## SEEN OR HEARD

The Ranger Junior Chamber of Commerce has their stock and specialty acts for their rodeo on July 16-19, and think maybe they are set up for an announcer. They're still working on getting a roof on their barn in time for the Tri-County Livestock Show, March 21-22, which, by the way, coincides with Ranch Day at Ranger Junior College on March 21. Between the stock show and the cowboy show the college will put on on that day, there should be a few strangers in town, it looks at least.

You'll see some of the wild and woolly cowboys coming back from the past on Ranch Day at the college, along with their modern counterparts at the Jaycee stock show.

The college kids take over the campus for one day and really "kick up their heels" while making like their western ancestors.

The judge, sheriff and deputies enforce the western theme during the day, punishing all who do not comply with their rulings. The judge is usually the "big gun", with the law covering an offense being anything that might pop into his, or any of the student body's, head at the moment.

The evening day the one's coming down on horseback are recuperating from their "saddle fatigue", on their day off, which will be Saturday.

Every once in awhile some one will ask one of us down here "why wasn't so and so in the paper." We'll admit that is a just question. Most of the time it is because we didn't know anything about it, because we are only one place at a time. We depend entirely upon you to keep on the alert for news stories and if you let us down, then we're all sunk.

Of course we can't print a rumor, we have to have facts about what we tell. And to get facts you have to contact the parties involved as quickly as possible, so give us a ring at 224 the next time something happens.

Someone told us the other day that H. H. Vaughn came home with the bacon in the form of a "Whopper of a Crappie" from Peestm Kingdom Lake.

Seems this fish tipped the scales at nearly two pounds, and that "ain't no small Crappie."

Dave McMeekin, of the D&D Neon Sign Co., had printed the Lord's Prayer in a little booklet form and is giving them away, courtesy of the company. We showed a copy of this to several people and they thought the Prayer and the accompanying thought with it was very good, here is what it contained:

**THE LORD'S PRAYER**  
Our Father, who art in heaven, Help me to believe this day that there is a power to lift me up which is stronger than all the things that hold me down.

Hallowed be Thy name.

Help me to be sensitive to what is beautiful, and responsive to what is good, so that day by day I may grow more sure of the holiness of life in which I want to trust.

Thy kingdom come.

Help me to be quick to see, and ready to encourage, whatsoever brings the better meaning of God into the world, which otherwise might be life common round of the unspiced day.

Thy will be done, on earth as it is in heaven.

Help me to believe that the ideals of the spirit are not a far-off dream, but a power to command my loyalty and direct my life here on our real earth.

Give us this day our daily bread.

Open the way for men to earn an honest living without anxiety; but let me never forget the needs of others, and make me want only that benefit for myself which will also be their gain.

And forgive us our trespasses. As we forgive those who trespass against us.

Make me patient and sympathetic

## Blood Mobile Unit's 3 Day Stay In County Nets Only 329 Pints

The Blood Mobile Unit from the Ft. Worth Center spent three days in our county this week and took away only 329 pints of blood instead of the 600 pints from people they could have served. A severe comparison to the 1500 pledged for the two days the unit spent here in 1943. Of the 1500 pledged, 1479 people were processed, with the result of 1289 pints of blood, taken in 1943. This week, 2 days for Ranger 197, 1 day in Cisco, 132. Total 329.

Practically every hour, on the radio there has been an appeal for blood donors and still there were approximately 30 people from Eastland who neither called or came for their appointments. There were nine who did account for the time pledged and could not give. In requesting pledges some remarked that "this is only a cold war," but unless your son, husband or brother is on the front line with the folks back home turning a deaf ear to the plea for help you can't realize what a "Cold War" it is turning out to be. Won't you try to get to the Ft. Worth Center and give your share yet? It is so badly needed!

One who has done his share in the R. D. White, owner of the Victor Hotel in Cisco who gave his 41st pint of blood on Thursday. The first donation was in 1920 and had the opinion that he had done nothing of importance even though it is somewhat of a record.

It is noted that Mrs. Angie Everett who gave a gallon during the last war was the first donor from Eastland.

The Doctors and Nurses and volunteer helpers from Eastland were generous with their time and blood as well. Doctors Brown, Caton, Treadwell and Townsend

## Farm Unions Meet Today In Dallas

DALLAS, March 11 (UP)—National Farmers Union delegates meeting in Dallas were told today that big business is behind today's demands for repeal of farm price support programs, and also back the abolition of farmer committees on the Production and Marketing Administration.

The union's director of publication and information, Ben Strong, told the 50th anniversary meeting that big businessmen also are trying to abolish committees on the Farm and Home Administration, thus transferring administration of that agency to county extension agents.

Another speaker on the agenda today is A. J. Hayes, president of the International Association of Machinists.

## Strong Man's Cuban Seizure About Complete

The seizure of power in Cuba by General Fulgencio Batista and his army appears to be a pretty complete success—at least from a military point of view.

Most organized opposition to the revolution has ended. And what little remains appears to be on the verge of ending.

This opposition, such as it is, is led by a hold-out Army officer commanding a 1,000-man garrison in central Cuba. But Batista has dispatched 250 regular Army troops to the area. And revolutionary sources claim that the officer will give up without a fight.

In and around Havana, the capital, brief flurries of violence have given way, to submission to Batista and his military rule. The general, who is known as Cuba's "Strong Man", is moving swiftly to stay in power, and has already issued several decrees and announcements.

In the first place, he said he overthrew the government of President Carlos Prío Socarrás to protect Cubans from what he called "political gasterism". He has canceled next June's elections, in which he was a candidate. And he has announced he will throw constitutional guarantees out the window for 45 days to make sure Cuba comes under complete military control.

The Governor is scheduled to arrive here about 6:30.

The banquet starts at 7:15 p.m. with the doors to be opened to the general public at 8:15, in order that they might hear the Governor's address. Tickets to the banquet were completely sold out several days ago.

## America Land Of Opportunity Says Founder Penney's

America still is a land of opportunity and, so far as J. C. Penney Company is concerned, for development and growth right there are two "enormous areas here in the United States."

That was the opinion voiced by A. W. Hughes, president of the Penney Company, speaking to nearly 1,000 store managers, Central Office associates, warehouse and field men meeting in San Francisco to celebrate the opening of the Company's Golden Jubilee.

Taking note of progress in this country since 1902—the year J. C. Penney Company was founded—Mr. Hughes said it was impossible to foretell what the next 25 years would bring or the size

## Big Blow; No Rain

Despite lightning, thunder and high winds only .16 of an inch of rain fell in the rain gauge Sunday night.

At the outset of the shower it appeared as if a good rain was in store for this area so badly needing it, but hopes were short lived as the hoped for precipitation failed to come.

When President Roosevelt ordered MacArthur to leave ten years ago today, on March 11th, 1942, Wainwright took command. Today Wainwright has overcome most of the effects of the grueling three years and five months he spent in Japanese prison camps.

The call was answered, but when officers entered the room through a window, he greeted them. Saturday they were called again and while officers broke down a door to reach the room, they were too late. The man was dead.

## White House Bomb Shelter Cost Has Risen to \$918,000

WASHINGTON, March 11 (UP)—The White House bomb shelter is getting more costly all the time. The House Appropriations Committee says recent testimony puts the latest estimate on the cost of the shelter at \$918,000.

Congress previously had set it at \$818,000. A change in specifications by Army Engineers boosted the figure.

But US preparedness may have a bit of lag in production of war supplies," he added.

The general parried all political questions, and refused to discuss conduct of the Korean War. "I have opinions," he said, "but I'm not going to express them. No comment."

## Justice Dept. Lawyers Go to Cleveland

CLEVELAND, O., March 11 (UP)—The government has asked for a restraining order and an injunction against three rail brotherhoods to end their three-day strike against the New York Central System and the Terminal Railroad of St. Louis. Petitions for the order were filed this morning in federal court at Cleveland, Ohio.

Three Justice Department lawyers arrived in Cleveland, Ohio early today to ask a federal judge for a court order requiring 6,000 rail workers to end the walkout.

The injunction would force the striking engineers, firemen and conductors brotherhoods to return to work.

Union officials refuse comment on the threatened court action. But they said they are willing to negotiate demands for higher wages and revised working conditions—the dispute that sparked the strike.

The walkout defied the authority of the Army which technically has been in charge of the nation's railroads for two years. The effects of the strike are being felt in New York, Pennsylvania, Ohio, Indiana, Illinois and Missouri.

Officials of the New York Central estimate their losses so far at three-million dollars and fear the number of employees idled by the strike will rise to 50,000 if the dispute is not ended quickly.

## Graham Group to Sing Here Friday

The Graham Symphonette under the direction of Mr. F. E. Iddings will appear in Ranger at the Recreation Building Friday, March 14, 1952 at 8:00 p.m.

They have made many performances in the last two years and are in great demand at the present. This group consists of about forty members, that are all high school students.

They give a well balanced program consisting of classical, romantic, modern, and popular music. They gave a two hour concert in Ranger last year, which was greatly enjoyed, but this year, however we are informed that they will give a shorter program.

There is no charge on this concert and the public is invited to attend.

## Danger Big Government Replacing That Of-Big Business; WTCC Says

WASHINGTON—Not so many years ago "big business" was the target of those who saw in bigness an inherent public danger.

To protect the public interest, a legislative wall was built around corporate operations. Laws were passed to insure fairness in competition and to guarantee an even break for the small operator.

Now, now so much is heard about the "bigness" of business. There is public acceptance of bigness in business as necessary for efficiency provided that ample safeguards against abuse exist.

But meanwhile bigness has appeared in another direction. Today it is big government. And people are uneasy over it. They do not know where it will lead, or where it will end. What are safeguards?

D. A. Hulcy, president of the Chamber of Commerce of the United States, believes bigness in government is leading straight into socialism, and that it must be feared.

Wherever I have been," he says, "I have found people deeply concerned. There is an increasing awareness that it can end in socialism because socialism everywhere is another name for big government."

How big is this government of ours? It is the single biggest employer in the country.

"Thirty million persons are drawing checks directly or indirectly from the federal government."

"Our government is so big it has mortgaged on banks, railroads, manufactures, homes and reportedly on a rattlesnake farm."

"Our government operates railroads, canals, power plants, printing plants news services universities steamships and radio. It is the nation's biggest money lender."

"Government is in business in competition with private enterprise and it is operating its businesses on tax money collected from private business."

"We are watching socialism being purchased with our own money."

"People in the government scoff at the statement that we are going socialist. Yet, when you turn over great power to government you are gambling with the future."

### Laymen Conduct Services Aboard Navy Fleet Ships

NEW ORLEANS, Louisiana—Under a program initiated by the Navy to provide religious observance of a chaplain, more than 1000 officers and enlisted laymen of all religious faiths are conducting divine services aboard ships of the U. S. fleet throughout the world.

Rear Admiral Stanton W. Salisbury, USN, Navy chief of chaplains, said the religious representative program is being intensified throughout the fleet to emphasize the maintenance of a high moral standard in the Navy.

Part of the program will include supplying recordings of religious music and equipment for conducting divine worship.

Large ships and fleet commands have chaplains assigned but smaller vessels depend entirely on "circulating" chaplains for church activities. They travel to out-of-the-way stations and ships to conduct divine services for all faiths.

The Navy said these lay religious leaders do not in any way attempt to perform the religious function of a regular chaplain. They serve as a layman does in his own church and they do not, for instance, observe communion or perform baptisms. Protestant men conduct a worship service, and Catholic men a Rosary service.

### Veteran Judge's Death Reported

GROESBECK, March 11 (UP)—Veteran District Judge Hardy Fountain Kirby died at a Groesbeck hospital yesterday following a heart attack. Judge Kirby served 33 years on the 77th District Court bench in Groesbeck.

He was involved in a long string of legal disputes, and his name became synonymous with the word injunction. He once held that a properly-drawn and presented injunction petition left him little alternative but to grant it.

## Dysentery On Increase With Spring Coming

AUSTIN, March 11—Commenting on the unusually high incidence of dysentery in Texas at the present time, Dr. Geo. W. Cox, dysentery as being an infectious disease characterized by diarrhea, pain in the abdomen, and toxemia. It is caused by a specific bacteria or germ. These germs cause inflammation of the lining of the intestinal tract which produces pain throughout the abdomen and the discharge of many loose stools that frequently contain blood and mucus.

Toxemia results from absorption of the poisonous substances produced by the germs.

"The germs gain entrance to the body through the mouth," Dr. Cox said, "and then make their way to the intestines in the same manner in which food does. When they reach the intestines they find conditions favorable to their growth, and there they establish themselves at the expense of the person infected and produce their harmful effects."

Dr. Cox warned that dysentery affects young children more often and more seriously than adults, frequently resulting fatally; however, he said, it may occur at any age. It is usually more prevalent during the summer months, and the great number of cases now being reported are unusual for spring.

"The germ is always expelled with the excreta of persons sick with dysentery and may continue to be expelled for some time after the patient recovers from the disease. These persons who still discharge the germs after they recover are called carriers, and they occur more frequently in this disease than in the majority of other infectious diseases."

"Food protection and adequate sanitary measures are more urgently needed now than ever before if we control the potential possibilities of epidemic dysentery in this State."

## Three Red Jets Downed; Talks Still Stalled

By United Press  
The situation in Korea can be summed up in ten words—lots of talk, no progress, and 3 enemy planes down.

The truce talks followed pretty much the pattern of yesterday, when Rear Admiral R. E. Libby told the Reds he would walk out if they kept up their tactics of using threats and insults.

He lectured them again today, saying he was "fed up" with what his boss, Gen. Ridgway, has called "known falsehoods." Libby said his lectures appear to have done some good, because the Reds have toned down their words, although they are still blaming the Allies for the deadlock over exchange of prisoners.

American Sabrejets have shot down three Communist MIGS,

case than in the majority of other infectious diseases.

"Food protection and adequate sanitary measures are more urgently needed now than ever before if we control the potential possibilities of epidemic dysentery in this State."

List 'em now and do something about insurance—then forget your fears and BE HAPPY.

Might your car be stolen or burn up? Might you kill or injure somebody with it? Might your house or business burn or be blown away? Might your valuables be lost or stolen? Might an employee or tradesman sue you for injury on your premises? Might your dog bite a neighbor? Might you hit somebody with a golf ball? Might an employee embezzle from you?

Worry hard about these things for a while. Then let us protect you against 'em with America Fore policies.

How to have a winning TELEPHONE PERSONALITY by EMILY POST

We're often judged by the way we use telephone service. Good telephone technique and good telephone manners are important to a winning personality... and help you get the most from your telephone service.

Of all the many questions I'm asked about good party line manners, probably the most frequent one is "How long should my telephone conversations be?"

Answer: The length of your conversations will vary, of course. But purely for a selfish reason, it's a good idea to avoid long, drawn-out conversations. No incoming calls, however important, can get through to you while your telephone is tied up. And your party-line neighbor can't make OR receive a call. You're displaying good party line manners when you hold conversations to a reasonably short length—consideration that folks on your party line will appreciate and return.

Recently, a friend visiting at my home noticed a small booklet titled "LONG DISTANCE TELEPHONE NUMBERS" lying beside my telephone. My guest asked "Is there any advantage in making long distance calls by number?"

Answer: Indeed, there is. Long distance calls go through faster—often twice as fast—when you call by number. The smart, well-informed telephone user takes fullest advantage of today's fast long distance service by placing out-of-town calls by number whenever possible. Incidentally, if you don't already have one of those convenient booklets for listing out-of-town telephone numbers, you can get one free at the telephone company business office. That's where I got mine.

Here's another test of good telephone technique. When in doubt about a telephone number, should you look in the telephone directory... or call information?

Answer: You will usually save time if you look in the directory first. Chances are, you'll find the number there. The telephone company people tell me their records show that 3 out of 4 calls to information are for numbers listed in the telephone book. Why make two calls when one will do, three out of four times?

A double ring ceremony read at 8 p.m. Thursday, March 6, united in marriage Miss Mary Alice Pierce of Breckenridge and Cpl. Douglas Jacoby of Ranger.

The bride is the daughter of Mr. and Mrs. Hestia Pierce, 1005 East Wheeler St., Breckenridge, and the bridegroom is the son of Mr. and Mrs. Mac Jacoby of Highway 80, Ranger.

The service, read by the Rev. Carl Eakin of Ranger, was in the Pierce home.

Given in marriage by her father, the bride wore an ashen of roses suit with navy accessories and carried a white Bible. Her corsage was an orchid.

Maid of honor was Miss Clara May Jacoby, sister of the bridegroom. She wore a purple velvet dress with navy accessories and a pink gladiola corsage.

Best man was Capt. Warren M. Pierce, brother of the bride, a senior at A&M College. He wore full dress military uniform. Ushers were Betty Pierce, sister of the bride, and Betty Huffman.

Emerald leaves and fern entwined to form a decoration on an arch above a white satin kneeling bench. Candelabra on either side of the arch contained fifteen white tapers. Pink hydrangea banked the arch on each side.

Wedding music was provided by

Miss Billie Magee, who sang "I Love You Truly." "Our Wedding Prayer" was sung as a duet by Miss Magee and Miss Eva Nell Duckworth with Miss Magee supplying the accompaniment on the accordion.

At a reception following the ceremony, Lola Nell Dawson presided at a double ring cake with a miniature bride and bridegroom on top which was made by Mrs. Carl Smith. Punch was poured by Mrs. C. F. Whitley of Houston, aunt of the bride. A linen cloth covered the serving table and the napkins were engraved with "Mary and Doug."

The bride's book was attended by Edith Pierce, a cousin of the bride.

Mrs. Jacoby is at present employed in the county clerk's office in Breckenridge. She is a graduate of Breckenridge high school. Cpl. Jacoby is an instructor at Lowery AFB in Denver, Colo. He is a graduate of Ranger high school.

Out-of-town guests at the wedding were: Mr. and Mrs. Mac Jacoby, parents of the bridegroom, Clara Mae Jacoby, sister; Rev. Carl Eakin and family; Richard West and Bill Eakin of Ranger; Mrs. C. F. Whitley and Mrs. Elsie Ray of Houston.

Guests from Breckenridge included: Mr. and Mrs. N. B. Warren grandparents of the bride; Miss Eva Nell Duckworth, Mrs. L. F. Duckworth, Miss Billie Magee, Miss Barbara Collins, Mmes. ## Schedule for Services Wed.

The Officers and Teachers Meeting for the Sunday School organization of the First Baptist Church will begin the new program of extended time for departmental meetings on Wednesday night March 12, according to Wilson Guest, Sunday School Superintendent. The new program calls for the Teacher Improvement period to be handled by the various departments with each teacher in the department participating in the presentation of the different methods of teaching.

Mr. Guest states that the meeting will begin as usual at 7:00 p.m. in a General Session with all departments meeting together for the projection of certain emphases for the departmental conferences. At 7:15 the group will move to departmental conferences where reports and plans and the teachings of the lesson will be presided over by the departmental Superintendents. At 8:00 p.m. all officers and teachers will come together again in the prayer meeting room where reports from their department meetings will be given, general problems of the Sunday School will be discussed, and special prayers made for the un-saved in the school.

The prayer meeting hour, with Rev. Perkins in charge, will begin at 8:15 p.m. In addition to prayer for the coming revival, the pastor will begin a series of devotional thoughts designed as a pre-revival lesson with the emphasis on soul-winning doctrine of the New Testament. Brother Perkins stated that the presence and the prayers of the membership at the mid-week services would mean much to the effect now being made for the Soul Winning Clinic March 23-26 at which time Rev. Fred Swank of Ft. Worth would be present to lead the church to a better knowledge and deeper desire for knowledge of how to be a soul winner, and also the revival March 30 to April 13 with the pastor and Tillson Maynard of Waco leading. Brother Perkins stated that he was pleased with the increased attendance at the prayer meeting hour and urges more of the membership to come and enjoy the spiritual fellowship that is being experienced at these Wednesday evening services. You are always welcome at these services.

J. C. PENNEY RECEIVED AWARD

To commemorate his founding of the Company bearing his name, J. C. Penney was presented with a sterling silver plaque at the Company's recent convention in San Francisco. The Company, which was founded by Mr. Penney in 1902, is celebrating this year its Golden Jubilee. Above, left to right: J. C. Penney, chairman of the board; G. E. and extent of the Penney Company 1977. But he described two opportunities he sees for development and growth of the Penney Company specifically and the merchandise business generally. The first opportunity, he said, is in its present 1,825 stores. In the last six years, he said, 1,109 were enlarged or improved at a cost of more than \$73 million—all with the objective of serving customers better. "There is no limit, or ceiling, on our opportunities in our present stores," he said, "except the limit that of course applies to all businesses."

The second opportunity, he said, lies in physical expansion to serve areas not now being directly served. For instance, he pointed out, there are 872 towns and cities with populations over 7,500 not now conveniently served by Penney stores. "Undoubtedly there are many more communities with a population under 7,500 where Penney stores will be as important and as great an asset to our Company—and, we believe, to our country—as are the 700 Penney stores today in similar locations—not to mention the undeveloped potential of large metropolitan centers." He added:

"All these new areas will provide new opportunities and new jobs for thousands—not this year, or next, perhaps. But certainly they will in the next 25 years—if we serve our fellow-Americans as they want and need to be served."

Mr. Hughes said the Penney Company, like other responsible members of the business community, would continue to develop and grow in the hands of men of character and integrity who know how to "split open a problem and find opportunity." Penney managers, he said, have four responsibilities:

1. The responsibility to do better in their present jobs and thereby prepare themselves for bigger jobs.
2. The responsibility to "train men who will do better than you—if you don't, how can we count on a better company tomorrow?"
3. The responsibility to find and

**Gerany Asks For Peace Treaty For All of Germany**

By United Press  
Russia's new proposal for Big Four German peace treaty talks, made public in Moscow, is aimed at unifying and rearming Germany but barring it from the North Atlantic Pact.

The latest dispatches from the Russian capital show that the proposal made public last night would end occupation within one year after a treaty, and would outlaw foreign bases on German territory.

There has been no official reaction yet from the western Big Three, who were handed the proposal in a note delivered to their envoys in Moscow. The note running only 250 words, was one of the shortest ever to come from the Kremlin.

Among other things, the proposal would bar a revival of German militarism, but would permit Germany national land, sea and air forces and limited production of war materials. It would also hold German borders to those agreed on at Potsdam, permit unlimited development of "peaceful" economy and support Germany for UN membership.

As for barring Germany from joining the Atlantic Pact, the proposal does not mention the Atlantic Organization by name. It proposes only that Germany should not enter any pact aimed against any power that took part in defeating it in World War II. However, Russia evidently refers to the Atlantic Pact because it has repeatedly said the pact is aimed against Russia.

The note asks for the talks to begin soon.

**Cleveland Trial Is Test Case of TV-Radio In Law**

CLEVELAND March 11—(UP)—The trial of two Cleveland gamblers shapes up as a "test case"

of whether congressional investigation can force witnesses to testify before television cameras and radio microphones.

A federal grand jury indicated Morris Kleinman and Louis Rothkopf yesterday for refusing to testify under such conditions before the OW defunct Senate Crime Committee.

Kleinman and Rothkopf protested that their rights of privacy were violated by trying to force them to testify while T-V cameras and radio recorded what they had to say. But the Senate crime group brushed aside the complaints and said they had no connection with the gambler's refusal to talk. Apparently it's up to the courts to decide.

with the shortcomings of others, especially those I love; and keep me sternly watchful of my own. Let me never grow hard with the unconscious cruelty of those who measure themselves by mean standards, and so think they have excelled. Keep my eyes lifted to the highest, and so that I may be humbled, and seeing the failure of others may be forgiving, because I know how much there is of which I need to be forgiven.

And lead us not into temptation, but deliver us from evil.

Let me not go carelessly this day within the reach of any evil I cannot resist, but if in the path of duty I must go where temptation is, give me strength of spirit to meet it without fear.

For thine is the kingdom, and the power, and the glory for ever and ever. Amen.

And so in my heart may I carry the knowledge that Thy greatness is above men and around me, and that Thy grace, through Jesus Christ my master, is sufficient for all my needs. Amen.
