TOWN TALK

NEWS * NOTES * BRIEFS

HEARTY congratulations today to Mr. and Mrs. George Robinson who are celebrating their fortieth wedding anniversary. And may they enjoy many more such happy occasions!

TIME is short, auto owners. So—don't get caught without your safety inspection stickers.

Deadline for inspection of vehicles using Texas highways is April 15 — that's next Wednesday, only a few days away.

A sticker must be displayed on the windshield as evidence of an okay 1964 safety check. If you haven't already received a sticker, better do it first thing Monday and avoid the usual last minute rush!

Many happy returns to these Rangerites who'll be celebrating birthdays during the coming week:

Sunday — Mrs. J. D. Drennan, Barbara Dawson, Kyge Edmonds.

Monday — Mike Lebrodo, Alice Ruby Greer.

Tuesday — Pat Campbell, Mike Campbell, Beth Bounds.

Wednesday — Mike Arterburn.

Thursday — Tracy Everett.

Friday — Anna Lee Hughes, Donna Drennan.

Saturday — Paul Aurburne.

A RECENT COPY of The Brady Herald comes to our desk. It tells the story of how Brady folks have banded together to improve their city. We quote from one story, as follows:

"Many towns talk about industry, and some do something about it. Brady has been talking about it for a long time, and has been doing something about it, too. The result is that today more than 500 people have jobs in

New Series U. S. Bond Due May 1

A reminder that the new \$75 series E United States savings bond, bearing the portrait of the late President Kennedy, will go on sale May 1 came Saturday from Don Yarbrough, Ranger savings bond chairman.

Yarbrough, who is cashier of Commercial State Bank, said that due to the heavy demand for the new bond which is anticipated, many banks and other issuing agents throughout the nation will accept orders before May 1 from those purchasers who may desire an early date of issue to appear in the validating stamp.

Decision to issue the \$75 bond which fills a gap in the lower denomination range of savings bonds, was announced by the White House late in January. The issue date of May 1 was fixed to coincide with the launching of "Operation Security," a nationwide savings bond campaign which runs until July 4. May 1 is also the 23rd anniversary of the issuance of the first series E bond.

Purchase price of the bond, which will reach full redemption value in seven years and nine months, is \$56.25.

Yarbrough explained that the bond is not a "memorial" to the late President, in that it is no different from other denominations of savings bonds, all of which bear the portrait of a chief executive. However, beneath the portrait of Mr. Kennedy are carried the words from his inaugural address: "Ask not what your country can do for you; ask what you can do for your country."

"The reproduction of this memorable statement on the face of the bond," said Mr. Yarbrough "is a fresh reminder that our citizens help strengthen their own security and, consequently, the security of their community and their country when they invest a portion of their savings in savings bonds."

CISCO, RANGER JR. COLLEGE NINES DO BATTLE TUESDAY

It'll be do or die for Coach Larry Parker and his Ranger Jr. College Rangers Tuesday afternoon when they tangle with their hottest rivals, the Cisco Jr. College Wranglers, at ABC Field in Cisco.

Rated as underdogs, the Purple & White baseballers will be gunning to blast their way back into the win column after having lost four straight diamond duels, three of them conference contests, shattering an earlier perfect record of six straight.

Friday afternoon at Ranger Pony League Park the RJC crew was too little and too late in a doubleheader, losing both scraps to Panola County Jr. College.

They dropped the initial 7-inning fracas 6-3. Panola racked up 9 hits, Ranger 10 and each club was charged with one error.

In the twilighter, Panola batsmen pounded Ranger 13-10.

Plans Ready for Pecan Budding School April 15

Arrangements have been completed for the annual Eastland County Pecan Budding and Grafting School to be held at Cisco Junior College on Wednesday, April 15, according to announcements by County Agent J. M. Cooper and Manager Tom Stevenson of the Cisco Chamber of Commerce.

The morning session of the school will begin at 9 a. m. at the college cafeteria. Anton White, vice chairman of the CoC agriculture committee, will welcome visitors, who are expected from all surrounding counties as well as from throughout Eastland County.

Mr. Cooper will take charge of the program and give detailed instructions, including demonstrations on when and how to bud pecan trees, the various types of budwood, how to store budwood, seasoning budwood, wrapping, when and how to force buds into growth, the difference between budding and grafting, and the latest grafting techniques.

The visitors will be served their lunch at the cafeteria, according to Mr. Stevenson.

Following lunch, the group will assemble at the Kent Word pecan orchard, three miles south of Cisco in the Leon River bottom, for a practice session in budding. A grafting demonstration will be given.

Mr. Cooper said there would be a good supply of double bladed pecan budding knives and the new plastic budding tape available. Cold storage pecan budwood of several popular varieties will also be available for those desiring it.

Mr. Stevenson said that inquiries from interested people had been such that a record turnout is expected. The school is open without charges to anyone interested.

The Cisco CoC and the county agent are co-sponsors of the annual event. Members of Cisco committee are A. Z. Myrick, Mr. White, Tommy Toland, Rudolph Schaefer, Sutton Crofts and Sam Kimmell.

MRS. WAGLEY

Mrs. B. E. Wagley Issues Statement For County Supt.

Mrs. B. E. (Audye) Wagley, Cisco teacher who is a candidate for Eastland County School Superintendent, issued a formal statement Friday in connection with her bid for public office.

"The decision to enter the race was my own," Mrs. Wagley said. "I am not obligated to any person or to any group. Having taught the Constitution of the United States for years, I firmly believe in the Constitutional right of the individual to be her own agent."

"The only promise that I make regarding the office is to try to do an honest day's work when and where there is work to be done."

"I feel that I am qualified to do this work properly. My experience and education have been such that I meet all of the professional requirements for the position I seek."

"Because I was late to enter the race, I know that it will be impossible for me to contact each voter in the county personally. I will try, however, to see as many as I can. I will sincerely appreciate every person's consideration and vote."

Mrs. Wagley is the former Audye Gentry, daughter of the late Mr. and Mrs. Gilbert Gentry. She was born and raised in Stephens County. She has one brother, Delma Gentry, of Route 3, Cisco, and one sister, Mrs. J. G. High of Cisco.

A graduate of Breckenridge High School, Mrs. Wagley is a veteran of 24 years as a teacher in Callahan, Shackelford, Stephens and Eastland Counties. She has taught in the Cisco Public Schools for the past 19 years, and is a member of the high school faculty at the present time.

Mrs. Wagley has a BS degree and holds a permanent professional certificate. She has attended seven colleges and universities, including Randolph Junior College, Ranger Junior College, Sul Ross College, Danie Baker, Texas Woman's University, H-S-U, and McMurry College. In addition, she has studied with the American Academy of Accounting.

AUSTIN LAW FIRM HIRED TO COLLECT DELINQUENT TAXES BEGINNING MAY 1

An intensive campaign to collect delinquent Ranger city taxes — totaling approximately \$70,000 — will be launched May 1, Mayor Morris Newnam announced Saturday.

He reported that the city, by authority of the City Commission, has signed a contract with an Austin law firm to handle all details including legal and court action as may be required.

Representing the Austin law firm in negotiations with the city for the tax collection contract here last week was Jack McCreary.

"Several years ago such a drive to collect delinquent city taxes was planned and an attorney hired under a similar contract. Due to ill health, however, the lawyer was unable to carry out his responsibilities under terms of the agreement with the city and the project was abandoned," Mayor Newnam said.

"We have given this new effort careful and studious planning," he emphasized, "and we can assure the public that the legal counsel engaged for this delinquent tax collection drive will be able fully to carry out this contract and achieve the maximum results we expect."

In addition to producing city revenue, the Ranger mayor listed two other major points in stressing the importance of the coming delinquent tax collection campaign:

1. It is grossly unfair for a majority of Ranger property owners to take care of their tax obligations regularly and promptly while others are evading this legal and civic responsibility.

2. The action will make it possible to clear titles on vacant lots, abandoned buildings, dwellings and thus make such properties available for purchase by citizens interested.

The city will pay the Austin law firm a percentage of the delinquent taxes which they collect, Mayor Newnam said.

He also stated that members of the City Commission are urging owners of property on which taxes are delinquent to visit the city hall at their earliest opportunity and make arrangements for payment.

The Ranger mayor pointed out that this voluntary procedure will eliminate the necessity for suits to be filed and subsequent court action which will entail additional fees and cost to the property owners.

The Mouse Who Attacked the Cat—

Turn about is always appealing. When something small wins out over something great—David over Goliath; the mouse that turned on the cat; the little man who beats the big man; in short, triumph over seemingly impossible circumstances.

So it is with insurance. The premium route the big bad ogre of financial loss.

The blow of a large liability verdict—a home demolished by wind or leveled by fire, valuable property stolen—all events of giant importance to the individuals concerned—can be deflected from causing financial loss by that small, but all powerful insurance premium!

TOWN TALK

(Continued from Page One.)

Brady industry—all of it developed in less than 10 years. The town has brought in five new payrolls during that period. How did they do it? The story goes on to say that Brady went all out to make itself attractive to industry. A new lake was built to solve a water supply problem. Sewage facilities were expanded. Public schools were improved and completely modernized. While Cisco has some fine industrial payrolls, there is room for more. And the progressive steps of the past couple of years should enhance the picture.

Well Known Musicians On McMurray Program Sunday

Musicians from Eastland, Breckenridge, Cisco and Ranger will perform together in Radford Auditorium Sunday at 3:30 p. m. on the McMurry College campus in Abilene when Mrs. Jack Frost of Eastland will be featured in a solo voice recital. Mrs. S. E. Hittson of Cisco will be a member of the string trio that will accompany Mrs. Frost.

Mrs. Frost is a student of Dr. Richard C. von Ende, chairman of the McMurry College Fine Arts Division. Accompanists for the concert will be Ben G. Karnes, pianist from Breckenridge, and the string trio composed of Mrs. Hittson, violinist; Mrs. David Pickrell, violinist of Ranger, and Mrs. Tom Wilson, cellist of Eastland.

The program will include a group of songs that are older period-England and Italian, a group of German songs, 2 modern French and Spanish numbers, and a difficult aria from Beethoven's "Fidelio."

Karnes will present a piano solo and the string trio will be featured in a special arrangement by Dr. von Ende.

Mrs. Hittson is president of the Cisco Music Club and a member of Texas Music Teachers Association and the American Guild of Organists. She is a graduate of Hardin-Simmons University, North Texas State University, and Chicago Musical College. Karnes, director of music of First Presbyterian Church in Breckenridge, also teaches piano in Eastland and Ranger.

Mrs. Frost attended the University of Texas and has studied voice at McMurry for about four years. A student of languages as well as music, she is a good linguist and does quite well in various languages, Dr. von Ende said.

Mrs. Pickrell began her musical training in Peru, Neb., in Peru State Teachers College. She has also studied in Kansas City Conservatory of Music with Arnold Volpe.

PERSONALITY OF THE WEEK

WALTER HENSON

Walter M. Henson is RJC's Personality of the Week. He was chosen because of his versatility and variety of interests. Walter, more commonly known as "Pogo," is the son of Mr. and Mrs. W. M. Henson of 2441 Stephen Lee Drive, Fort Worth. A freshman at Ranger, he is majoring in biology. He plans to enter Texas A&M School of Marine Biology after finishing Ranger Junior College.

Walter's hobbies are many and varied. He has been skin diving for five years and salvage diving for three. He has become almost a fanatic in this field and has collected a great deal of equipment. He has also become a very proficient boxer. He reigned as Golden Gloves champion in Fort Worth in 1961 and 1962. In addition to these hobbies, Walter likes hunting, fishing, water skiing and spear fishing. He also enjoys playing cards and is a proficient card player.

GENE BOLTON

Gene Bolton, shortstop on the Ranger Junior College baseball team, is a graduate of Ralph Bunche High School, Crockett, Texas. He participated in football, basketball, and baseball while in high school, and he was a letterman on the RJC football team this year. A physical education major, he plans to be a coach. He is five feet and seven inches tall and weighs 160 pounds.

ATTEND CONFERENCE

Mrs. R. L. Hamrick, Mrs. J. P. Morris, and Mrs. Arthur Murrell were in San Antonio recently where they attended the 29th annual conference of College Teachers of English of Texas.

RJC Linksmen Play Navarro And Cisco JC

The Ranger Junior College golf team challenged the forces of Navarro and Cisco this week. Tuesday the Rangers found an aggressive, determined team in Navarro Junior College. Both Albert Salinas of Dallas and Jack Taylor of Fort Worth were defeated in individual matches, and their low ball match was closed out 5 and 4.

Thursday the Cisco Junior College team came to Ranger to do battle with the Rangers. Salinas, after being one down for the front nine, came back to win his match 2 and 1. Taylor, playing two matches, defeated Duff Hale 2 and 1 and lost to Danny Tipton 3 and 2.

The Rangers, after losing four straight matches, have broken into the winner's circle. Next Monday the RJC golfers are back in competition against Temple Junior College in Temple.

RJC CAMPUS QUIZ

If you had one wish, what would it be? A recent survey was made on the Ranger Junior College campus, and it seems that everyone wishes for something different in life.

Tonia Arnold of Strawn wishes that all the rest of her wishes would come true. Chuck Brazeal of Graham wishes only for eternal happiness.

Rodney Stephens of Gorman wants only a million dollars, tax free.

Bear Young of Graham wishes for contentment for the rest of his life.

Mrs. Arthur Murrell wishes that she could travel when and where she wants to, any time she is ready.

Gerald Haile of Newcastle wishes that he had already finished with a master's degree.

Bill Wilkinson of Newcastle wishes he didn't have to go to school.

Terry Logan of Graham wishes he had a million dollars.

Gary Morris of Azle wishes that he didn't have to take notes in government class.

Doyle Weldon of Graham wishes he could be a trainer in a bigger school, like the University of Texas.

Gene Tomas of Ganado wishes that he were married.

Emil Halencak of Thalia wants ten more wishes.

Steve Orsak of Victoria wishes to be a state senator.

Allen Swartz of San Antonio wishes to receive all that life has to offer.

Mike Moore of Troy wishes that all his wishes would come true.

Mike Cook of Graham says that he wishes that he were a millionaire.

J. L. Campsey of Devine wants a million dollars.

Waymon Fleming of Andrews wishes for a doctor's degree and a good job.

Mrs. James P. Morris wishes an end to strife, both public and private.

All of the students quizzed wished for something bearing

ENJOYING SPRING sunshine and blooming redbud trees on Ranger Jr. College campus are two popular students, Miss Glynda Wilson of Ranger and Albert Possi of Victoria.

SIGNS OF SPRING

By JOHN MAY

Spring has sprung once again on the Ranger Junior College campus, infecting students and teachers alike with her fever and fervor. The signs of her coming are noticeable in the classroom, in the Student Union Building, and on the campus itself.

Watch a class of RJC students, and Spring subtly makes herself evident. You will probably see a boy gazing out of an open door or window, beckoned by the sun and a fragrant breeze, or a girl staring either at the boy or into space. Many of the students will appear drowsy, and a few will be lulled to sleep by the teacher's voice. The more vigorous ones will be whispering to one another, and perhaps a girl and boy will be chatting. A teacher's calling for attention and quite will complete the scene.

Look in the Student Union Building or at cars parked around the campus and you will find spring more clearly apparent. You will find a group of boys discussing girls or a group of girls discussing boys. More often a boy and girl will be discussing each other. Leaning against a booth or car seat with shoulders touching, they talk about little nothings and smile at one another with their eyes; or content with just the other's presence, they say nothing. But whether it is by

on personal betterment or happiness, several expressing a desire for money. Only one wish put the welfare of others before personal wants or pleasures.

twos or by groups, where you find one, you find the other; a boy and a girl, that is.

Wander around the campus, and a variety of things herald springs coming. You see the green of the grass and trees and the flash of bare legs and brightly colored skirts. Crewcuts and sunbans appear. The blues, red, and whites of dresses and shirts compete with the blossoming flowers. You feel warm breezes, smell the scented air and earth, and hear shouts of laughter mingled with the singing of birds and insects.

Ranger Golfers To Compete In Borger Tourney

The Ranger College golf team has been entered in the 36-hole Borger Tournament April 24-25. Freshmen Albert Salinas of Dallas and Jack Taylor of Fort Worth will represent the college in this event. Coach Jim Lewis will take his golfers to Borger on Thursday and return Saturday, April 25.

The Texas Junior College Athletic Conference tournament will begin the following Monday, April 27, at Lone Cedar Country Club, Ranger. This event consists of 72 holes of medal play, featuring a two-man team from each conference school. This tournament determines the representatives for the national tournament from this conference.

Spring? - How Is It With You?

BY DOUG WELLBORN

There's a definition in Webster's Collegiate Dictionary that says spring means "To jump about," but the spring of which I speak affects most of us in the opposite way. It is that time of the year when laziness dominates and the energetic are hard to find. It's that time when oftentimes we wake up, or rather get up (we don't really wake up until noon), and put the shoe on the wrong foot, brush our teeth with Brylcreem, rub lather into our hair, (tube lather bears a remarkable resemblance to hair cream), and go out and receive such compliments as, "Hey, Dad, you still using that greasy kid-stuff," or "Hey, soaphead you ought to shave." Needless to say, those of us who've been in this predicament go on our somber, shiftless way with a greasy grin and a terrible taste in our mouths.

We arrive in class and sit down. The windows are open, the birds are chirping, the air comes wafting in and our thoughts wonder. Are the fish biting? Who will win the pennant this year? Will I meet the girl of my dreams? What will... "Students, you must make an effort to concentrate on studies." Poof, our dreams are gone and we're brought back to reality by those pillows of strength, endurance, wisdom and courage - our teachers, who must make twice the effort as they have to marshal both themselves and the students.

All in all, it is a wonderful time of the year, the time when our thoughts turn to love, fishing, love, water-skiing, love, hunting, love, and numerous other hobbies and away from school books, themes, and homework. Good luck, teachers, good luck! Spring? How is it with you?

RETURN HOME

Dr. and Mrs. Thomas Adkins and children, Mary, Tommy and Robert, returned home Wednesday after visiting her parents, Mr. and Mrs. S. M. McAnely.

Trio Attends Two Day Meet At Brownwood

Ranger Junior College was represented at the Howard Payne College 1964 Democracy in Action Seminar, April 10 and 11 by two students and one instructor from the social science department.

Mrs. James P. Morris, instructor in the department, accompanied Larry Beck and Steve Orsak to the seminar in Brownwood's new coliseum and in Howard Payne's new science building, Winebrenner Hall.

The opening meeting on Friday evening, featured Mr. Herb Philbrick, author of "I Led Three Lives."

On Saturday, April 11, workshops and buzz sessions for both students and faculty were held and plans for preserving our American Heritage, received full attention.

Mrs. Morris said that this important seminar was an all expenses paid gift of Howard Payne College, including gasoline, hotel, meals and Mr. Philbrick's lecture.

David B. Allsup Receives Grant

David B. Allsup, chairman of the biology department, science division of Ranger, granted a stipend by the National Science Foundation to attend New Mexico Highlands University, at Las Vegas, New Mexico.

The term is for seven weeks and will begin June 29 through August 14. Allsup will study biophysical chemistry. This institute is for teachers of biology, chemistry and physics, under the supervision of Dr. Robert S. Weatherwax.

Allsup will be working toward a doctoral degree, having done other study in this area at North Texas State University and at Oklahoma University. He has the B. S. and M. S. degrees from East Texas State College.

JAMES HENRY has served this year as business manager of the Ranger Junior College annual, "The Ranger." His parents are Mr. and Mrs. Walter Henry.

CHRISTIAN SCIENCE
"The kingdom of heaven is at hand. Heal the sick, cleanse the lepers, raise the dead, cast out devils: freely ye have received, freely give." These words from Matthew (ch. 10) will be used as the Golden Text at Christian Science churches next Sunday. The question, "Are Sin, Disease, and Death Real?" will be explored in passages from the Bible and the Christian Science textbook, including this statement: "God is not the author of moral discords. Therefore we accept the conclusion that discords have only a fabulous existence, are mortal beliefs which divine Truth and Love destroy" (Science and Health with Key to the Scriptures by Mary Baker Eddy, p. 231).

They are Mrs. Charles S. Sandler of 401 West 9th Street and Mrs. R. A. Bearman of 115 West 7th Street.

The Ciscoans were among those participating in the tournament at the Hi-Way House in Abilene in a game conducted by Mabel Lilius 4256 Don Juan, Abilene. They had a score of 68.5 per cent as compared with 74.2 per cent for the national winners — a couple from California.

A total of 18,348 players participated in the tournament, which was held to raise money for the League's Charity Fund. The large field played identical deals in 222 separate games throughout the United States and Canada on the night of March 6th, raising \$32,268 for the fund.

Both Mrs. Sandler and Mrs. Bearman are members of the Cisco Kid Duplicate Bridge Club and the Lone Cedar Country Club duplicate club and play weekly in their sessions. Lloyd London of Cisco is the director of both clubs.

"This is a very fine honor for Mrs. Sandler and Mrs. Bearman and for Cisco," Mr. London said. "When you consider the fact that they were the top players for the entire state you realize the significance of their victory. Members of the two bridge clubs will certainly have every right to be very proud of their state championship players."

Omar Burleson Issues Statement In Congress Race

Omar Burleson, veteran Congressman from the 17th District, issued a formal statement Friday in connection with his bid for reelection in the May 2nd Democratic primary. He is conducting an active, vigorous campaign.

In seeking reelection, Mr. Burleson said that he is basing his campaign on his record of nearly 18 years service in Congress.

"I do not think the people of the 17th District want or deserve anything less."

Mr. Burleson, at 58, is already one of the senior members of the U. S. House of Representatives in the point of service.

His seniority has carried him to the chairmanship of the potent House Administration Committee, and to the third ranking position on the powerful House Foreign Affairs Committee. In addition, Mr. Burleson serves on two important Joint Committees formed from senior members of the House and Senate, as Chairman of one and Vice Chairman of the other.

"In all my years in Congress," Mr. Burleson said, "I have followed two guiding

MR. BURLESON

principles: First to know the views of my constituents and reflect their sentiments to the greatest degree possible in my actions as their Representative. Second, to inform and advise as closely as I can on those issues which affect my district, my state, and the nation.

Mr. Burleson termed his approach to government as one of "common sense," gained through his years of public service.

A former special agent for the Federal Bureau of Investigation, Mr. Burleson is former county attorney and county judge of Jones County, and served three years during World War II in the Pacific.

As a leader in Congress, Mr. Burleson has consistently urged the return to a sounder fiscal policy, and the cutting of unnecessary and extravagant federal spending.

"I have tried to see that your tax money is spent as wisely, and as frugally, as you

Gibbens Reveals Ford Foundation Grant To Council

Representative Wayne Gibbens of this district has announced the approval of a Ford Foundation grant of \$88,000 to the Texas Legislative Council which will help a five year program for "interns" in the Texas Legislature next September.

Gibbens, chairman of the Finance Committee of the Legislative Council is also serving on the Legislative Internship Advisory Committee with House Speaker, Byron Tunnell and Lieutenant Governor, Preston Smith.

Representative Gibbens said there is a four-fold purpose in the new plan:

- (1) to help provide the legislature with competent service and research staff personnel.
- (2) to stimulate research in and improve teaching programs about the legislative process.
- (3) to provide practical experience.
- (4) to open freer communication between the academic community and the Legislature and its agencies.

The primary aim of course is simply to attract qualified personnel to careers in government, careers that sometimes go begging for want of proper encouragement, Gibbens said.

Interns will work directly with the Legislature and its committees, the Texas Legislative Council, the Legislative Budget Board and the governor's office.

The opportunity appears to be broad and the basic qualifications are not out of reach of interested students. Applicants must have one year of graduate study. This may be in a school of law, in government, journalism, economics or other social sciences.

They need not be currently enrolled in graduate studies. The advisory committee will make final selections. This group is made up of representatives from both legislative houses, the service agencies, the governor's office and The University of Texas.

There are seven places open for the first year of the program next September.

would have spent it had you been in my place," Mr. Burleson said. "The record will definitely show that on many occasions I have found myself in the minority — especially on needless spending of the taxpayers money. I am proud that I have never failed to exercise the right to vote and to do as I thought best."

"At every session of Congress, I have voted for expenditures below that recommended by the Executive Department, and far below that actually appropriated by the Congress, except in the field of National Defense," Mr. Burleson said.

More Lots Open Plans Underway For Lake Cabins For Annual Lone Cedar Golf Meet

Fifteen new lots have been surveyed and are ready to be leased on the north shore of Lake Cisco, Mayor John H. Webb reported Friday. The new lots are located east of the group of lots opened last year.

Work was near completion of the new public boat launching ramp on the south shore.

The locusts of the plagues are also called shorthorn grasshoppers.

The wheeled chariot made the Sumerian army invincible until the Syrians also adopted the device.

'The South Pacific Is An Ideal Used-Blade Depository'

By JOSEPH PERKINS
At Sea: March 22, 1964
After sending my first letter just before sailing from Los Angeles, I was deluged with many messages and packages of fruit from friends and well-wishers. I was glad to notice that there were no flyers. They probably may come later—many years later!

The Pacific is a large and lonely ocean. We have seen no other ship since leaving California three days ago. We are far from lonely on this ship however, as we have already made friends with couples from Alaska to Connecticut, including five couples from good old Texas. And there is plenty to do. Eating is one, and the food is wonderful! The breakfast menu includes over fifty items to choose from and the dinner menu really needs an index it is so large. As yet we are still in a cool climate with temperatures in the 50s and 60s. In another day or two it should get much warmer. On deck, shuffleboard, tennis and deck-quoits are popular, and I am getting active in the latter.

Yesterday we had a lecture on Bora Bora, the island we will visit on Friday, March 27. The literature calls it "a flawless tropical gem" and it is regarded as being one of the most lovely small islands in French Polynesia. It is

protected by a circular coral reef and containing a volcanic peak, Mt. Otemanic. It was discovered by a Dutch sea captain in 1722 and was later visited by Captain Cook and the famous Captain Bligh.

Last night at dinner there suddenly appeared at our end of the dining room six or seven waitresses who immediately sang, "Let Me Call You Sweetheart," to the astonishment but pleased couple. It was their wedding anniversary.

This morning while shaving I had this thought: what a wonderful place the Pacific Ocean is to get rid of a dull razor blade. And as it takes its rigid course down thousands of feet towards the bottom of the sea, suppose some poor fish should snap it up? What would his feeling be later on?

Our courteous and attractive waitress has a sense of humor. She takes life seriously, however, and when asked where she lives she replied, "San Francisco and I am now only one hundred and thirty six miles from home."

Tuesday, March 24, 1964
We have just crossed the equator, an event punctuated by the appearance of King Neptune and his queen, dressed in appropriate style, with several court attendants. There followed some wildly

exciting antics as the uninitiated were given the full treatment including a ducking in the swimming pool.

Yesterday morning I discovered a bird on the boat deck. He was larger than a dove and evidently had come aboard during the night. I learned from the navigation officer that the ship was 1,140 miles from the nearest land. A biologist professor from the University of California is on the ship and he identified the bird as a petrel. After resting until nearly noon he took off for an unknown destination. Since he can rest and relax on the water and there are many flying fish about I have no fear for his future.

The ship Monterey is well equipped to keep the tourists busy and happy with nearly all sorts of entertainment. During the day there is table tennis, deck quoits, shuffleboard, movies and lectures, not to mention three good meals.

In the evenings there is dancing, a fine library and reading room, a writing room, theater, band concerts and cards. The ship's photographers are everywhere and just about everyone gets in the pictures. For those who wish to use it, there is an excellent laundry available with several automatic washing machines, dryers, and ironing equipment. It is all free and is well patronized. Also, there is a bar, barber shop, beauty parlor and a nice gift shop.

I was much interested in a visit to the bridge where I found every modern navigational aid and a quite remarkable fire detection system, including automatic closing of fire retarding doors throughout the ship. And there are enough sturdy lifeboats for everybody's safety. All in all this is a good American ship!

Last night the sky was clear and for the first time on this trip we saw the Southern Cross. This constellation appears on both the New Zealand and the Australian flags. Last night's dinner decorations were in French motif because we are approaching the French islands.

Low Bid Amounts To \$212,453.00

Rouse and Parsons of Abilene was the low bidder for a contract to build ten duplex apartments for the Cisco Housing Authority when bids were opened at a meeting at 1 p.m., Thursday, Apr. 9, at the Chamber of Commerce offices. The low bid was \$212,453.00.

E. J. Poe, chairman of the housing authority, announced that the board voted to recommend approval of the Rouse and Parsons bid at a meeting that followed immediately. Final approval will come from the Public Housing Administration offices in Fort Worth.

Other bidders for the construction job were Barker Construction Co. of Quanah, \$218,700; M&M Development Co., Guessa, \$234,000; Ken-Kidurz Co., Afton, Iowa, \$234,868; and Houston Hill Co., Midland, \$243,700.

R. A. Bearman, executive secretary of the authority, reported that it probably would be about May 1 before construction work can be started. Ten days or more will be needed before PHA completes studying the bids and approves the contract, and the contractor will need another ten days or two weeks to move in equipment and materials.

The project will provide 20 apartments for senior citizens under the PHA's special program. They will be added to the 50 units that the local authority built in 1951.

Consumers are faced with many problems in buying today's fabrics. These problems result from the many new fabric finishes, the increasing number of fibers and the growing practice of blending fibers.

Textile labeling helps the consumer make wise choices which will provide for greater satisfaction in use.

A label is required by law to tell the consumer:

1. The generic or family name of the fiber.
2. The registered identification number, or name under which business is conducted.
3. The percent of each fiber in the fabric, listed in the order of its predominance by weight. If the fiber content is 5 percent or less, it is listed as "other fibers."
4. The fiber trade name may appear with the generic name but the lettering must appear in equal size at least once on the label.
5. The country of origin, if other than the United States.

Consumers can promote the use of labels by asking for and using informative tags; patronizing firms which label merchandise well; demanding wider use of informative labels; letting people know when a label is helpful; understanding the label terminology and filing the label for future use as one would a recipe.

Former Resident Teacher At Sam Houston College

According to a member of the Governor's committee for the aging, senior citizens living in urban areas face more anxiety than do their rural area counterparts.

A SAD STORY

Behind many "For Sale" signs there is a sad story: A family borrowed more than they could afford to pay for a home, or payments and interest rates were too high; the home had to be sold, often at a loss. This tragedy could often be avoided if the families would seek help from a home loan specialist, such as our Association.

We work with you to arrange for a loan that's as easy to handle as monthly rent.

You cook for pennies...

when you cook electrically

You'll be delighted to find out how little it costs to cook the modern electric way. Surface units cook by direct contact with utensil bottoms, use heat thriflily. The electric oven, insulated all around including the bottom, keeps heat inside where it belongs. And once the oven reaches the temperature you select, it uses electricity about one-fourth of the cooking time. It costs the average family only about 3¢ a meal to cook with flameless electricity. See your electric range dealer soon. Cook better... live better... electrically!
