is a medical patient in the West Texas Hospital.

FARMS HOLD NEW INTEREST
MONTROSE, Col. (UP) — Harrison Loesch now looks at farming operations with a new interest.

Loesch, who now is an attorney, served in the European theatre of operations as an Army Air Forces captain. One of the things that reminded him most of home was eating food from Colorado. He even ate beans from Olathe, which is just a little over a stone's throw from Montrose.

Population of Wyoming, excluding members of the armed forces serving overseas, in 1945, was estimated at 246,766.

Morton Valley P. T. A. Has Meeting

The Morton Valley Parents and Teachers association met in the school auditorium Tuesday afternoon April 9th at 3:00 o'clock.

Miss Marie Ramsey presented the 1st and 2nd grade pupils in a program and Miss Floye Hart gave an interesting talk on Discipline in the Home. The new officers for the next school term were installed.

Those present for the meeting were: Meses. John Nix, Wilber Tankersley, Francis Cooper, T. L. Wheat, Lewis Crossley, H. C. Pounds, A. F. Beck, Burton Tankersley, H. A. Reynolds, Misses Marie Ramsey, Floye Hart and Rev. and Mrs. Dannelly.

FILIPINO VETS FORM POST
DELANO, Cal. (UP) — More than 50 Filipino veterans of World Wars I and II recently formed the General Vicente Lim Post No. 640 here.

The post was named for a Filipino hero, the late Gen. Vicente Lim, who was believed to be the first Filipino graduated from West Point Military Academy.

STRATAVISION SEEN SOLVING FM PROBLEMS

PITTSBURGH (UP) — "Stratavision" planes, bearing radio waves six miles in the air, soon will bring economically practical television and frequency modulation service for the whole nation.

Engineers have found in Stratavision the answer to transmission problems that had been delaying television and FM expansion by limiting their services to large cities, according to L. S. McLeod, central district manager of the Westinghouse Home Radio Division.

McLeod explained that radio waves which carry television and FM programs travel only in a straight line and are lost at the horizon, making the best ground

station coverage in a radius of 35 to 50 miles.

But line-of-sight coverage is increased as the antenna is raised, McLeod said, and with that elevation (in the wave-bearing Stratavision planes) the number of stations required to serve a given area can be reduced.

Eight Stratavision planes, he said, would form a coast-to-coast high altitude radio relay network. Addition of six more planes would make possible program service for 78 per cent of the nation's population, and by using more planes, 100 per cent coverage would be attained.

First tests have been flown over a fixed course from the Martin Airport near Baltimore, over Wilmington, Del., Philadelphia, and New York City, to New Haven, Conn., and return. The course represents an airline distance of 240 miles from the Baltimore ground station, and enables engineers to pick up FM broadcasts from Philadelphia for re-broadcast.

The system will use all-metal, low-wing monoplane about the size of a B-29, but weighing only one-third as much. Each plane will carry sufficient fuel for 11 hours operation at 50,000 feet in its regular tanks, with reserve fuel for two additional hours of flight.

TO RESTORE RICE VITAMINS
NEW ORLEANS (UP) — A new company to be known as Rice Enrichment, Inc., has been formed to restore lost vitamins to rice.

The firm will manufacture an enriched rice premix to mill rice vitamins and mineral values lost in the processing.

Some 30 southern mills have agreed to use the new product.
