LIGHT-CONDITION YOUR WORK AREAS

Whoever said "Woman's work is never done"... had a point, as any homemaker can tell! Ironing, either by hand or machine, isn't the labor it was in pre-electric days...but it is work that you'll do easier and better with proper lighting. Sewing and other homemaking tasks will become easier when you use the lighting recipes in Reddy's free booklet, offered you below.

> Bring new light on your needlework with the lamp arrangement illustrated. Fine needlework and mending become less fatiguing. Try this the next time you have socks to darn!

> A fixture suspended over the center of the ironing board will speed up your ironing. It's easier to prevent scorches and wrinkles when you can see clearly what you're doing.

The ease of seeing keeps pace with the ease of working with modern electric equipment when a light fixture of this type is suspended over the ironer.

GET YOUR FREE COPY! 22 TESTED RECIPES FOR HOME LIGHTING! Phone. come in or write your Texas Electric Service Company office for your free copy of "See Your Home in a New Light."
