Judge Prepares Orders To Call Off Coal Strike

Coal Negotiations Proceed Slowly

At left, David Cole, chairman of Presidential Fact Finding Board in the coal dispute, talks with reporters after negotiations between John L. Lewis and the the soft coal operators collapsed. At right, John L. Lewis, stops to talk with reporters following the collapse of the negotiations. Eight hours of discussion failed to bring results and the Presidential board of inquiry will resume its hearings to try and break the

The Law Of Dimishing Returns-

. . like the law of gravity, is controlled largely by natural forces. When man-made laws come in conflict with natural laws there is never any doubt which will win. Long before the point is reached where, cause equals effect the dimishing process sets in. Levying taxes is an excellent example, but the law operates in all fiel as of endeavor. Successful business men escape serious consequences of the law by selling a quality product for a reasonable profit.
