France Stands With US On China Vote

Solons Told Husbands, Vets Face Early Call. If 18-Year-Olds Exempt

Defense Head Gives Strong Boost For Draft

WASHINGTON, Jan. 24 (UP)—Congress was told today that husbands and fathers will have to be drafted "very soon" unless it authorizes a draft of 18-year-olds.

Assistant Defense Secretary Anna M. Rosenberg said in a statement prepared for the House Armed Services Committee that "with men between 18 and 19 entering the service, we could not only avoid calling men with families, but also veterans."

"In addition," she said, "we could allow a larger number of deferments than would otherwise be possible among engineers, scientists, technicians and other key men."

Mrs. Rosenberg's statements was a strong boost for a draft of 18-year-olds because legislators are reluctant to break up families or recall veterans back to duty.

Elsewhere in Congress: Troops—chairman Richard E. Russell of the Senate Armed Services Committee suggested that Congress, instead of writing a "definite" limitation on the number of U. S. troops to be sent to Europe, make sure that the nation could and would withdraw from the Atlantic Pact army if its Allies fail to contribute their share.

Controls — the House-Senate committee on the economic report called price stabilizer Michael V. Disalle and wage stabilizer Cyrus S. Ching to testify on impending price-wage controls. Several committee members have criticized the government for not taking action sooner.

Civil Rights—Southern House Democrats were sure of blocking the administration's latest civil rights legislation. The justice department asked that segregation of Negroes on interstate trains or busses or barring them from voting in general or primary congressional elections be made a federal crime.

Texas Building Increases

AUSTIN, Tex., Jan. 24 (UP)—Texas building activity in 1950 totaled \$721,158,577 in 62 cities, a jump of 71 per cent over 1949, the University of Texas Bureau of Business Research reported yesterday.

THE WEATHER

A fizzled-out cool front swept into the Gulf of Mexico today leaving Texas with the prospect of mild, fair weather through Thursday.

The front brought freezing temperatures overnight to the area north of a line roughly from Dallas to El Paso. A somewhat milder freeze was forecast for the same area tonight along with slightly cooler temperatures in extreme Southeast Texas.

But a bright sun, unhampered by cloudiness, was expected to send maximums into the 50's and 60's this afternoon and tomorrow.

The lowest overnight temperature was 20 at Ozona with a high minimum of 60 degrees at Brownsville. Other freezing lows reported included Abilene 27, Amarillo 26, Big Spring 29, Dallas 31, El Paso 31, Fort Worth 32, Wichita Falls 32, Lubbock 28, San Angelo 25, Childress 28, Salt Flat 25, Midland 30, Mineral Wells 26, Junction 22 and Dalhart 21.

The only precipitation reported in the state for the 24 hours ended at 6:30 a. m. today was .15 inch at Galveston.

Yesterday's high 58
Yesterday's low 20
At 8 a. m. today 21

Split Widens Between U.S., Britain Over China Commies

LONDON, Jan. 24 (UP)—The split between the United States and Britain over Communist China appeared to be widening today.

From opposite sides of the world came these developments: 1. The British crown colony government at Hong Kong canceled re-broadcasts in Chinese of Voice of America news items and substituted a British broadcasting corporation news program.

2. Authoritative sources in London said Britain will try to delay United Nations action against Red China until it has been established beyond a doubt whether Peking's latest cease-fire proposals represent a genuine desire for peace.

These moves coincide with Prime Minister Clement R. Attlee's announcement in Commons yesterday that Britain would not support the American resolution in the UN endorsing Communist China an aggressor.

Authoritative informants said the government's decision was based on expert advice that the American resolution might increase the risk of a general war. They believed its adoption would lead to an economic boycott and coastal blockade of Communist China.

The British Press generally agreed with the government that the door should not be slammed while there is any chance of reaching a settlement with China. But at the same time they warned of the peril of a split between Britain and the United States.

Hong Kong's action in cancelling re-broadcasts of Voice of America news next door to Red China was seen in some quarters as another British move to avoid giving offense to Peking.

Until yesterday, Hong Kong's government operated radio station re-broadcast 15 minutes of news in Cantonese from the Voice of America.

Without advance notice, the station substituted a news program in Mandarin dialect originating in the BBC in London. The decision was taken despite the fact that the Hong Kong station's short range is much more suitable for programs in Cantonese than in Mandarin, which is a northern dialect.

A spokesman declined to say whether the decision had been made locally or in London. He called the move "routine."

A spokesman in New York for Voice of America said word of the change had not reached New York. He said the cancelled news program was a roundup of world news, including developments in the United States and Washington as well as in the Far East.)

In London, the British government decided that it would seek to stall UN action on the American resolution against Red China until the political committee at Lake Success can carefully study Peking's cease-fire proposals.

Attlee may take Bevin's illness as an opening to bring a younger man into the foreign office. But there is no outstanding candidate available.

Bevin, a trade union leader for 20 years, commands great respect from both the so-called left wing and moderate sections of the labor party.

Bevin's illness coincided with a grave split in American-British basic foreign policy over the question of Chinese Communist intervention in Korea. Britain is hedging on an American demand that Red China be branded an aggressor.

Bevin, 69, has been seriously ill for months with a heart condition. Doctors said his condition was critical. The pneumonia so far is confined to one patch on one lung, but it was apparent that he would be out for weeks.

Bevin's illness coincided with a grave split in American-British basic foreign policy over the question of Chinese Communist intervention in Korea. Britain is hedging on an American demand that Red China be branded an aggressor.

Pneumonia Hits British Foreign Secretary Bevin

LONDON, Jan. 24 (UP)—British Foreign Secretary Ernest Bevin developed pneumonia today and there was immediate speculation that Prime Minister Clement Attlee himself might take over British foreign policy.

Bevin, 69, has been seriously ill for months with a heart condition. Doctors said his condition was critical. The pneumonia so far is confined to one patch on one lung, but it was apparent that he would be out for weeks.

Bevin's illness coincided with a grave split in American-British basic foreign policy over the question of Chinese Communist intervention in Korea. Britain is hedging on an American demand that Red China be branded an aggressor.

Attlee may take Bevin's illness as an opening to bring a younger man into the foreign office. But there is no outstanding candidate available.

BULLETIN

LAKE SUCCESS, N.Y., Jan. 24 (UP)—Communist China has expressed willingness to negotiate immediately with the Western powers on a settlement of the Korean war and other Far Eastern problems, informed sources said today.

These sources said this was a principal point in a new communication from the Peking government received today by Indian delegation to the United Nations.

An Indian delegation spokesman, confirming receipt of the new message, refused to divulge its contents although he said that it was "very important and encouraging," adding that "things are now moving at a dramatic speed."

Many sources long have urged Attlee to replace Bevin, feeling that Britain needs a younger and more active man at the helm of foreign affairs during the world crisis with Russia.

Attlee may take Bevin's illness as an opening to bring a younger man into the foreign office. But there is no outstanding candidate available.

NEW ZEALAND WILL ALSO SUPPORT AGGRESSION VOTE

PARIS, Jan. 24 (UP)—France announced today that she would vote side by side with the United States in the United Nations on the question of Communist China.

French Minister of Information Albert Gazier said foreign minister Robert Schuman has issued instructions to that effect to French UN delegate Jean Chauvel.

Gazier said the instructions were issued by Schuman in a lengthy outline of foreign policy which stressed two main points:

1. That every effort should be made to avoid the spread of the Korean conflict.

2. That France should stand shoulder-to-shoulder with the United States in the UN while, nevertheless, exerting every influence to avoid any precipitate or hasty action.

WELLINGTON, New Zealand, Jan. 24 (UP)—Minister for External Affairs F. W. Dodge said today that New Zealand would support the United States motion in the United Nations condemning Chinese Communist action in Korea.

ARMORED UN FORCE SLUGS WITHIN 33 MILES OF 38TH

By Earnest Hoberecht
TOKYO, Thursday, Jan. 25 (UP)—An armored United Nations task force slugged its way to within 33 miles of the 38th Parallel in central Korea Wednesday. It was the deepest penetration into Red territory since the fall of Seoul.

The tanks and infantry fought through two Red road blocks to enter Hoengsong, 10 miles north of Wonju, and then withdrew to friendly lines to report no major Red force in the area.

Other patrols also roamed the no-man's-land of central and western Korea, seeking without success to locate the main Communist force and ferret out Red plans for a possible offensive.

For the second straight day, American jet fighters tangled with Russian-made MIG-15 jets over northwest Korea, driving the Reds back into Manchuria with one enemy plane probably lost and two damaged.

The 15-minute air battle was fought over Anju, 70 miles south of the Manchurian border between 16 U. S. F-84 Thunderjets and 16 to 20 enemy planes.

Not a single American plane was hit. The battle brought the five-day toll of enemy planes to four jets destroyed, three probably destroyed and five damaged.

Other jet fighters continued to raid Communist supply lines, blasting rail and bridge targets at Huichon, Kunu and other points behind the front.

While this was going on three 5th Air Force helicopters rescued five American airmen forced down in no-man's-land, two of them from under the guns of surrounding Communists who lured a T-6

Observation plane into a trap and shot it down. The armored lunge north of Wonju toward the 38th Parallel was made by a patrol of four tanks and 100 infantrymen supported by two flak wagons mounting quadruple .50 caliber machine guns.

The force rolled through Wonju without incident but ran into an enemy company on the road seven miles north of Wonju. The Reds were driven off after a 40-minute battle and the task force rolled on.

Other patrols also roamed the no-man's-land of central and western Korea, seeking without success to locate the main Communist force and ferret out Red plans for a possible offensive.

Cyrus Frost, Eastland Leader, Dies In Hico

Cyrus B. Frost, prominent Eastland lawyer and civic leader, died suddenly at a doctor's office in Hico at about 3:30 p. m. Tuesday.

Frost had gone to his ranch in the south part of the county to inspect damage caused by a grass fire. While there he became ill and went to the doctor's office where he died while seated in the office.

At the time of his death he was associated with his sons, Jack W. Billy and Cyrus B. Frost, Jr., in the practice of law in Eastland.

Survivors include his widow, the former Laura Maye Burleson; two daughters, Mrs. Maurice Bullock, Fort Stockton, and Mrs. H. T. Elberidge, El Paso; three sons, Jack W. Billy and Cyrus B. Frost, Jr., all of Eastland; two brothers, Snow Frost of Eastland and Frank Frost of Altus, Okla.; two sisters, Mrs. Wiley Biggs, Austin and Mrs. E. O. Pottorff, Edinburg, and several grandchildren.

Funeral services will be held at the residence, 712 West Moss, at 2:30 p. m. Thursday with Rev. George W. Shearer of Ft. Worth, conducting.

Youth Convicted Of Killing Negro Disabled Veteran

BELTON, TEX., Jan. 24 (UP)—Wash Howard, Jr., young Houston gunsmith convicted of killing a Negro war veteran after a minor traffic accident, said today he would ask for a new trial.

A 27th District Court jury required only one hour and 25 minutes yesterday to find Howard guilty of murder without malice. The jurors recommended five years imprisonment.

The state had asked the death penalty in the case, transferred here on a charge of venue from Houston.

Howard, 25, was accused of shooting Carter Boyd, disabled veteran of World War II, last March 11 following a minor traffic accident. The Negro victim was the father of nine children.

Two or three women in the packed courtroom cried as the verdict was read. Howard accepted the decision with visible show of emotion.

"All I can say is that I'm not guilty," he told newsmen later. "I expected to be cleared."

His mother clasped his hands and his father told him, "Be a good boy, son, like you've always been."

Defense attorney Percy Foreman had indicated earlier he would file an application for suspended sentence if Howard was found guilty. He submitted an affidavit that the scholar's appearing youth had never been in trouble before.

Foreman, a Houston attorney, had delivered a fiery summation asking the jury to declare Howard innocent because there was no "uncontradicted testimony to prove his guilt."

United Press Poll Indicates Some Big League Clubs Putting Selfish Interests Before National Welfare

By Oscar Fraley
 United Press Sports Writer
 NEW YORK, Jan. 24 (UP)—Major league baseball boasts blarney of its morale service during wartime but there were indications today that some so-called "big league" clubs were putting selfish business interests ahead of the nation's welfare.

The United Press discovered this unpatriotic sentiment when it polled the clubs in a survey which will be released Thursday showing the major league manpower status under current draft regulations. It was felt that, with more than 17,000,000 admissions paid to big league games last season, the status of the various clubs would be of widespread interest.

But, of the 16 clubs, five of them—the New York Yankees, New York Giants, Brooklyn Dodgers, Detroit Tigers and Chicago White Sox—flatly refused to disclose this data. Considering the nation's peril, the reasons were shameful. They were:

1. It might bring the name of some players to the attention of their draft boards and speed their being drafted.
 2. The fans might "get on" some players as "draft dodgers."
- There were two reasons advanced by Arthur Patterson, a front office buffer of the world champion New York Yankees. But Patterson hardly lived up to such Yankee claims when he took it upon himself to set himself up as a censor and advise the two other New York ball clubs to refuse such information.
- Accepting his advice, and thus backing up his reasons, were Harold Parrott of the Brooklyn Dodgers and Garry Schumacher of the Giants.
- "That's the way the Dodgers feel about it, too," parroted Parrott.

ed a lot of color from the game. But, as a few baseball men apparently are trying to prove again, the game has reached an exalted position where it doesn't need anybody, neither the fans, the newspapers—or a free country!

Many of the beautiful tile floors installed in 13th century French buildings were inspired by Crusaders returning from the Holy Land, where they had seen the fine tilework of the Near East.

ALEX RAWLINS & SONS
 WEATHERFORD PHONE 24 TEXAS

Quoth Mr. Ray Ven...
 Once while Ray was longly talking Suddenly he heard a squawking... It was his dear wife remarking* On his conversation spree.

"Ray," she said, "you really should Space your calls so others could Use the party line... It would Be fairer then, you see.

"Too, other users might get sore If you talk for evermore..." Quoth then Ray Ven, "Nevermore Will I so careless be."

Good party-line neighbors allow time between calls. That gives other people on the line a chance to use it. Party-line service is best when everyone gets his turn to call—or be called.

SCENES AROUND RANGER

A lot of Ranger people are going to be disappointed if the Keesler No. 1 Jennings doesn't blow its top when it comes in. All the current oil-talk monopolizes that well which is just three and a half miles north east of town. Its being so close to the city is what probably causes all the excitement. It has become Ranger's own adopted "gusher" and people mention it with a little pride and sentiment. They have even begun to scold it for keeping them in such suspense. When the blessed event happens, we'll expect oil-scented cigars to be passed around.

Speaking of oil, that story we lifted from the Eastland paper doesn't seem to express the sentiments of Ranger. The story quoted Cleco oilman, L. A. Warren, as

saying that Eastland County is letting the best thing that they ever had get away from them. He referred to the fact that oil people of Eastland county are moving away, not because they want to, but because they are invited to move by some friendly people of another area. Why, if it's a matter of "inviting", we'll invite them, here and now, to stay right in the County.

From the comments of Ranger people and business men, they are seriously worried that the oil people will leave the County. Warren said that some people in the county fear that the "rougher" type of oil men of the earlier boom days will come in. Don't think Ranger has been worried too much about that. And as for inviting the oil men to Ranger churches, clubs and other organizations, we are sure they are welcome and have been asked and will be asked.

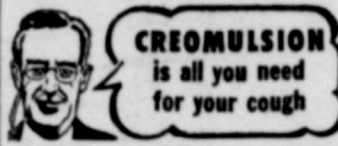

But there is another side to the question and that is, some of the oil men are from out of coun-

ty and from other states and are in Ranger and Eastland County one day and out the next. It is difficult to invite them to churches and clubs when the oilmen themselves don't know if they will be here on any one particular day. And the oilmen who do live in the county have belonged to their church and club for some time.

If the county's oilmen weren't "invited" to move before the present oil development then we can't see where it would be any more desirable for them to move now. When we speak of County oilmen, we mean those oilmen in Eastland County who have been here for some time and have settled and made their home here. And it doesn't follow that they would prefer to pull up their long established stakes at the "invitation" of out of county people. But it would be understandable if they were drawn away by better facilities of other towns.

It is unfortunate for Eastland County, but nevertheless true, that such out of county cities as Breckinridge, Abilene and others do have more facilities that might appeal to the oilmen. And that, we believe is the real reason that some Eastland County oilmen are moving out and not because they are not welcome here. Ask a n y business man in Eastland County and we believe he would emphatically say that the oilmen are welcome here.

Teen-Agers' Problems Revealed By Poll Of Texas Youngsters

Fourteen is the most difficult age in a youngster's life, and the problems of being fourteen in our age of sophistication and in security need special understanding. To find out what teen-agers fear, desire, and enjoy, McCall's editors questioned 454 ninth-grade students in Houston, Texas about—among other things—the "facts of life," their tastes in food, movies, television, their smoking and drinking habits and their ambitions. The results appear in the February issue. Among these are:

"Whom they fear most"
 "Boys: About a third claim they fear no one. Their fathers (17 per cent) are first, then such assorted choices as the assistant principal, football coach, mother, God (4 per cent), Stalin, grandparents, girl friends and the police.
 "Girls: Again a third fear no one, and Father tops the list 29 per cent). They're afraid too of God (5 per cent), crazy people, sexy boys, drunks, Communists, the swimming teacher.
 "Know 'the facts of life'"
 "Boys: 90 per cent; Girls: 97 per cent"
 "From whom they learned 'the facts of life'"
 "Boys: The largest percentage

of boys (43 per cent) learned about sex from a friend; 27 per cent learned the facts from their fathers, and the same percentage from their mother.

"Girls: An overwhelming number (88 per cent) from their mother, 1 per cent from their fathers, 2 per cent from their sisters, and 9 per cent outside the family.

"Weekly allowance
 "Boys: Range from nothing to \$20 weekly. Most get \$3 or less.
 "Girls: Range from nothing to \$15 weekly. Most get \$2 or less.

"Favorite food
 "Boys: Steak leads, followed by ice cream and chicken.
 "Girls: Steak and chicken are tied, with 'vegetables' third.

"Have television sets at home
 "Boys: 32 per cent; Girls: 31 per cent.
 "Smoke occasionally or regularly
 "Boys: 16 per cent; Girls: 13 per cent

"Drink occasionally or regularly
 "Boys: 13 per cent; Girls: 3 per cent
 "What they want to do when they grow up
 "Boys: Engineers lead lawyers and doctors two to one.

"Girls: A third want to be housewives. Secretaries and models are the next choices.
 "Bedtime
 "Boys: Range from 8:00 p.m. to 1:00 a.m., but the largest number go to bed at 10:00, 9:30 and 9:00 p.m. in that order. Saturday nights, 11:00 is the popular hour.

"Girls: They range from 8:00 p.m. to midnight, with 43 per cent retiring at 10:00. On Saturday it's 11:00."

In 1885 Crook County, Wyo., had a total of 115,942 cattle worth \$2,126,544 on its assessment rolls. This increased to 155,518 cattle valued at \$2,501,592 in 1886 and dropped to 85,136 worth \$1,175,842 in 1887.

Women's Society Of Christian Service Hold Regular Meeting

The Women's Society of Christian Service met at the Methodist Church Monday with Mrs. W. F. Creager presiding. Mrs. Garland Lavender gave the opening prayer.

Mrs. Creager reported that eleven society members had attended the district meeting held in Gorman. The theme of the meeting was "Looking Backward and Thinking Forward."

It was announced that the circle will meet next Monday. Leaders were asked to note that the October programs will be used.

Mrs. G. C. Boswell, secretary of Women, was leader of the program which followed. Mrs. A. L. Rainwater was accompanist for the songs.

Mrs. Boswell gave a pictorial background of the relative position of women in world affairs.

Mrs. Vernon Deffebach discussed "Modern Trends of Women in the Church." Mrs. Stanley McAnelly gave some ways the United Nations might be strengthened, as

suggested in the "Methodist Women."

For her devotional, Mrs. Boswell used the 31st chapter of Proverbs. The meeting was closed with a prayer.

Mr. and Mrs. Fred K. Mosely and Randy and Mrs. J. F. Mosely of Ranger and Mrs. H. J. Nash of Abilene have returned to their home after visiting in Houston and Baytown in the home of Mr. and Mrs. L. L. Warford and family. Mrs. J. F. Mosely and Mrs. Nash are sisters of Mr. Warford.

Personals

Mr. and Mrs. Carl Gibson of Carbon were in Ranger Monday.

Mrs. O. B. Jarrett of Baird is visiting her daughter, Mrs. Johnny Finto and Mr. Finto.

The More He BREAKS The More He MAKES

Texas motorists, Texas highways and Texas taxpayers should be protected against the ONE PER CENTERS.

ONE PER CENTERS are truck combinations weighing, loaded, 20,000 pounds or more. Only one of every 100 vehicles registered in Texas pays a license fee for 20,000 pounds or more. FEWER than three out of every 1,000 are registered for more than 40,000 pounds.*

Our highways should be SAFE for ALL the people — individuals, commercial users and the military alike.

Texas highway tax dollars should be conserved and used wisely. This can be done

- (1) by limiting the weight (gross load and axle load) that may be transported legally by the ONE PER CENTERS and
- (2) by enforcing the law against those who persist in overloading.

Texas highways are paid for by and belong to ALL THE PEOPLE. Highways adequate for 99% of Texas users — individual and commercial — can be constructed and maintained for about ONE-THIRD of the cost made necessary by the weight of the ONE PER CENTERS.*

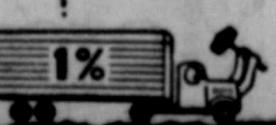

This is your problem. Send for your copy of the booklet, "THE CASE OF THE ONE PER CENTERS," which tells you, among other things, why

**THE MORE PAVEMENT HE BREAKS,
THE MORE PROFIT HE MAKES.**
