

about dimmitt and castro county

by b. m. n.

I guess peach trees are like people, when they get old they naturally die. Our six or eight peach trees have been in the process of losing a limb now and then for the past several years...

Since the kids grew up and left home we have abstained from acquiring pets, dogs, cats, etc. But for some unknown reason to us our place has become a haven for stray cats.

As usual the Democrats are in the process of conducting a harmonious convention, or that is so far there hasn't been any casualties. The Democratic party is sort of a fraternal organization...

Senator John Pastore of Rhode Island gave the finest keynote address I have ever heard. Of course the Republicans and the Republican candidates supplied him with plenty of subject matter.

A Republican sign, along with a picture of Senator Goldwater, in a prominent place near the Boardwalk in Atlantic City proclaimed that "You Know In Your Heart That Senator Goldwater Is Right."

Mr. Izzard ran out of material and disappeared from the scene for a few days. But Tuesday he was back at the old stand with a rather weak comment.

Mr. and Mrs. O. R. Moore and Richard Dell and Linda returned home Monday from Muskogee, Oklahoma where they attended a family reunion. While there, Mr. Moore's brother, Bernard Moore, 47, died of a fatal heart attack.

Brock To Speak At Demo Meeting

"Why we should vote the Democratic ticket all the way", will be the topic of a talk by Ralph Brock, a well known lawyer and county committeeman of Lubbock who will be guest speaker at the meeting of Democratic League of Women Voters to be held in the new High School Cafeteria at 3 p.m. Saturday, August 29.

Mr. F. J. Mears Jr. went to Memphis, Tenn., last weekend to accompany his wife home. Mrs. Mears had been visiting their daughter and family, Mr. and Mrs. Zay Gilbreath and children.

THIRTY SEVENTH YEAR

DIMITT, CASTRO COUNTY, TEXAS, THURSDAY, AUGUST 27, 1964

16 PAGES — NUMBER 45

SHOWN HERE is the new Hart High School which will be ready for occupancy August 31. Open house is scheduled Sunday, August 30. See story.

At Hart High School Sunday Dedication Ceremony Set

Dedication ceremony for the new ultra-modern Hart High School will be Sunday, August 30 from 2 to 2:30 p.m. announces Paul Kennedy, superintendent of schools.

The school is constructed of Hay-dite block and buff brick. It is trimmed with green-glazed face brick trim and is windowless. The building is air-conditioned throughout.

In the main corridor leading into the school, there is a terrazzo pattern of a Longhorn's head. The pattern is maroon and white, Hart's school colors.

Dimmitt Bobcats Open Season With 37 Players At Workouts

Dimmitt Bobcats got underway last Monday with 37 boys reporting for the football workouts according to Coach J. D. Covington. The Bobcats have six seniors, 14 juniors and 17 sophomores.

At center: Dan Petty, 163 lbs.; Larry Hobratchek, 183 lbs. and A. D. Schreck 168 lbs. As guards: Jack Flynn, 145 lbs.; Muriel Bussey, 131 lbs.; Keith McMahon, 155 lbs.; Stanley Byrnes, 140 lbs.; Rodney Hutto, 151 lbs.; Moses Murrilo, 189 lbs.; and David Ellis, 127 lbs.

Moore's Brother Dies Suddenly

Mr. and Mrs. O. R. Moore and Richard Dell and Linda returned home Monday from Muskogee, Oklahoma where they attended a family reunion. While there, Mr. Moore's brother, Bernard Moore, 47, died of a fatal heart attack.

Odell James Brings First Load Of Milo

Odell James, farmer near Sunny-side, brought in the first load of milo to Dimmitt Saturday at 6 p.m. to Dimmitt Wheat Growers. The irrigated milo tested 22 percent moisture. James had 12,000 lbs. of milo on the truck.

School Opening Date Is Monday

Students nears for school students' carefree moments of summer vacation as school will open Monday, August 31.

The school year in Dimmitt opened with a general faculty meeting this morning in the high school auditorium. This year's faculty is complete and is the largest in the history of Dimmitt Public Schools.

Classes will begin Monday morning at 8:30 a.m. with the buses making their regular run on the same schedule as last year.

The High School, Junior High, North Grade and South Grade principals' offices are open for completion of last minute enrollment and payment of school fees.

Past Nobles To Meet

The Past Noble Grand Club will meet in the home of Mrs. Mayme Birdwell Tuesday, September 1 at 8 p.m.

County 4-H Fair Scheduled Sept. 5

Due to the cancellation of the regular Castro County Fair, the 4-H Council and Leaders Council decided to conduct a 4-H Fair. This will be a one day event, Saturday, September 5.

The exhibits will be in the Assembly Room in the basement of the courthouse. Exhibitors in Youth Department are limited to 4-H Club and FHA members.

Dimmitt will have a carnival August 31 through September 5 on the southeast corner of the square. Rules and regulations for the county 4-H fair are listed in this issue of the News.

Mrs. Edd McLeroy is serving as superintendent of the fair. Assisting her in the various divisions are Mrs. S. R. Hutto, superintendent of baking division; Mrs. Donald Adams, superintendent of clothing division; Mrs. Bill Simpson, superintendent of canned fruits and vegetables division; and Bill Simpson, chairman of Individual Farm Products.

Entries for the one day fair will be accepted until 6 p.m., Friday, Sept. 4 except in case of baked food which will be accepted until 10 a.m., Sept. 5. Entries must remain on exhibit until 6 p.m., Saturday, Sept. 5.

Cash awards will be given first, second and third places to both Junior and Senior girls in each division.

Champion Gardner will be selected at the fair. To be eligible one must have at least five entries in different vegetable classes. A \$7.50 prize will be awarded the champion.

Champion Farmer will be selected also. To be eligible, one must have at least five different entries in farm products. A \$7.50 prize will be awarded to the winner.

County Activities Committee Hears Roundup Reports

Castro County Activities Committee met Monday night in the basement of the courthouse to hear reports from all the committees and organizations taking part in the Castro County Roundup Week.

The group reported "wonderful co-operation from everybody in the county." There is a general feeling that Roundup Week can be made more self-supporting and be less strain on the merchants.

According to a report from the finance chairman, the Week made a small show of profit. The Roundup Committee will sponsor the Rhodes Carnival, August 31-Sept. 5. Proceeds from the carnival will go into the general fund for next year.

The carnival will be set up on the southeast corner of the square. Election of officers for the Activities Committee will be held September 14. Wes Anthony, chairman, is in the process of appointing a nominating committee.

CONSERVATION CONVERSATION

"The real purpose of intelligent conservation is simply to guard against willful waste so that future generations need not be handicapped by woeful want."—John Hays Hammond.

Dimmitt Farm Bureau Agents Win '64 All Stars

Theo Campbell, Agency Manager and Eugene Hochstein, Special Agent for the Castro County Farm Bureau were among 48 Farm Bureau Agents in the state to qualify as 1964 Texas All Stars, for their outstanding sales in Life Insurance.

The winners of the Texas contest also received expense paid trips to Six Flags Over Texas amusement park for their entire family. Campbell and Hochstein left with their families Sunday August 9 and returned the following Wednesday. They reported that this was one of the most enjoyable trips they had made.

The Castro County Farm Bureau Agency consists of Theo Campbell, Agency Manager, Special Agents, Eugene Hochstein, Noble Howard and Leon Collins, and is one of the highest rated agencies in the State, having produced over One Million Dollars of Life Insurance in the County for the last three years. Campbell is a six-time qualifier for the All Star Contest, and is a member of the Southern Farm Bureau Life Insurance Company Round Table. He is rated as a King, of which there are only 14 in the entire country.

Hochstein has been with the company a little over one year and has won many awards along with trips to Jackson, Mississippi, and Dallas and he is well on his way as a qualifier for the Round Table.

Funeral services for Mrs. J. A. Savage, 66, sister of Mrs. George Blanton of Dimmitt were held at 3 p.m. Tuesday in the Wood-During Colonial Chapel with Billy Anderson, Lubbock minister, officiating.

Mrs. Savage passed away at 6:15 p.m. Sunday in Plainview Hospital following a three-week illness. The former Lucille Kimbell, Mrs. Savage was married in Plainview in 1915. The couple lived east of Kress in Swisher County until 1955 when they moved to Plainview. She was a member of the Jehovah's Witness Church.

Survivors include her husband of the home; four sons, James of Plainview, J. E. of Plainview, Jesse of Denver City and C. R. of Kress; three sisters, Mrs. L. E. Langford of San Antonio, Mrs. George Blanton of Dimmitt and Mrs. Mabel Bills of Amarillo; three brothers, Boyd Kimbell of Portales, Eugene Kimbell of Plainview and Edwin Kimbell of Plainview; eight grandchildren and one great grandchild.

Funeral Services Held Tuesday For Mrs. Savage

Funeral services for Mrs. J. A. Savage, 66, sister of Mrs. George Blanton of Dimmitt were held at 3 p.m. Tuesday in the Wood-During Colonial Chapel with Billy Anderson, Lubbock minister, officiating.

Mrs. Savage passed away at 6:15 p.m. Sunday in Plainview Hospital following a three-week illness. The former Lucille Kimbell, Mrs. Savage was married in Plainview in 1915. The couple lived east of Kress in Swisher County until 1955 when they moved to Plainview. She was a member of the Jehovah's Witness Church.

Survivors include her husband of the home; four sons, James of Plainview, J. E. of Plainview, Jesse of Denver City and C. R. of Kress; three sisters, Mrs. L. E. Langford of San Antonio, Mrs. George Blanton of Dimmitt and Mrs. Mabel Bills of Amarillo; three brothers, Boyd Kimbell of Portales, Eugene Kimbell of Plainview and Edwin Kimbell of Plainview; eight grandchildren and one great grandchild.

"Bill" Hays, Republican candidate for Texas Congressman-at-large will be in Dimmitt today, Thursday from 1 to 2 p.m. to visit with citizens here. He will be at Graham's Steak House.

Hays is a former member of the New Hampshire House of Representatives. He is from Temple and is currently serving as director of sales training for one of the nation's largest manufacturers of classroom furniture.

He is the winner of two national awards in baseball. He is the author of "Your Memory, Speedway To Success," now in its 6th edition. He is an author-narrator of the record album "Memory Magic."

He was the Republican party's nominee for Lt. Gov. in Texas in 1962 and polled over 600,000 votes in the general election.

Hays is a veteran of World War II. He is known as a constitutional conservative.

C. R. ANTHONY

CURTIS PARKER

Anthony's Grand Opening Is Today

C. R. Anthony Store will open the doors today for a big grand opening according to Curtis Parker, local manager.

The local store employs six full time employees. The store features fashions for the entire family plus home furnishings and many other useful items for customers says Parker.

Parker is a graduate of Sudan High School. He has been employed as assistant store manager for Anthony's in Muleshoe for the past three years. He and his wife, Shirley, reside at 403 S.W. 6th St. They have one son, Larry who is two. They attend the Assembly of God Church here.

Parker promises plenty of treats and balloons for all the kiddies at the grand opening of the 50 x 120 ft. C. R. Anthony store.

Parker says, "We have enjoyed living in Dimmitt and like the town real well."

The story of the C. R. Anthony Company is in effect the story of a free America. It is the story of that man, Charles Ross Anthony, a Tennessee farm boy who was orphaned at 13 and had to set out to make his own way.

Mr. Anthony's parents were Tennessee tenant farmers. When he was but seven years old, he was chopping and picking cotton. At thirteen, orphaned, he was grubbing sassafras and splitting rails to earn money. When he finally accumulated \$24 he rode the Home Seekers special to Indian Territory to what is now Holdenville; arriving there with a nickel in his pocket.

Willie D. Pierce Participates In NATO Exhibition

Army PHG Willie D. Pierce, son of Mrs. Wilma Gross, Route 5, Dimmitt, Texas, participated in a NATO fire power demonstration at the Seventh U. S. Army training area near Grafenwohr, Germany, July 27.

The demonstration was presented for the British War College to show the combat capability of American weapons.

Pierce is assigned to Battery C, 2d Battalion of the 28th Artillery in Germany. He entered the Army in June 1963 and completed basic combat training at Fort Polk, La. The 20-year-old soldier attended Cotton Center High School.

FRANCOISE STURBELLE (left) is pictured with her American family, Mr. and Mrs. M. E. Cleavinger and Jane Cleavinger at the bus station in Amarillo where she arrived about 1 a.m. Tuesday morning, August 18. Francoise is Dimmitt's foreign exchange student this year. She is from Brussels, Belgium. Over 30 Dimmittites were on hand to greet Francoise Tuesday morning. —Staff Photo

**PANTALOONS AND STETSONS SQUARE DANCE CLUB** of Dimmitt won the trophy pictured here at the Bovina Bull Town Days celebration, Friday, August 14. Dimmitt square competed against two Amarillo clubs to win the trophy. Members are (left to right) Ronnie Brown, CeVene Neill, Tracy Cowell, Earlene West, Bob West, Betty Cowell, Helen Brown and Wesley Brown. See story.

**SEPTEMBER 19**

**Holly Sugar Corp. To Dedicate New Sugar Plant At Hereford**

Hereford, Texas, August 17—Dedication of Holly Sugar Corporation's new multi-million-dollar sugar plant here, first such industrial complex in Texas, has been scheduled for Saturday, September 19, with Texas Governor John Connally the principal speaker, it was announced today by Dennis O'Rourke, Holly President.

The plant has been named in honor of the late Merrill E. Shoup, former President and Chairman of the Board of Directors of Holly, who died on July 15.

A program to which the public is invited will begin at 10:30 a.m. at the plant which is located on a 1,700-acre site just west of this Texas panhandle community. Immediately following the program, the public will be conducted on tours of the huge new food plant. Construction of the Holly installation, the newest and one of the most modern and largest in the world, has been under way since the spring of 1963. Sugar-making operations are scheduled to begin October 1, Mr. O'Rourke said today.

The Hereford beet sugar refinery will be able to produce, under optimum conditions, up to as much as 200,000,000 pounds of sugar annually. This will be the only sugar produced on farms in Texas, and refined in Texas, the Holly President pointed out. Some of the beets processed at plant will be grown in a portion of neighboring New Mexico.

Sugarbeets processed at Hereford will be supplied by farmers located in the vast high plains agriculture area surrounding the impressive big new industrial complex. The plant will have capacity to process in excess of 6,000 tons of beets daily and will operate 24 hours a day, 7 days a week, each fall and winter until the entire annual beet crop has been converted into sugar.

"We are honored that Governor Connally will be with us on the important occasion of the plant dedication which will mark the beginning of a new chapter in Texas agriculture and industry," Mr. O'Rourke said.

He added that dignitaries and special guests from many parts of the nation have been invited to be present and to participate in the dedicatory program.

The Merrill E. Shoup plant includes several outstanding features. Closed circuit television will be used in monitoring some plant operations. Another feature is the largest diffuser of its kind in the world. This huge cylindrical machine is used in steeping sugar juices from the sugarbeets. The plant also includes an impressive main process building in which is housed sugar-making equipment of latest design; bulk sugar silos with a capacity of 60,000,000 pounds of sugar; three huge dried beet pulp warehouses, each covering an area almost as large as a football field, and numerous other buildings and manufacturing installations.

Latest techniques of instrumentation and automation have been incorporated in the new plant which is expected to draw technicians and other visitors from many parts of the world where beet sugar is also produced. The plant, unique in southwest, also includes juice storage equipment pioneered and developed by Holly at its Imperial

Valley, California, refinery and novel in the sugar-making industry. In this maiden year of the new operation, some 27,500 acres of sugarbeets were planted in the region. Next year and in future years the total acreage is expected to be increased sharply and will be distributed among farmers who welcome the new non-surplus cash crop as a valuable addition to their farm rotation programs.

"This new enterprise will add many millions of dollars in new wealth and dollar circulation every year to the economies of the region and the nation," Mr. O'Rourke said today. "This will include cash payments to farmers for their beet crops, employment at the plant and purchase of a multitude of supplies and services necessary in the operation of a plant of this great scope."

Already the new facility has brought an economic surge in the area, it was reported recently by Congressman Walter Rogers (D-Texas) who said that some 46 permanent new business and service establishments have opened in the Hereford area since it was known that the Holly plant would be located there.

Mr. O'Rourke said that Holly has moved to the area more than half-a-hundred key plant technicians, agricultural specialists, and others who will guide the operation of the plant and help growers in production of the beet crop. These people, along with members of their families, will be permanent residents of the Hereford community. Employment at the plant year-around is expected to be approximately 100 individuals, while total employment during sugar-making operations will increase to about 350 in all departments of the complex operation.

Visitors to the Holly plant for the dedicatory program will be given special gift packages of Holly sugar and other mementos of the occasion, according to Holly officials.

**Lazbuddie Baptist Church To Have Homecoming**

Lazbuddie Baptist Church extends a cordial invitation to all former pastors, members and friends of the church to attend the Homecoming and Bond Burning on Sunday, September 6 from 10 a.m. to 8 p.m. Noon and evening meals will be served.

**Soft Water Provides Carefree Summertime Beauty Care**

Summer sun and wind can play havoc with the complexion and hair.

With golfing, swimming, sun bathing, boating — all outdoor fun activities exposing us to the elements, there is need for greater care of skin and hair at the very time we want to be most carefree.

"Fully soft water provides carefree beauty aid during the relaxing summer months," states a spokesman for the Water Conditioning Foundation.

Further, there is nothing like a soft water bath or shower to wash away the cares and heat of a sticky hot weather day when work is on the schedule.

With fully soft water available, hot weather bathing becomes doubly delightful. Not only does it refresh, it also leaves the body free of sticky soap and dirt films that can lead to skin irritations.

"Soft water bathing," the WCF spokesman adds, "provides cleanliness protection not otherwise possible. For soft water prevents the formation of soap curd and detergent deposits.

To make the most of fully soft water for personal grooming, follow these suggestions:

1. Bathe regularly in fully soft water, several times a day, if desired.
  2. Remove dirt and excess secretions by using a pure soap that lathers freely.
  3. Rinse all soap from the skin. Use water generously to float away the soap film.
  4. If the skin does not return to its normal acid condition within 10 to 20 minutes after bathing, use a slightly acid rinse. A few drops of vinegar in some rinse water will do the trick.
- Soft water has also long been rated most effective for shampoo-

**NAZARETH SCHOOL**

**Earth Celebrates 40th Anniversary**

Plans are underway for Earth's Fortieth Anniversary Celebration, Saturday, August 29.

Registration will begin at 9 a.m. Saturday for the big celebration. Arrangements were complete for a team of sky divers from Amarillo to drop in on the celebration between 9 and 10 a.m. to kick off the activities.

There will be five divers, and two planes. Three of the divers will make low jumps, while two will bail out at approximately one and a half mile heights.

The planes are being furnished by Bruegel Elevators of Dimmitt, Flagg and Dodd.

From 10 to 11:30, Go-Kart races are scheduled. Lunch time will be from 11:30 to 1 p.m. and individual arrangements can be made to picnic with friends or at home though no city-wide plans have been made.

At 1 p.m., a greased pig race and calf scramble will be held at the rodeo grounds. There will be a watermelon eating contest at 2 p.m. for the younger set. The fun continues at 3 p.m. with sack races and three-legged races for children ages 4-8 and 9-12.

The city pool will be the scene for a water show at 4 p.m. An old-fashioned cake and pie sale will be sponsored by the Earln Rebekah Lodge at 5 p.m.

At 5:30 p.m. there will be a barbecue in the FFA barn, followed by judging the beard growing contest, presentation of old folks awards, and a beauty contest.

A street dance will round out the day's activities. Several square dancing clubs from this area have been invited to attend.

**Milady Garden Club To Resume Fall Meetings**

Milady Garden Club will resume their regular meetings Tuesday, September 1 in the Community Room of the courthouse at 3 p.m.

Bill Langford of Hereford will be special guest speaker. He will speak on the subject of "Lines and Arrangements."

Anyone interested in becoming a member of the Milady Garden Club is invited to attend. All members are urged to be present. Hostesses will be Mesdames Don Hargrove, Bryce Dowell and George Sidles.

**Square Dancers Win 1st Place**

Pantaloons and Stetsons Square Dancing Club of Dimmitt won first place trophy Friday night, August 14 at the Bovina Bull Town Days celebration.

The Dimmitt square danced against two Amarillo clubs in order to win the trophy. The square was composed of Tracy and Betty Cowell, Bob and Earlene West, Wesley and Helen Brown, Ronnie Brown and CeVene Neill.

The Dimmitt Square Dance Club goes to Hereford every Wednesday evening at 8 p.m. for plenty of square dancing fun. The Club members invite anyone interested in square dancing to attend the Hereford dance. Lessons will be given to beginning dancers. Sid Perkins does the calling.

So grab your partner and do-see-do

**Clevelands Have New Baby Son, Kevin Lee**

Mr. and Mrs. Kenneth Cleveland are proud parents of a baby son, Kevin Lee, born at 10:15 a.m. Wednesday, August 19 in Hereford Hospital. He weighed 6 lbs. and 13 1/2 ozs.

Kevin Lee has two sisters, Beth who is 5 and Vickie who is 3. Grandparents are Mr. and Mrs. S. O. Cleveland of Coleman and Mr. and Mrs. Mike Pegram of Forth Worth.

**GUEST OF PARSONS**

Guests in the home of Mr. and Mrs. Don Parsons Sunday were Mr. and Mrs. P. J. Parsons of Hereford and Mr. and Mrs. Bobby Duboise of Lubbock.

with the Dimmitt Square Dancers every Wednesday evening at Hereford.

**JAMES MATHIS**

**Mathis Joins Voc Ag Staff**

Jerry K. Mathis has been employed as full time vocational agriculture teacher in the Dimmitt School system. He will be working with Elroy Otte.

Mathis is the son of Mr. and Mrs. Henry Mathis. His favorite sports are football and golf. Mathis received his Bachelor of Science in Agriculture education at Texas Tech in Lubbock last spring.

Mathis assisted Lanny Tucker of Hart last year during his student teaching duties. According to Tucker, Mathis was instrumental in helping make the best possible future for Hart ag students. Most of the assistance rendered by Mathis came under special information and consisted of the modern, up-to-date techniques learned in Tech classrooms.

Otte and Mathis plan to have an outstanding Vocational Agriculture Department in Dimmitt this year.

**Mrs. Fry Attends Broadway Musical**

Among the fortunates who were able to obtain tickets to "Hello Dolly!" starring Carol Channing during a visit to New York was Mrs. Leonouds Fry formerly Miss Yvonne Bearden of Dimmitt, now of Port Neches. While in New York, Mrs. Fry attended a performance of Broadway's biggest hit musical comedy at the St. James Theatre. Produced by David Merrick and directed by Gower Champion, "Hello, Dolly!" has been playing to SRO audiences ever since it opened January 16 when the critics tossed their adjectives in the air for the nation's greatest stage success since "My Fair Lady."

## TRAVEL TIPS

### How To Pack

One of the secrets of happy travelling is knowing how to pack. Learn an easy packing technique, study your needs for the trip, then pack so that you avoid frustrating re-packing when you're dashing for plane, ship or bus.

Here's a simple way to organize your packing:

Make a list of everything you think you'll need. Then cut it in half. You'd be surprised how easy that is. Like cutting a 50-word telegram down to ten little words.

Next, pack in the order of use: If you're going to stay in one place, your task is easier than if you rove. In either case, pack the things you'll need first last so that they are on top. Shoes, stockings, scarves, lingerie can be packed around the edges of the suitcase. Shoes should be in transparent bags. Put sweaters and flat evening bags in the bottom of the bag. Pack your nightclothes on top if you're going to move again in one day. That way, you won't unpack the entire bag to get what you need.

Make things serve double purposes: A beach coat can be a negligee; beach shoes can be bedroom slippers, too.

There are three good methods to pack dresses: The roll-up method is fine for armless and non-wrinkle jerseys. The flat-fold

method eliminates lumps. The hanger method is newer and worth a try. Cover wire hangers with paper. (Use the hangers that come from the dry cleaner.) Put the dress on the hanger, fold the bottom half over the top, stuff tissue paper in neck of dress, and place flat in bag. This way, if hotels provide too few hangers, you have yours built-in! Be sure to place the long side of the hanger against the wall of the suitcase, with the hook section inwards. These hangers weigh very little and simplify unpacking.

Keep all 'spillables' in a separate little train-case or make-up bag. Use plastic bottles. This is a safe place for perfume, too.

Consider your destination when you pack. If you'll be headed for Florida, all you'll need will be beachwear and evening clothes. Simple shorts, bathing suits (2) and cottons for moonlight. An evening sweater or stole will supply glamour. Never over-dress.

Save all the time you can for relaxing while you're away. That's why you planned the vacation. And, just to save your good times, take on your wrist or around your neck would be fine. Take snapshots as you have fun—at the beach, at the pool. An avenue lined with Royal Palm Trees makes a beautiful picture for your album. You can go wild with color pictures, slides or just plain black-and-whites. Pictures of yourself and your new-found friends are always fun to look at when you get home.

### First Methodist Church Announces Promotion Day

First Methodist Church of Dimmitt plan a Promotion Day, Sunday, August 30 for the children of the Church School.

Primary boys and girls, who will advance to Junior Department, will be presented Bibles by Mrs. Morris Gowdy, on behalf of the Wesleyan Service Guild.

Children will be promoted to their new classes during the last ten minutes of the class session Sunday morning.

### Change Proposed In Beef Grade Standards

A revision of U.S. quality standards for beef has been proposed by the U. S. Department of Agriculture in line with recent recommendations of the National Advisory Committee on cattle and several state and national cattlemen's organizations.

De-emphasis of maturity as a grading factor in young beef is the major proposed change, says Frank A. Orts, Extension meats specialist at Texas A & M University. This revision would result in some reduction of marbling requirements for prime, choice, good and standard grades and would reduce the number of maturity classifications in these grades from three to two, Orts points out. It would also eliminate the two marbling degrees in excess of that now classified as "abundant" in determining quality grade.

The other revision, he said, is that all carcasses must be ribbed to be graded; that is, the hind-quarter and forequarter must be separated between the 12th and 13th rib so the ribeye is visible to the grader.

Although beef palatability tends to increase with age, increased marbling tends to enhance palatability. Thus, says Orts, grade standards require increasing amounts of marbling to compensate for increasing maturity.

Recent research has indicated that additional marbling required to offset increased maturity in cattle under 30 months of age has been over-emphasized, the specialist says. The new proposal would reduce by one degree the marbling required in choice grade beef carcasses from animals 28 to 30 months old.

The USDA states the revision will simplify application of grading standards and grading of only ribbed carcasses would make the nationwide grading service more accurate and uniform.

Interested persons are invited to submit written comments and views on the proposal to the Hearing Clerk, USDA, Washington, D. C., says Orts. Copies of the proposed change may be obtained at my office, he adds, or from the Livestock Division, Agricultural Marketing Service, USDA.

### RETURN HOME

Mr. and Mrs. Sam Maynard and Mr. and Mrs. G. E. Phillips of Amberst returned home recently after a few days visit in San Angelo.

### THE SAFETY SENTRY

BY JANE DAVIS

### Driving "Do's" & "Don't's"

After studying "do's" and "don't's" of safe driving, safety experts of Sentry Insurance announce the 10 most important precautions for motorists. Surveys show vast majority of drivers think of themselves as "better than average drivers." Yet, most traffic accidents are a result of violation of the law or common-sense rule of safe driving.

Slow down and enjoy your trip. "Speed too fast" is number one killer. Adjust speed to road conditions. In heavy rain, front wheels actually leave road at 50 m.p.h. and skim on rain film. Stay on your side. Allow plenty of time and distance for passing. Don't pass on an intersection, curve, bridge, railroad tracks. Yield right of way. An intersection is a danger zone, proceed with caution.

If you're driving, don't drink. Two drinks can blunt reflexes. Avoid driving under influence of drugs. Effects of "pop pills," tranquilizers, other medicines, can be dangerous behind the wheel. Ask your doctor about effects of remedies prescribed. Keep your distance. Allow at least one car length between you and car ahead for each 10 m.p.h. Make exit gracefully. Get in right lane early when leaving a super-highway. Turn into "speed change" exit lane without slackening speed, then decelerate rapidly.

Use directional signals. Failure to do so may bring a traffic ticket. Obey traffic signals. Passing of STOP signs is a common accident cause according to Sentry Insurance findings. Finally, check up before starting up. Lights, signals, brakes, tires, steering, exhaust system, wipers, horn and rear-view mirrors should be in top condition.

# Through a hard-hitting, conscientious Advertising Program

Competition is a demanding taskmaster—but it can also be the greatest rewarding factor in merchandising or servicing. It is a taskmaster when competition defeats, when it sets the rut that engulfs the businessman. Competition is rewarding when the merchant forces it to become his tool, when he knows he has a thriving, growing business that will never want for customers. Business goes where it is invited—and competitive prices, outstanding courteous service with a good selection, and promotional advertising will do the most inviting.

Do yourself, your customer, and your community a favor by using the pages of the Castro County News to sell your goods and services. It is not only good business but it will help you gear your operation to today's quickly changing trends and increasing competition.

Success stories of large businesses almost always hinge around concentrated advertising and other sound business practices. Start a campaign now—you'll be amazed at how quickly you will feel the difference. Just telephone 647-3488 and a salesman will call on you at your convenience.

Accent on Health
J.E. PEAVY, M.D.
Commissioner of Health

Anyone who is under the impression that glue sniffing gives a false few harmless kicks is sadly mistaken. Serious damage may be caused by the solvents in glues.

Anthony's Opening

(Continued from Page One)
homespun jeans. He needed a job and applied at general store owned and operated by a widow. She wanted a man and he was a boy; but Mr. Anthony, a natural born salesman, sold himself to Mrs. E. J. Seales.

When Mrs. Seales decided to sell the business, she wanted him to buy it. With a little cash and a \$6,000 bank loan, Mr. Anthony, at eighteen, was in business for himself. The first year he cleared his indebtedness, but the next year the floods came and he was nearly wiped out.

RETURNS FROM COLO.

Howard Sammons and son, Terry and Ronnie Brown returned home Saturday, Colorado Springs and other points in Colorado where they enjoyed fishing for several days.

OUTING AT RUIDOSO

Mr. and Mrs. Joe Benson and daughter, Susan and Ruth Dyer and Mrs. Benson's parents, Mr. and Mrs. Jones, Hereford enjoyed week-end.

SORGHUM MIDGE CONTROL

Any sorghum producer who has suffered through a season of midge infestation is familiar with the stunted spikelets that result. In Texas alone, yield losses resulting from midge damage was estimated at 300 to 500 million pounds in 1963 by the School of Agriculture of Texas Technological College.

Research work done at Texas A&M University and studies at Texas Technological College have both demonstrated that, when properly used, Diazinon insecticide provides effective control of the sorghum midge without danger of foliar burning of the plant.

Even when applied twice at the maximum recommended rate, Diazinon showed no tendency to "burn" the five most popular varieties of grain sorghum (Northrup-King 120, RS-501, RS-610, Producers Association Grain 665, and Lindsey 786).

For the control of sorghum midge, Diazinon is available in two formulations: Diazinon 50 W, which is 50% wettable powder, and Diazinon AG 500, which is an emulsifiable solution containing four pounds of technical Diazinon per gallon.

Application should be made at the rate of 1/2 to 1 pound per acre of Diazinon 50W, or 1/2 to 1 pint of Diazinon AG 500, per acre. Sufficient water should be used to assure thorough and even coverage of all sorghum heads.

UNITED STATES SAVINGS BOND
TREASURY DEPARTMENT
U.S. SAVINGS BONDS DIVISION
FACTS ABOUT UNITED STATES SAVINGS BONDS
1. They are Government bonds especially designed for individuals and backed by the full faith and credit of the United States of America.
2. They are unexcelled for safety, liquidity, guaranteed interest return, and freedom from market fluctuation.
3. There are two types: Series E and Series H United States Savings Bonds.
4. Series E is an accrual bond. You buy it at 3/4 of its face value. The interest is compounded semi-annually. They range in size from \$25 to \$10,000.
5. Series H pays interest by Government check two times each year. You pay face value for the bond. They come in convenient sizes from \$500 to \$10,000.
6. The interest from both Series E and Series H is not subject to state and local income taxes and personal property tax.
7. Both Series E and H are registered bonds and will be replaced FREE if lost, stolen or destroyed.
8. They are easy to buy. Over-the-counter at most any bank or automatically through the Payroll Savings Plan. Easy to cash too—at your bank.
9. You can exchange E Bonds for Series H any time you wish. No charges for this service.
10. With Series E and H Bonds you pay no commissions and clip no coupons. And they keep on earning interest for you—and building strength for America—as long as you hold them.

**MR. AND MRS. JESSIE WILLARD** are shown here with their two children, Julie, 2, and Jay, 3½. This young farm family is getting their start in farming with the aid of Farmer's Home Administration, division of the Department of Agriculture. See story for details. —Staff Photo

**JESSIE WILLARD** (right) examines a stalk of grain sorghum on his section of land located seven miles southeast of Dimmitt. Looking on are (left to right) Newt Goodwin, assistant County Supervisor of Farmer's Home Administration; Marlis C. Barker, County Supervisor for Farmer's Home Administration; Judge Raymond Wilson and Edd McLeroy, bank representative. See story for details. —Staff Photo

### Farmer's Home Administration Aids Young Farmers Getting Started

Working more than a regular 8-hour day, Jessie Willard and his lovely wife, Martha with the assistance of Farmer's Home Administration are on their way toward a successful future in farming.

Willard, whose 640 acres is located seven miles southeast of Dimmitt, started almost from scratch. He was working for wages as a general farm hand when he first applied for assistance from Farmer's Home Administration.

The FHA is a division of the Department of Agriculture. According to county supervisor, Marlis C. Barker, the FHA is primarily concerned in helping young farmers get started in the farming business or to help reestablish older farmers when they have suffered undue hardship.

This program aids farmers who have had runs of hard luck such as halled out crops for five years in a row as did one Hale County farmer which FHA helped. Barker emphasized that the program helps young farmers get their start on the road to becoming a successful and responsible farmer.

State FHA office is located in Temple. L. J. Cappleman is the state director. Services of the FHA are available in every county in

the United States.

Farmer's Home Administration office serving Castro and Hale County is located in the agriculture building in Plainview. Assisting the county supervisor is Newt Goodwin. The FHA has a part time office open Tuesday and Thursday in the basement of the Castro County courthouse. The Plainview office is staffed with two supervisors and two office clerks. FHA is serving approximately 143 farmers from this office.

Barker says, "The farmers FHA takes are the ones who can not go to the bank for the credit." The agency makes several different types of loans according to the county supervisor.

Some of the more popular loans issued by FHA are Farm Operating loans, Rural Housing loans, Farm Ownership Loans and Soil and Water Loans.

The most used and most popular loan is the Farm Operating loan says Barker.

The supervisor states, "Instead of taking bank customers, we make bank customers." He continued, "Ordinarily, we help farmers get back on their feet financially in about three years and then turn them over to the bank of their choice."

According to Barker and Goodwin,

### O'Neal Injured While Skiing

William K. O'Neal from Tempe, Arizona, nephew of Mrs. Elmer Youts was seriously injured when his neck was broken in a water-skiing accident at Buffalo Lake, Thursday, August 20.

According to a report from Mrs. Youts, he is slowly improving in Northwest Texas Hospital in Amarillo.

Willard and his family have done an outstanding job in this Farmer's Home Management program. Willard got his start in farming on a quarter of a section in Happy Union three years ago. He has progressed to a section of land in Castro County with four good irrigation wells.

Mrs. Willard has added able assistance in helping her husband to ward a successful career in farming. She does all of her sewing, all of her canning and freezing and keeps a complete set of farming records.

She emphasizes, "When you have your expenses and income written down, it kind of sticks with you." This set of farm records helps Willard and his wife to profit on next year's operation from the preceding year's mistakes. The record is also useful for income tax purposes. Records include money spent on personal care, medical records, household expenses, personal insurance, and all family and farm expenses. Mrs. Willard is keeping a five-year inventory.

Willard started on 160 acres in Happy Union with two weak water wells. In fact, Willard was unable to irrigate when all his neighbors' wells were running. The young farmer spent two years farming 144 acres of this quarter section. He still made 1.5 bales to the acre of cotton one year and 1 bale to the acre the next year following hail damages.

Willard has been farming in Castro County for one year. This is his first crop year here. The land was heavily infested with Johnson grass but Willard has been able through hard work and plenty of effort to gain a lot of control over the pesky weed. One portion of the farm was covered with six ft. high careless weeds. Willard has done a good job in keeping the weeds down on the land.

Judge Raymond Wilson, county judge here, commented upon the farm, "I see quite a bit of improvement this year."

Crops planted on the section include 70 acres of soybeans, 60 acres of castor beans, 84 acres of cotton, 304 acres of grain sorghum and 70 acres of wheat. Willard made 65 bushels per acre on his wheat this year.

All fertilizers have been applied to the land which the soil tests called for says Willard. Nitrogen and phosphate have been applied under all the land.

Willard is working with two tractors, one 410 John Deere and one 70 John Deere. He does a large part of his farming operations. He has one hand working for him most of the time but does not employ a full time farm hand.

Willard says, "I wish that more young farmers knew about FHA. Without FHA, I would probably never have been a farmer."

The couple have progressed this far together as a team. His wife Martha, has assisted him with her canning, freezing and record keeping. The young couple have two children, Julie who will be 2 in a few weeks and Jay who is 3½.

Barker says, "The FHA program aids in making responsible citizens as children in farm homes are taught to take over chores and responsibilities at an early age."

The FHA supervisors consider that Willard has done an excellent job in farm management and his wife has done an outstanding job in managing the home.

Barker and Goodwin state, "We have real service here for young families who are trying to get started in the life of farming."

**DIMMITT BOBCATS** started practice Monday, August 17 in preparation for the upcoming football season. The Bobcats' first game is September 4 with the Muleshoe Mules, here. See story for details. —Staff Photo

**THIS 1962 FORD** was struck Saturday evening at 7:30 p.m. by Western Ammonia truck driven by Robert O'Hair. Driver of the Ford was Muriel Bussey. See story for details. —Staff Photo

### Car-Truck Collide At 2nd & Bedford

A car-truck accident occurred Saturday evening at 7:30 p.m. at the intersection of 2nd and Bedford. No one was injured.

Muriel Bussey, driver of a 1962 Ford, was crossing Bedford and only lacked 13 feet being out of the intersection when a Western Ammonia Truck driven by Robert O'Hair hit the right rear fender of the Ford. The WA truck was traveling east on Bedford at the time of the accident.

Total damages to the car was approximately \$400 according to W. W. Jones. Approximate damages to the truck was \$25.

Jenene Herrington of Summerfield spent the week with her aunt, Mr. and Mrs. David Hays.

### Texans Set New Record In Tags

Texas has licensed 5,632,373 vehicles this year, a new record and a 5 per cent increase over last year, the Texas Highway Department announced today.

Licenses of all types brought in total gross fees of \$120,833,000. Of this amount, \$84,180,000 goes to the state, \$27,862,000 to Texas counties and \$9,791,000 to county commissions. The remainder is allocated for various refunds, transfers and penalties, and duplicate receipt costs.

Harris County leads the 254 Texas counties in total vehicle registrations, with 747,734. Low county is Loving, in West Texas, with 185 registrations.

Following Harris County in total registrations are these: Dallas, 628,323; Tarrant, 338,003; Bexar, 237,505; El Paso, 141,989; Jefferson, 121,955; Nueces, 112,153; Travis III 359 and Lubbock, 111,130.

Texas has gained 261,316 vehicles over last year, the Highway Department said. Gross revenues from current licenses increased by approximately \$5,808,000 over those for last year.

Current vehicle registrations in Texas break down this way: Passenger cars, 4,016,467; commercial trucks 752,214; farm trucks, 204,263; truck tractors, 50,730; farm truck tractors, 1,261; trailers, 383,735; house trailers, 29,912; motor buses, 1,215; city buses, 1,739; tractors 1,408; farm trailers, 129,949; machinery 12,014; disaster relief vehicles, 46; soil conservation vehicles, 17 and heavy oil machinery, 137.

The Motor Vehicle Division of the Texas Highway Department is responsible for licenses and changes of titles on all motor vehicles in Texas. In addition to its concern with surface vehicles, the division also is administering agency for registrations of motor boats on Texas waterways. There are currently 177,421 motor boats registered in Texas.

**VISITS IN ARIZ.**  
Mr. and Mrs. Dale Maxwell and children returned home Wednesday from a vacation trip to Arizona. They made the trip via plane. They visited his uncle at Vicksburg, Arizona, also Mr. and Mrs. Don Nelson at Globe and they spent several days at Tucson sightseeing.

**VISITS SISTER**  
Mr. and Mrs. C. E. Green of Lamesa spent the week-end in the home of her sister, Mrs. Raymond Hance and family.

**HERE FROM LAMESA**  
Mr. and Mrs. A. H. Smith and son, Ronnie, Lamesa, visited Monday in the Raymond Hance home.

DOUBLE FRONTIER STAMPS ON WEDNESDAY

# General Rules & Regulations Of 1964 4-H Fair Announced

Mrs. Edd McLeRoy, Superintendent General Rules and Regulations

1. Exhibitors in the Youth Department are limited to 4-H Club and FHA members.
2. Each girl must do her own work. The entry must not have been judged in any previous event.
3. Junior Division includes girls through 11 years of age on Jan. 1st. Senior Division includes girls 12 and older on Jan. 1st.
4. The superintendents in each department in charge of entries reserve the right to accept or reject entries depending on condition or suitability for exhibit.
5. An exhibitor cannot enter more than one article under any one premium number.
6. In cases where there is only one exhibitor and no competition, judges shall award only one premium which may be 1st, 2nd, 3rd or 4th in accordance with merits of the exhibit.
7. Entries will be accepted in this division until 6:00 p.m. Friday, September 4th, except in the case of

8. Entries must remain on exhibit until 6:00 p.m. Saturday, September 5. Exhibitors must check their entries out from the Superintendent.
9. All exhibits must be the work of the exhibitor the past year.
10. No article can be exhibited for more than one premium.
11. Entries will be accepted only as listed in each division.
12. A cash award will be given for 1st place, 2nd place and 3rd place to both Junior and Senior girls in each division on the basis of a point system with blue ribbons - 5 points; red ribbons - 4 points; white ribbon - 3 points; pink ribbon - 2 points and green ribbons - 1 point.
13. All exhibits will be under the control and direction of the Superintendent, who will use diligence to assure the safety of all exhibits and protect against damage, but under no circumstances will she or any of the officials be responsible

for any damage done or required while at the Fair.

**BAKING—**

**SCOUT CREW** taking the 15-day wilderness trip into Canada include (front row: left to right) Randy Stevens of Lamesa, Ricky Ingram of Tulia, Robert Glasscock of Earth, Lynn Campbell of Olton and Mike Zeisler of Tulia; (second row: left to right) Ronnie Huckabay and David Seale, both of Dimmitt, Charles McClain of Olton, Otis Paterson of Olton, and Dwayne Campbell of Olton; (third row: left to right) Bill Quinn of St. Paul, Minn., Tom Miller of Minneapolis, Minn., swamper, Cloyde Miller of Plainview, Bob Huckabay of Dimmitt, Devon Wylie of Plainview and Glenn Tippett.

**Quetico Preserve**

**Two Dimmitt Scouts Travel Through Canada Wilderness**

Scout First Class David Seale, and Eagle Scout Ronnie Huckabay returned home Saturday, August 15, from a 15 day trip into the wilderness of Canada. Both boys were enthused by the scenery, wild life, adventure made possible by canoeing into the Quetico wild life Preserve in Canada. The boys left Dimmitt August 1, and met charter bus at Plainview, forming a group of 36 boys, 3 adult leaders, and charter bus driver, sponsored by the South Plains Council of the Boy Scouts of America.

The first night was spent in Kansas City, Missouri, where they met a group of Scouts returning from National Jamboree on the way home to Tokyo, Japan. The second night was spent in Minneapolis, Minnesota, and they reached Charles L. Sommers Canoe Base on the Canadian border to be outfitted and supplied for the Wilderness Canoe trip. At this time Bill Quinn, a Minnesota University Junior, was assigned as guide, and Tom Miller, a trainee from Kansas, was assigned as swamper.

Early the next morning, five canoes were issued for the crew, and the 15 man crew was split 3 to a canoe, and each crew was responsible for transporting 85 lb. canoe, personal pack with all belongings for the three members of the canoe, and a food pack. Very little progress was made the first day due to the fact that canoes operate differently from horses and automobiles; however, as time went by the boys improved, and after three days of paddling as long as there was water, then disembarking,

**Research Plant Plans Field Day**

Fifty members of the Lions Clubs in the High Plains area will serve the barbecue prepared by Smokey Hewitt at 5:00 p.m. at the Eighth Annual Field Day of the High Plains Research Foundation at Halfway. Four lines will be formed so the guests can be served promptly. Hosts for the barbecue this year are the Hale County State Bank and Plainview Co-Op Co-press.

Guests from civic organizations will welcome the visitors to the headquarters area, after they have been assisted in parking by the Halfway Civic Club, headed by W. T. McEachern, and transported to the headquarters area in cars furnished by the Plainview New Car Dealers Association. Members of the Board of Trustees will be hosts at the registration tent to give information about the Foundation and the interesting programs and tours available. A continuous audio-visual program will be available at the registration tent and at three other points in the buildings and on the grounds.

Members of the Board of Trustees, headed by Gene McLaughlin of Ralls, will escort visitors through the Killgore headquarters building and laboratory and the Jim Hill Greenhouse. Claude Fargason, Halfway, is Chairman of a group of Trustees and nurserymen who will show the fifteen lawn grass demonstration plots adjacent to the greenhouse. The 36 trees and shrubs will be identified by signs for interested visitors.

A display of major cotton products will be available for the guests in seed processing laboratory and the 20-saw laboratory gin will be open for inspection. The group of Board Members who will assist the guests through the Cotton Gin Building is headed by Donald Johnson, a member of the Board.

Ottie Linder, Lee Dent, and Merwyn Igo will be on their traditional duty of dispatching the visitor laden trucks on the tour of the Foundation's Research Farm. Guides, consisting of professional Agricultural personnel, will be on each truck to point out the interesting research projects enroute and introduce the speakers at each of the 5 stops. The tour will take about one hour, and will end at the farm machinery and equipment display.

loading canoes or packs on their backs, they would portage around rapids, water falls, or swamps or beaver dams or beaver streams which they were unable to navigate. These were from 42 yards to a distance of 2 miles. At the end of the third day, McKenzie Lake was reached where they laid over a day and fished, catching 5 to 7 fish apiece, measuring from 21 to 27 inches long. As the fish were caught, they were skinned, filleted, rolled in corn meal, fried and eaten.

They went swimming, bathed, washed clothes. On the 5th day, they began the return trip toward the base. The return trip was more rugged, and more hours had to be put in; food began to play out; at the end of the 6th day, it was hard to plan a full meal. The return trip being more difficult, carried the Scouts through some little traveled regions or lakes and enabled them to see wildlife such as two bears, two deer, beaver without the animals' being afraid. The 9th day the group rejoined the other crews, and after restoring all gear, reporting on for having made the trip, retired for an early start home.

Breakfast menus: Oatmeal or farina, hot chocolate, coffee. Lunch menus: Always the same menu: Two crust slices of bread with peanut butter and jelly with Kool-aid to drink. Usually the canoes would pull in to prepare lunch; however, on several occasions, canoes were held together while the sandwiches were prepared and passed out. Supper Menus: were hot stew, pizza pie, pressed meat with hot vegetables such as dehydrated beans and potatoes, soups, and cakes or pies from native berries cooked by Dwayne Campbell of Olton, Texas.

**Go U.S. Army! Go Airborne!**

What does it take? If you chose to become a paratrooper, you must qualify three ways: 1. You must be physically and mentally fit. 2. You must be a member of the U.S. Army. 3. You must complete Jump School. Suppose you decide to volunteer. If you are qualified you can expect to be sent to jump school for three weeks after basic training. In just 21 action-packed days, Jump School teaches you every trick an Airborne fighting man should know. Because a paratrooper's best friend is his 'chute, you'll learn a lot about parachutes. You'll know how to pack them, you'll know how to handle them before, after, and especially during a jump. At the same time, you'll go through a muscle-trimming course that will put you in the best possible shape for jumping. During your training period you'll jump five times. But first, you'll learn and practice many more on the ground. By the time you know exactly how to control your 'chute and how to come in for a safe landing under all conditions, you'll make your first jump at 1,200 feet. As a qualified paratrooper you'll get a chance to volunteer for Special Forces training. Only the toughest men make this one. If you do, you'll learn how to jump at night, how to fight behind enemy lines, over any kind of ground, in any weather—even how to blow up a bridge.

Jumping means money. As a paratrooper you receive an extra \$35.00 a month, over and above your regular Army pay. You keep collecting this extra pay as long as you remain assigned to an Airborne unit and jump at least once every three months. Think it over and see your Army Recruiter, Sgt. Terry Cashell at 114 East 9th Amarillo, Texas or call Collect Dr. 3-4214 tell him you want to GO AIRBORNE. He'll make sure you get the chance.

A Brown Swiss breeder Eules Waggoner, Dimmitt, Texas has recently sold the bull Hawthorne Fond Hope 144653 to Griesheimer Bros. Valley City, Ohio according to a report from Marvin L. Kruse, Secretary of the Brown Swiss Cattle Breeders' Association, Beloit, Wisconsin.

**ATTENDS REUNION**  
Mr. and Mrs. Wes Brown and Mr. and Mrs. Houston Frye and son, Hilton returned home Sunday night from Nacona where they attended a family reunion Sunday.

**Fast Low Cost Earth Moving** With an **Everman Hydraulic Controlled SCRAPER**

Using your own tractor and the 2 1/2 yard Everman Scraper you can do most earth moving jobs by yourself. Level land for efficient irrigation. Grade fields to improve drainage. Fill gullies and low spots. Build farm roads. Alike terraces, grass waterways, reservoirs, ponds, dams, pit silos. The Everman responds instantly to single valve hydraulic control. Loads with low power requirements but with large scraper stability. Hauls at high speed. Front dump permits accurate control of fill. Strong rugged construction.

**Increase Yields Per Acre by Finishing Fields with an Everman AUTOMATIC LAND SMOOTHER**

With an Everman Smoother and your own tractor you can prepare an ideal seed bed free of back furrows and dead furrows—eliminate low spots and high spots while preparing an ideal base for mechanized farming. Smooth, level fields provide more efficient irrigation, improve surface drainage, stop excessive erosion and help retain rainfall. Low initial cost. Economical operation. Sizes to fit regular farm tractors.

**Clean Eggs Bring Greater Profits**

Clean eggs can mean extra dollars for egg producers. A little time and care applied toward cleaning dirty eggs can mean a big difference in the price you receive for them.

Net returns are often increased by five or six cents per dozen by cleaning, reports Marshall M. Miller, associate poultry marketing specialist, Texas Agricultural Extension Service.

"It costs less than one cent to clean a dozen eggs, or about 28 cents a case," says Miller. "This includes equipment depreciation, interest on investment, maintenance and repair, water, detergent-sanitizer, and labor costs."

In the cleaning process, use water that is always warmer than the inside temperature of the eggs, says the specialist. Warm water causes the contents of eggs to expand, thereby helping to resist the entrance of harmful organisms.

Eggs with an inside temperature of 75 to 100 degrees F. should be cleaned in water having a temperature of 115 to 120 degrees F., advise Miller. Too much difference in egg-water temperature will result in more checks, he adds.

A detergent-sanitizer should be used in cleaning eggs. Detergents are usually unaffected by hard water and increase its wetting properties. This suspends foreign material in the liquid and actually causes dirt to float off the egg shell, Miller explains.

Santizers, on the other hand, are used to aid in destroying harmful organisms attached to the egg shell, adds the specialist. They are usually combined with a detergent and sold in this form.

Manufacturers' recommendations for the use of detergent-sanitizers should be followed closely for an effective egg sanitation program, Miller concludes.

**School Faculty At Hart Named**

Paul Kennedy, superintendent of Hart Schools, is glad to report that the entire faculty for the Hart School system is complete. The faculty this year consists of all experienced teachers, and this is first time in the superintendent's tenure as an administrator to have a completely experienced faculty.

The following is a list of teachers on the Hart school faculty:

**Administration:**  
Paul Kennedy, superintendent  
Andrew H. Gardenshire, principal of High School  
G. C. Graves, elementary principal

**First Grade:**  
Mrs. Tucker  
Mrs. Nicholson  
Mrs. King  
Mrs. Clay

Mrs. Kennedy  
Mrs. Gray

**Third Grade:**  
Mrs. Cheatham  
Mrs. Ridgon

**Fourth Grade:**  
Mrs. Bell  
Mrs. Nevins

**Fifth Grade:**  
Mrs. Lemons  
Mrs. Moore  
Mr. Wescott  
Mr. Reid

**JUNIOR HIGH AND HIGH SCHOOL**

**Special Assignments:**  
Jeff Smart, High football coach, social studies  
Haden Moore, Assistant Football coach, science, head basketball coach  
Lanny Tucker, Vo. Ag.  
Mrs. Grubaugh, Homemaking  
Miss Virginia Luck, commercial  
Mrs. Betty Allsup, High School English and librarian  
Mr. Grubaugh, High School math  
Mr. Nicholson, Jr. Hi.  
Mrs. Gardenshire, Jr. High  
Mr. Cheatham, Jr. Hi.  
Mr. Ewing, Jr. Hi.

Senator YARBOROUGH'S REPORT

Dear Fellow Texan:

The Senate has passed the Economic Opportunity Act of 1964, commonly called the Anti-Poverty Bill. I was a co-author of this bill, a member of the Special Senate Subcommittee on Poverty which held hearings on it, and I am pleased to see this bill go to President Lyndon B. Johnson to be signed into law.

Its purpose is to help people help themselves. It is to help some of the 36 million people in families with low incomes, particularly young people, to cast off the chain of despair, to obtain proper training for our technological civilization.

This country has always been known as a land of hope for a better way of life. In the age of the frontier, this hope was focused on free land. That free land was responsible for the settlement of the West. And nobody called it a give-away program in those days. That's the way the West was won. This opportunity for the early settlers was made possible by the government, in keeping with the needs of the people at that time.

And fellow Texans, that's just what the Anti-Poverty Bill does now. It is no more a give-away bill than the bill for the settlement of the West, for the great free lands of the West.

Our problems today are different. This is an age of technology, an age when only the very skilled can hold their own, an age when it is economic suicide to drop out of high school. Today a person needs at least a junior college education in this technological era.

It is this new technology, rather than any sudden decrease in moral fiber, that necessitates government programs such as the War on Poverty.

People talk about everybody losing their moral fiber. I don't believe it for one minute. Automation and technocracy and computers have just automated them out of jobs. People are willing to work if they can get work. They want to work.

Now, what will the Anti-Poverty Bill do?

It will call for a Federal Job Corps for young men and women 16 to 21, to help those with less than high school training. About 200 conservation camps and 21 residential training centers will be

LIBRARY IN THE NEW HART HIGH SCHOOL

**Hart Teachers Have In-Service Training Program**

Hart teachers will be on duty and put in a regular week in In-Service Training program, August 24-28. During this time they will make preparation and plans for the curriculum for the 1964-65 school year.

Patrons are invited to visit the school and get acquainted with the returning faculty members and especially the new members of the faculty.

G. C. GRAVES, Elementary principal in Hart school system, will be occupying the office in the old building vacated by Superintendent Kennedy. —Staff Photo

# NEWS FROM SUNNYSIDE

Mr. and Mrs. Ezell Sadler and David returned home from Brownwood Lake last Sunday night.

Mrs. Stanley Slagle worked at Plains Memorial Hospital in Dimmitt in the Hospital Auxiliary Gift Shop, Monday afternoon.

Mrs. Pearl Sadler of Dimmitt visited Monday through Wednesday with Mr. and Mrs. E. R. Sadler and Myles and their guests and Mr. and Mrs. Ezell Sadler and David. She spent Monday night with the Ezell Sadlers and Tuesday night with the E. R. Sadlers.

Mr. and Mrs. Darrell Sutor and son of Houston and Mrs. Maggie Seymoure of Abilene, house guests of Mr. and Mrs. E. R. Sadler and Myles, visited Tuesday afternoon with Mr. and Mrs. Ezell Sadler, Mrs. James Powell and children, and Mrs. Larry Sadler and were supper guests Monday night of Mr. and Mrs. Howard Cummings and family. They left for their homes Thursday.

Mr. and Mrs. Howard Bridges left Tuesday morning to spend a few weeks at Weatherford.

Mr. and Mrs. Lloyd Morris of Tulsa visited Tuesday evening and spent Tuesday night with Mr. and Mrs. Roy Phelan. The Phelans went with them to Lubbock Wednesday where Mr. Morris received a medical check-up.

Mr. and Mrs. Eldon Lilley and Twila and some of her friends vacationed at Durango, Colo. Tuesday through Friday.

Mr. and Mrs. R. H. Thrallkill and family of Duncannon visited last Saturday through this Wednesday with his sister, Mr. and Mrs. Robert Duke and family.

Mr. and Mrs. Raymond Jenkins moved from the E. R. Sadler's

rent house to a new job at Dumas Wednesday night.

Myles Sadler visited in Lubbock Wednesday with Sam Rogers.

Light showers of rain were reported over the community Wednesday evening. The electricity was off for quite awhile due to lightning hitting a transformer.

Mrs. Roy Phelan had charge of the study of "Religious Liberty" Wednesday night in the pastor's absence. No other meetings were held due to the small attendance.

Mr. Weldon Bradley bought a new airplane, this week.

Mr. and Mrs. Weldon Bradley, Molly and Lee and Mr. and Mrs. Tex Conard and Juanelle left Thursday morning for a few days vacation in Colorado.

The Beginner Sunbeams met at the church Thursday afternoon for their regular meeting. The WMU Nominating Committees also met at the church Thursday afternoon.

Mrs. Alton Loudder, Mrs. Milburn Haydon, and Mrs. Clarence Mitchell of Springlake took Mrs. Milton Ott to Lubbock for a medical check-up Tuesday and they will also visit with Mrs. Tom Messer and children in Lubbock.

Mr. and Mrs. H. E. Duke visited from last Saturday until Wednesday with friends and relatives in and around Oklahoma City and Paul's Valley, Oklahoma. Mrs. Altha Luellen of Nampa, Idaho came home with them and stayed until Friday. She and Mrs. Duke are sisters.

Mrs. J. Paul Waggoner worked at the information desk at Plains Memorial Hospital in Dimmitt, Thursday afternoon.

Mr. and Mrs. Houston Carson and family and Mrs. J. L. Carson of

E. Reisdorph, principal of Junior High; Weldon Skinner, principal of North Grade School; and Alvis Fuquay, Dimmitt High School principal. —Staff Photo

DIMMITT HIGH SCHOOL

## AMMO NOTES

by Wm. F. (Bill) Bennett, Agronomist, Western Ammonia Corporation

Fertilization of wheat ground is in full-swing in most areas. A few are still waiting for rain.

Last week we discussed the economics of fertilizing wheat and concluded by saying that if you plan to grow wheat it should be fertilized properly for lowest cost per bushel. This week let's look at different methods of application.

Ammonia is usually applied on 20 inch centers. This can conveniently be done either while the ground is still flat or placed in the sides of the bed after it has been bedded up. Either method is satisfactory.

## Control Mastitis With Management

Mastitis is one of the biggest dollar-stealers in the American dairy system, says A. M. Meekma, Extension dairy specialist, Texas A. M. Meekma, Extension dairy specialist, Texas A. & M. University.

It can be controlled, however, if certain management practices are followed, he adds.

Proper milking procedures include stimulating cows properly before attaching the milking machine, milking rapidly, machine stripping (but not overstripping), and usually the use of not more than two machines per man, says Meekma.

Check for mastitis by using a strip cup each milking, plus the California Mastitis Test or similar tests at regular intervals, suggests the specialist. Develop a milking schedule that takes the "clean" animals first, mastitis suspects next and actual cases last.

Do not overheat infected cows, warns Meekma. The overuse of antibiotics and other medications may do more harm than good. If the situation fails to improve, call a veterinarian, he advises.

Other suggestions offered by the specialist include checking equipment regularly and practicing sanitation and good housekeeping around the barn, sheds, lots and pastures.

Mrs. Jack Ogletre and Jane of Bangs, Texas spent the week-end with Mrs. J. D. Cox and Rachel. They all attended the Sunday morning services together. Nancy Alair also attended the services with them.

Mr. and Mrs. Gale Sadler of Southard came for their children, Susan and Cindy Sadler Saturday and visited until Sunday afternoon with Mr. and Mrs. E. R. Sadler and Myles.

Mickey Waggoner of Plainview spent Saturday night with his parents, Mr. and Mrs. J. Paul Waggoner and Jimmy.

Mrs. Alton Loudder and Mrs. Clarence Mitchell of Springlake had supper Saturday night in the Price Hamilton home in the Hub Community.

Mr. and Mrs. Raymond Lilley visited in Big Spring Sunday with relatives.

Mr. and Mrs. R. E. Duke were Sunday dinner guests of Mrs. L. D. Winders in Earth Sunday.

Mr. and Mrs. E. R. Waggoner and Mr. and Mrs. Ernest Waggoner visited Sunday afternoon with Mr. and Mrs. J. Paul Waggoner and Jimmy.

### Highway Patrol Investigates 11 Rural Accidents

The Highway Patrol investigation of eleven rural traffic accidents in Castro County during the month of July, according to Sergeant W. E. Wells, Patrol Supervisor of this area.

These wrecks accounted for nine persons injured, and an estimated property damage of \$5,480.

The rural traffic accident summary for Castro County from January through July shows a total of 61 crashes resulting in three persons killed, 23 persons injured, and an estimated property damage of \$35,228.00.

Yes, it is hard to believe here in the middle of August that school days are almost here again. Do not be surprised if in a few days when you round that curve or top that rise of meeting a big yellow school bus. The Sergeant reminds all motorists of the state law regulating traffic in regard to school buses. "The driver of a vehicle upon a highway outside the limits of any incorporated city or town upon meeting or overtaking from either direction any school bus which is stopped on the highway for the purpose of receiving or discharging any school children shall stop the vehicle immediately before passing the school bus, but may proceed past such bus at a speed which is prudent, not exceeding 10 miles per hour, with due caution for the safety of such children."

Commenting on the upcoming Labor Day week-end facing Texas motorists, the veteran patrol supervisor said, "Many Texas families will be taking advantage of this last long summer week-end to take trips prior to the opening of school. Many of these families will be trying to cover too many miles. As a result, the possibilities of traffic crashes will be increased."

Because this holiday is mostly a family affair, more persons will be occupying cars. Thus, any traffic accident might result in several casualties. This has been evidenced several times on Texas Highways in recent weeks. During the 72 hour Labor Day week-end last year, 31 crashes claimed the lives of 44 persons.

### Walter Rogers' WASHINGTON NEWSLETTER

Amarillo Residents, civilian and military, are cheering news that a new hospital for Amarillo Air Force Base is among ten projects approved in the Military Construction Appropriations Bill. The bill includes a total of \$7,927,000 for work at AAFB in the fiscal year which began July 1, and the hospital—to cost an estimated \$3.7 million—is the largest single item in the bill. The need for new, permanent medical facilities at the base was well recognized and supported by civilians in the City of Amarillo as well as by the Air Force authorities at the base. The new, 110-bed hospital will fit well with medical center development plans in Amarillo and will replace the outmoded, inadequate, wooden hospital built at AAFB in 1943 as a wartime expedient.

The new hospital will mean not only that AAFB personnel and their dependents will receive quality medical care in an up-to-date, properly equipped hospital, it is further evidence that the permanency of Amarillo Air Force Base is more than a paper designation. The Defense Department, the Air Force, the Bureau of the Budget, the House and Senate armed services and appropriations committee, and the House and Senate themselves all have to agree on the need for the new hospital before its approval could be obtained.

Among other construction projects approved for Amarillo Air Force Base in the Military Construction Appropriations Bill were these: Alteration of 36 airmen dormitories to modernize facilities and appearance; upgrading three buildings for dining hall facilities serving 3,750 airmen; building a 300-seat base chapel and annex for base religious services.

Excellent community relations which exist between military personnel at the base and civilians in Amarillo could well serve as a model for other communities in the United States. The base is a thriving community all in itself; military and civilian personnel in all categories total approximately 16,000. Approximately 16,000 dependents of base personnel live in the Amarillo area.

Graduates of schools in the Technical Training Center at the base are serving their country all over the world. We all know of the vital role played by the Strategic Air Command, of which the 4128th Strategic Wing at Amarillo Air Force Base is an important component. All of the Panhandle can be proud of Amarillo Air Force Base and of the men and units assigned there.

When the end of a Congress nears, it is impossible to predict from one hour to the next what new development will occur affecting vital legislation. It is therefore extremely difficult to be certain of being able to meet long-standing commitments out of Washington. It was with regret that I and my two colleagues on the House Committee on Interior and Insular Affairs, Congressman Tom Morris of Tucuman, N.V., and Congressman J. Edgar Chenoweth of Trinidad, Colo., were forced to postpone our inspection trip to the site of the proposed "Alibates Flint Quarries and Texas Panhandle Pueblo Culture National Monument" in northeastern Potter County. Congressman Morris and Chenoweth and I have long urged the enactment of legislation to correct pro-

blems forced on the American cattle industry by a continuing, excessively high level of beef and meat imports. With the prospect that corrective legislation could be brought before the House, we dared not leave the Capital. The inspection will be rescheduled at an early date. While I may not be able to attend, I would urge all Panhandle-area residents interested in legislative re-apportionment problems to attend a meeting sponsored by the Texas Legislative Council at 9 a.m. August 20 in the 99th District Court at Lubbock. This is the fifth of a series of hearings being held by the Legislative Council in Texas cities.

### County Agent Says Soil Test Now For Wheat

The application of sufficient fertilizer, in proper balance to correct oil deficiencies, is now accepted as one of the most profitable single practices in Castro County. County Agent Charles Hotel says it is now time to be thinking of your fertilizer use program for wheat to be planted this fall. Castro County soils vary greatly in their ability to supply nitrogen and phosphorus. The soil test remains the best single guide for determining the amount and grade

of fertilizer needed. Remember that 50 bu. of wheat grain alone contains about 50 lbs. of N. and 25 lbs. of P2O5. Forage removed by grazing can contain 20 per cent or about 3 per cent actual nitrogen on a dry weight basis.

Data from research conducted on the Pullman soils indicates time of nitrogen application is not a major factor where wheat is being grown for grain only. Yields were about the same when nitrogen was applied preplant, in split applications, or as a topdress in February. However, where grazing is to be practiced it is important to apply all or part of the nitrogen as a preplant to stimulate early growth. The nitrogen can be conveniently applied any time before listing. If solid or liquid forms are

used, they should not be left on the surface for long periods. If the soil tests indicates a deficiency of phosphorus, the phosphate should be applied in such a manner that it will remain in moist soil—in reach of permanent roots. Like other field crops, much of the phosphorus is utilized while wheat plants are young. Because phosphorus moved very little from the point of application it is important it be applied preplant. Topdressing with phosphates after wheat is up cannot be expected most most profitable response.

Taking soil samples now will insure getting your report back in plenty of time for final planning and fertilizer application. Complete collection and mailing may be obtained through the office of County

Agent Hotel. Most of the fertilizer dealers have a supply of mailing cartons. Don't forget to send in the Information Sheet with the samples.

In a test conducted on the George Sides farms 5 miles west of Dimmitt by the Experiment Station this year showed that 80 - 100 lbs. of N gave an increase of approximately 15 bu. per acre, and with

the addition of 40 - 60 lbs. of phosphorus gave an additional 5 bu. increase. Higher rates of nitrogen yields. However, not enough to justify the additional expense. In this particular test when applied by itself, phosphorus did not give an increase.

TERMS TO SUIT

EAST SIDE SQUARE DIMMITT, TEXAS

Texas Democrats and Republicans are gearing for their big clash in the November general election. Democratic leaders are in Atlantic City, N.J., at their party's national convention. Gov. John Connally indicated both national and state campaign organizations will be put together in Texas soon after the convention. Meanwhile, Republicans report they already have built an organization for stronger than any they have fielded to date. They plan to do vigorous battle in local races, as well as national and state campaigns.

GOP assembled its candidates and campaign leaders here last weekend for a special training school in practical political organization, vote-getting tactics and fund raising activities.

**OIL RISE—** Texas Railroad Commission ordered a substantial increase in oil production for September. Wells which are under proration will be allowed to produce 28 per cent of their capacity during September, compared with 26.5 per cent this month. New production quota amounts to 2,831,583 barrels daily, compared to 2,794,312 for August. Commission also took under advisement conflicting testimony on effect of its proposed \$5,000 bond requirement for drilling or reworking wells in the interest of pollution control. Fifteen days were allowed interested parties for filing for additional briefs.

**APPOINTMENTS ANNOUNCED—** Governor Connally announced nine appointments to Trinity River Authority Board of Directors, three to San Jacinto Battleground Commission, and two to the State Board of Barber Examiners. Reappointed to the Trinity River Board were Paul H. Cauthan Jr., Trinity; Bernice Finger, Shepherd; J. D. Kirven, Waxahatchie; and O. P. Leonard, Fort Worth. New appointees are Walter Hailey, Dallas; Rex Cautle, of Leon County; Dr. J. B. Heath, Madisonville; Fred F. Meridith, Terrell; and A. C. Spencer, Huntsville. Houstonians appointed to the Battleground Commission were W. N. Blanton Sr., chairman (reappointment); Mrs. Joseph H. Sperry; and Fred Leggett. Ed Tabola of Houston and H. D. Stewart Jr. of Big Spring were selected for the State Board of Barber Examiners.

**WATER CONSERVATION DROPS** Water conservation storage in major Texas reservoirs dropped at the end of last month to the lowest point since March, 1957. The 6,400,000-acre feet stored was a decrease of 700,000-acre feet from the previous month. Texas Water Commission said dryland crops and pastures are suffering heavily, and municipal water supply of many small towns has "reached the critical stage."

**DOVE SEASONS TO OPEN—** Parks and Wildlife Department announces that white wing doves can be hunted on two weekends—September 5-6 and September 12-13. Regular mourning dove season opens in the north zone of Texas on Sept. 1 and will run through October 30. The south zone season is September 26-November 20. A new guide to hunting regulations, "Hunting in Texas 1964-65," now is being distributed through Parks and Wildlife field offices and licensed dealers.

**PRISON LAND—** Land Commissioner Jerry Sadler's staff has completed surveys and subdivisions of 6,500 acres of prison farm land in Harris, Fort Bend and Walker Counties. State Board of Corrections will offer the 43 tracts of land for sale on December 9-11. Land is surplus to needs of the prison system, so effort is being made to get it in private hands and on the tax rolls. Details may be obtained from the State Department of Corrections at Sugar Land or Huntsville.

**ENOUGH BANKS?** State Banking Commissioner J. M. Falkner thinks it is time for caution in chartering new banks. Falkner serves as chairman of the State Banking Board which grants or turns down applications for charters for state banks. State Treasurer Jesse James and Robert Strauss, Dallas attorney, are the other two members of the board. About 100 new state and national banks have been chartered in Texas in the last three years. Sign of the slowdown is the fact that so far this year, Board has turned down nine and granted eight applications. In 1962 it granted 18 and turned down four.

**BACK TO SCHOOL** Part-time jobs are being sought and found by the Texas Employment Commission for high school students who need work to be able to stay in school. In a drive to try to keep 60,000 high school students from dropping out of school this fall, the Employment Commission called on employers and parents to find jobs, when the need for family income threatens to cause a drop-out. **INTEREST—** Allstate Insurance Company has

challenged the action of the State Board of Insurance in setting six per cent as the minimum interest rate which may be charged on notes by which payment of insurance premiums are deferred. Board of Insurance has scheduled a public hearing for September 1 on Allstate's contention that such a minimum on interest should not be ordered by the Board. Board originally applied the interest regulation to fire insurance only, but it now has extended to all other lines of insurance.

**HISTORICAL MARKERS—** Within the next 90 days, 531 official historical markers will be put up on Texas highways to show Texans and visitors the landmarks honoring Texas statesmen, trails, battles, industrial sites, shipping points, towns and counties. Markers are being put up in cooperative effort by the State Historical Survey Committee, State Building Commission and State Highway Department.

Made of cast aluminum with steel effect, the markers will bear the official Texas Historical Medallion at the top. **BLOOD TESTS—** Atty. Gen. Waggoner Carr ruled that it is legal for the Texas Animal Health Commission to use state funds to give its employees blood tests to see if they are susceptible to poisons being used in sprays in the screwworm eradication program. Ruling was based on the finding that discovery of the condition in advance would prevent sickness and absenteeism by the agency's

employees. **LIQUOR TAX** Texas Liquor Control Board, which enforces liquor laws and collects taxes on liquor, wine and beer, has taken in \$332,483,997 more in the last 11 years than it has spent. Its expenses during the 11 years were \$18,202,589. Tax revenue is allocated by legislative act to old-age assistance, public schools, aid to needy blind and dependent children, farm to market roads, teacher retirement, state hospitals and state employees' retirement.

**MANY CARS—** If you find it harder to find a parking place, here's why! State Highway Department reports that it has licensed 5,632,373 motor vehicles this year—ranging from the 747-734 in Harris County to 184 in Loving County. This is a gain of five per cent above last year. **HIGHWAYS—** Virgil Patterson, Amarillo banker and president of the Texas Good Roads Association, will head the annual observance of Highway Week, October 4-10. "Mobility: Your Fifth Freedom" is the theme of this year's observance, held annually to call attention to the state highway system and its needs for improvement and continued attention. Observance will include award of \$100 savings bonds to Texas newspaper editors who write the best editorials on any phase of the highway program.

**SHORT SNORTS—** During the year ended June 30, 4,588 disabled Texans were trained by the Texas Education Agency for jobs they can hold despite their disabilities. Governor's Committee on Aging, headed by Sen. Walter Richter of Gonzales, a former newspaperman, is putting out its own newspaper, designed to feed information to those working to improve the living conditions of older people. A county's duty to furnish medical care for needy residents includes the obligation to employ necessary medical specialists. Attorney General Carr advised Young County Attorney Ronald D. Stephens in an opinion—Western Union is closing its branch office at the state Capitol, except during legislative sessions, so Miss Cornelia N. Nunn retired last week—after 43 years as Western Union operator there—Attorney General Carr announced recovery of an additional \$118,825 in a slant well suit, involving wells in Rusk, Gregg, Karnes and Jackson Counties, which brings total of recoveries to \$953,355.

**ENTERTAIN PARENTS** Mr. and Mrs. Charlie Coffman entertained her parents, Mr. and Mrs. C. L. Queary with a surprise breakfast on their fortieth wedding anniversary Sunday morning. August 16 in their home. **MEMPHIS TRIP** Mr. and Mrs. Sam Maynard visited John Smith Sunday in the Memphis hospital. He had surgery Friday. He is the father of Mrs. Wade Maynard.

### Food For Knowledge In School Lunch Room Program

Approximately 1,980,268 Texas school children enjoyed a variety of good-tasting, good-quality foods served in well-balanced meals under the National School Lunch Program in 1963-64. The entire Federal-State program is geared to making maximum use of national, regional and locally abundant foods. Federal assistance to school lunch programs began in the early 1930's when surplus foods were first donated to schools. In 1946, the National School Lunch Act placed "school feeding" on a permanent basis. Under this program, each participating school agrees to serve a lunch meeting the "Type A" pattern which includes a protein-rich food, a generous serving of fruits and vegetables, bread and butter or fortified margarine, and one-half pint of milk. Four-fifths of the food used in the school lunch program is purchased by school lunch managers from their local supplies. Some of the food is purchased by the U. S. SDA and comes from supplies of food on the market that are currently plentiful. Some of the food fulfilling the needs of the schools participating in the program are canned applesauce, canned apricots, green beans, frozen ground beef, frozen cut-up chickens and canned sweet potatoes. New foods are also introduced frequently. In 1964 thousands of children will get a chance to enjoy that traditional Southern dish—corn grits. And last year, "burgur" a dried cracked wheat product, was introduced in 22 states and won quick fame among the students because of its nutty flavor in meat dishes. The Government, in making purchases of goods for the school lunch program, studies states reports to ascertain what foods the children need most and like best. In a recent survey, students rated hamburgers, fried chicken, turkey, spaghetti and hot dogs as their favorites.

### Durbin Completes Repair School

Marine Private First Class James F. Durbin, son of Mr. and Mrs. Jerome Durbin of 300 Southwest Fourth St., Dimmitt, Tex., recently completed a course in the Maintenance and Repair of Tracked Vehicles, Tracked Vehicle School Schools Battalion, Camp Pendleton, Calif. The course is designed to train reservists on active duty in the mechanics of tracked vehicles. He studied the hull, track and suspension systems, electrical systems, and the assembly and disassembly of gasoline and diesel engine.

**NEUMAYER GUESTS** Guests in the home of Mr. and Mrs. Dilmond Neumayer this week are their nieces, Wanda Jenkins of Corpus Christi and Elaine Neumayer of Rialto, Calif. The girls visited Mr. and Mrs. Lowell Neumayer at Montoya, New Mexico for several days last week.
