## Ten Most Beautiful Girls At University Of Texas

Here are the 10 most beautiful co-eds at the University of Texas in Austin. This is the opinion of film actor Zachary Scott who chose, from 350 photographs submitted, left to right: Joann Taylor of Ft. Worth, Marilyn Wright of Corpus Christi, Roy Ann Culum of Amarillo, Dorothy Jo Brown of Wichita Falls, Joyce Lorrie Smith of Brownfield, Ruth Slocum of Orange, Carroll Bever of Athens, June Goen of San Augustine, Grace Burtis of Ft. Worth, and Jackie Lissauer of Dallas. (NEA Photo).

# Predicts Price Bill Would Boost Prices 50 Per Cent

## QUARTERBACK CLUB BANQUET TONIGHT AT 8

"Dutch" Myers, Noted Coach, To Be Guest Speaker

Plans were complete at noon Thursday for the banquet tonight (Friday) honoring Eastland High School athletes. Sponsored by the Eastland Quarterback Club, the banquet, a stag affair, will be held on the Connelley Hotel Roof and the program will open at 8:00 o'clock. Tickets sales point to an attendance of 500 or more.

"Dutch" Myers, head coach at Texas Christian University, Fort Worth, will be the principal speaker. Another guest speaker will be Mike Brumlow, assistant coach at T.C.U. Judge V. T. Seabury of Eastland will be master of ceremonies. Also on the program will be Billy Kenney, pianist, and Miss Glenn Castleberry, who will give two vocal numbers accompanied at the piano by Miss Gladden Womack.

Membership in the Quarterback club, organized only a few weeks ago, has reached a total of 140. April 20 is the deadline for charter memberships and those desiring to join the organization as a charter member are urged to make application at once.

The Quarterback club has for its purpose the promotion of athletics in Eastland High school and in the schools of the various communities surrounding Eastland. One of its first projects is the lighting of Maverick Field. Work on this is well underway.

## 31 PERSONS INDICTED IN BLACK MARKET

DETROIT (UP) — The Federal government said today it had smashed the biggest racket in the history of the OPA — A \$3,000,000 black market in which some 5,000 used cars were sold for as much as \$600 above ceiling prices.

Thirty-one persons in Michigan, Kentucky, Illinois and Missouri were named in federal indictments charging they arranged purchase of the cars in Detroit and sold them throughout the southern parts of the country.

Presentation of evidence to the grand jury by Joseph C. Murphy, assistant U. S. district attorney, culminated an eight-months investigation that covered eight states and involved questioning hundreds of persons.

## Elevator Man Outlasts Six State Governors

BOSTON (UP) — Elevator operating may have its ups and downs, but you certainly get to know a lot of Governors, says Richard (Dick) Morrissey.

For the last 20 years Morrissey has operated a lift at the Massachusetts State House, taking as much pride in his work as the pilot of an airplane. During that time six Governors have come and gone, but Morrissey is still on the job.

Morrissey has found every chief executive friendly and democratic, and has enjoyed shuttling them to and from the gubernatorial suite.

His favorite story concerns the present executive Gov. Maurice J. Tobin. After 5:30 p. m. the elevator is self-operating. At 6 o'clock one afternoon Gov. Tobin stepped into the cage, preparing to operate it himself. Suddenly a woman squeezed into the car and said, "Fourth floor, please."

## Warns Labor And Industry At Crossroads

PHILADELPHIA (UP) — Industry and labor should set their own conciliation machinery because government regulation of labor relations will end in "a virtually impassable" road, according to Dr. George W. Taylor, former chairman of the War Labor Board.

Taylor, now a professor at the University of Pennsylvania, made his recommendation in the school's General Magazine and Historical Chronicle.

"We are at a crossroad. One fork of the road leads to the negation of voluntarism in industrial relations, for it goes in the direction of laws inflexible rules and government regulation," Taylor wrote.

"The other fork," Taylor asserted, "leads to the development of voluntary agreements, more labor-management conferences and conscious efforts to make collective bargaining work."

Government control might seem to be the easiest method, Taylor said, "but closer scrutiny reveals the rocks, ruts and detours of that road which make it virtually impassable."

## Marshall Studies Chinese Crisis

CHUNGKING (UP) — Gen. George C. Marshall plunged today into a series of conferences on the Manchurian crisis in a new effort to halt Nationalist-Communist hostilities.

Marshall conferred with his military and diplomatic advisers to obtain the background of developments while he was in the U. S. He consulted with Premier T. V. Soong and Brig. Gen. Francis Brinks, chief of staff of his military advisory group.

Rose growing is a \$3,000,000 annual industry in East Texas.

## Transportation Contributes Big Sums To Schools

AUSTIN, April 19. — The Texas motor transportation industry last year contributed heavily toward the education of Eastland county school children and in the construction and maintenance of the county's highway system, it was revealed today in an analysis of the industry's special tax payments released by Lynn B. Shaw, general manager of Texas Motor Transportation Association.

The 6,423 scholastics in Eastland county benefited to the extent of \$23,122 — \$3.60 for the education of every school child in the county or in excess of 13 per cent of the total education bill.

Trucks and buses paid \$42,616 in special taxes that went toward construction and maintenance of highways in Eastland county. The industry contributed a total of \$39,000,000 in special taxes, a ten million dollar increase over the preceding year, and this figure represents only proceeds from gasoline and license fees paid by more than 280,000 motor trucks and buses, both commercial and private, in Texas. It does not include federal or regular state taxes, such as ad valorem, which are paid by all industries.

## PROPOSES TO SHUT-DOWN OIL WELLS IN TEXAS

AUSTIN, Tex. (UP) — A months shut-down of every oil well in Texas was proposed to the Texas Railroad Commission here today if by June the OPA has not completely eliminated the oil industry from its control.

Glenn H. McCarthy, Houston, chairman of a statewide committee of independent crude oil producers made the proposal to the commission. Until June 1 he asked the commission to continue to grant all the crude production needed to supply the U. S. Navy so long as the amount of oil in storage above ground is not increased.

McCarthy said to be the largest individual discoverer of new oil production, made his request concluding a denunciation of the OPA. The OPA, he said, "either is bogged down with its own problems at Washington, or persists in ignoring the plight of the independent oil producer."

McCarthy said to be the largest individual discoverer of new oil production, made his request concluding a denunciation of the OPA. The OPA, he said, "either is bogged down with its own problems at Washington, or persists in ignoring the plight of the independent oil producer."

## CONTINUATION OF OPA WOULD LIFT CONTROLS

WASHINGTON (UP) — Deputy Price Administrator James G. Rogers today forecast price boosts of 50 per cent in the next 10 months unless "we get proper legislation without the crippling amendments."

But if price control is extended in such a way as to permit OPA to go ahead with its present program, he said, it is possible that 10 months hence farm subsidies and most price controls can be removed without legislation.

Rogers addressed the American Society of Newspaper Editors at its meeting here. He admitted that "there have been some irritations and some inequities" in the administration of price control.

"But," he added, "There have been no inequities like inflation."

Farm senators, meanwhile, rallied around Sen. Elmer Thomas, D., Okla., who proposed an amendment which "would permit OPA to control almost nothing but rents."

The Senate Republican steering committee in closed session discussed the House OPA amendments. Sen. Robert A. Taft, R., O., steering committee chairman, said the Republicans informally reached no conclusions regarding which ones they would support in the Senate.

"We hope to develop a better program which will continue OPA but still prevent the stupid administration that has marked the performance of Chester Bowles," Taft said.

## Democrats Gird For Fight Over Control Of House

WASHINGTON (UP) — Northern New Deal Democrats girded themselves today for a long uphill fight with southern conservatives over control of the party in the House.

They conceded readily that right now the southern bloc is riding high, thanks largely to their smashing victory at the Democratic caucus Tuesday night. But they said the victory may be short lived.

The southerners, however, could see few clouds on their political horizon. They displayed their political power when they forced the party caucus to approve a resolution calling for the appointment of an 11-man "liaison" committee to keep the Democratic national committee from heeding anti-new deal congressmen.

## Says Nations Suppress Press

WASHINGTON (UP) — Wilbur Forrest, assistant editor of the New York Herald Tribune, charged today that many nations are employing direct or "subtle" means to block international freedom of the press.

## Social Security Worker Visits Here

Ralph T. Fisher, social security field manager from Abilene, was in Ranger Thursday to consult with citizens relative to social security.

Fisher visited various classes in Ranger Junior College and explained the details of social security operation and benefits.

The world's greatest mail order business has its center in Chicago.

## TEDIOUS TASK OF FREEING PW'S SEEN OVER IN 1946

FRANKFURT (UP) — Disbandment of the last 700,000 German war prisoners held by the United States forces will be completed by Oct. 1.

The German Affairs division of the European theater announced that all war prisoners now detained either will be released, interned as civilian prisoners or turned over to other governments by that date.

Completion of the task of disposing of an estimated 5,000,000 prisoners held at war's end will sever the last remaining threads holding the once-mighty Wehrmacht together. Freeing the prisoners will eliminate any semblance of organized German troops, although all individual units already have been broken up.

Col. P. S. Lauben, division chief, said the prisoner total would drop to 155,000 by July 1. That number will include those needed for labor purposes this summer, as well as "automatic arrestees" who face immediate arrest as civilian internees upon their discharge.

It was disclosed recently by USPT that 88,000 internees now were in custody, with approximately 20,000 expected to be released by review boards. Lauben said an estimated 75,000 prisoners of war would move into the internee category when freed.

USPT officials also disclosed their disappointment over captured German army supplies. Both supplies and equipment of the Wehrmacht, despite stories of the magnitude of stocks including food, clothing, cooking equipment and other normal civilian needs, were found to be so low at war's end that there was not enough even to meet the needs of the prisoners.

American military officials had hoped to use much of the German supplies to meet the requirements of the civilian population during the occupation.

Disbandment of the Wehrmacht prisoners began last summer under a priority basis. After security screening by American military officials, German miners, farmers, and transport workers were the first to be returned to civilian life where they were needed to maintain the economy.

Later men and women under 18 or over 50 were freed, after screening. This brought the remainder of prisoners down to a hard core of workers who were split into labor units to work for the Americans.

Under inter-zone transfer arrangements with the French, British and Russians, prisoners whose homes are in zones other than the one in which they are detained, are exchanged. Exchanges with the French and British have been virtually completed but only a few transfers have been affected with the Russians.

## Do You Know?

That the accumulation of oil in the KMA field in Wichita county was the result of termination or "wedging out" of the Strawn beds? Continued study of this type structure is being carried on in other areas.

## Says Communities Lack Money For Education, Fun

AUSTIN, Tex. — The No. 1 problem of small communities is more money for educational and recreational facilities, a survey and analysis made by upperclass architecture students at the University of Texas shows.

Year-round facilities for school children after school hours, for adults who want to play or learn, and for neighboring farm families are a real need for the majority of Texas small communities, R. J. Buffler, assistant professor of architecture, said in commenting on the analysis made by the students.

"Long-range plans which permit future expansion are ideal for the community," Mr. Buffler said. "If the community could see the value of building for the future, the educational and recreational facilities would grow with the town."

Disproving the theory that architecture students "just draw," students of design do individual study and research into several major problems each year. Taking into consideration the particular needs and particular sites of their own communities, or of the University and Austin, they design all types of buildings.

For example, students recently designed a musical entertainment building for the University campus centered around the needs of the Longhorn Band. Included were a suite of offices, rehearsal room, a small kitchen, outdoor terrace, stage, and party room.

Another major problem for fifth year students was the designing of a Faculty club for University staff members. Other problems have been 12-unit apartment houses, city parks, USO centers and retirement centers.

## Garter Snakes Found To Be Germ Carriers

CHICAGO (UP) — Garter snakes and other so-called harmless types of reptiles may not be harmless after all, according to the American Journal of Veterinary Research.

Two California veterinarians decided to check on the "harmless" snakes while investigating causes of Salmonella infection in a flock of turkeys. Twenty-six per cent of the snakes were carriers of the germ which had caused sickness among the turkeys.

"This relatively high incidence in snakes on ranches indicates that reptiles, like birds, may serve as important reservoirs of Salmonella," the research report concluded.

## Lee Dockery Has Quiz Program For Lions Club

Lee Dockery was in charge of the Lions Club program at the regular meeting Thursday at noon at the Gholson Hotel and conducted a quiz program on the countries of Europe.

Three new members were taken into the club at the meeting and are C. E. May, Jr., Shakeeb Dakour and J. M. Nusselle.

## U. S. Marshall Covers 70,000 Miles In Year

SAN ANTONIO, Tex. (UP) — The Navy's slogan of "Join the Navy and See the World" has a contemporary among United States marshals.

That is, if most marshals get about as much as Deputy U. S. Marshal Houston Minor.

Minor's travels last year took him 70,000 miles and included a visit to 43 of the 48 states, ranging from the Atlantic to the Pacific and from Canada to the Gulf of Mexico.

His journeys, which carried him into every state but North and South Dakota, Montana, Vermont and New Hampshire, were not exactly tourists' delights, however.

Although the prisoners he was transferring usually spent the night in a bed of sorts, he often had to sleep in his car—and at one time he went 46 hours without food. That happened when he was caught on the road on V-J Day, when roadside cafes joined in closing for celebrations.

## Completes Basic Army Training

Pvt. George M. Perry, son of Mr. and Mrs. N. L. Perry, has completed his basic training and will be assigned to occupation troops.

Pvt. Perry has been stationed at Fort Bliss but has been assigned to a replacement depot at Pittsburg, California for advanced training. In addition to other training he has been trained in the use of 40mm automatic guns.

The infantry received more Medals of Honor, Distinguished Service Crosses, Silver Stars and Bronze Stars than any other branch of the Army.

## Today's Traffic Tip

If you're as bright as your lights, you'll dim 'em. Darkness adds danger to highways, especially if drivers are blinded by each other. Keep your eyes and your lights on the road, and avoid glaring errors. — National Safety Council.

## Investigation Of Franco Regime Gains Favor

NEW YORK (UP) — Australia's proposal for a formal United Nations investigation of the Franco regime in Spain today was given an excellent chance for adoption but the possibility of a new Security Council clash was suggested by British doubt that any one of the five permanent members could veto the Australian plan.

The lights which now partially illuminate the dome are of vintage 1924 and plainly show their age in the light of the fact they are only about 50 per cent effective at this time.

## Says Chinese Army In Control

SAN FRANCISCO (UP) — The Chinese News Service received a message from national government sources in China today suggesting that Changchun, capital of Manchuria, may have fallen to the besieging Chinese Army.

Texas is the leading pecan-producing state of the nation. Oklahoma is second and Georgia is third.

## Pres. Truman Buys First Buddy Poppy

Four-year-old Betty Lou Hall shyly kisses President Truman at the White House in Washington, after selling him the first Buddy Poppy of the 1946 Poppy Sale. Betty-Lou is the daughter of a deceased ex-serviceman. She came to Washington from Eston Rapids, Michigan, where she and her three sisters and a brother are living at the VFW Home for Widows and Orphans. Her father, the late Arthur Alvin Hall, was killed in action in the ETO during 1944. (NEA Telephoto).

FOR REPRESENTATIVE, 107 DISTRICT L. R. Pearson

## THE STATE OF TEXAS COUNTY OF EASTLAND

I, Eddie Stephens of Ranger, Eastland County, Texas, operating under the trade name of Couden Service Station, did furnish material and labor for the repair of one 1937 Model two door Plymouth Sedan, Motor Number 533235, Serial Number 10436862, License No. D2-74 Arz. such license number being for 1945, which said Automobile is now and has been for more than sixty days, to-wit: since October 11, 1945, continuously in my possession, and the reasonable and customary charges for such material and labor used in the repair of said automobile was and is \$455.70 and the storage for said automobile is the reasonable, customary and usual charge of the sum of \$52.50, making a total sum of \$508.20 due me by the owner of said automobile and I now assert and hold a Mechanic's and Materialman's lien against said automobile for said sum, which said charges are long past due and are unpaid, said owner's name is Alvia Alverton and his residence is unknown and though I have made diligent effort to locate him I have been wholly unable to do so. In the premises that I, the said Eddie Stephens hereby give notice that on the Monday the 13th day of May, A. D. 1946, between the hours of ten o'clock A. M. and 4 o'clock P. M. at my place of business at Couden Service Station on Highway 80, East, Ranger, Eastland County, Texas, I will cause said above described automobile to be sold at Public Sale and will apply the proceeds therefrom to the payment of said charges, and any balance will be paid over to the person entitled to receive the same, this notice being given in compliance with Article 5594 of Vernon's Civil Statutes of the State of Texas, this notice to be published one time in the Ranger Daily Times, Ranger, Eastland County, Texas, a newspaper which has been regularly published in said County for much more than a year next preceding the publication of this notice. Eddie Stephens.

## Mrs. Horton Guest Speaker At Club

Mrs. James Horton of Eastland was the guest speaker when the regular meeting of the 1920 Club was held Thursday afternoon at 3:09 o'clock in the Blue Room of the Gholson Hotel.

Mrs. Horton, whose hobby is flowers and home decoration, spoke on the home and flowers, giving the club members some very practical suggestions. She contrasted the old home and the new home, emphasizing the improved conditions. Useful suggestions of landscaping were also given.

Mrs. Horton was introduced by Mrs. Rosa Hodges, leader of the program, who had arranged an attractive background of flowers for the program.

Arrangements of flowers were displayed on modern and antique tables.

Preceding the lecture, an accordion solo was played by Miss Marilyn Jackson and Mrs. Joe B. Scott gave a vibra harp solo, accompanied at the piano by Miss Gwendolyn Tunnell.

In a business meeting held at 2:00 o'clock, Mrs. A. W. Brazda, president, presided. Mrs. Joe B. Scott, president-elect, was named delegate to attend the state convention of the Texas Federation of Women's Clubs which will be held in San Antonio. The club also voted to purchase two memberships in the Eastland County Concert Association and the tickets will be presented to the Fine Arts Department of Ranger Junior College.

At the close of the meeting members of the club were the guests of Mrs. Hodges for coffee at the Paramount Coffee Shop.

Loper, Mrs. George Case, Mrs. P. Mosley, Mrs. N. S. Hubbard, Mrs. Otto Anderson, Mrs. E. E. Hadley, Mrs. H. D. Buggett, Mrs. M. A. McGee, Mrs. J. R. Rhoads, Mrs. C. E. Beck and Miss Myra Tankersley.

## Beaumont Has \$15,000,000 Building Program

BEAUMONT, Tex., (UP)—A \$15,000,000 municipal improvement program for the City of Beaumont is currently being planned.

The program of new work will be aimed at taking up the slack of the war years when construction

work was necessarily held to a minimum. A portion of the contemplated construction will be financed through a bond issue, it was disclosed.

Included in Beaumont's projected building program are the construction of a new \$100,000 city jail, a sanitary system to cost \$300,000, a sewage disposal plant costing \$400,000, fire department improvements costing \$45,000 and new street construction to cost \$11,385,000.
