## As Another Year Draws to a Close, Let Us Pause with Thanksgiving and COUNT OUR BLESSINGS

Emergencies have always been necessary to progress. It was darkness which produced the lamp. It was fog that produced the compass. It was hunger that drove us to exploration. And it took a depression to teach us the real value of a job.

Yes, it is time to reflect briefly over the past year and count our blessings — and time to look forward to a new and promising year. Our community, like many other cities and towns in rural areas, faces challenges for growth and survival. But these challenges can be met through determination, unity and cooperation.

Civic activity in our community has been indicative of progress during the past year. Especially commendable are the efforts of two important local groups — the Ranger Chamber of Commerce and the Ranger Jaycees — in furthering the best interests of the city. The senior chamber engaged in important trade promotion activity and improved our community's vital relationship with area agriculture. The Jaycees re-activated Ranger's annual Rodeo which is both an entertainment and business asset to the community. The junior chamber also increased its membership and civic achievements during the past 12 months. In addition, numerous other clubs and civic groups have contributed to progress over the same span.

Progress also is accented in the continuing development and expansion of Ranger Junior College. Construction of three modern new campus structures was begun a few weeks ago and will be completed next summer. Ranger Junior College — and its tremedous future potential — is another outstanding civic and economic asset to our city.

Numerous street improvements and other municipal projects of the past year are another bright progress note.

Continuing growth of Southwest Athletic Repair Company, a fast-expanding local industrial enterprise, and other prosperous, growing industries and businesses also made new progress during the past 12 months.

Consistently increasing bank and savings and loan assets also are a bright factor, indicative of the healthy condition of Ranger's economy. Yes, friends, we do have blessings to count.

And we all are keenly aware that greater growth and progress for Ranger can only be the result of putting "unity in commUNITY. Coming together is a beginning; keeping together is progress; working together is success!

## LET'S THINK, PLAN AND WORK TOGETHER TO BRING RANGER MORE IN '64!

## **Progressive Citizens of Ranger**

## ... and THANK YOU for 30 WONDERFUL YEARS

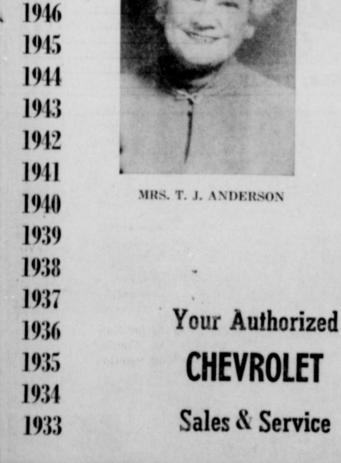

BACK IN 1933, the late T. J. Anderson and C. B. Pruet founded Anderson-Pruet Motor Company, the present ANDERSON CHEVROLET COM-PANY. In 1949, Mr. Anderson acquired Mr. Pruet's interest in the firm and since that time the local Chevrolet dealership has been owned and operated by the Anderson family. W. J. (Bill) Anderson, present head of ANDERSON CHEVROLET COMPANY, joined the organization in 1949 and took over full management responsibility following the passing of his father in 1959. Honesty and integrity have characterized the firm's expanding operations over three decades and have built a reputation for reliability and dependability.

> LOOKING BACK over the past 30 years — and they truly have been wonderful years — it has been a genuine pleasure to faithfully serve the motoring public of Ranger and a wide surrounding area. We sincerely feel that credit for the growth and success of ANDERSON CHEVROLET COMPANY goes to a growing number of good friends and customers. We take this opportunity at this festive Thanksgiving season to thank each of you for your patronage, for your confidence and — most important for your friendship!

## Looking Ahead .... We Pledge The Best of Everything for You!

AS WE FACE the future and its challenging opportunities to consist-
