À BY DR. SIDNEY L. DE LOVE

Many of us often decry the growing indifference to our American heritage - our free enterprise system, our history, and our national institutions. While we all agree something should be done about it, we have a friend in Skokie, Ill., who has *done* it.

A successful lawyer, soldier and banker, Dr. Sidney L. De Love spends good portion of his time and most of his income besides in attempting to alert the American public to the threatened loss of our freedoms.

Long inspired and deeply devoted to promulgation and education of the ideas and principles of our nation, Dr. De Love founded Chicago's Independence Hall, where he has gathered one of the finest collections of Americana in the nation. Disturbed by the deep conviction that something was basically lacking in our education for responsible citizen-ship, last year he wrote and published and distributed a book at his own

Appropriately titled "The Quiet Betrayal," it is thought-provoking His first Book, "Were You In Ranger" published in 1935, was followed by "Roaring Ranger, the World's Biggest Boom" in and timely.

As one who has been long in agreement with attacking the abdication of the citizen in favor of an ever growing hegemony, the articles are printed in the hope that a halt can be brought to the individual shifting his responsibility for self-government to the state. "Cradle to the Grave" care by government, creeping socialism and a welfare state are documented in the book along with some shocking revelations about our education system. EDITORIAL PACE welcomes comments as the chapters of Dr. De Love's enlightening book unfold herein.

out character is the surest way to destruction." Those words were wrenched from the heart of Thomas Jeffer-sop. They were spoken not in disparagement of his countrymen, but in praise of America. Yet jefferson did, in effect, issue a timeless warning to the people: Take care, lest through ignorance and lack of appreciation you trade your blessings for oblivion. It's Your Move - Let's Make It FOR Ranger

The Ranger Chamber of Comme ce belongs to the citizens of Ranger - but too many citizens of Ranger don't belong to the Chamber of Commerce. The Chamber is an organization dedicated to the better-

ment of Ranger. The question is "How can such an organization help if it doesn't have the complete support of its citizens?"

The new Chamber of Commerce plans to make a sincere attempt to carry out a sound program for the betterment of Ranger, but it can't be done by a few. At the present time 70 mem-

hers are attempting to carry out a planned program. They need the assistance of the entire population of Ranger. A list of some 90 prospective members has been compil

ed and each one will be con tacted in the near future. If you aren't already a mem ber, wouldn't you like to be a part of a better Ranger? Say "Yes," and add your shoulder to the rolling Ranger wheel. A new manager must be hired

and financing must be availab-le, not only for his salary, but for plans for the year. A need for civic pride is acute in Ranger. Each citizen should take a few minutes to think of what

he or she wants for Ranger. Do we want to continue down a road of mediocrity, or do we want to improve what we al-ready have? Where do we start? Well, one

another attraction will be the displays of fruit and vegetable step is to take advantage of the request for suggestions. Your Chamber wants to know what Miss Jan Nixon of Cisco, Eastland County Pecan Queen, will represent Eastland County
