Rangers Begin Loop Play At Arlington

ference basketball title will open -league opponents so far this sea-at Arilington Saturday night with son, the San Angelo Rams and the the ASC Rebels playing hosts to the Ranger Junior College Rangers in the first league setto of the Schreiner Institute Mountaineers appear to be championship con-tenders. San Angelo is the defenin the first league setto of the

We have noted with son mor eness the apparent death of the Junior Chamber of Commerce in Ranger. This is supposedly the young man's world, but the dis-

is true that the Jaycees are opener Saturday night.
Tarleton State, Schreiner, and It is true that the Jaycees are open that the Jaycees are of the serior as their big brothers, the senior Chamber of Commerce, but the chamber of Commerce, but the league opposition.

Tarleton State, Schreiner, and San Angelo will continue their schedules this week with non-league opposition. · junior club is certainly a stepping least and training unit to bigger

things to come. From the junior organization, they learn of the complexities of the problems that confront their forerunners and in days to come grow better equipped to control the irregularities that exist when it becomes their job in civic lington

Seen riding about town earlier County at Big Spring.
In the week in one of the county at Big Spring.

Wednesday — Tarleton State Gdy Robinson of Eastland, was automobiles, was the county's new vs. North Texas State Frosh at elected as president of the association at the meeting. deputy sheriff. A new face in the Denton county law position but certainly riday — Schreiner vs. Odessa not a new face on the local law JC at Kerrville; Tarleton State so walked off with two top honenforcing agencies.

We predict a strong athletic movement at Ranger Junior Col-lege suce the recent switch in the coaching staff. Production will be theme as aspirants are inter viewed for the existing vacanc slouches will remain.

We have on the highways a hid den ghost. Everytime you hea trip their conversation generally includes the fact that their car is in good shape and there will only be one thing holding them down— that being radar. We have not heard of a single report where anyone was charged with speeding near here with the way of the ear here with the use of radarl However, the ominous warning signs seem to serve as a deserent to speedsters. Who knows, the next time it may be there.

We would like to know how one public organ manages to get so many quotes and so much information of almost identical substance that appears in larger news publications. Just a word of warn-- watch the copyright laws.

I think that we can safely say that the groundwork for the city ing carefully lain, or is it strict-rumor that a transfer from a unty job to high in local city ition will be enacted on the mpletion of the coming day at

. Rat Extermination: We were recently advised on the most rapid, economical and efficient method of ridding ourselves of rats in any one given building, home, etc. Not that we were seeking information because we are infested with rodents, but just happened to stum-ble upon it.

Our advice was to purchase a trap that in no way will injure the pest when caught. After we have managed to obtain one, he is to be rolled in tar then feathered, and

turned loose, completely free.

It is natural that the rodent will return to the places where his one-time friends hang out, and he in his new fashion will scare the others almost out of their wits and away from their natural habitat in search of a new home. Simple, huh!

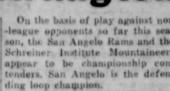

Lem Rushing, a staunch sup-porter and participant in the act-ivities of the volunteer fire de-per int says that water pressure a conderful thing and that he wasn troomplaining, but the pres-sure wreaked havoc with the local

sure wreaked havoe with the local crew in their pumper contest at Mineral Wells Tuesday night.

In one of the main events and also in a run-off the Ranger team was disqualified when the pressure new the hoses off the pump on the truck. It seems, that the pressure there practically doubles that here in Ranger, and that the crew captain called for water before the poses were completely secured as

the practice here.

The sudden, strong surge blew the hoses completely loose and he Hanger team was marked "no ime" in the score board.

The Tarleton State Plowboys, cellar dwellers last season, gave indication of being greatly improved and may move into a con-tender's role. The Plowboys have four lettermen including highscoring James Page of Ponder

back this season.
Range,r paced by Lloyd Cog-burn, at present the loop's leading scorer, has lost six of seven non-conference games, all by narrow margins. The West Texans may prove to be a dark horse in loop

bandment of the organization squad is showing improvement, would throw cold water on the however, and is expected to put up a spirited scrap in the league

Paying Poll Tax January 31

Paid your poll tax yet? If you Tax Collector Stanley Webb

750 Eastland Countians have paid their poll taxes so far. He said that poll tax slips can be secured from his office in the courthouse in Eastland and at four sub-stations in the county. The sub-stations are located at C. E. May Insurance Co. in Ranger, Chamber of Commerce in Cisco, Higginbotham Bros. in Gorman and Rising Star Chamber of Commerce.

This is an "off year" politically, but Eastland Countians were reminded by Webb that they car never know when they may need to vote on a special issue.

Deadline for paying the tax is

WORLD'S FINEST PLANT FOR Over 7,000 Cattle, Horses, Sheep, Swine, Poultry, Turkeys, Rabbits and Pigeons

Every Texan profits in a large way from every barrel of crude oil and every cubic foot of natural gas produced in the State.

Directly. Taxes paid by the petroleum industry to support all agencies of the State Government, including schools, old age assistance, and welfare institutions, totaled \$170 million in 1954, more than a third of all the taxes collected by the State. And, in addition, the industry pays millions in other taxes to counties, school districts, and municipalities.

Indirect profits are even greater. Industry employees receive and spend about \$850 millior. a year; royalty and lease payments to landowners add up to \$500 million. Most of this money pass s promptly into trade channels.

As a result, you'll find oil dollars on every

balance sheet in Texas and in every bank account, including your own.

... But you can't figure profits in money

The chief profit from the production of oil and natural gas rests in what these fuels do: In the miles you cover with your car ... in heat for your home...in the usefulness of articles made from petroleum hydrocarbons...in the power that moves long trains across the continent and turns the wheels of the large industrial plants."

This profit Texans share with all Americans. It is reflected in the American standard of living, which is the world's highest; and it provides a dividend of national security, because a well developed, efficiently operated petroleum industry is one of the major resources in the U.S. arsenal HUMBLE for national defense.

Here's An Oatmeat Cooky With A New Flavor

Here's the kind of cooky that will keep all hands—big and little—reaching for more. It's an entirely new oatmeal cooky made with rolled oats and pecans, plus the tang? accent of lemon.

You'll have the cookies in the oven in very little time, for they're quickly mixed in just one bowl. The flavor is perked up with the addition of grated lemon rind and lemon juice and they're extra-crisp and crunchy 'cause they contain both rolled oats and pecans.

Ayou can use either the regular or quick-cooking rolled oats—both and extra whole grain goodness, flavor and crispness.

Fill up your cooky jar today with this new recipe—perfect cookies for an after-school or evening snack with tall glasses of milk.

Lemon Pecan Oatmeal Cooky 1 cup sifted all-purpose

1/4 teaspoon soda
1/4 teaspoon salt
1/4 cup fat
1/4 cup brown sugar
1/4 cup granulated sugar

1 egg 1 tablespoon grated lemon rind 3 tablespoons lemon juice 3 tablespoons lemon juice 3 cup chopped pecans 1 cups rolled oats,

Sift together flour, seda, and salt into bowl. Add fat, sugars, egg, lemon rind, and lemon juice. Ecat until smooth, about 2 minutes. Fold in pecans and rolled cats. Drop by teaspoonfuls onto greased cooky sheet and bake in moderate oven (375°F.) 8 to 10 minutes.

This is about YOU and your telephone service

DI EASING you is the big job of the 25,600 I telephone men and women in Texas.

How well did we do that job in 1954? We hope you liked the speed and courtesy of your telephone service. As one busy year ends and another begins, this a good time to pause and take stock.

1954 was a busy year

The year 1954 was a busy one for the people who furnish your telephone service. To give you some idea of some of the accom-plishments of 1954 nents of 1954, we've arranged the highlights in the form of a box score below.

We tried especially hard all year to be friendly, cooperative, and pleasant to deal with. We worked out new ways to handle your calls faster and better.

To serve Texas farm families better, we added 3,000 telephones in the rural areas last year. This brought to 90,000 the number of telephones in service on the farms and ranches in Texas at the end of the year. As rapidly as our finances permit, we are replacing crank-type telephones with lift-the-receiver and dial telephones. A healthy farm economy is essential to the progress of Texas, and we want to do our part by seeing that Texas farmers and ranchers have good, dependable telephone service.

The financial side of the story

It's not easy to keep earnings up when expenses are rising rapidly and when you have to keep investing additional huge sums of money to keep pace with the growing needs of Texas. But, we're glad to report, the telephone company's earnings showed some improvement in 1954.

As we put more money into new tele-phone facilities, at present day prices, our expenses increase also, because it takes more money to operate the larger tele-phone system. Operating expenses last year were highest in the company's his-tory and we must expect further increases in 1055.

The problem is to make it "good busi-

ness" to continue investing additional huge sums of money for more telephone facilities in Texas.

More expansion in 1955

You can look forward to more telephone progress in Texas in 1955. During the year we plan to add 86,000 more telephones in Texas for new families, new business con-cerns. We will enlarge telephone buildings and erect new buildings where needed . . . continue the expansion of the network of outside lines and cables ... and enlarge and make more storm-proof the long dis-tance lines throughout the state.

At the start of this new year, Texas telephone people rededicate themselves to the big job that lies ahead . . . to furnish you the kind of service you want, when and where you want it.

> W. L. PREHN, General Manager

THE 1954 BOX SCORE OF TELEPHONE PROGRESS IN TEXAS

We carried out an \$80 million construction program in Texas.

- We placed \$5,670 poles and 681,000
- · We changed 30 towns to dial service.
- We erected 53 new buildings, engaged 13 other telephone buildings.
- We added complex new equipment in 63 central offices.
- . We added \$5,000 telephones in Texas. . We placed 26,000 circuit miles of stormresistant cable and radio relay to protect service from bad weather interruptions.
- We provided good jobs for 25,600
- . We had a \$97 million telephone payroll.

We paid \$53,000,000 in Federal, state and local taxes.
