

RISING TEMPERATURE

SEEN OR HEARD

We see where some of the fine citizens of Great Britain are in the states, telling us that we should apply more posterior pressure on our kids, as their behavior is something terrible.

About the last thing I would do if, I were depending on someone for my daily bread, would go tell them their kids are a bunch of little monsters, and we should spank them more often.

We would give a plugged nickel to get this character from England and Dr. Boswell together to argue the merits of to spank or not to spank our offspring.

Dr. Boswell is very emphatic in his dislike of corporal punishment for the kiddie. He says the only reason we apply external pressure to their posterior is that we are bigger than they are. According to his views we should use words before blows, which may not be a bad idea.

When you start using psychology on your kids they start coming up with something the book forgot, and then you will lose your composure at your own shortcoming and start applying the rod and as the ease may be, either save or spoil the child.

We may be doing wrong, but the least our English neighbors could do is stay home and spend our money—not use it to come here and tell us how to run our business. We seem to have things a little better organized than they have right now.

Parker Funeral Is Held Today

Funeral services for P. L. Parker, 78, who passed away at his home in Eastland early Tuesday, were conducted from the Eastland First Baptist Church at 3:00 p.m. Wednesday, April 16, with pastor C. Melvin Ratheal in charge. He was assisted by Rev. H. J. Starnes of Weatherford, a former pastor.

Mr. Parker was born in Arkansas, but came to Texas with his parents at an early age. The family settled in De Leon. Later Mr. Parker moved to Gorman, and he was for years connected with the Higginbothams in that city.

He has resided in Eastland for many years, and was at one time Tax Assessor of Eastland County. He took an active part in local politics, and it was only last week he sent in his resignation as a member of the County Democratic Executive Committee.

Mr. Parker was a Christian gentleman, a member of the First Baptist Church, and a deacon. He was active in Masonic circles, and in 1930 was awarded a 50-year pin at a special ceremony here. There were some 300 Masons present for the occasion, many of them visitors from out of the county.

Mr. Parker operated a flower shop in Eastland for many years. Survivors include his wife, Mrs. P. L. Parker; two sons, Don and Guy Parker of Eastland, and a daughter, Mrs. Walter Durham of Comanche, Texas. Also a brother, Richard Parker of Hereford, Texas, and four grandchildren, as well as a host of other relatives and friends.

Funeral services were held at 3 p.m. at the funeral home of Carl Johnson, D. L. Kinaird, Virgil Love, Paul McFarland, Harry Wood, Russell Hill and W. B. Harris.

Truman Views Flood Damage

Former Deputy Sheriff, Slayer Commits Suicide

HUNTSVILLE, April 16 (UP)—A deputy sheriff who was convicted of slaying a crusading radio-newspaperman hanged himself from his bunk at Texas State Penitentiary.

The body of 63-year-old Sam Smithwick, who was sentenced to life imprisonment for the sensational 1949 murder, was found shortly before midnight.

The former Jim Wells County sheriff's deputy was convicted December 12th 1950 at Belton, of the July 29th 1949 slaying of William Hayward "Bill" Mason.

Mason, a nationally-known public relations expert and veteran newspaperman before he turned radio broadcaster, was shot to death as he sat in a parked automobile.

Mason had charged on Station KHKI at Alice a day before his death that Smithwick knew "what was going on" at the Rancho Alegre, an outlying night club, that the deputy was the owner of the last dance establishment, and that prostitutes were permitted freely to ply their trade, "to take from the men of Alice money which should go to the families of these men."

Korean Truce Workers Talk Little Or None

KOREA, April 16 (UP)—Talks on peacemaking a Korean armistice have settled down to daily streamlined meetings lasting less than one minute. But there's a growing belief that the recessed be resumed soon and reach a show talk on exchanging prisoners will dawn.

The enemy is waiting only for the UN's top negotiator, Vice Admiral C. Turner Joy, to give his go-ahead.

President And Congressmen Fly Over Flood Site

By United Press

President Truman is flying over the heart of the midwestern flood country to see for himself the damage inflicted by the rampaging Missouri and Mississippi Rivers.

The president took off from Washington this morning with a group of congressmen in his plane. He'll fly over parts of Illinois, Wisconsin, Iowa and Nebraska before putting down at Offutt Air Force Base near Omaha. There he'll confer with the governors of seven midwestern states, discuss with them what the federal government can do to meet emergency needs.

Mr. Truman will fly back to Washington after the conference which probably will last a couple of hours.

The churning waters of the Missouri River swept past Omaha and Council Bluffs, Ia., across the river, at more than 25 feet this morning, the highest point in history. And the river is rising toward a predicted crest of more than 33 feet at the two cities tomorrow. More than 8000 levee workers are building up dikes to hold back the water from the practically deserted towns. They're hopeful the levees will hold.

One of the flood victims, Mrs. Nona Pool, who lives on a farm near Blencoe, Ia., tells what it's like to leave your home and possessions behind. She said the road leading out from her farm was too muddy to take the livestock over, so she and her family stayed out. But the river drove them out anyway.

As the water spread, they took to the upper floor, with about 200 little chickens. A government boat came along and the Pool family was loaded in.

Mrs. Pool said, "I couldn't help it. When we pulled away from the farm I cried, there wasn't an inch of ground sticking out anywhere."

The Pool's have been given refuge in a bank building in Mapleton, Ia. They each have an army cot.

"That's all we've got now," said Mrs. Pool, "but we'll go back, I guess."

In Minnesota, three rivers are surging south at record heights. The Mississippi is hurtling toward St. Paul at a history-making crest and also threatens to pour over one-third of Winona, Minn. In addition, the Red River of the north and the Minnesota River are pounding at cities in North Dakota and Minnesota.

You never realize you know so little until you have to start answering questions.

We have tried as best we know how, without leaving any false impressions, to answer any and all questions about the forthcoming bond issue vote and how in turn the money will be used to help us.

We have taken the word of attorney Jack Frost of Eastland when he said that everything was on the square about this dam. Jack is known to be very conservative and not to endorse anything unless the odds are 999 to 1 in favor of success.

The other members of the board are well known for their fairness and civic duties. Each of them is doing his best to see that our future takes on a rosy hue by having an adequate water supply.

We think that you will be making the wisest move you could make by voting for the water bond issue, which in turn will provide funds for a dam.

C. E. Pruet, Felton Brashier, Wilson Guest, Dr. P. M. Kaykendall, or any other members of the board of directors of this district are eager and willing to answer any and all questions that may arise.

If you don't have the time just ask us, and we will see if we can't find out what you want to know.

As far as is known there are no new developments in the Ranger rate case. Judge Davenport will rule later. As of yesterday there was no sign of the two parties getting together and trying to work out the settlement the judge recommended.

Xavier Cugat To Be In Abilene At H-SU April 21

ABILENE, Xavier Cugat, the concert star and violin virtuoso who has popularized the folk music of the Latin-American republics, will bring his orchestra to Abilene Monday night, April 21. The concert will be presented by Hardin-Simmons University as a part of the artist course program. It has been announced by Tom Guimarin, chairman. The show will be given in Rose Field House.

Cugat will bring a strong supporting cast with him, including singer Abbe Lane, ventriloquist Eddie Carson and "Chico Chico" and Los Barrancos, a mambo team.

Cugat's band is a curious mixture of Cuban gourd shaking, Latin American romance and American brass. He entwines these factors into a fast moving musical show with a solid beat as will be found in most jive bands.

In the center of the swirl of rhumba, maracas shaker and violin players, Cugat is a hub around whom revolves all the fun and merriment of a fiesta.

Musical such as "Begin the Beguine," written for Cugat by Cole Porter and Cugat's own "Take It Easy" is part of the particular tempo and style. The Cugat organization is always working in a new interpretation of musical ideas that bring a fresh appeal.

Los Barrancos, effortlessly graceful dancers of the mambo and the rhumba, have been described as one of the best teams on the theater stage.

While famous mostly for their Latin-American dance interpretations, Los Barrancos also have in their repertoire spectacular numbers which highlight the folk songs of many nations.

Entire State Needs Moisture; Warm Dry Weather Is Forecast

The Weather Story today shows the Panhandle, West Texas and Lower Rio Grande Valley needing more rain to insure the promise of crops this year. State Agriculture Commissioner John White says farmers in the Rio Grande Valley are "just gambling" on early rains. He says every stalk of the estimated 425 thousand acres of cotton already up is in jeopardy.

In the Texas Panhandle and South Plains area, the picture is even more bleak. Only irrigated lands are showing any promise of good production. The rest is powder dry and heavy winds are acting as predators in taking their toll of the valuable topsoil.

White says the Coastal Bend Region has received enough moisture to plant but needs more rain to condition the subsoil. And general rains will be needed in Central Texas in three or four weeks, the commissioner adds.

Today, Warm, Dry Weather is prevailing over the state with no dust or threatening frontal systems. Weather experts say temperatures should be in the 70's and 80's over all the state during this afternoon. Yesterday's highest reading was 94 degrees at Presidio, making it the warmest spot in the nation. The lowest maximum was at Galveston where it was never warmer than 67 degrees.

Early morning lows today vary from 44 at Lufkin and Texarkana to 64 degrees at Laredo. And 24 hour reports show no rainfall in the state, a situation spotlighting the critical drought conditions in West Texas.

Four Battles Flare In Korea

By United Press

Four engagements flared today on the Korean western front. In one action, some 75 Red soldiers, backed by mortars and artillery, drove back an Allied advance position after a 25-minute clash.

Later the Allies repulsed an enemy probe in this area. In other engagements, Allied soldiers killed 31 Communists at 300 who tried to storm an Allied held position.

An enemy platoon and a two-squad unit attacking UN positions west of Munsan were beaten off.

H-SU Will Add More Seats For Coming Rodeo

ABILENE.—Three thousand new seats will soon be installed in Hardin-Simmons University's Carl Myers Rodeo Arena, E. W. Ledbetter, business manager, has announced.

The new seats will be installed in time for the school's Sixth Annual Intercollegiate Rodeo to be held April 24-26.

The seats are being donated by friends of Hardin-Simmons, Ledbetter said.

Because of the growing interest in the intercollegiate rodeo, Ledbetter said that more seats would be needed for this year's rodeo, which is expected to have the largest number of entries in the history of the event.

More interest is being shown in rodeos and horseback riding and in the future, Hardin-Simmons plans to make the rodeo site and the riding school, located on 2600 Grape Street, more attractive, Ledbetter said.

Hardin-Simmons is the home arena for three of the officers in the National Intercollegiate Rodeo Association for 1952. They are Bill Guest, president, Eldon Dudley, vice-president, and Joe Chase, regional director.

Senator Lodge Says Ike Is In

DALLAS, Apr. 16 (UP)—Senator Henry Cabot Lodge, Jr., says that "after New Jersey" nothing can stop General Eisenhower's drive toward the Republican presidential nomination. Yesterday's preferential primary in New Jersey gave Eisenhower 60 per cent of the Republican vote against 37 percent for Senator Robert A. Taft of Ohio. It virtually assured Eisenhower of 32 of New Jersey's 28 Republican convention delegates.

The Massachusetts Senator, in Dallas to confer with Texas Republican leaders, says the primary gives Ike backers the inspiration to work from coast to coast to insure his nomination.

Paris Robbery Nets \$74,000 In Gold Bullion

PARIS, April 15, (UP)—Four bandits operating in brilliant sunshine staged a 74-thousand dollar robbery in the heart of Paris today.

They caught police and pedestrians by surprise.

Some passersby thought at first that it was an advertising stunt for a British Movie, in which a similar holdup occurred. But it was the real thing.

Four gunmen in an inconspicuous car on a main boulevard drove up along side an armored truck which was carrying gold bullion from a bank to various currency dealers. They forced the truck to the curb. One man covered the driver with a tommy gun and the others jumped inside and transferred about 100 pounds of gold into another auto.

236 Fines Paid In March To State

AUSTIN—The director of Law Enforcement for the Texas Game & Fish Commission reported the March arrest report comprised 236 cases and \$5377.42 in fines and court costs.

This compares with 314 cases and \$5743.97 for February and 220 cases and \$5055.05 for March of last year.

The director said there were 11 arrests for headlighting animals, five for hunting deer at night and two for killing deer in closed season.

Nine persons were charged with shooting ducks during the closed season.

Wardens arrested 26 persons for failing to have residence fishing licenses.

Courts were particularly harsh on illegal hunters. Two Corpus Christi men were fined \$200 each for killing a doe deer. Two San Antonio men were assessed \$150 each for headlighting deer.

Pollution cases brought heavy fines, including one of \$200 levied against a coastal ship captain. Two Houston men were fined \$25 each for using an illegal fish trap.

An El Paso man paid \$25 for importing quail from Mexico without a permit.

A Wichita Falls resident was fined \$50 for hunting quail out of season.

An Austin man was assessed \$50 for shooting a wild duck in closed season.

Small Children Susceptible TB

AUSTIN—Speaking of the susceptibility of children to tuberculosis, Dr. Geo. W. Cox, State Health Officer, said today that few people realize that babies and young children are very likely to become infected with tuberculosis if they are kept in rooms with persons who have the disease, use the same dishes, sleep in the same beds, or are handled and kissed by persons who have tuberculosis.

"Babies and young children pick up the germs of tuberculosis just as readily as they pick up the germs of measles or whooping cough, or of any other of the so-called children's diseases," Dr. Cox said. "But tuberculosis unlike most diseases, has more than one form. Babies who get tuberculosis may not show the symptoms we associate with the disease in older persons. But the disease in most cases develops rapidly and is likely to end fatally. Tuberculosis in babies and young children is a very serious matter, although recent studies have shown that if young children are removed promptly from contact with the disease and given the necessary care, many lives can be saved."

Dr. Cox said that if the presence of tuberculosis is recognized in its early stages and if medical attention is secured promptly, a great deal can be accomplished, whether in young or old.

"Tuberculosis doesn't just simply happen. Nobody is born with the disease. Everybody who develops tuberculosis gets it from some other source, and children and young people who have been in contact with persons having tuberculosis are especially likely to contract it."

WSCS Held The First Of Five Studies On The Family Monday

The Woman's Society of Christian Service of the First Methodist Church met Monday, April 14, at 3:30 for the first of five consecutive studies on the missionary text "The Family, a Christian's Concern." Mrs. Vernon Deffebach, promotional secretary, will be in charge of the study.

Three main thoughts for discussion Monday were "if one plants for only one year, he plants grain, if one plants for ten years, he plants a tree; but if one plants for life, he plants men. For a nation is no stronger than its homes."

A discussion "When the Light Flickers" was brought by Mrs. Arthur Deffebach.

Some main attributes of a truly Christian home were given as "Decide what are the values in that home, how do you intend to retain those values? family prayer, definite affiliation with some church; try as parents to live in the same phase as children; bring love and honor into the home; nothing is more outstanding in the world than a real Christian home. These are the bases for a new world that we dream of."

Mrs. Price Crawley read the ceremony for the dedication of a Christian home.

Infant Baptismal Held Easter At Methodist Church

By Garland Lavender
Pastor Methodist Church

One of the most beautiful services of the Methodist Church is the baptizing of young children and infants. Such a service is especially appropriate on Easter Sunday. Those who have babies in the Methodist Church look forward to the time when they, as parents, bring their little ones to the altar of the church for Christian baptism.

The following parents presented their children at the altar of the Methodist church on Easter Sunday, and in turn, assumed the vow to train, teach, and instruct these children in the Christian faith.

Larry Dale Butler, son of Mr. and Mrs. Nolan Butler; Deborah Ann Flumley, daughter of Mr. and Mrs. Bob Flumley; Gerald Donald Phillips, son of Mr. and Mrs. Jimmie Phillips; Linda Cathy Lavender, daughter of Mr. and Mrs. Wallace Lavender; Jean Ann and James Lee Dixon, twin son and daughter of Mr. and Mrs. Gaston Dixon; Nina Lynn Wright, daughter of Mr. and Mrs. George Wright.

The water used in the baptismal ceremony was taken from the River Jordan by the officiating minister while on a visit to that country during the war. White leather covered New Testaments and certificates of baptism were presented to the parents of these children.

Your Problems are our Business—

... or somebody's business depending on the nature of the problem. Most problems are not a disgrace nor a reflection on one's character, but a natural consequence of activity and growth. For example, if one owns or deals in real estate he is sure to have title problems sooner or later. While the abstract may or may not solve all title problems, within our knowledge it has saved our customers thousands of dollars and it's value cannot be estimated in dollars and cents.

KEMMERER, WYO., WAS SCENE OF FIRST PENNEY'S Believing Golden Rule principles should be applied in business as well as personal life, J. C. Penney called his first store "The Golden Rule" in Kemmerer, Wyoming, as it appeared in the early 1900's. From a single store eventually grew the largest department store chain in the world, with total sales last year of more than one billion dollars.

Penney's Golden Jubilee To Open Here Thursday

Mr. John L. Smith, manager of J. C. Penney Company, announced today the formal opening tomorrow of the Company's Golden Jubilee.

"This is a great occasion for us, a time for celebration," said Mr. Smith. "In just 50 years this Company has grown from a single, tiny store in Southwestern Wyoming to a great retail merchandising organization—the largest of its kind in the world—with more than 1,600 stores and 70,000 associates serving nearly 40 million people.

"That's a monumental achievement in which all of us can take pride. For where else, but in our own United States of America, could such an achievement be possible? In the words inscribed on our medallion, the Penney Company has grown—is growing—with this Nation.

"Ours is a success story, not of one man alone but of many men. Early in his career our founder, Mr. J. C. Penney, realized that he became known as the "man with a thousand partners"—and thereby pioneered a profit-sharing idea which contributed much to the Company's success.

"Thoughtful consideration for our customers, associates, suppliers and stockholders always has been a Penney Company objective, also stressed have been value and quality—a fact which led eventually to establishment of a research and testing laboratory to make sure Penney merchandise standards would be consistently met and maintained.

"Today the Company has a staff of 294 buyers, highly trained and alert to people's needs, combing the merchandise markets of the world. All are specialists, in fields ranging from women's fashions to boys' jeans; from blankets to work shoes; from business to infantile wear. And all have the responsibility and determination to see that Penney Stores have the merchandise people need at prices they can afford to pay.

"As our Jubilee gets underway we believe our customers will benefit more than ever by the great values that have been planned for them. All the accumulated experience and "know-how" of 50 years of successful merchandising have been brought into play to see that for our customers, as well as ourselves, this will truly be a "golden year."

Forever Faithful
JACKSONVILLE, Fla. UP—A little black and tan dog left near the Jacksonville Humane Society's roof home for animals, refused to take advantage of the hospitality offered. He wouldn't budge from his spot along the roadside and wouldn't let anyone come near him. He sat there watching the cars go by, looking for his master.

Wife Broods
HASTINGS, Neb. UP—A Hastings farmer returned home from a visit to town to find his wife sitting in the brooder house with the chickens. The farmer had forgotten to order fuel oil for their home furnace and a cold snap had set in.
