Ranger Grid Teams Open Season

INJURED RANGERS ELEVEN WILL MEET WHARTON HERE

As the fighting Rangers of the Ranger Junior College prepare to open the 1954 season on the home field against the Wharton Junior College Pioneers, Head Coach Dick Henderson and his assistants, Sam Aills and Pat Thomas are faced with a plague of injuries. Five men were reported out with injuries today.

The Wharton team comes to Ranger rated as a strong junior college aggregation and it will not be a breather game that the Rangers will have to start the season.

Only one other team in the Pioneer Conference opens the season this week and that will be San Angelo. They will play the Bilinn College eleven at San Angelo.

Henderson said this morning that the Ranger squad has been shaping up in good order, and except for the run of injuries the team has worked into game condition in fine order.

The Wharton team will take the field Saturday night in Ranger with a weight advantage over the Rangers.

The Rangers probable starting eleven will include:

Left end, R. C. Smith, 190 of Ranger.

Left tackle, Geo. Scott, 210 of Crowell.

Left guard, Clarence Reed, 191 of Denver City.

Center, Charles Wooten, 212 of Dublin.

Right guard, Allen Gibbs, 185 of Newcastle.

Right tackle, Dalton Bleeker, 210 of Breckenridge.

Right end, Raymond Gilstrap, 185 of Big Spring.

Quarter back, Floyd Hacker, 190 of Hermleigh.

Full back, Tom Hudson, 195 of Throckmorton.

Half backs, Harold Merryfield and Jack Parrott.

Injuries have hurt, Henderson said, and he is down to only one quarterback. Those out with ankle injuries include, Kenneth Richardson, Roger Dunlap, Russell Nale-tubby and Sammy Neal. Jerry Carter has an injured hand.

FOOTBALL SEASON'S COMING AT YOU—"Fighting" for the Bulldogs is Yarbrough, who took a Jack Moses (taken out during practice at last night). Pat Moore, who played for University of Texas, is seen in the background.

BULLDOGS TO OPEN AGAINST WOLVES AT COLORADO CITY

Ranger's High School Bulldogs depart Friday afternoon for Colorado City where they will open the 1954 football season against a strong team of Wolves. The local boys are expected to have plenty of competition when they take the field at 8 p.m.

Colorado City is boasting a powerful team this year and pre-season ratings have put them high in the double A bracket. They are doped to win tomorrow night's game.

A large contingent of local fans are expected to begin the trip to Colorado City tomorrow afternoon to support the Bulldogs in their opening game.

The Ranger High School band under the direction of Sam Houston will make the trip to Colorado City. H. L. Coody, high school principal said today.

Coach Boone Yarbrough said today that the Bulldogs are generally in good condition physically, and that a fighting spirit on the part of the entire team could possibly pull an upset tomorrow night.

The probable starting line-up for the Bulldogs will include:

Jerry Cantrell, left end; Archie Robinson or Pete Jameson, left tackle; Tommy Young, left guard; John Rush, center; Gary Patterson, right guard; Eddie Jones, right tackle; Jimmy Nail, right end; Scott Forney, quarterback; Bennie Robinson and Jerry Wharton at half back and Jimmy Littlefield, fullback.

Bennie Robinson is suffering from a bad ankle, and if he is not able to go into the game Yarbrough may on the start switch Littlefield to half back and send Tommy Sutton in at fullback.

The coach said that he expects to see the Bulldogs improve with each game, and that the greatest weakness in the first game is going to be his lack of experience as compared to the experienced team they will meet at Colorado City.

The Wolves will send into the game 19 men who lettered last year, and they have reserve strength of almost a total of 20 men back for the 1954 squad.

The Bulldogs are short on reserve strength, but this can be made up to some extent by a fighting spirit on the part of the entire squad.

Charles Bonney, a guard is suffering from an arm injury, and

John Swinney, a quarterback has a sore shoulder. Both Bennie Robinson and Tommy Sutton have ankle injuries, but Yarbrough expects both of them to be in condition at starting time Friday night.

Today's workout will be very light, with a possible review of both offensive and defensive tactics to be used against the Colorado City Wolves.

The team will leave Ranger about 1 p.m. Friday.

All District Teams Opening Season Friday

Dopesheets are being worked overtime this week as the high school boys are squaring away to open the 1954 football season. This weekend will see practically every high school football team in the state in action.

All teams in District 9-AA will be busy, and all will meet competition from outside their own districts.

Two teams in central west Texas are getting a lot of pre-season booming as possible contenders for state championship honors in Class AA. These are Comanche, a 2nd Colorado City.

Of course, Ranger's Bulldogs make the long journey to meet the Colorado City Wolves in their home den Friday night and will go into the affair rated the underdogs, but definitely, Colorado City is boasting a team almost as strong as a year ago, when Ranger barely eased past them with a one-point margin to start a season that took them to the Class A Championship.

For top honors, the pre-season guessers have been pointing fingers in three directions in District 9-AA. These are in the direction of Mineral Wells, Weatherford and Stephenville.

Friday night the Stephenville Yellow Jackets will try their new stingers on the Brownwood Lions at Brownwood. Both teams are on the season's schedule ahead for the Bulldogs.

One football forecaster has already named Mineral Wells as a favorite for this district with Weatherford.

(Continued on Page Three)

Quarterbacks To Outfit Junior Football Team

Formal presentation of the electric scoreboard at the Bulldog Stadium was made to the Ranger Independent School District at the Quarterback Club meeting on Tuesday night.

L. E. Wallace, president of the club presented the scoreboard to Dr. W. C. Watkins, president of the school board.

The scoreboard project was begun two seasons ago by the Quarterback Club and final payment of the \$1,500 in cost was made by the club a few days ago.

Although other projects had been under consideration the Quarterback Club Tuesday night voted to adopt as its next major project the outfitting of a Junior High School football team.

This will be in conjunction with a new program of football for the Seventh and Eighth grade students in Ranger. The team will be known as the Junior High Pups.

In order to carry out this project, it will be necessary for an extensive membership drive to be made, Wallace said. A goal of 200 members was set.

Persons desiring to join the club, or renew their memberships are requested to contact either L. E. Wallace, E. F. Arterburn or M. P. Myers.

15 Suggested For Posts On C of C Board

At a meeting of the Chamber of Commerce Board of Directors Tuesday night, the names of 15 persons were voted upon for submission to the Ranger City Commission, from which five will be selected for a three-year term as new directors.

A nominating committee, composed of J. A. Bates, Dave Pickrell and W. F. Creager, was also named. They will submit the nominations for officers of the Chamber of Commerce after the five new directors have been named by the City Commission. The new directors will take office on October 1.

The slate of new officers for the Chamber of Commerce will be voted upon at the annual banquet to be held in October.

District 7 Farm Bureau To Meet In Brownwood

Important agricultural issues and policy development techniques will be discussed at the district 7 Farm Bureau meeting in Brownwood, Tuesday, September 21, according to A. Z. Myrick, president of the Eastland County Farm Bureau.

Attending the session from this county will be Myrick, Ray A. Norris, secretary, J. C. Coates, legislative chairman, John Love, Resolutions chairman, and others. Miss Irma Lilley, Eastland County Farm Bureau Queen, will also attend the district 7 Queen contest being held in conjunction with the policy meeting on the same date.

This meeting is one of a series of 13 being held over the state this month. Main speakers will be C. H. DeVaney of Coahoma, vice-president of TFRP and O. R. Long of Nashville, southern region organization director for the American Farm Bureau Federation. DeVaney's topic will be "Current Agricultural Issues" and Long will speak on "The Techniques of Policy Development in County, State and National Levels."

Band Program In Schools To Be Expanded

An extensive program of band instruction for the Ranger Schools is being planned by Sam Houston, band instructor. If plans materialize the local schools will have four bands.

The newest band proposed will be sixth grade students from Young and Hodges Oak elementary schools. A meeting is planned for Tuesday to discuss plans of the newest band with parents and interested students, Houston said.

Parents who are interested have been invited to meet with the band director at the Ranger High School band hall at any time between 4 p.m. and 8 p.m. Tuesday, Sept. 14. At that time he hopes to determine if there are enough to form the younger band. It will be necessary for students to furnish their own instruments.

A meeting is planned for parents of members in the beginning band composed of seventh grade students from 4 p.m. to 8 p.m. today.

The Senior High band will have about 50 members this year, and uniforms have already been issued. The band has been holding two rehearsals daily in preparation for their first football game appearance at Colorado City on Friday night.

The Junior High band has 25 members, Houston reported.

Local Police Catch Two Arson Suspects

Less than an hour after an automobile had been burned at Gordon early today, Ranger police had two suspects in jail booked for investigation. At mid-morning they were being questioned by Sheriff Fred Freeman of Palo Pinto County.

It was reported that a witness saw a car leave the scene of a fire where a partially striped 1951 Ford convertible coupe was burning near the edge of Gordon. Peace officers were called and the Ranger Police Department were alerted.

Patrolman Ed Freeman became suspicious of a car coming into Ranger on Highway 89 east, and stopped the driver for questioning. The fire was discovered about 4:30 a.m. and the arrest was made about 5:20 a.m.

A man and his wife, who had been living at a local hotel for several days were placed in the city jail. They said they had moved to Ranger from Fort Worth.

The fire at Gordon was investigated by Constable B. A. Bradford of Strawen, who said that evidence collected at the scene of the fire corresponded with evidence found in the automobile of the suspects.

The car being driven at the time Freeman made the arrest early this morning fitted the description given by the Gordon witness.

Ranger police in checking on the ownership of the burned automobile found it was registered in Tarrant County. The Fort Worth police department advised that it had not been reported stolen at mid-morning.

Shortly before noon today it was learned that the burned automobile belonged to an airman stationed at Biggs Air Force Base, El Paso. An officer at the base said it had been reported to him that the owner of the vehicle, James Grimes was enroute to El Paso Wednesday and broke down east of Ranger, where he and a companion abandoned the car because both of the men had to be back before 7 a. m. today. They had reported to the base before the expiration of their leave time. It was learned that Grimes, owner of the car had been previously stationed at Carswell Air Force Base, Fort Worth.

The man and woman were still being questioned early this afternoon by District Attorney Sam Cleveland and officers from Palo Pinto County.

Oil News — HAGAMAN WELL IS GAUGED AT 192 BARRELS PER DAY

Prospects of another new producer for this area was reported shortly before noon. It is the Brown well south-east of Ranger, where operators were reported to be testing.

Production from the latest completed well in the immediate vicinity of Ranger, the Vaughan Production Co., No. 1-A M. Hagaman has been gauged at 192.22 barrels of 40 gravity oil.

This well, a north offset to the same company's discovery well, the No. 1 M. Hagaman, blew out of control on Aug. 21 and 22, as operators cored into the Marble Falls formation. The No. 1 well, was the discovery producer completed last May to open the new pool.

Location is on the Hagaman ranch northeast of Ranger and is in the E. Chambliss Survey, just a short distance south of the Eastland - Stephens county line.

The potential of the No. 1-A was gauged through a 1-4 inch choke with 600 pounds on casing and 480 pounds pressure on tubing. Flow was from an open hole at 3,620-30 feet, and the gas-oil ratio was 695-1.

Vaughan Production Company has not yet announced location for their next well in the new field.

Three new locations in Eastland County are included in the latest activity reports in the field.

A wildcat test four miles south of Cisco is the West-McClung, et al of Eastland No. 1-O. P. Weiser. It is located 150 feet from the

Highway Fines Light In County During August

"Highway Patrolmen of the Abilene district investigated 82 rural traffic accidents for the month of August 1954," Capt. G. L. Morahan, in charge of the district office reported today.

Three deaths were recorded in the 13-county area and 14 persons injured last month. Property damage in the 83 accidents was estimated at \$44,950.50.

The 20 patrolmen of the district contacted 1,642 traffic violators, with 1,145 being warned and 497 charged with various traffic violations. There were 19 charges of driving while intoxicated; 27 for passing violations in moving traffic; 186 for excessive speeding; 79 for not having an inspection sticker on vehicles and 21 for running stop signs.

Fines were paid in the counties as follows:

Eastland, \$77.00; Callahan, \$1,076.50; Fisher, \$193.70; Haskell, \$174.50; Jones, \$738.25; Mitchell, \$237.00; Nolan, \$782.40; Scurry, \$95.00; Shackelford, \$435.16; Stephens, \$233.30; Stonewall, \$87.50; Taylor, \$1,271.90 and none in Throckmorton.

In traffic supervision patrolmen in the Abilene district traveled 53,211 miles in August.

MISS TEXAS OF 1954—Miss Yvonne Erwin, 21, of Dallas is the Texas entrant in the annual beauty contest which will name "Miss America" at Atlantic City, New Jersey. The finals in the Miss America Pageant will be held on Saturday night, Sept. 11.

Ranger Will Have Third Football Team With Junior High School Pups

First workouts are scheduled Monday for the Ranger Pups, a football team to be composed of students from the Seventh and Eighth grades of Ranger schools, it was announced today by Coach Boone Yarbrough.

The program will include a schedule of eight games on a home and home basis with four other teams from schools in District 9-AA.

Yarbrough expects to have a squad of about 23 boys from the Seventh grade and 20 from the Eighth grade. These will workout during school hours, with the Seventh graders taking the field from 11 a. m. to noon daily, and the Eighth graders practicing from 1 p. m. to 2:30 p. m.

The two groups will be combined when games are played.

The first game will be played at Mineral Wells on Sept. 28.

The Quarterback Club has voted to help in outfitting the Pups with proper uniforms and equipment.

Training and experience these boys receive while playing on the Pups team will groom them for their high school years and will begin to furnish the Bulldogs with greater reserve strength in future years, Yarbrough points out.

ALL DISTRICT 7-A ELEVENS TO SEE ACTION THIS WEEK

District 7-A elevens will swing into action this week with all six teams scheduled to take on opponents. For Cross Plains and Clyde it will be the second game of the season, but the other four teams in the circuit will be going into battle for the first time this year.

The Eastland - Cisco game is rated tops in the six game schedule. It, like all of the games this week, will be a non-district affair. Eastland will be stepping out of single-A play to jump the always rough AA Cisco eleven.

Dublin, favored to win the district race, will meet Hamilton in what is rated the second best game of the week. Clyde, a powerful newcomer to Class A play, will journey to Moran, Cross Plains will be in Early (Brownwood), Rising Star will play host to May and Wylie will entertain Merkel. The Wylie-Merkel game will be played Thursday. All other games are scheduled for Friday.

District 7-A Schedule

EASTLAND at CISCO
CLYDE at MORAN
CROSS PLAINS at EARLY
HAMILTON at DUBLIN
MAY at RISING STAR
MERKEL at WYLIE

Massegee May Rate Varsity For Cowboys

Reports coming from Hardin-Simmons University, indicate that there is a strong possibility of Charles Massegee, an all-state player on the Ranger Bulldog Championship football team last year landing a berth on the varsity squad of the Cowboys. He was one of two freshmen left with the varsity squad after three days of workouts, when the freshman squad began working out separately from the varsity players.

Texas Tech Coach Has Good Record

DeWitt Weaver, who is beginning his fourth season as athletic director and head football coach of the Texas Tech Red Raiders, has already rung up an impressive score for himself during the three years he has been in the Lubbock campus.

So far, under Weaver, the Red Raiders have won two Border Conference championships, the 1952 Sun Bowl over College of the Pacific, and the 1954 Gator Bowl over Auburn. His split-T attack led the nation in scoring last fall. In three seasons Weaver's teams have won 21 games, lost 12, and tied one.

Fight Cattle Grubs In Fall

Few common cattle insects are as costly to Texas producers as the cattle grub, says Neal M. Randolph, extension entomologist, at College Station.

Grubs are killed more readily in the fall when they appear as lumps on the back of livestock, Randolph explains.

A rotenone spray, dust or dip gives effective, economical control. Seven and one-half pounds of derris or cube powder of five percent rotenone in 100 gallons of water makes a good spray. A spray machine with 200 pounds pressure is recommended.

Add 10 pounds of wettable sulfur to the above if a dip is desired. Using a long-handled brush, scrub the backs of the animals as they run through the vat. This assures thorough insecticide penetration, says Randolph.

One pound of five percent rotenone mixed with two pounds of a heavy non-alkaline dust such as ale, tripoli earth or pyrophyllite makes an effective and easy to use dust. Ready prepared dusts must contain at least 1.67 percent rotenone. Work about three ounces into the back of each animal, he says.

Grub treatment, whether a dust, spray or dip, should be repeated at 30 day intervals until new bumps cease to appear.

Childish Fears Must Be Taken Seriously

Most children have fears, and most of their fears have easily traced beginnings and can be handled by patient re-education. But the childish fears that are the most puzzling are those that have no apparent basis, says child expert Irma Simonton Black in Redbook Magazine. There are, however, reasons for these seemingly irrational fears, and ways that you can help your youngster overcome them.

"Some of your child's fears may have easily understandable origins. His fear of dogs may have started when a barking dog chased him; his fear of water, when a wave knocked him down.

"You can handle such fears easily by patiently re-educating your child. The child who is afraid of dogs may be led to approach a cuddly puppy. The child who was frightened at the beach may regain his courage after a few days spent at the water's edge. You must also be patient with your child and give him time to regain confidence.

"But the more puzzling fears are those which appear to have no basis at all. However, there are various reasons for these odd fears. Your child may literally 'catch' a fear, for instance. If you clutch him nervously during a thunderstorm, he'll be afraid, too. You can help him by recognizing your own fears and trying not to show them.

"Your child may become fearful as the result of careless threats. If an irresponsible grown-up tells him that a policeman will come for him if he's naughty, he has reason to be apprehensive about policemen.

"Well-meant warnings may also frighten your child. If you remind him 'Watch out — you'll fall' every time he gets on a high place, he may become terrified of all high places. Keep warnings for moments of real danger, and make them positive. 'Hold on' is better than 'You'll fall'.

"If you expect too much of your child, or are too severe with him, you can put him in constant fear of doing something wrong. Let your child know that you don't expect perfection.

"Remember always to take your child's fears seriously. Never shame him for being afraid. Help him to build strength by showing him that you have confidence in him. Encourage him to assert himself—perhaps through independent play. And, most important—your acceptance of him—no matter what he fears, or how he works his fears out—will prove to him that you are on his side.

Request Made For Fire Dept. In Rural Areas

Each of the cities of Eastland County had representatives at the meeting Tuesday of the Commissioner's Court of Eastland County for the purpose of asking that Eastland County participate in a county wide plan for fighting rural fires.

Commissioners were asked for money to pay for equipment and upkeep for such a purpose. It was pointed out that not only was the city without fire protection when its equipment was out of the city limits, but that insurance on the equipment and liability insurance on the firemen was void.

The Commissioners were favorable and promised the help of the county, when such a provision was made that made it possible to participate within the statutes set up for the spending of County funds.

Wayne Jackson, City manager A. E. Taylor, Otto Marshall, and Guy Robinson spoke for the Eastland group.

Leslie Hagaman of Ranger spoke for the City of Ranger, their fire department and for himself, as a rural rancher and home owner. He praised the Ranger fire department for help given in time of need, but also thought that a rural plan should be worked out even if it meant extra taxes to do so.

Herbert Whitlock, Gorman fire chief, and Harvey Parker, city commissioner, spoke for Gorman. Parker stated that the line of the City of Gorman and their rural area had been wiped out long ago and that their equipment responded to all rural calls, but he also believed that a county plan should be worked out.

Others from Gorman were Ed Harrison and A. E. Smith.

Henry Carter, county commissioner, who lives at Rising Star, spoke for the Rising Star fire department.

Sutton Crofts, rural fire chief in charge of equipment purchased by ranchers and oil men in the Cisco area, which is housed by the City of Cisco spoke in favor of the plan. L. E. Sublett, Cisco fire chief and R. N. Cluck, Cisco city commissioner, also spoke. Cluck laughingly told the court that they "should be happy to grant funds within any amount since that it was the first time in history of Cisco, Eastland and Ranger being in accord on the subject."

Better Soil Management Subject For Talk To Rotary, Lions Clubs

One of the high points planned for the Wednesday noon joint meeting of the Rotary and Lions Clubs, was to have been the presentation of the \$50.00 Chamber of Commerce bonus for the cotton farmer bringing the first bale of 1954 crop to Ranger. The guest to have been so honored, Frank Penn, was unable to attend.

Floyd Killingsworth, president of the Chamber of Commerce, spoke briefly and said that the organization is interested in the agricultural problems in this area. The check was presented by him to W. F. Creager, chairman of the Agricultural committee of the Chamber of Commerce to be given to Mr. Penn.

Beverly Dudley, Jr., vocational agricultural instructor at Ranger High School, representing the Lions Club was program chairman. Bill Garner of Eastland, with the Soil Conservation Service, was the

principal speaker at the Wednesday meeting.

In his remarks, Dudley said that the yield per acre of farm crops was the determining factor for the profit per acre. He pointed out that this immediate area will harvest poor crops due to the prolonged drought.

Garner is discussing soil building practices, said that Eastland County was a large cotton producing county some years ago, but that cotton production in the county declined for a number of years. A good harvest on about 4,000 acres of cotton in 1949 aroused new interest in cotton production and a few years later acreage to cotton increased up to about 8,000 acres. Last year there were 7,000 acres planted to cotton in this county. The county allotment was 5,000 acres for this year.

Garner said that cotton in this county will not average a fourth of a bale to the acre. Despite the fact that many have attributed short crops to insects, and the drought, he claimed proper soil management would raise the yield per acre in wet or dry years.

The principal portion of his discussion was centered on a project in Bastrop County, and the explanation of how by careful and scientific management of land, a farmer restored an old farm to one of the most successful and profitable farms in the state.

G. B. Rush, in the absence of D. Joseph, president of the Rotary Club, presided. Morris George, president of the Lions Club, introduced Dr. Grady Tice as a new member of that club.

This well is in Sec. 78 T&P Survey and was drilled to a depth of 1,936 feet. Production is being pumped from 40 perforations at 1,842-52 feet.

The J. F. Baker and Mollie B. Baker Trusts No. 33 J. N. Stuart has been completed for 16 barrels of 36 gravity oil, as a regular field producer six miles southwest of Caddo. The well is pumping from perforations at 1,813-20 feet. Total depth was 1,855 feet. Location is in Sec. 75, Blk. 4, T&P Survey.

New location in the Gilchrist-Swenson Strawn field eight miles east of Breckenridge, the Gilchrist Drilling Company has staked its No. 3-A Swenson Ranch. The well will be drilled to a depth of 1,995 and is 875 feet from the east and 1,345 feet from the north lines of Sec. 37, Blk. 4, T&P Survey.

The D-K Drilling Co., of Midland has staked No. 1 Mrs. J. R. Hill, in the Rickles - Conglomerate Field 15 miles northeast of Breckenridge. The well is scheduled for a depth of 4,500 feet with rotary rig. Location is 1,513 feet from the east and 330 feet from the south lines of Sec. 12, Blk. 2, S.P. Survey.

Menefee and Parsley of Olney No. 1 Pitts-Bradford, wildcat seven miles south of Caddo has been plugged at 2,200 feet. Location was in Section 69, Block 6, T&P Survey.

Plugged at 4,876 feet was McMahon - Bullington Drilling Co. of Wichita Falls No. 3 Roy A. Corbett, two miles south of South Bend. The project was in the Bousaville Conglomerate Field, Tuffy Campbell Survey.

G. B. Rush, in the absence of D. Joseph, president of the Rotary Club, presided. Morris George, president of the Lions Club, introduced Dr. Grady Tice as a new member of that club.

Texas Methodists Observe Wesley Foundation Day

Texas Methodists will be observing Wesley Foundation Day at regularly scheduled worship services and special programs on Sunday, Sept. 12. This observance is held in the interest of students of each individual church and the 30,000 Methodist students all over Texas.

The Methodist Church in Texas operates a program of Bible courses and training activities on a full-time basis at 18 colleges in Texas, employing 21 full-time workers and part-time workers.

Sixteen Methodist student center buildings are supervised by the church, providing classrooms, libraries, meeting rooms and recreational facilities at the campuses of as many colleges.

This Methodist program for students includes the Wesley Foundation organization for the training of students in churchmanship and the Wesley Bible Chairs through which Methodist instructors teach Bible and religion for full college credit.

Mr. and Mrs. W. W. Jones attended the Rippetoe Family Reunion in Stephenville Monday.

County Budget Is Adopted By Commissioners

Eastland County Commissioners Tuesday adopted a budget for the coming year that set a 75 cent tax levy and estimated disbursements would be \$331,790.71. The budget, as recommended by Earl O'Brien, county auditor, was unanimously approved.

The tax levy of 75 cents is the same as the present levy. The budget estimates cash receipts will be \$309,340.09. O'Brien said he based that figure on 80 percent collection of the tax rolls. The estimate is conservative since last year's collections totaled 91.1 percent.

O'Brien had figures for the last five years which showed collections of taxes for each year. In 1949, 84.2 percent of the tax roll was collected; in 1950, 92.4 percent; in 1951, 92.8 percent; and in 1952, 93.05 percent.

A breakdown of the tax levy shows that four cents goes for the jury fund; 25 cents for the road and bridge fund; 35 cents for the general fund; one cent for the permanent improvement fund; and 10 cents for the courthouse interest and sinking fund.

The budget shows that as of Jan. 1 there will be a balance on hand of \$265,272.44. That will make the total resources for the coming year total \$574,613.13.

The courthouse indebtedness as of now is \$92,000. The original cost was \$300,000 and the building will be paid for March 15, 1961.

Commissioners did not approve a contribution of \$250 a month for the county hospital which they have been making. However, they indicated that on Jan. 1 they may return that figure to the budget.

Mrs. Jack Redford of Muskogee, Okla. and Mr. and Mrs. Onis R. Mills of Grand Prairie spent the Labor Day week end here visiting Mr. and Mrs. W. W. Jones and the Glenn Covingtons.

BETTI'S BUDGET OF HELPFUL HINTS

Now is a good time to re-establish the family's good breakfast habit. Remember, breakfast is the first nourishment the body receives after a period of 12 to 15 hours fast, and you need a good breakfast to keep you going until noon. It's wise to have the family eat together, instead of in shifts, if possible. A good breakfast pattern includes fruit or juice, whole grain cereal or bread, and milk. Vary with an egg and meat as often as possible. Bring variety into your breakfast menus by serving different kinds of toasts and hot breads. Serve fruit in season. Frozen fruit juice concentrates are helpful, too, in introducing variety.

The automatic clothes dryer now available make it possible to do laundry any time of the day or night. Returning children's clothes to service so quickly cuts the number needed for growing boys.

Mr. and Mrs. Paul Mathis of Roswell, N.M. visited over the week end with their parents, Mr. and Mrs. John Usery and Mrs. Anna May Mathis.

Mr. and Mrs. Lonnie Usery of Fort Worth visited his parents, the John Userys, over the Labor Day week end.

NOW YOU CAN LICK ATHLETE'S FOOT WITH KERATOLYTIC ACTION

T-4-L, a keratolytic fungicide, SLOUGHS OFF the tainted outer skin, exposing buried fungi and kills on contact. Leaves skin like baby's. In just ONE HOUR, if not pleased, your 40c back at any drug store. Today at Swaney's Pharmacy.

Farm Bureau's Annual Meet Set For Saturday

The annual meeting of the Eastland County Farm Bureau will be held at 7:30 p.m. Saturday at the City Park in Eastland. Dr. Herbert E. Stott of Denver, Colo., will be the featured speaker.

Following a barbecue which will be served beginning at 7:30 p.m., the program will be held. Included on the program will be group singing, introduction of visitors, Dr. Stott's address, and a brief talk by S. E. Cloninger, manager of the Southwestern Peanut Growers' Association.

Tickets for adults will be fifty cents and children, accompanied by their parents will be admitted free. Visitors are invited to the meeting and tickets can be obtained from Farm Bureau members, or at the Chamber of Commerce office.

Mr. and Mrs. W. W. Jones attended the Rippetoe Family Reunion in Stephenville Monday.

and girls, as well as eliminating a lot of mother's labor.

Try this for a delicious addition to the cake-and-ice-cream combination. Take two thin slices of angel food cake and put an ample serving of peppermint ice cream between them. Make a fudge sauce in the double boiler and serve while hot to your guests.

If your piano keys need a little attention, wipe them with a cloth dipped in oil of camphor. Leave on a few minutes before wiping off with a clean soft cloth.

When doughnuts get slightly stale, and you don't know what to do with them, slice them in two and toast them in the broiler. Butter and serve hot.

Don't try this on pipes, but your cigarette holder should be washed in soapy hot water at least once a week if it's used frequently. Take the holder apart to make sure the lather reaches all the recesses. Use a small, stiff brush and several pipe cleaners to eliminate tobacco hidden in the cracks. Rinse well with clear, hot water.

Cream cheese is a lunch box favorite. Treat your children to taste-testing sandwiches made with this honey-orange spread. Combine 1 three-ounce package softened cream cheese with 1 tablespoon honey and 1 teaspoon grated orange rind, mixing until well blended and creamy. Makes filling for about 8 sandwiches.

SOCIETY

First Reunion of Hale Family Held Over Labor Day in Abilene

The first reunion of the Hale family was held last Saturday night and Sunday at the Abilene State Park. This is to be an annual affair each Labor Day week end.

WSCS Members Resume Meetings

Members of the Woman's Society of Christian Service of the First Methodist Church will meet in circles at 3:30 Monday afternoon, September 13 as follows:

Second Baptist WMU Completes Study of Manual

The Woman's Missionary Union of the Second Baptist church met at 2:45 Monday afternoon at the church, to complete their study of the W.M.U. Manual.

Mr. and Mrs. Bill Nichols and Pamela Kaye of Hondo; Mr. and Mrs. Loy Hale of Grand Prairie; Mr. and Mrs. Bob Allen and Ricky and Mr. and Mrs. A. N. Hale of Huckabay; Mrs. Ruby Lee Axby and Virginia Lee Gray of Dallas.

Mr. and Mrs. E. O. Taylor, Mike and Charlene of Midland; Mrs. E. R. Ball, Harlon and Nolan of Fluvanna; Mr. and Mrs. U. E. Westmoreland of Odessa; Mr. and Mrs. John Minnick, Edwin and Sheila of Big Spring; and Mrs. Bob Creswell, Bobby and Mike of Hermitage.

Dr. White To Continue Study in Dallas

Dr. and Mrs. John E. White and children, Leland and Jackie, visited Dr. and Mrs. W. P. Watkins and family last week.

Love SS Class Meets Tonight

Members of the Love Sunday School class of the First Baptist Church will meet at 7 o'clock this evening in the home of Mrs. W. A. Lewis.

Fire Department Auxiliary Has Meeting Tuesday

The Auxiliary of the Volunteer Fire Department met Tuesday evening, September 7, at 7:30 for their monthly business meeting.

The meeting closed with everyone repeating the Lord's Prayer. Those attending were: Mmes. Virge Johnson, Bill Ewing, Bill Myers, L. T. Rushing and Jack Mace.

Royal Neighbors To Meet At 7:30 p.m. Monday

The Royal Neighbors of America No. 8059 will hold their meetings at 7:30 p.m. instead of 8 p.m. beginning Monday, September 13, according to an announcement made today.

All members are asked to be present Monday to complete plans for the convention which will be held in Ranger on October 14.

LOOK WHO'S NEW

Mr. and Mrs. Dennis Garrett of Eastland are the parents of a 7 pound 3 1/2 ounce boy, Tony Craig, born at 9:50 a.m. Tuesday, September 7 at Ranger General Hospital.

Hospital Report

New admissions at the Ranger General Hospital are: Mrs. Roy McGough, Ranger, surgical; Mrs. M. L. Doell, Mingus, surgical; and J. O. Harris, Cisco, surgical.

New patients at the West Texas Hospital include: Mrs. H. E. Shipman; Rita Sanchez; Mrs. Don Fordyce; and Max Johnson, all of Ranger.

PERSONALS

Mr. and Mrs. Blackie Huffman attended a reunion of his mother's family in Walters, Okla. over the week end. There were 69 in attendance including ten of the thirteen children and their families.

Mr. and Mrs. Lloyd Bruce and grandsons, Ricky and Bruce Thomas, spent the holiday week end in Corpus Christi where they visited Mr. and Mrs. Callie Smith. Mrs. Smith is the former Rosemary Bruce.

Mr. and Mrs. C. B. Pruet and Carolyn returned recently from a vacation trip to Laguna Beach, Calif. They also visited Grand Canyon, Carolyn has now returned to her studies at Texas University in Austin.

The A. D. Wynn family spent the week end visiting the E. G. Wynns in Kilgore, the C. H. Wynns in Longview and friends in Mineola and Farmersville.

Mrs. O. G. Laier spent the holiday week end in Midland where she visited her daughter and husband, Mr. and Mrs. Walter Pruitt. She also attended the wedding of Miss Mary Jo Hejl, for which Mrs. Pruitt was soloist.

Mr. and Mrs. Burnice S. Lemmas of Ingleside, Texas, are in Ranger visiting Mrs. C. A. Hummel and other friends.

Mrs. Saunders Gregg has returned, by way of California, from a month's vacation in Canada visiting her son Lewis Gregg.

Coming Events Listed By New County HD Agent

An important activity on the County Home Demonstration Agent's, the County Agent's, and the Assistant County Agent's calendar for this week is a meeting of the acting Eastland County 4-H Club Council. The Council will meet Friday, September 10, at 7:30 p.m. in the County Court room on the third floor of the court house.

Another important event for the County Home Demonstration Agent is a leader training meeting which will be held in her office Friday, September 10, at 2:00 p.m. The purpose of this meeting is to train garden leaders to give the demonstration "What to Buy When We Buy Vegetables." All garden leaders in the home demonstration clubs are urged to attend this meeting.

Saturday morning, September 11, at 10:00 a.m. there will be a meeting of all the 1953-54 4-H Club Presidents and their adult leaders. The meeting will be held in the County Home Demonstration Agent's office, and it is concerned with only the girls 4-H Clubs. The purpose of this meeting is to select two major areas for club programs and to work on the year book for 1954-55. It is important that each club be represented. If it is not possible for the club president and adult leader to be here they should be sure that someone comes in their place.

Minnie Mae Hillingsley, County Home Demonstration Agent, will go to Stephenville Monday, September 13, for a sub-district meeting.

Mr. and Mrs. T. J. Anderson spent the holiday week end in San Angelo visiting his sisters, Mrs. W. S. Wright and Mrs. G. J. Miller.

daily life... incident or... circumstances... unless... break as to... using mood... true... the annoying... of the day may lead to... bursts of ill-temper, or arouse... feelings of hatred, envy or jealousy. But what one does, in the long run, if life has any real worth, is determined by what one is. Character lies back of every thought and deed. It was thus that Jesus stated it again and again, thus fulfilling the religion of the Old Testament saints and prophets, which He said He had not come to destroy but to fulfill. In the Gospel there is the word of life, the revelation of God's love and grace; the gift of God, which is eternal life. In the Gospel there are the words of guidance for living, set forth in the teachings even as in the examples set by the Master. In the Gospel there is the inspiration and incentive in the promise of power, the inflowing of a divine help that uplifts and strengthens human weaknesses, the experience that St. Paul meant when he said, "My strength is made perfect in weakness." To know the Gospel, to live from day to day in the records of what Jesus said and did, is to discover the Gospel in all its reality and power. When such knowledge is available to all of us, how can we fail to make the Gospel a way of daily life? How can we fail to take advantage of Jesus' promise of a more abundant life?

State's Liquor Revenues Are Up

AUSTIN — July revenue totals for the Texas Liquor Control Board showed a \$35,000 boost over those for July, 1953, in the third consecutive month that figures have bested last year totals. Revenue for July totaled \$1,375,582.53, Board Administrator Coke R. Stevenson, Jr., reported. The amount was derived from liquor excise taxes, permit and license fees, and confiscated sales during the month. Largest portion of the revenue, \$692,000, came from excise taxes on distilled spirits with the next largest amount derived from beer taxes.

How Often Have I Wondered—

... why so many other people get along better than I. Ever have that feeling? If so, it's time for us to do a little soul-searching together. If we are day-dreaming or drifting along aimlessly without thought or reason, let's stop and about face. Let's begin to do things wisely. Let's guard against buying property with faulty titles. Investing in good titles is a sure way to get along better financially—better than those who don't. I will if you will!

EARL BENDER & COMPANY
 Eastland (Abstracting since 1923) Texas

SUPERSONIC DEVASTATOR—The Army's Corporal guided missile—travels through space at several times the speed of sound to strike selected targets deep in enemy rear areas. Inclement weather and poor visibility place no restriction on the use of this deadly missile which is propelled by a powerful rocket motor.

Drought last year prompted the greatest expansion in Texas irrigation history. More than 5,000,000 acres were irrigated in 212 counties.

Humble's new HOUSTON RESEARCH CENTER

... is dedicated to man's impelling curiosity in the search for knowledge and its useful application in the specialized fields of petroleum exploration and production.

Dedicated to Man's Impelling Curiosity

Most of us interpret the value of research in terms of immediate benefits. Research means that we get a better automobile, an improved gasoline, or an outstanding motor oil.

At Baytown Refinery, the Humble Company maintains one of the finest laboratories in the petroleum industry for that kind of research.

But behind the study that goes into the improvement of the products it sells, Humble for years has fostered basic research related to the discovery and production of oil and natural gas.

The United States uses so much oil from day to day, and needs so much more to provide for the emergencies of national defense, that studies leading to the discovery of new supplies

and the more efficient management of existing reservoirs are more important than ever before. Consequently, Humble's expenditures on this sort of research are the heaviest in the Company's history and its staff of research scientists is larger than it has ever been.

To house the expansion of these research sections, Humble recently completed its new Research Center at Houston and will formally dedicate it this week end.

Here the scientists of the various departments involved in the discovery and production of oil will utilize common facilities, and here they will have the stimulation of close association with other scientists whose efforts are dedicated to a common end.

- Fluid Mechanics
- Geophysics
- Geology
- Geochemistry
- Drilling Muds
- Well Log Interpretation
- Subsurface Instruments
- Reservoir Behavior
- Well Stimulation
- Well Cementing

The new Houston Research Center will provide facilities for research in:
