

33RD YEAR

SEEN OR HEARD

The banquet must have been more of a success than anyone suspected it would be before hand. Everywhere we have gone and it has been mentioned there has been nothing but praise for the way it was conducted, the food preparation and serving, the program, and the speaker of the night.

The Ranger Junior College Chorus, we are happy to say, has received some of the praise due, and overdue. Lion President Pat Thomas said that the program given by the chorus alone was well worth the attendance at the banquet. Governor Shivers stated that it was one of the best groups that he had ever had the pleasure of hearing. Everyone else was overjoyed with the singing.

Maybe it will dawn on us that we have one of the better junior colleges in the state right here at Ranger, offering the best in entertainment, and that we should attend more of these functions than we have been.

Ranger Junior College is one of the biggest, if not the biggest institution in Ranger, employing quite a number of people and affording an opportunity for some students to get a higher education than they would otherwise. Especially the home town students, and the many from out-of-town, that are financially able to attend a small college and would not be able to attend a larger one.

For years the college has been going to great expense to offer you entertainment through the facilities available at the college to all who are avail. Most of us do not take advantage of them. Their programs they present are not for the students and their parents, they are for you and I and we should take pride in the school's accomplishments and support them more than we do, not only the Fine Arts Department, but all phases of the college activities.

Would it not be a good idea for us to get acquainted with the opportunity for enjoyment and activities offered right here at home, rather than to go to great expense and loss of time going elsewhere to seek relief from boredom?

Until you have heard the Ranger Junior College Chorus present a program such as the one Tuesday night, then you are behind in your right to enjoy fine things. Make a date with yourself now to attend the next and all functions of all the schools.

Jr. Play, "Men Are Like Streetcars" To Be Presented Here Thursday At 8:00

"Men are like streetcars, if you miss one there's sure to be another along soon" or so says Maudie Mason.

Maudie is a teen-age girl, the erstwhile heroine of "Men Are Like Street Cars," the play to be presented at 8 p.m. March 20 in the Recreation Building by the Junior Class of Ranger High School.

The plot of the play centers around Maudie and her problems with her family and friends. She knows all about life, from personal observation and is, at least her own opinion, more than qualified to solve the problems of the entire neighborhood.

But before she's through giving advice she brings about utter confusion, comes close to ruining her father's business, nearly causes neighborhood social crisis and almost loses her boy friend.

"Maudie is a very real young girl, just growing up and getting the feel of how important she is and her brain is sometimes kept working over time in the solution of her own boy-problems and those of her sister and friends.

Her philosophy of getting and holding her man is sometimes overpowering but doesn't solve anything and she learns, almost too late, that she can do better by just being herself and not using a line.

Maudie's troubles and those of her friends are full of laughs, and fun.

New Sandstorm Due For Texas

The weatherman warned today that the week's second sandstorm is building up over West Texas, and practically before Mrs. Texas got the dust knocked off her piano on Wednesday's dust, U. S. Weather Bureau forecast said strong new eastbound winds are bearing down on the state.

The blow already is in embryo over the western counties. By tomorrow all of Texas will have seen more dust, although it will be less severe than earlier in the week.

The new dust weathermen said, will be the only noteworthy effect of a cold front. There will be no moisture or major temperature change.

Meanwhile, wandering topsail from the earlier storm remains a nuisance over several areas. The dust is sifting down today over Houston, Victoria, Palacios, Cotulla and San Antonio.

Prisoners Riot In Jail Quited With Tear Gas

HOUSTON, March 14 (UP)—The Harris county jail at Houston is reported "peaceful and quiet" today following last night's shrieking, window-breaking riot by 29 prisoners.

The demonstration was quelled only after deputies pumped six tear gas shells into one block, and Sheriff C. V. (Buster) Kern came to the jail to talk personally with the rioters. The red-eyed prisoners had wrapped blankets over their heads as makeshift protection against the tear gas.

Before the revolt was quelled they smashed numerous window panes, ripped a lavatory from the wall and hurled pieces of broken plumbing at jailers attempting to enter their cell block.

Kern says today he talked to the men in groups of five and that most complained of solitary confinement meted out to 18-year-old Don Tracy (Bucky) Cook for fighting with another prisoner yesterday.

The crash occurred at a crossing five miles east of Harlingen on the recently opened Fort Harlingen Road at 1:46 a. m. Highway Patrolman Vernon Wyatt says the men were racing the two cars when the lead automobile collided with the train at high speed. The other car, Wyatt says, "followed him right on in."

The Highway Patrolman says James and Mack Noolen were killed instantly. Billy Earl Noolen died two hours later at Harlingen's Valley Baptist Hospital.

Their parents are Mr. and Mrs. J. Ernest Noolen who for years have operated a Boy Scout Camp at Rio Hondo.

Cattle Raisers Are To Meet In Fort Worth, March 17-19

FORT WORTH.—For the 75th time cattlemen will gather for the annual convention of the Texas and Southwestern Cattle Raisers Association to be held here March 17-19.

The site of the 75th convention will be in modern Hotel Texas in contrast to the first meeting of the organization held under a large oak tree in the frontier village of Graham, Texas in February of 1877.

Since it's initial meeting the organization has grown from a handful of cattlemen in Northwest Texas to a membership of more than 10,000 in 16 states and has become the nation's largest association of cowmen, representing the ownership of more than three and a half million cattle.

The basic creed written the day the Association was organized has never been altered: "The members of this association shall work together for the good and common interest of all stock raisers, and do all within their power for the promotion of the stock interests."

The Association was formed during the era of the open range, and many of its early activities centered around the organization of the round-ups, trail drives and protection against theft. Today 29 full-time inspectors are employed to give protection service to members and market inspectors are on hand to check brands and ownership of cattle at every major market in the Southwest.

A new speaker announced by president Ray W. Wiloughby of San Angelo is Marvin Jones, chief Justice, United States Court of Claims, Jones was born in Cooke County, Texas and is a graduate of the University of Texas law school. He practiced law in the Panhandle of Texas and was elected to Congress from the 18th Congressional District in 1916. He served 20 years on the House Committee on Agriculture and was its chairman from 1931 to 1940. He became chief judge of the Court of Claims in 1947.

Speakers previously announced are Gov. Allan Shivers of Texas; Lt. Gen. Robert Wells Harper, commanding general of the Air Training Command with headquarters at Scott Air Force Base, Ill.; Lt. Jarvis, executive vice-president and director of Swift and Company, Chicago and Harold Cooley, member of Congress from North Carolina and chairman of the House Committee on Agriculture.

A full program of entertainment has been arranged beginning with a dance in the lobby of Hotel Texas, Monday, March 17th. The association has issued a cordial invitation to all cattlemen, regardless of Association membership, to attend business sessions of the convention.

New York-Chicago Collectors Will Be The First Out

By United Press Secretary of the Treasury John Snyder has announced the first step he's going to take in his re-organization of the Internal Revenue Department.

Snyder says the Internal Revenue Collectors' offices in New York and Chicago will be replaced next month.

The reform plan—which was approved by Congress yesterday—abolishes the offices of 64 tax collectors and 14 district supervisors. Those politically-appointed jobs will be put under civil service and all operating functions of the Federal Tax Service will be placed in 21 to 25 district offices.

Snyder says a non-political district commissioner will take charge of all federal tax operations in each of the two cities named today. In addition New York will have three deputy commissioners and the Chicago commissioner will have one. The Treasury secretary says the new district commissioners and deputies haven't been selected, but in any event they will have to qualify under civil service regulations.

House tax scandal investigators have subpoenaed more New Yorkers for questioning about their financial affairs. Members of a House Ways and Means sub-committee are trying to show that some tax collection employees accumulated considerable sums of money despite their comparatively small government salaries.

The case of a former tax collector is scheduled to go to federal jury at St. Louis today. James Finnegan—former collector of internal revenue at St. Louis—is charged with bribery and misconduct in office.

A former treasury official says congress is to blame for inflated prices. Former under-secretary of the treasury A. L. M. Higgins—in testimony prepared for a joint congressional committee—says it's hard to stabilize our economy when congress appropriates more money for federal spending than it provides in taxes.

all possible. Sgt. Saint worked at White Sands Proving Grounds for two years and left Ranger, January 8th for his overseas assignment.

Right here we want to mention our dear little community octogenarian, ... what a title for such a small person ... Aunt Eva Underwood as she is called by old and young alike.

Despite her 80-odd years and eyesight which has failed until she can no longer read her Bible or the daily newspaper, yet she is cheerful and eager to have folks visit her. She is always among the first ones to contribute to Red Cross and other worthy causes and is a shining example to us, who are able to see and work at our varied tasks.

A resident of Alameda these many years, the widow of the late E. R. Underwood and a member of the Alameda Church of Christ, are justly proud to claim her as our community person of the week.

A delightful visit with the F. T. Caudie family was the result of one of Monday's calls for the Red Cross drive. These parents are still sad over the loss of their son, Forest Dwayne Caudie, in Japan, whose body was brought back for burial at Merryman Cemetery.

Mrs. Caudie showed us the loveliest 90 piece set of China dinner ware which Dwayne sent her, also a host of snapshots, one we will mention, of the huge Ernie Pyle Theatre in Tokyo.

Mr. and Mrs. Frank Potocz visited near Staff Monday, with Mrs. Blanche Sims.

Mr. Henry Iley became ill on Friday morning at his home, near Grandview. The nature of the illness has not been determined at this reporting, but the son, Glenn and family were called from Fort Worth.

Mrs. Electra Hattox visited in the John Tucker home Sunday. Mrs. Eva and Mrs. Della Underwood visited there earlier in the week.

IT'S THE LAW in Texas
A public service feature of the Daily Star of Texas

NOT TOO LATE TO SAVE ON 1951 INCOME TAX, BAR SAYS
Waiting until the last minute to file your 1951 Income Tax return? Even if you have already filed, some tax savings may be possible. While there are few bright spots in the tax picture for the average taxpayer, lawyers say that some lucky individuals may be able to take advantage of certain relaxed provisions of the 1951 Revenue Act. For example you may now claim and exemption of your account whose gross income during the year was any amount less than \$400. Previously, an income of \$500 or more by the dependent barred your claim for exemption on his account.

If you sold your home during 1951, you may avoid being taxed or any profit made in the transaction by purchasing and occupying a new home within one year. The new residence must cost as much or more than the sales price of the old one. However, you may include notes and other liabilities forming part of the consideration in figuring the cost of your new home.

Suppose you bought a home in 1945 for \$5000, and sold it on July 1, 1951, for \$8500, making a profit of \$3500. If you buy and move into a new home not later than June 30, 1952, costing as much as \$8500, no tax will be due on your \$3500 profit. This is true even though you may pay only \$500 or less as a downpayment on the new home and the balance of the purchase price is represented by a note and mortgage.

However, the Bureau wants a record of your transactions, even though no tax is due. If you have already repurchased, both your sale and your purchase should be shown on separate Schedule D and attached to your tax return. If you have not bought your new home as yet, but expect to do so before the one year limit runs out, report the 1951 sale on Schedule D anyway. But enter the word "None" in the Gain or loss column and add a short explanation that you expect to purchase or rebuild.

Another new feature which may save taxes for some people is the removal of one limitation on medical expenses without reference persons over 65. They are no longer limited to the excess over and above 5 per cent, unless their husband or wife happens to be 65 or older. In the event, both

husband and wife may deduct medical expenses without reference to the amount of adjusted gross income. However the general limitation of \$1250 per individual still applies in all cases.

If you have passed up any of these savings, an amended return may pay dividends.

The new Self Employment Tax is causing extra tax return headaches for some people this year. If you had net earnings of \$400 or more derived from a trade or business which you conducted during 1951 as a sole proprietor or as a partner, this new tax may apply to you. Public officials, railroad workers, ministers and various professional people are excluded from the application of this tax, as are non-resident aliens.

Similarly, income derived from farming, interest and dividends from securities, and gains and losses resulting from a sale or exchange of capital assets are excluded. Rentals from real property are excluded except in the case of a real estate broker.

This new tax covers many people newly added to the list of those covered by the Social Security Act, and is imposed to help finance the benefits they may later receive. If you are liable for the Self Employment Tax, you should obtain separate Schedule C and file with your regular tax return.

Applying in many instances where no regular income tax is due, this tax will also force some people to file returns even though their gross income is less than \$400 would not otherwise require a filing. Suppose you operated a very small business grossed only \$500 in 1951. Under the old law, no return would be required. However, under the 1951 act, the Self Employment Tax is carried from Schedule C to Form 1040 and collected as a part of your total income tax liability. If your net income from this small business was \$401, you would be required to file a completed 1040 return along with Schedule C in order to comply with the law.

(This column, based on Federal law, is written to inform—not to advise. No person should ever apply or interpret any law without the aid of an attorney who knows the facts, because the facts may change the application of the law.)

Blouses At Their Prettiest Dramatize Newest Skirt Line

The fashion story for Spring is a story of blooming colors—fascinating fabrics and lines as curved and feminine as an hourglass. It is also a story told in two parts—the blouse—the skirt.

The Gibson Girl look year receives its biggest boost from the pretty blouse—tucked bosom—leg sloutton sleeves caught in a tight band—white collars and big taffeta bows. Nowhere prettier than in candy-striped pique—embossed cottons or white linen.

To be springlike in feeling, your blouse must be either completely feminine, with full sleeves, small collars, dainty lingerie touches at throat and wrist or a mere promise of a blouse.

The wide, wide skirts makes the slim sheath both dramatic and practical. The narrow look—achieved by sleeveless shirts—knitted tight sweaters—silk tubes—is fashionably right to emphasize the swirling skirts.

Blouses At Their Prettiest Dramatize Newest Skirt Line

Spring fabrics are particularly luscious this year in both texture and color. Silks are iridescent and soft as a bird's wing—or nubby and highlighted with frosty effects.

Tissue chambray comes as a Spring tonic in lilac, rose-red and swedgewood blue. Cottons are gaily striped—flower—sprinkled—or overlaid with heavy braid. White sheers are lace—spanking fresh as a new day. Whether to be feminine or tailored, the choice is yours—whatever you choose, fashion has the design for you!
