REPUBLICANS WILL HAVE TO PASS LAWS ON OWN PLATFORM

WASHINGTON, July 17 (UP) Two Democratic Senators appealed to Congress today to forget politics and do something about high prices at the summer session. Sen. Carl A. Hatch, D., N. M., said Republican leaders should ac cept President Truman's program of standby wage-price controls and rationing, or come up with a better one of their own when Congress reconvenes July 26.

Sen. Theodore Francis Green, was initiated into the "Order of N D, R. I., said he is willing to "give due credit to the Republicans if we can get some good laws enacted to curb prices and reli-

eve the housing shortage." "Congress," said Hatch, 'already has been too neglectful and too lax because the inflation issue was presented last November by the President in his 10-point program to stop the price spiral. If Congress fails to act now, no alibi of politics can excuse its neglect and

The Republican leadership in the House and Senate repeatedly has denounced as a "police state scheme" the President's plan to fight the high cost of living. The GOP pushed through its own antiinflation program based on voluntary controls a few months ago. There appeared little chance that its leaders would look with favor now on the administrations more stringent proposals. They claim these would result in "another OPA.

Some Congressmen doubted that the anti-inflation issue would even get an airing at the forthcoming session if the civil rghts bll are brought up frst. Southern legislators already are mapping their strategy to kill or at least cripple the anti-lynching, anti-pill tax and anti-discrimination measures which Mr. Truman has asked.

Peddy's Vigorous Campaign for Senate Highlights Democratic Primary Races

George Peddy of Houston and East Texas, adds a new tone to Texas politics. He is a man of imposing physical appearance, a vigorous speaker, and a man well qualified in statesmanship.

On numerous occasions Peddy, a veteran of both world wars, has said that he has no special tie with any group or faction. "I wouldn't have the office, if didn't know that I can go to he Senate free of any special ies," he said. "If the least in-

fluential citizen were not just as important to me as the most powerful, in making my decisions in the Senaté, I wouldn't have the George Peddy, one of the three major candidates for the U. S.

F RANGER, TEXAS

We, the undersigned lawyers of Eastland County, hereby heartily endorse Judge J. E. Hickman for nomination to the first elective term of Chief Justiceship of the Supreme Court of Texas. Judge Hickman is now serving as Chief Justice, having been appointed following the death in Januray of this year of Chief Justice Alexander.

Never before has there been a Chief Justice from this section of Texas, and Eastland, Stephens, and Erath Counties should take great pride in giving him an almost unanimous vote July 24 as each of the three counties can justly claim him for their own as he resided in and practiced law in each of the counties and was on the Court of Civil Appeals at Eastland for many years, each of the three counties being part of the Eastland Court of Civil Appeals District.

All who are acquainted with him know him to be an outstanding judge, a good citizen, and a fine Christian gentleman. These combined should make him an ideal public servant.

Respectfully submitted,

Joseph M. Neussle
