## Russia Balks On U. S. Disarmament Plan

Well...  
I Dunno,  
But...

One of Ranger's talented musicians will be heard on the air this afternoon at 5:45 o'clock over XGRO. She is Miss Rosemary Bruce, daughter of Mr. and Mrs. L. L. Bruce who will appear on the program with the string quartette from NTSC at Denton. Rosemary is a very talented young lady, in fact, so talented that she had a hard time deciding which of her musical gifts she would use as a major. Aside from her superb violin playing she is a pleasing vocalist.

One of the most generous donations to both the iron lung fund and the March of Dimes was made recently by the Rebekah Lodge. The lodge gave \$26 to each fund. Yes sir, we'd say that's generous.

At Monday night's session of the Ranger Chamber of Commerce directors approved one hundred per cent, plans for a clean-up campaign in Ranger. Now, with all of the complaining that we've been hearing about how dirty Ranger is, that plan of the directors ought to get a lot of cooperation. Certainly, all of those who have been loud in their complaints should lend their full support and effort to this move.

Further, Rip Galloway who has had a clean-up campaign in the back of his head for sometime, has worked out one of the most complete and definite plans that we've ever seen yet.

Now, all it will take will be the cooperation of the people. Many times we have seen in Ranger the results of an all-out campaign for various moves in Ranger and we know from experience that things great things can be accomplished in this way.

There's one thing certain. If ever there was anything that required an all-out effort in any town, that is a clean-up campaign. One man may get out and work his head off nearly to get his premises clean and if the fellow next door doesn't do it, too, it not only hurts the property of the man who did work but it hurts the appearance of the whole town.

This is one case where the old saying that "a chain is no stronger than its weakest link" is sure the truth.

You can bet on it we'll be telling you from time to time about this coming campaign.

We're sure for the guy that said today that the United States isn't going to make the same disarmament mistakes that were made after World War I. Of all the scrapping and throwing down of arms, we did, where did it get us. Personally we're afraid that we haven't arrived at a period in which trust is sufficient to walk empty handed into some of the arsenals of the world.

If all of the world could take the Christian attitude that this country is supposed to have, then maybe disarmament would work. But we must remember that we are dealing with some who do not operate on Christian principles—even mock this country for trying to do so.

Nope. We believe, that we'd rather have the gun in our hand, and a smile on our face.

### Joe Louis In Mexico City

Joe Louis, now in Mexico City for an exhibition bout on February 7, says he is in love with Mexico. Joe is shown with his trainer, Mar y Semons, left, and Eddy Cerda of Mexico City, a friend of Joe's. (NEA Telephoto).

### WOULD LIMIT PRESIDENTS TO TWO TERMS

WASHINGTON — The House Judiciary committee today approved, 20 to 5, a proposed constitutional amendment limiting any president to two terms.

Republican leaders said they would try to get the measure to the House floor by Friday.

The committee rejected, 19 to 6, a substitute proposal to limit a president to one six-year term. The substitute was offered by Rep. Francis E. Walter, D. Pa.

Opposition to the two-term limitation came exclusively from Democrats.

As adopted by the House committee, the proposed amendment would limit a president to two terms of four years each or parts thereof. If approved by two thirds majority in each House of Congress it would then be submitted to the states for ratification.

The presidential tenure limitation was a major plank in the Republican legislative program.

### Kansas City Star President Dies

KANSAS CITY — Earl McCollum, 57, president of the Kansas City Star since October, 1942, died early today at his home after an illness of a week. He was taken ill in the midst of negotiations while the Star was struck by contract carriers.

### TO BOOST RURAL AVIATION FLYING FARMERS UNITE

STILLWATER, Okla. (UP) — Rural aviation has spread to more than half of the 48 states and its sponsors believe it soon will be nationwide.

The farmer—with a small plane in his back yard for quick trips to town or across the country—has organized into an association known as the National Flying Farmers Association.

Organizations have been set up in Oklahoma, Nebraska, Iowa, Texas, Kansas, North Dakota, South Dakota, Montana, Wisconsin, Colorado, Michigan, Minnesota, California, Ohio, Arkansas, Washington, Oregon, Idaho, Tennessee, New Mexico, Utah, Pennsylvania, Mississippi, Illinois, Indiana and a chapter will be formed shortly in New Jersey.

The accomplishments of the association have been unusual, but farm fliers want an organization where they might pool their interests and develop rural aviation further.

The organization was formed without funds in Oklahoma in 1944. The past year was a banner one, with 24 chapters organized. A profitable sideline of flying

### Reptiles Ruled U.S. 2 Hundred Million Years Ago

BERKELEY (UP) — A description of American life 200,000,000 years ago, when a large part of Arizona was swamped ruled by amphibious reptiles, is being written by paleontologists at the University of California.

Basis for the prehistoric history was provided by fossils found at Meteor Crater and near Cameron and Holbrook, Arizona.

Dr. Samuel P. Wells, senior curator of the U. C. Museum of Paleontology, is preparing a paper to be released this month by the University of California Press on the 200,000,000-year-old reign of the dinosaurs.

Included in a monograph Dr. Wells specimens are skulls of a group known as pseudo-suchians, reptiles which were developing into two-legged creatures. They probably stood about four feet high and had a wicked set of serrated teeth.

According to Dr. Wells these creatures inhabited a swampy flood plain in Arizona about 200,000,000 years ago. At that time the Pacific Ocean formed its western border.

Hutchinson answered that he believed restoring "competitive conditions" would be the most effective way of stimulating productivity.

### STUDY MEANS OF BRINGING LABOR PEACE

WASHINGTON — Chairman Robert A. Taft, R. O., of the Senate labor committee suggested today that Congress might investigate means of increasing industrial productivity—possibly through profit-sharing and bonus plans—in its quest for labor peace.

He raised that possibility during a committee hearing at which automobile industry spokesmen attacked "monopoly" practices of unions and milk distributors asked for general revision of labor law.

Questioning B. E. Hutchinson, vice president of the Chrysler Corp., Taft asked whether a general congressional study of labor productivity might contribute to industrial peace. He said some persons had urged Congress to investigate profit-sharing and bonus plans as ways of increasing productivity.

Hutchinson answered that he believed restoring "competitive conditions" would be the most effective way of stimulating productivity.

### Factory Has To Pay Off For Spoiling Flowers

BUFFALO, N. Y. — A Supreme Court jury held the Abrasive Shot and Grit Co., Inc., responsible for damage to flowers and vegetables whose growth was stunted by dust from the concern's factory here.

A jury, which returned a verdict of \$3,935 in favor of a greenhouse owner, Frank S. Cheabro, ruled that "generated iron dust, vapors, smoke and grit" from the abrasive company's plant settled on the greenhouse windows and hindered growth of the flowers and vegetables.

### Boom! 10,000 Crows Bite Dust

PRYOR, Okla. (UP) — Residents of this Oklahoma community wondered if the war had started again when they heard a terrific explosion at night. Investigation disclosed it was the state game and fish commission bombing crows.

The commission reported it had killed 10,000 crows with 125 bombs. The bombs consisted of one-half stick of dynamite plus six pounds of shot to each bomb. They were strung in the trees, where an estimated 20,000 to 30,000 crows were roosting.

CONVICTS FOUND  
SAN QUENTIN, Cal. (UP) — Three convicts, missing at San Quentin penitentiary since Sunday afternoon, were recaptured today hiding in a small light well in the prison library, Warden Clinton Duffy announced.

### KING NAMED PRESIDENT OF C. OF C.

M. L. King was elected president of the Ranger, Chamber of Commerce at the annual election of officers held Monday night at the regular meeting of the directors.

R. A. Tunnell was named vice-president, C. B. Pruet, treasurer and R. V. Galloway, manager.

T. C. Wylie, retiring vice-president, presided at the meeting in which a written report of the planning and projects committee was presented by B. A. Tunnell, chairman.

Of the plans and projects submitted by the committee three received the immediate approval of the directors and were given the green light signal. The three plans were for a clean-up campaign, an annual banquet and a membership drive.

### C. OF C. PRESIDENT

M. L. King

### Senate Roused By Baruch's Atomic Alarm

WASHINGTON — Reports of new Soviet spy activities today spurred Senate demands for greater military participation in the nation's atomic program.

They gained impetus after elder statesman, Bernard Baruch, told Senate members of the joint atomic energy committee that he was deeply disturbed by leaks of atomic secrets.

Baruch suggested that Moscow may have revived the atom spy ring which Canadian authorities uncovered last year.

### Texas House Adjourns Today Despite Chiding

AUSTIN — Unmindful of chiding "that a lot of valuable time is being wasted," the Texas House of Representatives adjourned today after less than an hour session.

It was taken up mostly with reading and passage of resolutions and assignment of bills to committees.

The House has been in actual session only 11 days since it convened three weeks ago.

### Work On Ranger Directory About One Third Done

C. L. Morehead of the Morehead Directory Company, here to compile a city directory for Ranger and Eastland combined, stated today that the work in Ranger is about one third completed.

Morehead said that enumerators are finding housewives cooperative and he feels sure that the enumeration will reflect the increase in population in Ranger since the last directory was compiled.

The directory's goal is to list the name of every person in Ranger over 18 years of age, the occupation, residence address, including every business and professional office and firm in Ranger. The directory will be classified and in alphabetical order.

Besides being a directory of Ranger and Eastland, information on Eastland county families will also be included.

### Safe Cracker Caught

John O'Brien, one of five safe crackers captured in a real estate office in Chicago, struggles with police in the station. In a gun battle with police, two of the bandits were slain and three were captured. (NEA Telephoto).

### Brotherhood Meeting Held On Monday Night

The Brotherhood of First Baptist Church had their regular meeting Monday night with one hundred and one present.

The program opened with the men singing "Amazing Grace. The invocation was by Rev. D. C. Ham.

A delicious meal was served consisting of hot Bar-B-Que sandwiches, home baked pies and coffee prepared by J. L. Jones, A. W. Warford, table captain was responsible for the menu. Mrs. Eastland and her Economic Class very graciously served the tables.

Much interest was shown in the awarding of the prize for the best decorated table. The prize being a "winner banner". A booby prize was also awarded.

The program was highlighted by a male quartette from Hardin-Simmons University at Abilene. In their unique manner of singing, they added much joy and entertainment to the program.

Rev. Dallas Lee inspired the men with a message on "Seat Warmers", cautioning the entire group not to make the same tragic mistake that the Apostle Peter did when he denied Christ. He made mention of the fact that Peter was content with his own well being while Christ was on trial for his life. "Too many Christians today are content just to be "Seat Warmers" in our churches while a hungry, starving world is dying of sin," Rev. Lee said.

A challenge was issued to every man present to seek those that are lost and bring them to God's House that they may also share the warmth of the fire. Rev. Lee pleaded that we do something for Christ—seeking and pointing others to the way.

### Committee Not To Question Troop Removal

WASHINGTON — The House foreign affairs committee today unanimously rejected proposed legislation demanding complete information as to why the United States decided to withdraw American troops from China.

It acted after receiving a letter from Secretary of State George C. Marshall promising his fullest cooperation with Congress.

Just film on electric light bulbs absorbs from 15 to 20 per cent of their light.

### Group Questions Financial Status Of Airlines

WASHINGTON — Chairman Charles A. Wolcott, R. N. J., said today that the House interstate commerce committee is trying to find out whether recent air crashes can be blamed on the financial condition of airlines.

He said his committee hoped to learn "whether these companies have been forced to reduce expenditures on maintenance, communications, weather reporting, instrumentation, flight control, and other activities dealing with safety because of declining earnings."

### Compromise Tax Cut Plan Offered By Republican

WASHINGTON — Rep. Leo Allen, R. Ill., offered a compromise plan for graduated income tax cuts today as the Democratic high command opened fire on Republican tax policy.

Under Allen's plan there would be a 20 per cent cut for persons earning up to \$2,500 a year, 17 per cent for incomes between \$2,500 and \$5,000, 15 per cent for \$5,000-\$10,000, and 10 per cent for those above \$10,000.

There are 20,358 bridges on the Pennsylvania highway system, 248 of them covered.

Bewildered Over New Freedom

Richard Torrez, 5, right, and his sister, Louise, 4, sit in Jackson County Parental Home after their rescue from the Kansas City, Missouri, tenement basement, where they were found with their hands and ankles bound. The boy's swollen face shows blackened eyes and there are numerous bruises on his body. The girl's nose is broken, and she suffers from bruises and malnutrition. The parents, Mr. and Mrs. Mike Torrez, are being held by police for investigation. The mother and father reportedly states they have been keeping the children bound for two months because "they sometimes throw things and mess up the house." (NEA Telephoto).

Mystery House Baffles Homeless

DETROIT (UP) — The continuing housing shortage has failed to solve the mystery of why a comfortable-looking, two-story house in a Detroit residential district has stood vacant since it was built 16 years ago.
For the solution to the mystery, don't go to Otto E. Schilawski, the owner, who turns deaf ears to the pleas of desperate home-hunters.
He shows up at the well-built house every Saturday. In winter, he shovels the snow off the path and stoop. In summer, he cuts the grass and pulls weeds from the lawn.
Schilawski, a man who knows how to keep a secret, meets inquiries with a flat: "It's none of your business. There's nothing anyone can do about it. It's my house and I'll do with it as I please."
Pressed further, he may mention some "estate trouble" that prevents him from leaving his

Mother Rears 70 Waifs As Hobby

FRESNO, Cal. (UP) — Fondness for children and search for a hobby has made Mrs. Alice F. Mahoney one of Fresno's most unusual mothers. During the past 15 years, this middle-aged woman has reared 70 orphaned children.
Well-known by the Red Cross and the welfare department here, "Mother Mahoney" started caring for children as a hobby. She became so engrossed in the task and so fond of children she made it her life work.
During the past eight years she has saved 50 pairs of baby shoes and from the walls of her eight-room house, pictures of the children smile down at this unusual mother.
"I like the pictures of them up there," she said. "They can't talk back. Many of those children in the pictures write regularly from present address and moving to the "mystery house," a and sometimes adds:
"There is also a sentimental reason."
But that's all Schilawski will say.

Your Eyes Require Protection

Provide your child's eyes with a proper seeing environment. If there is any difficulty in seeing, any evidence of eyestrain, fatigue, frequent headaches—glasses may be needed. Bring the child in for a thorough, scientific eye examination.

1847 - 1931

THE "WIZARD OF MENLO PARK" PATENTED OVER 1,100 INVENTIONS, 335 ON ELECTRIC LIGHT AND POWER.

BAMBOO FROM CHINA DID IT!

DEAF FROM BOYHOOD, THIS HANDICAP WAS AN ASSET TO EDISON-IT SHUT OUT DISTRACTING SOUNDS, HELPED HIM CONCENTRATE

IT TOOK 6000 EXPERIMENTS OVER AN 8-YEAR PERIOD TO FIND A SUITABLE FILAMENT FOR THE INCANDESCENT LAMP.

JUST IMAGINE A WORLD WITHOUT ELECTRIC LIGHTS, MOTION PICTURES, TELEPHONES, ELECTRIC POWER - ALL MADE PRACTICAL BY EDISON.

NOT ONLY DID EDISON INVENT THE ELECTRIC LAMP - BUT HIS POWER PLANT IN NEW YORK WAS THE FIRST OF ITS KIND

6 JUMBO SIZE DYNAMOS, ALSO INVENTED BY EDISON, GENERATED THE POWER AT THE "OLD PEARL STREET PLANT"

MY FIRST BIG JOB

The 100th anniversary of the birth of Thomas A. Edison is being observed throughout America to honor the memory of a man whose inventive genius has brought comfort and convenience to people throughout the world.

We as workers in the power and light industry are proud that Edison established the first steam-driven electric power plant. This small power plant

was the beginning of an industry which gave America a tremendous advantage in waging a victorious war, and which is now providing power for still greater industrial development in Texas and in the nation.

Edison took out a thousand patents on his inventions and was awarded the Congressional Medal which reads: "He illuminated the path of progress by his inventions."
