WAGWAN FALLS TO COMBINED US, SOUTH KOREAN FORCES; REDS FLEEING FROM SEOUL

By Ralph Teatsorth
United Press Staff Correspondent
TOKYO, Sept. 19 (UP)—Americans and South Koreans recaptured Waegwan and entered the outskirts of Pohang today as the enemy began a series of surprise withdrawals at Seoul and all around the Pusan beachhead.
Carrier planes blasted and almost completely destroyed a column of trucks pulling out northward from Seoul. American reconnaissance planes reported it appeared the Communists were withdrawing to escape U. S. Marines massing in the southwest suburbs for an imminent assault on the former South Korean capital.
Men of the American 24th division, shifted secretly from the northeastern end of the Pusan perimeter, took bitterly-contested Waegwan, while at Pohang a battalion of the South Korean third division entered the southwest outskirts of the ruined port.
The 24th division plunged across the Naktong in rubber assault boats at two points below Waegwan under murderous Communist fire to set up the second and third American bridgehead across the bloody river.

THE FALL OF WAGWAN toppled a major obstacle to an American advance out of the beachhead up the main highway from Pusan and Taegu to Seoul to link up with the new 10th corps.
American reconnaissance planes reported Communist columns moving north out of Seoul. One column of trucks was blasted by carrier planes and almost completely destroyed. It was too early to estimate the extent of the withdrawal, but the Red garrison at Seoul was believed to total only about 4,000 men.

THE AMERICANS ALREADY have 40,000 men ashore west of Seoul.

Strong Marine forces with tanks and guns were in Yongdunpo, an industrial suburb 1 1/2 miles southwest of Seoul and directly across the Han river from the city. The Marines rapidly were clearing the southwest bank of the Han from Yongdunpo to a point east of the Kimp'o airfield, 9 1/2 miles northwest of Seoul.

The American 7th Infantry division joined the assault less than 24 hours after scrambling ashore from transports at Inchon, some 20 miles west of Seoul. Men of the 7th struck southeast to cut the southern roads and railway out of Seoul in a move designed ultimately to isolate Communist forces in southernmost Korea.

Kimp'o airfield, captured by the Marines Sunday night, was put into full operation today. Airlift planes ferrying supplies into Korea from Japan began around-the-clock shuttle flights to the airfield, biggest and best in Korea.

HEADS OF AMERICAN FEDERATION OF LABOR REPORTED PREPARING CALL TO CLAMP DOWN ON SHIPMENT OF GOODS TO SOVIET UNION

HOUSTON, Sept. 19 (UP)—Leaders of the American Federation of Labor today were reported preparing to call on members unions to clamp a boycott on trade with Russia and her satellite countries.

The international affairs committee, it was learned, was drawing up a resolution asking AFL members not to handle goods received from or destined for shipment behind the Iron Curtain.

The resolution will be offered to the AFL's 69th annual convention here this week. Leaders were confident of its passage.

The committee moved swiftly to put teeth into AFL President Wil-

LEGIONAIRES BATTLE VIET MINH FORCES

By Robert Branson
United Press Staff Correspondent
SAIGON, Indo-China, Sept. 19 (UP)—French Legionnaires and paratroopers counter-attacked today against black-uniformed Communist Viet Minh troops who captured the outpost town of Dongkhe on the Chinese Communist border.

A French communique said flatly that the Viet Minh forces were armed in Red China.

"WE CAN SAY THAT FOR the first time (Viet Minh forces) have used units recently armed in China," the communique said.

It also said the Communists captured the Dongkhe fort after bloody hand-to-hand fighting with gallant French troops who fought against great odds.

French Army headquarters confirmed that the town had fallen and that the Red Viet Minh flag floated over the Dongkhe fort.

French Army headquarters confirmed that the town had fallen and that the Red Viet Minh flag floated over the Dongkhe fort.

Meantime, a second Communist force was reported to have surrounded Laokay, 167 miles west of Dongkhe, and other Communist concentrations were sighted near Monay, eastmost French frontier post near the China Sea.

Altogether some 4,000 or 5,000 Communists are believed involved in the operations.

IT WAS NOT CLEAR YET whether the Communist attacks were the prelude to a long-predicted general Communist offensive in Indo-China or merely localized operations in protest against the return of French control to Indo-China. Saturday is the fifth anniversary of the return of that control.

Sears Pig Show Scheduled For September 23

The annual Eastland County Sears Pig show will be held Saturday, Sept. 23, at the Ranger Show Barn, according to Ed Steele, Eastland county agent.

Eight gilts will compete for 5 prizes and the chance to go to the Area Show at Breckenridge the next week. Only the first prize gilt and the bear pig are eligible for the area show competition.

STEELE BELIEVES THE PIGS are much better than they were last year and the competition will be very stiff.

The Sears Rebeck Foundation sponsors and finances this program and furnishes eight gilts and one bear pig each year for winning 4H Club boys. The pigs are Registered Duroc Jerseys. The purpose of the program is to encourage the raising of better hogs in the state.

Boys with 1950 Sears pigs are: Carol Sandland, Carbon, bear pig; Leon Rodgers - Alameda; Jack Jones, Ranger; Dan Jobe, Dup Starr, Carlie Rice and Marvin Anthony, Seranton; Lawrence Ingram, Nimrod; and Glen Fleming, Pioneer, all with gilts.

DENTON, (Special)—West Texans are plentiful on North Texas State's 1950 football squad that opened its season Saturday night against the University of Kentucky at Lexington.

Eight gridgers from the Cow Country are on the Eagle squad. They are: Bill Rogers of Abilene, End Jimmy Spencer and Tackle Ray Dodds of Breckenridge, Backs Tommy Gray and Richard Harvey of San Angelo, Back Fred Hickman of Robert Lee, Back Bill Brashier of Eastland, and Guard T. K. Hardy of Ranger.

Hickman, Rogers, and Brashier play on Coach Oduis Mitchell's defensive platoon at the halfback and safety positions. A junior letterman, Brashier is an offensive quarterback who's passing and punting is outstanding.

Brashier is the son of Mr. and Mrs. W. E. Brashier of Eastland and the grandson of Colonel and Mrs. Brashier of Ranger.

In addition, 21 chaplains and 24 aviation officers will be called from the Fourth Army area.

The Eastland County Production Marketing Administration office has now opened the 1951 legume and cover crop program.

The program is approximately the same as that of last year. Each farm is limited to 1-3 of the cropland for the vetch and peas as cover crop, and 1-2 the cropland for a straight rye cover crop.

THE PAYMENT ON VETCH IS 12 cents per pound and peas .055 per pound. The PMA may help on the phosphate under winter legumes at the rate of 200 pounds per acre. The straight rye cover crop will pay \$2.00 per acre if a good stand and growth is obtained and the rye not harvested.

If you wish to now a cover crop on your farm get in touch with the PMA office and all the details of the program will be explained.

Rent Director Asks Congress For Authority

WASHINGTON, Sept. 19 (UP)—Rent Director Tige E. Woods is asking Congress for new authority to keep or impose rent ceilings where needed, and for the first time to put commercial property under rent control.

Woods also has asked, it was learned today, for the right to put price ceilings on real estate sales. At no time in World War II were commercial properties or real estate, other than new homes, under rent or price control.

WOODS HAS OUTLINED IN a general way to Congress what new wartime authority he wants; he has spelled out more specifically to regional rent officials what powers he is asking for.

He wants authority to recontrol rents in areas where ceilings were abolished by local option. He has asked that local option features of the present law be abolished.

He is not asking for a blanket freeze of rents. However he wants authority to impose or reimpose controls "where it becomes necessary and at such time as it becomes necessary."

McCarthy Hits Appointment Of Gen. Marshall

HOUSTON, Sept. 19 (UP)—Sen. Joseph McCarthy charged last night that Gen. George C. Marshall's appointment as defense Secretary was part of a State department scheme to silence Gen. Douglas MacArthur and complete "the sell-out" of Formosa.

In a renewal attack upon Secretary of State Dean Acheson, the Wisconsin Republican called the Administration policy toward Formosa "the betrayal of 1950."

He described Marshall as a 70-year-old soldier "whose hatred for Chiang Kai-Shek is greater than his hatred for Communism." He also claimed Marshall dislikes MacArthur.

Housing Group Gives Local Nod

The local housing authority gave final approval for construction of a 50 unit government rental project here.

The project must still be approved by the Federal Public Housing authority. No trouble is expected.

All surveys, cost estimates and architectural plans have been made.

Total cost is estimated at \$416,357.40, or \$8,327.15 per unit.

Kaiser-Frazer Starting Auto Price Boosting

DETROIT, Sept. 19 (UP)—Kaiser-Frazer Corporation boosted prices on its 1951 Kaisers from \$10 to \$120 today in what was believed to be the first move in a new round of postwar automobile price increases.

Walker De Marini, vice president in charge of sales, said K-F's cost of parts and materials had risen about 10 per cent and labor rates jumped approximately seven per cent since the new line of Kaisers was introduced.

PACKARD MOTOR CAR CO. in announcing its 1951 models, gave the first hint of what the whirlwind round of wage hikes already won by more than 800,000 CIO United Auto Workers would mean to the car-buying public.

HOLLYWOOD (UP)—The biggest changes in Hollywood in the last 10 years are more traffic and less sunshine. Vivien Leigh has decided.

Beyond that, said the British star who is making her first movie here since 1940, Hollywood is just about the same. "Traffic has become worse," she said. "It frightens me every time I go back and forth from the studio. And since I've been here, the driving becomes steadily more erratic. I didn't know what people meant by smog when I first arrived in town. Since then I have had experienced it. All I can say now is 'no comment.'"

The Daily Cost of Fire— 30 Lives and \$2,000,000

Smoking and matches, 91,000 fires—Never throw away lighted matches or cigarettes. Have ash trays handy. Never smoke in bed or near combustibles. Another 20,800 fires are caused by children playing with matches. Keep matches in metal containers, out of the reach of small children.

Misuse of electricity, 70,200 fires—Don't substitute a penny for a fuse. Make sure capacity of circuits is adequate to carry electricity safely to all appliances. Never try to operate defective electrical equipment. Replace frayed cords immediately. Keep motors clean and repaired.

Flammable liquids, 41,800 fires—Never use gasoline or any other explosive cleaning fluid to clean cloths. Non-flammable cleaners are available. A spark from a cat's back is enough to ignite vapors.

Sparks on roofs, 22,500 fires—A flammable roof is a big, vulnerable target for a flying spark. Recover warped, weather-beaten flammable roofs with asphalt shingles or similar fire-resistant material.

Defective heating equipment and chimneys, 75,300 fires—Clean the chimney and furnace yearly. Replace worn and defective parts promptly. Don't stack combustible material of any kind near the furnace.

Daily, fire is killing 30 Americans and is burning and disfiguring 60 more.

Daily, fire is attacking 740 homes, 204 stores, 91 factories, 13 theaters, 8 churches, 7 schools, and 3 hospitals—at a daily cost of about \$2,000,000.

Navy LST Boat Evacuates 670 ROK Guerrillas

ON THE POHANG FRONT, Korea, Sept. 19 (UP)—A U. S. Navy LST evacuated 670 South Korean guerrillas from the East Korean coast 18 miles north of Pohang today.

Thirty others were left behind and disappeared into the hills in white civilian clothes.

The guerrillas landed at Changsa Sept. 15, disappeared behind enemy lines and then reappeared on the beach yesterday.

This morning a Navy LST started loading them. But before the job could be completed enemy troops showed up within 200 yards of the beach, forcing the LST to shove off with 75 South Koreans still on shore.

American fighter planes then drove the Communist soldiers back and the LST loaded an additional 45. But choppy water forced the LST to pull away again and before it could return a third time the 30 guerrillas had donned civilian clothes and disappeared.

Mighty Mo Hits Enemy Attack

ABOARD THE HEAVY CRUISER U.S.S. HELENA, Sept. 18 (Delayed) (UP)—The devastating firepower of the battleship U.S.S. Missouri—the Mighty Mo—was brought into action again today and leveled enemy installations and blasted troop concentrations in the Pohang area.

The action broke up an attempt by the enemy to stop the advancing South Korean 3rd division.

The South Koreans were to be supplied air power for their advance. But when bad flying weather upset the plans, a hurry-up call was made for the Missouri and escorting destroyers to move into the area.

The bombardment stopped cold a North Korean counterattack on the 3rd division.

It's Age Of Speed—A Salt Lake City business man, George Vaughn, arched his eyebrows when he opened his 9 a. m. mail. The fifth envelope was post-marked from Layton, Utah, 25 miles away, at 7 p. m. the same day.

Greyhound Bus Lines Say Fall, Good Season

People who take vacation and pleasure trips in autumn are choosing an ideal time of year for travel, according to Frank R. Tibbets, Traffic Manager of Southwestern Greyhound Lines, who today announced Greyhound's nationwide effort to call attention to the desirability of Fall as the time for more pleasant highway travel.

Tibbets emphasized the many and varied places to go and exciting things to do in the Fall... such as seeing a big football game, taking a group trip to special events, visiting the folks back home, going on a hunting or fishing trip, or taking an expense-paid tour to one of the country's wonder spots.

"People are just beginning to realize the many distinct advantages of Fall travel," Tibbets pointed out. "They are becoming aware of the increased pleasure of such things as cooler weather for traveling, a much wider choice of hotel and resort accommodations, the more colorful scenic beauty of the countryside during the Autumn months."

He then went on to say that this Fall Greyhound has made special plans to provide a wide variety of

services to take care of the expected increase in Fall travel. He stated that Greyhound is extending many of its expense-paid Amazing America Tours through the Autumn months, and that special buses are being made available for group trips to the big games, conventions, club excursions and other group events.

Superforts Hit KoRed Arsenals Near Pyongyang

TOKYO, Sept. 19 (UP)—American B-29 Super Forts blasted the Kan arsenal and other targets near the North Korean capital of Pyongyang today, an Air Force spokesman said.

The spokesman also said that Allied fighters continued their close support of ground troops, especially along the Naktong river lines and in the Waegwan area.

The Superforts, which went out in "considerable force," hit an ammunition storage dump at Pokye-Ri and troop concentrations at Namchonjon, 80 and 60 miles southeast of Pyongyang, respectively.

B-29's in small groups also hit the Konan chemical works and the Kan arsenal, both of which had been bombed before.

A 5th Air Force spokesman listed the following pilot claims for yesterday:

Destroyed: Four tanks, 22 trucks, five other vehicles, two gun emplacements, one boxcar, 26 troop buildings, one fuel dump, seven artillery pieces and one bridge.

Damaged: Four tanks, 11 trucks, 20 other vehicles, two gun emplacements, three locomotives, 30 railroad cars, eight troops buildings, five supply dumps, seven bridges, four railroad tracks.

The bride, given in marriage by her father, wore a rose beige suit-dress of strutter's cloth with matching accessories. Her corsage was of white carnations and orange blossoms. She carried a white Bible covered with white carnations and white satin streamers knotted with orange blossoms.

Miss Billie Sue Latimer of Albany was the bride's only attendant. She wore a forest green dress with brown accessories and her corsage was yellow iris. Joe Black of Eastland was best man. Immediately following the ceremony, a reception was held in the dining room of the home.

Your Health

AUSTIN, (Special)—At least four different types of radioactive detection instruments and computers are available for measuring radiation particles if and when an atomic bomb is ever exploded over a Texas community.

This encouraging bit of information was revealed by the state's chief health official, Dr. Geo. W. Cox. He's state director of health and emergency medical services, part of the Texas civil defense setup.

Radiation is one of three principle harmful effects of atomic explosions. Others are blast, damage and burns. Using RADIAC instruments, it is possible to know what areas are safe from the tasteless, odorless, colorless radioactive particles.

All RADIAC instruments are designed for use by radiation monitoring squads. Squad members might be soldiers, or they could be civilians trained by the State Health Department's radiological division. In either case they would be trained for immediate action in atomic disasters.

"Planning emergency medical and health services in an atomic disaster has been one big mess of confusion," Dr. Cox admitted.

"But we're beginning to see light now. Our radiological division is going to go right to work, now that we have it set up."

Radiac instruments got this official explanation: Film badges can be pinned onto the lapel, strapped onto the wrist, worn in a ring, etc. They consist of a piece of photographic film, and are used to show the amount of radiation to which the monitor has been exposed.

Radiation particles affect the film like light. Dozens of "tracks" are visible when the film comes in contact with heavy concentrations of radiation.

Film badges are a permanent record of the exposure to which the monitors have been subjected. Dr. Cox says they show whether or not the wearer has received the "maximum allowable lifetime dosage."

Pocket dosimeters, like the film badges are for the protection of the monitors. They look like fountain pens, and gauge on-the-spot amounts of radiation.

Geiger counters and ionization chambers actually count the number of radiation particles—gamma rays, and alpha and beta particles present in the area. So sensitive is the Geiger counter that if it could be wired to a fly his footsteps could be heard distinctly.

It Was Just An Accident—

... that Columbus discovered America, or was it luck? He himself said that his journey would be hazardous and he didn't know where he was going. But he had faith that he would discover a great land, and he did. Likewise, the person who buys land without an abstract is embarking on a dangerous course. Like Columbus he must have faith that he won't lose his all and plenty of luck to avoid disaster.

(HADACOL actually relieves the REAL CAUSE of neuritis pains when due to such deficiencies.)

Mr. W. L. Daniels, Springfield, Missouri: "I can definitely recommend HADACOL. I was bothered with neuritis pains, had little appetite and had stomach distress.
