Cast Outnumbers Hayloft Jamboree Monday Audience

Like Bruce Maddox said! "Everybody was here but the audience."

A talented cast of home-town folks gave a grand show in the face of a discouragingly small audience at the opener of the Hayloft Jamboree.

In fact the audience was so small that the cast well outnumbered the paid attendance. But like veteran troupers, the singers, dancers and punsters gave a good show and drew some mighty good handclaps.

The small audience, so small that the American Legion Auxiliary has decided to reduce prices for tonight, voted a Rainbow trio as tops for their entertainment dollar.

Members of the trio were Pat Taylor, Berle Blackwell and Madrian Huffman.

Coming in second as far as the audience was concerned were Betty Maddox and Betty Pounds, the Texas Darlings.

Pat Taylor repeated, gaining third place in audience reaction, with a couple blue numbers. The vivacious brunet sobbed out "Stormy Weather" in the best torch singing manner.

A quartet of boys that didn't hit the audience meters had excellent delivery on a couple comedy songs. Members were Kenneth Mayhall, Richard and Robert Martin and John Slaughter. The boys are students at Ranger Junior High.

Little Jackie Ray Nealey, advertised as the 50 pound Al Jolson, did a bang-up job in imitating the old "Eliza" matter. He was accompanied by the "girl of the ivories," Florence Ashcraft.

LATE CALIFORNIA ELECTION RETURNS SHOW COMMIES HAVE BIG SUCCESS; CANDIDATE GETS 268,304 VOTES

WASHINGTON, June 13 (UP)—Surprising late returns from last week's California primary election show today that Communism has sunk its roots deeply in Los Angeles.

Movietown seems to rate alongside New York as a center of Communist sympathizers.

The "Daily Worker," a Communist publication, enthusiastically calls attention to this situation in a dispatch from San Francisco dated June 11. Here are the first three paragraphs:

"With the counting still incomplete, Bernadette Doyle, Communist-endorsed candidate for the non-partisan office of state superintendent of public instruction, today had amassed the staggering total of 376,626 votes. When the final ballot in last Tuesday's primary is counted, she should break the 400,000 mark, shattering all previous records of votes cast for Communists in this state. The highest former mark was an edge over 100,000 for Anita Whitney in the late '30s."

Miss Doyle's tally as of today represents the counting in five counties, including the three major ones: Los Angeles, San Diego and San Bernardino.

Director J. Edgar Hoover of the sparked Progressive party. He is in California he got only 190,381. His successful congressional campaigns. There wouldn't be enough voters in his congressional district to come near Miss Doyle's marks.

Israel Amter was the 1938 Communist party candidate for representative - at - large in New York. He got 105,681 votes, a high for the party.

Henry A. Wallace polled 509,559 votes in 1948 as the presidential candidate of the Communist-population centers.

"In Los Angeles county, Miss Doyle polled 268,304 votes; in San Francisco county, 34,962; Alameda County (Oakland) 42,693."

Miss Doyle's showing was remarkable.

Rep. Vito Marcantonio, Alp. N. Y., the Communist's friend, never has approached such vote totals in his congressional career.

Bob R. Franklin, 22, son of Mr. and Mrs. W. W. Franklin, route 2, Eastland, has enlisted in the U. S. Airforce for four years.

He will receive basic training at Lackland Air Force Base in San Antonio, recruiting S-Sgt. Charles H. Brannon of the Eastland station.

Private Franklin was born in Breckenridge and attended Ranger High School, from which he was graduated in 1945.

While in school at Ranger, he lettered four years in football and three years in track. He was a member of the 1945 all-district football team.

He has been employed for the past three years by the Lone Star Producing Company in Ranger.

For the past two years he has been a member of the 648th armored field artillery battalion of the national guard unit in Ranger.

FBI said in congressional committee testimony just released that there were 54,174 members of the Communist party of the United States. But he warned against accepting that small figure as a measure of the party's strength since party leaders figure they have 10 fellow travelers and sympathizers for every member.

New Affidavit Substantiates Old Rip Story

New evidence of the authenticity of the story of Old Rip has arisen in Colorado Springs, Colo.

Mrs. Annie Laurie Jensen of Colorado Springs, formerly of Eastland, produced an affidavit last week which was made by her father, the late V. V. Cooper of Ranger, just before his death, and which upholds the story of Old Rip as Eastlanders know it.

The story came to the telegraph through C. A. Ranny who brought in a front page from the Denver Post of June 8, which he received through the mail.

On the front page of the Post was the story complete with pictures of Old Rip, the courthouse where Rip lived for 31 years, and Mrs. Jensen pointing to the rock where Old Rip was imprisoned.

In the affidavit, Cooper swore that he saw Old Rip lifted out of the corner stone when the old courthouse was torn down in 1928. He swore that the same tool that came out of the corner stone, came into his hands without ever passing from his sight, and that it was alive. Cooper was county commissioner at the time.

To Cooper there was no possibility of a doubt about the authenticity of Old Rip.

CRIME—William Molasky, St. Louis racing news distributor, was to be questioned by the staff of the Senate Crime Committee. Molasky, vice president of the Pioneer News Service, appeared at that request. He also agreed to let the investigators examine the books of his organization.

AMERASIA—A Senate foreign relations subcommittee ordered its chief counsel, Edward P. Morgan, to prepare a legal opinion on the possibility of bringing contempt action against Phillip J. Jaffe. A key figure in the 1945 Amerasia stolen documents case, Jaffe refused to discuss the affair at a closed session yesterday on grounds any statement might be self-incriminating.

Debate Starts On Extending Social Security Benefits

WASHINGTON, June 13 (UP)—Democratic leaders pressed for early House action on a watered-down rent bill today, with both sides agreeing that the vote will be close.

Democratic Leader John W. McCormack, Mass., told reporters he believes the House would approve the measure. But Rep. Jesse P. Wolcott, R., Mich., an opponent, said "I think we have a good chance to win."

Both McCormack and Wolcott agreed that the margin of victory for either side would be small.

With the present rent law slated to expire on June 30, Democratic leaders hoped the House would act either late today or tomorrow.

Like the legislation approved yesterday by the Senate, the House bill would extend present controls until Dec. 31, with local communities having the right to vote themselves an additional six-month extension.

Elsewhere in Congress: SOCIAL SECURITY—The Senate prepared to open debate on a bill revamping the 15-year-old social security system. The measure, drafted by the finance committee, would extend coverage to some 10,000,000 workers and practically double benefits.

CHILDREN OR DOGS?—Rep. Overton Brooks, D., La., blamed the tax laws for too many lap dogs and not enough children. In a statement in the congressional record, he proposed that Congress raise the income tax exemption for children from \$600 to \$1,000 as an inducement to parenthood.

APPROPRIATIONS—The general accounting office has come up with a more flexible version of the House-approved plan for trimming \$600,000,000 off the federal budget. It was prepared for the Senate appropriations committee which is considering the \$29,000,000,000 single-package 1951 appropriation bill.

CRIME—William Molasky, St. Louis racing news distributor, was to be questioned by the staff of the Senate Crime Committee. Molasky, vice president of the Pioneer News Service, appeared at that request. He also agreed to let the investigators examine the books of his organization.

Thirteen Reds Try To Seize Hun Parliament

BONN, Germany, June 13 (UP)—Thirteen West German Communist Deputies tried to seize the hall of Parliament today and were dragged out by German police.

The incident occurred during a recess caused by a Communist uproar.

Parliament guards were kicked and slapped as they ejected the screaming Communists.

The trouble started shortly after Communist Leader Max Reimann had been expelled for 30 days by Speaker Erich Koehler. The speaker had suspended Reimann's rights to attend sessions because Reimann refused to accept Koehler's ruling forbidding debate on a declaration by pre-war Reichstag president Paul Loebe that "the territory East of the Oder-Neisse line remains a part of Germany."

Reimann shouted that the declaration "was made without our (Communist) concurrence" and said he "cared nothing" for Koehler's rulings.

When the speaker adjourned the session and ordered all deputies to leave the floor, the Communists rushed to the tribune with Reimann in the lead and refused to leave. Police then intervened.

Directors of the United Telephone workers were called into session today to prepare for a strike against the New York Telephone Co. The independent union, which represents 16,000 employees of the company, broke off negotiations yesterday a few hours before its contract ran out at midnight EDT.

At Pittsburgh, President Harry Tevis of the striking AFL milk drivers said he was afraid that an emergency system for delivering milk to hardship cases would break down completely.

Wheat Growers Must File With PMA Immediately

Emmett Powell of the Eastland county production marketing administration announced that if a farmer has not grown wheat on his farm in 1948, 1949 or 1950 and wishes to do so in 1951, he will have to make application for a new grower wheat allotment at the county PMA office.

The closing date for filing applications is June 26, 1950.

GRIFFIN TO RUN IF MAC DOESN'T

MISSION, June 13 (UP)—James Griffin, who opposed state agriculture commissioner, J. E. McDonald for office in 1948, said today he would run in the general election this year if McDonald's name is barred from the democratic ballot.

Griffin, a Rio Grand valley farmer, announced for the commissioner post earlier this year but withdrew after McDonald announced he would not run and then filed.

In 1948 Griffin polled 450,000 votes against more than a million for McDonald.

Ranger Rambling

The singing convention held this weekend gave the restaurants a nice amount of business. A couple I looked in Sunday noon had about twice as many people to serve as usual. And this again illustrates the value of plugging for conventions. The chamber of commerce did a lot of unheralded work to make the convention a success—and it drew an even larger crowd Sunday afternoon than that morning.

The town is keeping up with the times—noted Saturday that Bruce Maddox is putting in a large plate glass window. The building housing Pearl's Cafe was recently refurnished.

Noted while rambling down the street that the Ranger Jewelry Store had a sign pasted up on their window — Something about not sleeping against the window — that it breaks.

And the Fashion Cleaners had their front door busted when some body tried to go through without opening the door.

Frank Meriman, who spells his name with just one "r" I found out today, is getting ready for the big rodeo here in July.

M. W. Standish mentions that now's a good time to sign up for winter bowling. He points out that the leagues will get first choice on alleys. Free nights will go on a first come, first serve basis.

Nick Bachis made the "Big Lift" which showed here this week end. He was a member of the Army band that played during the 100,000th airlift ceremony.

Economically, the U.S. looks as sound as an American saving bond which is a pretty sound investment. Government experts and private economic firms both agree that the country's pretty well off as far as prosperity goes.

The government figures that this current prosperity wave should continue for at least 18 more months. Which will put one election behind—another coming up so the prosperity should hang on for at least two and a half years.

The big corporations are getting bigger so they must be making money despite Truman taxes. And the bigger a company gets, the

more limelight it gets, and the more it draws monopolistic charges. The trend toward large monopolies hasn't been stopped, it's doubtful if any laws can stop them though the justice department makes an effort come every election year.

While we're talking about monopolies, the swing of David Lillenthal from a government ownership idea to private ownership idea needs some study.

Lillenthal has never been one of the loud-voiced advocates of government ownership. But his name has long been associated with the scheme—TVA. Then he gets appointed to the Government Atom monopoly—and resigns after some very meritorious service.

Now he's come out for business to get a chance at the Atom. It's a story that needs some back-

ground information. Lillenthal's motivations should be analyzed before his latest stand can be properly judged.

The West and East is keeping pretty well balanced on one score anyway. Somebody in the West decides he likes Russia best and jumps across yelling for protection. Then somebody in the East decides he likes the West best and jumps over here asking for protection.

Save us from cynicism — but I'm wondering what a better job offer or the danger of losing a job has to do with all these quick jumps.

And this reminds me of a cartoon. Two college boys were discussing their future.

One college boy says cocksurely. "I got it cinched. I'll join the Communist party for a coup-

NOW PLAYING AT THE ARCADIA

le years, then resign and write books and get paid witness fees as an ex-Communist."

It's not a bad racket. A couple boys grabbing headlines from day to day now are doing right well as ex-Commies.

To A Very Nice Man

I knew the very nicest man
 That you or I ever knew.
 The kind that was a true friend
 When true friends, indeed, are few.

He had a rare, rare smile
 With wit and humor a plenty,
 You will never find another such as he
 Be he eighty or twenty.

This awful nice man had a way
 Of making friends as he traveled along,
 And whether his path was smooth or rough
 He covered it all with a smile.

No matter what be the occasion
 This man had a word of good cheer,
 And while he was so terribly good-looking
 He, too, was right much of a dear.

We all liked this very nice man
 Which I think you can plainly see,
 He'll always have the memories of
 His friends and loved ones.

The Little Things We Notice—
 ... in preparing your abstract often grow into big things as time passes. For example, if the deed is drawn in a careless manner by an inexperienced person it may be full of errors which will show up in your abstract when it comes time to sell, get a loan or lease for oil and gas. The abstractor must copy the instrument just as he finds it on record. The moral is, have your legal documents drawn carefully and only by experienced conveyancers.

Eastland Lads Report On Activity At Austin Lone Star Boy's State

AUSTIN (Sp.)—There's a lot of punch corked up in that little bottle of cleaning solvent out on the back porch. State Health Officer Geo. W. Cox called them "hazardous, when special precautions are not used."

It seems that solvent vapors are heavier than air, which means, according to Dr. Cox that they will collect at floor levels. The danger of using solvent for such household chores as taking sports off the linoleum, or cleaning dirt or grease off the back steps, is that you have to get on your knees to do the job.

And when you're on your knees, you're closer to the accumulation of solvent vapor.

The state health officer proved his whole point with this story:

A man attempted to remove the grease from the underside of his car by spraying it with a gun he had brought home from his construction job. He was found dead under the car, suffocated by the vapor of the cleaning agent.

Proper use of cleaning solvent, says the doctor, call for opening all the doors and windows when

cleaning floors, the underside of household furniture, or clothing. The idea is to get as much ventilation as possible. A fan blowing on the working area is helpful.

When doing a job of this sort, work for a short time—avoiding inhaling the vapors as much as possible—and then get into the fresh air for a minute or two.

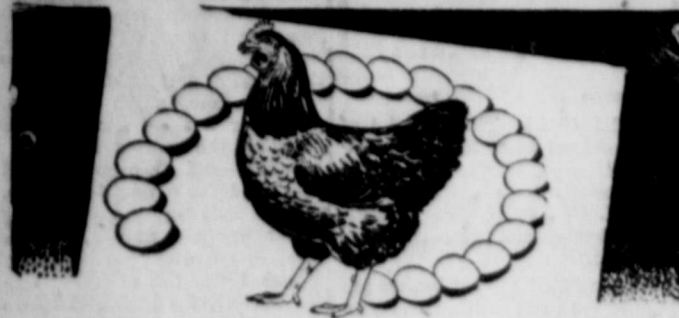

The first symptoms of vapor poisoning are nausea, dizziness, headache and fatigue. When you notice them, get outside as soon as possible, the health official advises.
