THE NEW TAX cut becomes effective with pay checks in the next couple of weeks. Our scouts report that the income tax cut becomes effective for pay purposes March 5th, which we assume will be reflected in the salarv checks for the pay perjods following that date.

Those of us who have a feeling that it might be best to cut your spending as you cut your income will watch with nterest to see if the income tax reduction was a wise move. All of us, certainly, will hope so.

Behind many "For Sale" signs there is a sad story: A family borrowed more than they could afford to pay for a home, or payments and interest rates were too high; the home had to be sold, often at a loss. This tragedy could often be avoided if the families would seek help from a home loan specialist, such as our Association.

A stand like this equipped with built-in fluorescent lamps to stitute for sunlight makes sprouting and growing seeds possible in any part of the house. Note sturdy growth here,

Remember when a sunny window sill was an absolute "must" for the gardener who wanted to start seeds indoors of his favorite varieties of flowers and vegetables? Now fluorescent lamps, specially designed for aiding plant growth, take the place of sun.

This means that the darkest corner of your basement can become

your seed starting area when proper lamps have been installed. The lamps you need have a special phosphor coating which, activated by electricity, gives off light rays high in the red and blue wave lengths absorbed by plants during growth. sorbed by plants during growth.

Your equipment can be as sim-ple as chains hung from the ceiling to suspend the lamps over a table below. Or it can be as elabfixtures built in, like the one

Many different types of such "plant growers" are available, Your favorite garden supply aler, or, perhaps your favorite length of "daylight" and the dis-tance of the seedlings from the light source.

Seeds sprout rapidly under fluorescent lamps. Because you can keep the seedlings fairly close to the lamps when they are small, they will not become spindly trying to reach towards the light. The distance from the lights can be increased as the

WORKING FOR PROGRESS

Intelligent planning, united effort and cooperation are vital factors important to Ranger's future growth and prosperity. Effective planning and action is possible through a strong and active Chamber of Commerce, which represents all segments of our community's business, industrial and civic interests. Everyone should join and actively participate in their Chamber of Commerce which is working for the future of Ranger and its citizens - yes, and everyone should loyally support those business firms and individuals who support us and our community through chamber
