NEW TEXAS MASONIC GRAND LODGE

This magnificent building at Waco is Texas' new Masonic Memorial Grand Lodge Temple. The imposing \$2,000,000 structure has been described as the most beautiful Masonic Grand Lodge in the United States. Covering almost a city block, it houses a 3,700-seat auditorium, a library and a museum, and serves as headquarters for the governing bodies of Texas' 192,000 Masons in 902 lodges. Elaborate dedication ceremonies were among the most impressive in the history of Masonry. Cement for the building—8,750 bbls. of standard portland cement and 500 bbls. of mortar cement—was supplied by U. S. Steel's Universal Atlas Cement Company from its Waco plant. The Temple also has 720 tons of steel, 30,000 cu. feet of stone and granite and 1,500 cu. feet of marble. General contractor was A. J. Rife, Dal'as. Robert Leon White, Austin, and Broad & Nelson, Dallas, were the associated architects and Walter Cocke, Jr., Waco, was resident architect.
