

63RD YEAR

SEEN OR HEARD

Delbert Capps is taking a long chance with his camera next Monday night when he takes a "shot" of the night class at Ranger Junior College.

Seems they are going to line up all the members that are present and accounted for, of the "night Rangers" Monday night and herd them into one room and capture their expressions of bliss and innocence, or whatever expression they may have.

The Jaycees go into action Sunday. Charlie Milliken said at last the stock barn that has had the top blown off is in for a general working over by the men.

This high wind of late has not been adding to the state of affairs of the barn and something must be done with the Tri-County Livestock Show coming on March 21-22.

"A very highly informed source" was overheard saying that spring football training was due to get underway for the Ranger Bulldogs pretty soon.

Back to the sidelines for all Monday morning quarterbacks and second guessers.

Prior to the filing of the suits by the city of Ranger for delinquent personal property taxes there was quite a bit of skepticism as to whether the city would actually go through with their promises.

As you know eight were filed Saturday. Sixteen more were filed to be filed by the committee at their meeting Monday for this Saturday, unless they are paid before the Saturday filing date for these new suits.

We read somewhere that the people of the United States are now consuming aspirin tablets at the rate of 15,670,944,200 a year, and spending in addition \$85,000,000 to purchase other headache preparations as well.

That constitutes a lot of headaches. Must be that life is just one headache after another!!!

Fill in that coupon you see on the front page of the Times and make all haste with it to the post office and mail it to the Chamber of Commerce, or better yet deliver it in person.

No one but the Armed Forces get this blood. They are asking you to give and no one could deny them.

They need at least 450 prospective donors of which three hundred of them should be able to give blood.

HEADLINERS—Sen. Robert S. Kerr, (L. Okla.), left, a staunch supporter of President Truman, will probably be the Democratic candidate for President if Truman decides not to run. Oklahoma supporters of Kerr say it may be ten years or more before another Oklahoman emerges as a national figure with a possible chance for the presidency. Kerr's name has been officially entered in the Nebraska presidential preference primary. Lt. Gen. James H. Doolittle, center, famed aviator and World War II hero, will be named by President Truman to head a special commission to investigate airport safety near big cities. Threatened Oil Strike Would Put Nation Afoot, Oilman Says

DENVER, Colo., Feb. 21 (UP)—An oil industry spokesman said today that within three weeks many of the nation's motorists will be "afoot" if 275,000 oil workers made good their threatened strike.

Representatives of the workers announced after a joint co-ordinating meeting last night that a nationwide strike would be called March 3 to back up the union's demands for a straight \$2 a day wage increase.

The industry spokesman said such a strike would have motorists "afoot within 10 days" after it was called.

For the first time in history, 22 CIO, AFL and Independent unions joined in a common effort to force the industry to accept their demands.

The strike—if it comes off—will hit refineries, pipelines, production plants, sales forces and in some instances, chemical plants. The deadline of 12:01 a.m. March 3 was chosen to permit the AFL Union to complete the strike vote now in progress.

The CIO Union completed its strike ballot of 300 bargaining units, and a spokesman said 90 per cent of the membership favored a strike.

Not all of the 275,000 oil workers represented will walk out in the strike. Instead, key workers will strike in a move "aimed at crippling the heart of the industry."

Members of the committee meeting here refused to disclose the location of the plants that will be picketed.

"We're not going to tell the oil companies whose plants are

Sabrejets Bag Two More MIGs

By Warren P. Franklin
United Press Staff Correspondent
8th Army HEADQUARTERS,
Korea, Feb. 21—American Sabrejets shot down two MIG-15s today to bring to seven the number of Communist jets destroyed in the past three days.

Enjoying a numerical advantage for a change, 26 F-86 Sabrejets battled 20 MIG-15s from a formation of 80 of the Russian-built fighters observed northeast of Sinanju in "MIG Alley."

The 20-minute dogfight ranged from 43,000 down to 20,000 feet through a dense overcast that covered most of North Korea.

First Lt. Billy B. Dobbs of Fontana, Calif., and Capt. Brooks J. Liles of Elizabeth, N. J., each shot down a Red jet. Dobbs already had one damaged MIG to his credit but it was Liles' first claim.

The 6th Air Force shot down three MIGs Tuesday and destroyed two and damaged five Wednesday.

On the ground Communist forces ambushed a United Nations patrol west northwest of Kangsong on the eastern front. Reinforcements trying to come to the aid of the patrol were pinned down by enemy mortar fire.

However, additional reinforcements arrived an hour and 15 minutes after the ambush. Sabrejets and all UN forces were able to disengage and return to their own lines.

Elsewhere along the 145-mile battle front, there was only picket and patrol action with a platoon the maximum size unit.

The Ohio Republican presidential hopeful received a total of 1,095 votes compared with Eisenhower's 688.

OPS Office Grants OK For Raises

DALLAS, Feb. 21 (UP)—Cost-of-living wage increases may be given employees who work for a commission, the Office of Price Stabilization office here announced.

The new regulation allows for commission workers the same adjustments recently granted employees who earn fixed wages. Byron Abernethy, chairman of the Tenth Regional OPS district office, said yesterday in Dallas.

This means earnings of employees paid entirely or partly on a commission basis may be raised on amount equal to the cost-of-living increase since Jan. 15, 1951, as shown in the Bureau of Labor Statistics Consumer Price Index.

Eastland County Men To Train In Texas With 47th

CAMP RUCKER, Ala.—Four hundred and four Texas soldiers from 200 communities will return to their home state in March as part of the 47th "Viking" Infantry Division stationed here to participate in Exercise Long Horn at Fort Hood.

The 47th's Texas contingent is composed of draftees and rotated Korean veterans.

Included in the ranks are: Pfc. Sam Seay, Ranger; Pfc. Roy W. Sprague, 305 W. 11th St., Cisco; Pfc. Jack Tackett, 514 W. Mass, Eastland; Cpl. William B. Eaves, Route 1, Gorman; Pfc. Jesse T. Potter, Beat 1, and Pfc. James R. Jackson, Beat 2, Rising Star—all of Eastland County.

Fort Worth is represented by 44 men in the division. Dallas has 28; El Paso, 22; San Angelo, 10; Tyler and Houston, six each.

The draftees poured into the 47th in the middle of February, 1951, after processing at Fort Sill, Okla.

For some men, the joint Army-Air Force training maneuver will be staged in their own "back yard." Master Sergeant James Ollars of the 164th Infantry Regiment is a native of Lampasas, located within the Fort Hood boundaries. Sergeant Leo Dermody, also of the 164th, lives at Temple, 25 miles from the maneuver site.

The 47th Division—Army home of so many Texans—is one of the youngest infantry divisions in active service. First organized as a Minnesota-North Dakota National Guard unit in 1946, the 47th was reactivated in January, 1951. Since then, it has been training at Camp Rucker, sending thousands of personnel to Korea. In replacement, hundreds of Korean veterans have been assigned to the division.

Kennon Piles Up Impressive Lead In Political Race

NEW ORLEANS, Feb. 21 (UP)—Robert E. Kennon had piled up nearly a two-to-one voting lead today to win Louisiana's governorship and a landslide victory over Gov. Earl K. Long's political machine.

The drawing judge from the Louisiana upcountry held 457,607 votes to 280,466 for Carlos G. Spatt, Long's hand-picked candidate, with returns complete from 1,997 of the state's 2,112 precincts in Tuesday's Democratic Primary run-off.

It is the largest majority ever scored over the once-nightly Long dynasty, set up in 1928 by the late Huey P. (Kingfish) Long, the present governor's assassinated brother.

Kennon must run in the general election, but this is considered a mere formality in one-party Louisiana.

A full slate of Kennon-backed candidates were swept into other major state offices.

State Sen. C. E. (Cap) Barham defeated state Rep. John McKeithen for Lieutenant Governor, Fred S. Le Blanc won over Joe Arthur for Attorney General, Allison R. Kold won the race for state auditor over Spatt candidate T. A. Thompson and Mrs. Ellen Bryan Moore defeated Miss Mary Evelyn Dickerson for registrar of state lands.

Lions-Rotarians Hear Sadler At Joint Meeting

Some sixty members of the Ranger Lions and Rotary clubs heard Harley A. Sadler speak at their joint meeting Wednesday. Sadler, making these tours for the motion picture industry, touched phases of the motion picture and public relations. He made known the part your local theatre is playing toward helping make a better community.

Sadler stated the motion picture business is just like any other big business, that there are good and bad points. He stated that in the event of Joe Doakes getting into a brawl in some night-club there was little or no publicity, but in the event one of the top names of Hollywood got in the same circumstances there was nationwide publicity. He said that he did not believe the industry deserved all the adverse publicity the press was giving them.

Sadler also spoke on the opportunity left in the American way of life, urging that everyone take advantage of the right to a voice in government through their ballot.

President of the Rotary Club, James Ratliff, presided at the meeting of the two clubs. He recognized the Lions President Pat Thomas who spoke for the Lions in saying they were glad to be able to meet together with the Rotary Club.

State Representative I. R. Pearson introduced Mr. Sadler to the group. C. B. Pruett brought Sadler before the clubs as a guest speaker.

34 New Members For CC Reported

Several individuals have voluntarily came forward and taken out memberships, which for the individual are \$12.00 per year or one dollar per month.

Dr. C. W. Harris president, made an urgent request that all the membership workers complete their lists and check in with the chamber as quickly as possible.

Prior to the drive there were approximately seventy businesses in Ranger that were not members, it is believed that this drive will bring at least fifty of them into the team working for the betterment of Ranger.

NEW STORM BEARS DOWN ON MEN ABOARD BROKEN TANKER

By David Pickman
United Press Staff Correspondent
BOSTON, Feb. 21 (UP)—A new northeast storm here down today on the 13 "stay put" seamen riding the battered stern of the tanker Fort Mercer, which was split in two during a nor'easter Monday.

Two tugs had the Mercer in tow but they moved at a crawling pace of three knots and could not outrun the storm.

The tow was headed for Martha's Vineyard and the Coast Guard estimated it would require until 1 a.m. EST tomorrow to cover the 115 miles to the lee of the island.

The storm, however, was expected to strike sometime after 7 a.m. EST today with winds of 25 to 30 miles an hour, snow, sleet and accompanying heavy seas.

The stern of the Fort Mercer was taken in tow by the Canadian Tug Foundation Josephine and the M. Morgan of New York after Coast Guardsmen completed the rescue of 57 other seamen from the Fort Mercer and its 10,000-ton twin tanker, the Pendleton, which also broke in two in Monday's storm.

Admission Adds Coal To Political Flame; Third Party Is Threatened

By Raymond Lahr
United Press Staff Correspondent
WASHINGTON, Feb. 20 (UP)—President Truman confessed today that he is quite happy with the job of being president.

Adding new fuel to speculation about his political plans, the president discussed the presidency at a Masonic breakfast and said: "It is an all-day and nearly an all-night job, and just between you and me and the gate post, I like it."

Mr. Truman was the top speaker at a breakfast of more than 500 Masonic leaders. The breakfast is given annually in his honor by Frank Land of Kansas City, Mo. Founder and secretary general of the Order of Demolay.

The President's remarks were made as a leading Dixie Democrat predicted that a third party will be formed in the south this year if the President's speech was largely devoted to explaining to the Masons, most of them Grand Masters of local and state lodges, the function of his ranking staff members, all of whom attended the breakfast.

RJC Fraternity Gains Four New Ranger Members

Ranger Junior College has announced that Misses Gaylia Carter, Joy Hill, Lenola J. Lewis and Mr. Glenn McCleskey of Ranger, have pledged Phi Theta Kappa, National Junior college scholastic fraternity.

Members are chosen through election by the chapter and a faculty committee on the basis of scholarship, leadership and character. To be eligible for membership, a student must have completed one term or semester in Ranger Junior College, having carried fifteen hours per week, twelve of which must be in the arts and sciences; he must be of good moral character and must possess recognized qualities of leadership; he must be in the upper ten per cent of the regularly enrolled student body. He must have a scholastic average of 85 or above on all subjects.

No greater honor can come to a student of Ranger Junior College than to belong to Phi Theta Kappa, the local chapter of Phi Theta Kappa.

New OPS Chief To Take Oath

ATLANTA, Feb. 21 (UP)—Ellis Arnall takes the oath of office here today as director of the Office of Price Stabilization with the same Bible used to swear him in as Governor of Georgia.

The oath will be administered in U. S. District Court by Federal Judge Frank Hooper, an old friend.

Arnall, returning to public life after five years in private business, expects to go to Washington Monday to take over the post.

Mr. Truman and Sen. Robert A. Taft are the majority party nominees for the White House.

Mr. Truman told his audience that "this year is leap year and a most important year in the history of the government."

Then he rapidly told how Washington, Jefferson and Lincoln were vilified by the newspapers of their time. He said that Washington was attacked so bitterly that he retired and would not run for a third term.

Obviously identifying himself with those presidents who suffered severe attacks by the press, the President said philosophically, "a fellow in this office if he is not roundly abused, does not do very much."

The President's speech was largely devoted to explaining to the Masons, most of them Grand Masters of local and state lodges, the function of his ranking staff members, all of whom attended the breakfast.

As for himself, Mr. Truman said a great deal of his time had to be spent not in the exercise of his constitutional powers, but in public relations—"begging people to do things they ought to do without being begged."

Mr. Truman described his own work day as starting at 5:30 a.m. and running until 11 o'clock at night.

He said that if a President saw everybody who wanted to see him, he could work at it 24 hours a day, seven days a week and would be unable to do anything else.

He said there was one benefit from working a long day—"it doesn't give you a chance to get into bed."

The Dixie Democrat who forecast the third party bid said there was little chance of a new "Dixiecrat Revolt" should the President step aside for some other Democratic candidate, or if Gen. Dwight D. Eisenhower is the GOP nominee.

In the latter case, he said, many key Southern Democratic leaders would just "sit on their hands" during the campaign and let matters take their course, in the expectation that Eisenhower would carry at least five or six southern states.

This appraisal of southern strategy in the coming presidential battle was given by a respected political veteran who stands high in Dixie councils. He stipulated that he must not be named.

He disclosed that Gov. James F. Byrnes of South Carolina has agreed to act as a spokesman for the southern bloc at the July Democratic convention. He indicated that Byrnes' main efforts will be directed toward preventing the renomination of President Truman, but would not say whether the former secretary of state plans to work quietly behind the scenes or make a dramatic frontal attack from the convention floor.

Twice Wed Slayer Of Husband Is In Dallas Hospital

DALLAS, Feb. 21 (UP)—Twice-wed Mary Jean Parsons, slayer of her second husband, entered Timberlawn Sanitarium here last night.

Her chief attorney, O. B. Fisher of Paris, said yesterday he "had no doubt" Mrs. Parsons was suffering from a mental disorder. "Her conduct as related by those who had occasion to be with her, her statement to the officers and her conduct in jail" made it obvious to him, Fisher said.

The length of her stay at Timberlawn Sanitarium has not been determined, Fisher said. He said it would depend upon the district attorney in El Paso. Mrs. Parsons is under the care of Dr. Guy F. Witt "and other members of the staff" Fisher said.

The blonde blue-eyed former University of Oklahoma co-ed admitted shooting her first husband of six weeks, Lt. Richard O. Parsons, of Pleasantville, N. Y., as he lay in bed at their El Paso apartment last Saturday.

A quarrel about help that the girl's wealthy Tulsa, Okla., parents were giving the young couple preceded the fatal shooting.

Boys In Korea Enjoy Movies

(EDITOR'S NOTE: The following is a liberal quotation from the letter of Cpl. William F. Cox, Headquarters Company, 655th Field Artillery Battalion, as he wrote it from "about 52 miles north of the 38th Parallel.")

"We have been a front line outfit since August and never even under the worst of circumstances have we had to go without at least five movies a week. Imagine that, doesn't it stir your blood a little? We are just one battalion, there are thousands of battalions and the same story fits all of them.

"When darkness sets in thousands of movies start to roll, in tents, ground dugouts, on a hillside, in hand constructed buildings, in bombed out buildings, in rice paddies and in many other places. I have stood on top of a high hill at night and looked down in a valley and have seen nine movies going at once. From every mountain you can see the same scene. From one section you can hear hot jazz music from 'The Strip' and from another you can hear Lana Turner, and another a mystery thriller and on and on.

"These three hundred thousand American men are movie fans. These movies are their touch of home. The movies, and I have heard many a high officer say it, are the morale of the troops in Korea. These men sit at these movies with loaded weapons at all times, at least the frontline outfits. Guards patrol the areas where they are being shown. In my own case, I and my buddies have sat watching the movie with 105 and 155 artillery rounds going over our heads toward the enemy.

In at least two cases, we had incoming rounds within 200 yards and there wasn't one guy that would leave the movie.

"Tired, fatigued, and sometimes completely exhausted, young soldiers stop to see a movie, and then as if by a miracle they become less tired, less fatigued, and their exhaustion seems to pass by the couple of hours relaxation given to them through a movie.

"It takes hundreds of young projectionists to show these movies and the Army takes great care in training these inexperienced young men for this job. Other hundreds of young men learn to handle the moving of the film prints. Each division has a film print-center and they are busy 24 hours a day. Right here in Korea we have a whole movie industry.

"Well, these are the things that I wanted to pass on to you. Just possibly they might be of some use in some way. They can never be exaggerated enough, believe me."

Small College Team Leading In Basketball

SAN MARCOS, Feb. 21—An unbeaten, almost untested small college quint is dominating basketball play in the Southwest.

A team virtually unheard of nationally, Southwest Texas State, has humiliated 21 straight foes this season without a defeat to boast the nation's best hardwood record. Only three games separate the rampaging, high-scoring Bobcats from a perfect season.

Playing probably the second best team in Texas this week, Southwest Texas virtually swamped Stephen F. Austin, 79 to 47. Austin holds a double victory over Rice of the Southwest Conference and has beaten some of the best teams in Texas.

In compiling their thirty-two consecutive regular season victories, a string that goes back to the middle of last season, the Bobcats have piled up commanding margins over virtually every opponent. This year the Cats have a 77.7 point average on offense against a 48.4 average for foes. This provides a powerful 32.3 average over all opponents.

Last summer Coach Milton Jowers issued a challenge to every big school in Texas asking for games to be played anywhere at anytime. Only Baylor of the SWC answered. Such SWC "powers" as Texas A&M, whom the Bobcats had beaten soundly twice last season; the University of Texas, which team also lost two games to SWT in 1950, and Texas Christian, a team riding the crest of a broken SWC league, refused point-blank to play. Baylor lost to the Cats in an early season contest 58 to 56 in one of the Baptist's two best games of the season.

Southwest Texas also holds victories over the professional White-knuckled Wizards, 69 to 45; East Texas Baptist, a team which joined the Bobcats in representing Texas in the NAIB tournament last year, 76 to 38; Trinity Uni-

Congress Aware Large Tax Load

WASHINGTON—Loud public groans over the present tax load are causing members of Congress to stop, look and listen.

The tax burden as pointed out by the Chamber of Commerce of the United States in its publication "How Much Can Our Economy Stand?" in 1950 required only 7 percent of the national income.

"Unfortunately," says the Chamber, "too many have been led to believe that all government expenditures can be paid for by taxes on the rich. They are learning better now. Any further tax increases must fall primarily on people of very modest means, for they have most of the income."

Fast as individual income tax rates have soared, corporation rates have jumped even faster. The ceiling was 42 percent in World War II. Now, it is 52, with excess profits taxes on top of that, the whole totaling as high as 70 percent.

Un Explains Veto Of Russia As Truce Inspector

By Leroy Hansen

United Press Staff Correspondent PANMUNJOM, Korea, Feb. 21 (UP)—The United Nations said today it had vetoed Soviet membership on a truce supervision commission because Russia is too close geographically to Korea and has a record of "past participation" in the country.

Communist staff officers refused to accept the UN delegation's explanation, however, and the deadlock over Russia's eligibility for the six-power neutral commission stretched into its seventh day.

In another conference tent, a second group of staff officers reached final agreement on paragraphs five through nine of a war prisoner exchange formula.

Both sides also agreed to a definition of "repatriation," but

not on whether the repatriation of prisoners should be voluntary, as demanded by the allies, or compulsory.

There also were two developments outside the conference tents touching indirectly on the truce delegations: 1.—A plane tentatively identified as an American F-80 Shooting Star jet straddled "Freedom Gate Bridge," on the American delegation's route from Munsan to Panmunjom, with two bombs three hours before the truce talks.

2.—The Chinese Communist radio at Peiping charged that "enemy"—presumably American—planes had "barbarously" bombed and strafed northeast China on 40 different days since Jan. 1.

After a week of Communist prodding, UN staff officers finally summarized in the truce supervision debate their reasons for vetoing Russian membership on the six-nation neutral commission to police an armistice.

Earth Tremor Shakes Windows In Tennessee

TIPTONVILLE, Tenn., Feb. 21 (UP)—An earth tremor in the Reelfoot Lake area yesterday rattled windows as far away as Hickman, Ky., 23 miles to the north,

and Union City, Tenn., 22 miles northeast.

No severe damage was reported, but older residents said it was one of the most violent tremors in recent years.

Reelfoot Lake, which covers 20 square miles, was formed by an earthquake in December 1811.

Activities At 1st Baptist

The First Baptist is joining with the 34 other Churches in the Cisco Baptist Association's Simultaneous Revival March 30 to April 13. The revival spirit is great in our church, according to the pastor who states that many have come these past few Lord's days on professional of faith and for baptism.

The evangelism committee under the chairmanship of Mr. Lloyd Bruce is at work and has organized through the Sunday School and Training Union a Church wide visitation program. This program is carried out each Tuesday with all the membership invited to participate.

There will be a simultaneous rally in the First Church on March 11, this being the regular Workers' Conference Day, but the meeting will be held at 6:30 in the evening, with the supper being served from 6:30-7:30, and a special program following. Several hundred Baptist and visitors are expected.

Choir To Meet Tonight At 6:30

The choir of the First Baptist Church will meet Thursday evening at 6:30 for their regular practice according to Mr. Bruce Harris, president of the choir. All groups will be present and special work will be done on the Easter music. Each Sunday's music program is important according to the Director Bullock who says, "Congregational singing is the only phase of the service that every one can participate in, and the choir is to lead out in the congregational and special numbers." Music, good music, music that is spiritual and sacred, will always prepare our hearts and souls for a great spiritual feast.

The Junior Choir, under the leadership of Mrs. C. C. Harris and Mr. Bullock, meets each Wednesday afternoon at 4. Children of the city who are not in any church, and who are in the Junior bracket, 3,4,5,6, grades in public school, or who are between the ages of 9 and 12 are invited to join the Junior Choir. It was the choir under the leadership of the directors who made a record at the State Music Festival last fall.

We are proud of our "Volunteer Choir" and invite those who love to sing and who love sacred music to join the choir and become a part of this great program of worship in music and song says Bruce Harris.

Rupert Ricker Attorney To Speak Sunday

The honorable Rupert Ricker, prominent oil man, attorney and Christian layman of Big Spring, will bring the gospel message at the local Methodist church, Sunday morning and evening, Feb. 24. The occasion will be the annual observance of Layman's Day a special service in which the activities of the laity of the church will be emphasized and stressed throughout the Methodist church.

This is not the first appearance of this man of God in our pulpit. Mr. Ricker was our layman's day speaker a year ago, at which time he so endeared himself with the people of Ranger that he was asked to return again this year. His message for Sunday morning will be: "Standing on the Promises." For the evening service, he will speak on the subject: "Present Day Miracles," based upon his own personal experiences.

"I doubt if anyone has come further in his Christian life than Rupert Ricker since he gave his heart and life to God a very few years ago," says the pastor of the church. "If ever a man made up for lost time, this man is doing it." His services as layman's engagements are very much in demand, not only in his own church, but in other Protestant groups as well. We welcome this outstanding layman to our pulpit.

The public is cordially invited to hear Mr. Ricker in both of his messages at the Methodist church Sunday, Feb. 24. You are always welcome at "the church with a warm heart."
