'Spend Less, Tax More' Advises Governor

2 More Victims Feared Killed By Hunted Murderer Cook

COMMUNIST SAY, THESE ARE FLEEING AMERICANS—This photo was received from a Communist source, Eastphoto, and according to the caption supplied with the photo, "fleeing American soldiers . . . intercepted by the Chinese People's volunteers, after the Wensan battle." The spelling of Wensan was also supplied by Communist source (Eastphoto from NEA Telephoto).

UN Planes Blast Increasing Enemy War Traffic As Reds Hit 70 Miles S. Of Parallel

By Ernest Hoherecht
TOKYO, Friday, Jan. 12 (UP)—Red spearheads struck 70 miles south of the 38th Parallel in central Korea Thursday while Allied planes blasted increasing Red war traffic south of Seoul.

Pilots reported killing or wounding 1,400 Reds in three hours of good weather, 1,100 on clogged highways near Suwon, 17 miles south of Seoul. But only patrol activity was reported on the ground in this area.

The Reds' central front drive through the Wonju area slackened temporarily in a continuing billiard of sleet and snow. To the southeast, however, a new Red column slashed within six miles of Tanyang, major road and rail hub 35 miles below Wonju.

With clearing weather this afternoon over most of Korea, 5th Air Force planes roared back into action in strength for the first time in 48 hours. They struck all along the 70-mile Korean front,

where an estimated 250,000 Red troops have massed for an imminent offensive.

In the three clear hours before dusk, they killed or wounded more than 1,400 enemy troops in 215 sorties. All but 300 were caught on clogged roads near Suwon, 17 miles south of Seoul.

The fighting spotlight shifted temporarily to the east-central flank of the 8th Army, where the Reds drove a deep wedge in to the Allied line beyond Wonju.

Maj. Gen. Robert B. McClure's 2nd Division killed or wounded 2,100 of 7,000 attacking North Koreans in a 7 and one half hour battle yesterday, but in the process were driven back three to five miles.

McClure ordered his men to "kill everything that moves" to prevent infiltration of their lines. Tanks moved up to support the outnumbered defenders.

The 2nd Division appeared to have given up for the time being at least its attempt to recapture Wonju, lost to the Reds Monday. A UN patrol got into the southeastern outskirts of the city yesterday, but Allied troops did not reenter the city in force.

Intelligence reports said Chinese troops from the west and north had begun to reinforce the Communist assault forces for an apparent all-out drive toward Chungju, 27 miles south of Wonju.

6 Bulldogs Place On Abilene Paper 8-A Dist. Team

The Abilene Reporter-News listed six Bulldogs on its 8-A All-District team of 1950: Jimmy Comacho, back, Jackie Hammel, tackle, and Bill Yang, tackle made the first team and Herbert Williams, end, Weldon Cunningham, back, and J. L. Barnes, guard were placed on the second team.

30 Carloads Of Officers Swarm Mexicali For 'Squint Eyed Butcher'

EL CENTRO, Calif., Jan. 11 (UP)—A hint that gunman Bill Cook may have slaughtered two more victims sent officers into a house-by-house search of Mexicali, Mex., for the "squint-eyed butcher" today.

At least eight murders have been chalked up to the 21-year-old ex-convict and officers feared he cut more notches in his gun by killing two prospectors who are missing south of the border.

A posse of FBI agents, Imperial County sheriff's deputies, El Centro police and Mexican officers discovered yesterday that the missing prospectors were seen late Saturday at San Felipe, a Mexican fishing town on the Gulf of California.

The town, about 135 miles south of the border, is near where the gun-crazy Cook's escape car was found the next afternoon.

The prospectors, Forrest Damon, 32, and Jim Burke, 33, of El Centro, apparently changed their weekend plans and went to San Felipe instead of camping in the Imperial Valley, officers said. They were to have returned home Sunday afternoon.

When the pimply-faced killer's getaway car was discovered in the barren wastes north of San Felipe, tire marks of a light-make auto were nearby. Damon and Burke were driving a 1950 Studebaker sedan, and authorities said it was possible Cook flagged them down.

San Felipe residents told possemen "that's Burke" when shown pictures of the missing prospector.

But FBI special agent E. C. Richardson said there was "no proof the two men's disappearance had any connection with Cook."

Richardson moved his headquarters here from San Diego to take charge of the gigantic manhunt, without equal since the FBI tracked and killed John Dillinger.

The sawed-off fugitive is wanted for the murders of the Carl Mosser family — the parents and three small children — and Robert H. Dewey. He also admitted slaying two other unidentified persons to a sheriff's deputy he kidnaped Saturday.

Cook whose home is in Joplin, Mo., has a droopy right eyelid that misled persons he met into thinking the eye was artificial.

The possibility that he still was in Mexico touched off the door-to-door search in Mexicali.

Rural Phone Plan Explained At Meeting

The organization of a Rural Telephone Co-op in Eastland county was discussed by L. G. Ammons, Stephenville, at a meeting of officers and directors of the Eastland county Rural Telephone Cooperative in Eastland, Wednesday at 2 p.m. in the district courtroom.

Ammons explained to the group that the Phone Act, which became law a little over a year ago, was actually an amendment to the Rural Electrification Act.

Money is loaned to co-ops or anyone who is presently in the telephone business, under the act.

"Approximately 40 per cent of rural homes in America today have phones," Ammons said. "Only 20 per cent of these are adequate."

"If and when a phone line is built on an REA loan, it will be the best obtainable anywhere," Ammons declared.

He pointed out that an adequate telephone system will make most farmers money in various ways.

Loans are made on acre coverage.

Plans were made by the group to start a membership drive. Ammons suggested that a membership of at least 500 be obtained before paper work was begun on the project.

A membership fee of not more than \$50 will be required of those who get into the plan. A token fee of about \$5 will be required upon signing up for the program.

Ammons explained that this fee was an equity or a retainer fee. Its purpose is to keep members from dropping out of the co-op. It is felt that if a member has some investment of about \$25 to \$50 in the co-op he will not be likely to drop out.

The REA did not require this fee, it was explained, because those joining usually bought several electric appliances which served as their interest in staying in the program.

SHIVERS GIVES SOMBER TALK SHADOWED WITH WAR THREAT

By O. BLODY, JR.
AUSTIN, TEX., Jan. 11 (UP)—Gov. Allan Shivers, in a somber message shadowed with the threat of war, called upon the 52nd Legislature today to spend less and prepare to tax more.

As hundreds of spectators packed the House galleries, members of both the House, and Senate gathered for joint session in the lower chamber to hear the Governor speak.

"The long shadow of another world war," he said, "has fallen across our nation, our state, and our homes. State problems become secondary."

National Mobilization, he said, must come first.

"It is not too much to ask," he added, ". . . that every state undertaking not necessary to the maintenance of a strong, sound home front be eliminated or drastically reduced."

He called for a financial belt-tightening and frankly warned, "our financial picture is not encouraging. The state comptroller has estimated a two-year deficit of \$110,000,000 in available general revenues at the current rate of spending."

"Obviously," he pointed out, "we must spend less—tax more—or both."

He called for a hold-the-line stand on spending and expressed hope that the Legislature would "protect the slender balance in our general revenue fund for civil defense."

"Other 'emergencies,' however urgent, pale," he said, "before the necessity of protecting our homes, businesses and public facilities against sabotage, and our own lives against a possible enemy attack."

"Eventually," he said, "large sums of money may have to be expended in this program."

"It is the one area above all others," the governor added, "in which the state of Texas must be prepared to spend whatever money is necessary to protect its citizens. That is the project we call civil defense."

The legislature, he added, could expect civil defense recommendations which "will be sent to you as soon as possible."

Britain Told US Intends To Stay In Korea

LONDON, Jan. 11 (U.P.)—Reliable sources said today that the United States has informed Britain that it intends to hold out in Korea despite Communist China's full-scale intervention.

These sources said Sir Oliver Franks, British ambassador in Washington, was instructed 10 days ago to inquire whether the U. S. would hold a line in Korea.

The reply was that the U. S. believed a line could be held and meant to hold it. The location of the "final" defense line was a military secret.

Informants said that foreign secretary Ernest Bevin has told Commonwealth prime ministers in session here that Britain will support American efforts to hold at least a bridgehead in Korea.

In the meantime, Bevin intends to keep on trying to exchange ambassadors with Communist China and attempting to induce other members to admit the Peking Government to the United Nations, informants said.

Bevin believes these steps offer the best hope for a "cease fire" in Korea that would prevent an open war with Communist China and perhaps another world war.

But if he fails the UN forces are driven out of Korea, informants said, Bevin told the Commonwealth prime ministers that Britain may drop its conciliatory attitude toward the Chinese Reds.

They said Bevin asserted that his government would have to reconsider its position under these circumstances and might join the United States in a "get tough" policy toward Peking.

High School Teams Meet Dublin Friday

Their second district win is the goal that the Bulldogs and Beauties will shoot for Friday night in Ranger when they meet Dublin's visiting caçers.

Invitation Group Of Fat Stock Show Here Tues.

A hearty invitation to attend the Northwestern Exposition and Fat Stock Show will be extended Tuesday to Eastland county citizens by a group of business and professional people from Fort Worth.

The group, traveling by chartered bus will provide western music and songs on their stop here. The trip, second of a series, will be sponsored by the Southside Lions and Eastside Lions Clubs of Ft. Worth, Ft. Worth civic organizations are sponsoring several trips in cooperation with the Chamber of Commerce to invite Texas cities to attend the Exposition, Jan. 26 through Feb. 4.

Town to be visited include Mineral Wells, Palo Pinto, Strawn, Ranger, Eastland, Cisco, Albany, Breckenridge and Weatherford.

The group will have lunch with the Eastland Lions.

Harold Webb, Southside Lions and Carl Howard, Eastside Lions, are trip chairmen. Charles G. Cotton, Fort Worth Chamber of Commerce, planned the trip.

Russia Reported Massing Troops Near Alaska

TAIPEI, Formosa Jan. 11 (UP)—Russia has moved 300,000 seasoned troops into Eastern Siberia and may be planning an attack on Alaska, the Ministry of Defense of the Chinese Nationalist government warned today.

The ministry said the troops were moved into the area either to join the Korean War against United Nations troops or to strike across the Bering Strait into the Aleutian Islands or Alaska.

The troops were reported to be under the command of Soviet Marshal Rodin Malinovsky.

45 Per Cent Of Pilots In This Jet Fighter Group Are Over 6 Feet Tall

BY H. D. QUIGG
AN AIRPORT IN KOREA, Jan. 11 (U.P.)—Put away that old-fashioned notion that fighter pilots must be little squirts in order to fit into the cockpit.

There is a jet fighter squadron out here in which 45 per cent of the pilots are more than six feet tall.

The commanding officer, a shaver of six feet and around 240 pounds, says he has no trouble at all slipping into the drivers seat of an F80 Shooting Star. He uses a greased shoe horn (that's what he says). He's from Texas and four of his other pilots are from Texas, and I have no desire to dispute the sta-

tement of a man from Texas. The commanding officer is Lt. Col. Charles H. Williams, 30, of (414 East Mistletoe St.) San Antonio, Tex. He does more than just command the squadron. He's the lead-off man in its rainy day department of barbed wit and banter.

Maybe you've wondered what fighter pilots do on a soaked-in day when they have to sit around on the ground. Well, I found out. They spend the time tossing souped up insults at each other for laughs.

SHIVERS—

(Continued From Page 1)

that inflation has so pinched the little man that a general sales tax, never desirable, is entirely out of the question."

The legislature, he suggested, should be prepared to "write a tax bill, or revise existing tax measures, so as to raise the required revenue—and no—more without overburdening any segment of business or industry."

The Governor said he didn't know how the problem would be solved, adding:

"The question, quite frankly, has ceased to be to whether we will need new taxes. The real question is how large—or better, let us say, how small—the new levy will be."

He hailed the future with only lukewarm optimism. "I think," he predicted, "we are going to make reasonably satisfactory answers to these perplexing questions that confront us."

The Governor outlined a program of suggested reforms, which he said could be carried out at

While the rain beat steadily on the roof of the wooden barracks, the jet jockeys sat on their iron beds around a squat iron stove and poked fun at themselves and their work.

"You think we've got some big guys in our outfit," Williams, the C. O. said. "Look at that major over there. If they get any smaller than that, we throw 'em back."

Maj. Clyde E. Good, 31, of Columbus, O., the deputy commander, weighed 140 pounds and was five feet four inches, the shortest height the Air Force allows.

The Colonel's booming voice continued: "We had to make him deputy commander to keep the rest of the guys from tramping on him. We got guys in this outfit with feet bigger than he is. Show the correspondent your feet, Eckman."

Capt. Robert L. Eckman, 26, of (1712 Kipping St.) Houston, Texas, is six feet three inches tall and wears a size 13 shoe. He has 1,300 hours of flight logged in the F80.

"It's no problem for a big man to fly a jet fighter, once he gets used to it," the Colonel said. "Take a guy like Eckman. He hauled outta one once. You know what he did? He just kicked the airplane away from him—that's all—with that size 13 shoe."

The Colonel was asked if he didn't have to leave something out in order to get his huge body into the cockpit.

"I don't have any problem squeezing in," he said, "you just can't take setting up exercises while you're in there, that's all."

I asked what was the toughest thing about flying an F80. "Walking to and from the plane before and after missions," Williams said. "Finest damn plane I've ever flown."

Today's Great Hope for Those Suffering Aches and Pains

Due to Lack of Vitamins B₁, B₂, Iron and Niacin

Why Settle for Symptomatic Relief—Read How Just a Few of Thousands Have Relieved the Cause of Such Deficiencies with Hadacol!

Mrs. Homer Hames, R.D. 1, Newport, Ohio: "I have been having aches for a time, and I did everything I knew of to help without success. So I took three bottles of HADACOL. I sure feel good now. I couldn't hardly do my housework before, but now I can get my work done good. I went and got me a job at the postery and really don't feel tired at the end of the day. I can sleep good at night now. Thank a million for HADACOL. I wouldn't be without it. I am thirty-two years old."

A. M. Hurst, R.R. 22, Box 265, Perry, Florida: "I was born September 23, 1872. I heard of your HADACOL having the vitamins B₁ and B₂ in liquid form and that sounded good to me. I bought small, one large and part of a second large bottle. Now I do not feel any more aches and pains. I intend to keep right on taking HADACOL."

J. I. Pappy, Bayard, Florida: "I feel that I should tell the world about your wonderful HADACOL. I have suffered with aches and pains for the past years, which worried me considerably. But after taking two large bottles and one small bottle of HADACOL, I am now doing all my work again, and

feel better. I sleep good at night, eat hearty all because of your wonderful product. I am seventy-five years of age, and far more active than the average man, and feel sure that if I had not heard about HADACOL, I would not have been able to achieve the things I have done since taking it. I will always praise your wonderful HADACOL."

Senator Dudley J. LeBlanc, the Man Responsible for Today's Great HADACOL

Senator LeBlanc has been in public life since he was quite a young man and he has always advocated the cause of the oppressed and the down-trodden. It was he who introduced the law in Louisiana that gives every deserving man and woman in Louisiana a pension of \$50.00; it was he who introduced the law creating the office of Service Commissioner, the duties of which office is to see that every deserving ex-soldier and veteran receives his just reward from the Federal and State Government; it was he who has consistently fought the battle of the school teachers in the halls of the legislature; he worked untiringly for the farmers and the laboring man.

In view of the fact that this man has worked so untiringly for your cause and in your behalf, don't you believe that it was reasonable to assume that in his untiring efforts he would someday find something to assist you besides rendering governmental assistance. The word "HADACOL" has become a by-word throughout this Nation. Read the testimonials on this page. Ask your friends who have taken HADACOL, the benefits they have received from it. Don't hesitate. Place your confidence in

Senator Dudley J. LeBlanc

a man who has by his past activities demonstrated to you that he is your friend—that his heart beats in sympathy with your cause—and if you are suffering from deficiencies of Vitamins B₁, B₂, Niacin and Iron, don't hesitate—don't delay—buy HADACOL... the product made by the best friend you have ever had.

FRECKLES AND HIS FRIENDS

BY MERRILL BLOSSER

VIC FLINT

BY MICHAEL O'MALLEY and RALPH LANE

ALLEY OOP

BY V. T. HAMLIN

"little or no cost to the state."

These included: Redistricting—legislative, congressional and judicial.

Reconciliation and strengthening of the code of criminal procedure, the insurance code, the water code and "especially election laws."

States' rights—"encompassing support of affirmative Congressional action to return our confiscated tidelands; resistance of federal encroachment on our rivers and other natural assets."

Internal security and "protection against sabotage, with particular reference to enforceable controls on the activities of the

Communist Party."

Increased efficiency "and improvement in the machinery of government, initiated by asking the people to approve four-year, instead of two year, terms for most of our state and local officials."

He suggested the legislature take a long look at higher education.

"Education," the governor said, "has lately become a magic password to the treasury of this state."

"The time has come," he added, "to ascertain whether we are growing better or merely bigger... whether we are substituting

quantity for quality... and whether the system as it now exists may be criticized for costly overlapping and duplication of services."

"We cannot," he warned, "afford the dubious luxury of an uncoordinated, overlapping system of higher educational institutions competing with each other... for increasingly scarce tax dollars."

He also put a virtual ban on the creation of any new boards or bureaus, and suggested that those now in existence "be allowed to contribute regularly a fixed percentage of their funds to the general revenue."

Purchase of new state automobiles, he said, should be cut to a minimum, replacing only those used "for enforcement, defense and investigative work."

Money's Worth Wanted

OGDEN, Utah (U.P.)—The Ogden movie house advertised a special midnight double-feature but only one of the films was screened. It took a squad car of police to keep the theater from being ruined by the annoyed patrons. Theater officials explained to the crowd that the twin bill had been advertised by mistake and told customers their stubs would be good for another movie.

NEW 1951 Chevrolet

AMERICA'S LARGEST AND FINEST LOW-PRICED CAR!

It has that longer, lower, wider big-car look!

NEW! AMERICAN BEAUTY DESIGN—Brilliant new styling . . . featuring new grille, fender moldings and rear-end design . . . giving Chevrolet that longer, lower, wider big-car look.

NEW! AMERICA-PREFERRED BODIES BY FISHER—With strikingly beautiful lines, contours and colors . . . plus extra sturdy Fisher Unisteel construction, and Curved Windshield with Panoramic Visibility.

NEW! MODERN-MODE INTERIORS—With upholstery and appointments of outstanding quality . . . and with extra generous seating room for driver and all passengers on big, deep, "Five-Foot Seats."

NEW! SAFETY-SIGHT INSTRUMENT PANEL—Safer, more efficient with overhanging upper crown to eliminate reflections in windshield . . . and with plain, easy-to-read instruments in two large clusters.

NEW! MORE POWERFUL JUMBO-DRUM BRAKES (with *Dubl-Life rivetless brake linings*)—Largest brakes in the entire low-price field . . . giving maximum stopping-power with up to 25% less driver effort—and longer brake life.

NEW! IMPROVED CENTER-POINT STEERING (and *Center-Point Design*)—Making steering extra easy, just as Chevrolet's famous Knee-Action Ride is comfortable beyond comparison in its price range.

Here's America's largest and finest low-priced car—the newest of all new automobiles—as trustworthy as it is thrifty to buy, operate and maintain.

New with that longer, lower, wider big-car look! New in its strikingly smarter Fisher Body styling and beautifully tailored Modern-Mode interiors! New in safety, new in steering ease, new in feature after feature!

Moreover, it's thoroughly proved in all things, from the finer no-shift driving of its Powerglide Automatic Transmission,* or the finer standard driving of its Synchro-Mesh Transmission to the fleet, frugal performance of its Valve-in-Head engine.

Come in—see and drive America's largest and finest low-priced car—Chevrolet for '51—the only car that brings you so many big-car advantages at such low cost!

PLUS TIME-PROVED POWER *Glide* AUTOMATIC TRANSMISSION

—proved by more than a billion miles of performance in the hands of hundreds of thousands of owners. *Combination of Powerglide Automatic Transmission and 105-h.p. Engine optional on De Luxe models at extra cost.

Simple Word 'Guarantee' Can Be Misleading

How good is a guarantee? That simple word—"Guarantee"—is misleading more people every day than any other word in general use, according to an article in the February issue of Pageant magazine. Unscrupulous business men use it over and over to disarm unwary buyers and to clinch a sale that otherwise would not be made.

Nobody knows how many million dollars in goods and services are sold each year on the strength of worthless and exaggerated guarantees, says Pageant, but there are hundreds of devious schemes that are entrapping innocent and trusting people, encouraging them to buy goods that, without a sound guarantee, have little or no value.

There's the "shockproof-waterproof" watch guarantee, for example. There isn't a watch in the world that is truly shock proof or water proof. A guarantee that a watch will resist shock is meaningless. How much resistance to how much shock?

Another serious cause of misunderstanding, points out Pageant are automobile guarantees. Contrary to general belief, no manufacturer guarantees a new car. They give only a warranty against defective materials and workmanship for 90 days or 4000 miles. Used car guarantees are another story. They'll promise almost anything, but rarely are they backed by more than the seller's word, a variable factor which somehow usually works in the dealer's favor.

How can you protect yourself against false guarantees? It's easy says Pageant, if you follow a few simple rules:

- 1. No guarantee is worth anything unless it is in writing (or printed).
- 2. Even a written guarantee is

only as good as the company or individual can make it. Can he—will he—back it up?

3. Never accept a guarantee without reading it carefully. It's the fine print that counts.

4. Worthless guarantees are never vague nor general as to terms. They define exactly what the guarantor will do.

5. Never believe an "unconditional" or a "full" guarantee on anything of value. There must always be conditions.

6. Trade only with organizations and stores you know and whose integrity you can trust.

Boyce House Gives You Texas

By Boyce House
 One of Texas' greatest governors, Pat M. Neff, used to make a speech on "Moneyless Millionaires" in which he said:
 "The making of money is a laudable ambition. Put money in the purse. It is a wise Shakespearean injunction. Money, rightly employed, is an angel of good, bringing untold blessings upon its shining wings. When man, however, permits his wealth, much or little to become his master he is poor though he may gather his goods and his gold into a mountain, majestic massive."
 "Some of the finest attributes of life can not be purchased with money. Cash can not be coined into character and brains can not be bought with bonds. The possessor of skyscrapers, oil wells and railroad tracks may be a pauper, measured by every standard except that of solid gold."
 "The worth of manhood forever eludes the dollar mark. No wealth can clothe an empty mind with worthy robes or instill into a shriveled soul the noble impulse of life. A full head is worth more than a fat purse, and a clear conscience is worth more than suggests of gold. He is richest of the sons of man who lives a cheerful, radiant, overflowing life, rating character higher than coupons and putting duty before dividends."
 "A great life is greater than that life's achievements. A genius working in the vast laboratory of nature harnesses a spark of electricity that turns the dreary darkness of night into the golden glories of day; he discovers in an exploding drop of gasoline the dynamic power that speeds the wheels of transportation and revolutionizes the affairs of men; he makes of the viewless air a sounding board that robs the sea of its ancient solitude and transforms all the world into a whispering gallery."
 "While renowned and exalted geniuses have multiplied again and again the wealth of the world and while we would not willingly pluck one leaf from the faded wreaths of fame so worthily won and so humbly worn by them; yet the greatness of the accomplishments of geniuses are but bagatelles compared to the riches of a cultured and abundant life of three scores and ten, filled with service and sacrifice, and marked by devotion to all the worthwhile claims of home and church and state. Such a life is humanity's most challenging achievement. He who lives such a life, whether his money be much or little, is God's masterpiece."

Worth Weighs in Gold
 LEXINGTON, Mass (UP) — Two Greater Boston men have been nursing 42 animals worth their weight in gold for the past two years. George A. Sharkey and Amelio J. Bertelli set up chinchilla housekeeping with four pairs and increased the population by three in the first month. Enjoying a 12-to-13 year life span, the chinchilla weighs 22 ounces and its \$750 price makes it equivalent to 22 ounces of gold.

While renowned and exalted geniuses have multiplied again and again the wealth of the world and while we would not willingly pluck one leaf from the faded wreaths of fame so worthily won and so humbly worn by them; yet the greatness of the accomplishments of geniuses are but bagatelles compared to the riches of a cultured and abundant life of three scores and ten, filled with service and sacrifice, and marked by devotion to all the worthwhile claims of home and church and state. If You're Looking for Trouble—

... you may find some of it during the New Year. The weather, war, walk-outs and wrinkles are all on the horizon. If you come out with enough money to pay income taxes consider yourself lucky. And then the person who buys real estate in 1951 without an abstract is safe to run into trouble later on. So play safe, be careful, watch your step—and don't forget those New Year's Resolutions.

Personals

Cpl. Garland D. Wheat is home from the Brooks Army Hospital at San Antonio, Texas on a thirty day furlough. Cpl. Wheat returned from Germany on November 18th and doesn't know where he will next be stationed.

Mrs. Tom Simpson of Gordon was shopping in Ranger, Wednesday.

The Rev. and Mrs. Ralph E. Perkins had as guests in their home Wednesday Rev. J. B. Cates; Rev. Clarence Powell and Rev. George Wilson all of Sweetwater.

Mr. and Mrs. Carl White has as guests in their home last night Miss Frances Minter and Byron (Boots) Hawthorne of Odessa.

Homemakers Sunday School Class Hold Business and Social Meet

The Homemakers Sunday School Class of the First Baptist Church met in the basement of the church Tuesday night January 9th for the monthly business, social meeting. The hosts for the occasion were Mrs. Eva Kay Milmo and Mrs. Miley Williams. The meeting was opened by a prayer offered by Mrs. Williams. The president, Mrs. N. E. Landers, presided over the business meeting. Minutes of the last business meeting were read by the secretary, Mrs. Marvin Edwards. Welfare committee composed of Mrs. F. R. King and Mrs. Bruce Harris, reported that food and clothing had been distributed to a family at Christmas time. A very timely and interesting devotional "Forgetting the Past and Looking Toward the Future" was given by Mrs. M. P. McCallum. Entertainment consisted of several small games.

Farm Tractor Guide Available At Gulf Stores

A new Farm Tractor Guide, with valuable ideas for making farm tractors last longer and perform better, has been published by the Gulf Oil Corporation and is ready for free distribution to all who request it.

The Guide is of convenient size and contains 76 pages. It is profusely illustrated and written in easily understandable language for more efficient and comprehensive use.

In addition to the photographs used for illustrative purposes the Guide also carries complete, easy to-read diagrams covering every phase of farm tractor lubrication.

Included in the Guide are sections on lubrication and maintenance of engines, crankcase, oil filters, carburetors, fuel pumps, valves, transmissions, air cleaners, etc.

Complete sections on the care of the cooling and ignition system are also included, as well as well-illustrated sections on the care and maintenance of tires, tubes, and batteries.

Of particular interest to all owners of farm tractors right at present is a section containing tips on cold weather operations and storage for winter.

Also incorporated in the Guide is a very informative section entitled "The Trouble Shooting Guide," which gives valuable tips on where to look for trouble in any case of engine failure.

The Guide concludes with a pertinent section on rules for safe tractor operation and the nine general rules for giving temporary first aid in case of farm accidents.

The new Gulf Farm Tractor Guide may be obtained free of charge by contacting Morris George, local distributor of Gulf Oil Products.

Maybe We're Lucky
TAIPEH, Formosa (U.P.)—The price of coffee may be going up in the United States, but look what it costs here—\$4.50 a pound. Butter costs only slightly less, a can of powdered milk \$8, soft drinks 80 cents (if you can get them), cigarettes 45 to 50 cents a pack, potatoes 40 cents a pound and apples 60 cents apiece.
