ANARCHY RULES NANKING AS INVASION AWAITED

NANKING, April 23 (UP)—This helpless nationalist capital of nearly 2,000,000 was a city of unhampered anarchy today, abandoned by all forces of law and order. The triumphal entry of the Communist armies was set for 7 A. M. tomorrow.

Fearfully the teeming throngs awaited a night of terror as waves of pillagers surged through the winding streets. None cared any longer that its era as the headquarters of the nationalist regime was at an end and it was being taken over by the Communists.

Utility services were knocked out. Government buildings and business places were stripped of everything movable. Motorists, bicyclists and pedestrians had no protection except their own individual strength and resistance.

Telephone communications with Shanghai were cut off this afternoon. The only remaining contact with the outside world was by slow and overburdened telegraph.

(This dispatch was filed at 5 P. M. Chang Kuo-Sin sent word that he and a colleague would "hold the fort up to the end and leave by any available means when we cannot continue work. Regards and all the best.")

A few civic leaders banded together as a "restoration of order" committee. They struggled desperately to organize some form of protection for the public by night-fall, but their task seemed hopeless.

Ma Ching-Wang chairman of the committee, said the Nanking gar-

Pupils Of Third Grade On Train Trip Friday

As an educational effort members of the third grade at Hodges Oak Park School were taken for a ride on the Texas and Pacific Railway's streamlined west bound Eagle Friday.

The pupils traveled as far as Eastland and during the ride were shown through the train by attendants who explained all of the improved details of the train. At Eastland the group was met by room mothers who drove them to the Eastland City Park where a lunch was served and then were driven back to Ranger in cars.

Mrs. Walter Daniels, teacher of the grade accompanied them on the trip. Mothers who met them in Eastland were Mrs. Mmes. Caraway, Brock, Gardenhire, Brooks, Creager, Box, Miller, Rainwater and Kimmel.

Those making the trip were Faye Thompson, Audie Dempsey, Jimmie Caraway, Beverly Ann Moore, Mary Jane Maddux, Caroline Rose, Dale Cozart, Gene Heath, Patsy Williamson, James Harrison, Bill Creager, Lannie Sledge, Barbara Brock, Joyce Mayhall, Kay King, Paul Mendoza, Karen Munnerlyn, Louise Wilhelm, Maxie Rainwater, Florence Box, Jimmie May Miller, Mona Angus, Barney Hunt, Billy Ray Davis, Senada Davis, Charlotte Rose, Brenda Brooks, Betty Gardenhire, Donnie Kimmel, Freddie Cooney, Ray Clepper, Frances Warren, Creston Richardson, Ovede Brown, Ray Gomez, Rosa Gomez, Richard Spindle and Jesse Simmons.

Legislators Out For Week-End

AUSTIN, April 23 (UP)—Both Houses of the Legislature enjoyed a week-end of adjournment today after an action-packed week.

The Senate closed its doors Thursday night after ending a 31 hour filibuster with a compromise that led to passage of a basic science bill.

The House adjourned yesterday after the sergeant-at-arms was dispatched to round up a quorum. It took him two hours to bring in absent members and Rep. Douglas Bergman of Dallas, then presiding, said he would accept a motion to adjourn. The motion was made with unusual celerity.

While the sergeant-at-arms was looking for absentees, Rep. R. E. (Peppy) Blount of Big Spring was asked to sing "Happy Birthday" to a member celebrating an anniversary, and Rep. Bill Daniel of Liberty was requested to entertain with his specialty—imitating animals.

The House turned to other business.

Prison commander turned over one battalion of regulars to help with the work, but the troops refused to serve.

Late today more than 10,000 persons were looting a big warehouse hoarding an enormous quantity of flour, rice, cigarettes and other goods.

The Nanking Bankers' Association tried to organize a makeshift skeleton of guards.

A police station on government road, the only police post in the whole city not abandoned in the breakdown of authority, called for volunteers to be organized into a mobile corps to patrol the streets tonight.

All shops were closed and their shutters reinforced with planking against the continued looting. Peddlers refused to accept gold Yuan notes, the currency of the Nationalist government.

Brother Of Two Ranger Women Dies Friday

Word was received Saturday by Mrs. Frank Arrendale and Mrs. Joe A. Tullos of the death of their brother, Albert Leedy of Blythe, California.

Mr. Leedy died Friday at 1:00 P. M. in an Arlington, California hospital where he had been since August 7, 1948.

Funeral services will be conducted Tuesday at 10:00 A. M. in Riverside, California.

Mr. Leedy was born in Palo Pinto County near Gordon, Texas on September 5, 1885 and had resided in Texas until 1941 when he went to California to make his home. During the residence in Texas he has resided in Thurber, Strawn, and Eastland. Prior to his illness he had been employed by the city of Blythe.

He is survived by three other sisters, Mrs. Victoria Ferguson of Fort Worth, Mrs. E. M. Ainsworth of Graham, and Mrs. T. O. McCasland of Blythe. One brother, Alonso Leedy of Henrietta, Oklahoma and several nieces and nephews also survived.

Change Made In Army Enlistment

A recent change in Army enlistment regulations will permit men with dependents to enlist or re-enlist in the U.S. Army if they can enlist in the grade of Sergeant or higher, according to Sergeant James Hendrick, of the Eastland Recruiting Station.

The change is effective May 1, 1949.

Since last October the enlistment of men with dependents has been limited to those men who could be enlisted in the grade of staff sergeant or higher.

Minimum enlistment period is for three years in any branch of service.

Powers Seek To Break Deadlock Over Formation Of German State

WASHINGTON, April 23 (UP)—The western Big Three powers today began a campaign to resolve the German deadlock over the powers of the proposed new West German state.

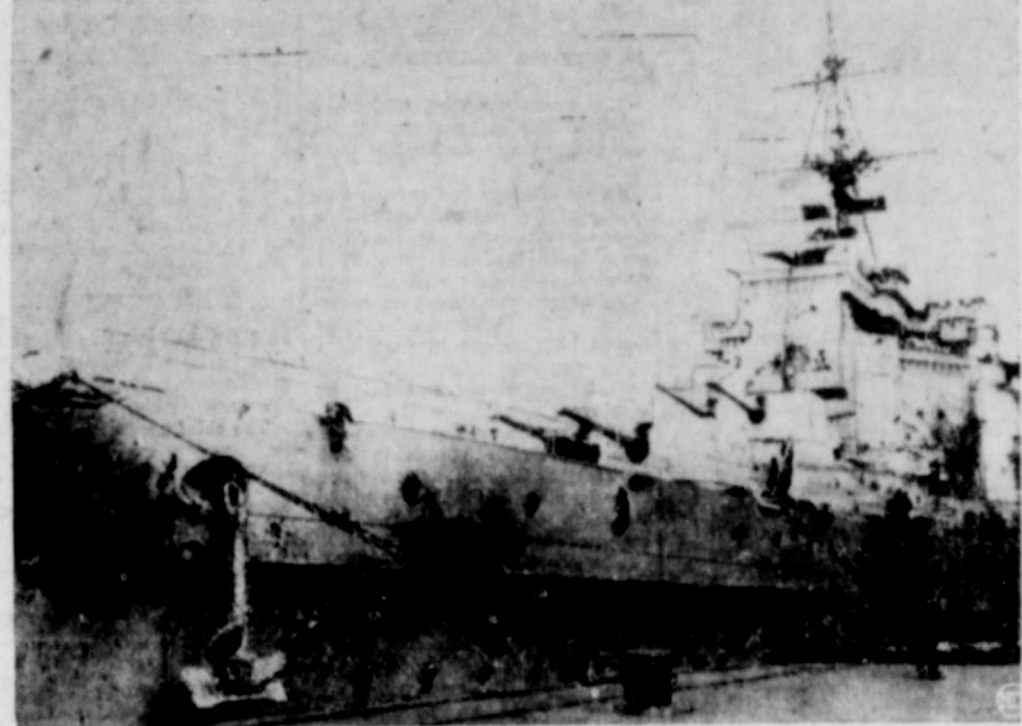

Fearing that the dispute might play into the hands of Soviet Russia, the State Department revealed that the United States, France and Great Britain have taken two steps to help Western German negotiators reach an early agreement on a constitution for their new state.

These steps were:

1. The dispatch of a conciliatory message to the German negotiators just as their dispute over federal vs. state rights seemed certain to break down the parleys.
2. The mission of Robert Murphy, the State Department's top German expert, to Berlin to see if he can soothe wounded feelings and resolve the controversy.

The west is racing against time. It wants the free Western German state to be established before it

U. S., SOVIET DIPLOMATS TALK BLOCKADE LIFTING

LAKE SUCCESS, April 23 (UP)—High Soviet and American diplomats are carrying on informal talks here in efforts to find some formula for lifting the Berlin blockade, United Nations sources said today.

Jacob A. Malik, permanent Soviet delegate, recently approached U. S. Ambassador-at-Large Philip C. Jessop and suggested the possibility of Big Four talks looking toward lifting the blockade on the German capital, reliable informants said.

Both Jessop, who since has been shuttling back-and-forth between here and Washington, and Malik refused comment on the reports.

UN officials reported that Assembly President Herbert V. Evatt has not yet taken a hand in the preliminary negotiations, although the possibility of his later participation was considered likely.

Radio Moscow only yesterday broadcast a proposal by the Communist camp regime in Berlin that the blockade should be lifted and said the majority of businessmen in the city's western sectors would welcome the proposal.

American sources made it clear that a Big Four conference on the German question was out of the question until the Russians end their trade restrictions which have cut off all rail and highway traffic to the western parts of Berlin.

It was also understood that the state department no longer would agree to introducing the Soviet mark to all of Berlin, even if the blockade is lifted, until Russia agrees to a unified municipal government for the city.

Information that the American-Soviet talks were underway came after the U.N.'s special political committee voted last night to recommend that the General Assembly voice its "deep concern" over charges that Hungary and Bulgaria had suppressed human rights and fundamental freedoms during

the recent church trials. The vote was 34 to 6 with 11 nations abstaining only the Soviet bloc opposing the recommendations.

Proposed by Bolivia, the resolution asks the Assembly to retain the hot east-west issue on its agenda until its September meeting. This would allow the United States and Britain time to invoke provisions of the Hungarian and Bulgarian peace treaties which guarantee freedom of religion.

Social Security Advisor Due Here On Wednesday

E. Glen McNatt, field representative of the Abilene office of the Social Security Administration, will be at the Retail Merchants Association office in Ranger at 3:30 p. m. on Wednesday, April 27. Persons wishing assistance with retirement claims or death claims under the Social Security Act should call at that time for necessary help and information.

In a statement released today, McNatt reminds employers that their regular quarterly social security tax returns are due in the office of the Collector of Internal Revenue, Dallas Texas, during the month of April. These returns cover wages paid during the three-month period ending March 31, 1949. Such returns should be filed by each employer who had one or more persons working for him during the quarter. Certain special types of work, however, such as farm work, work for governmental agencies, and work of domestic servants in private homes, are not included under the Social Security system; reports are not filed by employers on earnings of employees doing these types of work.

Thundershowers To Mark Weekend

The weatherman said today that abnormally high humidity in Texas should lead to a week-end enlivened by thundershowers.

The humidity caused Texans to fry in their own juices yesterday, although temperatures were actually mild for this time of the year. They ranged from a high of 87 degrees at Presidio to 66 at Abilene.

The lower coast reported many thundershowers during the night, with the wind rising to 36 miles per hour at Corpus Christi where even stronger gusts occurred. Hail accompanied the rain and some of the icy pellets were measured at a quarter-inch.

CONSUMERS CREDIT CONTROLS TO RELAX NEXT WEDNESDAY

WASHINGTON, April 23 (UP)—Consumer credit controls will be relaxed again next Wednesday in the third anti-recession move this spring by the Federal Reserve Board.

Down payments on all major controlled items except automobiles will be reduced from 15 to 10 percent, and the time allowed to pay the balance will be extended from 21 to 24 months. Automobile down payments will remain at one-third of the purchase price.

Under the new regulations, any purchase of less than \$100 will be exempt, compared with a previous \$50 limit.

The board announced the change last night. It expressed confidence that the new rules will not result in any revival of inflationary pressures.

The board early last month made its first relaxation of consumer credit controls, cutting down payments from 20 to 15 percent and extending the installment period from 15 and 18 months to 21.

Three weeks later, the board trimmed the required down payment on stock market purchases from 75 per cent to 50 per cent.

Board chairman Thomas B. McCabe said the latest order reflects "current trends in employment and business." The amount of consumer credit outstanding, about \$8,000,000,000 (B), was not excessive in relation to the national income, he said.

However, if the new relaxation of controls results in a big upturn in consumer credit, causing inflation, he promised that the board would "act promptly to meet the situation."

The board's authority to govern consumer credit expires June 30. Congress has taken no action on President Truman's recommendation that it be extended.

If it is not extended, retailers will be able to write their own down payment and installment rules as they did before and after World War II. Credit controls were revived by the 80th Congress last summer during its

CLUE EXAMINED IN DEATH OF METROPOLITAN SINGER

Dr. Herman Jones, Atlanta crime doctor, today started a microscopic examination of bullets fired from a convicted murderer's pistol to determine whether it was the weapon used to slay Metropolitan Opera Tenor John Garris.

Jones brought the evidence to Atlanta from Clinton, S. C., where Grover Pulley, who served time for killing a policeman in North Carolina, was captured Thursday night under conditions that turned him into the hottest suspect in the mystery killing of the singer.

The body of Garris was found in a downtown Atlanta alley Thursday morning, shortly after the Metropolitan season closed here the night before. He had sung two principal roles.

After setting up the delicate mechanism for a scientific test of the bullets in his compact crime laboratory, Jones told reporters he would not complete the tests before tonight.

"We've been up on this case since Thursday morning with no sleep," he said. "Our eyes have gone back on us until we can't see what we're doing. I'm calling this thing off until we have had a few hours sleep."

Jones locked his laboratory and posted a police guard outside.

Inside, on a small table, he had clamped two bullets side by side in an intricate comparison microscope. One was the slug taken from the opera singer's left side. The other was one of three test bullets fired from the Belgian-made 9-millimeter pistol taken from Pulley.

Jones said the job was made more difficult because the test bullets contained even ridges made by their passage through the gun's barrel. The bullet removed from the body was slightly blunted when it hit a bone, and its ridges were irregular.

Pulley, a dark-skinned, apple-cheeked man of 44, was arrested at Clinton after he tried to force a hitbiker he had picked up to help him engineer a safecracking job at Asheville, N. C.

told police Pulley gave him a lift, then forced him at gun point to enter a hardware store to purchase dynamite for the job. Jackson escaped through a rear door and telephoned police who caught Pulley after a short high speed chase through the streets of Clinton.

Pulley's souped-up 1940 Ford was found to contain a small arsenal — a Belgian-made automatic pistol firing a 9-millimeter slug similar to the one that killed Garris, a sawed off shotgun wrapped in an Atlanta newspaper, a pair of brass knuckles, several boxes of shotgun shells, a gas mask and a short length of rope. There also was a little black book filled with numbers that could be safe combinations.

Police said they believed Pulley's souped-up car would go 125 miles an hour.

DALLAS, Tex., April 23 (UP)—Metropolitan Opera artists, warmed by an enthusiastic reception given by almost 4,000 who heard "Otello" last night, will give two performances here today.

Mezzo-Soprano Rise Stephens will head a cast in the matinee performance of "Mignon."

Another "full house" was expected for the Saturday night performance of Mozart's great opera, "The Marriage of Figaro," which will be sung by a cast led by Italo Tajo, the Italian Bass; Bidu Sayao, the Brilliant Brazilian soprano; John Brownlee, the Australian tenor; Eleanor Steber, the American soprano, and Salvatore Baccaloni, for many years the Metropolitan's favorite basso Buffo.

Some 3,528 who attended the opening night performance of the Verdi opera, responded with five curtain call demands for the cast.

The were especially pleased with the performance of tenor Ramon Vinay in the role of the Venetian Moor and Leonard Warner, as the Perfidious Iago.

Alessio De Paolo sang the part of Cassio, a role which this season had been sung by John Garris, the German-born tenor who was slain in Atlanta Thursday.

Leader Doubtful Of Chances For Health Program

WASHINGTON, April 23.— (UP)—Senate Republican leader Kenneth S. Wherry of Nebraska said today President Truman's national health program "means the complete regimentation of the American people."

"In my opinion, not even this Congress will pass it," he said. "Even the most ardent backers of the \$6,000,000,000-a-year program did not appear very confident about its chances. Nevertheless, they were getting ready to battle for the bill which they will introduce in the Senate Monday to carry out Mr. Truman's proposals."

Observers, however, said there is little chance that the Senate will act on any health bill until next year.

In his message to Congress yesterday, the President outlined a four-point program featuring compulsory health insurance to provide prepaid medical and hospital care for almost all Americans. The insurance scheme would be financed in part by a three per cent payroll tax paid half by employers and half by employees.

Mr. Truman also recommended increased federal funds to help medical school train more doctors, to build more hospitals and to aid states in public health and disease prevention work.

Sen. Robert A. Taft, R., Ohio, joined Wherry in criticizing the President's plan. He said Mr. Truman had tried "to sugar-coat the plan to socialize and nationalize medicine."

"Probation after Death" is the subject of the Lesson-Sermon which will be read in all Churches of Christ, Scientist, on Sunday, April 24.

Among the citations which comprise the lesson-Sermon is the following from the Bible: "He that followeth after righteousness and mercy, and doeth life, righteousness, and honour" (Proverbs 21:21).

WEEKLY BIBLE COMMENT

Self-Control Is Essence of Temperance

BY WILLIAM E. GILROY, D. D.

THIS is a temperance lesson. Temperance lessons were formerly built around the principle of total abstinence from alcoholic liquors. That principle has been basic in such organizations as the WCTU and various temperance societies, and in the main it has been the emphasis in temperance activities in most of the Protestant churches. But it requires very little observation to note that in respect to this there has been a great let-down among church people in recent years.

This, I am frank to say, as a life-long total abstainer, I deeply regret. I am convinced that total abstinence is a personally safe and healthful practice. From the standpoint of health I have never forgotten what a prominent labor leader said to me years ago. He had joined the church of which I was then pastor, after never having been inside a church door in 12 years. He was an habitual, but very moderate, drinker, and I used to poke some fun at him about the habit. He surprised me one day by informing me that he had been on the water-wagon for three months. But he had also surprised himself. "My word," he said, "I feel better. I thought I couldn't be healthy without a couple of glasses of beer a day, but I have never felt so well." I think his experience would be that of many others who would follow his example.

A NEWSPAPER writer once described me as "a dry, but not a fanatical dry." I took it as a

compliment. There has been too much dry fanaticism, but also a great deal too much wet fanaticism.

Liquor has of late become more strongly entrenched in social custom, and social custom takes on in this respect a somewhat exacting and domineering aspect. The normally social abstainer, who would not hesitate at a party to decline courteously a cup of tea, or a cup of coffee, hesitates to decline a cocktail, lest he be regarded as socially unco-operative or peculiar.

For my own part, when I have been offered liquor, as has happened even on pastoral visits, I have been wont to say that I am as dry as the Sahara, but that I am neither Pharisaic, nor apologetic, about it. I am not Pharisaic, for I know that far better men than I drink habitually. But I am not apologetic, for I resent the social imputation that I should eat or drink what I neither want, nor like, and particularly something with which a great deal of personal and social unhappiness is associated. It is my feeling that it is the drinker, rather than the abstainer, who ought to be on the defensive.

But all this leads up to the plain truth that it is self-control that is the essence of temperance. And the highest form of self-control, which implies a self capable of controlling, is the control of the spirit of God in the inward life. With that well established one cannot far go astray, whatever his reactions to the problems of conduct.

content of the worship service. The public is invited to attend.

Plants Have It, Too
LOS ANGELES (UP)—Flora Murray Scott, University of California at Los Angeles, has found that aging plants are victims of hardening of the arteries, just as humans are. She reports the

aging of plant cells is accompanied by a varnishing and hardening of the cell wall which, in effect, turns it wall to cork.

More than 150 new industries have been established in Kentucky during the past two years, according to the state agricultural and industrial development board.

Out Here In The Great Southwest

... visitors from other states sometimes marvel at the big-ness of our way of doing things. And, too, it is a constant source of pride to our own people when they look about them and witness, among other things, the magnitude of some of our business institutions and their capacity to render service. Here in Eastland County we are proud of our title plant and along with a host of others we think it's the best in the Southwest.

Attendance At Ball Games Off

NEW YORK, April 23 (UP)—Attendance at opening day major league baseball games ran slightly behind the 1948 figures, a United Press survey revealed today.

The total of opening day crowds at 15 major league parks dropped nine per cent from 474,933 to 431,227—a slump of 43,706 from last year.

But the difference was more apparent than real, because this year the Boston Red Sox played only one opening day game. In 1948 they played first to a morning crowd of 22,409 and then to an afternoon crowd of 33,875—a total of 56,284. Counting only one of those figures would make the grand totals much closer—only 10,000 or 20,000 apart.

British Reveal Plans For Master Air Transport

WASHINGTON, April 23 — (UP)—British officials today took the wraps off one of the secret

weapons with which they hope to challenge American dominance in world air transport—and fairly soon.

Looking far beyond conventional U. S. luxury planes, the British DeHavilland Aircraft Co., is coming up with the D. H. 106 Comet, a jet-propelled swept-back wing transport designed to carry 36 passengers at 500 miles an hour in the smooth air at 40,000 feet.

The first of 16 Comets should take the air this year. Passengers will be riding in them on world

routes sometime in 1952, according to the British Information Services, a government agency.

If the Comet will do all its makers say, the United States will be lucky if it can meet the British challenge by 1955. This conclusion is based on a United Press survey of American aircraft manufacturers and airlines.

Non-Crushable Nylon Is Fashion's Gypsy

NEW YORK—(NEA)—Fashion's gypsy is non-crushable nylon tricot.

Because befrilled or fan-pleated, lingerie is made of nylon tricot, glamor garments which are usually left behind by the traveling will take to suitcases this summer.

Such lingerie can shed its wrinkles a few minutes after it's pulled out of a crumpled bag. That goes for accordion-pleated, frills such as you see upturning from the white Empire-tyled

negligee (right) with a skirt and sleeve ruffles which are made entirely of pleats.

Pleats like these stay pleated because they are heat-set for permanence. As able to surrender wrinkles is the nylon embroidery which trims this negligee at neckline, waistband and sleeves. Despite these glamor trimmings, garments of nylon tricot can be

washed in a jiffy, and will dry almost as quickly.

A dramatic example of how travel-worthy these nylon fibers are is shown (left). The model who is dressed in a nylon tricot nightgown which she has unpacked is pulling its traveling companion from a luggage crush. The gown modeled, which is trimmed with nylon embroidery and has a pleated bodice, sleeve and skirt flounce, is styled along the same lines as the negligee.

Wichita Falls Walks As Bus Drivers Quit

WICHITA FALLS, April 23 (UP)—Hundreds of workers hitched hiked and walked to work today as Union Bus drivers went on strike in support of wage demands.

The members of the Amalgamated Association of Street, Electric Railway and Motor Coach Employees of America (AFL) voted at 1 A. M. today to walk out. Their demand for a 7 1-2 cent hourly wage boost to \$1.00 per hour was turned down by the Wichita Falls City Council refused the company's request Friday for hikes in fares.

The proposed fares were four tokens for 30 cents, or ten cents per individual ride.

Defendant Runs Amuck And Bites Court Attendants

LUBBOCK, April 23 (UP)—Courtroom attendants were nursing bites today after Richard W. McGee, a defendant in a murder trial, ran amuck in 72nd District Court.

McGee, charged with slaying of R. L. Allison, Lubbock grocery executive, caused pandemonium in the courtroom yesterday when he leaped to his feet and went into action.

The 24-year-old defendant led off the outburst with a scream loud enough to be heard outside

the courthouse. It brought the entire audience to its feet.

Chief Deputy Sheriff George Eubank was first to reach the young man. He dodged a chair that was thrown in his path and then tried to get his arms around McGee.

Defense Attorney E. A. Simpson of Amarillo tried to grab an arm. But he retreated after McGee bit him on the hand. Deputy Sheriff Earl Horton also was bitten in the 10-minute scuffle which ended with McGee being handcuffed and fettered with leg chains.

Five officers then carried him out of the courtroom.

Officers said McGee used almost superhuman strength in his struggles. As he tussled about the courtroom, he kept up a stream of babbling.
