# Police-Strikers Brawl Injures Six

# 9 Dunno, But ...

At long last we had some rain. Total fall measured .84 of an inch and lingering clouds held promise of the possibility of more. That's the first measurable precipitation since March 21 when .26 , of an inch fell. All together this makes about three inches of rain that have fallen in the last four months, which is not much rain.

Heard a good one yesterday. Don't know if the drouth had anything to do with it, but it could

While the R. E. Harrell family was all away from home, Babby a pet goat turned on the water, drained two eisterns and the storrain had fallen, but alas, it was forts of the meddlesome goat.

The Band Boosters Club is putting on a campaign to raise funds to buy uniforms for the band and the people of Ranger will be called upon to contribute to the cause.

No matter how good the musi of a band is, its appearance also counts in its performance. At-tractive uniforms might even be an inspiration to the band

But to say the least of it, it's a good thing and deserves the support of the people. During the years when there was no band, there was much regret expressed about the fact, Now we have a band and a good one and they should be macked out in attrac-

tive uniforms. They tell us that the band was pretty uniform conscious at the recent contest in Abilene and felt The out. But despite the handicap that they felt they had, the band went on out for the marching contest and won first place.

Such spunk as that deserves recognition in the form of new uni

### Electrical **Industry** Joins Price Slashing

PITTSBURGH, April 23 (UP) The electrical industry joined steel today in a big price slashing movement to beat inflation.
Westinghouse Electric Corp. announced price reductions on a wide ranges of electrical products which will save industrial cust-

## Prays For Rain

White wheat on the Kansas borders is doing fairly well, farmers in the mid-state wheat lands, like Jay Fellers, above, Ellis County, Kansas, are begging that there be rain, and soon. Conditions on Feller's farm, near Hays, Kansas, are unfavorable to a good 1948 wheat crop because of dry topsoil, crusted fields and lack of crown root development and stolling. Most of the central and western wheat states need cool weather and moisture immediately. (NEA Telephoto.)
