about county by b. m. n.

Farmers of the Sunnyside community and businessmen of Dimmitt who failed to attend the farmer-businessman dinner at Sunnyside Tuesday evening missed a treat. Some fifty-nine farmers and businessmen enjoyed the dinner of fried fish, hush puppies, salad and French fried spuds and an assortment of stories that you can only hear at an all-male dinner.

Sunnyside is among the more progressive communities in the state. A number of years ago the community on the Brazos River in the south side of Castro County won first place in a statewide community contest, and if the contest is ever held again we would suspect that Sunnyside would be named the restore the "Follow Through" winner. A wholesome and healthy attitude prevails at Sunnyside and they are not only said Monday. the type of people that make you feel welcome they make gressman George Mahon that you feel at home.

There is little doubt that the farmers, both young and old, will carry their end of the load in the continued development of the county, and it is on their efforts that we chiefly depend for progress. If the business community will match the ingenuity and progressive methods of the farmers of the county, in the operation of their businesses the future growth of the county as a whole will be assured.

The dinner at Sunnyside was reponsored by the Chamber of Commerce. Dr. David Bechtol, chamber president served as emcee and Elvon DeVaney was program chairman.

We should have more functions of this type in the various communities of the county. Arrangements can be made by community leaders contacting the Chamber of Commerce of-

The Church is God's appointed agency in this world for spreading the knowledge of His love

for man and of His demand for man to respond to that love by loving his neighbor. Without

this grounding in the love of God, no government or society or way of life will long

persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even

from a selfish point of view, one should support the Church for the sake of the welfare

of himself and his family. Beyond that, however, every person should uphold and par-

ticipate in the Church because it tells the truth about man's life, death and destiny; the

truth which alone will set him free to live as a child of God.

WE WON!-Restoring these antiques during the furniture refinishing workshop were major victories for Mrs. Carolyn Watts (left) and Mrs Sue Boozer. At the workshop's first session, class members voted Mrs. Watts's heirloom rosewood dresser as "the piece least likely to succeed" because

of the damage it had suffered through the years-but now it's a showpiece. Mrs. Boozer's old oak rocker had been broken, reglued and patched-but now its a showpiece, too, refinished in a combination of antique yellow and natural.

PROUD TEACHER - Mrs. Lana Downing, who taught the furniture refinishing workshop for the Extension Service, proudly surveys her students' work during the project show which the ladies held last Thursday at the Bethel Community Building. By LANA DOWNING Most of the pieces the ladies have refinished were old family relics, having no great value until restored.

Maxine Bullard has done a heavily carved oak mirror frame. Its value when refinished would be at least \$100. She also did a small round table with veneer inlay in a pretty design on the table top. Estimated value, refinished: \$45.

JUST THINKING

About the seniors. They're quite a group, these young men and women. They're a big, big part of our home town. Once they were the little boys you saw playing football on a vacant lot, and the little girls having play tea parties for their dolls.

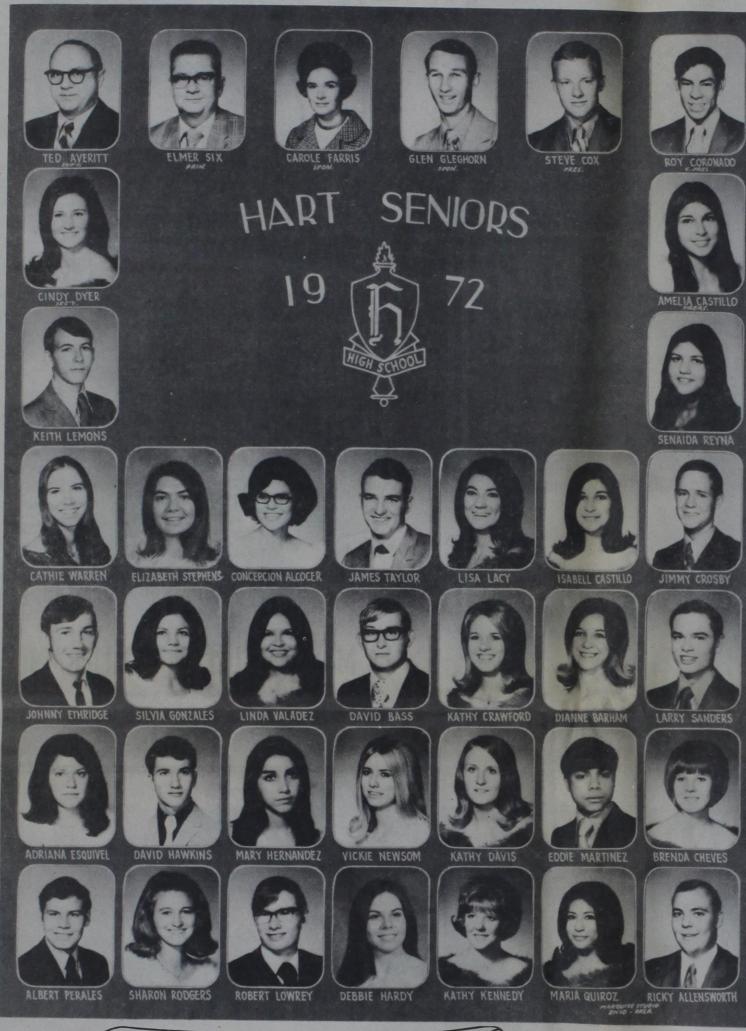

Today, they are mature young people on Graduation Day and ready and confident ... eager to take up new challenges, strive for new goals.

We're exceptionally proud of you, Seniors, and we wish each of you a full measure of success and happiness in every endeavor.

ALL THE BEST CHANGES

Building Your Future
Is Like Building A House
Or Anything Else....

You must have a firm foundation. Your early home life and grade schools provide this....

The floor to your future must be firmly cemented on certain ideals, beliefs and integrity. . . .

Your High School days added to the sides of the structure with concrete ideas, hopes and knowledge. . . .

You must stay on the beam to climb past the rafters and put a lasting siding on your future that will not mar, tarnish or deteriorate. . . .

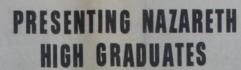

From all this you'll near the top of your goal and the way you'll go from here will be up. . . .

After you've found your place in life and put the roof on your future, you'll be ready to enjoy something you've worked and built up thru the years. . . .
