Around Town

By Dwaine Dennis

Election Judge Calvin Brown and assistants W. W. Mitchell, Mrs. H. C. Croom and Mrs. Henry Davenport, deserve a vote of thanks for the splendid manner in which they conducted the Ranger Junior College Bond Election Tuesday. Voting was so heavy that they were unable to get away from the poll long enough to even get a drink of water, let alone eat lunch. They also kept up with the counting and gave the final results of the election real quick.

Mrs. Joe Weeks of 1909 Young, was really pleased last week when she received a pot plant from the Ranger Volunteer Fire Department.

Mrs. Weeks served coffee to the firemen while they were battling a house fire in 24 degree temperature. The firemen really appreciated the coffee, too.

A welcome to Ranger is extended to two new ministers in our community. Rev. Avery Sullivan, pastor of the First Baptist Church and Mr. L. E. Carpenter, minister of the Mosque and Rank Street Church of Christ.

Understand that Rev. Sullivan is a member of the Rotary Club... so all you Lions can relax... he has already been contacted by the Ranger Rotarians.

Screwworm Eradication Program Now Underway

Henry Fry, Cisco, chairman of the Eastland County Screwworm eradication program committee says, "Texas stockmen and others have contributed over one million three hundred and thirty-three thousand dollars to the screwworm eradication program." The goal for the State has been set at three million dollars," says Fry. He urges all of those concerned who have not already contributed to leave their contributions with their banks or at the PCA office in Eastland.

The federal government has pledged to match the producer-raised funds in this all important program. Fry wishes to thank all of those workers who have helped in the fund solicitation campaign and those who have made their contributions. The screwworm eradication program is a reality and is evidence of what group action can accomplish.

The final hurdle in getting the Southwest screwworm eradication program off the ground was cleared when the contract for building the giant screwworm factory was approved here today. Work began immediately at Moore Air Force Base in the Rio Grande Valley and should be completed by July 1.

By taking this quick action, the plant will be in operation two months earlier than expected and ready to meet the peak screwworm season in midsummer.

Southwest Animal Health Research Foundation trustees okayed the contract at a meeting Monday in Dallas. Brown and Root Construction Company of Houston is handling the job.

The meeting drew representatives from the Oklahoma Cattlemen's Association, Oklahoma Extension Service, Texas House of Representatives, Texas Animal Health Commission, Texas Agriculture Extension Service, Texas Sheep and Goat Raisers Association, plus Foundation trustees and the organizations they represent.

Marvin J. Bridges of Buffalo was named Executive Director of Operations for the Foundation, and will act as the building site until construction is completed. Co-ordinator for the United States Department of Agriculture is Dr. S. C. Gartman.

In summarizing the program thus far, state and Foundation officials cautioned stockmen against "letting down" in their efforts to raise funds. "The real job still lies ahead," they said. At present, less than half of the three million dollar goal has been reached and there will be a stepped up effort to raise the funds as quickly as possible.

Number of Divorces Increases In County

There were 85 divorces granted in Eastland County last year. That's about 15 above the average for a year, 91st District Judge T. M. Collie, said this week.

major cause of divorce in this county, according to records, is cruelty—several kinds on the part of both parties. Only six cases were brought on other grounds. Each of these six involved liquor or drinking.

One divorce was granted for a rather obvious reason—the man was married to another woman at the time of the marriage in question.

June may be the month of marriages, but January seems to be the month of divorces here. There were 11 divorces granted last January, leading all other months.

Of the 85 cases, 13 were filed by the male marriage partner.

The average age of women getting divorces last year was 35 and the average for the men was 35.

The oldest woman to get a divorce was 84. The oldest

man severing his marriage ties was 82 years young.

The youngest woman was 17 and the youngest man, 18.

There were no children involved in 33 of the divorce cases and 43 of the parties had been married before.

Shortest marriage ended by divorce last year was two weeks, and there were 15 cases involving marriages of less than one year.

The longest marriage brought to an end last year was 33 years.

Well Completed 7 Miles NW Of Eastland

Eastland County had another substantial oil producer this week as W. M. Jarrell and

Tex-Star Petroleum Co. completed their No. 1 Gordon Woods, a semi-wildcat seven miles northwest of Eastland. Production was from the Mississippian reef.

The completion test produced 135 barrels of oil in 24 hours from perforations at 4-

017-28 and through a 10-64 inch choke. Casing pressure was 850 pounds and flowing pressure was 630 pounds per square inch.

The well is a north offset to the same company's No. 1 Exall et al, drilled as a discovery hole recently. Low Drilling Co. of Cisco, a partner in the lease drilled both wells. The Woods from the south and west lines of Section 54, Block 4, H & TC Survey.

The well yielded flowing oil on two drill stem tests higher in the hole but in the same formation, it was reported.

The operators have about 1,000 acres in their block. Plans for further development have not been announced.

Assisting in the presentation of the program will be Louis Pitcock of Graham, president of the Cisco District Foundation, and Bruner Peacock of Ranger, who was selected by the last District Conference to serve as one of the directors of the Foundation, and to direct the program in the local church.

Young is active in all phases of the Methodist Church in Graham, having served for a number of years as a church school teacher in both young and adult classes; superintendent of the adult division; and currently teacher of a couples class (most of whom are grandparents). He has served both as chairman of the official board, and as district lay leader. He is presently chairman of the Wesleyan Homes, Inc. at Georgetown, Texas, which is the Texas Conference home for retired people. He is a director of the Cisco District Methodist Foundation.

He is active in banking, the oil business, and has ranch holdings throughout North Texas and in Kansas. For these reasons, it is felt that the dedication which he has made of these specialized talents will contribute a real challenge to the membership of the local church.

American Creed
I believe in the United States of America as a government of the people, for the people; whose just powers are derived from the consent of the governed; a democracy in a republic; a sovereign nation of many sovereign States; a perfect union one and inseparable; established upon the principles of freedom, equality, justice and humanity for which American patriots sacrificed their lives and fortunes—I therefore believe it is my duty to my country to love it; support its Constitution; to obey its laws; to respect its flag and to defend it against all enemies.

WESTWARD HO—Leon Gillis, left, and son Alan Dale are pictured as they arrived in Ranger Monday afternoon. The family of eight are traveling by covered wagon from Providence Forge, Va., to California, a 3000 mile trip. (Print by Capps Studio).

Covered Wagon Family Spends Night in Ranger

The Leon Gillis family, composed of Mr. and Mrs. Gillis, Lee Ann (17), Alan Dale (16), Carol Lynn (15), Barbara Gail (13), Janet Kay (9), and George (6 1/2), traveling by covered wagon, from coast to coast, spent the night in Ranger Monday.

The family started their unique trip in Sept. 26, 1961 from Providence Forge, Va. They plan to travel to California, a distance of some 3,000 miles, in their homemade covered wagon on in approximately seven months.

The family sleeps in the wagon or alongside in their sleeping bags.

Gillis said that the trip was a dream of the entire family for many years before they actually got underway. He explained that the educational opportunities of the trip are many and feels that the children will never forget their experiences.

They average approximately 20 miles a day, but have traveled as high as 35 miles in one day. The children are taught their lessons by Mrs. Gillis while enroute.

The family agrees that they have encountered hardships along the way, but would not trade the experience for anything.

Gillis remarked that the main purpose of the trip is to show

4-H'ers Are Honored Nationally And Local Events Are Scheduled

Over 2 million other 4-Hers join Eastland County 4-H Club members this week in celebrating National 4-H Club Week.

The 4-H Clubs organization is designed to help develop girls and boys through different subject matter and leadership activities. At the 40th National 4-H Club Congress in Chicago, Ill., Nov. 27, 1961, Raymond C. Firestone made the following statement: 'There is no substitute for individual initiative and I know of no organization that provides more opportunities for the application of talents and the exercising of desire for personal advancement. It is true that some of the personal advantages that occur from 4-H Club work are not easily measured, but they may be even more important in your lives than your material achievements. I am referring to 4-H specifically as a builder of character, integrity, determination, understanding and consideration of others. Because you work to win, 4-H is competitive, but at the same time you learn to be cooperative.'

You share your interest and your activities with your fellow members. 4-H was born in America and because it has developed in accord with true American traditions, it helps implant in its members the responsibilities of good citizenship.

This type of training is going on in Eastland County and not just at the level of National 4-H Club Congress. The 76 adult 4-H leaders in Eastland County are doing a wonderful job in their respective communities in training and leading boys and girls to better living. The 800 4-H boys and girls in Eastland County are members of a wide range program which is a part of the agricultural Extension Service for young people.

These boys and girls are taught agriculture and home economic methods in a practical way. Each 4-H Club member has an individual demonstration centering in the home, on the farm, on in the community.

4-H Club members may make clothing, prepare and

preserve food, raise livestock and crops, maintain health, promote safety, enjoy recreation or practice citizenship, or a variety of other tasks.

The success of 4-H Club work depends upon volunteer adult leaders. They are the key persons in every 4-H Club. 4-H Parents plus local 4-H leaders plus County Extension Agents added to interested 4-H members equals useful citizens. This is the 4-H team.

There are seven community 4-H Clubs in Eastland County where the 4-H team is at work: Nimrod, Morton Valley, Olden, Cisco, Gorman, Eastland and Deadendona.

Each have an active community 4-H Club. Most of these clubs have enough adult leaders so that every 4-H member has the opportunity to carry a 4-H project in the subject matter the member has chosen.

Once a month the community clubs meet at night with the boys, girls, parents and adult leaders present for an evening of business, education, recreation and food. This type of meeting keeps the interest of boys and girls high and many community projects are carried out during the year.

The subject matter groups also meet once a month in the leader's home for the purpose of receiving information in a specific matter field.

Eastland County also has one girls and one boys school 4-H Club at Rising Star, Car-

Farm Bureau Membership Drive Begins

The Eastland County Farm Bureau has set a quota of 600 member families for 1962. Last year the organization had 585 enrolled.
