

RANGER DAILY TIMES

West Texas—Partly Cloudy through Saturday with widely scattered afternoon and evening thundershowers. Not much change in temperatures.

34TH YEAR

RANGER, TEXAS, FRIDAY, AUGUST 8, 1952

PRICE FIVE CENTS No. 49

SEEN OR HEARD

don norris
Congressman Omar Burleson was in Ranger yesterday afternoon on his way to a barbecue at Pecos Kingdom Lake. Burleson was short of time but managed to visit a number of his many friends and acquaintances in Ranger before departing.

He seemed pleased over his close victory in the past congressional race with the limited amount of campaigning he was able to do before election time.

That one race caused about as much excitement as any in this past primary, all over the district, with the many angles entering in to it.

We congratulate Mr. Burleson on his re-election.

Slightly over a week all good Democrats and dishonest republicans will go to the polls and vote again. In Ranger there will be six places on the ballot.

We will vote on one justice of the supreme court, Congressman at large, state representative, County Clerk, County treasurer, and constable. Two of these races there is only one name entered, that of justice and representative. The others you will have a choice.

Tonight at eight o'clock the volunteer firemen and guest will partake of barbecue at the fire station. This is an annual affair with the smoke eaters and one they look forward to all the year.

We urge that everyone be very careful tonight after eight and have no fires. 'T would be a dirty shame' if the firemen got a call just as they were about to consume a tasty dish of barbecued beef.

We can see them fighting a fire with a plate of eats in one hand and a fire hose in the other, occasionally warning their fare over the fire they are fighting.

Be careful tonight and give these men who fight your mistakes free of charge a chance to eat in smokeless air.

Dr. Boswell told the Lions of the proposed CAP unit the college is in the process of getting for air minded students this fall.

This will be a welcome addition to the curriculum of the college to many of the students. And we believe the only junior college in this area to have one.

Coach Dick Henderson is in Denver attending a workshop to catch up on the latest wrinkles of the program to convey to the entrants.

The program will be formerly inaugurated at a later date.

One local character, A. J. Lenzi, asked us where we get "all that bull" each day. That was a good question and if I find out he and I both will learn something.

We were astounded at his ability to interpret these markings placed upon this paper and bring to light such a question. He is due more credit than we had heretofore been acknowledging him.

We're going to have a strained neck if it doesn't rain or clear up from watching the sky for the next development.

We are possibly not alone in our skywatching as there are a few other people around here who would like to see it rain. Other than those who work outdoors and want a day's rest.

It has been so long since we've seen a slow falling two or three day rain that we would have to consult some older persons as to what it was.

We see where our high school grid mentor will be the holder of another degree of learning this fall. He will get a masters degree from Hardin-Simmons this month. His added degree probably will not enlighten him any further in gridiron strategy, but will assure him of a job should he ever retire from the coaching profession.

We think that our two high school coaches have done as much as any coach in the country could do with the material they have in winning district the past three years. And we hope the chain goes unbroken this year.

BEWILDERED — Stunned at deportation order, Carl A. Latvja sits bewildered in his Wendell, N. H. home after hearing a federal court ruling ordering him deported to his native Finland. Latvja, who came to America at the age of 14, allegedly became a member of the communist party when he "unknowingly" paid ninety cents in dues in 1934. (NEA Telephoto).

Ranger Students Will Get Degree, Hardin-Simmons

ABILENE, Aug. 8 (Sp.) — Three persons from the Ranger area will be among the 225 students who will receive degrees from Hardin-Simmons University during the sixtieth annual summer commencement exercises, Aug. 24-25.

They are Onis Warden, Robert S. Falch and Mary Joy Wilson. Miss Wilson, daughter of Mr. and Mrs. R. C. Wilson, will receive the master of arts degree. Balch, the son of Mr. and Mrs. R. S. Balch will receive the bachelor of business administration degree. He was a member of the Letterman's club. Warden, son of Mrs. E. E. Warden will receive the master of education degree.

Baccalaureate speaker will be the Rev. L. D. Ball, pastor of the Lamesa First Baptist Church. Commencement speaker will be Dr. John W. Inzer, Sylvania, Ala., Southern Baptist evangelist and past national chaplain of the American Legion.

Degrees will be conferred by Dr. Rupert N. Richardson, president of the university. Baccalaureate services will be held in the evening in Parramore stadium on the campus.

Three Ranger Men At Base Project Meet

Calvin Brown, Buck Wallace and R. V. Galloway were the only three from Ranger attending the buffet supper that opened the community service project for Watters Air Force Base last night.

Base Commander P. G. Kemp delivered a welcoming address to the guests from sixteen surrounding towns at the supper. Mr. Ray Morrison also addressed the group of the project and how it could be worked out. Maj. Frank Nicolai, who is a key figure at the base in the program also made a short talk to the visitors.

Manager R. V. Galloway of the Chamber of Commerce told the base officers that the recreational facilities of Ranger were open to any and all of the base personnel who had desires of doing so.

Firemen Will Have Barbecue Tonite At 8:00

The annual Volunteer Firemen's Barbecue will be held tonight at the Fire Station for members of the department and their families, city employees and their families, and guests of the firemen.

The menu calls for beef barbecue with all the trimmings. The affair is scheduled to start at eight o'clock.

BULGARIAN REDS OUSTED FROM GREEK OWNED ISLE

By GEORGE ANDKOULIDAKES
ATHENS, Greece, Aug. 8 (UP)—The Greek army warned Bulgarian forces massed across the Evros river Friday that Greek troops will fire on them without warning if they try again to seize the disputed border island of Gamma.

The Greeks drove off Bulgarian Reds who had occupied the island July 23 with a concentrated mortar bombardment Thursday. There were unconfirmed reports the Bulgarians returned the fire as they fell back to the north bank of the Evros.

The Greek general staff lacked up its warning to Bulgaria against any renewed attempt to take Gamma by sending large infantry forces, along with artillery, tanks and planes, to the scene.

Inhabitants Move Out
Inhabitants of the Greek village of Dikhaia, opposite Gamma, began moving into the interior Thursday night to give the Greek army plenty of room to maneuver should there be any armed clash with the Bulgarians. The Greeks described the evacuation as "preventive."

Loud speakers carried across the river the general staff's warning that the Bulgarians would be fired upon if they persisted in their efforts to occupy Gamma.

Although they insisted Gamma historically is Greek, the Greeks said they would not attempt to occupy the island until the UN Peace

Texas Leading Nation's Polio Toll For Year

NEW YORK, Aug. 8 (UP)—Texas led the nation Friday in the number of polio cases reported this year as the country's overall figure fell only 21 cases short of the record high set in 1949.

The National Foundation for Infantile Paralysis said 10,697 persons already had been stricken in 1952. Approximately 25 per cent of the victims have been paralyzed by bulbar polio.

A foundation analysis showed Texas was hit hardest with 30.8 per 100,000 persons infected. Other states showed: Iowa, 28.1; Nebraska, 22.8; New Mexico, 20.1; Louisiana, 17.6; Mississippi, 16.3; Oklahoma, 15.3; Kansas, 12.1; South Dakota, 11.3 and Idaho, 10.7.

B-36 Bombers Return From Mock Bombing

FORT WORTH, Aug. 8 (UP)—New York and Philadelphia were in simulated ruins Friday following a mass air raid by 35 giant B-36 Superbombers.

Two squadrons of the planes, minus one ship, returned to Carswell Air Force Base Thursday night after raiding the two eastern cities.

One plane, short on fuel after encountering strong headwinds, landed at Hensley Air Force Base near Dallas.

The planes left Fort Worth on their practice missions. The last ship landed at Carswell AFB shortly after 9 p.m. Thursday.

The attack on New York was made shortly after noon Thursday.

West Coast Commies Get Maximum Penalty

ANODE GLOWS?—Physicist Noel W. Scott believes the flying "things" people have been seeing may be "anode glows" caused by ionization of thin air in the upper atmosphere. Scott has produced objects in his Army lab at Ft. Belvoir, Va., that have all the characteristics of "flying saucers" spotted in recent weeks. For the record, Scott produces one of the "saucers" in a bell jar at his lab. (NEA Telephoto).

Gulf Pump Station To Use More Electricity Than Four Area Towns

Foundation work is underway at the site of the electric pump station the Pipeline Division of the Gulf Oil Company is installing northeast of Ranger. The station when completed will handle West Texas crude flowing through the recently constructed 26 inch line from Colorado City to Wortham, Texas.

Plans call for four main pumps of 2000 horsepower each to be installed in the station. The units will be housed in an 80 by 81 foot building of concrete block construction.

Killer Of Girl In Chicago Was Mental Patient

CHICAGO, Aug. 8 (UP)—A man who killed a pretty 18-year-old girl in downtown Grant Park was a mental patient in two hospitals in less than a year and left one only three weeks ago, it was learned Friday.

Bernard Richardson, Jr., 35, shot Miss Patricia Kahler and her escort, Herbert Hoffman, 17, while the pair were on a nighttime visit to the park Wednesday.

After killing the girl and wounding Hoffman, Richardson killed himself. Police could find no connection between Richardson and his victims and believed it was a tragic case of mistaken identity.

At the time of the slaying Richardson was on a 90-day trial leave from a veterans hospital in Gulfport, Miss., where he was transferred from the Warren, Pa., state hospital for the insane last March 22.

A county court order in Erie, Pa., sent Richardson to the Pennsylvania institution after he was arrested for an alleged attempt to attack a 15-year-old girl in a store entrance in downtown Erie.

Dr. W. K. Freeman, manager of the Gulfport VA hospital, said Richardson's release on leave to his home in Marrero, La., was based on his "getting along very well." And the wish of his father, Bernard A. Richardson, Sr.

In the files of the FBI, which identified him through fingerprints, young Richardson had a record for assault, carrying a concealed weapon and contributing to the delinquency of a minor.

UN Air Force Continues Its Korean Raids

SEOUL, Korea, Aug. 8 (UP)—United Nations jet planes shot down three Communist MIG-15 jets Friday while B-26 Invaders blasted Red troop concentrations and supply areas at Sinchon after warning the Communists they were coming.

In Friday's jet battles, Capt. Clifford D. Jolley of Salt Lake City became the UN's 18th jet ace. He made his fifth kill in an afternoon fight between 12 Sabrejets and 14 MIGs.

Sinchon, about 45 miles southwest of Pyongyang, the North Korean capital, is one of the 78 cities and towns marked for attack by UN warplanes. Before the B-26s appeared overhead, Radio Seoul warned civilians to clear out.

The warning was given in accordance with the Allied policy of trying to avoid needless destruction of civilian lives.

The B-26s attacked Sinchon twice, dropping more than 50 bomb loads. Pilots could not give a detailed description of the damage because of darkness and smoke.

Friday's three destroyed MIGs brought the August total to 44, including 22 destroyed and 22 damaged.

Jolley, 31, knocked down two of the Russian-built fighters Thursday, bringing his total to three. An examination of gun camera film then gave him belated credit for destroying a MIG in an air battle July 4. Thus he went into the air Friday with four MIGs officially to his credit.

Maj. Philip M. Vansickle, Lansing, Mich., shot down the second enemy fighter. The third plane was credited to Capt. James Pilon of Goldsboro, N.C.

Druggists To Meet In Fort Worth, Aug. 10

More than 100 druggists representing every community in Texas will begin pouring into Fort Worth Sunday, August 10, for the four-day 71st annual convention and drug store merchandise buyers' market of the Texas Pharmaceutical Association. Registration begins at noon Sunday in the lobby of Hotel Texas, convention headquarters, and the convention will officially get underway at a 9:00 a.m. breakfast session Monday morning.

By convention time over 100 Texas and national manufacturers will have moved over \$100,000 worth of fall and holiday display merchandise into Hotel Texas for the exclusive drug buyers' market sponsored by the association. First of its kind in the nation, the market will comprise four floors of Hotel Texas, and more than 300 manufacturers' representatives will be on hand to talk with delegates and buyers.

Personal Income Keeps Climbing

WASHINGTON, Aug. 8 (UP)—Personal incomes of Americans kept climbing in the first half of this year to hit a record annual rate of \$264 billion, the Commerce Department reported Friday.

This was four per cent higher than in 1951 when personal income totaled \$254.1 billion. In June this year, earning set a record for any one month, hitting a rate of \$266 billion a year. The annual rate of farm income rose \$1 billion from May to June and there was also a "small increase" in private industry pay-rolls.

Five Years And \$10,000 In Fine Assessed All 14

LOS ANGELES, Aug. 8 (UP)—The protracted six-month trial of 14 "second string" Communists draws to a close Friday when Federal Judge William C. Mathes pronounces sentence on one of the party leaders for contempt of court.

Mathes Thursday called the West Coast Communists before the bench and handed each of them the maximum sentence — five years in jail and a \$10,000 fine — for violation of the Smith Act.

The Communists were convicted of conspiring to teach and advocate the violent overthrow of the government.

Mathes handed down the sentences after refusing to set aside the jury's guilty verdict as defense attorneys had asked. He then announced he would sentence Oleta O'Connor Yates, one of the 14, on 10 contempt of court convictions.

Mrs. Yates was found in contempt during the long trial for refusing to answer questions the direction of the judge.

Defense attorneys' pleas were prepared to appeal the judgment to the U. S. Court of Appeals.

In refusing to vacate the verdict, Mathes commented, "The jury's guilty verdict is apparently beyond reasonable doubt. I therefore deny the defense motion for a judgment of acquittal."

Under federal law, the judge considers such motions for directed verdicts of acquittal after the jury returns its decision.

Mathes also denied a motion for a new trial, which the defense sought on grounds that the release of an FBI report may have prejudiced the jury.

The report was released in Washington before the jury began deliberations. It said that Josef Stalin plotted to overthrow the U. S. government through the agency of the American Communist party.

Mathes refused to set bail, and ruled that the prisoners must remain in jail until their fins are paid.

Suicide Attempt Routs Commuters In Bus Station

DALLAS, Aug. 8 (UP)—A rush-hour crowd of commuters scattered quickly Thursday night as a 40-year-old Alice man seized a watchman's pistol and shot himself near the heart in the Interurban Building Union Bus depot.

In "poor" condition Friday from the wound was Edward L. Fasnacht, storekeeper for a power company in Alice.

Watchman Lee Hughes, 63, said a stranger stepped up behind him as he sat at the soda fountain, and grabbed his gun from the holster.

"Before I could grab him he danced back a few steps, fired into his left chest and fell face down on the floor," Hughes said.

A bus driver, Jack Loftice, 24, took the gun from Fasnacht. "He was trying to shoot himself again, but didn't have the strength," he said.

The bullet, after passing through Fasnacht, whizzed across the waiting room scattering the rush hour crowd.

Mrs. Nell Stebbins of Helena, Okla., lost a wallet containing \$500 as she fled the waiting room.

Fasnacht told police he had come from California, and had been in town an hour.

PACIFIC PLANNING—New Zealand's Foreign Minister T. Clifton Webb, left, US Secy. of State Dean Acheson, center, and Australian Minister of External Affairs Richard G. Casey, leave the conference house at the close of a planning meeting. The group are part of a delegation of representatives from Pacific nations meeting in Honolulu to set up a Pacific Defense Council. (NEA Telephoto).

Saturday Is Trades Day In Ranger

Covered, to Say the Least

Personality Influenced By The Home

COLLEGE STATION, August 8th—All parents want their children to develop into healthy personalities. Eloise Johnson, family education specialist with the Texas Agricultural Extension Service, explains that personality is a term used to describe the way he reacts to outside influences and the way he thinks, feels and behaves.

structure. Physical, emotional and nervous systems and patterns can be changed very little. The big job is to realize this and help children to grow into healthy personalities.

Much can be done about the second factor in building personality. Mrs. Johnson suggests that children be given wide opportunities in the home, school, church and community to get sound practical training, experience, knowledge and understanding for the real tasks of living. This leads into the third factor, relationship with others. This two-way relationship is first experienced in the home. Family members continue to be the most important group which influences personality.

TRANTO, Aug. 8 UP—Delegates to the 18th International Red Cross unanimously condemned atom warfare Thursday, but Russia and Communist China said they would use bacteriology as a retaliatory weapon.

THIS WAY—Capt. Ted Williams illustrates for Capt. Bob Kennedy maneuvers which jet fighter planes the Red Sox slugger pilots are capable of performing. Instead of meeting in front of the dugout, Williams and Kennedy of the Indians now get together on the flight line at the Cherry Point, N.C., Marine Corps Air Station. The outfielders were recalled to active duty. (NEA)

NO NAME LEFT FOR FIFTEENTH—Meeting his 14 brothers and sisters for the first time in New York's St. Peter's Hospital is husky nine-pound, eight-ounce "Baby Boy" Giacalone. His mother, Mrs. Anne Giacalone admitted, "We've about run out of names." Welcoming the newest family member to their group are, front row: Thomas, 8; Margaret, 3; Mickey, 9; Joseph, 8; Kathleen, 8; Helen Rose, 10. Back row: Rosemary, 6; Maureen, 7; Robert, 17, holding Kevin, 2; Ann Marie holding Dennis, 1; Aileen, 12; and Josephine, 13. The baby's father, 39, is employed as a shipping clerk.

Preserved Foods Help Stretch Family Income

COLLEGE STATION, August 8—Two hundred seven thousand, five hundred fifty eight families were assisted in 1951 with food preservation problems, according to the annual report of the foods and nutrition specialists, Texas Agricultural Extension Service. This was the result of training and assistance given county home demonstration agents and local leaders.

Bass Bruised In Food Rush

JASPER, August 7—Shades of the old fishin' hole. Voracious bass strike so hard at food tossed into the Jasper State Fish Hatchery ponds that they often collide with harmful results.

Plant Cotton Closer When Picker Used

Cotton stripper efficiency has been shown higher when plants are close together, in experiments done for a master's thesis at Texas Tech by Levan L. Ray, assistant agronomist at the Lubbock Experiment Station.

BARBS

BY HAL COCHRAN MAYBE it's harder to get men to go to church because they don't care what the other men are wearing. A lot of the highways seem to indicate that somebody thinks we're going to switch over completely to airplane travel. "Keep at it" is one good rule of success—especially when applied to the buying of government bonds. Happiness really consists of not being too doggone particular. One thing in common with most married men is the line of funny things said to the wife when company drops in.

FAIR ENOUGH — Dorothea Smith, actress with the Michigan Summer Theater at Michigan City, Ind., doesn't need a sign to tell the world she's a fair member of the fair sex. The sign she holds really advertises the city's third annual Town and Country Fair.

Atomic Proving Site Cleared By British Officials

LONDON, Aug. 8 (UP)—Britain warned ships and planes Friday to stay away from a 60,000 square mile area of ocean northwest of Australia because she is about to test her new atomic weapons there. The announcement indicated Britain's first atomic explosion may be touched off within a matter of days in the Monte Bello Islands in the Indian ocean some 50 miles off the northwest coast of Australia.

Soviets Release Arrested Soldier

BERLIN, Aug. 8—The Soviets finally released Thursday night an American soldier who had been held in East Berlin for 24 hours, U. S. Army authorities announced Friday.

Search Underway For Missing PBM; 13 Die In Crash

TOKYO, Aug. 8 (UP)—One Navy PBM seaplane crashed in Japan Friday with a loss of 13 lives and another, missing for more than 30 hours with 12 aboard, was sought by U. S. Navy and Air Force planes off the Philippines Islands. Twenty-eight planes and nine ships searched Manila bay and neighboring waters for the missing PBM, which last was heard from at 7 a.m. Thursday (6 p.m. CST, Wednesday).

Connolly To Tour Europe

By United Press WASHINGTON, Aug. 8 UP—Chairman Tom Connolly of the Senate Foreign Relations committee left Friday on a 11-nation tour of Europe after expressing belief World War III can be averted. The Texan is retiring from the Senate in January.

Shelling No Danger To Peace

WASHINGTON, Aug. 8 UP—State Department officials said Thursday they see no real danger to world peace in a Greek military move to retake a small island in the Evros river from the Bulgarian Reds. Diplomats considered the incident merely another phase of an old border dispute.

GFWC Launch Americanism Crusade

WORTHAM, Aug. 8—Spl—Texas' 75,000 federated clubwomen will join the crusade for Americanism launched by the General Federation of Women's Clubs. Mrs. Van Hook Stubbs, GFWC president, pledged today. The GFWC president for 1952-54, Mrs. Oscar A. Ahlgren of Whiting, Ind., is planning the crusade as a major project for her administration. Efforts to build world peace should start at home, Mrs. Ahlgren explained the crusade's goal of helping meet communism's challenge.

NOTICE

FOR DEPOSITORY APPLICATIONS

Notice is hereby given that the Board of Directors of Eastland County Water Supply District will meet on the 20 day of Aug., 1952, at 5 o'clock, P.M., at the Chamber of Commerce, in Ranger, Texas, for the purpose of designating a depository bank or banks for said District. All banks situated within said District are hereby invited to submit applications to be designated depositories.

The term of service for depositories thus to be designated shall begin on the date of designation and shall end on Aug. 20, 1953, but shall continue until their successors are appointed and have qualified.

To the extent that funds in such depository banks are not insured by the Federal Deposit Insurance Corporation, they shall be secured in the manner provided by law for the security of County Funds.

At the meeting above specified, the Board will consider the applications and the management and conditions of the banks filing them, and shall designate as depository the bank or banks which offer the most favorable terms and conditions for handling the funds of the District and which the Board finds have proper management and are in condition to warrant handling of District Funds.

DATED this the 4 day of August, 1952.

C. B. Pruet, President

NEWS FROM CHEANEY

Mrs. Bill Tucker

The prevalent cry in this community seems to be the usual one—no rain. Crops are suffering with possibly the worst drought since cotton holding on a little better than feed. Wells of water are showing a depletion, also stock tanks.

Mrs. Eula Hart and Wanda and Beth who recently spent their 3-week vacation at Casa Grande, Ariz., told us of verdant fields and pastures in that state. The Harts were visiting Mr. and Mrs. Dale Mahaffey and children.

The Cheaney Gospel meeting came to a close with Sunday evening's service.

Minister Reynolds' lessons each time were pertinent and plain, and visible results were good. Visitors who came from Gorman, Deadwood, DeLeon, Ranger and local communities each evening, showing a fine spirit of fellowship.

Gorman announced a meeting beginning Friday, July 31, through August 10, conducted by Woodie Holden of Midland.

Mrs. Bessie Perrin is scheduled to undergo further surgery in Ranger Friday of this week, after a period of convalescence to regain her strength for the operation.

Mrs. Cicero Rogers was able to come from Grand Prairie to Rising Star on Tuesday, where she will continue to rest in the home of another daughter, Mrs. J. D. Bibby, Gen. Del., Rising Star. She will be home again soon.

Billy Highsmith is still convalescent. He was in Ft. Worth for a check-up early in the week. His arm which was so badly broken in an oil rig accident some time ago at Graham, has been giving him some discomfort.

Mrs. H. A. Neger tells us Charles is due home on leave Aug. 8, from Fort Ord, Calif.

(NOTE: In your roundup of news from your area contained here, at this point you stated that Mr. and Mrs. Wayne White, near Staff were polio victims—please stand corrected. Mr. White is working at this moment for the "Times" and both he and his wife have recuperated from your reported case of "polio." The Editor.)

Mrs. Ben Freeman visited Aunt Ellen Tucker on Tuesday afternoon. It is those little neighborhood visits which add so much to an invalid's day.

Mr. and Mrs. Dave Morehead and family from Hadacalf, Texas, near Midland—were visitors on the wee kend in the prental Will Underwood home. Beverly who has spent a month here, will return home with them.

A group of Eastland County Farm Bureau members left Sunday to attend a training institute

at A&M College, beginning Monday, August 4, through August 8. Mr. and Mrs. John Love, this person, Jimmy Sparks, Mrs. Claude Stubblefield, Joe Bob Brown, Ray Norris and Howard Ingram will make the trip.

The Gene Ferrells have attended two family reunions lately. The Melton family gathered at Lake Sweetwater some two weeks ago and the Ferrell clan, 80 in number, gathered at Frank Gray Memorial Park in Gorman last week. They didn't tell us a thing about it, so this timely topic did not make news.

The Cheaney HD Club met Thursday, July 31, in a regular meeting with Mrs. Thebert Jones as hostess.

Mrs. John Love presided over a short business session. Mrs. Bertha Strickler was enrolled as a new member.

Five members answered the roll call with "Where I'd Like to Spend a Vacation."

The afternoon program was on "Safety Driving," taken from the handbook of the State Department of Public Safety.

Frosted cakes were served during the social hour to Mrs. John Love, Gene Ferrell, Earl Strickler, Bill Tucker, and the hostess. Next meeting was planned for August 14, with Mrs. Gene Ferrell.

Hungry Bass Strike Hard

JASPER, Aug. 8 — Shades of the old fishin' hole! Voracious bass strike so hard at food tossed into the Jasper State Fish Hatchery ponds that they often collide with harmful results.

The big breed beauties compete for food particles so consistently that it's understandable why anglers sometimes nail two bass on one cast.

An eye-popping demonstration was provided by Bill Byerly and Joe Allen of the hatchery staff. "Watch this," suggested Byerly, as he tossed in a handful of chopped rough fish. Dark streaks flashed from the depths to snatch the morsels before they sank.

Action was so furious by bass ranging up to nine pounds that water was splashed on visitors standing twelve feet away.

"Listen to this," suggested Byerly, flipping in two pieces. Huge bass sliced the water. Spray flew.

"Hear that bump?" exclaimed Allen. There was definite sound of contact.

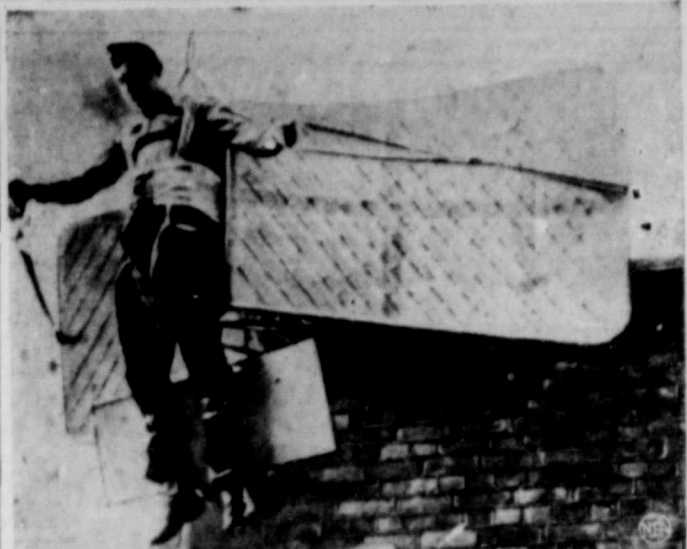

"Hit so hard they sometimes rip their scales," said Allen. "Fungus may develop in the bruised areas and even prove fatal."

Hungry bass, observed Allen, know no caution.

Middle East Defense Planned

LONDON, Aug. 8 UP—The British Foreign Office said Thursday that it has invited the United States to join in a seven-power Middle East defense board, temporarily excluding Egypt and the Arab States.

Red Cross Condemns Germ War

FIREMAN PLAYS BIRDMAN—T Nilsson, a Swedish fireman, flaps his plastic wings before attempting to be a "birdman" during a trial at Sundsva. During the first trial, the wings were damaged, but there is no report on what happened to Nilsson.

Teachers Back Wildlife Study

AUSTIN, August—The Director of Conservation Education and Departmental Publications for the Texas Game & Fish Commission reports that the conservation movement in Texas has received greater emphasis this summer.

He said teachers from all sections of Texas, and from all grade levels, attended conservation workshops and training courses in many senior colleges and universities.

These teacher training centers included the University of Texas Southern Methodist University, North Texas State, Texas State College for Women, East Texas State, Texas Arts & Industries, Sam Houston. Su Ross, McMurray, Hardin Simmons, Abilene Christian, Prairie View and A & M.

Many other educational institutions were actively engaged in training teachers to teach Texas youngsters how to conserve the natural resources.

The Director said many government agencies provided one or more conservation education consultants to assist in these teacher training programs. They included: State Soil Conservation Districts, the United States Soil Conservation Service, the Texas Forest Service, the Texas Health Department and the Department of Public Safety.

The Director said that, as a result of these training courses, hundreds more Texas teachers will be actually teaching boys and girls this fall the basic facts about our natural resources. They will emphasize, he explained, their present status, their value and proper use.

PLUG 'N TRIGGER

By J. FRED EDER
United Press Outdoors Expert

A blistering sun and hot winds continue to keep the sport of angling in a category of frog "fair to poor." The extreme heat and its effect on the angling population is evidenced by the continued decrease of attendance on Texas and Oklahoma lakes.

The "Coney Islands" weather on the other hand has upped attendance at lake beaches and picnic grounds. Other than deep running lures artificial baits have bowed to live bait during the current hot weather.

Deep running lures trolling are producing a few black bass but conditions are far from being favorable. Top water lures, late evenings, early morning are also producing a few blacks.

Deep trailer trolling continues to hold its own as far as filling the stringer is concerned although still being far from a universally adopted tackle technique in Texas and Oklahoma.

Another hot weather tackle technique that has retained year-around popularity for the meter is the pork chunk or pork rind lure. A pork chunk or rind attached to a weedless hook is the only lure used by thousands of confirmed bass fishermen. The chunk alone however is an exceptionally

Preserved Foods Help Stretch Family Income

COLLEGE STATION, August 7—Two hundred seven thousand, five hundred fifty eight families were assisted in 1951 with food preservation problems, according to the annual report of the foods and nutrition specialists, Texas Agricultural Extension Service.

In all, 2,431,987 quarts of vegetables, fruits and meats were canned and 25,523,409 pounds of food were frozen in accordance with practices recommended by the specialists. There were 331,440 quarts of food made into pickles and relishes.

The work in food preservation was always accompanied with plans for storage, food budgets, meal preparation and service. The report states that the preserved products and 36,470 frozen food lockers; that 55,786 families followed the Texas Food Standard in planning meals and improving diets and 129,351 families were assisted with food preparation and improvement service.

Bass Bruised In Food Rush

JASPER, August 7—Shades of the old fishin' hole. Voracious bass strike so hard at food tossed into the Jasper State Fish Hatchery ponds that they often collide with harmful results.

The big breed beauties compete for food particles so consistently that it's understandable why anglers sometimes nail two bass on one cast.

An eye-popping demonstration provided by Bill Byerly and Joe Allen of the hatchery staff.

"Watch this," suggested Byerly as he tossed in a handful of chopped rough fish. Dark streaks flashed from the depths to snatch the morsels before they sank.

BARBS

BY HAL COCHRAN MAYBE it's harder to get men to go to church because they don't care what the other men are wearing.

A lot of the highways seem to indicate that somebody thinks we're going to switch over completely to airplane travel.

"Keep at it" is one good rule of success—especially when applied to the buying of government bonds.

Happiness really consists of not being too dopamine particular.

One thing in common with most married men is the line of funny things said to the wife when company drops in.

"There is no significant difference in the yield," he added, and the vegetative weight of the plant, the seed, lint and butter, remains the same.

Atomic Proving Site Cleared By British Officials

LONDON, Aug. 8 (UP)—Britain warned ships and planes Friday to stay away from a 60,000 square mile area of ocean north-west of Australia because she is about to test her new atomic weapons there.

The announcement indicated Britain's first atomic explosion may be touched off within a matter of days in the Monte Bello Islands in the Indian ocean some 50 miles off the northwest coast of Australia.

The admiralty said an area roughly 200 by 300 miles around the coral reefs and windblown sandbanks that make up the Monte Bello group would be dangerous to aircraft and shipping "owing to the test of atomic weapons."

The area may be extended later to include the channel between the islands and the Australian mainland, the admiralty said.

The nature of the atomic weapons still was cloaked in secrecy, but it appeared unlikely any atomic bombs would be exploded on the Monte Bello.

Prime Minister Winston Churchill, who personally directed long-range preparations for the experiments, has said only that an "atomic weapon" produced in Britain would be "tested within the course of the year."

All informed comment indicated that Britain's principal secret weapon would be revealed as a new and safer device for detonating atomic explosions and that it would be much simpler to handle and control than its American counterpart.

Soviets Release Arrested Soldier

BERLIN, Aug. 8—The Soviets finally released Thursday night an American soldier who had been held in East Berlin for 24 hours, U. S. Army authorities announced Friday.

An Army spokesman said the soldier, whose name was withheld, had been arrested by Communist people's police in East Berlin's

"Hear that 'bump," exclaimed Allen. There was definite sound of contact.

"Hit so hard they sometimes rip their scales," said Allen. "Fungus may develop in the bruised areas and even prove fatal."

Search Underway For Missing PBM; 13 Die In Crash

TOKYO, Aug. 8 (UP)—One Navy PBM seaplane crashed in Japan Friday with a loss of 13 lives and another, missing for more than 30 hours with 12 aboard, was sought by U. S. Navy and Air Force planes off the Philippines Islands.

Twenty-eight planes and nine ships searched Manila bay and neighboring waters for the missing PBM, which last was heard from at 7 a.m. Thursday (5 p.m. CST, Wednesday.)

At that time, the plane reported its starboard propeller out of control and said it was returning to base. It was about 30 minutes from Sangley Point Naval Base in the Philippines, its home base.

An air-sea rescue team from the wreckage of a PBM that crashed on the coast of Shikoku Island, Japan, while on a routine patrol flight. The search party reported there were no survivors of the men aboard the plane.

It was Japan's second air disaster in three days. A B-29 loader for a bombing mission in Korea crashed near Tokyo Wednesday night with a loss of three lives. Nine others on the plane parachuted to safety.

Connally To Tour Europe

By United Press WASHINGTON, Aug. 8 UP—Chairman Tom Connally of the Senate Foreign Relations committee left Friday on a 11-nation tour of Europe after expressing belief World War III can be averted. The Texan is retiring from the Senate in January.

Shelling No Danger To Peace

WASHINGTON, Aug. 8 UP—State Department officials said Thursday they see no real danger to world peace in a Greek military move to retake a small island in the Evros river from the Bulgarian Reds. Diplomats considered the incident merely another phase of an old border dispute.

Personality Influenced By The Home

COLLEGE STATION, August 8th—All parents want their children to develop into healthy personalities. Eloise Johnson, family education specialist with the Texas Agricultural Extension Service, explains that personality is a term used to describe the way one reacts to outside influences and the way he thinks, feels and behaves.

The specialist points out that this personality or whole person is made up of an inherited basic structure plus the efforts of training, knowledge, experiences and information plus family and community relationships and experiences.

The first factor in a healthy personality is the inherited basic structure. Physical, emotional and nervous systems and patterns can be changed very little. The big job is to realize this and help children to accept this fact. Lead them to live with themselves so they can grow into healthy personalities.

Much can be done about the second factor in building personality. Mrs. Johnson suggests that children be given wide opportunities in the home, school, church and community to get sound practical training, experience, knowledge and understanding for the real tasks of living. This leads into the third factor, relationship with others. This two-way relationship is first experienced in the home. Family members continue to be the most important group which influences personality.

TRANTO, Aug. 8 UP—Delegates to the 18th International Red Cross unanimously condemned germ warfare Thursday, but Russia and Communist China said they would use bacteriology as a retaliatory weapon.

THIS WAY—Capt. Ted Williams illustrates for Capt. Bob Kennedy maneuvers which jet fighter pilots are capable of performing. Instead of meeting in front of the dugout, Williams and Kennedy of the Indians now get together on the right line at the Cherry Point, N.C., Marine Corps Air Station. The outfielders were recalled to active duty. (NEA)

Plant Cotton Closer When Picker Used

Cotton stripper efficiency has been shown higher when plants are close together, in experiments done for a master's thesis at Texas Tech by Levon L. Ray, assistant agronomist at the Lubbock Experiment Station.

"We found losses in harvesting are less when cotton stalks are 3 inches apart than when they are 12 inches apart. In the lower cotton population the losses are 76 per cent higher, and 83 per cent more stems are found in the harvested cotton," he says.

"The heavier planting rates, one bushel or more per acre, should be used where the harvesting is to be done with the mechanical cotton stripper," says Ray.

Ray's thesis is a sub-project of a program conducted by the Texas Agriculture Experiment station to determine the over-all stand for mechanical harvesting. This area is especially suited for mechanical harvesting, Ray says, because of the level ground. Small harvesting costs are necessary because the short growing season prohibits extra large yields and high quality fiber. The amount of mechanical harvesting has jumped from 19 per cent before the war to 50 per cent today.

In thickly planted cotton the height of the stalk was reduced from 36 inches to 20 inches. The stalk at the base of the dense cotton was never more than the 3-4 inch wide prongs of the stripper. About 6 per cent of that thickly planted had a base too large to fit the stripper. Thickly planted cotton doesn't have more weeds, he says, but actually discourages weed growth because the ground is more shaded.

"There is no significant difference in the yield," he added, and the vegetative weight of the plant, the seed, lint and butter, remains the same.

GFWC Launch Americanism Crusade

WORTHAM, Aug. 8—Spl—Texas' 75,000 federated clubwomen will join the crusade for Americanism launched by the General Federation of Women's Clubs, Mrs. Van Hook Stubbs, GFWC president, pledged today.

The GFWC president for 1952-54, Mrs. Oscar A. Ahlgren of Whiting, Ind., is planning the crusade as a major project for her administration. Efforts to build world peace should start at home, Mrs. Ahlgren explained the crusade's goal of helping meet communism's challenge.

Club leaders from over the state have been appointed to the state board to shape up Texas participation in the crusade. Mrs. Florence Johnson Scott of Rio Grande City, a past GFWC president, will head the new Americanism department. Division chairmen for the department include Mrs. R. F. Lindsey of Mt. Pleasant, citizen-religion; Mrs. Wade Odum, Wortham, religion; Mrs. John J. Perry, Sweetwater, get-out-the vote.

Miss Irene Westmoreland, Mexico, government studies; Mrs. Bennett Wilson, El Paso, labor-management relations; Miss Mabel Youree Grizzard, Waxahachie, historical; Mrs. Robert F. Lindsey, Borger, moral and spiritual values; Mrs. Truman C. Terrell, Fort Worth, promotion of women in public affairs; Mrs. A. T. Carlton, Houston, forums (town hall meetings); Mrs. Newell Waters, Weslaco, Americanism week.

Other state board changes include Mrs. S. L. McElroy of Baird as chairman of the new conservation department, whose divisions are led by Mrs. Grover C. Johnson, Wichita Falls, forests and recreation; Mrs. W. J. Danforth, Ft. Worth, minerals and wild life; Mrs. Bob Eubank, Big Spring, water and soil. Mrs. Gaston Block of Laredo will serve on the hospitality committee, and Mrs. James W. Hampton of Austin will be chairman of the division of mobilization in the national defense department.

NOTICE FOR DEPOSITARY APPLICATIONS

Notice is hereby given that the Board of Directors of Eastland County Water Supply District will meet on the 20 day of Aug., 1952, at 5 o'clock, P.M., at the Chamber of Commerce, in Ranger, Texas, for the purpose of designating a depositary bank or banks for said District. All banks situated within said District are hereby invited to submit applications to be designated depositaries.

The term of service for depositaries thus to be designated shall begin on the date of designation and shall end on Aug. 20, 1953, but shall continue until their successors are appointed and have qualified.

To the extent that funds in such depositary banks are not insured by the Federal Deposit Insurance Corporation, they shall be secured in the manner provided by law for the security of County Funds.

At the meeting above specified, the Board will consider the applications and the management and conditions of the banks filing them, and shall designate as depositary the bank or banks which offer the most favorable terms and conditions for handling the funds of the District and which the Board finds have proper management and are in condition to warrant handling of District Funds.

DATED this 4 day of August, 1952.

C. B. Pruet, President

NEWS FROM CHEANEY Mrs. Bill Tucker

The prevalent cry in this community seems to be the usual one—no rain.

Crops are suffering with possibly the worst blazes and cotton holding on a little better than feed. Wells of water are showing a depletion, also stock tanks.

Mrs. Eula Hart and Wanda and Beth who recently spent their 3-week vacation at Casa Grande, Ariz., told us of verdant fields and pastures in that state. The Harts were visiting Mr. and Mrs. Dale Mahaffey and children.

The Cheaney Gospel meeting came to a close with Sunday evening's service.

Minister Reynolds' lessons each time were pertinent and plain, and visible results were good. Visitors who came from Gorman, Desdemona, DeLeon, Ranger and local communities each evening, showing a fine spirit of fellowship.

Gorman announced a meeting beginning Friday, July 31, through August 10, conducted by Woodie Holden of Midland.

Mrs. Bessie Perrin is scheduled to undergo further surgery in Ranger Friday of this week, after a period of convalescence to regain her strength for the operation.

Mrs. Cicero Rogers was able to come from Grand Prairie to Rising Star on Tuesday, where she will continue to rest in the home of another daughter, Mrs. J. D. Bibby, Gen. Del., Rising Star.

She will be home again soon.

Billy Highsmith is still convalescent. He was in Ft. Worth for a check-up early in the week. His arm which was so badly broken in an oil rig accident some time ago at Graham, has been giving him some discomfort.

Mrs. H. A. Neger tells us Charles is due home on leave Aug. 8, from Fort Ord, Calif.

(NOTE: In your round-up of news from your area contained here, at this point you stated that Mr. and Mrs. Wayne White, near Staff were polio victims—please stand corrected. Mr. White is working at this moment for the "Times" and both he and his wife have recuperated from your reported case of "polio." The Editor.)

Mrs. Ben Freeman visited Aunt Ellen Tucker on Tuesday afternoon. It is those little neighborly visits which add so much to an invalid's day.

Mr. and Mrs. Dave Morehead and family from Hadacalf, Texas, near Midland—were visitors over the wee kend in the prental Will Underwood home. Beverly who has spent a month here, will return home with them.

A group of Eastland County Farm Bureau members left Sunday to attend a training institute

at A&M College, beginning Monday, August 4, through August 8. Mr. and Mrs. John Love, this person, Jimmy Sparks, Mrs. Claude Stubblefield, Joe Bob Browning, Ray Norris and Howard Ingram will make the trip.

The Gene Ferrells have attended two family reunions lately. The Melton family gathered at Lake Sweetwater some two weeks ago and the Ferrell clan, 80 in number, gathered at Frank Gray Memorial Park in Gorman last week. They didn't tell us a thing about it, so this timely topic did not make news.

The Cheaney HD Club met Thursday, July 31, in a regular meeting with Mrs. Theibert Jones as hostess.

Mrs. John Love presided over a short business session.

Mrs. Bertha Strickler was enrolled as a new member.

Five members answered the roll call with "Where I'd Like to Spend a Vacation."

The afternoon program was on "Safety Driving", taken from the handbook of the State Department of Public Safety.

Frosted cakes were served during the social hour to Mrs. John Love, Gene Ferrell, Earl Strickler, Bill Tucker, and the hostess. Next meeting was planned for August 14, with Mrs. Gene Ferrell.

Hungry Bass Strike Hard

JASPER, Aug. 8 — Shades of the old fishin' hole!

Voracious bass strike so hard at food tossed into the Jasper State Fish Hatchery ponds that they often collide with harmful results.

The big-headed beauties compete for food particles so consistently that it's understandable why anglers sometimes nail two bass on one cast.

An eye-popping demonstration was provided by Bill Byerly and Joe Allen of the hatchery staff.

"Watch this," suggested Byerly, as he tossed in a handful of chopped rough fish. Dark streaks flashed from the depths to snatch the morsels before they sank.

Action was so furious by bass ranging up to nine pounds that water was splashed on visitors standing twelve feet away.

"Listen to this," suggested Byerly, slipping in two pieces.

Huge bass sliced the water. Spray flew.

"Hear that bump?" exclaimed Allen. There was definite sound of contact.

"Hit so hard they sometimes rip their scales," said Allen. "Fungus may develop in the bruised areas and even prove fatal."

Hungry bass, observed Allen, know no caution.

Middle East Defense Planned

LONDON, Aug. 8 UP—The British Foreign Office said Thursday that it has invited the United States to join in a seven-power Middle East defense board, temporarily excluding Egypt and the Arab States.

Red Cross Condemns Germ War

FIREMAN PLAYS BIRDMAN—T. Nilsson, a Swedish fireman, flaps his plastic wings before attempting to be a "birdman" during a trial at Sundsvall. During the first trial, the wings were damaged, but there is no report on what happened to Nilsson.

Teachers Back Wildlife Study

AUSTIN, August—The Director of Conservation Education and Departmental Publications for the Texas Game & Fish Commission reports that the conservation movement in Texas has received greater emphasis this summer.

He said teachers from all sections of Texas, and from all grade levels, attended conservation workshops and training courses in many senior colleges and universities.

These teacher training centers included the University of Texas at Southern Methodist University, North Texas State, Texas State College for Women, East Texas State, Texas Arts & Industries, Sam Houston, Su Ross, McMurry, Hardin Simmons, Abilene Christian, Prairie View and A & M.

Many other educational institutions were actively engaged in training teachers to teach Texas youngsters how to conserve the natural resources.

The Director said many government agencies provided one or more conservation education consultants to assist in these teacher training programs. They included: State Soil Conservation Districts, the United States Soil Conservation Service, the Texas Forest Service, the Texas Health Department, the Texas Game & Fish Commission, and the Department of Public Safety.

The Director said that, as a result of these training courses, hundreds more Texas teachers will be actually teaching boys and girls this fall the basic facts about our natural resources. They will emphasize, he explained, their present status, their value and proper use.

A blistering sun and hot winds continue to keep the sport of angling in a category of from "fair to poor." The extreme heat and its effect on the angling population is evidenced by the continued decrease of attendance on Texas and Oklahoma lakes.

The "Coney islands" weather on the other hand has upped attendance at lake beaches and picnic grounds. Other than deep running lures artificial baits have bowed to live bait during the current hot weather.

Deep running lures trolling are producing a few black bass but conditions are far from being favorable. Top water lures, late evenings, early morning are also producing a few blacks.

Deep trailer trolling continues to hold its own as far as filling the stringer is concerned although still being far from a universally adopted tackle technique in Texas and Oklahoma.

Another hot weather tackle technique that has retained year-around popularity for the metter is the pork chunk or pork rind lure. A pork chunk or rind attached to a weedless hook is the only lure used by thousands of confirmed bass fishermen. The chunk alone however is an exceptionally

light lure, requiring light tackle to handle it easily and effectively. Most dyed in the wool pork rind and chunk anglers have their own way of fishing such lures. Many however, are inclined to retrieve their lures too fast. The pork rind or chunk combination is most effective when retrieved slowly. A retrieve beyond the action producing speed has a tendency to destroy the lure's action.

Remember, Mr. Bass will be more inclined to attack or strike a slowly moving object that simulates a wounded minnow, frog or species of marine life.

Retrieve at the slowest speed possible and yet, have a good action. Don't overlook the deadly

momentary pause on your retrieve, it is a combination that works very effectively on any type artificial lure.

With the pork rind spoon type lure the momentary pause produces a dipping, diving action, the deciding touch to antagonize Mr. Bass into striking.

Horse Fall Injure Heart

SAN LUIS OBISPO, Calif., Aug. 8 (UP)—William Randolph Hearst Jr., president of Hearst Consolidated Publications, was injured Thursday when his horse stumbled and fell while he was riding on the Hearst ranch at nearby San Simeon. Doctors said he was suffering from a slight concussion.

HONOLULU, Aug. 8—The Far Eastbound liner President Wilson was stranded here with 238 passengers Friday after the vessel developed trouble in the port tail shaft and a company spokesman said she would have to be dry-docked at Pearl Harbor "at least for several days."

Thanks Folks, We Got Elected—

... and it is a nice tribute to be favored with the confidence and good-will of one's neighbors and friends. Getting elected, you well know, may apply to business as well as politics. I doubt if we could get very far in a political race, but when it comes to making quality abstracts a host of customers far and near have for more than a quarter century favored us with a vote of confidence, and still do. And for that we are deeply appreciative!

SOCIETY

Activities Of Youth Caravan To Close Tonight

A most profitable week of Youth Activities will be brought to a close this evening at 7:00 o'clock at the First Methodist church with a consecration service. The "Caravans" have done a very fine piece of work in leading our young people into a deeper spiritual life during the discussion periods, the recreational hours, and the times of worship. The highlight of this evening's service will be the Holy Communion observance. The public is cordially invited to this closing service of worship.

On last evening, 34 young people from Ranger and Gordon enjoyed a picnic at the park. Food, fun, and fellowship were in abundance as these young people entered into the spirit of the occasion. To close the evening, the youth formed a silent trail across the highway into the backyard of M. L. King where Miss Phyllis Tate led in the service of worship. Guests for the picnic occasion were several youth from Gordon and the Methodist pastor, Mike Pattison, Mr. and Mrs. Ted St. Clair, and Mrs. Iris Hummel.

The intermediates have taken a rather active part in the Caravan activities during the week also. Their main project was the making of grape jelly which will be sold to members of the church on Friday night. The money will be used for "meals for millions", an over-seas relief agency.

Dorcas Cass Has Coffee Thursday

The Dorcas Sunday School Class of the First Baptist Church met with Mrs. W. W. Mitchell at 7:00 a.m. Thursday for a coffee.

Grapefruit juice, doughnuts and coffee were served. Mrs. Mitchell, the president of the class presided over the meeting.

The opening prayer was led by Bill Bullock, who gave the group a surprise, and dropped in to give a talk on how the adults could help in the church work.

A devotional was given by Mrs. Amy Brown, reading Psalm 23, Matt. 17:22 and Mark 11: 22 and 23, the subject being faith.

Those present were Mmes. H. E. Barker, Verna Long Bessie Dawley, Lillie Appelagate, J. M. Robinson, Adamson, Lee Mitchell, Amy Brown, Lula Powell, Miss Ethel Adams, Bill Bullock and the hostess, Mrs. Mitchell.

Mrs. Demovan Smith, Jr., of Salerno, Fla., is visiting the R. V. Robinsons. Mrs. Smith is formerly of Ranger, and is known as Dorothy Ferris. She has been in Shreveport, La., visiting her brother, James, and family, and is on her way to California to visit her sisters and mother. They are Mrs. H. W. Brewer (Ella Joy) of Torrance, Mrs. Gene Bollen (Mary) of Del Monte and Mrs. Sallie Rothermel of North Radonda.

Local Oil Men Attend Barbecue

Several local men attended a barbecue given by the West Central Texas Oil and Gas Association, Thursday evening. There were approximately 2,000 men from various Texas towns, attending the annual meeting, which was held at the lodge camp of the Chemical Process Co., of Breckenridge, on Possum Kingdom Lake.

A business meeting was held at 3:00 p.m. at the camp of J. D. (Jake) Sandefer.

The men attending from here included Carl Lammus, Mike Ferguson, L. R. Pearson, J. E. Matthew, E. F. Arterburn, G. D. Chauston, Frank Champion and Fred Bonner.

Sunday Services Church of Christ

Evangelist C. R. Mansfield of the church of Christ will preach at the service Sunday which begins at 10:45 a.m. upon the subjects of church doctrine. This will be a discussion now study as to whether the church has a doctrine, and will not deal entirely with this church.

The minister has reported better attendance and growth of the right kind being evidenced in many ways. He cordially invited anyone who wishes to worship with them.

The services for the day will be concluded with a preaching service at 8 p.m.

PERSONALS

Jerry Rushing, Joy Dempsey, Charles Massee and Shirley Wymer will attend the All-Star Football game in Fort Worth, Friday evening.

Mr. and Mrs. D. Joseph are visiting with their son, Freddie, and daughter and family, Dr. and Mrs. Ray C. Ameen and children, all of Houston.

Mr. and Mrs. C. C. Huffman visited their son Madrin and their daughter and family, Mr. and Mrs. Lee Roy Pierce and children of Ft. Worth, over the week end.

Mrs. Jim Taylor and daughter Cynthia Sue of San Luis Obispo California are visiting her parents, Mr. and Mrs. C. C. Huffman and other relatives.

Mr. and Mrs. C. C. Huffman will move to Ft. Worth Saturday to make their home.

WEEKLY WILDLIFE WISDOM

13-Year-Old Bride Mother Of 10 Pounder

—A pretty 13-year-old bride of a cowboy rested comfortably in Okeechobee hospital Friday after giving birth to a healthy ten and one half pound boy Wednesday.

Mrs. Morrice Leitner, five-foot-two and blue-eyed, weighs only 99 pounds more than her new son. She refused to put on lipstick for her 20-year-old husband when he arrived to see her and his baby, saying "I'm too young for such stuff."

Her grinning husband explained the reason for the absence of traditional cigars for the occasion. "I don't smoke yet," he said.

Iran Offers To Settle Dispute Over Oil Sales

TEHRAN, Iran, Aug. 8 (UP)—Iran offered Friday to settle its oil dispute with Britain either in direct negotiations or through the Iranian courts.

The offer was contained in a note sent the British embassy Thursday and made public Friday. If the proposal is rejected, the note said, the British-owned Anglo-Iranian Oil Co. must accept the consequences.

"The Iran government... is prepared to enter into negotiations with the Anglo-Iranian Oil Co. representatives," the note said.

"The Iran government hopes that its good-will may be welcomed by the British government, as it should be, and the latter may recommend the former oil company appoint representatives for negotiations with the Iran government."

U.S.S. Boxer Carrier Crew Called Heroes

TOKYO, Aug. 8 (UP)—The Navy told Friday how officers and enlisted men heroically risked their lives to save the American carrier Boxer from destruction when a jet plane exploded and set fire to the hangar deck.

Three of the nine men who were killed in the accident Wednesday died bravely and exploding ammunition to treat injured crew members.

Thirty-two men were injured and 50 others were treated for smoke exhaustion. Twelve other planes were destroyed. The accident took place while the Boxer was about 90 miles east of Wonsan off North Korea.

The jet plane had just returned from a mission over North Korea when it exploded. A spokesman said the fire, fed by gasoline, bombs and ammunition, made the ship an "inferno" in a matter of seconds.

But well-trained Navy firefighters were on the job "almost before the sound of the first explosions had died away," attacking the fire with water and foam. Then the flames burned out vital fire fighting equipment and communications lines.

"One bomb exploded, spreading the flames and inflicting casualties on the fire and rescue parties," the spokesman said. "Emergency communications and portable pumps were rigged and the fight continued..."

"Plane crewmen rushed in among the fire fighters and stripped bombs and ammunition from the Corsairs, Skyraiders and jets."

FOR SALE

4 room modern house, close in, 2 acres of land for \$2100.00.

4 room house close in, \$1,000.00 cash, balance 22.00 per month.

5 room house—newly decorated, \$1500.00 cash, balance monthly.
