DIMMITT, CASTRO COUNTY, TEXAS, THURSDAY, SEPTEMBER 15, 1955

Nazareth Farmer Utilizes Well Water And Is Paid Off In Maximum Returns

Referred to as the "farmer who does a lot with a little water," Leonard Conrad of Nazareth utilizes every ounce of water pumped from his two irrigation

wells and as a result is paid off in maximum returns.

In viewing some of Conrad's practices recently, this reporter found that Conrad, who farms 331 acres about two miles north-east of Nazareth, is getting almost as much benefit from two wells as some farmers might be expected to get from four wells.

The Nazareth farmer waters every other row of his 100-acre grain sorghum crop and in a period of four years from 1950 to 1954 has increased his yield from 1,500 pounds per acre to 3,000 pounds per acre. Utilization of water is not the only reason for this fine increase, however, as interplanting legumes with maize has also been instrumental in the results obtained. Some commercial fertilizer was applied but not enough to have a great deal of bearing on the results. To add to Conrad's accomplishment, he obtained 3,000 pounds per acre with one less watering than was required for the 1,500-pound per acre yield in 1950.

Conrad has farmed his place since 1948. He has 50 acres seeded to wheat and 19 to cotton, his allotment for this year. Cotton is a dry land crop as it requires more water than many other crops. Dry land cotton yields on Conrad's place last year were one-half bales to an acre, which is above average for this type farming.

On an average, about 30 head of steers graze on the Conrad farm. These steers are raised mainly for commercial purposes and help to supplement the Nazareth farmer's income.

Grain sorghums have proved to be Conrad's chief source of income, however, and sound management and smart practices are paying off for the Nazareth farmer.

Mr. and Mrs. Herbert A. Duncan, Richard and Martha spent Sunday in the home of Mr. and Mrs. Leon Thompson of Paducah.

MYSTERY FARM 34—This week's mystery farm number 34, may prove to be puzzling to readers. Just as other pictures that have preceded the above, it is an aerial photo of a Castro county farm. If you recognize the farm, contact the News office not later than Monday noon. The owner is invited to make proper identification and collect a mounted enlargement of the original picture. Blanton Butane, Inc., is sponsor of the series.

Noel Gollehon Farm Has Unusually Good Cotton And Maize Yields

Unusually good yields both on cotton and maize is the story Noel Gollehon has to tell about his farm, located six miles north-east of Dimmitt.

Last year Gollehon plowed up 20 acres of pasture land and planted it in cotton. He watered the land once before planting and twice afterwards. The results were just short of exceptional, as Gollehon reaped a 42-bale harvest or just over two bales to an acre, and to top it all, he didn't use any fertilizer.

Equal results were obtained

from a 20-acre plot adjoining the cotton field. On this land Gollehon planted Redland Kaffir maize and made 6,200 pounds per acre. The same story was true—no fertilizer was used and the land was watered once before planting and twice afterwards.

Gollehon believes in a diversified farming program and rotates his crops as much as possible to save his soil. He has a total of 640 acres; 550 being in cultivation. One hundred acres are seeded to wheat; 40 to cotton; 35 to alfalfa; 25 in pasture; and the balance

in maize. The Castro county farmer has only two irrigation wells to take care of these crops. However, they are well spaced and all water is put to use.

Gollehon has 35 head of registered Herefords on his place to supplement his income.

Bumper crops are in the making on Gollehon's place this year. He admits, too, that prospects are good.

New Store Front Underway Here

Drills were hammering away and saws buzzing late last week at the Piggly Wiggly location in north Dimmitt as the store gradually underwent a "face lifting."

According to Bert Hill, owner, a completely modernistic front will be the result when work is finished in two weeks. A double glass door will be installed in the center and will be flanked by brick and tile construction. A large neon sign will also be erected overlooking the front.

Hill says no new space will be created as the object of building the new front is to make more show window space available and a more convenient entrance for customers. Cost of the "face lifting" job is estimated by the owner at \$4,000.

Fair Plans Near Windup As Show Judges For 3-Day Event Are Listed

Final plans and arrangements for the 1955 edition of the Castro County Fair are rapidly taking shape as Fair Secretary Steve Taylor has now announced a full slate of show judges for the September 15-16-17 event.

Five outstanding judges, all of whom are authorities in their respective fields, have been obtained for the fair to add prestige and stimulate interest in the mammoth fall event.

An authority on dairying who was here in April for the annual county dairy day is Professor Ralph Harbin of the West Texas State College Dairy Department. He will judge the Holstein, Jersey, Brown Swiss, Milking Shorthorn and Junior Dairy Divisions of the County Fair.

Dr. M. R. Callihan, head of the Department of Agriculture at West Texas State, and a well-known figure in agriculture at Pan Tech Farms near Amarillo, will judge the Aberdeen Angus, Hereford, Junior Swine, Junior Sheep and Junior Beef Divisions of the fair.

Dr. A. L. Crossland of the WT Animal Husbandry Department will judge both the Junior Poultry and Junior Rabbit Divisions of the fair.

Any Community Exhibits and individual farm products entered for competition at the fair will be judged by Bob Gibson, former Floyd County Agent now associated with Paymaster Farms at Lockney.

For one of the fair's main attractions and now considered an integral part of the fall event—the Quarter Horse Show—the services of Raymond Hollingsworth, secretary of the Texas Quarter Horse Association, have been obtained. Hollingsworth is highly recommended and will do an excellent job of judging, according to fair officials.

In addition to the above judges, 14 fair committees and 24 show department superintendents will be key figures in the success of the fall show.

Inoculation Of Legumes Said "Very Important"

COLLEGE STATION, Sept. 15—The cost is small but the returns, in terms of increased yields and better quality legume crops, are great. Yet, says L. C. Coffey, extension agronomist, farmers still plant legumes without spending the few cents an acre required to do the inoculating job.

He says 50 cents will buy the inoculant needed to take care of enough alfalfa or clover seed to plant up to five acres. Less than 25 cents an acre will inoculate winter peas or vetch. Coffey points out that different strains of bacteria are effective on different classes of legumes. Be sure and get the culture recommended for the crop to be planted.

The seed inoculants contain beneficial live bacteria. The bacteria attach themselves to the roots of leguminous plants where they absorb energy from the plant and in turn help the plant to take nitrogen from the air. They do this by a process known as "nitrogen fixing."

Both effective and ineffective bacteria may occur naturally in the soil but Coffey says why take a chance on lower yields and quality by not inoculating the seed.

He says seed inoculants can be obtained from seed dealers and that it is important to follow the directions on the container. The seed should be planted soon after it is treated.

Dangers Of Heart Disease Lessened By New Remedies

AUSTIN, Sept. 15—There is hope on the horizon for the thousands of Texans who are suffering from heart disease, says Dr. Henry A. Holle, Commissioner of Health. Such tremendous advances have been made by medical science that some forms of heart disease, once incurable, can now be effectively remedied. Eventually a way will be found to prevent some forms of heart disease. Heart disease is the leading cause of death in Texas. Last year 20,211 Texans died of diseases of the heart, 31 per cent of all deaths. There are 21 known types of heart trouble, but the three major types are rheumatic heart disease, high blood pressure and coronary heart disease. Rheumatic heart disease is the damage done to the heart valve by rheumatic fever. Rheumatic fever is a disease of children and young adults, and often follows a "strep throat" or some other streptococcus infection. Medical science has given us new and better ways of treating these infections. As a result fewer hearts are being damaged and fewer persons are dying from rheumatic fever. With modern medicine, doctors can, if given a chance, prevent rheumatic fever by curing strep infections in the early stages. Doctors do not know all the causes of high blood pressure, or hypertension as it is sometimes called. Sometimes it is caused by kidney disease, and sometimes by hardening of the arteries, nervousness, an overactive thyroid gland, or excessive weight. If a person with high blood pressure follows his doctor's advice, he may live happily and busily to old age. To hold down his blood pressure he must watch his weight, not work too hard or play too hard.

Most Modern Power in any Truck! New Chevrolet Task-Force Trucks!

Shortest stroke V8's of any leading truck. The industry's most advanced Sixes! You get the most Modern power for your job with new Chevrolet Task-Force trucks!

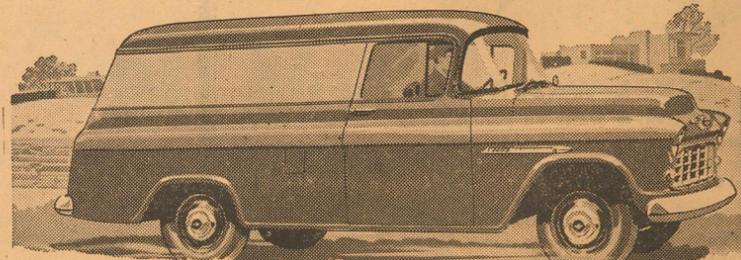

Most Modern Engines V8 or 6

V8 is standard in the new L.C.F. models, available in all other except Forward Control models as an extra-cost option. New Chevrolet trucks offer the industry's most advanced valve-in-head sixes, too. And all engines are sparked by a 12-volt electrical system!

Most Modern Styling

They're the only Work Styled trucks! Two distinctly different styling treatments are offered—one for light- and medium-duty models, another for heavy-duty models. Your new Chevrolet truck will not only do your job better, it'll look better doing it!

Most Modern Features

New Flite-Ride cab with panoramic windshield, concealed Safety Steps and new High-Level ventilation! New, more rigid ladder-type frames in all models! New suspension! New tubeless tires standard on 1/2-ton models! Come in and see all the modern features that put you ahead!

21. Okra (12)

IX. FRUITS

1. Apples (6)
2. Pears (6)
3. Peaches (6)
4. Grapes (1 bunch)

Castro Fair Has Late Beginning, But Is Growing

The Castro County Fair had a comparatively late beginning compared to other Texas fairs, particularly in East Texas.

Texas fairs date back over 100 years. The first fair to be held in the state may well have been one in Corpus Christi in 1852, which featured bull fights, a circus, cock fights and fireworks. During the same decade Dallas county became the first county in the state to organize a fair. The State Fair was founded in 1886.

The Castro County Fair first gained impetus during the war years or early forties and in 1951 became a close knit organization with the formation of the county fair association and the election of the first fair president, Wes Anthony. Anthony together with other public spirited citizens cleared the way for a fairgrounds and fair buildings. His job of moulding and solidifying the fair into a permanent organization whose pri-

mary purpose would be to promote agriculture in Castro county was a difficult one and required lots of help and cooperation from farmers and businessmen alike.

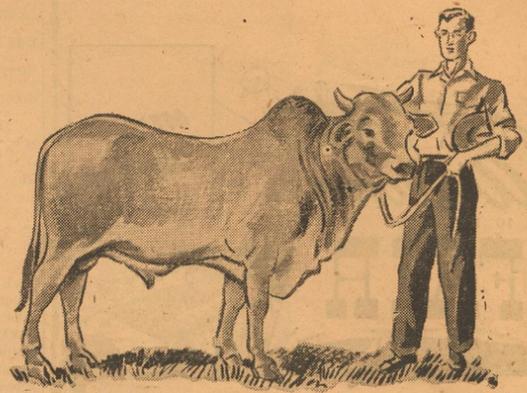

Last fall Noel Collehon was called upon to head the association. Much more has been accomplished through his guidance but illness forced him to relinquish the job temporarily to Fair Vice-President Edd McLeroy. Committees are functioning, but much is left to be done as the fair catalogue goes to press, McLeroy reveals.

Courthouse Office Changes Listed

A general re-shuffling of office locations in the courthouse here will likely cause "utter confusion" for a few days to both employees and business visitors, but more space will be utilized and offices will be more conveniently situated, according to ASC Secretary Doyle Thomas.

To begin with, more space will be made available for ASC employees as the Soil Conservation Service, which has shared space with the ASC, will be moved into the chamber of commerce office in the east wing of the second floor of the courthouse. The chamber and county surveyor will move into the old FHA office rooms in the west wing on the second floor. The FHA has already moved into new office space created by partitioning off the library in the basement of the courthouse. The Credit Bureau office, hereafter, will be located in the Justice of Peace office rooms in the west wing on the second floor.

Thomas said his office personnel would now have all basement floor space on the west side of the courthouse. In the past the ASC has had only about half of this space. The changes will mean confusion and delay at first but should work to the advantage of all concerned, the ASC secretary indicated.

We're looking forward to the 1955 Castro County Fair.

It is the week we set aside to honor the County farmers and the fine work they've done during the past year. We've got the best group of farmers in the High Plains area and we're proud of the excellent county farm produce they've grown.

We'll meet you at the fair.

We're matching Pontiac's record sales with record-breaking trades!

You can put this down for a fact. You won't match our deal anywhere else in town because this one pays off double!

For a starter, you'll get an appraisal too good to pass by. We're out to make September another record-breaking month, and all trades are figured on a volume basis. Your car can command a better deal from us right now than it ever will again.

For the clincher, you'll get a car that is way

ahead of anything near its price : : : designed and engineered to stay new for years.

You'll get style that sets the fashion for tomorrow.

You'll get the advanced performance of the Strato-Streak V-8, newest engine in the industry.

You'll get the size you must have for safe cornering and solid security.

You'll get the latest innovations in springing, brakes and steering to cushion the ride and make driving an effortless pleasure.

Come in for the deal with the double payoff and drive away a big, high-powered future-fashioned Pontiac. You have the word of half a million owners — you'll never make a better buy!

**Big Square HD Club
Makes Plans For Fair**

The Big Square HD Club met Friday, Sept. 9 at the home of Mrs. Paul Chance with eight mem-

bers present. Mrs. Forrest Collins gave a report to the club on her trip to Fort Worth where she attended the State THDA meeting. Plans were made for the fair.

The next meeting will be held Sept. 23.

Rent It—Buy It—Sell It
Through A NEWS Want Ad

Every year about this time county farmers start looking over their fields for the best grain, vegetable and cotton samples, and their wives and youngsters start looking over their livestock and households for possible exhibits. Every year these people come up with about the best farm produce in the United States . . . and we're proud of their efforts. We wish them all luck and a good fair.

NOTHING IN ITS FIELD CAN MATCH CHEVROLET FOR ACCELERATION!

Drive with care... EVERYWHERE!

Great Features back up Chevrolet Performance: Anti-Dive Braking—Ball-Race Steering—Out-rigger Rear Springs—Body by Fisher—12-Volt Electrical System—Nine Engine-Drive Choices.

When you need a quick sprint for safer passing, this V8 delivers!
It's pure dynamite, and you have to go way, way up the price ladder before you ever find its equal.

Chevrolet's new "Turbo-Fire V8" packs a Sunday punch for safer passing that no car in Chevrolet's field can match!

The proof was burned into the sands of Daytona Beach at the NASCAR* trials earlier this year. In acceleration tests, Chevrolet simply walked away from everything else in its field. Plus—and get this—all the high-priced cars except one!

Surprising? Not when you consider that this beauty's been cleaning up on all comers in short track stock car events this season. That's where acceleration really pays off, as well as handling ease and cornering ability—things that mean safer, happier highway driving. Come on in and let a new Chevrolet show you what we mean.

Stuffed Bobcat Is Presented School

A stuffed bobcat, symbolic of the Dimmitt High School mythical mascot, was presented to the high school Friday afternoon during student assembly in the auditorium.

The Rev. D. W. Brashear, retired Dimmitt Methodist minister, presented the stuffed animal to Coach Leo Fields and Alvis Fu-

quay in behalf of the local Lions Club. The local service club made the stuffed animal available as a token of their appreciation for the fine sports record the Bobcat and Bobbies have compiled.

It costs the Army \$3,200 to clothe, maintain and train an infan-

Beer, Whiskey Taken In Surprise Raid

Castro County Sheriff Jack Cartwright and Deputy Sheriff "Pie" Montgomery confiscated five cases of beer and whiskey and wine in a raid late Saturday on the home of Urbert Bailey in north Dimmitt.

Bailey was charged with possession of intoxicants for sale and in County Court fined \$126. at a later date.

Traffic Law Observance Urged

With the death-laden Labor Day weekend just behind us and the usual series of football weekends coming up, the thoughts of many Texans are turning toward traffic safety. There can be no doubt but that a better acquaintance among drivers with the "rules of the road" and other traffic safety regulations could greatly reduce the death toll on our highways.

To obtain correct and authoritative information about driving is a simple matter. A letter or postcard to the Department of Public Safety, Driver's License Division, Austin, Texas, will bring an official publication, the "Texas Driving Handbook," to anyone who requests it.

Aside from considerations of personal safety, proper driving habits and observance of traffic laws will help prevent financial loss. This is true in spite of the fact that most people now carry liability insurance as a protection under the Texas "Drivers Responsibility Act." Jury verdicts in personal injury cases tend to go higher and higher, and the likelihood of suffering an adverse judgment for an amount in excess of the limits of your liability poli-

icy is ever present. Fault, or liability, is determined by applying the law to the particular facts of an accident. In Texas the law is in several forms—the statutes as enacted by the Legislature, the ordinances of each city and town, and the court decision in cases similar to the one to be decided.

A negligent or intentional act is necessary in order to impose legal liability for damages. Where both parties to an accident are negligent, the court will very likely say that both are at fault, and that each must pay for his own damages.

Two of the most important legal rules pertaining to accidents are those having to do with "proper look-out" and "proper control." Driving in a lawful manner and complying with all ordinary traffic rules is not always sufficient. In addition, the driver is expected by law to be alert to all that is happening around him.

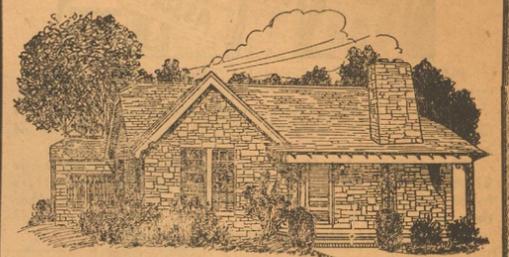

If an accident should occur and the driver has not been alert—he has failed to keep a proper look-out—he may be charged with "improper look-out" as a traffic violation and also held liable in damages to the other driver. The courts call a "proper look-out" such a look-out as a reasonably prudent driver would have kept under the same circumstances.

Of equal importance is the rule of "proper control." This rule means pretty much what those words imply—that the driver should have his car under such degree of control as to be ready for any emergencies as might arise. It may be breached even though no violation of ordinary traffic laws is involved.

For instance, a driver may be complying with the legal speed limit but still be driving at a rate of speed which is unsafe under

the existing circumstance. Even though legal speed limits are expressed in terms of a certain number of miles per hour, conditions may arise which prevent the driver from maintaining

"proper control" of his automobile at that speed. On a rainy day on a slick street or highway, or in heavy traffic, the reasonably prudent driver will know that he should reduce his speed

THE MASON KING HOME of Amarillo

Your old home can be made beautiful and comfortable, as is the home featured above, with a new stone or brick veneer siding. It costs less than you think. Of course, F.H.A. terms are available. And another example of our work is the brick veneer siding on the Hart Methodist Church. For further information, write or call

An Electric Freezer IS A FLAVOR SAVER!

Money Saver, Too!

Real economy? That's top quality and low price. Your food freezer will pay for itself in price savings alone — in just a few years — and then you enjoy always the dividends of foods at their best — frozen

Freshly picked fruits and vegetables have a blush as lovely as that of a schoolgirl on her first date. Yes, and they have a flavor that's just as sweet as that schoolgirl, too. Keeping that blush and that flavor after the fruit has been picked once was a problem, but it is no more. Your electric home freezer will give you all the beauty and good taste of fresh fruits and vegetables months after you have frozen them. Don't be out of step and "out of season", buy a home freezer now for foods at their finest all year 'round.

B. M. Nelson, Editor and Publisher

Texas Press Association

There is an election coming up next week—in which the "candidates" are not known.

It is the election of Texas' new Democratic national committee-man to replace ousted Dwight Morrow.

A nominating committee will make a recommendation on Sept. 21. Its choice will be revealed at a meeting of the State Executive Committee in Fort Worth on Sept. 22.

Discussed for the place have been former Cong. Lloyd M. Bentzen Jr. of McAllen; Cong. Joe Kilgore, also of McAllen; Rep. J. O. Gillham of Brownfield; and James E. Wheat of Woodville. Wheat is now secretary of the State Executive Committee.

Possibility that State Chairman George W. Sandlin might get the nod has been discussed.

Gov. Allan Shivers has indicated his desire that the new committee-man be someone who will work with the National Committee.

National Chairman Paul M. Butler said that the new member must have voted for Adlai Stevenson in 1952 and be acceptable to Governor Shivers, House Speaker Sam Rayburn, and U. S. Sena-

tor Lyndon Johnson.

State Chairman Sandlin will address a meeting of the Democratic Club of Ft. Worth on the same date the committee meets. He will reply to the speech made to the same group by Morrow just before the state committee voted Morrow out. Morrow has severely criticized Sandlin. The invitation to speak was extended Sandlin in order to show that the club, while conservative, was not dominated by the ultra-ultra conservative backers of Morrow.

Candidates Active

Friends of Agri. Commr. John White met in Austin over the week-end to encourage his entry into the governor's race. White is one of several under consideration by the Loyalist forces.

Brown Bailey, Midland attorney and leader in the effort, said the group conferring with White was not allied with any political faction. "We simply want White to run," he said.

Reuben Senterfitt of San Saba is the only announced candidate for governor so far. He's busy building his fences. Active also is State Sen. Jimmy Phillips of Angleton, although as yet unannounced. Another possible is James

P. Hart, former chancellor of the University of Texas. And Will Wilson, associate justice of the supreme court.

Not to be overlooked is Coke Stevenson, former governor. It appears there may be a build-up urging him to enter. Stevenson has been inactive politically since his 87-vote defeat by Lyndon Johnson in the Senate race seven years ago.

Look for House Speaker Jim Lindsey of Texarkana—in the attorney general's race. Also being talked for that job, if Hart runs for governor, is Will Wilson. He would not run against Hart.

New Veterans Land Plan

Texas' veterans land program is off to a fresh start. Under new laws the board places responsibility for administration squarely on the shoulders of the land commissioner. Ex-officio members, the governor and attorney general, are charged only with policy-making functions.

Commr. J. Earl Rudder said he was ready to accept the responsibility.

Local advisory committees, blueprinted in the 54th Legislature's reform laws, are already being formed. These committees, appointed by commissioners courts, will provide a check on findings of state appraisers.

Land purchasers who are delinquent in their payments, have been notified to pay up or forfeit their land. Many delinquencies involve block deals believed to be of questionable nature.

Rudder indicated the board should be able to start considering loan applications again soon. All the original \$100,000 was exhausted under the administration of his predecessor, Bascom Giles. Some, however, has been recovered by court action.

Giles has been sentenced to the state penitentiary on charges of accomplice to theft and consenting to accept a bribe.

Representatives Appointed

Terr appointments to the Texas Legislative Council, an interim research group, have been made by House Speaker Jim Lindsey.

Named were Reps. Ben Glusing of Kingsville, Tom King of Dallas, James W. Yancy of Houston, Joe Burkett Jr. of Kerrville, E. F. Crim of Henderson, Pearce Johnson of Austin, Obie Bristow of Big Spring, Gustin GaGrett of Raymondville, W. G. Kirkin of Odessa and William S. Heatly of Paducah.

Lt. Gov. Ben Ramsey will select five senators to complete the council. Its duty will be to study pressing legislative needs prior to the next session.

Lindsey also appointed Wade F. Spillman chairman of the house investigating committee. Its tasks include further land office inquiry. Other members are Reps. Reagan R. Huffman of Marshall, Jesse M. Osborn of Muleshoe and Scott McDonald of Ft. Worth.

Named to the water resources committee were Reps. Stanley Banks Jr. of San Antonio, Leroy Saul of Kress and Bill Wood of Tyler.

Storm-Warning Net Set

Largest storm-warning net in the world is being installed in 16 Texas cities.

Radar sets, obsolete for military use, were donated by the U. S. Air Force. Procedure for use was developed by the U. S. Weather

Hart High Annual Staff Is Named

Fourteen Hart High School students have been named to the school's annual staff.

San Jones will edit the 1955-56 annual and will be assisted by Faye Kitchers, associate editor.

Other staff members are: Peggy Farris, business manager; Carol Houston, treasurer; Robbie Jo Robertson, secretary; Jewell Varner, assistant business manager; Gayland Anderson, sports writer; Jayne Swindle, layout editor; Nell Towery, artist; Nelda Myers, photos; Barbara Jackson, artist; Sandra Johnson, sports; and Jo Davis, photos.

Bureau, Texas Department of Public Safety and the state division of Civil Defense and disaster Relief.

Installation sites are Austin, San Antonio, Corpus Christi, Brownsville, Victoria, Galveston, Houston, Beaumont, Ft. Worth, Wichita Falls, Lubbock, Midland, San Angelo, and Amarillo. Others may be added soon.

Thompson; to the spouses of each of the above named defendants, and if any of the spouses be deceased, their respective heirs and legal representatives; and to Bedford Town & Land Company, a co-partnership, Defendants, Greeting:

You are hereby commanded to appear before the Honorable District Court of Castro County at the Court House thereof, in Dimmitt, Texas, at or before 10 o'clock a.m. of the first Monday next after the expiration of forty-two days from the date of the issuance of this citation, same being the 17th day of October, 1955, then and there to answer plaintiff's petition filed in said Court on the 31st day of August, 1955, in this cause numbered 2242 on the docket of said court and styled Cleo C. Forson et al, plaintiff, vs. G. M. Etter, et al, defendants.

The parties to said suit are Cleo C. Forson and Claude Forson, plaintiffs, and the parties and organizations to which this writ is directed are defendants. A brief statement of the nature of this suit is as follows, to-wit: Trespass to try title, for title and possession of the following real estate in the Original Town of Dimmitt, Castro County, Texas; to-wit: All of Lot 10, Block 142; all of Lot 1, Block 141; and all of Lot 7, Block 144, all in the Original Town of Dimmitt, Castro County, Texas; and Approximately 1.337 acres out of the East part of Section 25, Block M-10-A, Castro County, Texas, described by metes and bounds as follows: BEGINNING at a 2 inch iron pipe, the northeast corner of Section 25 Block M-10-A, Castro County, Texas; THENCE S 0° 7' E, along the East line of Section 25, Block M-10-A, at 2405.3 feet a 3/8 in. reinforcing steel stake in the East line of Section 25 aforesaid, for the northeast corner of this tract; THENCE N 89° 24' W, at 276 ft. a point in the East line of East Street of the Original Town of Dimmitt as staked out by John Flanagan, County Surveyor, in 1907, a succor rod coupling for the Northwest corner of this tract; THENCE S 36° W, along the East line of East Street 210 ft., a succor rod coup-

ling for the Southwest corner of this tract; THENCE S 89° 24' E, at 278.9 ft. a point in the East line of said Section 25, a 1/2 in. reinforcing steel stake, for the Southeast corner of this tract; THENCE North 0° 7' W, 210 ft. to the place of beginning of this tract.

Plaintiff also claims title by virtue of the five and ten year Statutes of Limitation, as is more fully shown by Plaintiff's Petition on file in this suit.

The officer executing this process shall promptly execute the same according to law, and make due return as the law directs.

Issued and given under my hand and the seal of said Court, at office in Dimmitt, Texas, this 31st day of August, A. D. 1955.

Attest:
Mrs. Neva Hastings
Clerk of the District Court,
Castro County, Texas

Dangers Of Heart Disease Lessened By New Remedies

AUSTIN, Sept. 15—There is hope on the horizon for the thousands of Texans who are suffering from heart disease, says Dr. Henry A. Holle, Commissioner of Health. Such tremendous advances have been made by medical science that some forms of heart disease, once incurable, can now be effectively remedied. Eventually a way will be found to prevent some forms of heart disease. Heart disease is the leading cause of death in Texas. Last year 20,211 Texans died of diseases of the heart, 31 per cent of all deaths. There are 21 known types of heart trouble, but the three major types are rheumatic heart disease, high blood pressure and coronary heart disease. Rheumatic heart disease is the damage done to the heart valves by rheumatic fever. Rheumatic fever is a disease of children and young adults, and often follows a "strep throat" or some other streptococcus infection. Medical science has given us new and better ways of treating these infections. As a result fewer hearts are being damaged and fewer persons are dying from rheumatic fever. With modern medicine, doctors can, if given a chance, prevent rheumatic fever by curing strep infections in the early stages. Doctors do not know all the causes of high blood pressure, or hypertension as it is sometimes called. Sometimes it is caused by kidney disease, and sometimes by hardening of the arteries, nervousness, an overactive thyroid gland, or excessive weight. If a person with high blood pressure follows his doctor's advice, he may live happily and busily to old age. To hold down his blood pressure he must watch his weight, not work too hard or play too hard.

We have furnished many farmers in this area with auto, truck and farm equipment parts to help grow some of the fine produce which will be exhibited at the Castro County Fair. We join all the merchants of Dimmitt, Hart, Nazareth, and Sunnyside in wishing the Castro County Farmers one of the finest fairs in history.

- HUNTING** permitted in game refuges and game reserves.

Castro Fair Will Feature Special Crochet Contest Classifications

The women had better tend to their crocheting, claim the crocheting judges at the Castro County Fair, because the men and teenagers, in recent years, have been stealing the scene with their hand-and-hook prowess. In the 1955 National Crochet Contest, the special classifications for married and maid are expected to yield many entries that could cause envy on the distaff side.

From throughout the nation, a men's champion and a teen-age girl champion will be named at the close of the Contest. Each will be awarded a \$100 cash prize, a championship trophy and a free trip to New York City. Trip expenses for one parent or guardian to accompany the teen-ager will also be paid. In these two crocheting divisions, runners-up will receive: \$50 for second place; \$25 for third and \$10 for fourth. Ten honorable mentions at \$2 will be awarded.

All contestants in the 16 classifications of the Contest vying for over \$3,000 in cash prizes must fulfill the official requirements to be eligible for both the preliminary judging, held locally at the county fair, and the national judging in New York City. Whether made by a man, woman or teenager, each entry must be crocheted of mercerized crochet cotton in any thread size up to and including 100. Mercerized crochet cotton with a metallic strand is also acceptable. A crocheter may submit any number of entries, but each must have been completed in 1955.

Amarillo Meet On Drouth Disaster Loans Scheduled

Wendell B. Barnes, Administrator of the Small Business Administration, will discuss with Southwest bankers and other businessmen in Amarillo September 15, plans for administering the Agency's drouth disaster business loan program in Texas, Colorado, Kansas, New Mexico and Oklahoma.

Accompanying Mr. Barnes from Washington will be J. F. Matchett, Director of the SBA office of Financial Assistance, and Robert C. Jones, Special Assistant to the Administrator.

Representatives of bankers' groups from the affected States have been invited to attend the afternoon meeting in Amarillo. Mr. Barnes has extended an open invitation to other interested bankers to attend the meeting, which will be held in the Herring Hotel.

Meetings also may be arranged for later dates in the other States affected.

Mr. Barnes, Mr. Matchett, and Mr. Jones will be in Dallas Sept. 14 to confer with officials of the Small Business Administration's Regional Office there. Mr. Matchett is a native of Seagraves, Texas, and was in the banking business in the Lubbock area. Before going to Washington, he served for two years as SBA Regional Director in Dallas.

District Governor To Be Lions Guest

District Governor W. T. "Dub" Nelson will visit the Dimmitt Lions Club Tuesday, September 20. The purpose of the visit will be to advise and assist President Earl Brock and Secretary E. B. Noble and the officers, directors and members of the club on matters pertaining to Lions Administration and the Lions great program of humanitarian service.

The local club will welcome

Governor Nelson, of District 2-T1, ten years of perfect attendance. He has held every office in his club except secretary-treasurer and has been awarded the key of state for obtaining 75 new members.

For 1956 Whirlpool gives you TWO SEPARATE WASHING ACTIONS

NORMAL SPEED, time and action for regular washing

LOW SPEED, short time and extra gentle action for sheerest fabrics

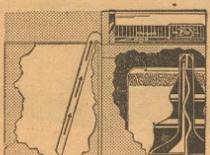

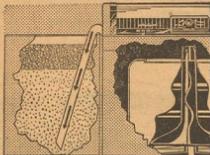

Now... only Whirlpool has a shorter time plus a 1/3 lower speed for washing, rinsing and damp drying your nylons, sheerest lingerie and daintiest things. It's a separate, fully-automatic cycle to wash delicate fabrics thoroughly clean yet with hand gentleness.

PLUS ALL THESE ADVANTAGES

SUDS-MISER

saves over half the cost of soap and hot water

Exclusive, built-in, fully-automatic Suds-Miser is the big "extra" that only Whirlpool gives you. It saves many gallons of hot water every washday by letting you re-use hot, sudsy water for several loads of clothes.

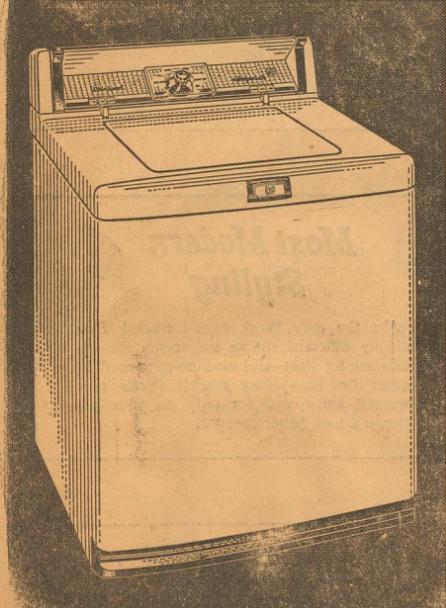

3-LEVEL WATER SELECTOR

saves water on partial loads

Here's another brand new feature! Now, you can wash any size partial load in just the right amount of water and do it automatically!

- Beautiful, double-illuminated, Guide Lite control panel.
- Ultra-Violet germicidal lamp helps sanitize clothes.
- Dual Cycle-Tone signal when wash is done.
- 3-Temp water selector with fabric guide.
- 7 Rinses assure complete rinsing yet use less water.
- 5-Year parts warranty on transmission.
