Chesters Plan To End Fund Push Next Week

REPUBLICAN SECRETARY OF STATE—President-elect Dwight D. Eisenhower, right, appointed John Foster Dulles Secretary of State as the General began the task of filling cabinet posts in the new administration.

Ranger's 1952 Community Chest fund was reported \$1,345 short of its \$6,800 goal Friday morning as leaders of the fund-raising effort moved ahead with optimistic plans for a final windup of the campaign which has been in progress for nearly a month.

CHILDREN'S VISUAL PROBLEMS DISCUSSED AT ABILENE MEET OF AREA OPTOMETRIC GROUP

"One out of five children enter school with a visual problem. Four out of five have a visual problem when the schools are through with them. That the schools create or exaggerate the visual problem is evident when non-attending children are compared. Not more than 20 per cent of non-attenders show a visual problem at any school age."

Research has shown that when school rooms and buildings are designed for maximum visual accomplishment the decrease in the incidence of near eye glasses and other visual care is "spectacular. Optometrists should not rest until every school room in America is built to a maximum visually efficient environment. The way is known, and best of all it costs no more to build them right than wrong," he declared.

Rangers In Final Action Tomorrow

County Junior College Cardinals it strings up like this. Ends—Charles Brazill, 189; and Lee Otis Clayborn, 175. Tackles—Leon Jones, 198, and David Anderson, 295. Guards—Rooster Sullivan, 189, and Mack Pikes, 165. And Center will be Donald Varner, 185.

RHS Squad Is In Top Shape For Comanche

A few hours from now before a crowd of on-lookers which may total 2,000-plus, Coaches O. C. (Stabby) Warden's and Sam Aills' 1952 Ranger High Bulldogs will battle it out with the Comanche High Indians in one of West Texas top-billed schoolboy grid duels of the week end.

Kickoff time of the conference contest is scheduled for 8 o'clock, and school officials here estimated early this morning that an entourage of "at least a thousand rabid fans, possibly more" will follow the Maroon & White grid machine to Comanche for the tilt.

Students and grid fans in Ranger and over this area were a-twitter today as the hours trekked by shorting the time before the opening kickoff. The 1952 District 10-AA championship is at stake in the contest. If the proteges of Coaches Warden and Aills are able to top the highly-keyed Indians in tonight's fracas they'll sack up their fourth straight high school grid title.

The Bulldogs are favorites to win the encounter, but the RHS mentors hope their lads will be wary, steady and ever-watchful when they take the field tonight—that they'll not be wrapped up in the dangerous cloud of over-confidence. Because the Comanche Redmen, according to latest reports, are gunning to perform an upset feat similar to that worked by the Rangemen over Stephenville last week.

STARTING LINE-UP Here are Ranger's probable starters for tonight's District 10-AA championship tilt:

- Left end—Tommy Hinds (43), 175. Left tackle—J. L. Barnes (39), 170. Left guard—Jimmy Wheeler (58), 170. Center—John Rush (33), 158. Right guard—Bobby Justice (52), 160. Right tackle—Eddie Jones (40), 198. Right end—Chico Mendoza (34), 170. Quarter—Gerald Bagwell (23), 140. Left half—Bill Browning (27), 130. Right half—Charles Masseur (22), 155. Fullback—Herbert Williams (27), 160.

The Bulldogs' defensive machine will be composed of Chico Mendoza and Herbert Williams at the ends; Lee Hill and J. L. Barnes, tackles; Bobby Justice and Jim Wheeler, guards; John Boyd Rush and Billy Ferguson, line-backers; Gerald Bagwell and Tommy Hinds at defensive halfbacks; and Charlie Masseur, defensive safety.

Wholesale Food Prices Drop To New Low Level Eastland County housewives were heartened today with a report from New York announcing that wholesale food prices have dropped to the lowest level since early July of 1950.

The dip in prices was reported by the Dun & Bradstreet food index. At \$6.27 the index compared with \$6.30 last week and with \$6.68 a year ago.

The index, a dispatch said, hasn't been lower since July 4, 1950, when it was \$6.19. The high so far this year was \$6.70 in the weeks ended Aug. 26 and Sept. 2.

Mama's A-Comin', Too—

Temperature Is Due To Drop Tomorrow

Better drag out those coats and heavier garments. Because it's scheduled to get cooler tomorrow—much cooler. In fact, according to today's current report from the weatherman, Saturday's high temperature for the Eastland County area is due to be in the coolish 50s.

The gist of the matter is that the "baby nether" which invaded this area Wednesday will probably be followed by its Mama sometime tomorrow. And—brrrrrrr—Papa may be enroute. That's the latest tip from the weatherman who today issued a forecast for the weather "turning cooler" Saturday morning.

It's also due to become increasingly cloudy Saturday, but weather observers promise no rain. For today and tonight the area weather menu is "fair to cloudy and mild with fresh southerly winds. This afternoon's high temperature, reading likely will be registered between 70 and 75 degrees with the predicted low for tonight in the mid-40s.

Lions Clubbers View Movie At Thursday Meet

A film on traffic safety was shown to members of the Ranger Lions Club during the group's regular noon luncheon session at the Gholsion Hotel. In change of the program for the day was Lion Saule Ferlestin.

The film was shown by Delbert Capps, Ranger photographer. Lion President C. E. May, presided and prior to the movie R. V. Galloway, secretary-manager of the Ranger Chamber of Commerce, introduced one guest who was present—A. R. McNeil, new owner of Ranger's Paramount Hotel & Coffee Shop. Mr. McNeil was a member of the El Cerrito, Calif. Lions Club.

President May also reminded club members of the Zone N meeting of the 2E District which will be held at the Victor Hotel in Cisco Monday evening at 6:30 o'clock. He urged Ranger Lions desiring to attend the zone session to contact him not later than Friday in order that reservations for Rangerites might be made within the deadline.

Rev. Ralph Perkins, pastor of the First Baptist Church, Ranger, will be in charge of the next Lion's Club program—Thursday, Dec. 4. Due to the Thanksgiving holiday, no club meeting will be held next week.

EASTLAND IS WINNER IN CITIZENSHIP VOTE CONTEST SPONSORED BY CHAMBER

Albany, Breckenridge, Eastland and Amarillo were named winners Thursday in the Fundamentals of Citizenship contest sponsored by the West Texas Chamber of Commerce. The contest, entered by 60 local chambers in the WTCC area, was split into four population categories.

The Albany chamber won in the less than 10,000 population group, Breckenridge in the 10,000 to 20,000 group, Eastland in the 20,000 to 50,000 group, and the Amarillo chamber in the 50,000 or more bracket. Entrants were judged equally on four phases of citizenship: 1. Number of citizens paying poll taxes in comparison with total county population. 2. Number of citizens voting in first and second primaries and general election compared with total county population. 3. Amount and appropriateness of media used to encourage the payment of poll taxes, exemption certificates, vote and attendance at precinct conventions. 4. Number of citizens attending precinct conventions in county compared with county population.

Plaques will be awarded each of the winning chambers at the Texas Congressional Forum in the Crystal Ballroom of Hotel Texas Friday afternoon by Berri Godfrey, president of the Fort Worth chamber and forum chairman. Web Maddox of Fort Worth was chairman of the judging committee. Committee members included R. B. Anderson of Vernon; Mills Title of Wichita Falls; J. H. Kuitgen of Waco and J. C. Hincer of Abilene. The committee met Thursday afternoon in WTCC offices at the Worthy Hotel.

Dallas Jurist Speaks To Men's Group Monday

Judge R. D. Sartin, eminent Dallas jurist, will speak in Ranger during the forthcoming banquet and program of the Men's Club of the First Methodist Church next Monday evening, Nov. 24, at 7 o'clock.

The announcement was made today by Mayor Price Crawley, president of the men's religious group. Subject of Judge Sartin's address was not announced. Program of the evening is under the direction of Dr. Grover C. Roswell, president of Ranger Junior College.

The judge's Monday evening banquet address will be titled "Christianity in Our World Today."

Lookie, Lookie, Here Comes— COOKIE KIRKPATRICK 1952 RANGERS' GRID SWEETHEART

Cookie Kirkpatrick, very attractive 17-year-old Ranger Junior College co-ed, is radiant reigning the Purple & White's Football Sweetheart of 1952. Miss Kirkpatrick, comely dark-haired daughter of Mr. and Mrs. Sam Kirkpatrick of Ranger, recently was elected to the honor of throne of grid kingdom by the members of Coach Boone Yarbrough's 1952 Rangers pigskin aggregation which winds up its current football campaign as one of the Pioneer Conference's outstanding riest-and-leather crews against Schreiner Institute in Kerrville Saturday afternoon.

Miss Kirkpatrick was officially installed to the Football Sweetheartship during a pre-game ceremony staged at Bulldog Stadium in Ranger prior to the kickoff of the Rangers' grid duel with the Henderson County Junior College Cardinals last Saturday night.

The Ranger Junior College band, dropped out of formation of the midfield 50-yard stripe and formed a heart. The Purple & White grid warriors assembled on the left side of the formation and the band played "I Want a Girl". Miss Kirkpatrick was escorted to the center of the heart by Co-Captains Joe Angel, stellar-playing guard, and Buddy Hamrick, ace back. Then Ross Nail, tackle and another outstanding lineman of the 1952 Rangers' machine, presented the Football Sweetheart with a beautiful bouquet of Chry-

santhemums and accompanied her from the field. Miss Kirkpatrick graduated from Ranger High School in May, 1952, and a month later enrolled as a student at Ranger Junior College. She was a cheerleader for three years while a student at Ranger High.

Police Yearn For Action As Activity Ebbs

Maybe—hic—business—hic—will—hic—pickup this—hic—week-end. The possibility of a few over-imbibers making themselves eligible for registration in the Oil City's very private and secluded hotel—the City jail—appeared today to be the only hope for a sport in business on Ranger's police front.

Over-ambitious tipplers—a DWI offender and a staggering Rangerite afoot—constituted all the arrests by the Ranger Police Department during this quiet week, according to a report by Police Chief W. G. Prunda this morning. The DWI offender was turned over to Sheriff Frank Tucker, Eastland. Thus the monotony in local police routine, stretching into a three-week period, remains the usual hum-drum. There'll probably be a few drunk citizens arrested over the weekend. Maybe. Or something bigger may happen, Maybe.

RESCUER JOLTED ALTO PASS, Ill. — Roy Sims, 17, stopped to free an accident victim trapped in his wrecked car. He wrenched the door open and the accident victim stepped out uninjured. When Sims released the door, it hit him in the face, breaking his jaw. Horses stabled indoors may develop a lamning, porous bone disease, a reported, because they get too little sunlight.

"I'm a self-made man. You're lucky. I'm the revised work of a wife, a son and a daughter."

The habit of coming through under pressure is the real test of ability and greatness. Most of us can do pretty good on occasion. It is the man who can be counted on when the chips are down who is the real champion.

The sparkling play which Doak Walker pulled in the last two minutes of play against the Dallas Texans was actually backyard stuff. Many is the time when we have seen boys in corner lot play chase a fumble, pick it up, run a little and throw it to someone on his side who was standing past the line of scrimmage.

So, having to do better than just fall on one's ball, Doak picked it up and began moving to the center of the field, running parallel to the goal line and about twelve yards out. From there, he could kick a field goal on fourth down. Then he saw Swiacki standing alone in the end zone. As calmly as he would have done it in his back yard, Doak tossed lightly to the waiting end, throwing easy to avoid a bounce off.

It was the ball game. Less than two minutes later the game was over and the Detroit Lions had won their fifth straight exhibition.

The whole difference had been one boy's ability to come through under pressure, to make good when the chips were down. That, of course, is why he was there.

(Continued from Page 1) "O Lord, our Christ, may we have Thy mind and Thy spirit; make us instruments of Thy peace; where there is hatred, let us sow love; where there is injury, pardon; where there is discord, union; where there is doubt, faith; where there is despair, hope; where there is darkness, light; and where there is sadness, joy. "O divine Master, grant that we may not so much seek to be consoled as to console; to be understood as to understand; to be loved as to love; for it is in giving that we receive; it is in pardoning that we are pardoned; and it is in dying that we are born to eternal life. future is yours. Perhaps he deserves a little more of your attention now.—Anonymous. If the walking meat shortage can live to the ripe old age of 80 maybe he will have lived to see a college professor's mighty interesting prophesy come true. The prof is William Fielding Ogburn of the University of Chicago, a professor emeritus in the field of sociology, and he recently predicted nine major "changes and problems" which he asserts will occur during the next 45 years. We can, he says assuredly, look ahead to these happenings: 1. No more heavy muscular work for labor, with light labor even giving way to more automatic production in factory, store, home and transportation. 2. More and more inventions, coming faster and faster. 3. Some dispersal of population resulting from developments in transportation, particularly of helicopters and highways, of airplanes and rockets. 4. Many contacts with distant people, some friendly and others not. This will make possible larger sovereign states, bigger powers than the U.S.A. or the U.S.S.R. 5. More big business, fewer entrepreneurs and an industrial bureaucracy.

6. An average income of \$6,000 per family with the purchasing power of 1952 money. 7. An era of automatism; an age of gadgets. 8. Mechanical power, cheap, abundant and fatiguesless, for the basis of material wealth and income. 9. Much bombardment by propaganda and persuasion, so inimical to good thinking, but so useful to patriots, ideologists and other pressure groups as well as to advertisers. NEWS FROM CARBON Mrs. A. J. Driving On Ice, Snow, Dangerous

Brains plus chains equal sound advice on snow and ice!

That is a streamlined summary of the many important recommendations contained in "Basic Winter Driving Rules," a new booklet just published by the National Safety Council which sets down for the first time the results of 11 years of test research by the Council's Committee on Winter Driving Hazards.

The booklet is aimed at reducing the high death and accident rates resulting from inadequate traction and reduced visibility—the major winter driving problems from November through February.

Six basic rules for safe winter driving are offered:

- 1. Get the feel of the road. Try your brakes occasionally, while driving slowly and away from other traffic, to find out just how slippery the road is.
2. Slow down. Adjust your speed to road and weather conditions so that you can stop or maneuver safely.
3. Keep windshield clear. You must see danger to avoid it, so be sure your headlights, windshield wiper blades and defrosters are in top-notch condition.
4. Use tire chains on snow and ice. They cut stopping distances about in half, and increase starting and hill-climbing traction by four to seven times. Even with the help of chains, however, lower than normal speeds are a must on snow and ice.
5. Pump your brakes to slow down or stop. Jamming them on can lock the wheels and throw your car into a dangerous skid.
6. Follow at a safe distance. Keep well back of the car ahead so you have room to stop. Remember that without tire chains it takes three to 12 times as far to stop on snow and ice as on dry concrete.

Baby's IQ No Test, Professor Says

Your baby's high IQ doesn't mean a thing so far as his later intelligence is concerned and neither does a low IQ rating.

Prof. Benjamin Mehlman, Kent State University psychologist, says babies just a few months old do not have enough intelligence to make any kind of report accurate.

Below two years old, most psychologists would feel squeamish about saying this child has such and such intelligence quotient," he said. "We can make predictions about his intelligence but the science is still imperfect in many ways."

Measurement of a baby's intelligence is usually done by testing his ability to learn or to grasp problem solutions—extremely simple solutions, of course.

Follow at a safe distance. Keep well back of the car ahead so you have room to stop. Remember that without tire chains it takes three to 12 times as far to stop on snow and ice as on dry concrete.

DETROIT — Detroit police boast that their crackdown on parking violators shows no favoritism. Among vehicles ticketed in a drive were the private cars of Gov. G. Mennen Williams, Detroit's mayor, Albert E. Cobb, and a suburban patrol wagon which stopped to transfer prisoners at the city jail.

Farm accidents in the United States cause about 17,500 deaths and 1,500,000 disabling injuries each year.

Orphans Gift Tea Held Thursday Afternoon In Lloyd Clem Home

Mrs. Lloyd Clem was hostess at a gift tea for orphans of the state of Texas at her home on West Main Thursday from 3 until 5 o'clock. Members of the First Baptist Church Womens Missionary Union sponsored the tea which was under the direction of Mrs. R. F. Webb, local and associational benevolence chairman.

Mmes. Webb, Clem and Ralph Perkins were in the receiving line and Mrs. J. B. Houghton Sr., presided at the guest book which was made by Miss Emma Jo Noland of North Texas State College at Denton. The book carried out the WMU colors of lavender and white and the portrait of a small orphan on the front was in keeping with the theme of the afternoon.

After registering, the guests were shown the gifts which were on display. It was reported that new clothing, linens and approximately \$60.00 in cash were given for the benefit of the orphans.

The refreshment table was laid with a handmade Irish linen cloth and was centered with an arrangement of lavender and white mums. Mmes. L. L. Bruce, A. W. Wardford, E. T. Eubank and Ross Hodges alternated at the silver coffee service. Cookies for the occasion were furnished by members of the various WMU circles.

Martha Dorcas Have Guests

The Martha Dorcas Class of the First Methodist Church met in the home of Mrs. C. W. Huffman Wednesday, 7:30 p.m. with Mrs. C. W. Young as co-hostess. Mrs. Frank Castleberry, president conducted the short business meeting, reports from all appointed committees were read.

Mrs. Young, accompanied by Mrs. Turner Collier at the piano opened the meeting with the hymn "Count Your Blessings."

Mrs. J. A. Doyle brought a Thanksgiving devotional titled "The Grateful Heart" with scripture—32nd verse of 92 Psalm. Mrs. B. O. Harrell led the prayer.

Mrs. Hoffman introduced Mrs. J. Morris, honored guest from Ranger who reviewed the book, "The Giant", by Edna Ferber, in a most entertaining manner.

The house was beautifully decorated throughout with fall colors; autumn leaves and fruit. The coffee table arrangement in the informal sitting room was a pair of handsome coxys with persimmons in their beaks surrounded with a harvest of persimmons and brightly colored leaves. Arrangements of chrysanthemums were in the living room where the guests were greeted.

The tea table was a bower of gold and bronze mums. Open faced sandwiches, cheese sticks and gingerbread turkey's were the attractive cookies. Mrs. Frank Castleberry served from the handsome tea service the following

California Designs Fool-Proof Vault

California state officials claim they have the "safest vault this side of Fort Knox," at Sacramento. It was designed to protect \$1,158,464,615.12 in bonds and cash. It has thick brick walls, lined with three one-inch layers of fireproof insulation materials and three layers of half-inch steel plates.

The doors, regulated by a time clock, are 16 inches thick. Any disturbance after business hours would set off a burglar alarm notifying the state police, city police, sheriff's office and fire department.

The vault is in the basement of the state capitol in Sacramento.
