The commission has been pledged the support of practically the entire town in going ahead with the program and we're sure that that support will be forthcoming.

Another thing that the commission is to be commended upon, is the resumption of work for completing the community clubhouse and library. We believe that of all the things that we've heard wished for more than any other thing, is a library.

It All Adds Up To This

If you fail to get an abstract when you buy your home in town or a farm you are almost sure to be required to furnish one when you sell—and at your own expense. It is customary for the seller to furnish the abstract and he is glad to do so if he knows he has a good title. It always pays big dividends to know about the title before buying any kind of real estate.
