### Gas Still Best Shopping Item Official Says

Competition, research and the public's price-conscious buying habits are the reasons "gasoline continues to be the family's best shopping bargain," according to Pat Thomas of the Ranger Oil Industry Information Committee.

**WINNING BLUR**—It's just as difficult for the batter as it is for the camera to focus on the striking swiftness of Herb Score's left hand. Shown in practice with the Cleveland Indians, the 21-year-old new-comer to the majors is from Labeland, Tex. He recently racked up 16 strikeouts in one game, only two less than the record of 18 set in 1933 by veteran teammate Bob Feller.

Tailor: "Oh, that's all right."  
Customer: "Thanks, when will the suit be ready?"  
Tailor: "In about three months."

Pat Mosley, former secretary of the Junior Chamber of Commerce and warrant officer with the National Guard here, has been receiving correspondence addressed to Mrs. Pat Mosley, rodeo chairman. Seems that his troops consider the title rather amusing.

This is a tough little problem, but no tougher than the man had to solve when he got to the three toll bridges. You see, the man had to go to market, and was surprised to find that he had to cross three toll bridges. You see, the man had enough money to pay the tolls both going and coming, so he arranged with the man at the first bridge if he would let him pass, on the way home he would give him one-half of the apples he had, plus one half an apple. He made the same kind of a deal with the men at the other two bridges.

The Volunteer Fire Department had a rather enjoyable surprise at their Tuesday night semi-monthly meeting.

Mrs. Rushing, whose husband, Lem, has just returned to the ranks of the volunteer firemen, after serving as fire and police commissioner for the past two years, baked a beautiful spice cake for the group to go with their coffee.

We can remember in times before May 1, when there was never any question asked about the proceedings of the city commissioner's meetings. It's not the case anymore.

## IT'S THE LAW in Texas

"IF I SHOULD DIE . . ."

What will happen if you should die without executing a legal and proper will? Who will inherit your property? Your husband, wife, mother, father, children, your wife's relatives? The best way you can say who will have it is to provide a will which will protect your rightful beneficiaries and dispose of your property in accordance with your wishes.

When a deceased has no will, or dies "intestate" as the law calls it, the property of that person is distributed according to a detailed formula fixed by law. In some cases this may be the way you yourself would divide it — but in many cases it is not.

The provisions of the law concerning the distribution of the property of a person who dies without a will are rather complicated, and all of the possibilities cannot be covered by a general statement.

There are different rules for real estate and for personal prop-

erty, for community property and for separate property, for homestead property, and for all of the many possible combinations of surviving relatives. Each situation must be carefully studied to determine the correct distribution of the property.

For example, here is a general idea of how the community property which you and your spouse have accumulated will be divided if you do not make a will prior to your death.

If your husband or wife survives and there are no children, the surviving spouse receives all of the property.

If, in addition, there are surviving children or descendants of deceased children, they would divide one-half of the property, while the surviving spouse would receive the other one-half.

Of course, grandchildren do not share in the estate unless their parent who would inherit is deceased. And when descendants of previously deceased children do inherit, they receive only the portion that the child would have received, regardless of the number of such descendants.

An odd note, perhaps, is that the surviving spouse already owns one-half of the community estate prior to your death, and the law adds nothing to this share where there are children surviving.

When there are only children and their descendants surviving, they divide the entire community estate between them.

A free pamphlet containing use-

ful information on wills and related matters has been prepared by Texas lawyers. To obtain a copy, merely print your name and address on a postcard and mail to State Bar of Texas, Colorado at Fifteenth, Austin 1, Texas.

(This column, based on Texas law, is written to inform — not to advise. No person should ever apply or interpret any law without the aid of an attorney who knows the facts because the facts may change the application of the law.)

# More Fine-Car Features than any other car priced so low!

**POWER**—Pontiac's husky 200-horsepower Strato-Streak V-8 with four-barrel carburetor, optional at low extra cost, delivers more power than any car within hundreds of dollars of its price. And road records show this power is teamed with the greatest economy in Pontiac history.

**STYLE**—No car at any price is so beautifully distinctive. Pontiac's future-fashioned Twin-Streak styling and Vogue Two-Toning set it apart from all other cars—point the way to tomorrow.

**SIZE**—Pontiac is a big car where it counts—with a long, road-hugging 122" or 134" wheelbase. On any road, at any speed, you enjoy the feeling of genuine fine-car size.

**COMFORT**—Pontiac's extra size means big-car comfort—room to stretch out and relax. Wide-stance rear springs and Shock-Proof chassis float you along in luxury style.

If you were to guess Pontiac's price on the basis of its style, performance and size, you'd surely guess hundreds of dollars higher than its actual cost. Pontiac measures up with the finest on any point of comparison—except price.

It's a simple matter of fact that you can buy a big, powerful Pontiac for less than many models of the lowest-priced cars and much less than stripped economy models of higher-priced makes!

After a close inspection of Pontiac's luxury and quality and a few miles commanding its mighty 200-horsepower Strato-Streak V-8, buyers from both ends of the price scale are switching to Pontiac in record-breaking numbers. Come in soon for the clinching facts and figures. You'll make the very pleasant discovery that if you can afford any new car, you can afford a big, powerful Pontiac—and step directly into the fine-car class!

1000 Clergymen Dedicate Lives As Climax of Scotland Crusade

By George Burnham
Chattanooga News-Free Press
Staff Writer
GLASGOW — Evangelist Billy Graham, an American farm boy who grew up to become the world's most famous preacher, climaxed the All Scotland Crusade with the plainest, most important message of his phenomenal ministry. And when he finished, over 1,000 clergymen of Scotland made decisions to re-dedicate their lives to God.

Ministers overflowed the Renfield Street Church for the final meeting. During his address Billy summarized the crusade — what has happened, why did it happen, and what lies ahead. But near the finish he stated:

"I may be completely out of order in doing this, but I have some suggestions for you ministers. When you go into the pulpit next Sunday preach with clarity and

simplicity. Preach to the people, not to other preachers. Don't shoot over their heads — that only proves you can't shoot. And preach with your natural voices. If many of you went into a grocery store and ordered a loaf of bread in the sing-song manner you affect in the pulpit, you would never get the bread because the clerk wouldn't be able to understand you. You don't talk in a chant. Then why preach that way? The reason theatres are filled and churches are empty is that the people can understand what is being said in a theatre.

"I would like to also stress the importance of making sure that you have a gospel to preach. The pastor of a leading Glasgow church came to me the other day and said, 'Billy, I don't have a gospel for my people.' People don't want good advice. They want the good news of Jesus Christ. For God so loved

the world, that he gave his only begotten Son, that whosoever believeth in him should not perish, but have everlasting life.' Preach the Bible with authority.

"Early in my ministry I was doing a lot of preaching but didn't have any power. One day I fell on my knees and said, 'Oh, God, I am going to have to get out of the ministry unless I find a message with power.' As I prayed I accepted by faith the Bible as the inspired word of God. From that moment my ministry has been different."

Billy urged the ministers to preach the Bible with urgency and give the people an opportunity to accept Christ. "Go into your pulpits," he said, "and preach a Gospel message. Then ask for decisions and rededications." Scotland before the crusade has practically abandoned such an invitation. Ministers said it was obsolete, but now thousands have changed their minds and methods.

In discussing what happened in Scotland during the six-week crusade, Billy stated, "People are no longer indifferent about religion and the greatest problem facing the clergy is indifference. Religion is the main topic of conversation in Scotland again. Newspaper reporters who made decisions during the campaign are forming a Fellowship for Study. A man told some of his friends in a club about two weeks ago that his wife had made a decision at Kelvin and that he noticed a difference in her. The man went back to the club and told the same group he had accepted Christ.

"Revivals have broken out in small towns far from here as people listen to a voice over the relay. Churches are working together. A Baptist minister told me the other day he had never had much use for Presbyterians but had learned during the crusade to respect their work. Brother, that's revival. Maybe we can't agree on everything, but we can love one another.

"Thousands have accepted Christ and vows have been renewed. Paul Mickelson was sitting at his organ in an empty Kelvin Hall

one afternoon when a workman walked up and said, 'I was an alcoholic and my home was wrecked, but since my conversion God has taken the desire for alcohol away from me and my home has been restored.' I saw a giant highlander wearing kilts walk forward one night. He lived in some remote area north of here and told us later, 'All my life I've wanted God but didn't know where to find him. Someone told me that people were finding him here — and I came down.' That highlander would have made a decision if there hadn't been a service.

"A social impact has been made on Scotland. A department store head said employees had come to him admitting thefts. Barlinnie Prison, which usually had 50 or 60 at religious services now has an average of 300. A businessman has instituted new relations with his workers.

"Churches have received a new breath of life. Ministers are having old truths and feeding hungry people. One pastor told me his congregation had doubled.

"Now you ask why all this has happened. It has happened because people are hungry to hear the word of God. It has happened in answer to the prayers of Christian people. As I have told you before Glasgow, because of modern communications, is the most prayed for city in the history of the Christian church. There were thousands of prayer meetings around the world. Four hundred lepers in Africa prayed for an hour every morning.

"It has happened because of the power of the holy spirit which convicted people of sin after the word has been preached. It happened because there was a unity among the churches, because there was organization and publicity.

Some have criticized the meetings, saying they cost too much money. Let me tell you something. People don't mind spending money on all forms of pleasures and amusements, but when it comes to spending money to bring a man to Jesus Christ they yelp to high heavens. Such thinking is greed and God hates it."

Turning to the question of what lies ahead, Billy said: "If your

ministers fail to go out and help these people who need spiritual growth there could be a revolution of laymen in Scotland with the blessings outside rather than inside the church. There could well be a disaster unless the clergy takes its place of proper leadership.

"Our campaign has been like a short subject at the movie. The main feature is now about to go

on. We have only scratched the surface. The main harvest is yet to come. As far as Billy Graham is concerned, I fell no glow of personal victory or triumph this morning. This has been God's doing. It is marvelous in our eyes."

Delta Kappa Gamma Founders' Day Tea To Be Held Saturday, May 14

Saturday, May 14, at 2:30 p.m., Beta Upsilon Chapter of Delta Kappa Gamma, national honor society for women teachers, will hold its annual Founders' Day tea at the Community Club house in Ranger. Baird will give a book review. The roll call of Founders will be given by Mrs. Berta Hazelwood and Mrs. Josephine Clements of Cisco.

Hostesses are members of Beta Upsilon from Eastland and Ranger. Eastland members are Mmes. Ruth Poe Herrington, Ethel Johnson, Evelyn Whitley and Misses Verna Johnson and Nettie Thornton. Ranger members are Mmes. Erna Hagaman, Lillie Robinson, Helen Hagaman, Gladys Hunter and Miss Anna McEver.

Members of Federated Clubs in Ranger are invited to attend the tea.

Recruiting Sgt. Tells Training On Maintenance

"A medium jet bomber wing today includes 942 aircraft maintenance men," according to Sergeant Grady Hoyle, local United States Air Force recruiter.

Many of these men are expertly trained technicians specializing in jet engine maintenance and repair.

Where do these top-flight maintenance men receive their training? The Technical Training Air Force, a new and important subdivision of the Air Training Command, is responsible for the training of these and other technicians of the Air Force that handles the 199 technical positions.

If an airman is to become an airplane mechanic, he enrolls at Sheppard Air Force Base at Wichita Falls, Texas, where students learn maintenance and repair of jet and reciprocating engine aircraft.

The prospective jet engine mechanic enters training at Amarillo Air Force Base in the Texas panhandle region. Amarillo is the Air Force's first all-jet mechanics school.

The courses at both are complete and the instructors are armed with the latest in training devices as well as a first-hand knowledge of their subject. Utilizing the "learn-while-doing" method of teaching, practical training is the keynote in every classroom and on every airstrip.

The success of Technical Training Air Force may be measured by the fact that in their first three years of operation, they have graduated over one million technicians, many of whom are currently serving in all parts of the world with the Air Force.

Qualified young men, interested in jet mechanics and other technical courses offered by the Air Force, are urged to visit Sergeant Hoyle at Eastland Selective Service Board.

A PAGE FROM THE T&P ALBUM
This is one of those little stories that makes us glad we're railroaders... It's the story of Myrtle Lou Martin... and of 60 big-hearted trainmen of the T & P.
Myrtle Lou lives beside our mainline near Cheneyville, Louisiana. Since she was four, hardly a train has passed her house without a wave and a smile from Myrtle Lou. Even at night she used a flashlight to say "hello."
Gradually it became a habit with men on the T & P to toss candy, comic books and other small gifts to her as their trains roared past. For, you see, it was perfectly obvious that Myrtle Lou didn't get many such things from anywhere else. But there was something else Myrtle Lou wanted more than anything. She wanted to ride on a train.
One day, Freight Conductor R. R. Tussion told her wistful, heart-warming story to T & P President W. G. Vollmer. Then the big heart of the T & P went out to Myrtle Lou.
A special railway car was sent to pick up Myrtle Lou and her Mother for her thrill-of-a-lifetime... a tour of exciting New Orleans with 60 fatherly trainmen as her escorts. At the famous Arnaud's Restaurant, Myrtle Lou was guest of honor at a testimonial banquet where she became the official "Louisiana Pin-Up Girl" of the T & P.
Who gained most by making this little girl's dream come true? We think we did. For though Myrtle Lou may remember it always... there is no measure for the heart-warming satisfaction of the T & P folks who participated in her big adventure. It will forever remain a cherished page in the T & P Family Album.

Teen Age Party Refreshment Ideas

If your teen-age daughter entertains her crowd often you need a good reserve of party refreshment ideas for her. These young cooks enjoy easy-to-prepare recipes with just enough "fuss" to make them fun. That's why prepared mixes are so wonderful for them to use.

Flavored freezing mix for instance, is perfect for year-round party refreshments. Ice cream is so versatile, too — there are countless ways to dress it up before you freeze it or when you're ready to serve it.

So, keep all flavors of freezing mix handy for your teen-age hostess to use. And, add these recipes to your file of perfect teen-age party desserts.

SPRING FLOWER POT (pictured above)

1 cup heavy cream  
1 cup milk  
1 package vanilla freezing mix  
10 waffle cuplets  
1/4 cup crushed chocolate wafers  
Colored toothpicks  
Multicolored gum drops  
Gumdrops leaves

Combine milk and cream in a deep bowl. Whip until a deep layer of foam forms—takes 1 to 2 minutes. Add contents of package of freezing mix. Whip 1 more minute to dissolve. Pour into refrigerator tray and freeze until firm, but not too hard. Spoon ice cream into waffle cuplets, filling to the top. Sprinkle each with a few chocolate wafer crumbs. Place cuplets in freezing compartment or freezer until ready to decorate.

Make gumdrop flowers using assorted colors. Fasten together with toothpicks. When ready to serve, decorate each cuplet with a flower and gumdrop leaves.

COCONUT STICKS

1 cup heavy cream  
1 cup milk  
1 pkg. vanilla freezing mix  
1/2 cup shredded coconut, cut fine  
1 pkg. frozen strawberries, thawed  
Combine milk and cream in a deep bowl. Whip until a deep layer of foam forms—takes 1 to 2 minutes. Add contents of package of freezing mix. Whip 1 more minute to dissolve. Pour into refrigerator tray and freeze until firm, but not too hard. Cut ice cream in slices 1 to 1 1/2" wide. Roll in shredded coconut. Return to freezing compartment until ready to serve. For each serving, garnish 2 coconut

sticks with a generous helping of strawberries.

CHOCOLATE MACAROON PIE

1 cup heavy cream  
1 cup milk  
1 pkg. chocolate freezing mix  
1-2/3 cups crumbled coconut bar cookies  
1/4 cup sugar  
1/4 cup butter  
Whipped cream  
Toasted coconut

Combine cream and milk in a deep bowl. Whip until a deep layer of foam forms—takes 1 to 2 minutes. Add contents of package of freezing mix. Whip 1 more minute to dissolve. Pour into refrigerator tray and freeze until firm, but not too hard.

When ice cream is frozen, pile coconut crust. Mix crumbled coconut bars, sugar and butter thoroughly. Press into 9" pie pan. Chill.

When ice cream is frozen, pile into coconut crust, decorate with puffs of whipped cream and toasted coconut.

### Sub-Deb Club Hosts Mother's Day Event

The Sub-Deb Mother's Day Tea was given this year in the home of Miss Eddie Marie Chambers. This tea, honoring the mothers of the Sub-Debs, is a traditional affair, having been given each year since 1934 with the exception of one year during World War II.

Miss Chambers was assisted in entertaining by her mother, Mrs. Edna Chambers, her sister, Mrs. George Doss of Edna, Texas, Mrs. H. P. Flowers, and Mrs. Mamie Ruth Hamrick, sponsor of the club.

The decorations were in a spring motif. The refreshment table was laid with a white net cloth over white taffeta with a centerpiece of pink Shasta daisies, white Dutch irises, and pink sweetheart roses, flanked by pink candles in crystal holders. Table appointments were of cut glass. On the buffet was an attractive arrange-

You win 3 ways when you CREEP FEED PURINA

- 1 AN EXTRA CALF out of every 10—that's the result of creep feeding Purina. In tests on over 3,000 cattle 412 lbs., while their non-creep mates scaled only 373 lbs. So creep feeding Purina gave 390 lbs.—one extra calf—out of every 10. And there's no cow to feed or care for.
- 2 UPGRADING is important these days. Cattle grading *Choice* brought 18% more than those grading *Good* last year. The *Good* class brought 15% more than *Utilities*. There's a big extra value in upgrading, and Purina creep-fed calves produced 34% more *Choice* and *Good* calves in our tests.
- 3 EXTRA COW CONDITION held by cows suckling creep-fed calves amounted to a difference of 44½ lbs. per cow over cows with calves that got no creep feed. In 2-year tests this added condition helped cows produce 16% more calves the following season.

ASK YOUR NEIGHBORS about the results they get creep feeding PURINA

Find out from us who is creep feeding Purina. Go see their calves. Then we feel sure you will want a Purina ration for your own calves.

### BETTI'S BUDGET of HELPFUL HINTS

A fine treat for folks who love desserts but are a "little" chubby is this grape cooler recommended by home economists. Dissolve one envelope strawberry gelatin in 3-4 cup hot water and add 1-4 cup grape juice. Pour into molds and chill until firm in the refrigerator. Unmold — makes 2 or 3 portions, 1-2 or 1-3 cup each.

Any household mop will stay fresher and "sweeter" if hung in the sun to dry. First, of course, it should be washed in hot soapsuds and rinsed.

You were probably a year old before your mother stopped boiling your bottles, but you'll be liberated from this chore after three months, with your pediatrician's approval. A thorough cleansing with a stiff brush, plenty of soap and very hot water from the tap and you'll be through. Incidentally, nowadays babies are placed on whole milk months earlier than our generation was.

Barbecue sauce can bubble just as successfully over the simmer flame on the top of your range, without the constant watching which outdoor cooking requires. Hamburgers cooked under the broiler flame have a fine flavor if properly seasoned, or if you're serving barbecued ribs, you can rely on the constant temperature of your gas oven.

For hot summer days, there's nothing more flattering — nor more comfortable — than sparkling white clothes. Nice thing about white — it's really durable; you can wash it and wash it to renew its original beauty. Just launder before it gets too soiled, and add bluing to every wash water for extra-white linalities.

Here's a salad that's good for the spring and summertime. Just add plenty of chopped cucumber and minced parsley or chives to cottage cheese. Serve on sections of fresh fruit or canned pineapple slices, without dressing. Be sure that all ingredients have been chilled.

**Bond Chief of County Points To Big Week**

Guy Parker, defense savings bonds chairman for Eastland County, today called attention to Governor Shivers' having proclaimed May 22-28 U.S. Defense Savings Bonds Week in Texas. Calling upon all Texans to do their part toward national defense by increasing their purchases of the bonds, the governor said: "It is the earnest desire of every American that our country maintain an impregnable defense for the protection of our democratic ideals and free way of life. One way to insure this is through increased sale of Defense Savings Bonds. Therefore, I call upon every Texan to join wholeheartedly in this campaign."

More than 1200 volunteer workers representing every Texas county will devote their time and efforts to this drive during the week of May 22. Their goal will be: (1) to double the number of people buying bonds regularly on the Payroll Savings Plan and the Bond-a-Month Plan, and (2) to ask those already on the Plan to increase the amount of purchases each payday. "Texas ranked only 38th in the nation in 1954 in the percentage of the state sales goal attained," the Governor said. "This is far short of Texas standards. I think we can lead the nation in 1955 if every Texan will give this matter serious thought and action!" The 1955 Savings Bonds sales goal for Texas is \$201.9 million. The national goal is \$5.5 billion.

**Keep Family Happy While Member Diets**

If you or someone in the family is on a reducing diet, you can adapt the family's meals to suit the dieter's needs. Weight can be lost safely and comfortably. The best reducing diet is adequate in all respects, except that it is low in energy value. On such a diet, excess fat will help supply energy requirements for work and play. The dieter needs more lean meat than other members of the family. An average-size woman should have at least seven ounces of meat for dinner and the average-size man should have nine ounces. Meat is important in a reducing diet for nutrients which help to maintain body functions. Meat is a satisfying food, too—the dieter will not feel famished nor crave high-calorie foods when she has eaten meat. She can eat less of other foods than the other members of the family do and ignore the "extra". Here is a dinner menu idea:

- Consume
- Roast Beef
- Asparagus Tips
- Beet - Onion Salad
- Bread
- Butter or Margarine
- Sliced Peaches
- Milk
- Coffee

From this menu, the dieter will have an adequate meal. For the family, the asparagus may be buttered, dressing may be served with the salad and bread and butter or margarine can be unlimited. Cookies may be served with the peaches. Whole milk and sugar and a 4 cream for coffee may also be served to non-dieters while the dieter drinks skim milk and black coffee.

**VISIT DR. KUYKENDALL**  
Visitors in the P. M. Kuykendall home recently were Will, Lena and Jessie Kuykendall of Cleburne; Mr. and Mrs. Tom Bryant, Mrs. A. Abbott and Mr. and Mrs. Elliot Bryant, all of Cross Plains.

**STRICTLY FRESH**

SOME folks sure get into a rut. Fellow in Los Angeles, Calif., told the judge that he wrote bad checks to cover other bad checks which he had written while free on bail on a previous bad-check charge.

Octopus recently made history by being shipped coast-to-coast by air. Stewardesses say that

high-flying creatures who apparently have eight arms have been aboard for years—but that they're usually called "wolves."

Stripsteer in Buffalo, N. Y., had her costume stolen by a night club patron "for revenge" because she wouldn't have a drink with him. Pretty scant satisfaction, we'd say.

When summer arrives, flourishing racetracks will produce a crop of blooming idiots.

Friend of ours who likes to read says that the best thing he's seen on TV recently is an "out-of-order" tag.
