Whoever said "Everybody ought to work at a public job at least a year," was a wise man.

It's quite an experience in human conduct. Everyone, and we mean everyone, who has worked in constant association with the general public has occasionally run into someone he or she would like hang by the toes over a slow fire.

There are several different types of persons well known to the store clerk, postal employee county official, bank clerk, service station operator, and even the newspaper editor.

The first, and thankfully, most common is the broadminded chap who, although he has been charged three times by mistake, wants to work everything out peaceably and see everybody happy. He doesn't have an axe to grind, and he doesn't like to gripe at people even when he's in the right. This man is welcome anywhere, anytime and for any cause.

Then there's the other fellow who comes in pretty hot under the collar because someone delivered a load of sand when he wanted gravel. He's indignant, wants to see the boss and keeps his lips pressed tightly together. The boss comes, they talk awhile, an explanation is made, and the man cools off. He has a temper, but is willing to listen to reason, sees the point and agrees that what is done is done and the only thing left to do is remedy the situation.

Next is the third and most rare type. This bird only occurs about once in every twenty-five or thirty people, but he makes enough noise to seem like an army. Women are just as bad (or sometimes worse) as men. Perhaps the cleaner fails to deliver a pair of pants or the customer thinks they're somebody else's pants. Now the situation calls for logic on both sides but the customer isn't willing because he or she doesn't know the meaning of the word. A tirade commences while the proprietor stands first on one foot then the other, waiting out the inevitable amount of time required before the forehead will calm down. He can't be talked to and chances are that he had a long bit of spite all dreamed up before arriving at the place. Apologies, explanations, or being nice have no effect, so the clerk or owner quickly classifies him as a bad-tempered moron and bides his time until he leaves.

Invariably people do things wrong. Strict efficiency, or the appearance of efficiency, comes from large businesses where there is plenty of capital available for hiring enough people to insure no mistakes. But in a town like Dimmitt things have to move along with fewer people handling a larger load.

Here at the News literally hundreds of small and large news items pass our way every week. Dozens of ads are composed within a space of several days. Invariably something is left out.

The same thing applies to cafes, where the noon rush is bound to make somebody unhappy. The management doesn't want it to happen and the workers try not to make mistakes, but just try to convince a disgruntled patron of the third type listed above.

Garages have the same thing. Some days nothing at all will happen, then everybody's car has trouble at once. Some people get mad when they don't receive prompt service and it's hard to convince them they're not the targets of personal attacks.

It takes a conscientious business operator several years before becoming immune to the nasty vindictiveness of some of his customers. Special targets are city employees, county employees and anyone else who is in a service capacity to the public.

Most of the time the irate customer is right—and they apparently get a special warped sort of a kick out of lowering the boom on some people. It may be their home environment or the way they were raised or their general attitude toward life that makes them gripe and look for fault. We think it a matter of just being stupid and inconsiderate by nature.

County Teen-Agers Invited To Map Own Recreation Program At Mass Meeting Saturday Night at American Legion Building

A county-wide teen-age recreation program, sponsored by five major civic organizations, is slated to get underway this week end. Every teenager in Castro County has been invited to attend an organizational meeting Saturday night in the American Legion Building in Dimmitt beginning at 8:30.

All parents are also invited to help kick off this recreation program. Purpose of teen-age recreation will be to offer Saturday night activities of a varied nature for the young people of this county under the guidance of the Women's Committee of the Castro County Farm Bureau.

This project was initiated by the Farm Bureau women. After presentation of their ideas and plans to the Junior Chamber of Commerce, Lions Club, American Legion and Chamber of Commerce the organizations decided to co-sponsor the project.

After their plans were discussed in the local organizations, an executive youth council was formed. At the Youth Council meeting May 21, were representatives of the co-sponsoring organizations. They were Dexter McGaughey, Chamber of Commerce; Bill Reisdorph, Junior Chamber of Commerce; Dr. Carl F. Page, Lions Club; Mrs. Allan Webb, Mrs. Noble Howard and Mrs. Bob DuLaney of the Women's Committee of the Castro County Farm Bureau; and

Jim Cleavinger and Jack Flynt, American Legion. Dr. Carl Page was elected chairman of the Youth Council and Mrs. Noble Howard elected secretary-treasurer.

The governing body of the Youth program will be elected from the teenagers present at the mass meeting.

The governing body of the Youth program will be elected from the teenagers present at the mass meeting.

Curtis and Sharp To Talent Club

Miss Verdina Curtis and Jack Sharp have been selected as Castro County's representatives in the annual Talent Club tour of Producers Grain Corporation of Amarillo.

This is a special honor, extended to an outstanding farm boy and girl in each of the director districts of the corporation. Since 1942, some 250 farm youths have been recognized by the corporation and the co-sponsoring Texas Agricultural Extension Service. Participants are chosen from the 4-H Clubs of area counties.

The group will assemble in Amarillo on June 15 and will spend a day and a half studying and visiting cooperatives. Then by chartered bus they will depart for a vacation and study tour to Colorado and New Mexico. They return on June 21.

Miss Curtis is the 16-year-old daughter of Mr. and Mrs. E. Cecil Curtis of Sunnyside and has been a member of 4-H for five years. She was Castro County's Gold Star Girl for 1957 and District winner of the Westinghouse Electric Award. She is co-vice chairman of the County 4-H Council and chairman of the Girls Junior Leaders Group.

Jack Sharp is the 17-year-old son of Mr. and Mrs. Howard Sharp of Hart. In 4-H for nine years, he was elected 1957 Gold Star Boy and was a member of the District winning Co-Op team. He is chairman of the County 4-H Council and president of his local club.

Visiting in Lamesa
Mrs. Homer Bartlett and Mrs. A. O. Gregory are visiting friends and Mrs. Gregory's daughter and family in Lamesa this week.

Attended a Reunion
Mr. and Mrs. Melton Richardson attended a reunion near Vernon recently.

Mrs. Burkett visits Father
Mrs. Swain Burkett was three days of this week to be at the bedside of her father who is seriously ill.

Methodists Name Assistant Pastor
Rev. George Coates, spring graduate of McMurry College, has been employed as the Assistant Methodist Minister, having preached for some three or four years. He will direct the youth activities for the summer and preach on various occasions. He will enter Perkins School of Theology, at Southern Methodist University in September. Rev. Coates will arrive in Dimmitt Saturday afternoon.

Visited with Son in Clovis
Mr. and Mrs. Elvis Burch enjoyed a short visit with their son, Ensign Jesse Burch at Clovis, N. M. Monday evening. Jesse, who is stationed at Miramer Naval Station at San Diego, California was piloting a Cougar Jet. He made the trip from El Centro, California where he is doing special training, to Cannon Air Force Base at Clovis in one hour and thirty minutes. Mr. and Mrs. Burch were accompanied to Clovis by Mr. and Mrs. Ted Wood.

THIRTY FIRST YEAR DIMMITT, CASTRO COUNTY, TEXAS, THURSDAY, MAY, 29, 1958 12 PAGES — NUMBER 31

Little League Season Gets Underway

THE BATTER'S UP!—And the pitcher, like all pitchers from sand lot to big league, is wondering just what will happen to that ball after he turns it loose in the direction of home plate. This is at a practice session held every morning at the baseball field in south Dimmitt from 9-11 a.m. All area boys between 9 and 13 years of age are invited to come down and sign up for either the PeeWee League or Little League. Regular teams will be formed and a schedule worked out a week or so more. This program, under the sponsorship of area business firms and the Dimmitt Junior Chamber of Commerce, is directed this summer by Dimmitt High School basketball coach Johnny Ethridge. About 35 boys have signed up so far. The program will be conducted similar to last year's and Nazareth boys will also be included.

Memorial Day Services to Begin At 10 a.m. Friday at Local Cemetery

Dimmitt Cemetery Association, this week announced the Memorial Day program for Friday at 10 a.m. in Castro Memorial Gardens.

First on the agenda is a military service by Dimmitt American Legion. This will be a flag-raising and standard military memorial service for former members of the armed forces interred at the cemetery.

The balance of the program will be made up of group singing of old songs, together with invocation, benediction and a talk by members of the local clergy; a financial report of Dimmitt Cemetery Association, the election of new officers and other matters as might come up at the meeting.

The program should end by 11 o'clock.

Arrangements have been made for the notification of as many friends and relatives of persons buried at the cemetery as possible of the memorial day services.

MOSQUITO CONTROL ON THE FARM

Most mosquito sources in agricultural districts are man-made and can be reduced or eliminated by man. A farmer or rural resident can do much to help protect his family and livestock from mosquito-borne disease and mosquito annoyance by:

1. Properly preparing fields and pastures so water is not ponded or pooled.
2. Properly constructing and maintaining ditches so they do not become overgrown with vegetation or hold water for several days.
3. Reducing waste irrigation waters to the lowest practicable amount.
4. Elimination of standing water in well pump sumps.
5. Keeping house screens in good repair.
6. Destroying all **Reversible** commercial household **Any** all artificial water containers on the premises as tubs, barrels, cans, old tires, etc.
8. Screening or closing cisterns so mosquitoes can neither enter or leave.
9. Eliminating any openings to septic tanks or cesspools by which mosquitoes might enter or leave.
10. Connecting all sink drains, etc. to home sewage disposal system so water is discharged above ground.
11. Stocking large stock watering troughs with fish and preventing overflow and pooling of water.
12. Consideration of some form of modification of any "playa" lakes or ponds that exist upon the premises.
13. Larviciding of mosquito sources until they can be eliminated or modified. Equipment and chemicals already present on the farm may be satisfactory.
14. Residual spraying of sheds, garages, storm cellars, shrubbery and other daytime places of adult mosquitoes, particular attention should be given to livestock sheds and chicken houses.
15. Prevention of pooling of water from evaporative type air conditioners. Where recirculating pumps are used a teaspoon full of household spray placed in the water pan weekly will control this possible source.

Consult your County Agricultural Agent or County Home Demonstration Agent regarding your mosquito problem.

Another Wheat Referendum to Gauge Wheat Farmers Preferences

Castro County wheat farmers will help make an important decision when they vote June 20 in the national wheat marketing quota referendum, Charley Hill, secretary of the Castro County Agricultural Stabilization and Conservation Committee said this week.

Mr. Hill pointed out that wheat marketing quotas and acreage allotments operate only in commercial wheat states—those with allotments of more than 25,000 acres. Texas has an allotment of 4,099,094 for the 1959 wheat crop.

Growers eligible to vote in the referendum are those who will be affected by the wheat quotas if they become effective. Thus farmers who will have 15 acres or less of wheat for harvest as grain in 1959 and those who are taking part in the 1958 feed wheat program are not eligible to cast ballots in the 1959 wheat quota referendum on June 20.

If the quotas are not approved by at least two-thirds of those voting, there will be no marketing quotas or penalties, but allotments will remain in effect as a means of determining eligibility for price support. The price-support rate would be about \$1.20 per bushel, or 50 percent of parity, as provided by law.

At least two-thirds of the growers who vote in the referendum approve quotas for the 1959 crop. Mr. Hill explained, the 1959 wheat program will include acreage allotments marketing quotas (with penalties on "excess" wheat) and price supports at a minimum national average of \$1.81 per bushel, or 75 per cent of parity.

Baptist Bible School June 2

The First Baptist Church and the Bethel Mission will begin their joint Vacation Bible School Monday, June 2, at the First Baptist Church. The first day will be preparation day which will begin at 9:00 a.m., and will conclude with a picnic for the entire school.

The school will continue through Wednesday, June 11. There will be Bible study, Mission study, handwork, recreation and refreshments each morning from 8:30 to 11:00. Eight departments have been organized to take care of an expected enrollment of above 300. Every boy and girl between the ages of 3 to 16 is cordially invited to attend.

Low Rent Housing Approved Where Practiced

"If we are to believe what we have heard about federally-sponsored low-rent housing, then it is a fine thing," said Mayor Joe Cowen in his talk Tuesday before Dimmitt Lions Club.

Mayor Cowen was referring to a trip made by himself, City Commissioner Joe Benson and City Secretary E. B. Noble through several West Texas towns seeking to find some answers concerning the need of a low-rent housing in Dimmitt.

"One woman was against it because she felt her \$25,000 home near one of the housing units was seriously depreciated and another said the low-rent units only invited more 'white trash' to his city,"

Cowen said. "But by and large everyone we talked to said they felt it was a good thing for the community in which they lived."

Most of the towns they visited had started their low rent program in the early 1950's and have had an opportunity to see how it would turn out.

The low-rent housing program consists of the city government appointing a board which sells bonds, guaranteed by the federal government, to finance the building of duplex or other type homes as low-rent property. The purpose is two-fold, both to eradicate slums

in some localities and to provide better homes for those who cannot afford higher rent.

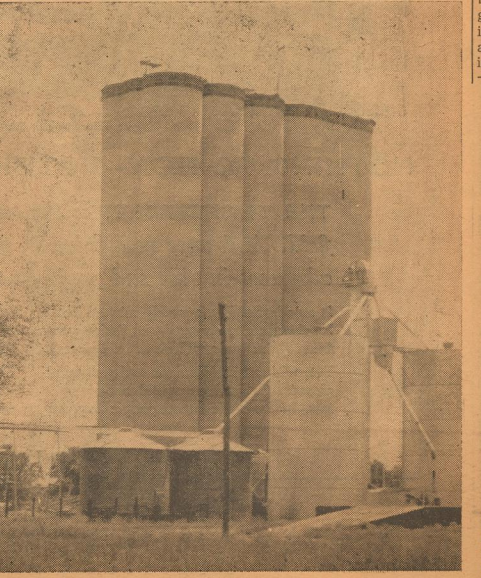

Most of the rentals have been made entirely to whites, while some few units would be located in the colored and Spanish sections of town. Thus if Dimmitt followed this trend, there would be little noticeable effect on these sections of town.

All three men indicated that the instances they had seen had done little harm to rental property in the cities involved. Apparently more people move in as soon as the new room is created. It has been esti-

mated by sousing experts that if more than 85 percent of a cities rental property is occupied, then a shortage exists. Virtually every rent house of two or more bedrooms in Dimmitt is continually rented.

Towns visited included Slaton, Post, Haskell, Mundy, Seymour, Knox City and Paducah.

Most of the housing units were in the form of brick duplexes constructed at a cost of about \$10,000 per unit. Any low-cost rental housing project must comply with governmental specifications to qualify for the loan guarantee.

NEW SKYLINE ADDITIONS—Nothing shows up in a city's skyline like a new elevator or two, especially in a grain country where there are already quite a few. Above is the new Bruegel and Sons Elevator in North Dimmitt and left is the Castro County Grain Company's new building in east Dimmitt. Pouring on both was completed last week.

Mosquitoes Hit Area In Swarms

Mosquitoes have again descended on Castro County by the millions and are fast becoming a major menace.

The swarming little pests have necessitated the continuing use of the city's fogging machine, which has brought some relief after a serious infestation last week.

According to mosquito experts about 80 percent of the mosquito production on farms in this area is directly attributable to irrigation water, whether the breeding places are found in lakes filled with irrigation water, undrained ditches, or other places where water can collect for as many as ten days.

Of major concern in the never-ending battle of man vs. mosquitoes is the danger of encephalitis. Man or animal cannot transmit this disease without the mosquito. To control mosquitoes is to control encephalitis.

Mosquito eggs can lie dormant in dry lake beds for years before hatching out in wet weather, and they live on an average of two weeks after they pass the pupa stage and begin flying. It takes four to seven days for an egg to hatch to form larvae, which in turn forms the pupa and then on to the adult stage.

Lake edges should be clean so the wave action can break up larvae. Other common breeding places are air conditioners (a once a full of lake-old spray this), old tires that may collect water, tin cans, cesspools, or undrained ditches.

The county agent or home demonstration agent can recommend insecticides to use on lakes and about the farm home itself. Great care should be taken in selection of an insecticide for lakes since some are toxic and will harm livestock. Small minnows placed in stock tanks will keep larvae cleaned out of the tank.

Walls and chicken houses should be kept well sprayed during the summer months.

In addition to irrigation water, wetter than usual weather is considered a major cause for the increase in mosquito population.

Parks Highway Meeting Monday

The Texas Division on International Parks Highway Association will hold a meeting beginning at 12 noon on Monday, June 2 at the San Andres Hotel in Levelland.

International Parks Highway passes through Dimmitt as Highway 51 and most local business firms are members of the Association. A free lunch will be served all delegates and the purpose of the meeting will be to plan policies and make arrangements for the Highway Convention in Hot Springs, South Dakota on June 10, 11, and 12.

All members are invited to attend.

Wilson Wins Red Cross Award

Raymond Wilson, Castro County director of the American Red Cross drive, was presented this week with a "Citation for Services" by the national organization.

Mrs. Bruce Woodell, secretary of the Red Cross here, said "Mr. Wilson did most of the work himself or saw that it was done toward raising more than \$1,000 toward our \$1,548 goal in the short time since his appointment to the post."

Volunteer Firemen Answer Two Calls

Dimmitt Fire Department was called to the farm of Paul E. Warren Tuesday evening about 7:30 to extinguish a burning stack of bundles. The Dimmitt firemen were assisted by the Nazareth truck as it answered its first serious fire alarm. The Warren farm is about 2 miles north of Nazareth.

A false alarm Sunday night resulted when a car north of town was thought to be on fire.

LEGAL NOTICES

ORDINANCE NO. 155 An ordinance of the City of Dimmitt creating an inspector for grease traps for service stations, and garages, setting certain regulations and requirements, and providing penalty for violation: BE IT ORDAINED BY THE CITY OF DIMMITT:

There shall be created the office of Mud and Grease Trap Inspector, whose job will be to inspect all mud and grease traps in the City of Dimmitt.

There shall be a double trap at all places where cars, trucks, tractors, motors, or any other object is being washed or steamed, in which the location is such where the drainage is allowed into the sewer system of the City of Dimmitt.

First trap (mud trap) shall not be allowed to fill with mud to the point where mud will be running into the second trap (grease trap). There shall be no oil dumped into any trap. All grease and oil which washes off of motors and etc. shall be taken off of the second trap (grease trap) before it is allowed to enter into the City sewer main.

Any person, or persons, firm or corporation violating any of the terms or provisions of this ordinance shall be guilty of a misdemeanor and upon conviction thereof shall be fined in any sum not less than \$25.00 nor more than \$200.00.

INTRODUCED BEFORE THE CITY COMMISSION OF Dimmitt, Texas, at a regular meeting on the 7th day of May, 1958, and passed at said meeting.

Attest: E. B. NOBLE City Secretary JOE COWEN Mayor 31-2tc

Methodist Conference Met in Lubbock

Tuesday, May 27

The 39th annual meeting of the Northwest Texas Conference of the Methodist Church convened at First Methodist Church, Lubbock, Tuesday, May 27. Rev. Darris L. Egger, local Methodist Pastor, and Earl Lust, are the delegates from First Methodist Church, Dimmitt.

Mrs. Lust will also attend the Conference along with the alternate Mrs. George Webb, and her husband, George. Mrs. Darris L. Egger will attend the ministers wives luncheon Thursday noon. Bishop William C. Martin of Dallas will preside over the Conference. Dr. George Fallon of Ohio will be the Conference preacher. Reports of the various Boards and Committees of the Conference will be given during the four day meeting.

The Northwest Texas Conference is composed of nine districts, and more than three hundred churches, with a membership of more than one hundred thousand. The climax of the conference will be Friday noon when Bishop William C. Martin reads the appointments of the pastors and churches for another year.

Attended School in Amarillo

Mrs. Don Gladman and Mrs. James Burnam attended a Helena Rubenstein Cosmetics school in Amarillo this week.

Visiting in Dimmitt

Mr. and Mrs. Burt Jennings and family of Chibster, Arkansas were here Tuesday visiting friends. They are both former teachers in Dimmitt School.

Dr. and Mrs. Carl Page are moving into their new home on West Lee Street. They recently purchased the house from Thomas Harrison.

Visitors from Arkansas

Mr. and Mrs. J. R. Mason of Malvern, Arkansas visited their niece, Miss Beth Bridgers last week end. They also visited in the Ernest Jones home.

SOIL CONSERVATION DISTRICT NEWS

The SCS office continues to get applications for participation in the Great Plains Conservation Program. We now have a total of forty-four applications. Almost half of the applications we have are on dryland farms and ranches which are in the high priority category.

Some of the latest to apply include E. B. Wright, I. S. Scott and Hubert Lilley. The main practices needed on the places owned by Wright, Scott and Lilley include reseeded old fields to native grass over seeding rangeland that is in poor condition and pond construction or well drilling for livestock water.

At present, all money appropriated for the Great Plains Conservation Program is being spent on the high priority places in Texas. We still cannot say with certainty when money might be available for cash crop irrigation

farms. We are continuing to take applications on irrigated places and will work up a plan with the farmer of the practices that would be installed under the Great Plains program.

Please contact the SCS office or other Departments of Agriculture offices in the county for further information.

Visited relatives here Mr. and Mrs. Joe Gollehon of House New Mexico, visited relatives here Monday.

Home from Houston L. F. Ewan returned home Tuesday from Houston where he received a physical check-up. The report was excellent.

Visiting in Arkansas Mrs. Al Tittle and son are visiting her father in Arkansas this week.

NOSEGAY
It's the neatest trick in home decorating! Exciting GOLD SEAL®
per sq. yd. 6', 9' and 12' wide
wall-to-wall smooth surface flooring
Just think what seamless wall-to-wall smooth surface flooring could do for you. It can give a sweep and beauty to your rooms not possible any other way for such a small amount of money. So easy to install, too! Just roll it out and trim to fit with a pair of scissors. It ends your floor cleaning problems — all you need is a damp mop. Here, surely, is the biggest change... for the least money... in the shortest space of time. And remember — Gold Seal Congoleum® contains new G-10 plastic for a brighter, smoother finish at a low, low cost.

Nothing so new—nothing so nice—near the price!
THE '58 CHEVROLET is the one honest-to-goodness new car in the low-price field. And once you drive it, you'll find it offers the year's most rewarding advances in ride and performance.
It stands out like a newly minted coin. Its clean-etched beauty—its flashing reflexes—give it a new look... a new feel. Yet, with all its V8 vigor and gull-wing glamor, Chevrolet's priced surprisingly low. In the models most people buy, it's actually the lowest priced of the low-priced three.* So any way you look at this new Chevy, you just can't make a more beautiful buy. If you haven't yet taken a trial ride, don't put off the pleasure any longer.
The only all-new car in the low-price field.

 25-LB. BAG **\$1.89**

FROZEN STRAWBERRIES

Place orders now for delivery Monday, June 9th.
30-lb. can \$5.95

Patio Meat-Vegetable Skillet
 (Makes 4 servings)

- 1/2 cup fine dry bread crumbs
- 1/2 cup undiluted Carnation Evaporated Milk
- 1 pound ground beef
- 1 teaspoon salt
- Pepper to taste
- 1/2 teaspoon nutmeg
- 2 tablespoons grated onion
- 2 tablespoons flour
- 2 tablespoons shortening
- 2 cups thinly sliced raw potatoes
- 1 package (10 1/2 ounces) frozen peas
- 4 carrots, cut in quarters
- 4-8 small white onions
- 1 cup water
- 1/2 teaspoon salt

Mix bread crumbs with Carnation. Blend with ground beef, 1 teaspoon salt, pepper, nutmeg and grated onion. Form meat mixture into 12 meat balls. Roll in flour. Melt shortening in electric frying pan; brown meat balls. Add vegetables and water. Sprinkle with salt (and pepper, if desired). Turn frying pan to low heat. Cook until vegetables are tender (about 30 minutes). Serve at once.

NEWS FROM BETHEL

Mary Flynt
It's an unsettled question . . . should one stay outside and be eaten by mosquitos or stay inside and fight the battle with the Miller bugs. The Millers remind me of my idea of the bats out of Carlsbad Caverns whenever you disturb them. Sue Lust has the best answer I have heard of . . . she just gets the vacuum cleaner and makes a game of catching them.

The yards and flower gardens are certainly being neglected out this way as most of us have just conceded the battle to the misquitos. Jackie Flynt made the remark the other evening, when leaving the house to feed his calf, "Well, here goes the rest of my blood."

Last Thursday evening, the Bethel Community had an Ice Cream Supper. A large number of residents and guests were present. As a part of the program for the evening, two Cancer films were shown and Dr. Carl Page gave a talk on the "7 Danger Signs of

TV Interference

Cancer." During the business session, new officers for the coming year were elected. They are Carl Bruegel, president, George Sides, vice president, and Mrs. Carl Bruegel as secretary. Mr. and Mrs. Jack Howell were the past president and secretary.

Several from this community attended the Methodist church services held in Ceta Canyon last Sunday. Among them were Mr. and Mrs. Vern Lust, Mr. and Mrs. Earl Lust and Mr. and Mrs. Jack Flynt and family.

Mr. and Mrs. Moss Howell and daughters visited in the Ira Brown home Sunday afternoon.

Mrs. Gaines Neill is quite excited as she is expecting her daughter and family, Mr. and Mrs. L. V. Holt and Garland of Stillwater, Oklahoma, to arrive late today (Thursday) to spend the week end.

Mrs. Joe Finck and Mrs. Orville Finck of Tulsa visited their daughter and sister-in-law and family, the Houston Lusts, Wednesday afternoon.

Mr. and Mrs. Jack Flynt and family were guests of his parents, Mr. and Mrs. E. W. Flynt of Tulsa, for supper Sunday. During the evening, Mr. and Mrs. Wayne Flynt and Don, and Mrs. Jack Ziegler and children called.

Mr. and Mrs. Harry Sinclair and Lavita and Grandmother Sinclair, all of Plainview, visited with Mr. and Bryan Sinclair Sunday.

Mr. and Mrs. Marvis Southward of Hereford spent Sunday afternoon with the Houston Lusts. The Southwards and Lusts were neighbors a number of years ago and hadn't seen one-another for the past five years. Had quite a bit of catching-up to do.

Mrs. Jack Howell visited with Mrs. Houston Lust Tuesday afternoon.

Mrs. Charles Henry Howell and children of Friona visited with the Moss Howells Saturday afternoon. Had a card from Carl "Unk" Bruegel saying he was having a grand time in Germany. He expects to be back in the states around the 23rd of June.

Mrs. Moss Howell was in Hereford and Friona on business Tuesday.

Mr. and Mrs. Vern Lust helped celebrate Houston Lust's birthday, Monday. Houston hasn't started "Living" as "Life Begins at Forty" so the saying goes, but he was getting around like he was every bit of ninety-nine years old that day. However, I will add this, it was all due to a "crick" in his back.

Mrs. Gaines Neill visited Mrs. B. E. Sinclair Monday afternoon. Mrs. Sinclair is getting rather bored just "sittin' and knittin'" and wishes she would hurry and "mend". Her broken leg is still in a cast and her activities are still quite limited.

Other visitors of Mrs. Sinclair's during the past week include Mrs. Jim Givan, Mrs. Sue Wells and

they all visited with the Moss Howells for awhile.
Mr. Jack Flynt, II left early Tuesday morning with his grandparents, Mr. and Mrs. E. W. Flynt, for a few days fishing at Monument Lake in Colorado.
Mr. and Mrs. Ivor Bagwell and Nelda were among the group attending an after Church dinner party in the home of Dr. and Mrs. Chas. Vandiver Sunday evening.
We are indeed troubled to hear of the illnesses of both Mr. and Mrs. J. F. Egger of McAdoo, parents of the Methodist pastor, the Rev. D. L. Egger of Dimmitt. Mr. and Mrs. J. F. Egger are both hospitalized in Crosbyton, Texas. Mr. Egger was a victim of a serious heart-attack and Mrs. Egger, weakened from a previous case of pneumonia, collapsed from the shock of her husband's illness.
The Rev. and Mrs. D. L. Egger and boys are at his parents' bedside. Our hearts are full of "Get-Well" wishes and we hope they both find complete recovery in the very near future.
Friday, May 30th, is Memorial (Decoration) Day. May we take a few minutes from our busy life to honor our departed . . . not to wish them back with us amid the trials and tribulations of this world, but to give thanks for the time they spent with us before their parting. May their souls rest in peace.

The Doyl Underwoods were in Hereford Saturday evening.

Mrs. Ira Brown and Mrs. Lon Booth were Tuesday afternoon visitors of Mrs. Doyl Underwood.

Miss Sharron Flynt spent last week visiting her grandparents, Mr. and Mrs. E. W. Flynt, in Tulsa. Mr. Kenneth Kersh had Saturday dinner with Mr. and Mrs. Moss Howell and family.

Mr. and Mrs. Doyl Underwood and girls visited with Mr. and Mrs. Fate Shannon and family Sunday afternoon.

We are very sorry to hear of the death of Mrs. Fred Bruegel's nephew, Mr. Chuck Marshall, of Fresno, California. Mr. Marshall was killed Saturday in a tragic two-vehicle collision which also took the life of a friend, and neighbor, the driver of the second vehicle involved. Funeral services were held Wednesday afternoon in Fresno for Mr. Marshall.

Several out this way have been on the "ailing" list. They include Carl Bruegel, Houston Lust, Jack Flynt, and Sandy Bruegel (who is recovering from the measles).

Mr. and Mrs. C. W. Pilot, who have been visiting her parents, Mr. and Mrs. Ira Brown, left Monday to go to the birds. . . The Birds, that is, of Santa Fe, New Mexico. Mrs. Pilot and Mrs. Bird are sisters. After "flying" about awhile, the Pilots plan to return to their home in California Sunday. Hmm wonder which can "fly" the better, the Pilots or the birds. . .

Mr. and Mrs. Ivor Bagwell left Tuesday of last week for Waco to help move their daughter, Miss Nelda Bagwell, home. Miss Bagwell has been attending Baylor University and plans to be home for the summer.

While in Waco, the Bagwells gave a farewell swimming party for several of the dormitory friends of Miss Bagwells. They returned home late Wednesday in a very loaded car.

Mrs. George Bagwell, Mrs. Ivor Bagwell and Miss Nelda Bagwell were among the hostesses for the bridal shower for Miss Shirley Stalcup, bride-elect of Mr. Wilmer Studer, Tuesday afternoon.

Mrs. Jack Flynt and Karron and Miss Willa Mae Scoggin were in Tulsa Thursday evening. Mrs. Flynt and Karron attended an "8 et 40" meeting in the home of Mrs. Henry Tuebel and Miss Scoggin visited her aunt, Mrs. L. F. Edwards.

Mr. R. M. Dunn and Mr. and Mrs. Milton Bagwell and boys enjoyed an ice cream supper in the home of Mr. and Mrs. Ivor Bagwells, Sunday evening.

Mr. and Mrs. Ira Brown were in Plainview Monday visiting his mother, Mrs. Susan Brown, who is still confined to the Hospital there. They reported that she is doing very nicely and was anxious to go home.

Misses Darla, Debbie and Teresa Underwood spent Tuesday afternoon with their grandparents, Mr. and Mrs. E. G. Underwood.

Due to some shorted-out wiring in the pick-up she was driving, and to the fact that it happened right in front of the Flynts, Mrs. Jack Howell and Gaines visited with the Jack Flynts Wednesday morning. Later in the morning, after a couple cups of coffee and some chatter, the Flynts took Mrs. Howell and her young son over to get her husband, Colonel Jack, and

ed the run. Slaughter classes showed a reduction from the previous week with hardly any bulls being offered. Trading was moderately active on cows and bulls as prices held steady with last week. Stocker and feeder classes were slow and draggy each day as buyers took a bearish stand in view of the lower market on slaughter steers and heifers at the major terminals. Trading was also restricted as the supply exceeded the limited demand. Steady to mostly 1.00-2.00 lower prices on stocker and feeders ruled this week. The least decline was recorded on Good and Choice grades, especially for feeder classes. The full downturns were uncovered on Common and Medium stock calves and yearling stockers.

Markings of cattle and calves were expanded this week with an estimated 7,200 head selling. This is about 3,000 more than last week and some 1,300 head over a year ago. Most of the supply was stock calves and lightweight yearlings under 550 lbs. During each session several loads of Choice cattle were sold however Medium to Average Good grades predominated.

Cow and calf pairs also registered losses of about \$10.00 per pair. **STOCKER & FEEDER CATTLE**
Good and Choice Quality
Steer Calves under 400 lbs. 28.50-34.60
Steer Calves and Yearlings 450-650 lbs. 25.25-30.70

Entertained with party
Mrs. Bill Jones entertained with a party Monday afternoon in the Tinarawls dining room in Rawlings Hotel, honoring Mrs. C. W. Bridgers of Hope, Arkansas, and her daughter, Miss Beth Bridgers. The tea table was laid with a custom embroidered cloth. Appointments were china with a centerpiece of pink roses. Twenty-five guests were present.

BOB'S SUPER MARKET

DIMMITT, TEXAS

ARNEY NEWS

By Bonnie Barrett

Miss Jane Darris honored her mother, Mrs. Loretta Darris on her birthday, May 19 with a supper at their lovely country home on Buffalo Lake Road.

The guests were members of the family and close friends and neighbors of the Darrises. They were Mrs. Edith Fields and Mr. and Mrs. Jack Helwig from Happy. Mrs. Mildred Fields and Vonnice, Mrs. C. H. Cox and Donnie Cole and Mr. and Mrs. Charles Cole and son Wes Allen.

After the delicious fried chicken supper, the guests enjoyed watching television or just "talking."

Mr. and Mrs. Laverne Wilhelm are the parents of a seven pound eight ounce son, born May 21 at Neblett Hospital in Canyon. The baby was named Henry Joseph.

Mrs. Ross Campbell, Mrs. Ed Money and Mrs. A. W. Fortner of Canyon attended the graduation of their nephew and grandson, Ronald Fortner last week at Dim-

mitt High School. Sandy and LeZane spent the week end in the home of their aunt, Mr. and Mrs. Lawrence Dirks in Hereford.

David Cole spent Saturday night with his grandmother, Mrs. C. H. Cox and Donnie, his brother. Sunday they went to Tullia to visit Mrs. Laura Cole and to take David home.

Mr. and Mrs. Sonny Edmondson and children of Pampa came late Sunday morning and not finding his grandmother, Mrs. Cox at home went on to Tullia also.

Mr. and Mrs. George Drake and children will go to Trenton Thursday where they will attend the graduation of their daughter Betty Jean.

Mr. and Mrs. A. M. Currie have gone to Aga Caliente, New Mexico for two weeks where they will take the hot baths.

Mr. and Mrs. Kenneth Williams are thrilled over the improvement in health of their tiny baby son since having the allergy test in Oklahoma City last week.

The baby formulas and milk haven't seemed to agree with him or he broke out in a rash. Last week he was given twelve test and they found six foods he can eat. They are and barley cereal, beef and lamb, and apricot and carrots.

The baby is frail and extremely undernourished because of the allergy. The past few days the baby has seemed stronger and more contented. More allergy test will be given the baby after he has built up a bit and is stronger.

Mr. and Mrs. Fagan Johnson and daughter, Jane from Gail, Texas visited Sunday in the home of his brother, Mr. and Mrs. Cone Johnson. The Arch Johnson family and Reggie Johnson from Happy

visited in the Johnson home Sunday afternoon also.

Mr. and Mrs. Kenneth Bibb and children, Tommy, Stevie and Marilyn Both visited Kenneth's sister and family, Mr. and Mrs. C. L. Low in Olton Saturday afternoon.

Mr. and Mrs. Ben Hooper of Tullia were callers in the home of her niece and family, Mr. and Mrs. Dozier Thornton Sunday afternoon.

Mr. and Mrs. Forrest Vise and Orrell will be moving back to the farm for the summer in about two weeks.

Loretta and Janie Dorris called on Odie and Frances Hudson Sunday evening.

Reggie Perkins, son of Mr. and Mrs. R. R. Perkins of Plainview was among the graduates at Plainview High School last week. The Perkins family lived in the Community several years before moving to Plainview.

Visiting in the U. B. Eggemeyer home recently were his parents, Mr. and Mrs. B. H. Eggemeyer from Rowena and her brother and family Mr. and Mrs. Ervin Eggemeyer, Harvey, Norma Jean and Linda from Miles.

David Gardner of Dimmitt came last week to do farm work on the W. E. McFarland farm this summer.

Mrs. Gwen McFarland and her sister, Mrs. Ray Watson of Hereford went to Lubbock Monday where Mrs. Watson will go through the clinic.

Kipa Wade McFarland is spending a few days with her aunt, Mrs. Lawrence Dirks in Hereford.

Mrs. Loretta Darris and Janie visited in the A. B. Fortner home Friday night.

Mr. and Mrs. Kenneth Williams were supper guests last Friday in the home of her parents, the W. B. Williams in Plainview and later attended the graduation of his sister, Marquissette from Plainview High.

Sunday afternoon they were guests of the W. B. Williams at a fish fry. Mr. Williams had just come from Houston bringing home several pounds of fresh water cat fish.

Mr. and Mrs. Conard Rickwartz and children, Bill and Regina of Reno, Nevada spent last Tuesday in the home of his sister, Mr. and

Mrs. V. B. Eggemeyer. Mr. Rickwartz is with the Atomic Energy Commission and he has been with the Navy in the South Pacific in Connection with his work for the past two months. He returned to the states about two weeks ago.

Mrs. Lee Sudduth and her friends, Mr. and Mrs. Oscar Crites of Bovina visited her daughter and family, Mr. and Mrs. S. A. Hodges last Friday.

The U. B. Eggmeyers and Conard Rickwartz families were among the 60 family and relatives to gather at the Lon Brockman's at Nazareth for a reunion last Sunday.

Walter Rogers' WASHINGTON NEWSLETTER

TROUBLE TROUBLE TROUBLE

It seems that the world has more than its share of troubles. The Russians are bombarding outer space with sputniks, and the French, the French are bombarding the Algerians, and it looks as though the French will soon be bombarding the French. The Lebanese are bombarding the Syrians with bombs and charging that the Syrians are bombarding the Lebanese with massive interference. Some of the South Americans are bombarding Nixon with eggs, etc. The President is bombarding the Vice President with the smiles of himself and government employees, and it seems that everybody seems to be bombarding everybody else with propaganda, and to top it all off, the Attorney General of the United States has now started bombarding the Supreme Court with argument that Texas does not own its Tidelands, even though Congress passed a bill saying just the opposite.

As far as the new Russian sputnik, let it be said that this was quite an achievement, but it does not mean the end of the world any more than the launching of the first sputnik did. The crowing of Krushchev is nothing new and comes with no great surprise to anyone in this country. The satellite and missile programs of this nation continue on schedule.

As to the bombardment proceedings between the French and Algerians, this has been going on for some time, and probably everything from words to bombs have been employed. The matter that is causing the deep concern in the picture is the internal difficulty that seems to be plaguing France.

The bombardment between the Lebanese and Syrians does not present a parting of the ways of old friends. It will be remembered that there have been strained relations in this section of the world for many years in the past, and from all indications, this strain will continue in the future.

As for the bombardment received by Vice President Nixon in South America, it can be said that this was a deplorable display of stupidity and bad taste on the part of those engaging in these activities. However, the big question in my mind that overshadowed all the others, is "Why did not the Intelligence Service of the United States know enough about the situations in these countries to have avoided subjecting the welfare of the second ranking man in the United States government to such danger?" Whether you like or dis-

see VARI-KROM "spatterama"

It's fast, fun, fool-proof!

\$7.60 per gal. WILLSON & NICHOLS

like Nixon is not the question. The fact is that he is the second ranking man in our government.

The taxpayers of this country pay out thousands upon thousands of dollars each year to provide and maintain an effective intelligence service to keep our government officials advised as to what is going on in other countries with regard to their attitude toward us and as to the possibility of overt acts. Activities such as those that occurred in South America were not spur of the moment activities, and it should take a lot of explaining on the part of our intelligence forces. It would seem to me that the President should call upon the CIA for a full report and explanation of somebody's failure in this particular instance. Perhaps we are spending entirely too much time trying to bombard some of these foreign nations with American taxpayers' dollars and not enough time trying to find out what they think of us and what they are going to do to injure or harm us the first time they get the chance.

The return of Mr. Nixon to this country brought forth what appeared to be an attempt on the part of this government, acting through the President, to soften the propaganda value of the South American incidents, by having all of the government employees leave their jobs and go to the airport to welcome Mr. Nixon. In fact, telephone calls were made to government offices, including my own, on the subject. The caller would state that the President was urging all to go to the airport to welcome the return of the Vice President. The man hours that were lost would add up to a stupendous sum.

The present Attorney General, who is a Cabinet Officer in Mr. Eisenhower's Cabinet, is now trying to upset the Tidelands matter and to take away from Texas that which has always rightfully been hers and which the Congress, in recent years by a law, said was hers. It will also be remembered

that the President of the United States has said that he believed that Texas owned its Tidelands for 10 1/2 miles off shore. Under the circumstances, it comes with some surprise to me that the Attorney General of a President, who made such a statement, would be allowed to proceed in direct conflict with the words of the President and the action of the Congress. The question seems to be, "Just who is running this country?"

Miss Karen Sue McGee Is Bride Of Carroll Herring In Amarillo

Karen Sue McGee, daughter of Mr. and Mrs. Lawrence McGee, 1615 West 24th, Amarillo, Texas, became the bride of Carroll H. Herring, son of Mr. and Mrs. Homer Herring of Dimmitt, Texas on Friday evening, May 30, 1958.

Truman Springs, minister of the Central Church of Christ, read the double ring ceremony, at the Central Church of Christ, 14th and Monroe, Amarillo. The chancel was centered with a nine branch crystal chandelier holding cathedral tapers. The silver branches of the chandelier were interspersed with flowing cascades of sweet pink carnations and maiden hair fern. This was flanked by lighted candle bars holding white stock and banked with emerald palm trees. Sunburst arrangements of pink gladiolus and white stock completed the background. White coins tied with loops of white silk bridal roping formed a border for the garden setting. The steps were flanked by colonial columns holding floral arrangements centered with snow white cherubs forming an arch for the entrance. The double aisle was marked with white candle sticks holding tall white candles and tied with satin ribbons.

Traditional wedding music was by an a capella group under the direction of Cecil Wheeler of Amarillo. Accompanied by the chorus, Cecil Wheeler sang "Serenade from the Student Prince". Also Randall McGee, brother of the bride sang "Oh Promise Me."

Miss Barbara McGee, sister of the bride was Maid of Honor, and Mrs. Bob Hicks of Canyon was Matron of Honor. They wore identical dresses of blue silk organza over taffeta. The dresses were of princess design with full skirts, having boat neck lines and V neck in back. Short cap sleeves trimmed in hand embroidered banding of pastel colors of pink, rose and green on white background. Large airplane bow in back, of same banding contours to center of front of blouse.

The maid and matron of honor carried bouquets of slender cascades of sweet pink roses and matching

ribbons fashioned from their gowns. The four bridesmaids were Mary Lou McCullough of Hereford; Nancy Archer of Spearman, Texas; Karen Mackey of Amarillo and Lafon McGee, cousin of the bride also of Amarillo. Their dresses were the same design as those of the honor attendants except in pink. Their bouquets were designed identical with pink delight roses and matching streamers.

Candles were lighted by Sylvia Ann and Randall McGee, sister and brother of the bride.

Junior candle lighters were Glenda Herring, sister of the groom, and Lovell Wiggins of Hereford. Sylvia McGee and Glenda Herring were dressed identical to that of the honor attendants, and wore wristlets of pink rosebuds.

The little flower girl was Gayle Reynolds of Amarillo, who also was dressed identical to the honor attendants and wore a wristlet of pink roses.

The ring bearer was David Wiggins of Hereford. Don Johnston of Dimmitt was best man, and the ushers were friends of the groom: Bob Hicks of Canyon, Dan Eaton of Senora, Texas, Winston and Harold Wagner of Dimmitt.

Mrs. McGee, mother of the bride was in a light blue lace dress, with matching accessories and wore a corsage of sweetheart roses with pink and silver tufts.

The grooms mother wore a dress of powder blue lace and white accessories, and wore a corsage of sweetheart roses with pink and silver tufts.

The bride was honored by having her two grandmothers in the party. They both were dressed in navy blue dresses with matching accessories, and wore corsages of white carnations.

The bride, given in marriage by her father, was attired in a dress of white rosepoint lace over white satin, fashioned with Queen Ann Collar, long sleeves forming petal points. The fitted bodice had tiny self-covered buttons relaying blouse down center front. A yoke of French tulle relays top of full skirt hanging full length with train.

The brides veil of French tulle fell from a crown of seed pearls and iridescent sequins. She carried a white Bible, belonging to the Delta Theta Club of Abilene, of which she is a member. The Bible was topped with a cascade of white roses and stephanotis and centered with a white orchid.

For something old she carried a white handkerchief belonging to the grooms great grandmother. Something new was a single strand of cultured pearls, a gift from the groom. She also wore in her shoe, a penny bearing her birth date, for good luck.

A reception was held in the fellowship hall of the church. The serving table was draped with a floor length cloth of ice blue satin and tiers of nylon tulle. A silver candelabra holding white candles and pink rose bouquets formed the center piece. The tiered wedding cake was served by Miss Elaine McGee and Mrs. Billy Stone laded the punch. Both are cousins of the bride. Following a brief trip to San Antonio, the couple will be at home in Abilene where they both will continue their college work.

The bride graduated from Hereford High School and the groom from Dimmitt High School. Both are juniors at Abilene Christian College.

Nicholas-Hardy Plans Announced

Mr. and Mrs. N. B. Nicholas of Olton announce the engagement and approaching marriage of their daughter, Joyce Fern, to Don Nolan Hardy, son of Mr. and Mrs. Pat Hardy of Dimmitt. The wedding will take place June 15 in the First Baptist Church in Olton, with reception to follow in the Fellowship Hall of the church. All friends of the bride and groom are cordially invited.

Shirley Stalcup Shower Honoree

A bridal shower and tea was given for Miss Shirley Stalcup, bride-elect of Wilmer Studer, in the home of Mrs. Jack Gregory Tuesday, May 27 from 4 to 6 p.m. In the receiving line were Mrs. Jack Gregory, Shirley, Mrs. Henry Stalcup and Mrs. Studer. The tea table was laid with a white imported linen cloth, with an arrangement of white daisies with green butterflips forming the center piece. Appointments were crystal and silver. Miss Nelda Bagwell and Mrs. Troy Gene Stafford presided at the tea service. The honoree's chosen colors of green and white were used throughout the entertaining rooms.

Assisting Mrs. Gorgery were Mesdames H. W. Golden, Bill Webb, George Bagwell, Buster Cooper, J. M. Birdwell, Kathleen Hill, Elmo Bell, Olen Rice, Ivor Bagwell, Homer Newton, D. Neumayer, Goodwin Miller, Pearl Sheffy, Leland Lee, Maxine Clarida of Littlefield.

MISS RUBY CLINGSMITH was awarded the American Legion certificate of distinguished achievement recently during graduation from grade school. She is the daughter of Mr. and Mrs. Ira Clingsmith. The boy receiving the award, Tom Garza, had no picture available. He is the son of Mr. and Mrs. Antonio Garza. The award is presented yearly for scholarship, leadership, and service.

Went Fishing in Oklahoma
Messrs. Ralph Smith, Bill Phillips, Cason Smith, Dilmond Neumayer, L. A. Leeth, Elzie Teague, Buchanan, Clyde Queary, Arthur Wilcox, and Ewell Robinson, enjoyed a fishing trip to Altus, Lake, Oklahoma last week end.

Eastern Star Installs Officers

An open installation of officers of the Eastern Star will be held in the Masonic Hall June 3rd at 8 p.m. Everyone is invited.

Installing officers for the night will be: Installing Officer, Ina Richardson, Big Spring; Installing Marshal, Genevieve Howell; Installing Organist, Annie Reynolds, Lubbock; Installing Chaplain, Winnie Boothe, Amarillo; and Installing Secretary, Neva Hastings.

The following officers will be installed for the 1958-59 term: Betty Boothe, Worthy Matron; Raymond Wilson, Worthy Patron; Mildred Boley, Associate Matron; R. C. Bailey, Associate Patron; Ruby Underwood, Conductress; Grace Brown, Associate Conductress; Ruth Slough, Secretary; Helen Richardson, Treasurer; Margaret Wilson, Chaplain; Janie Hastings, Marshal; Earlene Reisdorph, Organist; Ola Mae Trimble, Adah; Hazel Taylor, Ruth; Betty Vaughn, Ester; Kathryn Vardell, Martha; Gladys Benson, Electa; Allene Lilley, Warder; and James Slough, Sentinel.

Mrs. Darris Egger will bring the special music.

Baptist YWA Met at Church

The Y.W.A. of the First Baptist Church met in Fellowship Hall Tuesday evening at 6 o'clock for a book review presented by Mrs. Lester Dowell. She reviewed "Look, Look, the Cities" by Albert McClellan.

"So many rural people move to the cities and leave their church membership behind. As the months pass, they grow farther and farther away from Christian principles and from their early religious training. Sometimes years pass and, until a crisis comes to the family, they feel no need of the church," stated Mrs. Dowell.

A delicious salad supper was served to Joyce Messenger, Linda Hance, Jeri Dowell, Frances Lane, Joyce Slough, Mesdames Raymond Hance, Lon Boothe and Mrs. Dowell.

About Your HEALTH
A weekly public service feature from the Texas State Department of Health. HENRY A. HOLLE, B. D., Commissioner of Health.

The advent of penicillin and other so-called "wonder drugs" has revolutionized modern medical practices. These new drugs—called "antibiotics"—have caught the public's fancy, and have given physicians powerful weapons in their conquest against disease. But into this symphony of praise has crept a sour note. Cases of incorrect dosage and self-prescription are becoming common, raising the danger of serious reactions. It is a waste of time to run for a shot of penicillin for an oncoming cold. The drug is ineffective against the viral diseases, including common colds, flu, measles, and mumps. Taking penicillin in lozenges or other forms for scratchy throats, or upset stomachs, or a variety of mild illnesses which would quickly run their courses anyway, is unwise unless prescribed by a physician. A common pattern of self-prescription goes like this: The doctor prescribes an antibiotic for a sick patient. Some of the pills are left over after the patient gets well. Several weeks later, the patient again feels bad and—on his own initiative—takes the left-over pills. There are at least five good reasons why drugs should not be taken without prescription. 1. When improperly used, they may prevent or retard action of the body's natural immunity. This sometimes happens because drugs work on germs while the natural defense mechanism remains inactive. 2. Germs vary in strength and ability to cause disease. Stronger ones may become resistant to drugs, just as some insects have become resistant to DDT. They multiply and produce new generations also capable of resisting antibiotics. Recent outbreaks of infection in hospitals are proof of this. 3. Some diseases call for massive doses of drugs for prolonged periods. Taking small quantities on your own initiative might mean germs you are trying to kill may actually flourish. 4. Some people are allergic to drugs. One person in 25 is allergic to penicillin, and one in ten may develop allergic reactions after repeated doses. 5. Self-administration of antibiotics can often mask a really serious illness by obscuring symptoms, thus making an accurate diagnosis difficult or impossible. Increasing use of wonder drugs have shown up their limitations. A most appropriate rule of thumb to follow in the use of any drug is never to take them without a physician's recommendation.

Mrs. Bruegel's nephew is fatally injured in car accident
Mrs. Fred Bruegel received word that her nephew, Charles Marshall of Fresno, California was killed in a car wreck Saturday. Mr. Marshall's wife is the former Goldie Cox of Dimmitt.

"Do it yourself" Egg Candler Plus Simple Scale Answers Grading Requirements of Texas Egg Law

Photo by Agricultural Development Dept., Southwestern Public Service Co.

A one gallon syrup can, a 40 watt clear light bulb and the ingenuity of Mr. and Mrs. R. T. Woods of Claude, Texas produced a satisfactory egg candler. An inexpensive egg scale solves the weighing problem. With this simple equipment, they are able to process between 500 and 600 accurately graded eggs per day, thus assuring them top market value.

What Shall I Do With Jesus?
This question which fell from the lips of Pilate has been ringing through the ages. Men have given different answers. Matt. 27:23. After one has learned the truth about Jesus, he must accept or reject, and with all the consequences that go with that rejection. It matters not what moral situation confronts — What shall I do with Him and His words? Christ stands in the way of every wrong and no one can commit sin without doing something with Him. Judas said, "I'll sell Him." Matt. 26:14-26. "Still, as of old, man by himself is priced; For thirty pieces Judas sold himself, not Christ." "I'll deny him," said Peter, Mk. 14:66-72. A victim of his surroundings. So are we. "We'll forsake him," said some of his disciples, Matt. 26:56. He who forsakes Jesus forsakes his only hope, John 6:66-68. "We'll crucify him," said the Jews, Matt. 27:22,23. "I'll persecute him," said Paul, Acts 9. "We'll accept him now," said the three thousand on Pentecost, Acts 2.
WHAT WILL YOU DO WITH JESUS NOW?
D. C. Lawrence, Minister
Church of Christ
Dimmitt, Texas

CONTROL JOHNSON GRASS (AND OTHER GRASSES) CHEMICALLY... WITH DOWPON

Unwanted grasses are usually the toughest problem where farming is best. They thrive on the very climate and soils that should produce top crops.

Now you can control grasses, without cutting, cultivating, or oiling. Dowpon, is the new chemical way to keep grasses from invading your fields, throttling irrigation and drainage ditches. Hoeing, chopping, cultivating, and oiling only get grass out of sight temporarily. Dowpon gets rid of it.

How DOWPON works
Dowpon is a systemic grass killer—meaning that it kills by working through the plant's system. You simply spray the foliage. Dowpon is absorbed through the leaves and works down through the plant, right into the roots, usually killing the entire plant. Because it works inside the plant, a Dowpon spray is less likely to be affected by weather conditions. Rain can't wash it off after it has been absorbed. You can use Dowpon with safety on your farm—foliage sprayed with Dowpon is non-hazardous to grazing livestock.

Roth Farms Sell Calf

Clarence Oswalt, Lubbock, has purchased Oswalt's Fancy Jean 253056 a heifer calf, from Roth Acres farms, Dimmitt, Texas. The new animal is a purebred

Milking Shorthorn and the record of the transfer of ownership has been made by the American Milking Shorthorn Society at Springfield, Missouri.

Left for Colorado

Mr. and Mrs. Ralph Smith and children left Wednesday for Lavita, Colorado where they will spend the week end.

Farm Land Prices Holding

The prices of farm land in Texas and elsewhere is more than holding its own. Apparently, the business recession has not had an effect on land prices any more than the recent seven-year drought.

According to a recent nationwide survey, good farm land will continue to be a scarce commodity. During the 12-month survey period, only 31 of every 1,000 farms were voluntarily put up for sale. This compares with 57 ten years ago. As recently as 1952, more than 55 percent of all land sales were made by active farmers; now only 50 percent are.

There is a possibility that social security may result in some slight easing of the tight land supply situation, however. The acreage of

land offered for sale by retiring farmers is increasing.

But competition to buy land is becoming stiffer. Bulk of the demand is by farmers wanting more acres for expansion. The survey showed roughly 40 percent of all farm real estate purchases were made by active farmers for farm enlargement. And this percentage is increasing.

Not just farmers are bidding furiously for farm land. More and more city folks are in the market, too. Thirty-six percent of buyers were non-farmers, up from 32 percent five years ago.

Other findings showed the average value of farm real estate increased 6 per cent from the spring of 1957 through the spring of this year. And values in two regions of the country climbed substantially more—the southwest (up 10 percent, largely because of Florida) and the northern plains states (up 9 percent).

Total value of all farm real estate in the U.S. is now figured at \$116 billion—up 109 billion a year ago, \$74 billion 10 years ago, and \$35 billion 20 years ago.

Want to know how to get a farm? An eight-page booklet is available telling how to find a farm, where to get advice, and how a farm can be financed. This may be old stuff to most farmers but is worthwhile reading for any would-be farmer.

To get a copy write: John C. White, Commissioner of Agriculture, Capitol Station, Austin, Texas.

NEWS FROM SUNNYSIDE

By Wanda Rogers

Mr. and Mrs. Cody Marlar from Lorenzo visited with Mr. and Mrs. Roy Lilley and family last Sunday.

Mr. Roy Lilley and Mr. Hubert Lilley attended the Shriners Convention in Amarillo recently.

Dean Lilley, Mickie Waggoner, Ronnie Hills, Sharon Conard and Jeanette Holbrooks received diplomas the 8th grade graduation exercises in Dimmitt Monday afternoon.

Mr. and Mrs. Weldon Bradley, Mr. and Mrs. Eulless Waggoner, Mr. and Mrs. John Moore and Mr. and Mrs. E. R. Sadler were among those attending the High School Graduation exercise in Dimmitt Tuesday night. Ometa Bradley, Alice Waggoner and Marisue Woodburn received diplomas. Myles Sadler was an usher.

Mr. and Mrs. James Powell left Wednesday night for San Diego where they will make their home.

Scotty Armstrong, infant son of Mr. and Mrs. Bobbie Armstrong was admitted to the Castro County Hospital Wednesday with bronchial pneumonia. He was released Friday.

The W.M.S. met Wednesday night in circles for the second study of the Stewardship book "God's Wealth and Ours". Mrs. L. B. Bowden and Mrs. Roy Lilley taught the chapters. Mrs. Raymond Haydon and Mrs. J. E. Shirey presided. Mr. Rex Jenkins had charge of the prayer service in the Pastor's absence.

Mrs. J. Paul Waggoner visited in Olton Thursday with her parents.

Mrs. J. E. Shirey, Mrs. Milton Ott, Mr. and Mrs. Cecil Curtis, and Mr. and Mrs. Ray Axtell were among those attending the 8th grade graduation services at Spring lake Thursday night. Charles Axtell and Don Curtis received diplomas.

A pink and blue shower honoring Mrs. Eddie Haydon was given Thursday afternoon at the Community building. The table was covered with a white cloth, with a flower cart pulled by a stork as the centerpiece. Cupcakes and pink lemonade was served. Hostesses for the occasion were, Mrs. Howard Bridges Mrs. S. M. Taylor, Mrs. Jess Herriage, Mrs. Alton Loudder, Mrs. Roy Phelan, Mrs. John Bridges from Earth, Mrs. E. R. Sadler and Mrs. L. B. Bowden.

Tex Conard was dismissed from the Castro County Hospital Thursday.

Mr. and Mrs. V. H. McRee went to Sunray Thursday afternoon to attend the graduation Exercises at Sunray. Her son, Charles Sweatt received his diploma.

Mr. and Mrs. C. J. Fowlkes from Lubbock visited with Mr. and Mrs. E. R. Sadler Friday.

Mrs. Pearl Sadler from Dimmitt visited Tuesday, Tuesday night and Wednesday with Mr. and Mrs. E. R. Sadler and Myles and Mr. and Mrs. Ezell Sadler and family. She also visited Wednesday afternoon with Mrs. W. E. Loudder.

Mrs. R. V. Bills and Larry returned Thursday night from Pittsburg, Texas where they had spent a week with her grandmother who is critically ill.

Brother and Mrs. Murl Rogers and Butch returned from Houston Friday. Butch came home with 3-day measles.

Mrs. Houston Bartlett from Morton and Mrs. Eddie Haydon from Springlake visited Friday with Mrs. Dwayne Loudder.

Jimmy Lee Shirey spent Friday night and Saturday with Johnnie Lee Conden of Earth.

Barbara Lott from Portales, New Mexico visited with Yvonne Loudder Friday and Saturday.

Several played volley-ball in Dimmitt Friday night.

Among those attending the Graduation Exercises of the Springlake High School were: Mr. and Mrs. Alton Loudder and Yvonne, Mrs. Dwayne Loudder, Mrs. Lowell Westmoreland Mr. and Mrs. Milton Ott, Mr. and Mrs. J. E. Shirey, Sue Curtsinger and Mr. and Mrs. Rex Jenkins and family. Eunice Jenkins and Douglass Loudder received their diplomas.

Mr. and Mrs. W. T. Mitchell and her mother Mrs. Phillips from Weatherford arrived Friday to visit a few days with their daughter and granddaughter, Mrs. Earl Phelan and family.

Mr. and Mrs. Dwayne Loudder and Lance visited in Morton Saturday, Saturday night and Sunday with Mr. and Mrs. Houston Bartlett.

Verdena Curtis received scholastic certificates this week in Typing and science, and medals in English, Homemaking and American History. Raymond Jenkins re-

ceived a first choir pin in band.

Yvonne Loudder was maid of honor for the wedding of Charlene Ellis Saturday night in Earth.

Wanda Jones from Crosbyton and Mrs. J. R. Baget from Ralls attended the Sunday morning services with Mrs. Jones.

Mr. and Mrs. Clarence Mitchell, Richard, Shirley and Blane from Springlake visited with Mr. and Mrs. Milton Ott and Mr. and Mrs. Alton Loudder and family Sunday afternoon.

Mr. and Mrs. Raymond Lilley and Donnie left Friday to spend a few days in Big Springs with relatives and to fish at Lake Thomas.

Wynona Duke from Big Spring spent Tuesday night with Mr. and Mrs. R. E. Duke and attended the Graduation exercises at Dimmitt with them.

Brother and Mrs. Winfred Ritter, Donna, and Danna from Olton visited Thursday with Mr. and Mrs. R. E. Duke.

Mrs. Bob Gunderson Linda and Gail from Roseburg, Oregon arrived Friday to spend two weeks with her parents, Mr. and Mrs. R. E. Duke.

Brother and Mrs. Wayne Lee and family from Hereford visited Sunday with Mr. and Mrs. Noah Spencer and family.

Mr. and Mrs. Eldon Lilley and girls and Mrs. Dave Patterson from Summerfield enjoyed a picnic in Palo Duro Canyon Sunday.

Dennis Funeral Home Joins National Group

Dennis Funeral Home has received an appointment as a member of Associated Funeral Directors Services, whose headquarters are in St. Louis, Missouri.

The international organization consists of 2,000 leading funeral firms and only outstanding funeral homes throughout the United States and Canada are invited to membership.

The basic purpose of the organization is to assure high standards of service at reasonable rates in those instances where death takes place away from home. Membership in the organization enables a firm to give the community better and broader service because of its affiliation with responsible funeral firms in all parts of the country.

Dennis Funeral Home in Dimmitt is operated by L. C. Dennis and Joe Wallis.

Mr. and Mrs. Myers Ogletree from Amarillo visited with Mr. and Mrs. Jack Ogletree and Jane Sunday. They were breakfast guests.

Mrs. Howard Cummings, Mrs. Leslie Loudder, and Mrs. J. C. Holbrooks were on the sick list this week.

Eighty-seven attended Sunday School with 6 in Training Union Sunday.

The swarming little pests necessitated the continuing of the city's fogging machine which has brought some after a serious infestation week.

According to mosquito experts about 80 percent of the mosquito production on farms in this area is directly attributable to irrigation water, whether the breeding places are found in lakes, ditches, or other places where water can collect for as many as ten days.

Of major concern in the continuing battle of man vs. mosquito is the danger of encephalitis, or animal cannot transmit disease without the mosquito. Mosquito control mosquitoes is to control encephalitis.

Mosquito eggs can lie dormant in dry lake beds for years before hatching out in wet weather, they live on an average of several weeks after they pass the pupal stage and begin flying. It takes from four to seven days for an egg to hatch to form larvae, which in turn forms the pupa and then to the adult stage.

Attended Church in Amarillo
Mr. and Mrs. Hooper Shaw at-
tended church in Amarillo Sunday
with their granddaughter.

Visiting in Abernathy
Mrs. Ruth Wilson is visiting her
son, J. N. Wilson and family at
Abernathy this week.

Visiting Parents Here

Mr. and Mrs. Elmo Blackwell
and children of Denver, Colorado
are visiting their parents, Mr. and
Mrs. J. B. Blackwell and Mr. and
Mrs. Bernard Brown this week.

Visited Parents

Mrs. G. P. Kirk and son, Sam-
mie are visiting her parents at
Pilot Point. They also plan to visit
Mr. and Mrs. W. H. (Smitty)
Smith at Lake Whitney.

Visit in Pilot Point

Mrs. Fern Kirk and Sammy left
early this week to visit with her
mother, Mrs. Broome, at Pilot
Point, Texas and with the W. H.
(Smitty) Smiths of Lake Whitney.

'Which Way'

The following speech, especially
pertinent to all agricultural
areas, was presented by Harold
Ratcliff, 15-year-old son of Mr.
and Mrs. Glenn Ratcliff before
the Future Farmers of America
District One meet at Canyon
earlier this month.

Young Ratcliff won the district
competition over 15 other schools
but lost out in the area meet. He
was a high school sophomore
last term when the speech was
delivered.

It is presented here because of
adaptation to this agricultural
area.

★

"WHICH WAY LIES HOPE?"
Richard B. Gregg wrote "Which
Way Lies Hope" for India as a
comparative examination of Cap-
italism, Communism, Socialism
and Gandhi's program. After a
brief outline of the problems and
possible solutions he goes into
detail on a number of subjects,
which from the point of bio-dy-
namics can scarcely be over-
emphasized or often enough re-
peated at the present time.

First, as to soil erosion, loss of
humus and leaching of essential
minerals from the soil. This dan-
ger is but slightly realized by city
people or the less-educated classes.
During the past 250 years, we are
told by the best soil experts, there
has been more erosion of top soil
than in all previous history of the
world put together. This erosion is
operative on a vast scale in China,
Africa, Australia, America, and
in a big way also in India. In the
United States, for example one
third of the arable topsoil of this
country has been washed into the
sea and further erosion is pro-
ceeding much faster than existing
conservation work can reclaim or
stop.

Not only is soil washed away; its
fertility is destroyed by excess
cultivation. Humus is oxidized and
burned by hot sunshine, and es-
sential soluble minerals are leach-
ed away.

Along with this steady and rapid
shrinkage of food supplies (for
that is the result of soil erosion),
we now have a rapid increase in
world population. This also has
been greatly accelerated during the
past 250 years. For the first time

in the history of the world there
are more people in the world than
can possibly be fed from the exist-
ing land capable of raising food,
even with no obstacles of transpor-
tation, tariff laws or finance. This
is the considered opinion of the
Food and Agriculture Organiza-
tion of the United Nations, after
consulting the best authorities of
the world in regard to agriculture
and population.

The total population of the world
in 1950 was estimated to be be-
tween 2,250 million and 2,352 peo-
ple. Dividing the largest estimate
of total arable land by the smallest
estimate of total world population,
we get about 1.8 acres of land per
person in the world. The generally
accepted computation is that 2 1/2
acres of land are required to pro-
vide an adequate diet for each per-
son, by Western standards.

As it is well known, different
countries have different densities
of population; and some have eco-
nomic and political power which
enable them to draw food from
other parts of the world more ef-
fectively than can some other na-
tions.

The United Nations Food and
Agriculture Organization states
that in spite of local surpluses of
food in the Americas on a world-
wide basis the per capita food ra-
tion today is less than it was in
1940.

Not only has the population of
the world greatly increased during
the past 250 years, the growth has
accelerated for the past 300 years,
and population continues to in-
crease.

All that needs to be made clear
now is that the relation between
population and food supply faces
not only India, but the world as a
Whole. Because this situation has
never before existed over the en-
tire world, and because its impli-
cations are so grim, we are very
reluctant to recognize and admit
it. We dislike unpleasant facts;
we are reluctant to think; we hate
to change our ways. But nature,
death and birth are more powerful
than human inertia.

Let's take the matter of water—
that essential of all life. Every gal-
lon of gasoline takes seven to ten
gallons of water in its manufac-
ture. To produce a ton of synthetic
rubber takes 600,000 gallons of
water. Each ton of paper made in
modern paper pulp mills requires
50,000 gallons of water in the
making, 65,000 gallons of fairly
pure water are required to process
a single ton of steel, which is a
necessary ingredient of all machin-
ery, tools, large bridges and rail-
roads.

These are just a few uses of
water, but all this use of water
means taking it away from agricul-
ture. Not only has the industrial-
ism used a tremendous amount of
water, but agriculture in the ir-
rigation districts has been pumping
water out of the ground many times
faster than it can be replaced.

But there is a new situation in
the world. Population has increased
greatly, not only in Britain and
Europe, but in every country of
the world. And the amount of land
capable of producing food has in-
creased very little. Yes, there
have been irrigation projects, trac-
tors, chemical fertilizers, and new
improved seeds. But the increase
in food production has not been
anywhere near as great as the in-
creases in population. Also, to of-
set the improvements there has
been appalling loss of land every-
where by erosion.

Right now, if it were not for the
United States money and food sub-
sidies—Western Europe, Great
Britain and Asia would be suffer-
ing severe famines, and millions of
deaths would occur as a result. The
densely populated countries, in
order to have enough food to live
on must maintain a village econ-
omy, not base their whole econ-
omy not on industrialism, but on
agriculture. Less and less, as world
population mounts and world soil
erosion continues, will the densely
populated countries be able to get
food from other countries by the
way of purchase or even gifts. The
other countries are not going to
have any surpluses to sell or give
them.

This is a grim fact which the in-
dustrialists, land-owners and gov-
ernment officials of not only India
but the other nations of the world
must face. We must make condi-
tions which will produce the highest
possible, continuous, enduring pro-
duction of food. The aim must
not be for highest possible pro-
duction per agricultural worker,
but highest possible production per
acre. This is what gives the largest
total yield. This is how we are go-
ing to have food for this enormous-
ly increasing population of the
world.

I thank God that I live in a
country where surpluses accumu-
late, and that I live in a country
with free enterprises. I am grate-
ful to be able to attend a modern
church with a substantial youth
program. It is wonderful to be able
to ride to a summer camp in a
good car and have my neighbor's
son as my companion. And too, I
am proud that I can go to a mod-
ern school with well-equipped class
rooms and laboratories.

I also find it a pleasure to be
a member of our local athletic or-
ganization and play the games

under the direction of a coach who
teaches us to play fair and hard.
To enjoy the game in victory, and
to be graceful in defeat.

I am grateful for my God-fear-
ing parents who have nurtured me
through the years and taught me
to love my friends. I hope that I
can live and help make my world
and my community a more abun-
dant and happier place in which to
live.

But along with my friends, my
parents, my school, my church
and my God, I must share with
the hungry world over there the
fine things we enjoy here. Sharing
can be accomplished without great
sacrifice only by increased pro-
duction throughout the world. This
increased production per arable
acre can be achieved only by the
concerted effort of all great minds
in the alerted, unfettered West. It
is along this avenue that the way
of hope lies.

Nazareth News

Mrs. Helen Backus, Mr. and
Mrs. Ed Brockman and Mr. Leo
Witkowski left last Sunday for a
Knights of Columbus Convention
in San Antonio. While there, Mrs.
Helen Backus and Mrs. Ed Brock-
man visited their step-mother, Mrs.
Anne Venhaus. They returned on
Thursday.

Ruby Mae Annen will undergo
foot surgery at North West Texas
Hospital on June 3. She will return
to Deaf Smith Hospital on June 4.
Mary Ruth Backus is recovering
from a serious illness. She will re-
turn home at the end of the week.
Visitors are welcome.

Attending Convention in Austin

Mr. and Mrs. Norman Cleaving-
er and B. M. Nelson left Thursday
for Austin where they will attend
the annual second State-wide
meeting of Democrats of Texas.
They were accompanied to Kerr-
ville by Mrs. Sid Sheffy who will
remain with her father for several
weeks.

Let us prove worthy of their
sacrifice . . .

...that these dead shall not have died in vain

The perfect tribute to the memory of our heroic dead is to
be found in what we DO to perpetuate the ideals for which
they fought and fell. Let us work constantly for a strong and
united America. Let us highly resolve to pass on to our
children the untarnished heritage of freedom for which so
many brave men have given so much.
