COOK COOL with a

Electric cooking is cool cooking because it's flameless and keeps waste heat at a minimum, Electric range surface units transfer heat by direct contact with utensils. They send their heat into the utensils and the food, not into the kitchen air. And because an electric oven requires no oxygen, there's no constant flow of air through the oven, expelling heat into your kitchen. Stark now to enjoy another of the benefits of modern electrical living. Bee your electric range dealer and enjoy cooler cooking . . .
